Pursuant to the governor's letter and the provisions of section 211(k)(6), the prohibitions of subsection 211(k)(5) will be applied to the Dallas/Fort Worth ozone nonattainment area beginning January 1, 1995 (unless delayed, as provided above). This area is classified as a moderate ozone nonattainment area.[3]

The application of the prohibitions to the Dallas/Fort Worth area cannot take effect any earlier than January 1, 1995 under section 211(k)(5) and cannot take effect any later than January 1, 1995, under section 211(k)(6)(A); unless the Administrator extends the effective date by rule under section 211(k)(6)(B).

Dated: September 30, 1992.

William K. Reilly,

Administrator.

GENERAL SERVICES ADMINISTRATION

41 CFR Part 101–16

[FPMR Temp. Reg. D–75 Supp. 1]

Governmentwide Real Property Asset Management

AGENCY: Office of Governmentwide Real Property Policy, GSA.

ACTION: Temporary regulation.

SUMMARY: This supplement to FPMR Temporary Regulation D–75 extends the expiration date to September 30, 1993. FPMR Temporary Regulation D–75 implements Executive Order 12411, of March 29, 1983, and Executive Order 12512, of April 29, 1985.

This regulation provides broad guidance in the planning, acquisition, management and disposal of real property and is not designed to supplant existing agency regulation. Rather, it serves as a general guide for asset management and provides the tools to maximize economy and efficiency within the Federal community, ensures the protection and maintenance of the Federal Government's assets, supports individual agency program goals, and ensures a unified Federal approach to real property asset management.

DATES: *Effective date:* This regulation is effective October 1, 1992.

Expiration Date: This regulation expires September 30, 1993.

FOR FURTHER INFORMATION CONTACT: James M. Cayce, Acting Director, Office of Governmentwide Real Property Policy (202–501–0507).

SUPPLEMENTARY INFORMATION: GSA has determined that this rule is not a major rule for the purposes of E.O. 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of $100 million or more; ■ major increase in costs to consumers or others; or significant adverse effects. Therefore, a Regulatory Impact Analysis has not been prepared. GSA has based all administrative decisions underlying this rule on adequate information concerning the need for, and the consequences of this rule; has determined that the potential benefits to society from this rule outweigh the potential costs and has maximized the net benefits; and has chosen the alternative approach involving the least net cost to society.

Regulatory Flexibility Act

The General Services Administration has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

List of Subjects in 41 CFR Part 101–16

Federal real property asset management.

GSA's authority for issuing this temporary regulation is contained in Executive Order 12411, Executive Order 12512 and in the Federal Property and Administrative Services Act of 1949 amended (40 U.S.C. 486(c)).

In 41 CFR chapter 101, this temporary regulation is added in the appendix at the end of subchapter D.

Dated: September 14, 1992.

Federal Property Management Regulations Temporary Regulation D–75 Supplement 1

To: Heads of Federal agencies.

Subject: Governmentwide Real Property Asset Management.

1. *Purpose.* This supplement extends the expiration date of FPMR Temporary Regulation D–75.

2. *Effective date.* October 1, 1992.

3. *Expiration date.* This supplement expires September 30, 1993.

4. *Explanation of change.* The expiration date of FPMR Temporary Regulation D–75 is revised to September 30, 1993.

Richard G. Austin,

Administrator of General Services.

BILLING CODE 6820–34–M

FEDERAL MARITIME COMMISSION

46 CFR Parts 514 and 581

[Docket No. 92-21]

Amendments to Service Contracts

AGENCY: Federal Maritime Commission.

ACTION: Final rule.

SUMMARY: The Federal Maritime Commission amends its regulations in parts 514 and 581 to allow the parties to a filed service contract to amend the contract's "essential terms." The intent of this amendment is to create a more flexible service contract system in order to benefit carriers, U.S. shippers and consumers. Similarly situated shippers who had previously accessed the contract have the option of either continuing under the original contract or accessing the amended terms. Similarly situated shippers who had not previously accessed the contract may access the amended contract, in which case the shippers' minimum cargo volume obligation must be pro-rated according to the duration of the amended contract.

EFFECTIVE DATE: October 8, 1992.

FOR FURTHER INFORMATION CONTACT:

Robert D. Bourgoin, General Counsel, Federal Maritime Commission, 800 North Capitol Street, NW., Washington, DC 20573, (202) 523–5740.
Bryant L. VanBrakle, Director, Bureau of Tariffs, Certification and Licensing, Federal Maritime Commission, 800 North Capitol Street, NW., Washington, DC 20573, (202) 523–5796.

SUPPLEMENTARY INFORMATION:

Background

By a Notice of Proposed Rulemaking ("NPR") published in the **Federal Register** on May 4, 1992 (57 FR 19,102), the Federal Maritime Commission ("FMC" or "Commission") proposed to amend its regulations to allow the parties to a filed service contract to amend the contract's "essential terms." Section 3(21) of the Shipping Act of 1984 ("1984 Act") defines a service contract as * * *

> * * * a contract between a shipper and an ocean common carrier or conference in which the shipper makes a commitment to provide a certain minimum quantity of cargo over a fixed time period, and the ocean common carrier or conference commits to a certain rate or rate schedule as well as a defined service level—such as, assured space, transit time, port rotation, or similar service features; the contract may also specify provisions in the even[t] of nonperformance on the part of either party.

46 U.S.C. app. 1702(21). Section 8(c) of the 1984 Act requires that * * *

> * * * each [service] contract * * * shall be filed confidentially with the Commission, and at the same time, a concise statement of its essential terms shall be filed with the Commission and made available to the general public in tariff format, and those essential terms shall be available to all shippers similarly situated. The essential terms shall include—
>
> (1) the origin and destination port ranges in the case of port-to-port movements, and the origin and destination geographic areas in the case of through intermodal movements;
>
> (2) the commodity or commodities involved;
>
> (3) the minimum volume;
>
> (4) the line-haul rate;
>
> (5) the duration;
>
> (6) service commitments; and
>
> (7) the liquidated damages for nonperformance, if any.

Id. 1707(c)

The NPR noted that the Commission's service contract regulations already permit contract parties to change a contract's essential terms, once filed, in two ways. First, the parties may make retroactive corrections of clerical or administrative errors through a specified procedure: The request for permission to correct must be filed with the Commission within forty-five days of the contract's original filing; the filing party must submit an affidavit describing the circumstances that gave rise to the error; the other contract party must submit a statement concurring in the request for correction; and the access rights of similarly situated shippers are protected. 46 CFR 581.7(b). Second, contract signatories can provide for substantive modifications of the contract's essential terms through contingency clauses. *Id.* 581.5(a)(3)(viii). Similarly situated shippers have a right to access the contingency clauses as well as the basic essential terms, and the Commission has prescribed a procedure whereby similarly situated shippers are informed of changes in a service contract as a result of an activated contingency clause. *Id.* 581.6(b)(5).

Otherwise, however, the FMC's regulations presently provide that "[t]he essential terms originally set forth in a service contract may not be amended * * *." 46 CFR 581.7(a). The NPR recounted the history of this restriction as dating to November, 1984, when the Commission published final rules implementing the new service contract provisions of the 1984 Act. *Service Contracts; Loyalty Contracts; and Publishing and Filing of Tariffs by Common Carriers in the Foreign Commerce of the United States*, ____ F.M.C. ____, 22 S.R.R. 1414 (1984). The Commission believed the restriction was necessary to prevent unfairness to similarly situated shippers. *Id.* at 1432. The prohibition was carried forward in subsequent rule revisions. *Service Contracts*, ____ F.M.C. ____, 24 S.R.R. 277, 300 (1987).

The NPR then pointed out that the Commission's concerns in 1984 about potential unfairness, when service contracts were a new concept in ocean transportation, may not have been borne out by actual shipper experience in subsequent years. It noted that when the FMC surveyed shippers about the new Shipping Act during the preparation of its report in 1989 to the Advisory Commission on Conferences and Ocean Shipping, permitting service contracts to be amendable was identified by shippers as the most important change they would like to see in the Commission's regulation of service contracts. Further, the NPR stated, the Commission's own experience with service contracts has been that very few contracts are "me-too'd" by outside shippers, which calls into question whether the benefits of the present no-amendment regulation justify removal of a right freely held by contract parties at common law. The NPR also acknowledged that the original concern that amending service contracts might leave shippers unable to take advantage of an amended contract did not take into account the possibility that some shippers who had been unable to "me-too" an original contract might be able to "me-too" the contract as amended.

The NPR stated that the proposed rule was drafted to accommodate the desire for greater flexibility under service contracts with the statutory prerogatives of similarly situated shippers. Corresponding to the procedure already in place for corrections of administrative or clerical errors, shippers who have accessed a service contract would have the choice of continuing under their original "me-too" contracts or electing to amend their contracts in the same way as the basic contract parties. To protect shippers who were unable to meet the original essential terms of a service contract, but could meet the terms as modified, the proposed rule further provided that the essential terms of an "amended service contract" as well as an "initial service contract" would be made available to all other shippers or shippers' associations similarly situated. The proposed rule also made technical changes to reflect the redesignation of the former Bureau of Domestic Regulation as the Bureau of Tariffs, Certification and Licensing.

In addition, the NPR solicited comments on four other issues raised by the proposal to permit amendments to the essential terms of a service contract:

1. Should the ability to amend be limited to only certain essential terms (*e.g.*, volume, origin and destination points) but not others (*e.g.*, rates)?

2. Should the ability to amend a contract be limited in time, *e.g.*, only during the first half of the contract's period, or within 60 days of its filing with the Commission?

3. What term should the shipper accessing an amended contract receive: The full original contract term, or only the time remaining?

4. Could and should the Commission require that the filing of amendments to a service contract be accompanied by a statement of the reason for the amendments?

Commenters desiring a particular result in these or other related areas were requested to include suggested rule language.

Summary of Comments

A. Supporting Comments

Comments in support of the proposed rule were filed by a number of shippers and shipper organizations—The Agriculture Ocean Transport Coalition ("AgOTC"); the American Institute for Shippers Associations, Inc. ("AISA"); the American Paper Institute ("API"); Cargill, Incorporated; ConAgra, Inc.; Corning Incorporated; E.I. du Pont de Nemours and Company ("Du Pont"); Hiram Walker & Sons, Inc.; the National Industrial Traffic League ("NIT League"); Weyerhauser Paper Company; and Union Camp Corporation—one carrier, Orient Overseas Container Line, Ltd. ("OOCL"), and the U.S. Department of Transportation ("DOT").

These commenters argue that the NPR's reference to the common law of contracts, whereby parties are free to amend a contract as long as it remains executory, was appropriate and should guide the Commission's regulation of service contracts. They cite in this regard the provision of section 8(c) of the 1984 Act that gives exclusive jurisdiction over breach of service contract disputes to common law courts. In general, they argue that shippers should be able to restructure their service contracts when business conditions change or new opportunities arise.[1] DOT states:

> Within the confines of the Shipping Act of 1984, the Commission's proposal would allow contracting parties more of the freedom to modify their bargain that exists in other industries, while maintaining the statutory protection now mandated for similarly situated shippers. The new rule, in other words, embodies the approach to statutory administration that is most consistent with sound public policy: it implements ongoing legal requirements in a manner that minimizes regulatory burdens.

Comments at 2. Union Camp similarly views the proposed rule as giving service contract parties the maximum freedom possible under current law:

> Until such time as the proper contracting environment is created by Shipping Act amendments to limit conference antitrust immunity pertaining to service contracts and exempt contracts and exempt contracts from FMC jurisdiction, the Proposed Rule would bring contracts as close as regulatory change can to that environment.

Comments at 3.[2] ConAgra argues that any concerns about discrimination are not well-founded:

> In the unlikely event that the freedom to amend service contracts is abused so as to discriminate against similarly situated shippers, that will become readily apparent and the Commission will be able to deal with it.
>
> However, the freedom to amend service contracts should not be denied to shippers and carriers on the basis of the mere supposition that it might result in abuse, particularly when the shippers who are the supposed beneficiaries of the present prohibition are so overwhelmingly in favor of the right to amend service contracts.

Comments at 4–5.[3]

On the four related issues posed by the NPR, these commenters all oppose any restrictions on the essential terms eligible for amendment. API argues that "the ability to amend should not be limited to only certain essential terms, but rather, should extend to any and all aspects of a contract to which the parties mutually agree should be changed." Comments at 3 (emphasis in original).[4] Du Pont asserts that "flexibility to meet customer demands is of utmost importance * * *." Comments at 1. Similarly, this group opposes any limits on when an essential term can be amended, urging that the Commission simply follow the common law rule noted in the NPR, *i.e.*, amendments should be permissible as long as the contract remains executory.

The question of what term should be available to a shipper "me-tooing" an amended contract caused some division. AgOTC [5] and API argue that outside shippers should not have a right to access an amended contract at all, because this would discourage amendments; under this approach, the statutory "me-too"right would apply only to original contracts, AgOTC Comments at 4; API Comments at 5. A few others would leave this matter up to the accessing shipper and the carrier to settle as they see fit (Union Camp, Hiram Walker and AISA [6]). Most contend that allowing the accessing shipper only the term remaining on the contract is "the fair approach." Du Pont Comments at 2. NIT League submits that "[t]o provide a [me-too] party with a term equal to the full original contract term would be an impermissible extension of the original contract term." Comments at 5. The possibility that the contract term itself may be the amended essential term accessed by an outside shipper was recognized only by DOT:

> * * * DOT submits that the time for performance should be treated identically to other contract terms, such as rates and service commitments. * * * Shippers who are similarly situated to the amended contract and who are not already participating in a "me too" arrangement would have their section 8(c) rights ensured if they are given the opportunity to avail themselves of the terms as subsequently modified, including the time allowed for performance by the amendments. In other words, regardless of whether new contracts expand, contract, or retain the time for performance contained in

---

[1] The same themes are sounded by OOCL, which states that service contracts should be brought "more into line as true contracts" and that "shippers and carriers should have greater commercial flexibility between themselves." Comments at 2.

[2] Union Camp is a leading manufacturer and exporter of paper packaging chemicals and building products. It states that in 1990 it shipped roughly 20,000 TEU's of containerized cargo to virtually all major world markets, and that over forty percent of its containerized exports move under service contracts. Comments at 1.

[3] ConAgra states that it is "a diversified agribusiness enterprise operating across the entire food chain." Comments at 2. Its various divisions and subsidiaries conduct extensive trade in agricultural commodities and foodstuffs all over the world. *ID.* at 2–4.

[4] API states that it is the national organization of the pulp, paper and paper bond industry, consisting of approximately 175 manufacturers who are substantial users of ocean common carriers in international transportation.

[5] AgOTC states that it is "a coalition comprised of individual companies, cooperatives, shipper associations and national and regional associations involved in the ocean transportation of farm, food, fiber and forest products." Comments at 1.

[6] AISA interpreted the NPR as requesting comments on whether, once a service contract is amended, similarly situated shippers should be able to (1) access the contract for a new full original term commencing from the date the contract has been "me-too'd"; (2) access the contract retroactively for a full term commencing from the original commencement date; or (3) access the contract for whatever term is remaining. AISA favors both (2) and (3). Comments at 6–7. However, only (1) and (3) were contemplated by the NPR, which meant to avoid retroactive amendments. Another complication is that the NPR and most commenting parties, including AISA, overlooked the possibility that the contract term itself may be the subject of amendment. See discussion of DOT Comments in the text *infra*.

an original contract, it is that expanded, contracted, or continued amount of time to which these shippers are entitled.

Comments at 3.

Lastly, these commenters unanimously oppose any requirement that the filing of amendments to a service contract be accompanied by a statement of the reasons for the amendments. Union Camp argues:

> The reason an amendment is required could be the result of highly confidential corporate tactical or strategic planning. Requiring public disclosure of those plans could diminish the attractiveness of a business opportunity or investment. Trading off a contract amendment for confidentiality of reasoning would, in effect, produce the same result as no ability to amend at all.

Comments at 4. ConAgra makes a related point:

> As long as the terms of the amended contract are facially lawful, an explanation of the business reason for their adoption is unnecessary and, indeed, irrelevant to the Commission's exercise of its regulatory responsibilities. In the event that the terms of any particular contract should be so unusual as to warrant explanation, the Commission can request it informally or, if it should become necessary, by more formal means. However, the amendment process should not be burdened by a requirement for explanation of every amendment when such explanation will be totally unnecessary in almost every instance.

Comments at 6.

B. Opposing comments

Commenters opposed to the proposed rule include the North Europe-USA Rate Agreement and the USA-North Europe Rate Agreement ("North Europe Conferences");[7] the Trans-Pacific Freight Conference of Japan and the Japan-Atlantic and Gulf Freight Conference ("Japan Conferences");[8] Crowley Maritime Corporation; and a large group of conferences headed by the Asia North America Eastbound Rate Agreement ("ANERA *et al.*").[9] The National Customs Brokers and Freight Forwarders Association of America "(NCBFFAA") also filed opposing comments.

In general, these commenters submit that the Commission's decision in 1984 not to permit prospective amendment to service contracts—other than through the contingency clause procedure—was correct and should not be reversed. The North Europe Conferences argue that the proposed rule is contrary to the letter and intent of section 8(c) of the 1984 Act and is therefore legally impermissible. They point to the statute's references to the shipper's "commitment" to provide "a certain minimum quantity" of cargo "over a fixed time period," the "certain rate" promised in exchange by the carrier, and the right of similarly situated shippers to access "those essential terms." A free right to amend is characterized as inconsistent with this statutory scheme. Comments at 16–18. The opposing commenters also contend that the NPR was incorrect in suggesting that service contracts should be treated as common law contracts. Crowley argues:

> The rules of common carriage, not common law contract principles, form the touchstone of FMC regulation. Those rules impose restrictions on carriers and shippers to inhibit large shippers from turning their leverage over the market for transportation into a monopoly over the market for the goods they sell. Service contracts were not intended to create a path around basic common carrier requirements. The statute requires that essential shipping terms be published, as in regular tariff-based carriage, and that those terms be available to similarly situated shippers. This is a fundamental tenet of common carriage.

Comments at 3; see also Comments of North Europe Conferences at 18–20.

The opposing commenters further argue that allowing amendments would undermine the commercial stability provided by the service contract system, and would frustrate shippers' ability to "me-too" service contracts. ANERA *et al.* state:

> Shippers and carriers enter into service contracts to ensure a certain amount of stability with regard to rates, service and cargo levels. Once contracts are entered into, carriers are assured a certain amount of cargo on specified routes and shippers are assured a certain level of service at specified rates. This knowledge allows both carriers and shippers to plan their businesses more effectively and efficiently, thereby adding to stability in the marketplace. This stability, in turn, forms the cushion that continues to ensure the tremendous number of service and competitive options that exist in ocean commerce * * *.
>
> Allowing amendments to service contracts would undermine that stability, thereby removing many of the benefits of service contracts. Frequent adjustments to minimum cargo quantity commitments, geographic scopes, rates or carrier service levels would be disruptive to carrier and shipper stability. If amendments were allowed, there would be constant pressure from one party or the other to amend the contract to adjust to the ebbs and flows which occur in the market.

Comments at 3–4. Other commenters are more specific about which party would be causing such "constant pressure." Crowley predicts that the practical effect of the proposed rule "would be to allow shippers to coerce ever increasing, after-the-fact discounts out of carriers. Initial contracts would be meaningless, illusory commitments on the shippers' part * * *." Comments at 1.

These commenters offer examples intending to show how allowing amendments would work unfairness to original shippers, carriers and especially "me-too" shippers. The North Europe Conferences assume a service contract with a 500–TEU volume requirement and a duration of one calendar year. If the contract was amended on December 1 to provide for a 450–TEU volume requirement, they say, the original shipper * * *

> * * * and any similarly situated shippers accessing the original contract, would have 12 months in which to meet that commitment whereas similarly situated shippers who had not accessed the original commitment would have the right to access the amended one and, if so, be required to meet the new 450 TEU minimum volume requirement in one month. Likewise, were the contract amended on December 1st by extending its duration for one month, shipper parties to the contract originally filed would have 13 months in which to ship 500 TEUs and similarly situated shippers not having accessed that contract would have the right to access the amended version and, if so, be required to ship 500 TEUs in two months.

Comments at 14.[10] ANERA *et al.* describe circumstances in which problems could be present even if the shipper's obligation was prorated:

> Assume Shipper A has a two year contract beginning January 1, 1992 and terminating December 31, 1993. Shipper A's [volume obligation] is 2400 [forty-foot equivalent units ("FEU's")]. Four months before the contract expires, Shipper A and the conference or carrier agree to amend the contract by reducing the rates to reflect changes in the market and increased efficiencies that have occurred over the last year and a half. Due to the amendment, during the last four months, Shipper A is able to ship its remaining cargo at rates which are $200 below the original

---

[7] Sea-Land Service, Inc., a member of these conferences, did not join in their comments. Sea-Land filed its own comments, which fall into the group suggesting an alternative final rule, *infra*.

[8] Again, except Sea-Land.

[9] The other conferences included the "8900 Lines"; Israel Trade Conference; Mediterranean North Pacific Coast Freight Conference; South Europe/U.S.A. Freight Conference; United States/East Africa Conference; United States/South Africa Conference; and the U.S. Atlantic & Gulf Western Mediterranean Conference.

Sea-Land, OOCL and American President Lines ("APL"), which are members of some of these conferences, did not participate in their comments. OOCL, as already described, offered general support of the proposed rule. APL submitted comments suggesting a rule similar to Sea-Land's.

[10] The North Europe Conferences' comments above assume that a shipper accessing only the remaining term of an amended contract would not have its volume obligation pro-rated. The proposed rule did not explicitly cover that point.

rates. Shipper B accesses the contract for the remaining term, i.e., four months. The [volume obligation] is prorated, so Shipper B is obligated to ship 400 FEUs in four months at the reduced rate. This result is unfair to Shipper A because Shipper B never had the volume to justify Shipper A's original reduced rates. * * * The conference or carrier also suffers because it is forced to provide service at reduced rates to a shipper without sufficient volume to create economies of scale.

Comments at 10.

Two other arguments made by the opposing commenters are that the proposed rule is unnecessary, because the flexibility to make necessary changes in an existing contract is already provided by the present regulation allowing contingency clauses and because unforeseen changes can be accommodated by execution of a new contract, and that it would be extremely difficult for potential "me-too" shippers to continually monitor the service contracts of interest to them.

C. Comments Offering Qualified Support

A third group of commenters indicates support for—or at least acceptance of—a right to amend service contracts, subject to certain qualifications. These include Sea-Land, APL, the American Import Shippers Association, the Transpacific Westbound Rate Agreement ("TWRA"),[11] Hanjin Shipping Co., Ltd., Tropical Shipping and Construction Co., Ltd., and a group of conferences serving South America, Central America and the Caribbean area ("Latin America Conferences").[12] These commenters oppose amendments to contract terms governing rates and volume. Most would also bar amendments to contract duration and liquidated damages. This group would support (or at least accept) a final rule allowing amendments to terms governing origin and destination port ranges or geographic areas and the commodities involved, although TWRA cautions that "core commodity coverage" (Comments at 1) should not be amended and that only insignificant changes to that term should be permitted. APL adds that "if shippers would like to have the option to effect an increase in service * * *, changes in service commitments should not be precluded." Comments at 5.

These commenters also argue that some limit be placed on when amendments can be made during the life of a contract. Their contention is that overlooked factors will usually become apparent during the early weeks or months of a contract, that *bona fide* changes in circumstances occurring later can always be handled through execution of a new contract, and that amendments in the last stages of a contract will lead to abuse and will undermine the statutory rights of similarly situated shippers. Hanjin Shipping contends that amendments should be permitted only during the first half of a contract's term.

On the question of what term the shipper accessing an amended contract should receive, APL and TWRA argue that the shipper should receive only the time remaining on the contract. The Latin America Conferences offer a more detailed suggestion—similar to DOT's argument on this point—to take into account a situation where the contract's term itself has been amended:

> If the contract has been extended, or is extended after the shipper "me toos", the accessing shipper should be entitled to the extra time. If the contract is not extended, the accessing shipper should only be entitled to the same term as the original shipper.

Comments at 4.

Sea-Land supports a regulation requiring that the filing of an amendment be accompanied by a statement of the reasons for the amendment, but TWRA opposes the idea as meaningless.

Discussion

Upon consideration of the comments, the Commission has determined that, with clarifying amendments concerning the minimum volume obligation appropriate for a shipper accessing an amended contract (46 CFR 581.6(b)) and the form and manner of amendment filing (46 CFR 581.3(a)(2)(iv)(A) and 581.4(b)(1)(iii)), the proposed rule should be adopted as a final rule. We emphasize again that the current restriction at 46 CFR 581.7(a) against amendments to the essential terms of filed service contracts is not mandated by the language or legislative history of section 8(c) of the 1984 Act. Rather, it is a Commission-written increment to the statute that was designed to protect the rights of similarly situated shippers. After eight years of experience with service contracts and administration of section 8(c), the Commission wishes to adjust its policy in this area so that service contracts will be treated more like ordinary commercial contracts, which are freely amendable while executory. The present bar to amendments rests upon the assumption that the statutory right of similarly situated shippers to access a service contract will necessarily conflict with the common law right of the original contract parties to amend their agreement. Operating from that assumption, the current regulation protects the right to access at the expense of the right to amend. The new approach undertaken here seeks instead to allow both similarly situated shippers and original contract parties to exercise their rights in a mutually consistent fashion.

Many of the opposing comments expressed concern that original shippers will renege freely on their contract commitments if amendments are permitted, and that similarly situated shippers will enjoy unfair advantages if they are allowed to "me-too" an amended contract. The solutions to these anticipated problems, should they actually occur, are already available to the parties and do not need reinforcement from FMC regulations.[13] A shipper cannot unilaterally amend a service contract; like the original contract, an amendment must be the product of a free meeting of the minds between both sides. A carrier, therefore, may withhold consent from a proposed amendment that it considers unfair or one-sided. A shipper may have more leverage in negotiating for an amendment if it generates large amounts of cargo, but that is true for service contracts in general; Congress accepted the fact that large shippers may be able to obtain relatively attractive bargains from carriers when it enacted the service contract provisions of section 8(c). H.R. Rep. No. 53 (Part 1), 98th Cong., 1st Sess. 17 (1983). Ultimately, the amount of leverage any shipper can bring to bear in proposing an amendment to a service contract will be controlled by the market forces of supply and demand for cargo space. The Commission does not read section 8(c) as requiring us to shelter carriers from the market by maintenance of the no-amendment rule. Similarly, if an original

[11] Except Sea-Land.

[12] Venezuelan Maritime Association; Atlantic and Gulf/West Coast South America Conference; United States/Central America Liner Association; Central America Discussion Agreement; United States Atlantic & Gulf/Hispaniola Steamship Freight Association; Hispaniola Discussion Agreement; United States Atlantic Gulf/Southeastern Caribbean Steamship Freight Association; Southeastern Caribbean Discussion Agreement; Jamaica Discussion Agreement; United States/Panama Freight Association; PANAM Discussion Agreement; Puerto Rico/Caribbean Discussion Agreement; and the Caribbean and Central American Discussion Agreement.

Sea-Land does not participate in these comments either.

[13] However, in response to those commenters who expressed concern that permitting amendments will encourage abuse, the Commission intends to closely monitor amendment filings and will be prepared to take appropriate action should indications of such abuse develop.

shipper and a carrier are concerned that an amendment will trigger a "me-too" claim from another shipper, they have the option of simply foregoing the amendment.

In sum, the final rule does not limit the right to amend to only some essential terms or to only part of a contract's period.[14] The Commission is also persuaded that the rule should not require that a filed amendment be accompanied by a statement of explanation or justification.[15] With respect to the contract duration available to a shipper accessing an amended contract, although no changes to the proposed rule are necessary, we do wish to clarify that, as suggested by DOT, the duration term must be treated like any other essential term. A shipper accessing an amended service contract is entitled to whatever duration is stated in that contract, and the "me-too" contract must have the same expiration date as the basic contract. On a related matter, § 581.6(b)(1) is amended to clarify that, where a "me-too" shipper who had not accessed the original contract chooses to access the amended contract, the "me-too" shipper's minimum volume commitment must be pro-rated according to the fractional relation between the duration of the contract between the carrier and the original shipper and the duration of the contract between the carrier and the "me-too" shipper. Technical amendments have been made to 46 CFR 581.3(a)(2)(iv)(a) and 581.4(b)(1)(iii) regarding the form and manner of amendment filing.

After the May 4, 1992, publication of the NPR in this proceeding, an interim rule was published on August 12, 1992 (57 FR 36,248), in Docket No. 90–23, *Tariffs and Service Contracts* (46 CFR part 514), which implements the Commission's Automated Tariff Filing and Information System ("ATFI") and tracks part 581 in §§ 514.7 and 514.17. Accordingly, even though the Commission has requested further comment on the proper format for essential terms electronically filed, which will probably generate some further changes, the appropriate provisions of part 514 are amended herein in a manner similar to the changes to part 581 made herein.

Although the Commission, as an independent regulatory agency, is not subject to Executive Order 12291, dated February 17, 1981, it has nonetheless reviewed the rule in terms of that Order and has determined that this rule is not a "major rule" as defined in Executive Order 12291 because it will not result in:

(1) Annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovations, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Federal Maritime Commission certifies, pursuant to section 605(b) of the Regulatory Flexibility Act, 5 U.S.C. 605(b), that this rule will not have a significant economic impact on a substantial number of small entities, including small businesses, small organizational units and small government jurisdictions, because it does not increase business costs or prices for consumers and does not impose substantive restrictions on commercial activity.

The collection of information requirements contained in this regulation have been approved by the Office of Management and Budget under the provisions of the Paperwork Reduction Act of 1980, as amended, and have been assigned OMB control number 3072–0044. Public reporting burden for this amendment to allow the parties to a filed service contract to amend the contract's "essential terms" is estimated to average 13.64 hours per response. This includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate, including suggestions for reducing this burden, to Norman W. Littlejohn, Director, Bureau of Administration, Federal Maritime Commission, Washington, DC 20573, and to the Office of Information and Regulatory Affairs, Attention: Desk Officer for the Federal Maritime Commission, Office of Management and Budget, Washington, DC 20503.

Therefore, pursuant to 5 U.S.C. 552 and 553; 31 U.S.C. 9701; 46 U.S.C. app. 804, 812, 814–817(a), 820, 833a, 841a, 843, 844, 845, 845a, 845b, 847, 1702–1712, 1714–1716, 1718, 1721 and 1722; and sec. 2(b) of Pub. L. 101–92, 103 Stat. 601, parts 514 and 581 of Title 46, Code of Federal Regulations, are amended as follows:

PART 514—[AMENDED]

1. The authority citation for part 514 is revised to read as follows:

Authority: 5 U.S.C. 552 and 553; 31 U.S.C. 9701; 46 U.S.C. app. 804, 812, 814–817(a), 820, 833a, 841a, 843, 844, 845, 845a, 845b, 847, 1702–1712, 1714–1716, 1718, 1721 and 1722; and sec. 2(b) of Pub. L. 101–92, 103 Stat. 601.

2. In section 514.2, the definition of "File or filing" (of service contracts) is revised to read as follows:

§ 514.2 Definitions.

* * * * *

File or filing (of service contracts or amendments thereto) means actual receipt at the Commission's Washington, DC offices. See § 514.7.

* * * * *

3. Section 514.7 is amended by revising paragraphs (a), (b), (f) introductory text, (f)(1), (f)(2)(i), (g)(2)(i), (h)(1)(i), (j)(1)(i), (j)(1)(ii), (j)(2) introductory text, (j)(2)(i), (j)(3)(i), (j)(3)(ii) introductory text, (j)(4) and (k), to read as follows:

§ 514.7 Service contracts in foreign commerce.

(a) *Scope and applicability.* Service contracts shall apply only to transportation of cargo moving from, to or through a United States port in the foreign commerce of the United States. While tariffs and the essential terms of service contracts are required to be filed electronically and made available to the public under subpart C of this part, service contracts themselves and amendments thereto (incorporating mandatory essential terms as described in § 514.17 and confidential names of shippers, etc.), as well as certain related

[14] The final rule includes contracts already on file with the Commission, but, as previously stated, n.6 *supra*, retroactive amendments are not permissible. For example, in the case of a filed service contract that calls for quarterly minimum volumes over calendar 1992, the parties may not file an amendment in November that changes the January–March volume requirement.

[15] The Commission assumes, however, that any contract amendment will be supported by mutual and valid consideration, as is the case at common law

notices, shall be filed in paper, hard copy format under this subpart and section.

(b) *Confidentiality.* All service contracts and amendments to service contracts filed with the Commission shall, to the full extent permitted by law, be held in confidence.

* * * * *

(f) *Availability of essential terms.* A statement of the essential terms of each initial and amended service contract, as set forth in tariff format, shall be made available for inspection by the general public pursuant to the requirements of this section and § 514.17.

(1) *Availability of terms.* The essential terms of an initial or amended service contract shall be made available for use in a contract to all other shippers or shippers' associations similarly situated, under the same terms and conditions, for a specified period of no less than thirty (30) days from the date of filing of the essential terms of the service contract or amendment thereto under § 514.17, as may be adjusted under paragraph (j)(4) of this section, except that, where a shipper or shippers' association not a party to the original contract exercises its right to access the amended contract, the minimum volume obligation for the accessing shipper or shippers' association shall be pro-rated according to the relation between the duration of the original (now amended) contract and the duration of the access contract. The conference or carrier may specify in the Essential Terms Publication the information which must accompany a me-too request and the procedures for submitting same.

(2) * * *

(i) Whenever a shipper or shippers' association desires to enter into an initial or amended service contract with the same essential terms as in another existing service contract, a request shall be submitted to the carrier or conference in writing.

* * * * *

(g) * * *

* * * * *

(2) * * *

(i) The making available of contingent or amended essential terms to similarly situated shippers under paragraphs (f)(1) or (f)(4) of this section;

* * * * *

(h) * * *

(1) * * *

(i) A unique service contract number, and consecutively numbered amendment number, if any, bearing the prefix "SC" (see § 514.17(d)(2));

* * * * *

(j) * * *

(1) * * *

(i) Within 20 days after the initial filing of an initial or amended service contract, the Commission may reject, or notify the filing party of the Commission's intent to reject, a service contract and/or statement of essential terms that does not conform to the form, content and filing requirements of the 1984 Act or this part. The Commission will provide an explanation of the reasons for such rejection or intent to reject.

(ii) Except for rejection on the ground that the service contract or amendment thereto was not filed within ten days of its essential terms, or other major deficiencies, such as not containing an essential term, the parties will have 20 days after the date appearing on the notice of intent to reject to resubmit the contract (in paper form under paragraph (g) of this section) and/or statement of essential terms (in electronic form under § 514.17), modified to satisfy the Commission's concerns.

(2) Rejection. The Commission may reject an initial or amended contract and/or statement of essential terms if:

(i) The initial or amended service contract is not filed within 10 days of the electronic filing of its associated essential terms;

* * * * *

(3) * * *

(i) Performance under a service contract or amendment thereto may begin without prior Commission authorization on the day its associated statement of essential terms is electronically filed, except for rejection under paragraph (j)(3)(ii) of this section;

(ii) When the filing parties receive notice that an initial or amended service contract or statement of essential terms has been rejected under paragraph (j)(2) of this section:

* * * * *

(4) *Period of availability.* The minimum 30-day period of availability of essential terms required by paragraph (f)(1) of this section shall be suspended on the date of the notice of intent to reject an initial or amended service contract and/or statement of essential terms under paragraph (j)(1)(i) of this section, or on the date of rejection under paragraphs (j)(1)(i) and (j)(2) of this section, whichever occurs first, and a new 30-day period shall commence upon the resubmission thereof under paragraph (j)(1)(ii) of this section.

(k) Modification, correction and cancellation of service contract terms.

(1) *Modifications.* (i) The essential terms originally set forth in a service contract may be amended by mutual agreement of the parties to the contract and shall be electronically filed with the Commission under § 514.17.

(ii) Amended service contracts shall be filed with the Commission pursuant to paragraph (g) of this section.

(iii) Any shipper or shippers' association that has previously entered into a service contract which is amended pursuant to this paragraph may elect to continue under that contract or adopt the modified essential terms as an amendment to its contract.

(2) *Corrections.* Either party to a filed service contract may request permission to correct clerical or administrative errors in the essential terms of a filed contract. Requests shall be filed, in duplicate, with the Commission's Office of the Secretary within 45 days of the contract's filing with the Commission and shall include:

(i) A letter of transmittal explaining the purpose of the submission, and providing specific information to identify the initial or amended service contract to be corrected.

(ii) A paper copy of the proposed correct essential terms. Corrections shall be indicated as follows:

(A) Matter being deleted shall be struck through; and

(B) Matter to be added shall immediately follow the language being deleted and be underscored;

(iii) An affidavit from the filing party attesting with specificity to the factual circumstances surrounding the clerical or administrative error, with reference to any supporting documentation;

(iv) Documents supporting the clerical or administrative error; and

(v) A brief statement from the other party to the contract concurring in the request for correction.

(3) Filing and availability of corrected materials.

(i) If the request for correction is granted, the carrier or conference shall file the corrected contract provisions under this section and/or a corrected statement of essential terms under § 514.17, using a special case number under § 514.9(b)(19). Corrected essential terms shall be made available to all other shippers or shippers' associations similarly situated for a specified period of no less than fifteen (15) days from the date of the filing of the corrected essential terms. The provisions of paragraphs (f)(1) to (f)(3) of this section shall otherwise apply.

(ii) The provisions of paragraph (k)(3)(i) of this section do not apply to clerical or administrative errors that appear only in a confidentially filed service contract but not also in the relevant essential terms.

(iii) Any shipper or shippers' association that has previously entered into a service contract that is corrected pursuant to this paragraph may elect to continue under that contract with or without the corrected essential terms.

(4) *Cancellation.* See paragraph (1) of this section and § 514.4(e)(2).

* * * * *

§ 514.8 [Amended]

4. In § 514.8, paragraph (n)(1)(iii)(G)(*3*) is removed.

5. Section 514.17 is amended by revising paragraphs (d)(2) and (d)(3), and the first sentence of paragraph (a)(1), to read as follows:

§ 514.17 Essential terms of service contracts in foreign commerce.

(a) * * *

(1) A concise statement of the essential terms (ETs) of every initial service contract (which is filed in paper form under § 514.7), or appropriate amendments to ETs resulting from any amendment of the filed service contract, shall be filed with the Commission by authorized persons (see § 514.4(d)(5)) and made available to the general public in electronic tariff format under this section. * * *

* * * * *

(d) * * *

* * * * *

(2) *ET (statement of essential terms) and SC (service contract and amendment) numbers.* The "ET Num" and "SC Num" (consecutive for amendments) are defined by the filer and shall be entered in the appropriate fields.

(3) *Period of availability.* The period of availability of the essential terms to similarly situated shippers shall be no less than thirty (30) days, i.e., from the "Filing date" (automatically entered by ATFI for initial or amendment filings under § 514.10(a)(2)) to the "Available until" date (automatically defaulted to 30 days from the filing date, but the filer can enter a later date, making the availability period longer).

* * * * *

§ 514.18 [Amended]

6. In § 514.18, in paragraphs (b) and (c)(3) introductory text, remove the citation "§ 514.7(k)(1)," and add in its place, the citation "§ 514.7(k)(2)."

PART 581—[AMENDED]

7. The authority citation for part 581 continues to read as follows:

Authority: 5 U.S.C. 553; 46 U.S.C. app. 1702, 1706 1707, 1709, 1712, 1714–1716, 1718 and 1722.

8. Section 581.3 is amended by revising paragraphs (a) introductory text, (a)(1)(i), (a)(2)(iv)(A), (a)(2)(iv)(B) and (a)(3)(i) to read as follows:

§ 581.3 Filing and maintenance of service contract materials.

(a) *Filing.* There shall be filed with the "Director, Bureau of Tariffs, Certification and Licensing," the following:

(1) * * *

(i) The outer envelope shall be addressed to the "Director, Bureau of Tariffs, Certification and Licensing, Federal Maritime Commission, Washington, DC 20573."

* * * * *

(2) * * *

(iv)(A) With an accompanying transmittal letter in an envelope which contains only matter relating to essential terms. In filing service contract amendments, the transmittal shall include the effective date and/or filing date of the original service contract;

(B) The envelope and the inside address on the transmittal letter are to be addressed to the "Director, Bureau of Tariffs, Certification and Licensing, Federal Maritime Commission, Washington, DC 20573."

(3) * * *

(i) The making available of contingent or amended essential terms to similarly situated shippers under § 581.6(b)(5) or § 581.6(b)(1);

* * * * *

9. Section 581.4 is amended by revising paragraphs (a)(1)(i), (b)(1)(iii) and the last sentence of (b)(2)(iii)(A) to read as follows:

§ 581.4 Form and manner.

(a) * * *

(1) * * *

(i) A unique service contract number, and consecutively numbered amendment number, if any, bearing the prefix "SC";

* * * * *

(b) * * *

(1) * * *

(iii) Be identified by an essential-terms number bearing the prefix "ET No.," which shall be located on the top of each page of the statement of essential terms. In the case of amended essential terms, only the changed pages shall be filed and each affected amended page shall be likewise identified by the essential-terms "ET No." and a consecutively numbered amendment suffix, *e.g.*, ET No. 86, Amendment No. 1; and

(iv) * * *

(2) * * *

(iii)(A) * * *

The Index shall include for every statement of essential terms, the ET number and consecutively numbered ET amendment number, if any, as provided in paragraph (b)(1)(iii) of this section, the effective duration, as provided in § 581.5(a)(3)(i), the page and section number(s) [where used], and a column for cancellation dates which shall be used as an alternative to cancelling each individual page of the Essential Terms Publication; and

* * * * *

10. Section 581.6 is amended by revising paragraphs (a) and (b) (1) and (2) to read as follows:

§ 581.6 Availability of essential terms.

(a) *Availability of statement.* A statement of the essential terms of each initial or amended service contract as set forth in tariff format shall be made available to the general public pursuant to the requirements of this section and §§ 581.3, 581.4(b) and 581.5.

(b) *Availability of terms.* (1) The essential terms of an initial or amended service contract shall be made available to all other shippers or shippers' associations similarly situated under the same terms and conditions for a specified period of no less than thirty (30) days from the date of filing of the initial or amended service contract as may be adjusted under § 581.8(d); *provided that*, where a shipper or shippers' association accesses an amended service contract with an unchanged termination date, the minimum volume obligation for the accessing shipper or shippers' association must be pro-rated according to the relation between the original contract duration and the duration of the access contract.

(2) Whenever a shipper or shippers' association desires to enter into an initial or amended service contract with the same essential terms, a request shall be submitted to the carrier or conference in writing.

* * * * *

11. Section 581.7 paragraph (a) is revised to read as follows: § 581.7 Modification, termination or breach not covered by the contract.

For purposes of this part:

(a) *Modifications.* (1) The essential terms originally set forth in a service contract may be amended by mutual agreement of the parties to the contract.

(2) Amended service contracts shall be filed with the Commission pursuant to § 581.3(a) of this part.

(3) Any shipper or shippers' association that has previously entered into a service contract which is amended pursuant to this paragraph (a)

may elect to continue under that contract or adopt the modified essential terms as an amendment to its contract.

* * * * *

12. Section 581.8 is amended by revising paragraphs (a)(1), (b) introductory text, (c)(1), (c)(2) introductory text and (d) to read as follows:

§ 581.8 Contract rejection and notice; implementation.

(a) *Initial filing and notice of intent to reject.* (1) Within 20 days after the initial filing of an initial or amended service contract and statement of essential terms, the Commission may notify the filing party of the Commission's intent to reject a service contract and/or statement of essential terms that does not conform to the form, content and filing requirements of the Act or this part. The Commission will provide an explanation of the reasons for such intent to reject.

* * * * *

(b) *Rejection.* The Commission may reject an initial or amended contract and/or statement of essential terms if the objectionable contract or statement:

* * * * *

(c) *Implementation; prohibition and rerating.* (1) Performance under a service contract or amendment thereto may begin without prior Commission authorization on the day both the initial or amended contract and statement of essential terms are on file with the Commission, except as provided in paragraph (c)(2) of this section;

(2) When the filing parties receive notice that an initial or amended service contract, or statement of essential terms, has been rejected under paragraph (b) of this section:

* * * * *

(d) *Period of availability.* The minimum 30-day period of availability of essential terms required by § 581.6(b) shall be suspended on the date of the notice of intent to reject an initial or amended service contract and/or statement of essential terms under paragraph (a)(1) of this section and a new 30-day period shall commence upon the resubmission thereof under paragraph (a)(2) of this section.

13. Section 581.9 is revised to read as follows:

§ 581.9 Confidentiality.

All service contracts and amendments to service contracts filed with the Commission shall, to the full extent permitted by law, be held in confidence.

By the Commission.

Joseph C. Polking,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 87-121; DA 92-1325]

Contour Protection for Shore-Spaced Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: By this action, the Chief, Mass Media Bureau, pursuant to authority delegated in the Report and Order in this proceeding, removes the temporary restriction on FM applications which are short-spaced by more than 8 kilometers. The restriction is no longer necessary based on the staff's experience over the past three years in processing FM applications proposing directional antennas and the staff's refinement of numerous computer programs. The intended effect is to allow FM applicants to make full use of the rule allowing the use of directional antennas to provide adequate contour protection for short-spaced assignments.

EFFECTIVE DATE: November 9, 1992.

FOR FURTHER INFORMATION CONTACT: Charles Jay Iseman, Mass Media Bureau, Federal Communications Commission, (202) 632-6908.

SUPPLEMENTARY INFORMATION: The temporary restriction is contained in a note to § 73.215(e) of the Commission's rules.

Larry D. Eads,

Chief, Audio Services Division, Mass Media Bureau.

BILLING CODE 6712-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018-AB69

Endangered and Threatened Wildlife and Plants; Determination of Endangered or Threatened Status for 16 Plants From the Island of Molokai, Hawaii

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The U.S. Fish and Wildlife Service (Service) determines endangered status pursuant to the Endangered Species Act of 1973, as amended (Act), for 15 plants: *Bidens wiebkei* (ko'oko'olau), *Brighamia rockii* (pua 'ala), *Canavalia molokaiensis* ('awikiwiki), *Clermontia oblongifolia* ssp. *brevipes* ('oha wai), *Cyanea mannii* (haha), *Cyanea procera* (haha), *Hedyotis mannii* (pilo), *Hibiscus arnottianus* ssp. *immaculatus* (koki'o ke'oke'o), *Melicope reflexa* (alani), *Phyllostegia mannii* (no common name (NCN)), *Pritchardia munroi* (loulu), *Schiedea lydgatei* (NCN), *Silene alexandri* (NCN), *Silene lanceolata* (NCN), and *Stenogyne bifida* (NCN). The Service also determines threatened status for one plant, *Tetramolopium rockii* (NCN). Fourteen of the 16 taxa are known to be extant only on the island of Molokai, Hawaii; one species also is found on the island of Hawaii, the other is also on Lanai. Fifteen of these taxa are known from East Molokai and one is also known from West Molokai. The 16 plant taxa and their habitats have been variously affected and are threatened by one or more of the following: Habitat degradation and/or predation by wild, feral, or domestic animals (axis deer, goats, pigs, sheep, and cattle); competition for space, light, water, and nutrients by naturalized, alien vegetation; habitat loss from fires; predation by rats; human recreational activities; and military training exercises. Because of the depauperate number of extant individuals and their severely restricted distributions, populations of these taxa are subject to an increased likelihood of extinction from stochastic events. This rule

implements the protection and recovery provisions provided by the Act for these plants.

EFFECTIVE DATE: November 9, 1992.

ADDRESSES: The complete file for this rule is available for public inspection, by appointment, during normal business hours at the U.S. Fish and Wildlife Service, Pacific Islands Office, 300 Ala Moana Boulevard, room 6307, P.O. Box 50167, Honolulu, Hawaii 96850.

FOR FURTHER INFORMATION CONTACT: Derral R. Herbst, at the above address (808/541-2749 or FTS 8+808+541-2749).

SUPPLEMENTARY INFORMATION:

Background

Bidens wiebkei, Brighamia rockii, Canavalia molokaiensis, Clermontia oblongifolia ssp. *brevipes, Cyanea mannii, Cyanea procera, Hibiscus arnottianus* ssp. *immaculatus, Melicope reflexa, Phyllostegia mannii, Pritchardia munroi, Schiedea lydgatei, Silene alexandri, Stenogyne bifida,* and *Tetramolopium rockii are* currently known only from the island of Molokai, Hawaii. *Silene lanceolata* is found on both Molokai and the island of Hawaii, and *Hedyotis mannii* is found on both Molokai and the island of Lanai.

The island of Molokai, the fifth largest in the Hawaiian island chain, is approximately 38 miles (mi) (61 kilometers (km)) long, up to 10 mi wide, and encompasses an area of about 266 square (sq) mi (688 sq km) (Foote *et al.* 1972, Plasch 1985). Three shield volcanoes make up most of the land mass of Molokai: West Molokai Mountain, East Molokai Mountain, and a volcano that formed Kalaupapa Peninsula (Department of Geography, University of Hawaii 1983). Molokai also can be divided into three major sections: The West Molokai section, comprising West Molokai Mountain; the central Molokai section or Hoolehua Plain formed between the two large mountain masses; and the East Molokai section, incorporating East Molokai Mountain and Kalaupapa Peninsula (Foote *et al.* 1972).

The taller and larger East Molokai Mountain rises 4,970 feet (ft) (1,813 meters (m)) above sea level (Walker 1990) and comprises roughly 50 percent of the island's land area. Topographically, the windward side of East Molokai differs from the leeward side. Precipitous cliffs line the northern windward coast with deep inaccessible valleys dissecting the coastline. The annual rainfall on the windward side is 75 to over 150 inches (in) (200 to over 375 centimeters (cm)), distributed throughout the year. The soils are poorly drained and high in organic matter. The gulches and valleys are usually very steep, but sometimes gently sloping (Foote *et. al.* 1972). Much of the native vegetation on the northern part of East Molokai is intact because of its relative inaccessibility to humans and animals (Culliney 1988), although destructive ungulates have begun to enter the coastline in recent years (Joel Lau, The Nature Conservancy of Hawaii (TNCH), pers. comm., 1990). *Brighamia rockii, Canavalia molokaiensis, Hibiscus arnottianus* ssp. *immaculatus,* and *Stenogyne bifida* extend through various windward vegetation communities, from Coastal Dry Communities along the northern coast to the Montane Mesic Communities found inland on that side of the island. Halawa, on Molokai's extreme eastern end, has the same soil types as the windward side of the island. *Bidens wiebkei* is the only plant taxon of the 16 included in this final rule that grows in the Lowland to Montane Mesic Shrublands and Forests found on this section of the island.

Although Molokai's windward side receives most of the island's rainfall, some falls onto the upper slopes of the leeward (southern) side, decreasing as elevation decreases, and resulting in diverse leeward communities: from wet forests to dry shrub and grasslands. The average annual rainfall on the leeward side of East Molokai is between 30 and 50 in (80 and 130 cm), mostly falling between November and April. The gently sloping to very steep topography of upland regions has predominantly well drained and medium-textured soils. *Clermontia oblongifolia* ssp. *brevipes, Cyanea mannii, Cyanea procera, Hedyotis mannii, Melicope reflexa, Phyllosteiga mannii, Pritchardia munroi; Schiedea lydgatei, Silene alexandri,* and *Silene lanceolata* are found in habitats that extend from upper elevation Montane Wet Forests down to the Lowland Dry Communities on the leeward side of the island.

On the northwestern portion of East Molokai is Kalaupapa Peninsula, created after most of the island had been formed. Kalaupapa is the site of a Hansen's Disease settlement operated by the State Department of Health but with a cooperative agreement with the National Park Service. One population of *Tetramolopium rockii* is located along its ash-covered, basaltic coastline.

With the advent of cattle ranching and later pineapple cultivation, most of Molokai, particularly West Molokai and East Molokai's southern section, was converted to pasture land. The only remaining large tracts of native vegetation are found within the Molokai Forest Reserve on the upper elevation portions of East Molokai; most of the plant taxa in this rule are restricted to this forest reserve. *Tetramolopium rockii,* the only taxon found on West Molokai, is restricted to coastal calcareous sand dunes on the island's northeastern corner, where the impacts of ranching activities and development have been quite limited This Coastal Dry Community extends from sea level to 1,000 ft (300 m) in elevation and has an annual rainfall of 10 to 40 in (250 to 1,000 millimeters (mm))

Of the 16 taxa included in this rule, *Silene lanceolata* and *Hedyotis mannii* are the only species that are currently found on an island other than Molokai The Hawaii Island populations of *S. lanceolata* grow in the saddle region between Mauna Kea and Mauna Loa Mountains, Hawaii's two largest volcanoes. The Montane Dry Shrub and Grassland communities to which this species belongs extend into the subalpine zone, from 1,600 to 9,500 ft (500 to 2,900 m) in elevation with annual rainfall between 12 and 40 in (300 and 1,000 mm) (Gagne and Cuddihy 1990). The Lanai Island population of *H. mannii* grows in two gulches of Lanaihale. The vegetation communities of the area in which this species is found range from Lowland Wet Shrubland to Lowland Wet Forest. These communities range in elevation from 330 to 3,950 ft (100 to 1,200 m) with an annual rainfall between 60 and 240 in (150 to 600 cm) (Gagne and Cuddihy 1990).

The land that supports these 16 plant taxa is owned by the State of Hawaii, the Federal government, and private entities. The three State agencies are the Department of Land and Natural Resources (including the Natural Area Reserves System and Forest Reserves), the Department of Health, and the Department of Hawaiian Home Lands, the last two of which include cooperative management agreements with the National Park Service. Federally owned land consists of the Pohakuloa Training Area (PTA) on the island of Hawaii, under the jurisdiction of the U.S. Army. Among various private owners are The Nature Conservancy of Hawaii and a private owner with a conservation easement with that conservation organization.

Discussion of the 16 Taxa Included in This Rule

Bidens wiebkei was named by Earl Edward Sherff in honor of Henry Wiebke, a school principal on Molokai, who, with Otto Degener, discovered the plant in 1928 (Sherff 1928b). Sherff (1928a) named *Bidens campylotheca* var. *nematocera* based on Wilhelm

Hillebrand's (1888) description of an unnamed variety of *Campylotheca grandiflora* from Molokai; he later raised this taxon to specific status and published the combination *Bidens nematocera* (Sherff 1935a). Hillebrand's type, the only specimen of *B. nematocera* collected, was deposited in Berlin and destroyed during World War II. In the current treatment of the genus, Fred R. Ganders and Kenneth M. Nagata (1990) tentatively consider *B. nematocera* to be synonymous with *B. wiebkei*.

Bidens wiebkei, a member of the aster family (Asteraceae), is a perennial herb which is somewhat woody at the base and grows from 1.6 to 3.3 ft (0.5 to 1 m) tall. The opposite, pinnately compound leaves are 2.8 to 5.1 in (7 to 13 cm) long and each has three to seven leaflets, 1 to 3 in (2.5 to 8 cm) long and 0.4 to 1 in (1 to 2.5 cm) wide. Flower heads are arranged on side branches in clusters of usually 10 to 30, each 0.6 to 1 in (1.6 to 2.5 cm) in diameter and comprising 4 to 6 sterile, yellow ray florets, about 0.5 in (10 to 12 mm) long and 0.08 to 0.2 in (2 to 5 mm) wide, and 9 to 18 bisexual, yellow disk florets. Fruits are brownish-black achenes (dry, one-seeded fruits), which are curved or twisted and winged and measure 0.2 to 0.4 in (6 to 9 mm) long and 0.04 to 0.08 in (0.9 to 2 mm) wide. This plant is distinguished from other *Bidens* species which grow on Molokai by its erect habit and the curved or twisted, winged achenes (Degener and Sherff 1932a, 1932b; Ganders and Nagata 1990).

Historically, *Bidens wiebkei* was known from Pelekunu and the easternmost section of Molokai at Halawa (Hawaii Heritage Program (HHP) 1990a1, 1990a6). It is still found near Halawa and was recently discovered on Puu Kolekole, just south of its historical range, on privately owned land (HHP 1990a1 to 1990a5). The five known populations of this species are scattered along steep, exposed slopes (Gagne and Cuddihy 1990; HHP 1990a2, 1990a3, 1990a5) in *Metrosideros polymorpha* ('ohi'a) dominated mesic shrublands and forests at 820 to 3,450 ft (250 to 1,050 m) in elevation (Ganders and Nagata 1990), extending over a distance of 2.5 by 1 mi (4 by 1.6 km), and numbering no more than 60 individuals. Other associated plant species include *Antidesma* (hame), *Nestegis sandwicensis* (olopua), *Pisonia* (papala kepau), and *Scaevola gaudichaudii* (naupaka kuahiwi) (Cuddihy *et al.* 1982, HHP 1990a5). The major threats to *Bidens wiebkei* include habitat degradation and possible predation by deer and feral goats, competition with alien plants (*Melinus minutiflora* (molasses grass) and *Schinus terebinthifolius* (Christmas berry)), and fire. Damage or vandalism by humans of those plants found along trails is also a serious threat.

Asa Gray (Mann 1868) described *Brighamia insignis* based upon alcohol-preserved flowers and fruits collected by William Tufts Brigham on Molokai and a dried specimen collected on Kauai or Niihau by Ezechiel Jules Remy. Brigham's bottled material has since been lost. In his monograph, Harold St. John (1969) named plants collected on Molokai *B. rockii* and *B. rockii* f. *longiloba*, based, respectively, upon specimens collected by Francis Raymond Fosberg and Charles Noyes Forbes. The specific epithet was chosen to honor Joseph F. Rock. St. John (1969) also described *B. remyi*, based upon a specimen collected on Maui by Remy. In the current treatment of the genus, Thomas G. Lammers (1990) recognizes only two species: *B. rockii* for plants which presently can be found on Molokai and possibly for those which were formerly found on Lanai and Maui, and *B. insignis* for the Kauai and Niihau plants.

Brighamia rockii, a member of the bellflower family (Campanulaceae), grows as an unbranched plant 3.3 to 16 ft (1 to 5 m) tall with a thickened, succulent stem which tapers from the base. The fleshy, oval leaves are widest at their tips and are arranged in a rosette at the top of the plant. They measure 2.4 to 8.7 in (6 to 22 cm) long and 2 to 6 in (5 to 15 cm) wide. The fragrant flowers are clustered in groups of three to eight in the leaf axils (the point between the leaf and the stem). Each flower cluster is on a stalk 1.4 to 3.0 in (3.5 to 7.5 cm) long, and each flower is on a stalk 0.2 to 0.5 in (6 to 12 mm) long. The green basal portion of the flower (hypanthium) has 10 ribs and is topped by 5 calyx lobes 0.01 to 0.3 in (2.5 to 8 mm) long. The petals are fused into a green to yellowish-green tube 3.1 to 5.1 in (8 to 13 cm) long and 0.1 to 0.2 in (0.2 to 0.4 cm) wide which flares into five white, elliptic lobes 0.7 to 1.5 in (1.7 to 3.7 cm) long and 0.3 to 0.5 in (0.8 to 1.3 cm) wide. The fruit is a capsule 0.5 to 0.8 in (13 to 20 mm) long, 0.3 to 0.4 in (7 to 10 mm) wide, and 0.1 to 0.2 in (3 to 4 mm) thick which contains numerous seeds about 0.05 in (1.1 to 1.2 mm) long. This species is a member of a unique endemic Hawaiian genus with only one other species, found on Kauai, from which it differs by the color of its petals, its longer calyx lobes, and its shorter flower stalks (Lammers 1990, St. John 1969).

Brighamia rockii once ranged along the northern coast of East Molokai from Kalaupapa to Halawa and may possibly have grown on Lanai and Maui (HHP 1990b1, 1990b2, 1990b4; Lammers 1990). Today its range has decreased to scattered populations on steep, inaccessible sea cliffs along East Molokai's northern coastline from Anapuhi Beach to Wailau Valley on private land, and on the relatively inaccessible State-owned sea stack of Huelo, east of Anapuhi Beach (HHP 1990b3, 1990b5 to 1990b8; Hawaii Plant Conservation Center (HPCC) 1990a). The 5 known populations of *Brighamia rockii* that extend over this 6.5 mi (10.5 km) long stretch total fewer than 200 individuals (HHP 1990b3, 1990b5 to 1990b8). The plants are found in rock crevices on steep sea cliffs, often within the spray zone, in Coastal Dry to Mesic Forests or Shrublands at an elevation of sea level to 1,540 ft (0 to 470 m) with such associated species as 'ohi'a, *Canthium odoratum* (alahe'e), *Diospyros sandwicensis* (lama), *Osteomeles anthyllidifolia* ('ulei), and *Scaevola* (naupaka) (HHP 1990b1 to 1990b3, 1990b5 to 1990b7; HPCC 1990a; Lammers 1990). Ungulate damage (and possibly predation) by deer and goats poses a serious threat to *Brighamia rockii*. Although there is no evidence that rats feed on the fruits, rats are a potential threat as evidenced by predation on related Hawaiian genera. Competition with the alien plant Christmas berry is also a potential threat.

Forbes first collected *Canavalia molokaiensis* on Molokai in 1912, and 50 years later Otto Degener, Isa Degener, and J. Sauer described the species (Degener *et al.* 1962). Fosberg (1966) reduced several Hawaiian species of the genus to varieties, resulting in the name *C. galeata* var. *molokaiensis* for this taxon. In his revision of the Hawaiian taxa of the genus, St. John (1970) accepted *C. molokaiensis* and published two additional names, *C. peninsularis* and C. stenophylla, for Molokai plants. In the current treatment (Wagner and Herbst 1990), however, only *C. molokaiensis* is recognized.

Canavalia molokaiensis, a member of the pea family (Fabaceae), is a perennial climbing herb with twining branches. Each leaf is made up of three lance-shaped or sometimes oval leaflets which usually measure 1.4 to 3 in (3.5 to 8 cm) long and 0.5 to 2.1 in (1.3 to 5.4 cm) wide. Four to 15 flowers are arranged along a stalk 1.2 to 3.5 in (3 to 9 cm) long. The calyx (fused sepals), which is 0.8 to 1.1 in (20 to 28 mm) long, comprises a larger upper lip with two lobes and a smaller lower lip with three lobes. The five rose-

purple petals vary from 1.4 to 1.9 in (36 to 47 mm) in length. The flattened pods, 4.7 to 6.3 in (12 to 16 cm) long and 0.9 to 1.4 in (2.3 to 3.5 cm) wide, enclose flattened, dark reddish-brown, oblongelliptic seeds which are 0.7 to 0.9 in (17 to 22 mm) long and about 0.5 in (12 to 14 mm) wide. The only species of its genus found on Molokai, this plant can be distinguished from others in the genus by its narrower leaflets and its larger, rose-purple flowers (Degener *et al.* 1962, Sauer 1964, Wagner and Herbst 1990).

Historically, *Canavalia molokaiensis* was known from East Molokai, at Kalaupapa, Pelekunu, and farther south in Kahuaawi Gulch and the region of Manawai (HHP 1990c1 to 1990c3, 1990c9). It now has a more restricted range: from Kalaupapa to Waialeia, Kaunakakai, and Kamakou (HHP 1990c3 to 1990c10). This species typically grows in exposed dry sites on steep slopes in mesic shrublands and forests at 2,790 to 3,050 ft (850 to 930 m) in elevation (HHP 1990c7, 1990c10; Wagner and Herbst 1990). The 7 known populations, which contain an estimated 50 individuals, are on State and private land and are distributed over a 7 by 3.5 mi (11 by 5.5 km) area. The largest population of roughly 20 plants lies within a 0.2 acre (ac) (930 sq m) area (J. Lau, pers. comm., 1990). Associated plant species include 'ohi'a, *Chamaesyce* ('akoko), *Dodonaea viscosa* ('a'ali'i), *Styphelia tameiameiae* (pukiawe), and *Wikstroemia* ('akia) (Cuddihy *et al.* 1982, HHP 1990c5). Feral ungulates such as goats and pigs degrade the habitat of *Canavalia molokaiensis* extensively and pose an immediate threat to this species. Predation on a related species of *Canavalia* suggests that goats may possibly consume this species. Competition with the alien plant, molasses grass, is also an immediate threat.

Franz Elfried Wimmer (1943) described *Clermontia oblongifolia* f. *brevipes* based upon a specimen collected by Forbes on Molokai in 1912. The name of the form refers to the plant's short leaves, leaf stalks, and flower stalks. Lammers (1988) raised this taxon to the subspecific level when he published the new combination *C. oblongifolia* ssp. *brevipes*.

Clermontia oblongifolia ssp. *brevipes*, a member of the bellflower family, is a terrestrial shrub or tree which reaches a height of 6.6 to 23 ft (2 to 7 m). The leaves, on petioles 0.7 to 1.2 in (1.8 to 3 cm) long, are lance-shaped; have thickened, rounded teeth; and reach a length of 2.8 to 4.3 in (7 to 11 cm) and a width of 0.8 to 2 in (2 to 5 cm). Two or sometimes three flowers are grouped together on a stalk 0.2 to 0.4 in (5 to 10 mm) long, each flower having a stalk 0.4 to 1.8 in (1 to 4.5 cm) long. The flower is 2.4 to 3.1 in (6 to 7.8 cm) long; the calyx and corolla are similar in size and appearance, and each forms an arched tube which is greenish-white or purplish on the outside and white or cream colored on the inside. The nearly spherical, orange fruit is a berry, 0.7 to 1.2 in (17 to 30 mm) long. This species is distinguished from others in the genus by the structure of its calyx and corolla as well as by the lengths of the flower, the floral lobes, and the green hypanthium. This subspecies differs from others of the species by the shape of its leaves and the lengths of its leaves, leaf stalks, and flower stalks (Lammers 1988, 1990).

Clermontia oblongifolia ssp. *brevipes* is known from a single population located in the southeastern part of TNCH's Kamakou Preserve, East Molokai, where it occurs on private land (Cuddihy *et al.* 1982). This population was last seen in 1982, and its size is unknown. The other known population, also from the Kamakou area, has not been seen for over 40 years and may have been extirpated (HHP 1990d2). Other than these two populations, the historical range is not known. This taxon typically grows in shallow soil on gulch slopes in wet 'ohi'a-dominated forests at elevations between 3,500 and 3,900 ft (1,100 and 1,200 m) (1990d2; J. Lau, pers. comm., 1990). Associated plant species include *Cheirodendron trigynum* ('olapa) (J. Lau, pers. comm., 1990). Feral pigs are an immediate threat to the habitat of the single remaining population of *Clermontia oblongifolia* ssp. *brevipes*. Its limited number makes the taxon vulnerable to extinction by a single stochastic event. Predation on related species suggests that rats may possibly feed on the fruit or plant parts of this taxon.

Brigham named *Delissea mannii* in honor of Horace Mann, Jr., with whom he collected the plant on Molokai in the 1860s and in whose "Enumeration" Brigham published the name (Mann 1867). Hillebrand (1888) transferred the taxon to the genus *Cyanea*, resulting in the name *Cyanea mannii*.

Cyanea mannii, a member of the bellflower family, is a branched shrub 5 to 10 ft (1.5 to 3 m) tall. The leaves are narrowly elliptic or lance-shaped, 4.7 to 8.3 in (12 to 21 cm) long and 1 to 2 in (2.5 to 5 cm) wide, and have petioles 0.9 to 3.9 in (2.2 to 10 cm) long and hardened teeth along the leaf margins. Each flower cluster, arising from the axil of a leaf on a stalk 0.8 to 1.4 in (20 to 35 mm) long, comprises 6 to 12 flowers, each on a stalk 0.3 to 0.5 in (8 to 12 mm) long. Each flower has a smooth, green hypanthium which measures about 0.2 in (4 to 6 mm) long and 0.1 to 0.2 in (3 to 5 mm) wide and is topped by triangular calyx lobes 0.1 to 0.2 in (3 to 5 mm) long and 0.08 to 0.1 in (2 to 3 mm) wide. The purplish corolla forms a nearly upright tube 1.2 to 1.4 in (30 to 35 mm) long and 0.1 to 0.2 in (3 to 4 mm) wide, which ends in five spreading lobes. Berries have not been observed. This species is distinguished from the seven other species of the genus on Molokai by a combination of the following characters: A branched, woody habit; leaves with small, hardened, marginal teeth; and a purplish corolla (Lammers 1990, Rock 1919, Wimmer 1943).

Historically, *Cyanea mannii* was known only from Kalae on East Molokai (HHP 1990e2). In 1984, a single plant was discovered by Joan Aidem west of Puu Kolekole on East Molokai on privately owned land (HHP 1990e1; Lammers 1990; Edwin Misaki, TNCH, pers. comm., 1991). Since then, five populations have been discovered in the east and west forks of Kawela Gulch within Kamakou Preserve on East Molokai. The 6 populations are distributed over an area of about 2 by 0.8 mi (3.2 by 1.2 km) and total at least 40 individuals (E. Misaki, pers. comm., 1991). This species typically grows on the sides of deep gulches in 'ohi'a-dominated mesic to wet forests at elevations of about 3,300 to 4,000 ft (1,000 to 1,220 m) (HHP 1990e1; Lammers 1990; E. Misaki, pers. comm., 1991). Associated plant species include 'akia, 'olapa, *Dicranopteris linearis* (uluhe), and *Vaccinium* ('ohelo) (E. Misaki, pers. comm., 1991). Feral pigs threaten the habitat of *Cyanea mannii*. Rodents such as rats may feed on the fruit or other parts of the plant, as shown by predation on related species. Because of the small number of remaining individuals, one stochastic event could extirpate a significant proportion of the populations.

Hillebrand discovered *Cyanea procera* on Molokai and formed the specific epithet from a Latin word meaning "tall," in reference to the height of the plant (Hillebrand 1888). St. John (1987, St. John and Takeuchi 1987), believing there to be no generic distinction between *Cyanea* and *Delissea*, transferred the species to the genus *Delissea*, the older of the two generic names, creating *D. procera*. The current treatment, however, maintains the separation of the two genera (Lammers 1990).

Cyanea procera, a member of the bellflower family, is a palmlike tree 10[O]

to 30 ft (3 to 9 m) tall with stalkless, lance-shaped leaves 24 to 30 in (60 to 75 cm) long and 3.9 to 6.7 in (10 to 17 cm) wide with tiny hardened teeth along the margins. Each flower cluster has a stalk 1.0 to 1.6 in (25 to 40 mm) long and comprises 10 to 20 flowers, each on a stalk 0.2 to 0.4 in (6 to 10 mm) long. Each flower has a hypanthium, 0.6 to 0.8 in (15 to 20 mm) in length and 0.3 to 0.5 in (8 to 13 mm) in width, topped by shallow triangular calyx lobes 0.1 to 0.2 in (3 to 4 mm) long and about 0.2 in (4 to 5 mm) wide. The purplish corolla forms a nearly upright or slightly curved tube 2.4 to 3.1 in (60 to 80 mm) long and 0.2 to 0.4 in (6 to 11 mm) wide, which ends in five downwardly curving lobes which make the flower appear one-lipped. The ellipse- or egg-shaped berries are 1.2 to 1.8 in (3.0 to 4.5 cm) long and 0.8 to 1.1 in (2.0 to 2.8 cm) wide. This species can be distinguished from other species of the genus and from *C. mannii* by its growth habit, its sessile leaves, and the single-lipped appearance of the corolla (Lammers 1990, Rock 1919, Wimmer 1943).

Historically, *Cyanea procera* was known only from an unspecified site in the Kamalo region of East Molokai (HHP 1991a) until its discovery in 1987 at Puu O Kaeha, west of Kamalo on private land. Two individuals were found in a wet 'ohi'a-dominated forest at an elevation of 3,480 ft (1,060 m). The plants grow within 6.5 ft (2 m) of each other on a steep rock wall with thin soil on the southwest slope of a narrow gulch. Associated plant species include various species of *Asplenium, Coprosma ochracea* (pilo), *Pipturus albidus* (mamaki), and *Touchardia latifolia* (olona) (David Lorence, National Tropical Botanical Garden, pers. comm., 1991). In 1991, two additional individuals were discovered above a waterfall at about 4,000 ft (1,220 m) elevation in Waikolu Valley (J. Lau *in litt.*, 1991). Goats were observed in the area of this population, and the sides of the gulch where they grow are eroding. Only four plants of *Cyanea procera* are known to exist, making this species vulnerable to extinction from stochastic events. Like other *Cyanea* species and related genera, *C. procera* is potentially threatened by predation by rats. Habitat degradation by feral pigs is a potential threat.

Based upon a specimen he collected with Mann on West Maui, Brigham described *Kadua laxiflora* in Mann's list of 1867. In his revision of *Hedyotis*, Fosberg (1943) included *Kadua* in the genus *Hedyotis*, and he published the following names, which are synonymized under *Hedyotis mannii* in the current treatment of the genus (Wagner *et al.* 1990): *H. mannii* var. *laxiflora*, *H. mannii* var. *munroi*, *H. mannii* var. *scaposa*, *H. molokaiensis*, *H. thyrsoidea*, and *H. thyrsoidea* var. *hillebrandii* (Fosberg 1943), as well as *H. mannii* var. *cuspidata* (Fosberg 1956).

Hedyotis mannii, a member of the coffee family (Rubiaceae), is a perennial plant with smooth, usually erect stems 1 to 2 ft (30 to 60 cm) long which are woody at the base and four-angled or -winged. The leaves are opposite, thin in texture, elliptic to sometimes lanceshaped, and are usually 3 to 7 in (8 to 18 cm) long and 1 to 2.6 in (2.5 to 6.5 cm) wide. Stipules (leaf-like appendages), which are attached to the slightly winged leaf stalks where they join and clasp the stem, are triangular, 0.2 to 0.6 in (5 to 14 mm) long, and have a point usually 0.2 to 0.4 in (4 to 11 mm) long. Flowers are arranged in loose clusters up to 1 ft (30 cm) long at the ends of the stems and are either bisexual or female. The green hypanthium is top-shaped, about 0.05 in (1 to 1.5 mm) long, with sepals 0.06 to 0.1 in (1.5 to 3 mm) long and 0.04 to 0.08 in (1 to 2 mm) wide at the top. The greenish-white, fleshy petals are fused into a trumpets shaped tube 0.2 to 0.6 in (5 to 14 mm) long. Capsules are topshaped and measure 0.08 to 0.1 in (2 to 3 mm) long and about 0.1 in (3 to 4 mm) in diameter. This species' growth habit; its quadrangular or winged stems; the shape, size, and texture of its leaves; and its dry capsule which opens when mature separate it from other species of the genus (Hillebrand 1888, Wagner *et al.* 1990).

Hedyotis mannii was once widely scattered on three islands: Lanai, West Maui, and Molokai (HHP 1990f2 to 1990f10). After not being seen for 50 years, this species was rediscovered in 1987 by Steve Perlman on private land in Kawela Gulch on East Molokai (HHP 1990f1). Only two plants are known to exist in this area (Center for Plant Conservation (CPC) 1991). In 1991, an additional nine plants of this species were discovered on the island of Lanai: five mature and three juvenile plants were found at an elevation of 3,150 ft (960 m) at the head of Hauola Gulch, and a single mature plant at 2,640 ft (805 m) elevation in the gulch between Waialala and Kunoa Gulches (J. Lau, *in litt.* 1991). *Hedyotis mannii* typically grows on dark, narrow, rocky gulch walls in mesic and perhaps wet forests (Wagner *et al.* 1990) at 490 to 3,450 ft (150 to 1,050 m) in elevation (HHP 1990f1 to 1990f10). Associated plant species include mamaki, *Cibotium* (hapu'u), *Cyanea* (haha), and *Psychotria* (kopiko) (HHP 1990f1). The limited number of individuals of *Hedyotis mannii* makes it extremely vulnerable to extinction by stochastic events. Feral pigs and alien plants such as molasses grass degrade the habitat of this species and contribute to its vulnerability.

Sister Margaret James Roe (1961) described *Hibiscus immaculatus* based upon specimens collected by Forbes on Molokai in 1912. The specific epithet refers to the plant's pure white flowers. In his current treatment of the genus, David M. Bates regards the taxon as *Hibiscus arnottianus* ssp. *immaculatus* (Bates 1990, Wagner *et al.* 1989).

Hibiscus arnottianus ssp. *immaculatus*, a member of the hibiscus family (Malvaceae), is a tree up to 10 ft (3 m) tall with alternate, oval, toothed leaves measuring 2 to 2.8 in (5 to 7 cm) long and 1.6 to 2.6 in (4 to 6.5 cm) wide. Six lance-shaped bracts, 0.2 to 0.3 in (5 to 8 mm) long, are found under each of the faintly fragrant flowers, which are arranged singly near the ends of the branches. The calyx is 1 to 1.2 in (2.5 to 3.0 cm) long and cleft into five teeth with long, narrow points. The flaring petals are white and measure 3.1 to 4.3 in (8 to 11 cm) long and 1 to 1.4 in (2.5 to 3.5 cm) wide. Anthers, on spreading filament tips 0.4 to 0.8 in (1 to 2 cm) long, are arranged along the upper third of the white staminal column, which measures 4 to 5.5 in (10 to 14 cm) in length. Capsules are enclosed by the sepals and contain 0.2 in (4 mm) long seeds which are covered with yellowish-brown hair. This subspecies is distinguished from other native Hawaiian members of the genus by its white petals and white staminal column (Bates 1990; Neal 1965; Rock 1913; Roe 1959, 1961; St. John 1981).

Hibiscus arnottianus ssp. *immaculatus* once ranged from Waihanau Valley east to Papalaua Valley on East Molokai (HHP 1990g3, 1990g4). This taxon is now confined to a 3 mi (5 km) stretch of the northern coast of East Molokai from Waiehu to between Papalaua and Wailau valleys (Bates 1990; HHP 1990g1, 1990g2, 1990g5) on private and State land. The 4 populations, scattered along steep sea cliffs with native plant species such as alahe'e, hame, lama, mamaki, and 'ohi'a, are believed to total no more than 50 individuals (HHP 1990g1, 1990g5; HPCC 1990b). *Hibiscus arnottianus* ssp. *immaculatus* typically occurs in mesic forests between 50 and 1,600 ft (15 and 480 m) in elevation (Bates 1990, HHP 1990g1 to 1990g5, HPCC 1990b). The major threats to *Hibiscus arnottianus* spp. *immaculatus* are habitat destruction by feral goats and the small number of remaining populations.

St. John (1944) described and named *Pelea reflexa* based upon a specimen Rock collected on Molokai in 1910. The specific epithet refers to the slightly reflexed capsules. After further study of the genus, Thomas G. Hartley and Benjamin C. Stone (1989) placed *Pelea* into synonymy with *Melicope*, resulting in the new combination *M. reflexa* (Wagner *et al.* 1990).

Melicope reflexa, a member of the citrus family (Rutaceae), is a sprawling shrub 3.3 to 10 ft (1 to 3 m) tall with short, yellowish-brown, short-lived hairs on new growth. The opposite, thin, and leathery leaves are elliptical and measure 3.1 to 5.5 in (8 to 14 cm) long and 1.6 to 2.8 in (4 to 7 cm) wide. Flowers arise singly or in clusters of two or three from the leaf axil. The flower cluster has a stalk 0.1 to 0.6 in (3 to 15 mm) long, and each flower is on a stalk 0.6 to 0.8 in (15 to 20 mm) long. Male flowers have not been seen, but female flowers are made up of four overlapping sepals about 0.1 in (3 to 4 mm) long; four petals about 0.2 in (4.8 mm) long; an eight-lobed nectary disk; eight reduced, nonfunctional stamens; and a style about 0.2 in (4 mm) long. The capsules are 0.8 to 1.3 in (20 to 33 mm) wide with four sections 0.4 to 0.7 in (10 to 17 mm) long which are fused to each other along about one-fourth of their length. One or two glossy black seeds, about 0.3 in (7 to 8 mm) long, are found in each section of the capsule. This species' opposite leaves with leaf stalks usually over 0.4 in (1 cm) long, its larger leaves and fruit, and the partially fused sections of its capsule separate it from other species of the genus (Stone *et al.* 1990).

Historically, *Melicope reflexa* occurred from a ridge between Hanalilolilo and Pepeopae in Kamakou Preserve to as far east as Halawa on East Molokai (HHP 1990h1, 1990h2, 1990h5 to 1990h7). The 4 remaining populations of fewer than a total of 1,000 individuals are on private land at the headwall of Waikolu Valley, Wailau-Mapulehu summit and Kukuinui Ridge, and at Honomuni, and are distributed over a distance of about 7.5 mi (12 km) (HHP 1990h2 to 1990h4). *Melicope reflexa* typically grows in wet 'ohi'a-dominated forests with native trees such as 'olapa at elevations between 2,490 and 3,900 ft (760 and 1,190 m) (Stone *et al.* 1990). Major threats to *Melicope reflexa* include habitat degradation by ungulates (axis deer and feral pigs) and competition with the alien plant *Clidemia hirta* (Koster's curse). Because this species is known from a single restricted area, it is possible for one human-caused or natural event to destroy all or a significant portion of the extant individuals. Predation by deer or pigs is a potential threat in areas inhabited by these animals.

Mann (1868) published the name *Stenogyne parviflora* for a plant he and Brigham collected on Haleakala, Maui. In 1934, Sherff transferred this taxon to the genus *Phyllostegia;* as the name *P. parviflora* had previously been used for another species, he selected a new name *P. mannii*, for the taxon (Sherff 1934b). In the same year, Sherff (1934a) published the name *Phyllostegia racemosa* var. *bryanii* for the plants from the island of Molokai. In the current treatment (Wagner *et al.* 1990), *P. mannii* is the name applied to both the Molokai plants and specimens of the apparently extinct Maui plants.

Phyllostegia mannii, a nonaromatic member of the mint family (Lamiaceae), is a climbing vine with many-branched, four-sided, hairy stems. The opposite, hairy leaves, which are shaped like narrow triangles or narrow triangular ovals, measure 0.8 to 2.2 in (2 to 5.5 cm) long and 0.3 to 0.9 in (0.7 to 2.3 cm) wide and have coarsely toothed margins. Clusters of four to six flowers are arranged in each of several false whorls along an unbranched flowering stem 1.6 to 6 in (4 to 15 cm) long. The calyx is a bell-shaped, lobed structure. The slightly curved, two-lipped corolla tube is about 0.3 in (7 to 8 mm) long and is thought to be white. The fleshy, dark-green to black nutlets are 0.08 to 0.1 in (2 to 2.5 mm) long. This species is distinguished from others in the genus by its hairiness; its thin, narrow leaves which are not pinnately divided; and the usually six flowers per false whorl in a terminal inflorescence (Wagner *et al.* 1990).

Historically, *Phyllostegia mannii* was found from Hanalilolilo to Ohialele on East Molokai and at Ukulele on East Maui (HHP 1990i2 to 1990i8). It has not been seen on Maui for over 70 years and is apparently extinct on that island (Lammers 1990). This species is now known only from Hanalilolilo within Kamakou Preserve on privately owned land (HHP 1990i1). The only currently known population contains four individuals. It grows in shaded sites in sometimes foggy and windswept, wet, open, 'ohi'a-dominated forests with a native shrub and tree fern (hapu'u) understory (HHP 1990i1 to 1990i3) at 3,300 to 5,000 ft (1,010 to 1,525 m) in elevation (Wagner *et al.* 1990). Associated plant species include 'olapa, a few native ferns, and *Hedyotis* (manono). The only known population of *Phyllostegia mannii* is threatened by feral pigs. Because of the small number of individuals, a natural or human-caused event could extirpate all or a significant portion of the population.

Joseph F. Rock discovered a new palm on Molokai in 1920 and named it *Pritchardia munroi* in honor of James Munro, manager of Molokai Ranch (Beccari and Rock 1921).

Pritchardia munroi, a member of the palm family (Arecaceae), is a tree about 13 to 16 ft (4 to 5 m) tall with a trunk up to about 7.8 in (20 cm) in diameter. The leaf blade is about 35 in (88 cm) long and has a petiole about 33 in (85 cm) long. The leaves and petioles have scattered, mostly deciduous scales and hairs, somewhat larger on the lower leaf ribs. The leaves are deeply divided into segments which have long, drooping tips. Numerous bisexual or functionally male flowers are arranged in clusters on hairy, branching stalks about 20 in (52 cm) long which originate at the leaf bases. The flower consists of a cup-shaped, three-lobed calyx; three petals; six stamens; and a three-lobed stigma. The mature fruit is shiny, black, nearly spherical, and about 0.8 in (2 to 2.2 cm) in diameter. This species is distinguished from others of the genus by its relatively smooth leaves; the grayish-brown hair on the inflorescence stalks, which are shorter than the petioles; and the small size of the fruits (Beccari and Rock 1921, Read and Hodel 1990, St. John 1981).

Historically, *Pritchardia munroi* was found in leeward East Molokai, above Kamalo and near Kapuaokoolau (HHP 1990j1, Read and Hodel 1990). The last known wild specimen grows near the base of a small ravine in remnant dry to mesic forest at an elevation of about 2,000 ft (610 m) on privately owned land (Garnett 1989, HHP 1990j1, Read and Hodel 1990). Associated plant species include 'a'ali'i, 'ohi'a, pukiawe, and *Pleomele aurea* (hala pepe) (Garnett 1989, HHP 1990j1). A variety of threats affects the only known wild individual of *Pritchardia munroi*. Ungulates (axis deer, goats, and pigs) continue to degrade the habitat around its fenced enclosure and prevent the establishment of seedlings. Other serious threats include fire and predation of seeds by rats. The one known wild individual is vulnerable to extinction in its natural habitat because a single stochastic event could destroy the plant.

Hillebrand (1888) described *Schiedea lydgatei*, naming it in honor of the Reverend John M. Lydgate, who, as a student, accompanied Hillebrand on collecting trips. Later, Otto Degener and Sherff (Sherff 1944) described a new variety of the taxon, naming it variety *attenuata*. No infraspecific taxa are

recognized in the most recent treatment of the species (Wagner *et al.* 1990).

Schiedea lydgatei, a member of the pink family (Caryophyllaceae), is a low, hairless perennial plant with branched stems 4 to 16 in (10 to 40 cm) long which are woody at the base. The opposite, three-veined leaves are elliptic, 0.8 to 1.6 in (2 to 4.5 cm) long, and 0.2 to 0.6 in (0.6 to 1.5 cm) wide. Bisexual flowers are arranged in loosely spreading clusters 4 to 6.6 in (10 to 17 cm) long. The flowers comprise usually 5 distinct but overlapping, narrowly oval, green sepals, 0.1 to 0.2 in (3 to 4.5 mm) long; 5 nectaries about 0.1 in (2.5 to 3 mm) long; 10 stamens; and usually 3 styles. Petals are lacking. The capsules are about 0.2 in (4 to 5.5 mm) long and open when mature to reveal dark reddish-brown seeds about 0.03 in (0.8 mm) long. The opposite, thin, three-veined leaves with petioles and the smooth, open flower clusters with relatively larger, green sepals separate this species from other members of the genus (Degener and Degener 1956, Sherff 1944, Wagner *et al.* 1990).

Historically, *Schiedea lydgatei* was found in Kalae, Poholua, Makolelau, and Ohia Gulch on East Molokai (HHP 1990k2, 1990k4, 1990k7, 1990k8). This species is now known from five scattered populations in a more restricted area in Makakupaia, Kawela, and Makolelau. The 5 populations are distributed over an area of less than 1 by 3.5 mi (1.6 by 5.6 km), totalling fewer than 1,000 individuals (HHP 1990k1, 1990k3, 1990k5, 1990k6, 1990k9). This species is found along ridges and on cattle trails in dry to mesic grasslands, shrublands, and forests with scattered native and alien trees. It ranges in elevation from about 2,000 to 2,100 ft (600 to 650 m) (HHP 1990k5, 1990k6; Wagner *et al.* 1990). Associated plant species include 'a'ali'i, 'ohi'a, pukiawe, and uluhe (Gagne and Cuddihy 1990). The major threats to *Schiedea lydgatei* are fire and habitat degradation and competition with the alien plant species molasses grass. Because fire is such a pervasive threat in this species, dry, windswept habitat, a single fire potentially could destroy as many as four of the five populations.

Silene alexandri was described by Hillebrand (1888) based upon a specimen he discovered on Molokai; *S. alexandri* is its currently accepted name (Wagner *et al.* 1990).

Silene alexandri, a member of the pink family, is an erect, perennial herb, 1 to 2 ft (30 to 60 cm) tall, and woody at the base. The narrow, elliptic leaves are 1.2 to 2.5 in (30 to 65 mm) long by 0.2 to 0.6 in (6 to 14 mm) wide and hairless except for a fringe along the margins. Flowers are arranged in open clusters with stalks 0.4 to 0.7 in (10 to 19 mm) long. The 5-lobed, 10-veined, tubular calyx is 0.7 to 1 in (19 to 25 mm) long, and the 5 white, deeply-lobed, clawed petals extend about 0.2 in (4 to 6 mm) beyond the calyx. The capsule is about 0.6 in (14 to 16 mm) long, but seeds have never been seen. The hairless stems, flowering stalks, and sepals and the larger flowers with white petals separate this species from other members of the genus (Hillebrand 1888, Wagner *et al.* 1990, Williams 1896).

Historically, *Silene alexandri* was known from Makolelau and Kamalo on East Molokai, but now it occurs only at the former site on privately owned land (HHP 1990L1, 1990L2). The only known population, comprising fewer than 10 individuals, is found on a cattle trail in remnant dry forest and shrubland (HHP 1990L1, Wagner *et al.* 1990) at an elevation between 2,000 and 2,500 ft (610 and 760 m) (Wagner *et al.* 1990). Associated plant species include 'a'ali'i, 'ohi'a, pukiawe, and uluhe (Gagne and Cuddihy 1990). Feral goats continue to degrade the habitat of *Silene alexandri* and pose a serious threat to remaining populations. Predation of this species by goats and cattle may possibly occur. Fire also is an immediate threat. Because of the small number of individuals and their severely restricted distribution, extinction from stochastic events is a very real threat.

Silene lanceolata is based upon fertile specimens collected on Kauai during the United States Exploring Expedition in 1840, as well as vegetative material collected during the same expedition the following year on Maui. Gray (1854) described the species, naming it for its narrow leaves. Hillebrand (1888) recognized one variety, var. *angustifolia;* later Sherff (1946) described and named two additional varieties, vars. *hillebrandii* and *forbesii*. The current treatment does not recognize any subspecific taxa (Wagner *et al.* 1990).

Silene lanceolata, a member of the pink family, is an upright, perennial plant with stems 6 to 20 in (15 to 50 cm) long, which are woody at the base. The narrow leaves are 1 to 3 in (25 to 80mm) long, 0.08 to 0.4 in (2 to 11 mm) wide, and smooth except for a fringe of hairs near the base. Flowers are arranged in open clusters with stalks 0.3 to 0.9 in (8 to 23 mm) long. The 5-toothed, 10-veined calyx is about 0.3 in (7 to 9 mm) long, and the wide portion of the 5 white, deeply-lobed, clawed petals is about 0.2 in (6 mm) long. The capsule is about 0.3 in (8 to 9 mm) in length and opens at the top to release reddish-brown seeds about 0.04 in (1 mm) in diameter. This species is distinguished from *S. alexandri*, the only other member of the genus found on Molokai, by its smaller flowers and capsules and its stamens, which are shorter than the sepals (Gray 1854, Hillebrand 1888, Wagner *et al.* 1990, Williams 1896).

The historical range of *Silene lanceolata* includes four Hawaiian islands: Kauai, below Puu Kolekole on East Molokai, Maunalei on Lanai, and Mauna Kea on Hawaii Island (HHP 1990m1 to 1990m3, Wagner *et al.* 1990). *Silene lanceolata* is presently extant on the islands of Molokai and Hawaii. A single population of approximately 100 individuals was found in 1987 on Molokai, where it remains on private land near Puu Kolekole (HHP 1990m1; J. Lau *in litt.*, 1991). The Hawaii Island population at Puu Ahi was last seen in 1949. In 1991, two populations of this species were discovered on Federally owned land in Kipuka Kalawamauna and Kipuka Alala in the Pohakuloa Training Area, which is located in the saddle between Mauna Kea and Mauna Loa. The three island of Hawaii populations are distributed over a distance of roughly 9 mi (15 km) between about 5,200 and 6,000 ft (1,600 and 1,800 m) in elevation (HHP 1990m1; Robert Shaw, Colorado State University, pers. comm., 1991). It is not known whether the Puu Ahi population still exists after decades of ungulate, humancaused, and natural disturbances. The 2 populations at PTA number between 95 and 125 individuals (R. Shaw, pers. comm., 1991), giving a total of fewer than 230 known individuals for the species. The populations on the island of Hawaii grow in two dry habitat types: shrubland dominated by dense *Myoporum sandwicensis* (naio), *Sophora chrysophylla* (mamane), and pukiawe with 'a'ali'i, pilo, and *Pennisetum setaceum* (fountain grass); and on 'a'a lava in a former *Chamaesyce olowaluana* ('akoko) forest now converted to fountain grass grassland with 'a'ali'i, mamane, naio, and *Chenopodium oahuense* ('aheahea) (R. Shaw, pers. comm., 1991). On Molokai, this species grows on cliff faces and ledges of gullies in dry to mesic shrubland at an elevation of about 2,600 ft (800 m) (HHP 1990m1 to 1990m3, Wagner *et al.* 1990). Habitat destruction by feral ungulates (goats, pigs, and sheep), wildfires resulting from hunting activities and military maneuvers, and alien plant invasion (fountain grass) are immediate threats to *Silene lanceolata*. Military exercises and predation by goats and sheep pose probable threats.

Hillebrand discovered *Stenogyne bifida* on Molokai in 1870 and named it

in reference to the deeply two-lobed upper lip of its corolla (Hillebrand 1888). The name is accepted in the latest revision of the genus (Weller and Sakai 1990).

Stenogyne bifida, a nonaromatic member of the mint family, is a perennial herb, evidently climbing, with smooth or slightly hairy, four-angled stems. The opposite, membranous, toothed leaves are oval or elliptical in shape, measure 1.7 to 4 in (4.2 to 10 cm) long and 0.7 to 1.4 in (1.7 to 3.6 cm) wide, and are hairless except for the midribs. Flowers are usually arranged in groups of two to six in each of several whorls at the ends of the stems. The sepals are fused into a toothed calyx which is almost hairless, radially symmetrical, narrowly bell-shaped, and 0.3 to 0.5 in (8 to 12 mm) long. The petals are fused into a nearly straight, yellow tube 0.4 to 0.6 in (10 to 16 mm) long which flares into pale-brown lobes comprising an upper lip about 0.2 in (4 to 6 mm) long and a lower lip about 0.1 (2 to 4 mm) long. The fruits are fleshy, black nutlets about 0.1 in (2.5 to 3 mm) long. The long, narrow calyx teeth and the deep lobe in the upper lip of the yellow corolla separate this species from others of the genus (Hillebrand 1888, Sherff 1935b, Weller and Sakai 1990).

Historically, *Stenogyne bifida* was known from scattered populations from Waianui in central Molokai to Pukoo Ridge on East Molokai (HHP 1990n3 to 1990n9, Wagner *et al.* 1990). This species is now known from only 3 East Molokai populations totalling fewer than 10 individuals: On Manawai-Kahananui Ridge along a private/State land boundary, on Kolo Ridge, and on the eastern fork of Kawela Gulch in privately owned Pelekunu Preserve (HHP 1990n1, 1990n2; Steve Anderson, Haleakala National Park, pers. comm., 1990). These three populations are scattered over an area of 6.6 sq mi (17 sq km). *Stenogyne bifida* typically grows on steep ridges in 'ohi'a-dominated Montane Mesic to Wet Forests with native species such as hapu'u, manono, 'olapa, *Broussaisia arguta* (kanawao), and *Pouteria* ('ala'a) at elevations between 1,450 and 4,000 ft (450 and 1,200 m) (HHP 1990n1 to 1990n9, HPCC 1990c). Ungulates (axis deer, goats, and pigs) are pervasive threats to populations of *Stenogyne bifida* and may eat this species when available. One trailside population that represents a significant portion of the species potentially could be destroyed by over-collecting for scientific purposes or by vandals.

Sherff (1934c) described *Tetramolopium rockii*, naming it in honor of Joseph Rock, who first collected the plant in 1910, on Molokai. St. John (1974) described a new genus, *Luteidiscus*, for the species of *Tetramolopium* with yellow disk flowers. He transferred *T. rockii* to the new genus and also described a new species, *L. calcisabulorum*. The current treatment (Lowrey 1981, 1986, 1990) reduces St. John's two species to varieties of *Tetramolopium rockii:* the nominative variety and var. *calcisabulorum*.

Tetramolonium rockii, a member of the aster family, is a glandular, hairy, prostrate shrub which forms complexly branching mats 2 to 4 in (5 to 10 cm) tall and 3 to 16 in (8 to 40 cm) in diameter. Leaves of variety *calcisabulorum* are 0.8 to 1.2 in (2 to 3 cm) long and 0.2 to 0.3 in (5 to 7 mm) wide, have slightly inrolled edges, and are whitish due to the long silky hairs on their surfaces. Variety *rockii* has smaller, less hairy, flat, yellowish-green leaves, 0.6 to 0.8 in (1.5 to 2.1 cm) long and about 0.2 in (4 to 6 mm) wide. The leaves of both varieties are spatula-shaped with glands and smooth margins. Flower heads, arranged singly at the ends of flowering stalks 1.6 to 4.7 in (4 to 12 cm) long, have a hemispherical involucre (set of bracts beneath the florets) 0.2 to 0.3 in (4 to 8 mm) high and 0.4 to 0.7 in (10 to 18 mm) in diameter. Approximately 60 to 100 white ray florets, 0.1 to 0.2 in (3 to 4.5 mm) long and 0.02 to 0.04 in (0.5 to 1 mm) wide, surround 30 to 55 functionally male, yellow, funnel-shaped disk florets. Fruits are achenes, 0.08 to 0.1 in (2 to 2.5 mm) long and about 0.03 in (0.7 to 0.9 mm) wide when fertile, and are topped with white bristles 0.1 to 0.2 in (2.5 to 4 mm) long. This species differs from others of the genus by its growth habit, its hairy and glandular surfaces, its spatulate leaf shape, and its yellow disk florets (Degener and Degener 1965; Lowrey 1981, 1986, 1990; Sohmer and Gustafson 1987).

Of the two recognized varieties of *Tetramolopium rockii*, variety *rockii* was first discovered at Moomomi about 80 years ago and is still extant in that area. *Tetramolopium rockii* var. *rockii* remains in two areas: from Kapalauoa to Kahinaakalani on West Molokai (HHP 1990o2, 1990o3; HPCC 1990e; Lowrey 1990), and north of Kalawao on Kalaupapa Peninsula on East Molokai (Canfield 1990; HHP 1990o4; J. Lau, pers. comm., 1990). Variety *calcisabulorum* is only reported west of Moomomi, from west of Manalo Gulch to Kalani, intergrading with variety *rockii* where their ranges overlap (HHP 1990o1, 1990o2; HPCC 1990d). The only known population of *T. rockii* var. *calcisabulorum* and the scattered West Molokai population of *T. rockii* var. *rockii* extend over a distance of about 4.5 mi (7 km) along the northern coast, sometimes locally dominating the vegetation (HHP 1990o1, 1990o3). Twelve mi (19 km) to the east, the Kalawao population of variety *rockii* encompasses approximately 95 ac (35 ha) (HHP 1990o4). The species is estimated to number 174,000 individuals (HHP 1990o1 to 1990o4). *Tetramolopium rockii* is restricted to hardened calcareous sand dunes or ash-covered basalt in the coastal spray zone or Coastal Dry Shrublands and Grasslands between 30 and 650 ft (10 and 200 m) in elevation (Lowrey 1990). Native plant species associated with this species include *Fimbristylis cymosa*, *Heliotropium anomalum* (hinahina), *Lipochaeta integrifolia* (nehe), *Sida fallax* ('ilima), and *Sporobolus virginicus* ('aki'aki) (Canfield 1990; HHP 1990o1 to 1990o4). The major threats to *Tetramolopium rockii* are ungulate (axis deer and cattle) activity, competition with the alien plant *Prosopis pallida* (kiawe), human recreational impacts, and fire. Predation by deer and cattle are potential threats. Although the threat to this species is limited because of the large number of existing individuals, *T. rockii* is likely to become endangered in the foreseeable future if the threats are not curbed.

Previous Federal Action

Federal action on these plants began as a result of section 12 of the Act, which directed the Secretary of the Smithsonian Institution to prepare a report on plants considered to be endangered, threatened, or extinct in the United States. This report, designated as House Document No. 94–51, was presented to Congress on January 9, 1975. In that document, *Bidens wiebkei*, *Brighamia rockii*, *Canavalia molokaiensis*, *Hedyotis mannii* (as *H. thyrsoidea* var. *thyrsoidea*), *Hibiscus arnottianus* ssp. *immaculatus* (as *H. immaculatus*), *Melicope reflexa* (as *Pelea reflexa*), *Pritchardia munroi* (as *P. munroii*), *Silene alexandri*, and one of the varieties of *Silene lanceolata* accepted at that time were considered to be endangered. Three of the four varieties of *Hedyotis mannii* accepted in 1975 and three of the varieties of *Silene lanceolata* then accepted were considered to be threatened, and *Tetramolopium rockii* was considered to be extinct. On July 1, 1975, the Service published a notice in the **Federal Register** (40 FR 27823) of its acceptance of the Smithsonian report as a petition within the context of section 4(c)(2) (now section 4(b)(3)) of the Act, and

giving notice of its intention to review the status of the plant taxa named therein. As a result of that review, on June 16, 1976, the Service published a proposed rule in the **Federal Register** (41 FR 24523) to determine endangered status pursuant to section 4 of the Act for approximately 1,700 vascular plant species, including all of the above taxa considered to be endangered or thought to be extinct. The list of 1,700 plant taxa was assembled on the basis of comments and data received by the Smithsonian Institution and the Service in response to House Document No. 94–51 and the July 1, 1975, **Federal Register** publication.

General comments received in response to the 1976 proposal are summarized in an April 26, 1978, **Federal Register** publication (43 FR 17909). In 1978, amendments to the Act required that all proposals over 2 years old be withdrawn. A 1-year grace period was given to proposals already over 2 years old. On December 10, 1979, the Service published a notice in the **Federal Register** (44 FR 70796) withdrawing the portion of the June 16, 1976, proposal that had not been made final, along with four other proposals that had expired.

The Service published updated notices of review for plants on December 15, 1980 (45 FR 82479), September 27, 1985 (50 FR 39525), and February 21, 1990 (55 FR 6183). In these notices, nine of the taxa that had been in the 1976 proposed rule were treated as category 1 candidates for Federal listing. Category 1 taxa are those for which the Service has on file substantial information on biological vulnerability and threats to support preparation of listing proposals. Other than *Hedyotis mannii*, all the aforementioned taxa that were either proposed as endangered or considered possibly extinct; in the June 16, 1976, proposed rule were considered category 1 candidates on all three of the notices of review. *Hedyotis mannii* (as *H. thyrsoidea*) was considered as a category 1* species on the 1980 and 1985 notices, but *H. thyrsoidea* is now regarded as synonymous with *H. mannii* (Wagner *et al.* 1990). *Hedyotis mannii* (as *H. mannii)* was considered a category 2 species on the 1980 and 1985 notices and was included as a category 1 candidate on the 1990 notice. Category 1* taxa are those which are possibly extinct; category 2 taxa are those for which there is some evidence of vulnerability, but for which there are not enough data to support listing proposals at the time. *Schiedea lydgatei* first appeared on the 1985 notice as a category 1 species and remained so on the 1990 notice. *Clermontia oblongifolia* ssp. *mauiensis*, *Cyanea mannii*, *Phyllostegia mannii*, and *Stenogyne bifida* first appeared on the 1990 notice as category 1 taxa. *Cyanea procera* first appeared on the 1990 notice as a category 1* taxon, but information regarding the current existence of individuals of this species became available in 1991.

Section 4(b)(3)(B) of the Act requires the Secretary to make findings on certain pending petitions within 12 months of their receipt. Section 2(b)(1) of the 1982 amendments further requires all petitions pending on October 13, 1982, be treated as having been newly submitted on that date. On October 13, 1983, the Service found that the petitioned listing of these taxa was warranted but precluded by other pending listing actions, in accordance with section 4(b)(3)(B)(iii) of the Act; notification of this finding was published on January 20, 1984 (49 FR 2485). Such a finding requires the petition to be recycled, pursuant to section 4(b)(3)(C)(i) of the Act. The finding was reviewed in October of 1984, 1985, 1986, 1987, 1988, 1989, and 1990.

On September 20, 1991, the Service published in the **Federal Register** (56 FR 47718) a proposal to list 15 plant taxa from the island of Molokai as endangered, and 1 as threatened. This proposal was based primarily on information supplied by the Hawaii Heritage Program, the Hawaii Plant Conservation Center, and observations of botanists and naturalists. The Service now determines 15 taxa primarily from the island of Molokai to be endangered, and an additional taxon to be threatened, with the publication of this rule.

Summary of Comments and Recommendations

In the September 20, 1991, proposed rule and associated notifications, all interested parties were requested to submit factual reports or information that might contribute to the development of a final decision on the proposal. The public comment period ended on November 19, 1991. Appropriate State agencies, county and city governments, Federal agencies, scientific organizations, and other interested parties were contacted and requested to comment. Newspaper notices inviting general public comment were published in the Maui News on October 1, 1991, and in the Hawaii Tribune-Herald on October 4, 1991. Two letters of comment, both from conservation organizations, were received. One letter supported the listing of these 16 taxa as threatened or endangered; the other provided additional information which has been incorporated into this final rule.

Summary of Factors Affecting the Species

After a thorough review and consideration of all information available, the Service has determined that 15 plant taxa from the island of Molokai should be classified as endangered species and 1 taxon from the island of Molokai should be classified as threatened. Section 4 of the Endangered Species Act (16 U.S.C. 1533) and regulations (50 CFR part 424) promulgated to implement the Act set forth the procedures for adding species to the Federal Lists. A species may be determined to be an endangered or threatened species due to one or more of the five factors described in section 4(a)(1). The threats facing these 16 taxa are summarized in Table 1.

TABLE 1.—SUMMARY OF THREATS

Species	Feral animal activity					Alien plants	Fire	Human impacts	Rodents	Limited numbers [1]
	Deer	Goats	Pigs	Sheep	Cattle

Stenogyne bifida	X	X	X					X		X
Tetramolopium rockii	X				X	X	P	X		

X = Immediate and significant threat.
P = Potential threat.
[1] No more than 100 individuals.

These factors and their application to *Bidens wiebkei* Sherff (ko'oko'olau), *Brighamia rockii* St. John (pua 'ala), *Canavalia molokaiensis* Degener, I. Degener & J. Sauer ('awikiwiki), *Clermontia oblongifolia* Gaud. ssp. *brevipes* (F. Wimmer) Lammers ('oha wai), *Cyanea mannii* (Brigham) Hillebr. (haha), *Cynea procera* Hillebr. (haha), *Hedyotis mannii* Fosb. (pilo), *Hibiscus arnottianus* A. Gray ssp. *immaculatus* (M. Roe) D. Bates (koki'o ke'oke'o), *Melicope reflexa* (St. John) T. Hartley and B. Stone (alani), *Phyllostegia mannii* Sherff (NCN), *Pritchardia munroi* Rock (loulu), *Schiedea lydgatei* Hillebr. (NCN), *Silene alexandri* Hillebr. (NCN), *Silene lanceolata* A. Gray (NCN), *Stenogyne bifida* Hillebr. (NCN), and *Tetramolonium rockii* Sherff (NCN) are as follows:

A. The Present or Threatened Destruction, Modification, or Curtailment of its Habitat or Range

Native vegetation on the islands of Molokai and Hawaii has undergone extreme alterations because of past and present land management practices including ranching activities, deliberate animal and alien plant introductions, and agricultural development (Cuddihy and Stone 1990, Wagner *et al.* 1985). Ongoing and threatened destruction and adverse modification of habitat by feral animals and competition with alien plants are the primary threats facing the 16 taxa included in this rule.

Fifteen of the 16 taxa are variously threatened by feral animals. Of the ungulates that have become established on Molokai during the past 150 years, the axis deer (*Cervus axis*) has probably had the greatest impact on the native vegetation. Eight axis deer, introduced to Molokai in 1868 (Culliney 1988, Tomich 1986), increased to thousands of animals by the 1960s (Graf and Nichols 1966). By the turn of the century, these deer had occupied much of the dry to mesic lowland areas and were also found in the wet forests of East Molokai (Graf and Nichols 1966, van Riper and van Riper 1982), where herds so damaged the vegetation that professional hunters were hired to control their numbers (Culliney 1988). The native vegetation has suffered irreparable damage from overgrazing by these animals. Deer degrade the habitat by trampling, consuming, and overgrazing vegetation, which removes ground cover, exposing the soil to erosional actions (J. Lau, pers. comm., 1990). Alien plant species are then able to exploit the newly disturbed areas.

A large portion of the axis deer population on Molokai has been actively managed for recreational hunting by the Division of Forestry and Wildlife since 1959. The maximum allowable limit is only one male deer per hunting trip; the remainder are managed to provide a sustainable yield (Hawaii Department of Land and Natural Resources (DLNR) 1988). Its future as a game species is assured because of its popularity among hunting organizations and its adaptability to the environment of Molokai (Tomich 1986). At present, five of the seven managed hunting areas on Molokai are within the Molokai Forest Reserve. Many areas lack maintained boundary fences that would prevent deer from entering more fragile habitats to the north (Cuddihy *et al.* 1982) and non-game areas to the east. Recently axis deer have begun to enter the windward valleys and northern coastline of East Molokai where they were not previously observed (J. Lau, pers. comm., 1990). Axis deer are threatening the coastal habitats of *Brighamia rockii* and *Tetramolopium rockii* and the montane habitats of *Melicope reflexa, Pritchardia munroi, and Stenogyne bifida* (Bruegmann 1990; HHP 1990h2, 1990o1; J. Lau, pers. comm., 1990; E. Misaki, pers. comm., 1992). The lowland habitat of *Bidens wiebkei* is also threatened by axis deer (CPC 1991).

Introduced to Molokai in the early 1800s, the goat (*Capra hircus*) population flourished despite losses to the goatskin trade that spanned most of that century (Cuddihy and Stone 1990). Currently feral goats, unlike axis deer, degrade Molokai's higher elevation dry forests (Stone 1985) and are now invading the wetter regions along the northern coast of East Molokai (J. Lau, pers. comm., 1990). The impact of feral goats on native vegetation is similar to that described for deer (Cuddihy *et al.* 1982, Scott *et al.* 1986). Although northeastern Molokai is considered one of the most remote and inaccessible places in the main Hawaiian islands, the vegetation there is predominantly exotic (Culliney 1988). The replacement of native vegetation is attributed to the large number of goats. Due to their agility, goats are able to reach vegetation not usually accessible to other animals (Culliney 1988). As a result, various native plants are confined to areas inaccessible to goats. For example, *Brighamia rockii* persists on steep ledges out of the reach of goats and is unlikely to reestablish in any place accessible to them (Culliney 1988, HHP 1990b3). The sole populations of *Silene alexandri* and *Silene lanceolata* at Makolelau; the *Bidens wiebkei* population at Makakupaia; populations of *Canavalia molokaiensis, Hibiscus arnottianus* ssp. *immaculatus*, and *Stenogyne bifida* along the northern shore of East Molokai; *Cyanea procera* at the head of Waikolu Valley; and the only known wild *Pritchardia munroi* palm are threatened by goats (Bruegmann 1990; CPC 1991; Garnett 1989; Gerum 1989; HHP 1990g5, 1990j1, 1990L1; J. Lau, pers. comm., 1990; J. Lau, *in litt.*, 1991). The Hawaii Island populations of *Silene lanceolata* located at Pohakuloa Training Area are also threatened by feral goats found throughout the region. Because goats are managed by the State as a game animal, hunting is encouraged. This activity increases the potential of vegetation being trampled by hunters and increases the threat of hunting-related fires.

Unlike axis deer and goats, pigs (*Sus scrofa*) are generally restricted to the wetter forested regions of Molokai, predominantly in the Molokai Forest Reserve where the majority of the plants included in this rule are located. Well known as a major destroyer of these forest habitats, feral pigs root extensively, trample native vegetation cover, and generally degrade native habitat (Cuddihy and Stone 1990, Stone 1985, van Riper and van Riper 1982). Not only are feral pigs major disseminators of alien plant seeds by carrying them internally or on their bodies, but they often carry the seeds into more pristine forests, further degrading the native ecosystem. In East Molokai's wet upland forests, pigs are destroying the habitat of most populations of *Canavalia molokaiensis*, *Cyanea mannii*, and *Melicope reflexa*, both populations of *Clermontia oblongifolia* ssp. *brevipes*, the only known population of *Phyllostegia mannii*, and the remaining individuals of *Hedyotis mannii* (CPC 1991; Dalton 1984; J. Lau, pers. comm., 1990). Pigs also threaten the Kawela gulch population of *Stenogyne bifida* on Molokai and locally degrade the habitat of *Silene lanceolata* on the island of Hawaii (Aplet *et al.* n.d., HPCC 1990c). The only known surviving plant of *Pritchardia munroi* in the wild was recently fenced to protect it from pigs and other ungulates (CPC 1991). Therefore, feral pigs are no longer a direct threat to this plant, although they continue to degrade the habitat outside the fenced enclosure, making it unlikely that seedlings will become established there. Eradication efforts in The Nature Conservancy preserves include public hunting; many other areas of East Molokai also have public hunting programs (E. Misaki, pers. comm., 1990). However, feral pigs are invasive animals and often inhabit gulches and areas not frequented by hunters or management personnel, hindering the control of those animals in remote sites.

Feral sheep (*Ovis aries*) have become firmly established on the island of Hawaii (Tomich 1986) since their introduction almost 200 years ago (Cuddihy and Stone 1990). Like feral goats, sheep roam the upper elevation dry forests of Mauna Kea (above 8,300 ft (1,000 m)), including Pohakuloa Training Area, causing damage similar to that of goats (Stone 1985). Sheep have decimated vast areas of native forest and shrubland on Mauna Kea and continue to do so as a managed game species. Sheep threaten the habitat of *Silene lanceolata* and at least two listed endangered plant species (Cuddihy and Stone 1990, Shaw *et al.* 1990, Stone 1985).

Although not a direct threat at present to the plant taxa in this final rule, cattle (*Bos taurus*) ranching on Molokai has played a significant role over most of the past 150 years in reducing areas of native vegetation to vast pastures of alien grasses (Cuddihy and Stone 1990, Pekelo 1973, Stone 1985). In 1960 approximately 61 percent of Molokai's land area was devoted to grazing, primarily the lower elevation dry to mesic forests, shrublands, and grasslands of West and central Molokai (Baker 1961). Cattle degraded the habitat by trampling and feeding on vegetation, eventually opening up the ground cover, exposing the soil, and increasing its vulnerability to erosion (Cuddihy and Stone 1990, Lindgren 1908, Pekelo 1973). Red erosional scars resulting from decades of cattle disturbance, exacerbated by other feral ungulate activities, are still evident on West Molokai and upper elevation ridges of East Molokai. Cattle also have facilitated the spread of alien grasses and other plants (Cuddihy and Stone 1990). Because of this alteration of vegetation, natural areas became limited to the upper elevation mesic to wet forests of East Molokai, where the State designated a single protected area: the Molokai Forest Reserve. Most of the taxa in this rule are restricted to this forest reserve, which occupies about 30 percent of Molokai's land area (Baker 1961). As the fences separating cattle ranches from the forest reserve began to deteriorate over time, cattle from low elevation pastures were free to enter the forest reserve, further degrading the native forest (Cuddihy and Stone 1990, Pekelo 1973, Pratt 1973).

In the early 1970s, in an effort to keep bovine tuberculosis from entering domestic stock, a total of 375 wild cattle were eradicated from the forest reserve (Pekelo 1973). Because this did not eliminate tuberculosis, domestic cattle were eradicated from the island between 1985 and 1986. After a mandatory 1-year hiatus, ranches were allowed to reintroduce non-breeding and later breeding animals, such that the cattle population on Molokai is now growing (Molokai Ranch, Ltd. 1988a; J. Lau, pers. comm., 1990). At present, cattle are limited to a large private ranch on West Molokai with over 1,800 animals and small private ranches on East Molokai (Molokai Ranch, Ltd. 1988a to 1988c; E. Misaki, pers. comm., 1990). Cattle are not known to have entered the Molokai Forest Reserve since their reintroduction to the island in 1987 (William Falconer, Maui Department of Agriculture, pers. comm., 1991). However, on West Molokai there have been reports of cattle in Moomomi Preserve (HPCC 1990e), where a protective fence was recently erected to protect *Tetramolopium rockii* and other unique native plants (E. Misaki, pers. comms., 1990, 1992). Since part of the *T. rockii* population lies outside the fence (E. Misaki, pers. comm., 1992), cattle continue to degrade habitat of *T. rockii*. The future of cattle and their impact on the native vegetation of Molokai, including the 16 taxa in this rule, is uncertain. However, as cattle ranching becomes a more important economic activity on the island, the impact of cattle will likely be increasingly deleterious.

Cattle ranching was the island's primary industry until the 1920s, when pineapple cultivation was introduced to boost the then failing economy (Bottenfield 1958). Most of the land used for this form of agriculture had already been altered through decades of extensive ranching activities. However, until the pineapple industry's decline in the 1970s, pineapple cultivation contributed significantly to the high degree of erosion (Cuddihy and Stone 1990, Wagner *et al.* 1985). More recently, economic growth has been based largely on tourism (Plasch 1985). Hotels are being proposed in conjunction with an anticipated increase in the tourist industry. Although development is limited at present to the primary tourist destination of Kaluakoi on Molokai's western end, it is inevitable that development will affect the native vegetation elsewhere on the island. For example, a water diversion plan currently under discussion proposes the extension of a tunnel eastward from Waikolu Stream, now being tapped, to other potential watershed sources such as Pelekunu Valley. Under current methods of tunnel development, construction at the surface level is likely to favor the spread of alien plant species (Alan Holt, TNCH, pers. comm., 1990).

Seven of the 16 taxa are threatened by competition with 1 or more alien plant species (see Table 1). Noxious alien plants such as *Schinus terebinthifolius* (Christmas berry) have invaded the dry to mesic lowland areas. Introduced to Hawaii before 1911, Christmas berry has had particularly detrimental impacts (Cuddihy and Stone 1990). Its spread is facilitated by the opening of the ground cover and canopy by feral ungulates. This fast-growing tree is considered one of the major alien plant problems affecting the native vegetation of Molokai because it is able to form dense thickets that displace other plants

(Cuddihy and Stone 1990; Smith 1985; J. Lau, pers. comm., 1990). It is spreading in Kalaupapa, Waikolu, and throughout Halawa (Kirch and Kelly 1975; Linney, in press; J. Lau, pers. comm., 1990), where it presently threatens the habitat of four of the five populations of *Bidens wiebkei* and may threaten populations of *Brighamia rockii* (HHP 1990b3).

With the introduction of cattle, goats, and deer and the development of organized ranching, the native forests in many parts of the State were converted to vast pastures of alien grasses. Of the alien grasses that have become established on Molokai, *Melinus minutiflora* (molasses grass) is probably the most disruptive to its native dry forests. First introduced as cattle fodder (Bottenfield 1958), then planted for erosion control (Cuddihy and Stone 1990), this alien species quickly spread to dry and mesic forests previously disturbed by ungulates. Molasses grass produces a dense mat capable of smothering plants (Smith 1985), essentially preventing seedling growth and native plant reproduction (Cuddihy and Stone 1990). As a fuel for fire, molasses grass intensifies its heat and carries fire into areas with woody plants (Cuddihy and Stone 1990, Smith 1985). It is able to spread prolifically after a fire and effectively compete with less fire-adapted native plant species, creating a dense stand of alien grass where forests once stood. Molasses grass is becoming a major problem in dry sites along the many leeward ridges of East Molokai. Also affected are the lower portions of Kamakou Preserve and outlying areas to the south (J. Lau, pers. comm., 1990). Here all five populations of *Schiedea lydgatei*, and populations of *Canavalia molokaiensis* and *Hedyotis mannii* are threatened by invading molasses grass (HHP 1990c4, 1990f1; J. Lau, pers. comm., 1990). The southern section of Halawa, containing a population of *Bidens wiebkei*, is also infested (HHP 1990a3). The other plant taxa covered by this rule which are found near molasses grass are not presently threatened, because they grow in gulches and wetter areas where the intact ground cover makes invasion by molasses grass difficult.

Prosopis pallida (kiawe), a common deciduous tree found in arid, low-elevation, disturbed sites on Molokai (Smith 1985, Wagner *et al.* 1990), has invaded areas adjacent to the hardened sand dunes of Moomomi Preserve where *Tetramolopium rockii* grows (HHP 1990o1; J. Lau, pers. comm., 1990). Kiawe shades the ground cover and its vast root system dries the substrate by utilizing all available water (Smith 1985). It thus competes with *Tetramolopium rockii* (E. Misaki, pers. comm., 1990) for light, space, and moisture.

Of the naturalized species in the melastome family, *Clidemia hirta* (Koster's curse) has become one of the most disruptive invaders of Hawaii's native ecosystems (Cuddihy and Stone 1990). First reported from the island of Oahu in 1941, Koster's curse quickly invaded the other Hawaiian islands and now occupies more than 23 sq mi (60 sq km) on East Molokai, primarily in Pelekunu and Wailau valleys (Cuddihy and Stone 1990). This noxious shrub forms a dense understory up to 6 ft (2 m) tall, shading other plants and hindering plant regeneration (Smith 1985). Koster's curse threatens to replace the Wailau-Mapulehu summit ridge population of *Melicope reflexa* (HHP 1990h2; J. Lau, pers. comm., 1991).

Pennisetum setaceum (fountain grass) is a fire-adapted bunch grass that has spread rapidly over bare lava flows and open areas on the island of Hawaii since its introduction in the early 1900s. Fountain grass is particularly detrimental to Hawaii's dry forests because it is able to invade areas once dominated by native plants, where it interferes with plant regeneration, carries fires into areas not usually prone to fires, and increases the likelihood of fires (Cuddihy and Stone 1990, Smith 1985). The *Chamaesyce olowaluana* ('akoko) forests on the island of Hawaii, apparently former habitat of *Silene lanceolata*, have burned repeatedly and are now largely replaced by fountain grass (R. Shaw, pers. comm., 1991). This alien plant is present in the habitat of one of the populations of *Silene lanceolata* on the island of Hawaii, where it is likely to become a more serious problem.

Fire is a major threat to the plant species found in dry to mesic habitats, especially in the lower portions of Kamakou Preserve and adjacent areas to the south, where populations of *Schiedea lydgatei, Silene alexandri*, and *Silene lanceolata* are located (Cuddihy *et al.* 1982; J. Lau, pers. comm., 1990; E. Misaki, pers. comm., 1991). Populations of *Bidens wiebkei* at Halawa and *Tetramolopium rockii* at Moomomi are also threatened by fire (CPC 1991; HHP 1990o1). For reasons previously discussed, the presence of molasses grass greatly enhances the potential and destructiveness of fires. For example, in 1988 a human-caused fire consumed roughly 15 sq mi (38 sq km) of shrubland and forest from the southern coastline of East Molokai to the southwest corner of Kamakou Preserve, about 3.5 mi (5.5 km) inland (E. Misaki, pers. comm., 1990), and may possibly have destroyed four of the five populations of *Schiedea lydgatei*. Molasses grass was the main carrier of that fire (E. Misaki, pers. comm., 1991). Although fires are not frequent at Moomomi, a single fire could burn extensively through dry shrub and grassland and destroy portions of the *Tetramolopium rockii* populations that grow there (E. Misaki, pers. comm., 1990). The dry to mesic habitat of *Pritchardia munroi* is also threatened by fire (CPC 1991, HHP 1990j1).

Natural fires and fires accidentally set by hunters or military ordnance or personnel within PTA on the island of Hawaii threaten native vegetation on the leeward side of Mauna Kea (Herbst and Fay 1979), including the habitat of three populations of *Silene lanceolata*. Although the habitat of Hawaii Island populations of *S. lanceolata* at Kipuka Alala and Kipuka Kalawamauna has apparently been burned repeatedly, those populations are still present (R. Shaw, pers. comm., 1991). This suggests the possibility that this species may be tolerant to fire. However, fire-adapted grasses already at these sites can exploit newly burned areas more rapidly than woody species (Cuddihy and Stone 1990) (presumably including *S. lanceolata*), resulting in the conversion of native shrubland to land dominated by alien grasses. Fire is therefore at least an indirect and serious threat to this species. In order to protect the Kipuka Kalawamauna population from fires, the U.S. Army has installed firebreaks and now redirects ordnance firing away from that kipuka. The Army is also developing plans to protect the newly discovered Kipuka Alala population.

Habitat disturbance caused by human activities threatens four of the taxa. Military exercises at PTA on the island of Hawaii may have threatened *Silene lanceolata* in the past. Planned military maneuvers are now being reevaluated in light of the recent discovery of the Kipuka Alala and Kipuka Kalawamauna populations of that species. Recreational activities such as fishing and camping have drawn people to Moomomi Preserve and the adjacent coastline. The population of *Tetramolopium rockii* on State-owned Hawaiian Home Lands east of Moomomi Preserve is subject to disturbance by vehicles passing along two jeep roads that run through that population (HPCC 1990e; E. Misaki, pers. comm., 1990), which represents almost 25 percent of the individuals of that species. Although the human impact on the spray zone population of *T. rockii* on Kalaupapa Peninsula is now minimal,

greater impacts may result from the expected increase in visitor use after the residents of Kalaupapa's Hansen's disease settlement live out their lives (Canfield, in press; Greene 1985; United States, National Park Service (NPS) 1988). A population of *Bidens wiebkei* at Makakupaia, representing approximately half the total individuals of that species, grows along a jeep road. Off-road activity would damage a significant portion of that population. One of the three populations of *Stenogyne bifida* is located near a hiking trail at Kawela and has the potential of being trampled or collected (S. Anderson, pers. comm., 1990).

B. Overutilization for Commercial, Recreational, Scientific, or Educational Purposes

Overutilization is not known to be a factor, but unrestricted collecting for scientific or horticultural purposes or excessive visits by individuals interested in seeing rare plants could result from increased publicity and would seriously impact the 11 taxa whose low numbers make them especially vulnerable to disturbances. Such disturbance could promote erosion and greater ingression of alien plant species.

C. Disease or Predation

No evidence of disease has been reported for the 16 taxa. Rats (*Rattus* spp.) are known to eat the fruits of *Pritchardia munroi* (CPC 1991). Although the incidence of rats in the vicinity of the last remaining wild plant appears to be low, the fence that was erected to protect that plant from foraging animals does not prevent rats from continuing to feed on the fruit (Garnett 1989, HHP 1990j1). A more important threat is that of foraging by goats and other ungulates in the area, which has resulted in there being no successful regeneration of the palm (CPC 1991, Gerum 1989). There is no direct evidence that rats feed on *Brighamia rockii*, *Clermontia oblongifolia* ssp. *brevipes*, *Cyanea mannii*, or *Cyanea procera*. However, such evidence does exist for related *Clermontia* and *Cyanea* species in similar habitat on other islands (J. Lau, pers. comm., 1990). Because rats are found in remote areas on Molokai, it is likely that predation occurs on these four taxa as well (CPC 1991; HPCC 1990a; J. Lau, pers. comm., 1990).

A goat enclosure experiment on the island of Hawaii demonstrated that *Canavalia hawaiiensis*, a relative of *Canavalia molokaiensis*, is consumed by goats (St. John 1972). It is possible that goats also eat *C. molokaiensis*. At Moomomi, axis deer graze primarily on introduced plants inland of the dunes (Bruegmann 1988), but they are also likely to consume *Tetramolopium rockii* where it is the dominant ground cover. While there is no direct evidence of predation by ungulates on any of the 16 taxa, they are not known to be unpalatable to goats, deer, or cattle. Predation is therefore a probable threat at sites where those animals have been reported, potentially affecting 11 of the taxa: *Bidens wiebkei*, *Brighamia rockii*, *Canavalia molokaiensis*, *Cyanea procera*, *Hibiscus arnottianus* ssp. *immaculatus*, *Melicope reflexa*, *Pritchardia munroi*, *Silene alexandri*, *Silene lanceolata*, *Stenogyne bifida*, and *Tetramolopium rockii*.

D. The Inadequacy of Existing Regulatory Mechanisms

All 16 taxa have populations located on privately owned lawn. Nine taxa are found exclusively on private land. Of the remaining taxa, six also occur on State land (including one species located on the boundary between State and private land) and one occurs on Federal land. There are no State laws or existing regulatory mechanisms at the present time to protect or prevent further decline of these plants on private land. However, Federal listing would automatically invoke listing under Hawaii State law, which prohibits taking and encourages conservation by State Government agencies. State regulations prohibit the removal, destruction, or damage of plants found on State lands. However, the regulations are difficult to enforce because of limited personnel.

Hawaii's Endangered Species Act (HRS, Sect. 195D–4(a)) states, "Any species of aquatic life, wildlife, or land plant that has been determined to be an endangered species pursuant to the Endangered Species Act [of 1973] shall be deemed to be an endangered species under the provisions of this chapter and any indigenous species of aquatic life, wildlife, or land plant that has been determined to be a threatened species pursuant to the Endangered Species Act shall be deemed to be a threatened species under the provisions of this chapter." Further, the State may enter into agreements with Federal agencies to administer and manage any area required for the conservation, management, enhancement, or protection of endangered species (HRS, Sect. 195D–5(c)). Funds for these activities could be made available under section 6 of the Federal Act (State Cooperative Agreements). Listing of these 16 plant taxa would therefore reinforce and supplement the protection available under State law. The Act would also offer additional protection to these 16 taxa because if they were to be listed as endangered or threatened, it would be a violation of the Act for any person to remove, cut, dig up, damage, or destroy any such plant in an area not under Federal jurisdiction in knowing violation of State law or regulation or in the course of any violation of a State criminal trespass law.

E. Other Natural or Manmade Factors Affecting Its Continued Existence

The small number of populations and of individual plants of many of these taxa increases the potential for extinction from stochastic events. The limited gene pool may depress reproductive vigor, or a single human-caused or natural environmental disturbance could destroy a significant percentage of the individuals or the only known extant population. For example, 6 of the taxa are known from a single population: *Clermontia oblongifolia* ssp. *brevipes* and *Pritchardia munroi* (the latter reduced to a single remaining plant); *Cyanea procera* and *Phyllostegia mannii* (each numbering only 4 plants); *Hedyotis mannii* (11 plants); and *Silene alexandri* (fewer than 10 plants). All of the 16 taxa are known from 7 or fewer populations; 11 of them from fewer than 5 populations. Eleven of the taxa are estimated to number no more than 100 known individuals (see Table 1). Approximately 22 plants of *Pritchardia munroi* are in cultivation in various arboreta and institutions throughout the world (Gerum 1989). However, little is known about the genetics of this species and it is unclear whether hybridization with other species occurs, resulting in the questionable species integrity of the cultivated plants. It is not clear whether selfing or outcrossing (outbreeding) occurs or whether the second generation seeds are viable (Derral Herbst, U.S. Fish and Wildlife Service, pers. comm., 1990).

The Service has carefully assessed the best scientific and commercial information available regarding the past, present, and future threats faced by these 16 taxa in determining to issue this final rule. Based on this evaluation, the preferred action is to list these 16 taxa: *Bidens wiebkei*, *Brighamia rockii*, *Canavalia molokaiensis*, *Clermontia oblongifolia* ssp. *brevipes*, *Cyanea mannii*, *Cyanea procera*, *Hedyotis mannii*, *Hibiscus arnottianus* ssp. *immaculatus*, *Melicope reflexa*, *Phyllostegia mannii*, *Pritchardia munroi*, *Schiedea lydgatei*, *Silene alexandri*, *Silene lanceolata*, and *Stenogyne bifida*, as endangered and the

species *Tetramolopium rockii* as threatened. All of the taxa determined to be endangered are known from 7 or fewer populations, and 11 taxa are estimated to number fewer than 100 individuals. The 15 taxa are threatened by 1 of more of the following: Habitat degradation and/or predation by deer, feral goats, pigs, sheep, and cattle; competition from alien plants; fire; recreational activities; and military training exercises. Small population size makes these taxa particularly vulnerable to extinction from stochastic events. Because these 15 taxa are in danger of extinction throughout all or a significant portion of their ranges, they fit the definition of endangered as defined in the Act.

Although all populations of *Tetramolopium rockii* are threatened to some degree by competition with alien plants, habitat destruction and predation by feral animals, fire, and/or human activities, the relatively large number of existing individuals of *T. rockii* reduces the likelihood that this species will become extinct in the near future. Because the threats facing *T. rockii* are limited at present, this species is not now in immediate danger of extinction throughout all or a significant portion of its range. However, *T. rockii* is likely to become endangered in the foreseeable future if the threats are not curbed. As a result, *Tetramolopium rockii* fits the definition of a threatened species as defined in the Act.

Critical habitat is not being designated for the 16 taxa included in this rule, for reasons discussed in the "Critical Habitat" section of this rule.

Critical Habitat

Section 4(a)(3) of the Act, as amended, requires that to the maximum extent prudent and determinable, the Secretary designate critical habitat at the time a species is determined to be endangered or threatened. The Service finds that designation of critical habitat is not presently prudent for these taxa. Such a determination would result in no known benefit to the taxa. Eleven of the taxa have extremely low total populations and face anthropogenic threats (See Factor B in "Summary of Factors Affecting the Species"). The publication of precise maps and descriptions of critical habitat in the **Federal Register** and local newspapers as required in a designation of critical habitat would increase the degree of threat to these plants from take or vandalism and, therefore, could contribute to their decline and increase enforcement problems. The listing of these taxa as either endangered or threatened publicizes the rarity of the plants and, thus, can make these plants attractive to researchers, curiosity seekers, or collectors of rare plants. All involved parties and the major landowners have been notified of the general location and importance of protecting the habitat of these taxa. Protection of the habitat of the taxa will be addressed through the recovery process and through the section 7 consultation process.

There are two known Federal activities within the currently known habitats of these plants. Three populations of *Silene lanceolata* are known from the Pohakuloa Training Area on the Island of Hawaii: One population, which has not been seen for over 40 years, was located in the northern part of PTA; another population is in the Kipuka Kalawamauna Endangered Plants Habitat, an area of PTA cooperatively designated by the U.S. Army, the U.S. Fish and Wildlife Service, the Hawaii Department of Fish and Wildlife, and the Hawaii Department of Land and Natural Resources; and the third population is in Kipuka Alala. Existing firebreaks and redirection of ordnance firing away from Kipuka Kalawamauna will help protect that population, and the Army is now developing plans to protect the newly discovered Kipuka Alala population. Three of the seven populations of *Canavalia molokaiensis* and one of the four populations of *Tetramolopium rockii* are found in Kalaupapa National Historical Park. Although the State of Hawaii owns the land where these populations are found, the National Park Service leases and manages the area. Federal laws protect all plants in the park from damage or removal. The involved Federal agencies are aware of the presence and location of these species, and any Federal activities that may affect these plants will be addressed through the section 7 consultation process. Therefore, the Service finds that designation of critical habitat for these taxa is not prudent at this time, because such designation would increase the degree of threat from vandalism, collecting, or other human activities and because it is unlikely to aid in the conservation of these taxa.

Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened under the Endangered Species Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain activities. Recognition through listing encourages and results in conservation actions by Federal, State, and private agencies, groups, and individuals. The Endangered Species Act provides for possible land acquisition and cooperation with the State and requires that recovery actions be carried out for all listed species. The protection required of Federal agencies and the prohibitions against certain activities involving listed plants are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species that is proposed or listed as endangered or threatened and with respect to its critical habitat, if any is being designated. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR part 402. Section 7(a)(2) of the Act requires Federal agencies to insure that activities they authorize, fund, or carry out are not likely to jeopardize the continued existence of such a species or to destroy or adversely modify its critical habitat. If a Federal action may affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with the Service.

Some populations of two species, *Canavalia molokaiensis* and *Tetramolopium rockii*, are located in Kalaupapa National Historical Park. Laws relating to national parks prohibit damage or removal of any plants growing in the parks. Most of the known individuals of *Silene lanceolata* are located within Pohakuloa Training Area on the Island of Hawaii. Firebreaks and redirection of firing exercises away from the listed plant species at Kipuka Kalawamauna will help protect the population of *Silene lanceolata* at that kipuka. Military activities planned near the Kipuka Alala population are now being reevaluated in the light of that population's discovery. There are no other known Federal activities that occur within the present known habitat of these 16 plant taxa.

The Act and its implementing regulations found at 50 CFR 17.61, 17.62, and 17.63 for endangered species and 17.71 and 17.72 for threatened species set forth a series of general prohibitions and exceptions that apply to all endangered plants and to threatened plant species not covered by a special rule. With respect to the 16 plant taxa from the island of Molokai, the prohibitions of section 9(a)(2) of the Act, implemented by 50 CFR 17.61 and 17.71, apply. These prohibitions, in part, make it illegal with respect to any endangered plant, or any threatened plant subject thereto, for any person subject to the jurisdiction of the United States to import or export; transport in interstate or foreign commerce in the course of a

commercial activity; sell or offer for sale these species in interstate or foreign commerce; or to remove and reduce to possession any such species from areas under Federal jurisdiction; maliciously damage or destroy any such species on any area under Federal jurisdiction; or remove, cut, dig up, damage, or destroy any such species on any other area in knowing violation of any state law or regulation or in the course of any violation of a State criminal trespass law. Seeds from cultivated specimens of threatened plant species are exempt from these prohibitions provided that a statement of "cultivated origin" appears on their containers. Certain exceptions apply to agents of the Service and State conservation agencies.

The Act and 50 CFR 17.62, 17.63, and 17.72 also provide for the issuance of permits to carry out otherwise prohibited activities involving endangered and threatened plant species under certain circumstances. It is anticipated that few trade permits would ever be sought or issued because the species are not common in cultivation nor in the wild. Requests for copies of the regulations on plants and inquiries regarding them may be addressed to the Office of Management Authority, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, room 432, Arlington, Virginia 22203–3507 (703/358–2104, FAX 703/358–2281).

National Environmental Policy Act

The Fish and Wildlife Service has determined that an Environmental Assessment or Environmental Impact Statement, as defined under the authority of the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the **Federal Register** on October 25, 1983 (48 FR 49244).

RIN 1018-AB73

Endangered and Threatened Wildlife and Plants; Echinacea laevigata (Smooth Coneflower) Determined To Be Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The Service determines the plant *Echinacea laevigata* (smooth coneflower), a perennial herb limited to 21 populations in Virginia, North Carolina, South Carolina, and Georgia, to be an endangered species under the authority of the Endangered Species Act of 1973, as amended (Act). *Echinacea laevigata* is endangered by collecting, encroachment of woody vegetation, residential and industrial development, highway construction and improvement, and certain types of roadside and power line right-of-way maintenance. This action implements Federal protection provided by the Act for *Echinacea laevigata*.

EFFECTIVE DATE: November 9, 1992.

ADDRESSES: The complete file for this rule is available for inspection, by appointment, during normal business hours at the U.S. Fish and Wildlife Service, 330 Ridgefield Court, Asheville, North Carolina 28806.

FOR FURTHER INFORMATION CONTACT: Ms. Nora Murdock at the above address (704/665-1195, Ext. 231).

SUPPLEMENTARY INFORMATION:

Background

Echinacea laevigata is a rhizomatous perennial herb described by Boynton and Beadle in Small (1903) from material collected in South Carolina in 1888. This coneflower grows up to 1.5 meters tall from a vertical root stock; stems are smooth, with few leaves. The largest leaves are the basal leaves, which reach 20 cm in length and 7.5 cm in width, have long stems, and are elliptical to broadly lanceolate, tapering to the base, and smooth to slightly rough. The mid-stem leaves have shorter stems or no stems and are smaller in size than the basal leaves. The rays of the flowers (petal-like structures) are light pink to purplish, usually drooping, and 5 to 8 cm long. Flower heads are usually solitary. Flowering occurs from May through July. The fruit is a gray-brown, oblong-prismatic achene, usually four-angled, and 4 to 4.5 mm long; seeds are .5 cm long (Kral 1983, Radford *et al.* 1964, McGregor 1968, Cronquist 1980, Gaddy 1991, and Wofford 1989). The smooth coneflower can be distinguished from its most similar relative, the purple coneflower (*E. purpurea*), by its leaves, which in the smooth coneflower are never cordate (heart-shaped) like those of the purple coneflower. In addition, the awn of the pale in the smooth coneflower is incurved, while that of *E. purpurea* is straight (Kral 1983, Gaddy 1991, and Wofford 1989).

The reported historical range of *Echinacea laevigata* included Pennsylvania, Maryland, Virginia, North Carolina, South Carolina, Georgia, Alabama, and Arkansas. The species is now known to survive only in Virginia, North Carolina, South Carolina, and Georgia. Five populations survive in Virginia, six in North Carolina, seven in South Carolina, and three in Georgia. Three additional populations in South Carolina (two in Aiken County and one in Allendale County) are believed to have been introduced. The habitat of smooth coneflower is open woods, cedar barrens, roadsides, clearcuts, dry limestone bluffs, and power line rights-of-way, usually on magnesium- and calcium-rich soils associated with limestone (in Virginia), gabbro (in North Carolina and Virginia), diabase (in North Carolina and South Carolina), and marble (in South Carolina and Georgia). Optimal sites are characterized by abundant sunlight and little competition in the herbaceous layer (Gaddy 1991). Natural fires, as well as large herbivores, are part of the history of the vegetation in this species' range; many of the associated herbs are also cormophytic, sun-loving species, which depend on periodic disturbances to reduce the shade and competition of woody plants (Kral 1983 and Gaddy 1991)

A total of 59 populations of *Echinacea laevigata* have been reported historically from 24 counties in 8 States. The reports from Alabama and Arkansas are now believed to have been misidentifications (Gaddy 1991). Of the 21 remaining populations (located in Pulaski, Montgomery, Campbell, and Franklin Counties, Virginia; Durham and Granville Counties, North Carolina; Oconee and Anderson Counties, South Carolina; and Stephens County, Georgia), 7 occur on land managed by the U.S. Forest Service, 2 are on U.S. Army Corps of Engineers lands, 1 is on North Carolina Department of Agriculture land, 1 site is owned by The Nature Conservancy, 1 site is owned by the South Carolina Heritage Trust Program, 1 site is within a right-of-way maintained by the South Carolina Department of Highways and Public Transportation, 1 is on land managed by Clemson University, and the remaining 7 are on privately owned lands. Several of these populations are in or near transmission line corridors of various utility companies or are near highway rights-of-way. Extirpated populations are believed to have succumbed due to the absence of natural disturbance (fire and/or grazing), highway construction and improvement, gas line installation, and residential and industrial development. The continued existence of *Echinacea laevigata* is threatened by these activities, as well as by collecting,

herbicide use, and possibly by encroachment of exotic species.

Federal government actions on this species began with Section 12 of the Act (16 U.S.C. 1531 *et seq.*), which directed the Secretary of the Smithsonian Institution to prepare a report on those plants considered to be endangered, threatened, or extinct. This report, designated as House Document number 94–51, was presented to Congress on January 9, 1975. The Service published a notice in the July 1, 1975, **Federal Register** (40 FR 27832) of its acceptance of the report of the Smithsonian Institution as a petition within the context of section 4(c)(2) (now section 4(b)(3)) of the Act and of its intention thereby to review the status of the plant taxa named within.

Section 4(b)(3)(B) of the Act, as amended in 1982, requires the Secretary to make findings on certain pending petitions within 12 months of their receipt. Section 2(b)(1) of the 1982 Amendments further requires that all petitions pending on October 13, 1982, be treated as having been newly submitted on that date. This was the case for *Echinacea laevigata* because the Service had accepted the 1975 Smithsonian report as a petition. In each October from 1983 through 1990, the Service found that the petitioned listing of this species was warranted but precluded by other listing actions of a higher priority, and that additional data on vulnerability and threats were still being gathered.

On December 15, 1980, the Service published a revised notice of review for native plants in the **Federal Register** (45 FR 82480); *Echinacea laevigata* was included in that notice as a category 2 species. Category 2 species are those species for which listing as endangered or threatened may be warranted but for which substantial data on biological vulnerability and threats are not currently known or on file to support proposed rules.

Subsequent revisions of the 1980 notice have maintained *Echinacea laevigata* in category 2. However, recently completed status survey work provided sufficient data to support proposing the species as endangered, and indicated the species to have a listing priority of 2 (see **Federal Register** of September 21, 1983 (48 FR 43098) for discussion of priority guidelines). A proposal was published on December 9, 1991 (56 FR 64229) to list *Echinacea laevigata* as endangered, and constituted the final 12-month finding for this species under Section 4(b)(3)(B) of the Act.

Summary of Comments and Recommendations

In the December 9, 1991, proposed rule and associated notifications, all interested parties were requested to submit factual reports or information that might contribute to the development of a final rule. Appropriate State agencies, county governments, Federal agencies, scientific organizations, and other interested parties were contacted and requested to comment. Newspaper notices inviting public comment were published in the Durham Herald (North Carolina) on December 29, 1991, and the Roanoke Times and World News (Virginia) on December 27, 1991.

Twenty-one comment letters were received. Nineteen of these expressed support for the proposal, and two presented additional information without stating a position.

Summary of Factors Affecting the Species

After a thorough review and consideration of all information available, the Service has determined that *Echinacea laevigata* should be classified as an endangered species. Procedures found at section 4(a)(1) of the Act and regulations (50 CFR part 424) promulgated to implement the listing provisions of the Act were followed. A species may be determined to be endangered or threatened due to one or more of the five factors described in section 4(a)(1). These factors and their application to *Echinacea laevigata* (Boynton and Beadle) Blake (smooth coneflower) are as follows:

A. The Present or Threatened Destruction, Modification, or Curtailment of Its Habitat or Range.

Echinacea laevigata has been and continues to be endangered by destruction or adverse alteration of its habitat. Since discovery of the species, 64 percent of the known populations have been extirpated, partly as a result of conversion of habitat for silvicultural and agricultural purposes and for industrial and residential development. Fire suppression appears to be a problem for this species and will be discussed in detail under Factor E below. Of the 38 populations that have been extirpated, one is known to have been eliminated by highway construction, another by construction of a gas line, and a third by conversion of the site to pine plantation. Causes for the extirpation of the others are unknown. Many of the remaining populations are on the edges of highways or utility rights-of-way. The largest population remaining is in Granville County, North Carolina. This population, which contains one-third of the total smooth coneflower plants in existence, occupies a site that has recently been proposed for construction of a regional hazardous waste incinerator. Of the 21 extant populations, 13 are currently declining in numbers of plants, only 7 are considered stable, and 1 is increasing. Nineteen of the populations are currently threatened by habitat alterations (Gaddy 1991).

Half of the remaining populations survive along roadsides. Three populations remain on utility line rights-of-way, another is along an abandoned railroad right-of-way, and a fifth is on the edge of a motorbike trail in a wooded area. Most of the populations are small, with 11 containing less than 100 plants each. Four of these contain less than 10 plants each. Such small populations are inherently vulnerable to extirpation as a result of highway and right-of-way improvement, particularly if herbicides are use.

Highly restricted distribution and the scarcity of seed sources, as well as appropriate habitat, increase the severity of the threats faced by *Echinacea laevigata*. As stated in the "Background" section above, this species requires some form of disturbance to maintain its open habitat and can withstand mowing and timber-harvesting operations, if properly done. It cannot withstand bulldozing or direct application of broadleaf herbicides. In addition, the small populations that survive on road edges could be easily destroyed by highway improvement projects or by right-of-way maintenance activities, if these are not done in a manner consistent with protecting the species.

B. Overutilization for Commercial, Recreational, Scientific, or Educational Purposes

Echinacea laevigata, although offered for sale by a few native plant nurseries, is not currently a significant component of the commercial trade in native plants. However, many of the more common native coneflowers are in demand for horticultural use and are a significant part of the commercial trade. Publicity could generate an increased demand for this attractive species, which might exceed the currently available sources of cultivated material. Because of its small and easily accessible populations, it is vulnerable to taking and vandalism that could result from increased specific notoriety.

Overshadowing the potential threat of taking for horticultural purposes is the threat of commercial collection for the

pharmaceutical trade. For over a century, Midwestern species in this genus have been harvested and sold in European and American markets under the trade name "Kansas snake root" (McGregor 1968). In Germany alone, over 280 products made from various species of this American genus are registered for medicinal use (Bauer and Wagner 1990). As stated by Steven Foster (Consultant, Eureka Springs, Arkansas, personal communication, 1990):

> The potential danger of inadvertent harvest of plants for commercial markets may be the greatest hidden danger to *Echinacea laevigata* * * * we have been able to document that three endemic species have also been harvested without proper attention to species identity in the Midwest. These include the Ozark endemics, *E. paradoxa* and *E. simulata*, as well as *E. atrorubens*.

Documented harvests have reached as high as 200,000 pounds collected from a single Kansas county in 1 year. Given the fact that at least 8 to 10 dried roots are required to make up 1 pound, this single harvest represented the collection of approximately two million roots. Dr. Ronald McGregor, director emeritus of the herbarium at the University of Kansas and the leading authority on the genus *Echinacea* (in Foster 1991), noted drastic declines in Kansas populations of *Echinacea pallida* as a result of commercial harvests in the 5 years prior to 1987. Although most of the commercial supply of *Echinacea purpurea* now comes from cultivated sources, the demand for the roots far outstrips the commercial supply and is resulting in increasing pressure on wild populations of nearly every species in the genus.

In 1987, 7,000 individuals of the Ozark endemic, *Echinacea paradoxa*, were stolen from a Missouri State park (Wallace 1987). Wallace further stated, "Diggers do not discriminate between species, collecting all *Echinaceas*." Foster (1991) further states:

> Unfortunately, a number of the endemic and more unusual *Echinacea* species are entering commercial lots, dug by unwitting harvesters. In the Ozarks, this author has observed *Echinacea simulata*, harvested by the truck load. Roadside populations have decreased dramatically in South Central Missouri. The plant is much less common in northern Arkansas. Commercial harvest of this species from the wild cannot be sustained. If harvested at current levels over he next 10 years, its fate will be extinction.

Although such devastation of *Echinacea laevigata* populations for the commercial pharmaceutical trade has not yet been documented, almost two-thirds of the originally known populations of this species are gone. Those remaining are small, easily accessible, and highly vulnerable.

C. Disease or Predation

Echinacea angustifolia is known to be a host plant for certain species of leaf beetle (family *Chrysomelidae*) (Wilcox 1979). Beetles in this family have been observed on *Echinacea laevigata* in North Carolina, but it is unknown what effect they have on the plants. At this time there is no known threat to this species from disease.

D. The Inadequacy of Existing Regulatory Mechanisms

Echinacea laevigata is listed in North Carolina as endangered (Sutter 1990), in South Carolina as nationally threatened (Rayner *et al.* 1984), in Georgia as threatened (McCollum and Ettman 1987), and in Alabama as endangered (Freeman *et al.* 1979). The species is not listed in Virginia.

In North Carolina, *Echinacea laevigata* is afforded legal protection by North Carolina general statutes, § 106–202.122, 106–202.19 (Cum. Suppl. 1985). This legislation provides for protection from intrastate trade (without a permit), provides for monitoring and management of State-listed species, and prohibits taking of plants without the written permission of landowners. In Georgia the species is afforded legal protection under the Wildflower Preservation Act of 1973, Code of Georgia Ann., Title 43, Section 43–1801 to 43–1806. Georgia legislation prohibits taking of listed plants from public lands (without a permit) and regulates the sale and transport of plants within the State. Although South Carolina and Alabama recognize this species as nationally threatened and endangered, respectively, neither State offers legal protection for plants.

State prohibitions against taking are difficult to enforce and do not cover adverse alterations of habitats, such as exclusion of fire. The Endangered Species Act will provide additional protection and encouragement of active management for *Echinacea laevigata*.

E. Other Natural or Manmade Factors Affecting Its Continued Existence

As mentioned in "Background" section of this proposed rule, many of the remaining populations are small in numbers of individual stems and in area covered by the plants. Therefore, there may be low genetic variability within populations, making it more important to maintain as much habitat and as many of the remaining colonies as possible. Much remains unknown about the demographics and reproductive requirements of this species in the wild, although several of the other species in the genus are readily cultivated and grown from seed. A few commercial nurseries specializing in native plants are currently propagating this species and are offering cultivated specimens for sale.

Fire or some other suitable form of disturbance, such as well-timed mowing or careful clearing, is essential to maintaining the glade remnants occupied by *Echinacea laevigaga*. Without such periodic disturbance, this type of habitat is gradually overtaken and eliminated by shrubs and trees of the adjacent woodlands. As the woody species increase in height and density, they overtop *Echinacea laevigata*, which, like most other coneflowers, is intolerant of dense shade. In addition, the species seems to require bare soil for germination of seeds. The current distribution of the species is ample evidence of its dependence on disturbance. Of the 21 remaining populations, 15 are on roadsides, in utility or railroad rights-of-way, or adjacent to trails.

The Service has carefully assessed the best scientific and commercial information available regarding the past, present, and future threats faced by this species in determining to make this rule final. Based on this evaluation, the preferred action is to list *Echinacea laevigata* as endangered. With over two-thirds of the species' populations already having been eliminated and only 21 remaining in existence, and based upon its dependence on some form of active management, it definitely warrants protection under the Act. Endangered status appropriate because of the imminent serious threats facing all but one of the remaining populations. The largest population remaining, which contains almost a third of the total surviving plants, occupies the site of a proposed regional hazardous waste incinerator.

Critical habitat is not being designated for the reasons discussed below.

Critical Habitat

Section 4(a)(3) of the Act, as amended, requires that, to the maximum extent prudent and determinable, the Secretary designate critical habitat at the time the species is determined to be endangered or threatened. The Service finds that designation of critical habitat is not presently prudent for *Echinacea laevigata*. As discussed in Factor B in the "Summary of Factors Affecting the Species," *Echinacea laevigata* is threatened by taking, an activity only regulated by the Act with respect to

plants in cases of (1) removal and reduction to possession of endangered plants from lands under Federal jurisdiction or their malicious damage or destruction on such lands; and (2) removal, cutting, digging up, or damaging or destroying in knowing violation of any State law or regulation, including State criminal trespass law. Half of the populations are located on Federal land, while the rest are on State or private land. Two of the four States with known populations have no restrictions on taking. The other two have limited restrictions—Georgia prohibits taking on public lands without a permit, and North Carolina prohibits taking without permission from the landowner. However, take provisions are difficult to enforce, regardless of land ownership, and publication of critical habitat descriptions and maps in the **Federal Register** and local newspapers would make *Echinacea laevigata* more vulnerable and would increase enforcement problems. All involved parties and principal landowners have been notified of the location and importance of protecting this species' habitat. Protection of this species' habitat will be directed through the recovery process and through the Section 7 consultation process. Therefore, it would not now be prudent to determine critical habitat for *Echinacea laevigata*.

Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened under the Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain practices. Recognition through listing encourages and results in conservation actions by Federal, State, and private agencies, groups, and individuals. The Act provides for possible land acquisition and cooperation with the States and requires that recovery actions be carried out for all listed species. The protection required of Federal agencies and the prohibitions against certain activities involving listed plants are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species that is proposed or listed as endangered or threatened and with respect to its critical habitat, if any is being designated. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR part 402. Section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or carry out are not likely to jeopardize the continued existence of a listed species or to destroy or adversely modify its critical habitat. If a Federal action may affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with the Service.

Federal activities that could impact *Echinacea laevigata* and its habitat in the future include, but are not limited to, the following: power line construction, maintenance, and improvements; highway construction, maintenance, and improvements; forest management activities; and permits for mineral exploration and mining. The Service will work with the involved agencies to secure protection and proper management of *Echinacea laevigata* while accommodating agency activities to the extent possible.

The Act and its implementing regulations found at 50 CFR 17.61, 17.62, and 17.63 set forth a series of general prohibitions and exceptions that apply to all endangered plants. All trade prohibitions of section 9(a)(2) of the Act, implemented by 50 CFR 17.61, apply. These prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to import or export, transport in interstate or foreign commerce in the course of a commercial activity, sell or offer for sale this species in interstate or foreign commerce, or to remove and reduce to possession the species from areas under Federal jurisdiction. In addition, for endangered plants, the 1988 amendments (Pub. L. 100–478) to the Act prohibit the malicious damage or destruction on Federal lands and the removal, cutting, digging up, damaging or destroying of endangered plants in knowing violation of any State law or regulation, including State criminal trespass law. Certain exceptions apply to agents of the Service and State conservation agencies. The Act and 50 CFR 17.62 and 17.63 also provide for the issuance of permits to carry out otherwise prohibited activities involving endangered species under certain circumstances.

It is ancitipated that some trade permits will be sought because the species is already in cultivation and is a part of the commercial trade in native plants. Commercial sources of cultivated material should be encouraged in order to reduce pressure on wild populations. Requests for copies of the regulations on listed plants and inquiries regarding prohibitions and permits may be addressed to the Office of Management Authority, U.S. Fish and Wildlife Service, 4401 N. Fairfax Drive, room 432, Arlington, Virginia 22203 (703/358–2104).

National Environmental Policy Act

The Fish and Wildlife Service has determined that an Environmental Assessment, as defined under the authority of the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the **Federal Register** on October 25, 1983 (48 FR 49244).

Regulation Promulgation

Accordingly, part 17, subchapter B of chapter I, title 50 of the Code of Federal Regulations, is amended as set forth below:

PART 17—[AMENDED]

1. The authority citation for part 17 continues to read as follows:

Authority: 16 U.S.C. 1361–1407; 16 U.S.C. 1531–1544; 16 U.S.C. 4201–4245; Public Law 99–625, 100 Stat. 3500; unless otherwise noted.

2. Amend § 17.12(h) by adding the following, in alphabetical order under the family Asteraceae, to the List of Endangered and Threatened Plants:

§ 17.12 Endangered and threatened plants.

* * * * *

(h) * * *

Species		Historic range	Status	When listed	Critical habitat	Special rules
Scientific name	Common name					
Asteraceae—Aster family:						
Echinacea laevigata	Smooth coneflower	U.S.A. (GA, MD, NC, PA, SC, VA)	E	481	NA	NA

Dated: September 23, 1992.

Richard N. Smith,

Acting Director, Fish and Wildlife Service.

BILLING CODE 4310-55-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 672

[Docket No. 911176–2018]

Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Prohibition of retention.

SUMMARY: NMFS is prohibiting retention of sablefish by operators of vessels using trawl gear in the West Yakutat District of the Gulf of Alaska (GOA) and is requiring that incidental catches of sablefish be treated in the same manner as prohibited species and discarded at sea with a minimum of injury. This action is necessary because the share of the sablefish total allowable catch (TAC) assigned to trawl gear in the West Yakutat District has been reached.

EFFECTIVE DATE: Effective 12 noon, Alaska local time (A.l.t.), October 5, 1992, through 12 midnight, A.l.t., December 31, 1992.

FOR FURTHER INFORMATION CONTACT: Andrew N. Smoker, Resource Management Specialist, Fisheries Management Division, NMFS, 907–586–7228.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the exclusive economic zone within the GOA is managed by the Secretary of Commerce according to the Fishery Management Plan for Groundfish of the GOA (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 672.

The share of the sablefish TAC assigned to trawl gear in the West Yakutat District was established by the final notice of specifications (57 FR 2844, January 24, 1992) as 187 metric tons.

The Director of the Alaska Region, NMFS, has determined in accordance with § 672.24(c)(3)(ii), that the share of the sablefish TAC assigned to trawl gear in the West Yakutat District has been reached. Therefore, NMFS is requiring that further catches of sablefish by operators of vessels using trawl gear must be treated as prohibited species effective from 12 noon, A.l.t., October 5, 1992, through 12 midnight, A.l.t., December 31, 1992.

Classification

This action is taken under 50 CFR 672.24 and is in compliance with Executive Order 12291.

List of Subjects in 50 CFR Part 672

Fisheries, Reporting and recordkeeping requirements.

Authority: 16 U.S.C. 1801 *et seq*

Dated: October 2, 1992.

Richard H. Schaefer,

Director of Office of Fisheries, Conservation and Management, National Marine Fisheries Service.

Proposed Rules

Federal Register
Vol. 57, No. 196
Thursday, October 8, 1992

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 34

Workshop to Discuss Topics Related to an Overall Revision of 10 CFR Part 34

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of meeting.

SUMMARY: The Nuclear Regulatory Commission (NRC) staff plans to convene a public workshop with representatives of Agreement States to discuss the provisions of a proposed overall revision of its regulations concerning licenses for radiography and radiation safety requirements for radiographic operations. This revision is needed to clarify certain requirements which have frequently been misinterpreted by radiography licensees and have resulted in a large number of enforcement rulings. The revision is also needed to clarify some existing definitions and to incorporate additional definitions in order to bring NRC regulations more in line with regulations currently used by other organizations that regulate the radiography industry. In addition, the revision will ensure that the new regulations governing industrial radiography are compatible with other parts of NRC's regulations that involve radiation safety standards.

DATES: The workshop will be held on November 16–18, 1992. The times are:

Monday, November 16, 1992; 1:30 p.m.–5 p.m.

Tuesday, November 17, 1992; 8:30 a.m.–5:30 p.m.

Wednesday, November 18, 1992; 8:30 a.m.–12 noon

ADDRESSES: The meeting is to be held at the Crown Sterling Hotel, 4640 West Airport Highway, Irving, Texas (telephone number 214–790–0093).

FOR FURTHER INFORMATION CONTACT: Vandy L. Miller, Office of State Programs, Mail Stop 3D23, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 504–2326.

SUPPLEMENTARY INFORMATION: The regulations applicable to radiographic operations, 10 CFR part 34, were first published in 1965 as part of the recodification of parts 30 and 31 (30 FR 8298; June 26, 1965). Although numerous modifications to the original part 34 have been made since 1965, many radiography licensees are not complying with the present regulations. This has led to a considerable number of enforcement actions. A review of many of the violations indicates that much of the present regulation is unclear and confusing. This confusion frequently results in improper interpretation by the licensees. In light of this funding, it has been recommended that an overall revision to Part 34 be undertaken for the purpose of—

(1) Clarifying the regulation to reduce misinterpretations and subsequent enforcement actions; and

(2) Making the revised regulation more compatible with State regulations governing industrial radiography.

In developing the proposed revision, the NRC staff has reviewed the regulations of other regulatory agencies as recommended by the Commission and will attempt to keep the NRC's revised regulation compatible with these regulations wherever practical. Among the regulations considered were: "Suggested State Regulations for Control of Radiation," which was developed by the Conference of Radiation Control Program Directors, Inc., part 31 of the Texas Regulations for the Control of Radiation, Chapter 5 of the Louisiana Radiation Regulations, and Section 18 of the Canadian Atomic Energy Control Regulations. In addition, the NRC solicited recommendations on issues to be addressed in the revised regulation at the 1991 Sacramento meeting of the Agreement States, from NRC regional offices, and from some radiography equipment manufacturers and radiography licensees to augment the recommendations provided by the NRC staff.

The objective of this workshop is to conduct a round-table discussion with representatives of the Agreement States on the principal issues to be addressed in the proposed revision of 10 CFR part 34. Some of the principal issues to be discussed involve:

(1) The need for a new definition for a "Permanent Radiographic Installation;"

(2) The need for additional definitions such as "Field Station," "Temporary Job Site," "Safety Review," "Shielded Position," "Personal Supervision," etc;

(3) Training for radiographers' assistants;

(4) Whether two-person radiography crews should be required at temporary job sites;

(5) Whether to require the Radiation Safety Office to have additional training in emergency procedures such as source retrieval;

(6) Need for a requirement to survey for depleted uranium contamination;

(7) Type of records required at temporary job sites;

(8) Require before-use inspection of radiography associated equipment such as remote control, cables and projection sheath;

(9) Require radiographer's signature on radiography equipment utilization logs; and

(10) Need to specify additional requirements on maintenance of radiation survey instruments.

Conduct of the Meeting

The workshop will be co-chaired by Mr. Vandy L. Miller, Assistant Director for State Agreements Program and Dr. John E. Glenn, Chief, Medical, Academic, and Commercial Use Safety Branch, Division of Industrial and Medical Nuclear Safety, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission. The moderator will be Dr. Donald A. Cool, Chief, Radiation Protection and Health Effects Branch, Division of Regulatory Applications, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission. The workshop will be conducted in a manner that will expedite the orderly conduct of business. A transcript of the workshop will be available for inspection, and copying for a fee, at the NRC Public Document Room, 2120 L Street NW. (Lower Level), Washington, DC 20555 on or about December 17, 1992.

The following procedures apply to public attendance at the workshop:

1. Questions or statements from attendees other than participants, i.e., participating representatives of each Agreement State and participating NRC staff, will be entertained as time permits.

2. Seating for the public will be on a first-come, first-served basis.

Dated at Rockville, Maryland this 30 day of September 1992.

For the Nuclear Regulatory Commission.

Carlton Kammerer,

Director, Office of State Programs.

[FR Doc. 92-24502 Filed 10-7-92; 8:45 am]

BILLING CODE 7590-01-M

FEDERAL ELECTION COMMISSION

11 CFR Parts 100 and 114

[Notice 1992—19]

Definition of "Member" of a Membership Association

AGENCY: Federal Election Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Election Commission is seeking comments on a proposal to amend the definition of "member" of a membership association contained in 11 CFR parts 100 and 114 to add several new criteria. the Federal Election Campaign Act of 1971 as amended, ["FECA" or "the Act"] 2 U.S.C. 431 *et seq.*, permits membership associations to solicit contributions from their members for a separate segregated fund ["SSF"], which contributions can be used for political purposes.

These requirements would apply to individuals, corporations, and all other persons.

DATES: Comments must be received on or before November 20, 1992. The Commission will hold a hearing on December 9, 1992. Persons wishing to testify should so indicate in their written comments.

ADDRESSES: Comments must be in writing and addressed to: Ms. Susan E. Propper, Assistant General Counsel, 999 E Street, NW., Washington, DC 20463. The hearing will be held in the Commission's ninth floor meeting room, 999 E Street, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Ms. Susan E. Propper, Assistant General Counsel, (202) 219-3690 or (800) 424-9530.

SUPPLEMENTARY INFORMATION: Under 2 U.S.C. 441b(b)(4)(C), a membership organization, cooperative, or corporation without capital stock, or a separate segregated fund established by such an entity, may solicit contributions to the SSF from its "members." Current 11 CFR 100.8(b)(4)(iv) and 114.1(e) define "members" to include all persons who are currently satisfying the requirements for membership in any such membership association.

The current regulations were adopted in 1977. Since that time, the United States Supreme Court has addressed this issue, and the Commission has issued numerous advisory opinions interpreting the regulatory language.

The Supreme Court decision, *Federal Election Commission* v. *National Right to Work Committee* (NRWC), 459 U.S. 196 (1982), involved a nonprofit, noncapital stock corporation whose articles of incorporation stated that it had no members. The NRWC argued, however, that it should be able to treat as members, and thus solicit funds to its SSF from, individuals who had at one time responded, not necessarily financially, to an NRW advertisement, mailing, or personal contact. The Supreme Court rejected this definition of "member," stating that to accept it "would virtually excise from the statute the restriction of solicitation to 'members.' " *Id.* at 203.

Relying on 2 U.S.C. 441(b)(4)(C)'s brief legislative history, the Court determined that "members" of nonstock corporations should be defined, at least in part, by analogy to stockholders of business corporations and members of labor unions. As stated by the Court, viewing the question from this perspective meant that "some relatively enduring and independently significant financial or organizational attachment is required to be a 'member' " under that section. *Id.* at 204.

Since the *NRWC* decision, the Commission has issued a number of Advisory Opinions on this point. In these opinions, the Commission has generally required both a financial attachment, usually the regular payment of dues, and a meaningful organizational attachment, usually the right to vote for at least some members of the membership association's governing board, before a person is considered a member for purposes of 2 U.S.C. 441(b)(4)(C). See, e.g., Advisory Opinions 1984-33, 1987-13, 1990-18, and 1991-24. These requirements apply not only to individual members, but to corporate and other members as well. E.g., Advisory Opinions 1984-33, 1986-13, and 1989-18.

However, there are exceptions to this general statement. For example, the Commission has not required voting rights when a person's financial stake was so substantial that this alone was thought sufficient to impose membership status. See Advisory Opinions 1987-31 and 1988-39.

The Commission is seeking to articulate a general rule that will reduce the need for individual membership associations to seek advisory opinions, based on each association's unique set of circumstances. The Commission therefore proposes to amend the definition of "member" set forth at 11 CFR 100.8(b)(4)(iv) and 114.1(e). The proposed definitions are identical, as is currently the case.

The proposed definition first defines "membership association; to include any membership organization; trade association; cooperative; corporation without capital stock; or a local, national, or international labor organization that meets two additional requirements.

First, the membership association's articles and by-laws would have to provide for "members." This part of the definition would exclude membership associations (such as the NRWC at the time of the Supreme Court decision) whose by-laws specifically state that they have no members.

Second, the membership association would have to expressly accept the proffered membership; and the association would have to expressly solicit members; members would have to expressly acknowledge this acceptance. It could make this acknowledgment by sending a membership card, including the member on a membership newsletter list, or in some comparable manner. A membership association could not send out unsolicited membership cards and then treat the recipients as members for solicitation purposes, unless these further requirements were also met. The Commission welcomes comments on what, if any, other types of contacts should be sufficient to satisfy this criterion of membership.

The proposed definition then builds on the current definition of "member," by stating that that term includes all persons who are currently satisfying the requirements for membership in a membership organization; trade association; cooperative; or corporation without capital stock and, in the case of a labor organization, persons who are currently satisfying the requirements for membership in a local, national, or international labor organization. It then details the necessary financial and organizational ties that would be required, in the case of most members. [Consistent with the FECA's legislative history, members of a local union would continue to be considered members of any national or international union of which the local union is a part and of any federation with which the local, national, or international union is affiliated, regardless of whether they met these additional requirements.) The new requirements would supersede the last sentence of the current definition,

which states that a person is not considered a member of an association if the only requirement for membership is a contribution to an SSF.

The Commission anticipates that, in most instances, members will have both financial ties to the membership association, and some right to vote for the associations's officers or directors. However, there may be an occasional situation where a person's financial or organizational tie is so strong as to in and of itself be sufficient to confer membership status. The proposed language thus provides three different methods of meeting this requirement.

First, a person could have a significant financial attachment to the membership association, such as an investment or ownership stake. The proposed regulation does not define "significant" for this purpose, other than to state that the mere payment of dues would not be sufficient to satisfy this requirement. However, the Commission intends that this attachment be substantial, and notes that a nominal investment would not be sufficient for this purpose. If this financial attachment was present, no voting rights would be necessary.

Second, a person could be obligated to pay regular dues, in an amount predetermined by the association, and also be entitled to vote directly either for a majority of those on the highest governing body of the membership association, or for those who select the majority of those on the highest governing body. The Commission anticipates that this situation would apply to most membership associations.

Third, a person could be entitled to vote directly for the entire membership of the association's highest governing body. In this case, no financial ties (such as dues) would be required.

Under both the second and third methods, the draft rules recognize only those voting rights which entitle a member to vote to elect a membership association's officers or directors. The right to vote on policy statements and similar matters would not be sufficient to satisfy this requirement.

It should also be noted that, as drafted, the voting rights envisioned under the second method clearly include two-tiered associations, such as those in which members vote for delegates to a convention, and those delegates elect those who serve on the association's highest governing body. The Commission welcomes comments on whether this approach should be expanded to three- or more-tiered associations, such as those with national, state, and local levels. In particular, are there circumstances under which a member of a local branch of a national association can be considered to have sufficient direct involvement with the national level to qualify as a member of the national association under this rule?

In proposing this rule, the Commission is mindful of the *NRWC* Court's admonition that the Commission not "open the door to all but unlimited corporate solicitation and thereby render meaningless the statutory limitation to 'members.' " 459 U.S. at 204. However, the Commission welcomes comments on what, if any, other membership indicia should be considered, for purposes of the proposed rule.

Certification of No Effect Pursuant to 5 U.S.C. 605(b) (Regulatory Flexibility Act)

The attached proposed rules would not, if promulgated, have a significant economic impact on a substantial number of small entities. The basis for this certification is that any small entities affected are already required to comply with the requirements of the Federal Election Campaign Act in this area.

List of Subjects

11 CFR Part 100

Elections.

11 CFR Part 114

Business and industry, Elections, Labor.

For reasons set out in the preamble, it is proposed to amend subchapter A, chapter I of title 11 of the Code of Federal Regulations as follows:

PART 100—SCOPE AND DEFINITIONS (2 U.S.C. 431)

1. The authority citation for part 100 would continue to read as follows:

Authority: 2 U.S.C. 431, 438(a)(8).

2. Section 100.8 would be amended by revising paragraph (b)(4)(iv) to read as follows:

§ 100.8 Expenditure (2 U.S.C. 431(9)).

* * * * *

(b) * * *

(4) * * *

(iv)(A) For purposes of paragraph (b)(4)(iv) of this section, *membership association* means a membership organization, trade association, cooperative, corporation without capital stock, or a local, national, or international labor organization that

(*1*) Expressly provides for "members" in its articles and by-laws;

(*2*) Expressly solicits members; and

(*3*) Expressly acknowledges the acceptance of membership, such as by sending a membership card or inclusion on a membership newsletter list.

(B) For purposes of paragraph (b)(4) of this section, *members* means all persons who are currently satisfying the requirements for membership in a membership association, affirmatively accept the membership association's invitation to become a member, and either:

(*1*) Have some significant financial attachment to the membership association, such as a significant investment or ownership stake (but *not* merely the payment of dues);

(*2*) Are required to pay on a regular basis a specific amount of dues that is, predetermined by the association and are entitled to vote directly either for a majority of those on the highest governing body of the membership association, or for those who select the majority of those on the highest governing body of the membership association; or

(*3*) Are entitled to vote directly for all of those on the highest governing body of the membership association.

(C) Notwithstanding the requirements of paragraphs (b)(4)(iv) (B) (*1*)–(*3*) of this section, members of a local union are considered to be members of any national or international union of which the local union is a part and of any federation with which the local, national, or international union is affiliated.

* * * * *

PART 114—CORPORATE AND LABOR ORGANIZATION ACTIVITY

3. The authority citation for part 114 would continue to read as follows:

Authority: 2 U.S.C. 431(8)(B), 431(9)(B), 432, 437d(a)(8), 438(a)(8), and 441b.

4. Section 114.1 would be amended by revising paragraph (e) to read as follows:

§ 114.1 Definitions.

* * * * *

(e)(1) *Membership association* means a membership organization, trade association, cooperative, corporation without capital stock, or a local, national, or international labor organization that

(i) Expressly provides for "members" in its articles and by-laws;

(ii) Expressly solicits members; and

(iii) Expressly acknowledges the acceptance of membership, such as by sending a membership card or inclusion on a membership newsletter list.

(2) *Members* means all persons who are currently satisfying the requirements for membership in a membership association, affirmatively accept the membership association's invitation to become a member, and either:

(i) Have some significant financial attachment to the membership association, such as a significant investment or ownership stake (but *not* merely the payment of dues);

(ii) Are required to pay on a regular basis a specific amount of dues that is predetermined by the association and are entitled to vote directly either for a majority of those on the highest governing body of the membership association, or for those who select the majority of the highest governing body of the membership association; or

(iii) Are entitled to vote directly for all of those on the highest governing body of the membership association.

(3) Notwithstanding the requirements of paragraphs (e)(2) (i)–(iii) of this section, members of a local union are considered to be members of any national or international union of which the local union is a part and of any federation with which the local, national, or international union is affiliated.

BILLING CODE 6715-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 92-NM-148-AD]

Airworthiness Directives; Boeing Model 747 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the supersedure of an existing airworthiness directive (AD), applicable to certain Boeing Model 747 series airplanes, that currently requires that the FAA-approved maintenance inspection program include inspections which will give no less than the required damage tolerance rating (DTR) for each Structural Significant Item (SSI). This proposal would revise the existing AD to require additional and expanded inspections, and to include additional airplanes in the candidate fleet. This proposal is prompted by a structural re-evaluation by the manufacturer which identified additional structural elements where fatigue damage is likely to occur. The actions specified by the proposed AD are intended to ensure the continuing structural integrity of the total Boeing Model 747 fleet.

DATES: Comments must be received by November 23, 1992.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-148-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056. Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

The service information referenced in the proposed rule may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124-2207. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Steven C. Fox, Aerospace Engineer, Seattle Aircraft Certification Office, Airframe Branch, ANM-120S, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98055-4056; telephone (206) 227-2777; fax (206) 227-1181.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 92-NM-148-AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-148-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056.

Discussion: On December 11, 1989, the FAA issued AD 84-21-02 R1, Amendment 39-6430 (55 FR 1005, January 11, 1990), applicable to certain Boeing Model 747 series airplanes, to require a revision to the FAA-approved maintenance inspection program. That AD requires that the Structural Significant Items (SSI's) listed in Boeing Supplemental Structural Inspection Document (SSID) D6-35022, Revision C, dated April 1989, be inspected on candidate airplanes so that at least a specified Damage Tolerance Rating (DTR) is maintained. The SSID includes instructions on how DTR's are determined. That action was prompted by a structural re-evaluation by the manufacturer which identified additional structural elements where fatigue damage is likely to occur. That condition, if not corrected, could result in failure to detect cracks in an SSI, which would result in loss of structural integrity.

Since the issuance of that AD, the manufacturer has reassessed the inspections required for certain SSI's and, based on this reassessment, has revised the Model 747 SSID. The FAA has reviewed and approved Boeing Supplemental Structural Inspection Document (SSID) D6-35022, Revision D, dated February 1992, that describes procedures to revise the FAA-approved maintenance inspection program for certain Boeing Model 747 series airplanes. This revision of the Model 747 SSID incorporates additional and expanded inspections. This revision also expands the effectivity listing to include additional airplanes to be included in the candidate fleet, line positions 137 and 197. Incorporation of the inspections and repairs described in this document will ensure the continuing structural integrity of the total Boeing Model 747 fleet.

Since the failure of an SSI can lead to an unsafe condition, and since such conditions are likely to exist or develop on other Model 747 airplanes, the FAA has determined that it is necessary to

revise the maintenance programs of the airplanes in the candidate fleet to include additional and expanded inspections. Therefore, an AD is proposed which would supersede AD 84-21-02 R1 to require that the FAA-approved maintenance inspection programs for candidate airplanes be revised to provide no less than the DTR's listed in Revision D of the SSID described previously.

There are approximately 113 Boeing Model 747 series airplanes of the affected design in the worldwide fleet. This number includes two airplanes that would be added to the affected worldwide fleet via this proposal. The FAA estimates that 80 airplanes of U.S. registry and 8 U.S. operators would be affected by this proposed AD. (No additional U.S.-registered airplanes would be affected by this proposal). It is estimated that the implementation of the SSID program for a typical operator would take approximately 1,000 work hours. It is also estimated that the average labor cost would be $55 per work hour. Based on these figures, the cost to implement the SSID program is estimated not to exceed $440,000.

The recurring inspection impact on the affected operators is estimated to be 1,275 work hours per airplane at an average labor cost of $55 per work hour. Based on these figures, the annual recurring cost of this AD is estimated not to exceed $5,610,000.

Based on the figures discussed above, the total cost impact of this proposal for the first year is estimated not to exceed $6,050,000. This total cost figure assumes that no operator has yet accomplished the proposed requirements of this AD action.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES.**

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing amendment 39-6430 (55 FR 1005, January 11, 1990), and by adding a new airworthiness directive (AD), to read as follows:

Boeing: Docket 92-NM-148-AD. Supersedes AD 84-21-02 R1, Amendment 39-6430.

Applicability: Model 747 series airplanes, as listed in Section 3.0 of Boeing Document No. D6-35022, "Supplemental Structural Inspection Document" (SSID), Revision D, dated February 1992, certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To ensure the continuing structural integrity of the total Boeing Model 747 fleet, accomplish the following:

(a) For airplanes listed in Boeing Document D6-35022, Revision C, dated April 1989: Within 3 months after February 12, 1990 (the effective date of AD 84-21-02 R1, Amendment 39-6430), incorporate a revision into the FAA-approved maintenance inspection program which provides no less than the required Damage Tolerance Rating (DTR) for each Structural Significant Item (SSI) listed in Boeing Document D6-35022, Revision C, dated April 1989. (The required DTR value for each SSI is listed in the document.) The revision to the maintenance program shall include and be implemented in accordance with the procedures in Sections 5.0 and 6.0 of the SSID.

(b) For airplanes listed in Boeing Document D6-35022, Revision D, dated February 1992: Within 12 months after the effective date of this AD, replace the revision of the FAA-approved maintenance inspection program required by paragraph (a) of this AD with a revision that provides no less than the required Damage Tolerance Rating (DTR) for each Structural Significant Item (SSI) listed in Boeing Document D6-35022, Revision D, dated February 1992. (The required DTR value for each SSI is listed in the document.) The revision to the maintenance program shall include and be implemented in accordance with the procedures in Sections 5.0 and 6.0 of the SSID.

(c) Cracked structure must be repaired, prior to further flight, in accordance with an FAA-approved method.

(d) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(e) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Renton, Washington, on September 21, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Parts 1500 and 1505

Proposed Exemption of Video Games

AGENCY: Consumer Product Safety Commission.

ACTION: Proposed rule.

SUMMARY: The Commission proposes to exempt video games from its safety regulations applicable to electrically-operated toys and other electrically-operated articles intended for use by children. Although many video games fall within the scope of these regulations, the Commission never enforced these regulations with respect to these games. Video games are associated with very few injuries and generally comply with nationally-recognized voluntary standards for electrical safety. The available information indicates that applying the regulations for electrically-operated toys' additional provisions for testing, recordkeeping, and labeling would be unlikely to prevent any of the injuries associated with video games. The proposed exemption is in response to a request from the Electronic Industries Association.

DATES: Comments on the proposed amendments should be submitted to the

Office of the Secretary by December 22, 1992.

This change is proposed to become effective 30 days after publication of a final rule in the Federal Register.

ADDRESSES: Comments on the proposal should be mailed to the Office of the Secretary, Consumer, Product Safety Commission, Bethesda, Maryland 20207, or delivered to the Office of the Secretary, room 422, 5401 Westbard Avenue, Bethesda, Maryland 20816.

FOR FURTHER INFORMATION CONTACT: David W. Thome, Office of Hazard Identification and Reduction, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504–0554.

SUPPLEMENTARY INFORMATION:

I. Background

A. Electrically-operated Toys

The Consumer Product Safety Commission ("Commission" or "CPSC") currently administers the Federal Hazardous Substances Act ("FHSA"), 15 U.S.C. 1261–1276. Before the Commission was created, the FHSA was administered by the Food and Drug Administration ("FDA"). In 1972, the FDA proposed safety regulations under the FHSA for electrically-operated toys and other electrically-operated articles intended for use by children. In 1973, the FDA issued these regulations, and the Commission later republished them in the Code of Federal Regulations at 16 CFR 1500.18(b)(1) and part 1505. 38 FR 6138 (March 7, 1973) and 38 FR 27032 (Sept. 27, 1973).

The regulations for electrically-operated toys apply to "any toy, game, or other article designed, labeled, advertised, or otherwise intended for use by children which is intended to be powered by electrical current from nominal 120 volt (110–125 V.) branch circuits." 16 CFR 1505.1(a)(1). They do not apply to components powered by circuits of 30 volts rms (42.4 volts peak) or less, or to articles designed primarily for use by adults that may be used incidentally by children. *Id.*

The Commission's regulations for electrically-operated toys contain requirements for labeling, manufacturing, electrical design and construction, performance, and maximum acceptable temperatures for surfaces and materials. If any toy or other children's article fails to meet a regulatory requirement, it is a "banned hazardous substance" under the FHSA. 15 U.S.C. 1261(q)(1)(A).

B. Application to Video Games of the Regulations for Electrically-operated Toys

In 1972, the Electronic Industries Association's Consumer Electronics Group ("EIA/CEG") asked FDA for an interpretation of the proposed regulations for electrically-operated toys as they applied to consumer electronic equipment (February 17, 1972, letter from J. Edward Day, Esq.). FDA's Deputy Commissioner responded that "I should like to assure you that the proposal * * * is not intended to apply to television and radio receivers, phonographs, tape equipment, and audio components" (March 2, 1972, letter from FDA Deputy Commissioner James D. Grant). However, FDA indicated that the rule would apply to record players intended specifically for use by small children. *Id.*

Since the early 1970's a wide variety of video games have been marketed. In 1982, the Commission's compliance staff decided that the regulations for electrically-operated toys applied to video games and informed certain video game manufacturers of this determination. The EIA/CEG and some manufacturers disagreed with that decision, and the industry made plans to petition the Commission for an exemption from the regulations. The compliance staff decided informally not to enforce the regulations against video games while such a petition was under consideration.

C. EIA/CEG Petition for an Exemption for Video Games

On December 21, 1983, EIA/CEG submitted its petition (docketed by the Commission as petition HP 84–1). The petition made the following points:

1. Most video games are designed for teenagers and adults.
2. Application of the regulations for electrically-operated toys to video games raises insurmountable definitional problems.
3. Video game safety is already assured.
4. The regulations burden manufacturers with recordkeeping, testing, and labeling requirements.
5. Commission policy would be served by excluding video games from the regulations.

Despite its request for an exemption, the EIA/CEG did not concede that video games actually fall within the scope of the regulations. The petition asserted that the regulations were never intended to cover electronic video games because (a) such games do not fall within the traditional scope of the regulations and (b) they are like televisions and other home entertainment devices that FDA had indicted were not subject to the regulations for electrically-operated toys.

II. Interpretation of the Applicability to Video Games of the Regulations for Electrically-operated Toys.

Video games as a product group are difficult to define, but, for the purposes of this proposed exemption, the term video games refers to video game hardware systems, which consist of games which produce a dynamic video image and which have some way to control movement of portions of the video image. The image may be produced on a specially manufactured viewing screen or, by the use of cables or remote controls, on a television set. The term includes only hardware systems (the console, cables, and controls); nonelectrical software systems (the video game cartridges) are not included.

The Commission concludes that video games, as defined above, are products intended for use by children, as that term is used in section 2(f)(1)(D) of the FHSA, and are thus subject to the electrically-operated toy regulation if they are powered by current from nominal 120 volts branch circuits. According to one recent case that interpreted the meaning of "[a]ny toy or other article intended for use by children" in the FHSA, an objective test of intent must be used, *i.e.*, a product is a toy or other article intended for use by children if a reasonable person would believe that the object is a toy or article intended for use by children. *U.S.* v. *Articles of Banned Hazardous Substances Consisting of 1030 Gross (More or Less) of Baby Rattles*, 614 F. Supp. 226, 231 (E.D.N.Y. 1985). A U.S. Court of Appeals held that the determination of such intent "is vested in the sound discretion of the Commission." *Forester* v. *CPSC*, 559 F.2d 774 (D.C. Cir. 1977).

In addition, the fact that a children's product is also used by adults does not mean that the product is not intended for use by children. The Forester case was a challenge to the Commission's regulation of bicycles under the FHSA. Before issuing the regulation, the Commission had found that a large percentage of bicycles were of types that were used by adults, children, and adolescents, and that was no precise way of distinguishing between the ones intended exclusively for adults and those intended for children as well as adults. 39 FR 26100 (1974). The Court upheld the bicycle regulation, refusing to find that the Commission "abused its

discretion or acted contrary to law in determining that all bicycles except those excluded from the regulation are 'intended for use by children.' " Forester at 786.

In a more recent case, a Court considered FHSA jurisdiction over lawn darts. *First National Bank of Dwight* v. *Regent Sports Corp.*, 803 F.2d 1431 (7th Cir. 1986). The Court stated that sports equipment intended for the use of children falls within the statutory definition.

Under these principles, the Commission concludes that video games, as a product class, are intended for use by children and fall within the meaning of the FHSA term "toy or other article intended for use by children." Based on such objective factors, as advertising, marketing, and use patterns for these products, the Commission concludes that use of video games by children is reasonably foreseeable and that video games are therefore intended for use by children.

The Commission also concluded that most video games are the types of electrically-operated toys or articles intended for use by children that are within the scope of the regulation since they are intended to be powered from nominal 120 volt branch circuits. Video games that can be powered only by batteries are not currently subject to the regulation.

Only video games are described above are being proposed to be exempted. However, the Commission notes that a product is not covered by the regulation in the first place unless it is a "toy or other article used by children" as that term is used in section 2(f)(1)(D) of the FHSA, 15 U.S.C. 1261(f)(1)(D). Many home computers, for example, are not specifically adapted for the use of children, and are thus not subject to the regulation for electrically-operated toys. For example, a home computer whose ability to function as a video game is incidental to other functions it can perform, which does not contain features intended to make the computer especially suitable for children, and which is not marketed as being especially advantageous for the use of children may not be considered to be intended for use by children. In any event, such home computers would seem to fall within the intent of FDA's earlier interpretation that TV sets and other articles intended for the use of adults, but that are also used by children, are not within the scope of the regulation. The Commission sees no reason why this earlier interpretation by FDA should be changed.

III. Effects of Applying the Regulations for Electrically-Operated Toys to Video Games.

The Commission's Directorate for Epidemiology has reports of 27 incidents from January 1980 through September 1991 that may be related to the electrical aspects of products subject to this petition. Twenty-three of these incidents involved fires. Of these 23 fire incidents, five reports indicated that the fire was caused by either the video game or a television set, five reports cited short circuits, four cited the transformer or the AC adapter, one an overload in the AC circuit, one an overload of a video computer game, and one a lighted frame attachment for a hand-held video game. The remaining six fire incidents were categorized as involving video games, but the specific cause was not reported. The four remaining non-fire electrical incidents included one alleged "explosion" without injury and two incidents where electrical burns or shock occurred while the video game or adaptor was being plugged in.

There were five deaths and 10 injuries associated with the 27 reported incidents. One of the fire incidents resulted in four fatalities, but the exact involvement of the video game as a fire source was not established in that case. The other death occurred in a house fire started when an electrical adapter for a video game overheated while it was plugged into an electrical outlet.

Electronic video games are currently designed and tested to an existing voluntary standard (UL 961, Hobby and Sports Equipment). The Commission's Engineering Staff compared the Commission's regulations for electrically-operated toys with UL 961 to determine how effective each standard is in addressing electrical and thermal hazards associated with video games.

The Commission concludes that, despite differences in the requirements for video games in the CPSC regulation and the UL standard, there would not be a significant decrease in the risk of injury to children if the Commission enforced its regulation. The staff was unable to conclude from the 27 reports of incidents involving video games that any of these incidents would have been prevented had the games complied with all the requirements of the CPSC regulation for electrically-operated toys rather than only with the UL standard. Although the CPSC regulations do contain more stringent requirements in some areas, these deal with accessibility to live parts, labeling, and excessive surface temperatures in normal operation (to protect against burns, not against fires caused by failures or defects, which are addressed by the UL standard). None of the risks addressed by the CPSC standard but not the UL standard was found to be involved in the 27 known incidents, most of which were reported as fires.

If the regulations for electrically-operated toys were applied to video games, industry would incur a number of costs. These would include testing each model for compliance, keeping records of such testing, maintaining the records for three years and labeling the games' packaging and transformers.

IV. Regulatory Analysis

Under the FHSA, the Commission is required to develop a preliminary regulatory analysis containing a discussion of various factors, including a preliminary description of the potential benefits and potential costs of the proposed regulation, including any benefits or costs that cannot be quantified in monetary terms, an identification of those likely to receive the benefits and bear the cost, and a description of any reasonable alternatives to the proposed regulation, together with a summary description of their potential costs and benefits and brief explanation why such alternatives should not be published as a proposed regulation.

A. Cost and Benefits of the Proposed Exemption

The potential cost of exempting electronic video games from the current regulation consists of the possibility that future injuries or deaths would be associated with games that did not comply with the regulation's requirements and that such injuries and deaths would have been prevented if the games had complied with the regulations. The Commission is aware of 23 fire incidents that occurred during the period from January 1, 1980, to October 1, 1991, that may have been related to the electrical aspects of products that would be subject to this proposed exemption. In most of these cases, the available information does not permit a determination of whether a video game was responsible for the fire. The Commission's Engineering Sciences staff concluded that "[a] review of incidents associated with video games did not reveal any that would have been prevented had the games been manufactured in accordance with the requirements of the Federal regulation 16 CFR part 1505." At the end of 1990, there were an estimated 25–40 million video games in use. Video games are found in an estimated 40 percent of U.S. households.

Costs may also be incurred if future sales of video games included units which were significantly more hazardous than those marketed over the last decade. However, there is no information to suggest that future entrants would market poorer quality hardware in order to obtain a price advantage, and the cost of hardware is not the primary determinant of demand. The current market is dominated by four firms, one of which accounts for nearly 90 percent of total sales. The current market leaders reached their market dominance through the marketing of popular game cartridges that are compatible only with their own hardware. Purchase decisions appear to be driven by the amount and popularity of the games' software, rather than by the price of the hardware systems.

Potential costs, if any, would be borne by families and friends of purchasing consumers. The Commission's staff estimates that 40 percent of U.S. homes have at least one "second generation" (8-bit) video game. Trade sources indicate that this segment of the video game market is not expected to increase significantly, and these games are directed most heavily (through advertising and software content) at those households with members aged 8–18. Bureau of the Census statistics indicate that about 27 percent of the total number of family units in the United States have members in this age group. The product also sees considerable use outside the target population. "Second generation" systems also see considerable use outside the target population. Future increases in households owning video games are expected to come from "third generation" (16-bit) and "fourth generation" (24-bit) systems, which currently are primarily targeted at adults. An estimated 3 percent of U.S. households will have "third generation" systems by the end of 1991.

Based on available epidemiological and engineering information, the CPSC staff expects no potential injuries or deaths to be associated with an exemption of video games from the electric-toy regulations. Thus, there will be no societal costs imposed by the exemption.

The proposed exemption would provide benefits to manufacturers through a continued avoidance of cost increases associated with compliance with the electric-toy regulations. The future purchasers of these products would also receive these benefits through the avoidance of retail price increases related to compliance. Manufacturers and retailers would also benefit through the elimination of uncertainty about enforcement of existing regulations, and from clarification of the requirements applicable to future product development.

The imposition of the requirements of 16b CFR part 1505 on video games would add certain costs to their production. As noted above, current production is designed and tested to an existing voluntary standard (UL 961, Hobby and Sports Equipment), and there are differences between requirements under the voluntary UL standard and the mandatory regulations under 16 CFR part 1505. For example, the mandatory regulation requires labels on both packages and instructional literature, while the UL standard requires labeling only on the product itself. (The per-unit costs of increased labeling, however, are not likely to be significant.) There are also differences between the tow standards in construction and performance requirements.

Trade sources indicate that compliance with the CPSC electric-toy regulations could require a significant retooling of the hardware, and video game consoles could have to be significantly changed. For instance, the plastic console may require reinforcement in order to meet the CPSC regulation's drop test, compression test, and pressure test requirements. Also, the existing CPSC regulation would not allow detachable cords, which may affect the portability of video hardware systems. Each of these modifications could entail design and production cost increases.

Modification of the hardware also could require modification of the game cartridges. If this occurred, existing machines might be incompatible with future cartridges, resulting in increased costs to consumers wishing to compile a library of video games, or in decreased utility for those who are not in a position to purchase the modified hardware and software. Such a situation may result in a consumer rejection of the concept of home video games, as occurred in the early 1980's. This type of consumer rejection is not similar to consumers switching to third generation systems, which because of superior visual quality and graphics, provide a more desirable product to the consumer.

Industry sources have not indicated what the expected per-unit price increase would be if the mandatory standard were applied to future production of video games; however, the total cost to society could be substantial due to the numbers of units involved. Over the period 1985–90 (the period during which current "second-generation" video games have been marketed), video game hardware sales averaged about six million units annually; an estimated 9.5 million units were sold in 1988, at an average retail price of about $120 each. If the required modifications added only a 1 percent increase at retail, the annual cost to consumers could be about $7 million (based on average sales).

Hand-held video games are designed to be used with batteries. Hand-held video games that are not sold with AC adapters are not subject to the regulations for electrically-operated toys because they operate on less than 30 V rms. Some hand-held units, however, are sold with adapters that step down the AC house voltage to the voltage provided by the batteries. In this case, the AC adapter and the video game's package would be subject to the requirements of the electrically-operated toy regulation because the adapter operates off 120 volts.

Hand-held units are not included in the analysis given above because the Commission's staff does not know what percentage of hand-held units are subject to the regulations for electrically-operated toys because they are sold with AC adapters. To the extent such units would need to be changed if the Commission were to enforce this regulation, however, the annual costs to consumers given above would be increased. (An estimated four million hand-held units were sold in 1990, at an average price of about $90.)

Industry sources indicate that compliance with the existing electric-toy regulation would also impose additional recordkeeping, testing, and labeling costs on manufacturers. These sources indicate that compliance with the existing rule "would impose substantial burdens on manufacturers." These costs would likely be passed on to purchasers in the form of higher prices.

Another benefit of the proposed exemption, considered by industry sources to be significant, would be the elimination of market uncertainty involving future sales of these products. Recent products have been designed to be in compliance with the UL standard. If the more stringent mandatory standards are applied (despite the lack of known safety benefits), the product features required by such standards may place limitations on the innovations that can be designed for these products. The Commission is unable to determine the extent to which this consideration would be a significant benefit of the proposed exemption. To the extent it is,

however, withholding the exemption could have an adverse effect on innovation.

The selection of an effective date to occur as early as 30 days after publication of the final rule in the Federal Register would have little or no effect on the quantifiable costs and benefits associated with this exemption. Manufacturers and marketers would be expected to receive some benefits associated with removal of market uncertainty; these benefits would accrue at the time the industry became aware of the rule, rather than at the effective date. Thus, the timing of the effective date is not likely to affect marketers or consumers of these products.

B. Alternatives to the Proposed Rule

As one alternative to the proposed exemption, the Commission could determine that electronic video games should comply with the existing electric-toy regulation. The Commission considered this option and preliminarily decided to reject this alternative because the uncertain level of benefits accruing through enforcement may be significantly less than potential costs associated with this option.

Another alternative would be for the Commission to issue a statement of enforcement policy stating that the Commission would not enforce the existing regulation as to video games. However, such a statement of policy may not assuage manufacturers' concerns over continued future action involving video games. The resulting uncertainty may lead to market disruption through postponements in innovation.

Because electronic video games are currently designed and tested to existing voluntary standard UL 961, another possible alternative to the proposed exemption of video games from the present mandatory standard would be to amend the mandatory standard to be essentially identical to the current UL standard. This would not be a feasible or desirable alternative for two reasons. First, the Commission is prohibited by statute from issuing a mandatory standard for a product when there is an adequate applicable voluntary standard for the product and there is substantial compliance with such voluntary standard. FHSA section 3(i)(2)(A); 15 U.S.C. 1262(i)(2)(A). This appears to be the situation with respect to video games and UL 961. Second, it is quicker and more feasible to revise a voluntary standard in response to changes in a product's design or use than it is to revise a mandatory standard.

The Commission preliminarily determined that the available feasible alternatives may not address the concerns of the parties that petitioned the Commission for an exemption. Further, potential future hazards from video games with design or manufacturing defects may be addressed through section 15(c) of the FHSA, 15 U.S.C. 1274(c), without reliance on the existing regulations for electrically-operated toys.

V. Environmental Impact

Pursuant to the National Environmental Policy Act, and in accordance with Council on Environmental Quality regulations and CPSC procedures for environmental review, the Commission's staff performed a preliminary assessment of the environmental impact associated with the proposed rule. The assessment addresses the potential effects of an exemption of video games from existing regulations for electrically-operated toys.

The proposed rule is not expected to affect preexisting packaging, molds, printed circuit boards, plastic stocks, production processes, or other materials of construction now in the hands of manufacturers. Thus, there would be no destruction or discarding of existing materials. Existing inventories of finished products, including those at retail, would not be rendered unusable through the implementation of the rule. Further, inventories would not require retrofit in order to comply with the exemption.

The requirements of the rule are not expected to have a significant effect on the materials used in production or packaging of video games, or on the amount or types of materials discarded after the rule. Therefore, the Commission preliminarily finds that no significant environmental effects will result from the proposed exemption for video games.

VI. Initial Regulatory Flexibility Analysis

The Regulatory Flexibility Act (RFA, 5 U.S.C. 601–612) requires agencies to prepare, and make available for public comment, an initial regulatory flexibility analysis whenever a general notice of proposed rulemaking is required for a proposed rule. Such analysis shall describe the impact of the proposed rule on small businesses, small organizations, and small government jurisdictions.

Since this proposed exemption merely formalizes existing industry and regulatory practices and does not make substantial changes in the Commission's enforcement activities, it is not likely to have a significant impact on small businesses or other small entities. Accordingly, the Commission certifies that this regulation will not have a significant economic impact on a substantial number of small entities.

VII. Rulemaking Procedure

The Commission's regulations for electrically-operated toys were issued under the authority of section 2(f)(1)(D) of the FHSA, 15 U.S.C. 1261(f)(1)(D), which includes within the definition of hazardous substance "[a]ny toy or other article intended for use by children which the [Commission] by regulation determines, in accordance with section 3(e) of [the FHSA, 15 U.S.C. 1262(e)], presents an electrical, mechanical, or thermal hazard." Under section 3(e)(1), 15 U.S.C. 1262(e)(1), the Commission may use the notice-and-comment procedures of 5 U.S.C. 553 to determine that a toy or other article intended for use by children presents an electrical, mechanical, or thermal hazard. The Commission concludes that the additional procedures in sections 3(f)–(i) of the FHSA are intended to apply where products that previously could be manufactured are being banned, and not where, as here, products are being exempted from existing requirements. Sections 3(f)–(i) provide for an advance notice of proposed rulemaking and detailed findings designed to ensure that the regulation is necessary to reduce or eliminate an unreasonable risk of injury. These types of findings are inappropriate when an exemption is being considered.

VIII. Conclusion

As discussed above, many video games fall within the FHSA's definition of toys and other articles intended for use by children, as well as within the scope of the Commission's regulations for electrically-operated toys. 15 U.S.C. 1261(f)(1)(D); 16 CFR part 1505. However, video games present a small risk of injury to children, and application of the regulations to video games would be unlikely to reduce future injuries to children. At the same time, compliance with the regulations for electrically-operated toys would involve testing, recordkeeping, and labeling costs for manufacturers. Therefore, the Commission granted petition HP 84–1 and preliminarily concludes that the regulations for electrically-operated toys should be amended to generically exclude video games.

Comments should be submitted to the Commission's Office of the Secretary by December 22, 1992.

Effective Date

The Commission proposes that the amendments proposed in this notice shall be effective November 9, 1992.

List of Subjects

16 CFR Part 1500

Consumer protection, Hazardous materials, Hazardous substances, Imports, Infants and children, Labeling, Law enforcement, Toys.

16 CFR Part 1505

Consumer protection, Electronic products, Infants and children, Toys.

For the reasons given above, the Commission proposes to amend title 16 of the Code of Federal Regulations as follows:

Part 1500—[AMENDED]

1. The authority citation for part 1500 is revised to read as follows:

Authority: 15 U.S.C. 1261–1277, 2079.

Part 1505—[AMENDED]

1. The authority citation for part 1505 is revised to read as follows:

Authority: 15 U.S.C. 1261–1262, 2079.

§ 1505.1 [Amended]

2. Section 1505.1(a)(1) is amended by removing the second word "or" in the last sentence and by adding ", or videogames" before the period in the last sentence.

3. Section 1505.1(a) is amended by adding a new paragraph (a)(2) to read as follows:

(a) * * *

(2) The term "video games" means video game hardware systems, which are games that both produce a dynamic video image, either on a viewing screen that is part of the video game or, through connecting cables, on a television set, and that have some way to control the movement of at least some portion of the video image.

Dated: October 2, 1992.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–M

DELAWARE RIVER BASIN COMMISSION

18 CFR Part 401

Proposed Amendments to Administrative Manual—Rules of Practice and Procedure; Public Hearings

AGENCY: Delaware River Basin Commission.

ACTION: Proposed rules and public hearing.

SUMMARY: Notice is hereby given that the Delaware River Basin Commission will hold a public hearing to receive comments on proposed amendments to its Rules of Practice and Procedure in relation to Commission review of electric generation or cogeneration projects. The hearing will be part of the Commission's regular business meeting which is open to the public.

The Commission's Rules of Practice and Procedure presently require Commission review and approval of all projects involving a withdrawal of surface or ground water whenever the daily average withdrawal during any month exceeds 100,000 gallons per day (gpd). Similarly, review and approval by the Commission of all discharges of wastewater to surface or ground waters having a design capacity of 50,000 gpd or more is also required. One or both of these requirements generally trigger Commission review of major electric generating projects. However, the Rules of Practice and Procedure do not specifically address similar electric generation or cogeneration projects if they elect to use an existing source of water supply and the Commission has been made aware of the fact that several such projects are under consideration. The depletive water use from these projects could have a substantial impact on the water resources of the Basin. Since the Commission as a matter of policy has imposed special requirements on new electric generating facilities regarding the replacement of depletive water use during critical hydrologic periods, the Commission is now proposing to amend its Rules of Practice and Procedure by the addition of a new category of projects for review under section 3.8 of the Compact: Electric generating or cogenerating facilities designed to

consumptively use in excess of 100,000 gpd of water during any 30-day period

The Commission recognizes the need to consider all large consumptive water uses and has asked staff to survey large water purveyors to obtain information on major depletive water users. Based on the results of that survey, the Commission may consider extending review authority to other large consumptive water users.

DATES: The public hearing will be part of the Commission's regular business meeting which is scheduled for Wednesday, December 9, 1992 beginning at 1 p.m. Persons wishing to testify at this hearing are requested to register with the Secretary prior to the hearing.

ADDRESSES: The hearing will be held at the Harbour League Club, 800 Hudson Square, Camden, New Jersey. Written comments should be submitted to Susan M. Weisman, Delaware River Basin Commission, P.O. Box 7360, West Trenton, New Jersey 08628.

FOR FURTHER INFORMATION CONTACT: Susan M. Weisman, Commission Secretary, Delaware River Basin Commission: Telephone (609) 883-9500 X203.

The subject of the hearing will be as follows:

Amendments to the Administrative Manual—Rules of Practice and Procedure.

List of Subjects in 18 CFR Part 401

Administrative practice and procedure, Environmental impact statements, Freedom of information, Water pollution control, Water resources.

These amendments become effective upon adoption of the final rule by the Commission.

It is proposed to amend part 401 as follows:

PART 401—[AMENDED]

1. The authority citation for part 401 continues to read as follows:

Authority: Delaware River Basin Compact, 75 Stat. 688.

§ 401.35 [Amended]

2. New § 401.35(b)(17) is added to read as follows:

(17) Electric generating or cogenerating facilities designed to consumptively use in excess of 100,000 gallons per day of water during any 30-day period.

Delaware River Basin Compact, 75 Stat. 688.

Dated: October 1, 1992.

Susan M. Weisman,

Secretary.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 1

[INTL-0018-92]

RIN 1545-AQ55

Earnings and Profits of Foreign Corporations; Correction

AGENCY: Internal Revenue Service, Treasury.

ACTION: Correction to notice of proposed rulemaking.

SUMMARY: This document contains a correction to the notice of proposed rulemaking (INTL-0018-92), which was published on Wednesday, July 1, 1992 (57 FR 29246). The proposed regulations relate to computing the earnings and profits of foreign corporations.

FOR FURTHER INFORMATION CONTACT: Margaret Hogan (202-622-3870, not a toll free call).

SUPPLEMENTARY INFORMATION:

Background

The notice of proposed rulemaking that is the subject of this correction contains proposed amendments to the Income Tax Regulations (26 CFR part 1) under sections 964 and 952 of the Internal Revenue Code of 1986.

Need for Correction

As published, the proposed regulations contain an error which may prove to be misleading and is in need of clarification.

Correction of Publication

Accordingly, the publication of the proposed regulations (INTL-0018-92), which was the subject of FR Doc. 92-15366, is corrected as follows:

Paragraph 1. On page 29247, column 3, in § 1.952-2(c)(2)(iv), line 6 and 7, the language "of paragraphs (c)(1)(ii)(B) and (c)(1)(iii)(D) of this section shall not" is corrected to read "of § 1.964-1(c)(1)(ii)(B) and (c)(1)(iii)(D) shall not".

Dale D. Goode,

Federal Register Liaison Officer, Assistant Chief Counsel (Corporate).

Continuity of Life—Limited Partnerships; Hearing

AGENCY: Internal Revenue Service, Treasury.

ACTION: Cancellation of notice of public hearing on proposed regulations.

SUMMARY: This document provides notice of cancellation of a public hearing on proposed regulations under section 7701 of the Internal Revenue Code relating to the classification of organizations for tax purposes. The proposed regulations clarify the rule in the regulations regarding the characteristic of continuity of life of a limited partnership.

DATES: The public hearing originally scheduled for Tuesday, October 20, 1992, beginning at 10 a.m. is cancelled.

FOR FURTHER INFORMATION CONTACT: Bob Boyer of the Regulations Unit, Assistant Chief Counsel (Corporate), 202-622-7190, (not a toll-free number).

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations that amend 26 CFR part 301. The proposed regulations clarify the rule in 26 CFR 301.7701-2(b)(1) regarding the characteristic of continuity of life of a limited partnership. A notice appearing in the **Federal Register** for Wednesday, July 22, 1992, (57 FR 32472), announced that the public hearing on the proposed regulations would be held on Tuesday, October 20, 1992, beginning at 10 a.m. in the IRS Commissioner's Conference Room, room 3313, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, DC.

The public hearing scheduled for Tuesday, October 20, 1992, has been cancelled.

By direction of the Commissioner of Internal Revenue:

Dale D. Goode,

Federal Register Liaison Officer, Assistant Chief Counsel (Corporate).

Regulations Governing the Practice of Attorneys, Certified Public Accountants, Enrolled Agents, and Enrolled Actuaries Before the Internal Revenue Service

AGENCY: Office of the Secretary, Department of the Treasury.

ACTION: Notice of proposed rulemaking and withdrawal of proposed rule.

SUMMARY: This document proposes rules that would amend the regulations governing the practice of individuals before the Internal Revenue Service. These regulations would affect individuals who are eligible to practice before the Service. The proposed amendments generally would establish tax return preparation standards and prescribe the circumstances under which a practitioner could be disciplined for violating those standards; prohibit contingent fees for preparing tax returns; extend certain of the existing restrictions governing limited practice before the Service to all individuals who are eligible to engage in limited practice before the Service; establish expedited proceedings to temporarily suspend, in cases where certain determinations have been made by independent bodies, individuals from practice before the Service; and permit attorneys and certified public accountants in good standing to obtain or retain enrolled agent status.

DATES: Written comments must be received on or before November 16, 1992. The Treasury Department intends to hold a public hearing on these regulations on December 16, 1992. Outlines of oral comments from persons wishing to speak at the public hearing must be received by December 2, 1992.

ADDRESSES: Send comments and a request to speak at the public hearing to: Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, Attn: CC:CORP:T:R (IA-20-92), room 5228, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT: David L. Meyer, Attorney-Advisor, Office of the Assistant Chief Counsel (Income Tax and Accounting) at 202-622-6232 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Background

This document contains proposed amendments to the regulations governing practice before the Internal Revenue Service. The regulations are in subtitle A, part 10, of title 31 of the Code of Federal Regulations and have been reprinted as Treasury Department Circular 230 ("Circular 230"). Circular 230 provides that attorneys, certified public accountants, enrolled agents and enrolled actuaries (collectively referred to as "practitioners") generally are entitled to engage in practice before the Service. Circular 230 also grants eligibility to practice in limited circumstances to individuals who are not "practitioners." In general, this eligibility arises from either an individual's legal relationship to the person represented, or the individuals' preparation of the return of the person represented. Circular 230 also provides that an individual may be suspended or disbarred for cause from practice before the Service.

Both Treasury and the Service encourage comments on ways to improve these proposed rules and reduce the burden of complying with these rules.

This document also withdraws proposed amendments to the regulations governing practice before the Service that were published in 1986. See 51 FR 29113 (August 14, 1986).

Explanation of Provisions

Return Preparation Standard and Related Disciplinary Standards

The proposed amendments would establish standards applicable to practitioners who advise clients to take return positions or who sign or otherwise prepare returns. These new standards would supplement the existing requirement in § 10.22 of Circular 230 that practitioners exercise due diligence in preparing, or assisting in the preparation of, tax returns and other documents relating to IRS matters. These proposed rules reflect recent efforts by professional organizations and others to develop rules addressing a practitioners' responsibilities in return preparation.

In 1985, the American Bar Association ("ABA"), in Formal Opinion 85-352, adopted a standard requiring that a return position be supported by a "realistic possibility of success if litigated." This standard replaced, in the context of return preparation and advice, the less stringent "reasonable basis" standard of ABA Formal Opinion 314 (1965). In 1986, following the adoption of Formal Opinion 85-352, Treasury issued a proposed amendment to Circular 230 that generally would have prohibited a practitioner from advising or preparing a return position unless the practitioner determined that the position would not subject the taxpayer to the substantial understatement penalty. See 51 FR 29113 (August 14, 1986). The proposed standard was criticized because of concern that imposition of a substantial understatement penalty would automatically lead to discipline under Circular 230 and because, under the law in effect at that time, the standard significantly restricted the types of authority on which a practitioner could rely in arriving at a return position. The 1986 proposed amendments to Circular 230 have not been finalized.

In 1987, the ABA and American Institute of Certified Public Accountants ("AICPA") responded to the proposed amendments by submitting proposals to the Service recommending that a realistic possibility standard for return preparation be incorporated in Circular 230. In 1988, the AICPA amended its Statements on Responsibilities in Tax Practice to replace its "reasonable support" standard with a "realistic possibility" standard that is similar, but not identical, to the standard for lawyers under ABA Formal Opinion 85-352.

In 1989, Congress revised the penalties for income tax return preparers in section 6694 of the Internal Revenue Code to generally reflect the revised ABA and AICPA return preparation standards. See H. Rep. No. 247, 101st Cong., 1st Sess. 1396 (1989) ("The committee has adopted this new standard because it generally reflects the professional conduct standards applicable to lawyers and to certified public accountants"). Final regulations under section 6694 were issued by Treasury on December 30, 1991.

In light of these developments, Treasury is withdrawing the 1986 proposed amendments to Circular 230 and is proposing a standard of conduct under § 10.34(a) that more closely reflects the realistic possibility standards adopted by professional organizations and the preparer penalty provisions of section 6694 of the Code and the regulations thereunder. Because Circular 230's role in regulating practitioner conduct differs from the role played by the ABA and AICPA guidelines and Internal Revenue Code penalties, the proposed amendments provide that a practitioner may be disciplined under Circular 230 only if a failure to comply with the realistic possibility standard is willful, reckless, or a result of gross incompetence. A pattern of conduct is a factor that will be taken into account in determining whether a practitioner acted recklessly or through gross incompetence. A practitioner will not be considered to

have acted willfully, recklessly, or through gross incompetence with respect to a return position if there was reasonable cause for the position and the practitioner acted in good faith. Because Circular 230 is intended to apply to all practitioners, the one-preparer-per-firm rule of § 1.6694-1(b)(1) of the preparer penalty regulations does not apply for purposes of 1034.

Under the new return preparer standard of conduct in § 10.34(a)(1), a practitioner may not advise a client to take a position on a return, or prepare the portion of a return on which a position is taken, unless (i) the practitioner determines that there is a realistic possibility of the position being sustained on its merits (the "realistic possibility standard"), or (ii) the position is not frivolous and the practitioner advises the client to adequately disclose the position. In addition, a practitioner may not sign a return as a preparer if the practitioner determines that the return contains a position that does not satisfy the realistic possibility standard, unless the position is not frivolous and is adequately disclosed to the Service. Section 10.34(a)(4) defines "realistic possibility" and "frivolous" for purposes of this section.

Proposed § 10.34(a)(2) generally requires a practitioner to advise a client of penalties reasonably likely to apply to a return position, of any opportunity to avoid the penalties by disclosure, and of the requirements for adequate disclosure. Proposed § 10.34(a)(3) generally permits a practitioner to rely without verification on information furnished by the client. However, the practitioner may not ignore the implications of the information and must make reasonable inquiries if the information appears incorrect, inconsistent or incomplete.

Fees

The proposed changes to § 10.28 generally prohibit a practitioner from charging a contingent fee for preparing a return of tax, including a claim for refund. A contingent fee includes a fee that is based on (i) a percentage of the refund shown on a return, (ii) a percentage of the taxes saved, or (iii) the specific result attained.

The proposed rule reflects Treasury's position that contingent fees should not be permitted for tax return preparation. Treasury is concerned that permitting contingent fees for tax return preparation would undermine voluntary compliance by encouraging return positions that exploit the audit selection process. An exception is made for refund claims that are filed in anticipation of litigation because these claims do not have the same potential for undermining voluntary compliance.

Restrictions on Individuals Engaging in Limited Practice

Section 10.7 of Circular 230 currently authorizes two categories of individuals who are not practitioners to engage in limited practice before the Service. The first category consists of non-practitioners who represent closely associated persons. This category includes, for example, an individual representing his or her employer or a trustee representing the trust. The second category consists of non-practitioners who represent taxpayers in connection with examinations of returns that the non-practitioners prepared.

Under § 10.7(a)(7), circular 230 only regulates and subjects to discipline individuals within the second category who engage in limited practice. Individuals in this category (i) must not be under suspension or disbarment from practice before the Service; (ii) may not engage in conduct that would justify suspending or disbarring a practitioner from practice before the Service; and (iii) must comply with such rules as the Director of Practice prescribes. These rules are currently in Rev. Proc. 81–38, 1981–2 C.B. 592.

Treasury believes it is in the interests of sound tax administration to require that all non-practitioners who engage in limited practice before the Service uphold the same standards of conduct as practitioners and be denied eligibility to engage in limited practice for violating those standards. Accordingly, the proposed amendments prohibit any non-practitioner from engaging in limited practice if he or she is under suspension or disbarment from practice before the Service, or if the non-practitioner engages in conduct that would justify suspending or disbarring a practitioner from practice before the Service. The proposed amendments do not extend the rules of Rev. Proc. 81–38 to individuals within the first category of limited practice because the revenue procedure only regulates representation before district offices.

Expedited Suspensions From Practice Before the Service in Certain Cases

Treasury believes current procedures under Circular 230 are inadequate to expeditiously discipline a practitioner who has been convicted of committing certain crimes or whose license to practice law or accounting has been suspended or revoked for cause, i.e., misconduct. Accordingly, the proposed regulations add § 10.53A to permit the Director of Practice, pursuant to the authority granted by 31 U.S.C. 330, to commence an expedited proceeding leading to a practitioner's suspension from practice before the Service in those instances in which an independent authority already has determined that the practitioner has engaged in serious misconduct.

Section 10.53A would apply only to a practitioner who, within 5 years of the commencement of the proceeding, (i) has been convicted of a crime under title 26 of the United States Code, such as willfully failing to file a tax return under section 7203, or a felony under title 18 of the United States Code involving dishonesty or breach of trust; or (ii) has had his or her license to practice law or accounting suspended or revoked for cause by the appropriate regulatory authority. A license will not be considered to have been revoked or suspended "for cause," for this purpose, if the revocation or suspension is due to a failure to pay licensing or other fees.

An attorney's or certified public accountant's right to practice before the Internal Revenue Service arises from his or her authority to practice as an attorney or certified public accountant. See 5 U.S.C. 500(b), (c); section 10.3(a), (b) of Circular 230. However, this right to practice does not impair Treasury's authority to discipline attorneys or certified public accountants. See 5 U.S.C. 500(d) and 31 U.S.C. 330.

An expedited proceeding under proposed § 10.53A commences with the filing of a complaint by the Director. If a practitioner so requests in a timely filed answer to the complaint, he or she is entitled to a conference with the Director on allegations in the complaint. Following such a conference (or at an earlier time if the practitioner does not request a conference or timely respond to the complaint), the Director may immediately suspend the practitioner from practice before the Service upon a finding that the practitioner has been convicted of one of the crimes specified in § 10.53A or has lost one or more of his or her professional licenses for cause. A practitioner retains the right to require the Director to institute a formal hearing before an administrative law judge pursuant to § 10.54 of Circular 230, which would be conducted *de novo*. An expedited suspension under § 10.53A remains in effect until it is lifted by the Director, or an administrative law judge or the Secretary of the Treasury pursuant to the formal proceeding.

Other Matters

Section 10.4(d) currently prohibits attorneys and certified public accountants from being enrolled. Section 10.3(a) and (b) invalidate an

enrollment card issued to an enrolled agent who subsequently becomes an attorney or certified public accountant.

It is believed that these rules are unfair to individuals who retire from the practice of law or accounting but nonetheless desire to continue to practice before the Service based on enrollment or who wish enrollment for other reasons. Therefore, the proposed rules would repeal § 10.4(d) and the portion of §§ 10.3(a) and (b) that invalidates prior enrollments. Attorneys and certified public accountants who desire enrolled agent status and who previously did not have such status must comply with the requirements of the regulations governing eligibility for enrollment. For example, individuals who do not qualify for enrolled status on the basis of their prior employment with the Service must pass the enrollment examination administered by the Director of Practice.

PROPOSED EFFECTIVE DATE: These regulations are proposed to be effective [on the date final regulations are published in the **Federal Register**].

Special Analyses

It has been determined that these rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5. U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and therefore, an initial Regulatory Flexibility Analysis is not required.

Comments and Public Hearing

The Treasury Department intends to hold a public hearing on these regulations on December 16, 1992. Before adopting these proposed regulations, consideration will be given to any written comments that are submitted timely (preferably an original and eight copies) to the Treasury Department. All comments will be available for public inspection and copying.

Drafting Information

The principal author of these proposed regulations is David L. Meyer, Office of Chief Counsel, Income Tax & Accounting. However, personnel from other offices of the Treasury Department and the Internal Revenue Service participated in their development.

Proposed Amendments to the Regulations

For the reasons set forth in the preamble, 31 CFR part 10 is proposed to be amended as follows:

PART 10—PRACTICE BEFORE THE INTERNAL REVENUE SERVICE

Paragraph 1. The authority citation for subtitle A, part 10 continues to read as follows:

Authority: Sec. 3, 23 Stat. 258, secs. 2–12, 60 Stat. 237 *et. seq.*; 5 U.S.C. 301, 500, 551–559; 31 U.S.C. 1026; Reorg. Plan No. 26 of 1950, 15 FR 4935, 64 Stat. 1280, 3 CFR, 1949–1953 Comp., P. 1017.

Par. 2. Section 10.0 is revised to read as follows:

§ 10.0 Scope of part.

This part contains rules governing the recognition of attorneys, certified public accountants, enrolled agents, and other persons representing clients before the Internal Revenue Service. Subpart A of this part sets forth rules relating to authority to practice before the Internal Revenue Service; subpart B of this part prescribes the duties and restrictions relating to such practice; subpart C of this part contains rules relating to disciplinary proceedings; subpart D of this part contains rules applicable to disqualification of appraisers; and Subpart E of this part contains general provisions, including provision relating to the availability of official records.

Par. 3. Section 10.2 is revised to read as follows:

§ 10.2 Definitions.

As used in this part, except where the context clearly indicates otherwise:

(a) *Attorney* means any person who is a member in good standing of the bar of the highest court of any State, possession, territory, Commonwealth, or the District of Columbia.

(b) *Certified public accountant* means any person who is duly qualified to practice as a certified public accountant in any State, possession, territory, Commonwealth, or the District of Columbia.

(c) *Commission* refers to the Commissioner of Internal Revenue.

(d) *Director* refers to the Director of Practice.

(e) *Practice before the Internal Revenue Service* comprehends all matters connected with a presentation to the Internal Revenue Service or any of its officers or employees relating to a client's rights, privileges, or liabilities under laws or regulations administered by the Internal Revenue Service. Such presentations include preparing and filing necessary documents, corresponding and communicating with the Internal Revenue Service, and representing a client at conferences, hearings, and meetings.

(f) *Practitioner* means any individual described in § 10.3 (a), (b), (c), or (d) of this part.

(g) A *return* of tax includes a claim for refund of tax.

(h) *Service* means the Internal Revenue Service.

Par. 4. Section 10.3 is amended by revising paragraphs (a), (b), (e) and (f) to read as follows:

§ 10.3 Who may practice.

(a) *Attorneys.* Any attorney who is not currently under suspension or disbarment from practice before the Internal Revenue Service may practice before the Service upon filing with the Service a written declaration that he or she is currently qualified as an attorney and is authorized to represent the particular party on whose behalf he or she acts.

(b) *Certified public accountants.* Any certified public accountant who is not currently under suspension or disbarment from practice before the Internal Revenue Service may practice before the Service upon filing with the Service a written declaration that he or she is currently qualified as a certified public accountant and is authorized to represent the particular party on whose behalf he or she acts.

* * * * *

(e) *Others.* Any individual qualifying under § 10.5(c) or § 10.7 is eligible to practice before the Internal Revenue Service to the Extent provided in those sections.

(f) *Government officers and employees, and others.* An individual, including any officer or employee of the executive, legislative, or judicial branch of the United States Government; officer or employee of the District of Columbia; Member of Congress; or Resident Commissioner, may not practice before the Service if such practice would violate 18 U.S.C. 203 or 205.

* * * * *

Par. 5. Section 10.3 is amended by removing the footnote 1, reference from paragraphs (a) and (b) and footnote 1.

Par. 6. Section 10.4 is amended by removing paragraph (d).

Par. 7. Section 10.7 is revised to read as follows:

§ 10.7 Representing oneself; participating in rulemaking; limited practice; special appearances; and return preparation.

(a) *Representing oneself.* Individuals may appear on their own behalf before

the Internal Revenue Service provided they present satisfactory identification.

(b) *Participating in rulemaking.* Individuals may participate in rulemaking as provided by the Administrative Procedure Act. See 5 U.S.C. 553.

(c) *Limited practice*—(1) *In general.* Subject to the limitations in paragraph (c)(2) of this section, an individual who is not a practitioner may represent a taxpayer before the Internal Revenue Service in the circumstances described in this paragraph (c), even if the taxpayer is not present, provided the individual presents satisfactory identification and proof of this or her authority to represent the taxpayer:

(i) An individual may represent a member of his or her immediate family.

(ii) A regular full-time employee of an individual employer may represent the employer.

(iii) A general partner or a regular full-time employee of a partnership may represent the partnership.

(iv) A bona fide officer or a regular full-time employee of a corporation (including a parent, subsidiary, or other affiliated corporation), association, or organized group may represent the corporation, association, or organized group.

(v) A trustee, receiver, guardian, personal representative, administrator, executor, or regular full-time employee of a trust, receivership, guardianship, or estate may represent the trust, receivership, guardianship, or estate.

(vi) An officer or a regular employee of a governmental unit, agency, or authority may represent the governmental unit, agency, or authority in the course of his or her official duties.

(vii) An individual may represent an individual or entity outside of the United States before personnel of the Internal Revenue Service.

(viii) An individual who prepares and signs a taxpayer's return on behalf of the taxpayer, or who prepares a return but is not required (by the instructions or regulations) to sign it, may represent the taxpayer before officers and employees of the Examination Division of the Internal Revenue Service with respect to the tax liability of the taxpayer for the taxable year or period covered by that return.

(2) *Limitations.*

(i) An individual who is under suspension or disbarment from practice before the Internal Revenue Service may not engage in limited practice before the Service under § 10.7(c)(1).

(ii) The Director of Practice, after notice and opportunity for a conference, may deny eligibility to engage in limited practice before the Internal Revenue Service under § 10.7(c)(1) to any individual who has engaged in conduct that would justify suspending or disbarring a practitioner from practice before the Service.

(iii) An individual who represents a taxpayer under the authority of § 10.7(c)(1)(viii) is subject to such rules of general applicability regarding standards of conduct, the extent of his or her authority, and other matters as the Director prescribes.

(d) *Special appearances.* The Director of Practice, subject to such conditions as he or she deems appropriate, may authorize an individual who is not otherwise eligible to practice before the Service to represent another person in a particular matter.

(e) *Preparing tax returns and furnishing information.* An individual may prepare a tax return, appear as a witness for the taxpayer before the Internal Revenue Service, or furnish information at the request of the Service or any of its officers or employees.

Par. 8. Section 10.26(a)(4) is revised to read as follows:

§ 10.26 Practice by former Government employees, their partners and their associates.

(a) * * *

(4) *Practitioner* includes any individual described in § 10.3(e).

* * * * *

Par. 9. Section 10.28 is revised to read as follows:

§ 10.28 Fees.

(a) A practitioner may not charge an unconscionable fee for representing a client in a matter before the Internal Revenue Service.

(b) A practitioner may not charge a contingent fee for preparing a return, except as provided in the following sentence. A practitioner may charge a contingent fee for preparing a claim for refund if the practitioner reasonably anticipates, at the time the claim is filed, that the claim will be denied by the Service and subsequently litigated by the client. A contingent fee includes a fee that is based on a percentage of the refund shown on a return or a percentage of the taxes saved, or that depends on the specific result attained.

Par. 10. Section 10.33(a)(1) is revised to read as follows:

§ 10.33 Tax shelter opinions.

* * * * *

(c) * * *

(1) *Practitioner* includes any individual described in § 10.3(e).

* * * * *

Par. 11. Section 10.34 is added to read as follows:

§ 10.34 Standards for advising with respect to tax return positions and for preparing or signing returns.

(a) *Standard of conduct*—(1) *Realistic possibility standard.* A practitioner may not sign a return as a preparer if the practitioner determines that the return contains a position that does not satisfy the realistic possibility standard, unless the position is not frivolous and is adequately disclosed to the Service. A practitioner may not advise a client to take a position on a return, or prepare the portion of a return on which a position is taken, unless—

(i) The practitioner determines that there is a realistic possibility of the position being sustained on its merits (the "realistic possibility standard"); or

(ii) The position is not frivolous and the practitioner advises the client to adequately disclose the position.

(2) *Advising clients on potential penalties.* A practitioner advising a client to take a position on a return, or preparing or signing a return as a preparer, must inform the client of the penalties reasonably likely to apply to the client with respect to the position, of the opportunity to avoid any such penalty by disclosure, if relevant, and of the requirements for adequate disclosure.

(3) *Relying on information furnished by clients.* A practitioner advising a client to take a position on a return, or preparing or signing a return as a preparer, generally may rely in good faith without verification upon information furnished by the client. However, the practitioner may not ignore the implications of information furnished to, or actually known by, the practitioner, and must make reasonable inquiries if the information as furnished appears to be incorrect, inconsistent, or incomplete.

(4) *Definitions.* For purposes of this section:

(i) *Realistic possibility.* A position is considered to have a realistic possibility of being sustained on its merits if a reasonable and well-informed analysis by a person knowledgeable in the tax law would lead such a person to conclude that the position has approximately a one in three, or greater, likelihood of being sustained on its merits. The authorities described in 26 CFR 1.6662–4(d)(3)(iii) of the substantial understatement penalty regulations may be taken into account for purposes of this analysis. The possibility that a position will not be challenged by the Service (e.g., because the taxpayer's return may not be audited or because the issue may not be raised on audit) may not be taken into account.

(ii) *Frivolous.* A position is frivolous if it is patently improper.

(b) *Standard of discipline.* As provided in § 10.52, only violations of this section that are willful, reckless, or a result of gross incompetence will subject a practitioner to suspension or disbarment from practice before the Service.

Par. 12. Section 10.50 is revised to read as follows:

§ 10.50 Authority to disbar or suspend.

Pursuant to 31 U.S.C. 330(b), the Secretary of the Treasury after notice and an opportunity for a proceeding, may suspend or disbar any practitioner from practice before the Internal Revenue Service. The Secretary may take such action against any practitioner who is shown to be incompetent or disreputable, who refuses to comply with any regulation in this part, or who, with intent to defraud, willfully and knowingly misleads or threatens a client or prospective client.

Par. 13. Section 10.51, paragraph (j) is amended by removing the third sentence and adding two sentences in its place to read as follows:

§ 10.51 Disreputable conduct.

* * * * *

(j) * * * For purposes of this paragraph, reckless conduct is a highly unreasonable omission or misrepresentation involving an extreme departure from the standards of ordinary care that a practitioner should observe under the circumstances. A pattern of conduct is a factor that will be taken into account in determining whether a practitioner acted knowingly, recklessly, or through gross incompetence. * * *

Par. 14. Section 10.52 is revised to read as follows:

§ 10.52 Violation of regulations.

A practitioner may be disbarred or suspended from practice before the Internal Revenue Service for any of the following:

(a) Willfully violating any of the regulations contained in this part.

(b) Recklessly or through gross incompetence (within the meaning of § 10.51(j)) violating § 10.33 or § 10.34 of this part.

Par. 15. Section 10.53A is added to read as follows:

§ 10.53A Expedited suspension upon criminal conviction or loss of license for cause.

(a) *When applicable.* Whenever the Director has reason to believe that a practitioner is described in paragraph (b) of this section, the Director may institute a proceeding under this section to suspend the practitioner from practice before the Service.

(b) *To whom applicable.* This section applies to any practitioner who, within 5 years of the date a complaint instituting a proceeding under this section is served—

(1) Has had his or her license to practice as an attorney, certified public accountant, or actuary suspended or revoked for cause by any authority or court, agency, body, or board described in § 10.51(g); or

(2) Has been convicted on any crime under title 26 of the United States Code, or a felony under title 18 of the United States Code involving dishonesty or breach of trust.

(c) *Instituting a proceeding.* A proceeding under this section will be instituted by a complaint that names the respondent, is signed by the Director of Practice, is filed in the Director's office, and is served according to the rules set forth in § 10.57(a). The complaint must give a plain and concise description of the allegations that constitute the basis for the proceeding. The complaint, or a separate paper attached to the complaint, must notify the respondent:

(1) Of the place and due date for filing an answer;

(2) That a decision by default may be rendered if the respondent fails to file an answer as required;

(3) That the respondent may request a conference with the Director of Practice to address the merits of the complaint and that any such request must be made in the answer; and

(4) That the respondent may be suspended either immediately following the expiration of the period by which an answer must be filed or, if a conference is requested, immediately following the conference.

(d) *Answer.* The answer to a complaint described in this section must be filed no later than 21 calendar days following the date the complaint is served, unless the Director of Practice extends the time for filing. The answer must be filed in accordance with the rules set forth in § 10.58, except as otherwise provided in this section. A respondent is entitled to a conference with the Director only if the conference is requested in a timely filed answer. If a request for a conference is not made in the answer or the answer is not timely filed, the respondent will be deemed to have waived his or her right to a conference and the Director may suspend such respondent at any time following the date on which the answer was due.

(e) *Conference.* The Director or his or her designee will preside at a conference described in this section. The conference will be held at a place and time selected by the Director, but no sooner than 30 calendar days after the date the complaint is served on the respondent. An authorized representative may represent the respondent at the conference. Following the conference, upon a finding that the respondent is described in paragraph (b) of this section, or upon the respondent's failure to appear at the conference either personally or through an authorized representative, the Director may immediately suspend the respondent from practice before the Service.

(f) *Duration of suspension.* A suspension under this section will commence on the date that written notice of the suspension is issued. A practitioner's suspension will remain effective until the earlier of the following:

(1) The Director of Practice lifts the suspension after determining that the practitioner is no longer described in paragraph (b) of this section or for any other reason; or

(2) The suspension is lifted by an Administrative Law Judge or the Secretary of the Treasury in a proceeding referred to in paragraph (g) of this section and instituted under § 10.54.

(g) *Proceeding instituted under § 10.54.* If the Director suspends a practitioner under this § 10.53A, the practitioner may ask the Director to issue a complaint under § 10.54. The request must be made in writing within 2 years from the date on which the practitioner's suspension commences. The Director must issue a complaint requested under this paragraph within 30 calendar days of receiving the request.

Par. 16. Section 10.65(a) is revised to read as follows:

§ 10.65 Hearings.

(a) *In general.* An Administrative Law Judge will preside at the hearing on a complaint furnished under § 10.54 for the disbarment or suspension of a practitioner. Hearings will be stenographically recorded and transcribed and the testimony of witnesses will be taken under oath or affirmation. Hearings will be conducted pursuant to 5 U.S.C. 556. A hearing in a proceeding requested under § 10.53A(g) will be conducted *de novo.*

* * * * *

Par. 17. Subpart E of part 10 is amended by removing § 10.99.

Jeanne S. Archibald,

General Counsel.

BILLING CODE 4830-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD8-92-27]

Drawbridge Operation Regulations; Bayou Dularge, Louisiana

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: At the request of the Terrebonne Parish School Board and the Louisiana Department of Transportation and Development (LDOTD), the Coast Guard is considering a change to the regulation governing the operation of the State Route 315 Bayou Dularge bridge across the Gulf Intracoastal Waterway, mile 59.9, at Houma, Terrebonne Parish, Louisiana. The requested regulation would permit the draw to be closed to navigation an additional 15 minutes, at the beginning of the morning regulated period. Presently, the bridge is closed to navigation from 7 a.m. to 8:30 a.m. and from 4:30 p.m. to 6 p.m., Monday through Friday except holidays. The primary purpose of this 15-minute additional regulation is to provide school bus traffic undelayed use of the bridge during the school year. Public vessels of the United States and vessels in distress would continue to be passed at any time.

This action will accommodate the needs of local school bus traffic and rush hour vehicular traffic, while still providing for the reasonable needs of navigation.

DATES: Comments must be received on or before November 23, 1992.

ADDRESSES: Comments should be mailed to Commander (ob), Eighth Coast Guard District, 501 Magazine Street, New Orleans, Louisiana 70130-3396. The comments and other materials referenced in this notice will be available for inspection and copying in room 1313 at this address. Normal office hours are between 8 a.m. and 3:30 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Mr. John Wachter, Bridge Administration Branch, at the address given above, telephone (504) 539-2985.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, comments, data or arguments. Persons submitting comments should include their names and addresses, identify the bridge, and give reasons for concurrence with or any recommended change in the proposal. Persons desiring acknowledgment that their comments have been received should enclose a stamped, self-addressed postcard or envelope.

The Commander, Eighth Coast Guard District, will evaluate all communications received and determine a course of final action on this proposal. The proposed regulation may be changed in the light of comments received.

Drafing Information

The drafters of this regulation are Mr. John Wachter, project officer, and LT J.A. Wilson, project attorney.

Discussion of Proposed Regulation

Vertical clearance of the bridge in the closed to navigation position is 40 feet above high tide and 43 feet above low tide. Navigation through the bridge consists of barge tows, commercial fishing boats, and recreational craft.

Considering the very minimal amount of additional time that is involved in this proposed amendment to the drawbridge regulation, and they very significant amount of benefit to the Terrebonne Parish School System, the Coast Guard feels that vessel operators should be able to adjust the speed of their vessels to accommodate this additional 15 minute closure with little or no expense or inconvenience to themselves.

Federalism

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that this proposal does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Economic Assessment and Certification

This proposed regulation is considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under Department of Transportation regulatory policies and procedures (44 FR 11034: February 26, 1979).

The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. The basis for this conclusion is that during the proposed regulated periods there will be very little inconvenience to vessels using the waterway. In addition, mariners requiring the bridge openings are repeat users of the waterway and scheduling their arrivals to avoid the additional regulated period should involve little or no expense to them. Since the economic impact of this proposal is expected to be minimal, the Coast Guard certifies that, if adopted, it will not have a significant economic impact on a substantial number of small entities.

Environment

This rulemaking has been thoroughly reviewed by the Coast Guard and it has been determined to be categorically excluded from further environmental documentation in accordance with section 2.B.2.g.5 of Commandant Instruction M16475.1B. A Categorical Exclusion Determination statement has been prepared and placed in the rulemaking document.

List of Subjects in 33 CFR Part 117

Bridges.

Proposed Regulations

In consideration of the foregoing, the Coast Guard proposes to amend part 117 of title 33, Code of Federal Regulations, as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05-1(g).

2. Section 117.451 is amended by revising paragraph (c), by redesignating existing paragraphs (d) and (e) as paragraphs (e) and (f) respectively, and by adding new paragraph (d) as follows:

§ 117.451 Gulf Intracoastal Waterway.

* * * * *

(c) The draws of the East Main Street bridge, mile 57.5, and East Park Avenue bridge, mile 57.6, at Houma, shall open on signal; except that, the draws need not be opened for the passage of vessels Monday through Friday except holidays from 7 a.m. to 8:30 a.m. and from 4:30 p.m. to 6 p.m.

(d) The draw of the Bayou Dularge bridge, mile 59.9, at Houma, shall open on signal; except that, the draw need not be opened for the passage of vessels Monday through Friday except holidays from 6:45 a.m. to 8:30 a.m. and from 4:30 p.m. to 6 p.m.

* * * * *

Dated: September 23, 1992.

J.C. Card,

Rear Admiral, U.S. Coast Guard, Commander, Eighth Coast Guard District.

BILLING CODE 4910-14-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

42 CFR Parts 431, 440, 442, 488, 489, and 498

[HSQ-139-P]

RIN: 0938-AC88

Medicare and Medicaid Programs; Revised Effective Date of Medicare/Medicaid Provider Agreement and Supplier Participation

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Proposed rule.

SUMMARY: This proposed rule would establish uniform criteria for determining the effective date of participation for all Medicare and Medicaid providers and Medicare suppliers. It also would specify that those dissatisfied with a decision on their effective date of participation under Medicare are entitled to a Medicare hearing on the decision.

DATES: To assure consideration, comments must be mailed or delivered to the appropriate address, as provided below, and must be received by 5 p.m. on December 7, 1992.

ADDRESSES: Address comments in writing to the following address:

Health Care Financing Administration, Department of Health and Human Services, Attention: HSQ-139-P, P.O. Box 26676, Baltimore, Maryland 21207.

If you prefer, you may deliver your comments to one of the following addresses:

Room 306-G, Hubert H. Humphrey Building, 200 Independence Avenue, SW., Washington, DC 20201 or

Room 132, East High Rise Building, 6325 Security Boulevard, Baltimore, Maryland 21207.

Please address a copy of comments on information collection requirements to:

Office of Management and Budget, Office of Information and Regulatory Affairs, Room 3001, New Executive Office Building, Washington, DC 20503, Attention: Allison Herron Eydt.

Due to staffing and resource limitations, we cannot accept facsimile transmissions. In commenting, please refer to file code HSQ-139-P. Comments received timely will be available for public inspection as they are received, beginning approximately three weeks after publication in room 309-G of the Department's offices at 200 Independence Ave., SW., Washington, DC 20201, on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (phone: 202-245-7890).

FOR FURTHER INFORMATION CONTACT: Irene Gibson, (410) 966-6788.

SUPPLEMENTARY INFORMATION:

I. Background

Under section 1866 of the Social Security Act (the Act), a health care facility seeking to participate in the Medicare program must enter into an agreement with the Secretary. As an additional condition for eligibility for Medicare payment, the facility is surveyed and certified by a State under section 1864 of the Act (or accreditation organization pursuant to section 1865 of the Act) to determine whether the facility meets the statutory definition of a Medicare provider or supplier. Rules relating to these requirements are in 42 CFR parts 488 and 489. Similar requirements apply for provider participation under the Medicare program (see sections 1902(a)(27), 1902(a)(33)(B), and 1905 of the Act, and 42 CFR part 442). This proposed rule concerns one aspect of the participation approval process—the determination of the effective date of a provider's or supplier's participation in the Medicare or Medicaid programs.

Under the general authority at section 1866 of the Act for Medicare, and section 1902(a)(4) and (a)(27) for Medicaid, and our regulations at 42 CFR 442.12(a) and 442.30, Federal payments may not be made for services furnished prior to the effective date of a provider's Medicare or Medicaid provider agreement. Moreover, § 442.13 specifies that a provider agreement may not be effective before the provider has met all Federal participation requirements or before the date it has provided an acceptable plan of correction to HCFA or the State to meet all Federal requirements. All health care facilities except Medicare skilled nursing facilities (SNFs) and Medical nursing facilities (NFs), must meet all conditions of participation (CoPs) in order to meet the statutory definition of a provider. Until very recently this was also the case with nursing homes. However, the legislative history of the Omnibus Budget Reconciliation Act of 1987 (OBRA '87), Public Law 100-203, revealed that Congress intended that HCFA eliminate CoPs for nursing homes.

The committee amendment would establish "requirements" of participation for nursing facilities. In using the term "requirements" the committee specifically intends that the Secretary discard the existing regulatory practices and conventions associated with the terms "conditions" and "standards" and develop a regulatory approach that will assure the clear articulation and enforcement of the requirements in the committee amendment.

H. Rep. 391, 100th Cong., 1st Sess. 453.

Therefore, existing Department policy, as embodied in regulations at § 442.13 and § 489.13, allows provider agreements to be effective as of the date of compliance at the CoP level or with Level A requirements for nursing homes. These provider agreements could be effective even if there are deficiencies below the CoP level or below the Level A requirements for nursing homes, as long as the facility submits an approved plan of correction to HCFA or to the State for these deficiencies.

The Medicaid rules at § 442.13 apply to nursing and intermediate care facilities for the mentally retarded. Although we have been applying similar policies to other Medicaid providers (such as hospitals and home health agencies), our regulations do not contain effective date regulatory provisions for these other Medicaid providers. Similarly, the Medicare provision at § 489.13 applies to Medicare providers, i.e., hospitals, skilled nursing facilities, home health agencies, comprehensive outpatient rehabilitation facilities, hospices and certain providers of outpatient physical therapy and speech pathology services. There is no corresponding effective date regulatory provision for suppliers. However, for purposes of consistency, ease of administering each program, and to protect the health and safety of beneficiaries and recipients, we have extended in our current procedure manuals and practice the same effective date provisions to all types of Medicare and Medicaid providers. Additionally, existing Medicare and Medicaid regulatory provisions do not address the effective date of participation for those providers and suppliers who are deemed to meet the conditions or requirements by an accreditation organization.

The statute at section 1866(h) for Medicare and the regulations at 42 CFR part 498 provide that an institution or agency dissatisfied with a determination that it is not a provider (and, under the regulations, a supplier) of services is entitled to an administrative law judge (ALJ) hearing on the issue. However, because an effective date determination is not specified as an appealable issue under § 498.3(b), institutions or agencies are not consistently granted ALJ hearings on this issue.

II. Provisions of the Proposed Regulations

We propose to promulgate uniform rules on establishing the effective date

of participation for all providers and suppliers.

Under current rules at § 442.13 for Medicaid NFs and ICFs/MR, and § 489.10 and § 489.13 for Medicare providers, provider agreements are made effective upon the completion of the on-site health and safety certification survey, if all Federal requirements are met on that date. Otherwise, the provider agreement is made effective upon the date on which (1) HCFA for Medicare, or the State survey agency for Medicaid, determines that all Federal requirements are met; or (2) if the facility meets all CoPs or Level A requirements for Medicare SNFs and Medicaid NFs, as of the date the facility submits a plan of correction to meet all lower level Federal requirements or waiver request that is acceptable to HCFA or the State survey agency for deficiencies below the CoP level or below Level A for SNFs and NFs. (Presently, § 489.10 requires that prospective providers meet the CoPs or requirements for SNFs, thereby limiting the use of plans of correction to facilities having deficiencies below the CoP level or below Level A requirements.)

We would revise § 489.13 to establish a requirement that all Medicare suppliers as well as all providers be subject to consistent effective date requirements. (No corresponding changes are needed in Part 442 because the Medicaid program recognizes only providers, not suppliers. However, in amending § 489.13 to apply the effective date provisions to suppliers, we would revise the overall language to clarify the intent of the policy with regard to effective dates in conjunction with plans of correction. We would make corresponding changes to § 442.13, to clarify Medicaid policies in this regard, as well.)

In addition, we would revise § 489.13 to establish rules to govern providers/suppliers that apply to participate in Medicare after they have been deemed to meet Federal requirements, including Life Safety Code Requirements, by a HCFA-approved accreditation organization. We would add a new paragraph to state that when a provider/supplier does not require an onsite survey by a State survey agency because it is deemed to meet Federal requirements by an accreditation organization, the effective date of the provider agreement or approval of a supplier's participation is the date on which the provider or supplier makes its initial request to HCFA to participate in the Medicare program. However, the effective date cannot be before the date on which the accreditation organization conducts its initial onsite survey and certifies the provider or supplier as meeting its accreditation requirements, nor before the date HCFA grants deeming authority to the accreditation organization conducting the survey of the provider or supplier. For those accredited providers or suppliers that are required to meet special requirements for which an accreditation organization is not authorized to grant deemed status, the effective date of the provider agreement or approval of a supplier's participation is the date on which all of the Federal requirements are met, including the special requirements. (Likewise, we would make the corresponding changes to § 442.13 to clarify Medicaid policies in this regard.) To reflect the nomenclature changes made by section 4211(a) of OBRA '87, we would also make conforming changes to the title of part 442 affected by this proposed rule to substitute the term "NF" for "SNF" and "ICF". Part 442 would now be entitled "Part 442—Standards for Payment for Nursing Facilities and Intermediate Care Facilities for the Mentally Retarded".

We would add a new paragraph (e)(3) of § 431.610, Relations with Standard Setting and Survey Agencies, to clarify that the Medicaid State plan specify that the State survey agency is responsible for recommending the effective date of an agreement for a provider as provided under § 442.13. We believe that this revision would be appropriate since the State survey agency usually has the initial responsibility for conducting the survey and certifying compliance with Federal requirements. Because the State survey agency, through its onsite survey, is aware of the date it verified that the entity complied with the Federal requirements, it is appropriate that it also recommend this date as the effective date of a provider agreement.

We would establish a new § 440.3, Effective Dates of Provider Agreements, that would specify that the effective date of provider agreements of all types of Medicaid providers would be determined in accordance with procedures at § 442.13, which currently specify effective date policies for Medicaid only nursing homes and ICFs/MR.

We would add a new paragraph (d) to § 488.11, Survey Agency Functions, to require that State and local agencies—that have agreements under section 1864(a) of the Act recommend an effective date of a Medicare agreement for a provider or Medicare participation for a supplier using the requirements of revised § 489.13.

We propose to revise § 498.3(b) by adding a new paragraph (12) to clarify that we consider effective date decisions to be initial determinations and, hence, a proper subject for Medicare hearings. This would specifically provide the appeal rights specified in §§ 498.3(b) (1) and (4) and 498.5 (a) and (d) to prospective providers and suppliers who are dissatisfied with a finding of noncompliance with a condition of participation or coverage, or dissatisfied with a finding of noncompliance with a Level A requirement (in the case of SNFs or NFs) as of the date of the initial survey. However, prospective providers and suppliers would not be entitled to an appeal based on the contention that the survey should have been conducted earlier than it was. This change is included at new § 498.3(d)(10. For unaccredited providers/suppliers, allegations that the effective date of participation should be earlier than the date the onsite survey by the State survey agency is completed (including the Life Safety Code survey), or earlier than the date on which a plan of correction or waiver request acceptable to HCFA or the State is submitted, would continue to be governed by § 489.13 and would not form a proper basis for appeal under § 498.3.

The proposed change to § 498.3(b) is in accord with an Appeals Council decision in the case of *Citizens General Hospital Home Health Agency* v. *the Health Care Financing Administration*, No. HIP 000–61–0031 (July 23, 1987), which held that a decision that a provider or supplier does not meet the Medicare conditions of participation or coverage on the date of its initial certification survey, even though it was found to meet Medicare requirements at a later date, constitutes an appealable decision.

In addition, we propose to revise § 498.3 by removing paragraph (d)(3), under which HCFA can refuse to enter into an agreement with a prospective provider adjudged bankrupt or insolvent under Federal or State law, or because insolvency or bankruptcy proceedings are pending. Paragraph (d)(3) is no longer applicable, pursuant to the Revised Bankruptcy Code, 11 U.S.C. § 525, which prohibits HCFA from denying participation of a provider or supplier solely because of bankruptcy or insolvency. This change is necessary to conform to the revision of § 489.12 that was effective January 27, 1989 (54 FR 4023).

III. Regulatory Impact Statement

Executive Order (E.O.) 12291 requires us to prepare and publish an initial regulatory impact analysis for any proposed regulation that meets one of the E.O. criteria for a "major rule"; that is, that would be likely to result in:

- An annual effect on the economy of $100 million or more;
- A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or
- Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

In addition, we generally prepare an initial regulatory flexibility analysis that is consistent with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 through 612), unless the Secretary certifies that a proposed regulation would not have significant economic impact on a substantial number of small entities. For purposes of the RFA, we treat all providers and suppliers as small entities.

We believe that the impact of this proposed regulation would be minimal. Our existing regulations on the determination of effective dates provide that an agreement will be effective on the date the onsite survey is completed, if all Federal health and safety requirements are met on that date. Otherwise, if the prospective provider fails to meet all of the requirements as of the date of survey, the agreement is effective on the earlier of the following dates: the date it actually does meet all of the requirements; or the date it meets all conditions of participation, level A requirements or conditions for coverage and submits an acceptable correction plan for any deficiencies, or an approvable waiver request, or both to HCFA or the State agency. Our current regulations do not address the determination of effective dates for Medicare suppliers, Medicaid providers (other than nursing facilities and intermediate care facilities for the mentally retarded), and finally, providers/suppliers that are deemed to meet Federal requirements by an accreditation organization. In practice, however, we have used, for the most part, the policy discussed above for determining effective dates in most of these situations not addressed in the regulations. This proposed rule would codify in regulations uniform criteria for establishing the effective date of participation for every type of Medicare provider and supplier and Medicaid provider.

Existing regulations do not address the appeal rights of a provider or supplier who disagrees with the determination of an effective date. Therefore, this proposed regulation would establish an effective date determination as an appealable issue.

We do not anticipate any substantial increase in Medicare/Medicaid expenditures since, in practice, the procedures for determining effective dates generally will not change. Although the right to an appeal of a determination of an effective date is new policy, we do not anticipate a significant increase in the number of hearings. The current Federal regulations provide appeal rights for a prospective provider or supplier who is denied participation in the Medicare program. State regulations may provide for similar appeal mechanisms for Medicaid denials. Usually, when a determination is made to deny a prospective provider's or prospective supplier's participation, it is based on the prospective provider's or supplier's noncompliance with a condition of participation, level A requirement, or condition for coverage. We expect effective date hearings to focus on the same noncompliance issues, and do not anticipate that facilities will appeal both an initial denial and a subsequent effective date determination. The new hearings provided for by this proposed regulation will probably only result in an increased hearing workload in those situations where a facility disagrees with the date that HCFA or the State determined that compliance was achieved or refuses to submit a plan of correction for lower level deficiencies. We do not believe that the number of providers and suppliers that will exercise this particular hearing option will be great. For these reasons, we believe that the impact on both HCFA and facilities is negligible and consequently, a regulatory impact analysis is not required. Further, we have determined, and the Secretary certifies, that this proposed rule would not have a significant economic impact on a substantial number of small entities, and we have, therefore, not prepared a Regulatory Flexibility Act Analysis.

Also, section 1102(b) of the Act requires the Secretary to prepare a regulatory impact analysis for any proposed rule that may have a significant impact on the operations of a substantial number of small rural hospitals. Such an analysis must conform to the provisions of section 603 of the RFA. For purposes of section 1102(b) of the Act, we define a small rural hospital as a hospital with fewer than 50 beds located outside a metropolitan statistical area. We have determined, and the Secretary certifies, that this proposed rule would not have a significant impact on the operations of a substantial number of small rural hospitals.

IV. Paperwork Reduction Act

This proposed rule does not impose any information collection requirements subject to the Office of Management and Budget (OMB) approval under the Paperwork Reduction Act of 1980, as amended.

V. Response to Comments

Because of the large number of pieces of correspondence we normally receive on a proposed rule, we are not able to acknowledge or respond to them individually. However, in preparing the final rule, we will consider all timely comments contained in written correspondence that we receive by the date specified in the "DATE" section of this preamble, and will respond to the comments in the preamble to that rule.

List of Subjects

42 CFR Part 431

Grant programs-health, Health facilities, Medicaid, Privacy, Reporting and recordkeeping requirements.

42 CFR Part 440

Health facilities, requirements and limits applicable to Medicaid services.

42 CFR Part 442

Grant programs-health, Health facilities, Health professions, Health records, Medicaid, Nursing homes, Nutrition, Reporting and recordkeeping requirements, Safety.

42 CFR Part 488

Health facilities, Survey and certification, Forms and quidelines

42 CFR Part 489

Health facilities, Medicare

42 CFR Part 498

Administrative practice and procedure, Appeals, Medicare Practitioners, providers, and suppliers.

Title 42—Public Health

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH AND HUMAN SERVICES

42 CFR chapter IV would be amended as set forth below.

PART 431—STATE ORGANIZATION AND GENERAL ADMINISTRATION

A. Part 431 is amended as follows:

1. The authority citation for part 431 continues to read as follows:

Authority: Section 1102 of the Social Security Act (42 U.S.C. 1302).

2. In § 431.610, paragraph (e) is revised to read as follows:

§ 431.610 Relations with standard-setting and survey agencies.

* * * * *

(e) *Designation of survey agency.* The plan must provide that—

(1) The agency designated in paragraph (b) of this section, or another State agency responsible for licensing health institutions in the State, determines for the Medicaid agency if institutions and agencies meet the requirements for participation in the Medicaid program;

(2) The agency staff making the determination under paragraph (e)(1) of this section is the same staff responsible for making similar determinations for institutions or agencies participating under Medicare; and

(3) The agency designated in paragraph (e)(1) of this section recommends the effective date of an agreement for a provider as provided under § 442.13 of this chapter.

* * * * *

PART 440—SERVICES: GENERAL PROVISIONS

Subpart A—Definitions

B. Part 440, subpart A is amended as follows:

1. The authority citation for part 440 continues to read as follows:

Authority: Section 1102 of the Social Security Act (42 U.S.C. 1302).

2. A new § 440.3 is added to read as follows:

§ 440.3 Effective dates of provider agreements.

The effective dates of provider agreements for all types of Medicaid providers are determined in accordance with § 442.13 of this subchapter.

PART 442—STANDARDS FOR PAYMENT FOR SKILLED NURSING AND INTERMEDIATE CARE FACILITY SERVICES

C. Part 442 is amended as follows:

1. The authority citation for part 442 continues to read as follows:

Authority: Section 1102 of the Social Security Act (42 U.S.C. 1302), unless otherwise noted.

2. The title of part 442 is revised to read as follows.

PART 442—STANDARDS FOR PAYMENT FOR NURSING FACILITIES AND INTERMEDIATE CARE FACILITIES FOR THE MENTALLY RETARDED

3. In § 442.13, paragraph (a) is republished, and paragraphs (b) and (c) are revised, and new paragraph (d) is added to read as follows:

§ 442.13 Effective date of agreement.

(a) *Basic requirements.* If the Medicaid agency enters into a provider agreement, the effective date must be in accordance with this section.

(b) *All Federal requirements are met on the date of the State agency survey.* The agreement must be effective on the date the onsite survey (including the Life Safety Code survey) is completed (or on the day following the expiration of a current agreement) if, on the date of the survey, the provider meets:

(1) All Federal requirements; and

(2) Any other requirements imposed for participation in the Medicaid program.

(c) *All Federal requirements are not met on the date of the State agency survey.* If the provider fails to meet any of the requirements specified in paragraph (b) of this section, the agreement must be effective on the earlier of the following dates:

(1) The date on which the provider meets all requirements; or

(2) The date on which a provider is found to meet all conditions of participation or conditions for coverage, or Level A requirements for NFs and the facility submits an acceptable correction plan for lower deficiencies, or an approval waiver request, or both. When the plan of correction or waiver request is approved or accepted by HCFA or the State agency later than the date on which it is submitted, the effective date is the date of submission.

(d) *Provider applies to participate in Medicaid after it is deemed to meet all Federal requirements by an accreditation organization.* (1) If a provider is deemed to meet all Federal requirements (including Life Safety Code requirements), the effective date of the provider agreement is the date on which the provider makes its initial request to the State Medicaid agency to participate in the Medicaid program. However, the effective date of the provider agreement cannot be before the date on which:

(i) The accreditation organization conducts its initial onsite survey of the provider and deems it to meet all Federal requirements, and

(ii) HCFA approves the organization conducting the survey of the provider as an accreditation organization.

(2) *Exception:* If a provider is accredited but is required to meet special requirements for which an accreditation organization is not authorized to deem, the effective date of the provider agreement is the date that all of the Federal requirements, including the special requirements, are met or deemed to be met.

PART 488—SURVEY AND CERTIFICATION PROCEDURES

D. Part 488, subpart A is amended as follows:

1. The authority citation for part 488 continues to read as follows:

Authority: Sec. 1102, 1814, 1861, 1865, 1871, 1880, 1881, and 1883 of the Social Security Act (42 U.S.C. 1302, 1395f, 1395x, 1395bb, 1395cc, 1395hh, 1395qq, 1395rr, and 1395tt).

2. In § 488.11, the introductory text is reprinted and paragraphs (b), (c), and (d) are revised to read as follows:

§ 488.11 State survey agency functions.

State and local agencies that have agreements under section 1864(a) of the Act—

* * * * *

(b) Conduct validation surveys as provided in § 488.6;

(c) Perform surveys and other appropriate activities and certify that their findings to HCFA; and

(d) Recommend the effective date of an agreement for a provider or the participation for a supplier as provided under § 489.13 of this subchapter.

PART 489—PROVIDER AGREEMENTS UNDER MEDICARE

E. Part 489 is amended as follows:

1. The authority citation for part 489 continues to read as follows:

Authority: Secs. 1102, 1861, 1864, 1866, and 1871 of the Social Security Act (42 U.S.C. 1302, 1395x, 1395aa, 1395cc, and 1395hh).

* * * * *

2. In § 489.1, new paragraph (d) is added:

§ 489.1 Statutory basis.

* * * * *

(d) Although section 1866 of the Social Security Act pertains to providers and provider agreements, the rule in this part includes procedures for the effective date of approval for suppliers.

3. § 489.13 is revised to read as follows:

§ 489.13 Effective date of agreement or approval.

(a) *All Federal requirements are met on the date of the survey.* The agreement or approval must be effective on the date the onsite survey (including the Life Safety Code survey) is completed (or on the day following the expiration date of a current agreement) if, on the date of the survey, the provider or supplier meets all Federal requirements.

(b) *All Federal requirements are not met on the date of the survey.* If the provider or supplier fails to meet any of the requirements specified in paragraph (a) of this section, the agreement or approval must be effective on the earlier of the following dates:

(1) The date on which the provider or supplier meets all requirements or

(2) The date on which the provider or supplier is found to meet all conditions of participation or Level A requirements for SNFs or conditions for coverage and the facility submits an acceptable correction plan for lower-level deficiencies, or an approvable waiver request, or both. When the plan of correction or waiver request is approved or accepted by HCFA or the State agency later than the date on which it is submitted, the effective date is the date of submission.

(c) *Provider applies to participate in Medicare after it is deemed to meet all Federal requirements by an accreditation organization.* (1) If a provider is deemed to meet all Federal requirements, (including Life Safety Code requirements) the effective date of the provider agreement is the date on which the provider makes its initial request to HCFA to participate in the Medicare program. However, the effective date of the provider agreement cannot be before the date on which:

(i) The accreditation organization conducts its initial onsite survey of the provider and deems it to meet all Federal requirements, and

(ii) HCFA approves the organization conducting the survey of the provider as an accreditation organization.

(2) *Exception:* If a provider is accredited but is required to meet special Federal requirements for which an accreditation organization is not authorized to deem, the effective date of the provider agreement is the date that all of the Federal requirements, including the special requirements, are met or deemed to be met.

PART 498—APPEALS PROCEDURES FOR DETERMINATIONS THAT AFFECT PARTICIPATION IN THE MEDICARE PROGRAM

F. Part 498 is amended as follows:

1. The authority citation for 42 CFR part 498 continues to read as follows:

Authority: Sec. 205(a), 1102, 1866(h), 1871, and 1872 of the Social Security Act (42 U.S.C. 405(a), 1302, 1395ff(c), 1395hh, and 1395ii), unless otherwise noted.

2. In § 498.3, the introductory text of paragraph (b) is republished, new paragraph (b)(12) is added, the introductory text of paragraph (d) is republished, paragraph (d)(3) is removed, paragraphs (d)(4)–(10) are redesignated as (d)(3)–(9), respectively, redesignated (d)(9) is revised, and new paragraph (d)(10) is added to read as follows:

§ 498.3 Scope and applicability.

* * * * *

(b) *Initial determinations by HCFA.* HCFA makes initial determinations with respect to the following matters:

* * * * *

(12) The effective date of an agreement between HCFA and a provider or the effective date of the participation of a supplier of services in the Medicare program.

* * * * *

(d) *Administrative actions that are not initial determinations.* Administrative actions other than those specified in paragraphs (b) and (c) of this section are not initial determinations and thus are not subject to this part. Administrative actions that are not initial determinations include, but are not limited to the following:

* * * * *

(9) With respect to a SNF that is not in compliance with a requirement—

(i) The finding that the SNF's deficiencies pose immediate jeopardy to patients' health and safety; and

(ii) When the SNF's deficiencies do not pose immediate jeopardy, the decision to deny payment for new admissions.

(10) The decision by the State agency as to when to conduct an initial survey of a prospective provider or prospective supplier.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 63

[CC Docket No. 87-266; DA 92-1300]

Rural Exemption to Telephone Company-Cable Television Cross Ownership Rules

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extension of comment period.

SUMMARY: This order extends the comment and reply dates to October 13 and November 12, respectively, on a proposed rule concerning telephone company-cable television cross-ownership rules to allow time for completion of population studies.

DATES: Comments must be filed on or before October 13, 1992, and reply comments on or before November 12, 1992.

ADDRESSES: Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Greg Lipscomb, Common Carrier Bureau, (202) 634-4216; or Donna N. Lampert, Common Carrier Bureau, (202) 632-9342.

SUPPLEMENTARY INFORMATION: The summary of the Second Further Notice of Proposed Rulemaking in this proceeding, adopted July 16, 1992 and released August 14, 1992, was printed in the **Federal Register**, see 57 FR 41118 (September 9, 1992).

BILLING CODE 6712-01-M

47 CFR Part 73

[MM Docket No. 87-268; DA 92-1344]

Advanced Television Systems and Their Effect on the Existing Television Service

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extension of comment period.

SUMMARY: The Commission's Chief Engineer has extended the time for filing comments and reply comments in response to the Second Further Notice of Proposed Rule Making (Second Further Notice) in MM Docket No. 87-268, FCC 92-332, released August 14, 1992, 51 FR 38652 (August 26, 1992). The Second Further Notice sets forth proposals for policies to be used in allotting reversion channels for advanced television service (ATV).

DATES: Comments must be filed on or before November 2, 1992, and reply comments on or before December 2, 1992.

ADDRESSES: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Alan Stillwell (202-653-8162) or Robert Eckert (202-653-8163), Office of Engineering and Technology, or Gordon Godfrey (202-632-9660), Mass Media Bureau.

SUPPLEMENTARY INFORMATION: In a joint letter of September 11, 1992, the Association of Maximum Service Telecasters and nine other parties asked the Commission to clarify certain technical information in the Second Further Notice and to extend the period for filing comments to allow sufficient time to prepare responses in light of the requested technical information. Comments and reply comments were originally due October 13, 1992, and November 12, 1992, respectively. We have placed the information requested in the joint letter in the docket file in this proceeding and are extending the period for filing comments to allow 30 days for filing comments after the date the requested information was placed in the docket file. We believe this extension of time will further the development of the record in this proceeding and will not delay our final action on ATV channel allotment policy.

BILLING CODE 6712-01-M

47 CFR Part 73

[MM Docket No. 92-225, RM-8073]

Radio Broadcasting Services; Northport, AL and Macon, MS

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition for rule making filed by Warrior Broadcasting, Inc., licensee of Station WLXY(FM), Channel 264A, Northport, Alabama, seeking the substitution of Channel 264C3 for Channel 264A at Northport, and modification of the license for Station WLXY(FM) accordingly. In order to accommodate the request, petitioner seeks the deletion of vacant Channel 263A at Macon, Mississippi, or alternatively, the placement of a site restriction on the existing Macon allotment. (In the event an expression of interest is received in retaining Channel 263A at Macon, a new application filing window will be opened for the channel upon termination of this proceeding.) Coordinates used for Channel 264C3 at Northport, Alabama, are 33-16-00 and 87-44-01. Coordinates at the proposed restricted site for Channel 263A at Macon, Mississippi, are 33-05-10 and 88-39-48. See Supplementary Information, *infra.*

DATES: Comments must be filed on or before November 23, 1992, and reply comments on or before December 8, 1992.

ADDRESSES: Secretary, Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, as follows: Warrior Broadcasting, Inc., Attn: James E. Shaw, President, 3330 Main Avenue, P.O. Box 1020, Northport, Alabama 35476.

FOR FURTHER INFORMATION CONTACT: Nancy Joyner, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 92-225, adopted September 11, 1992, and released October 2, 1992. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, Downtown Copy Center, (202) 452-1422, 1990 M St., NW., suite 640, Washington, DC 20036.

Petitioner's modification proposal complies with the provisions of § 1.420(g) of the Commission's Rules. Therefore, we will not accept competing expressions of interest in the use of Channel 264C3 at Northport, Alabama, or require the petitioner to demonstrate the availability of an additional equivalent class channel.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

47 CFR Part 73

[MM Docket No. 92-218, RM-8053 and RM-8054]

Radio Broadcasting Services; Olathe and Topeka, KS

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on two separately filed and mutually exclusive petitions. The first proposal, filed by Bott Broadcasting Company requests the substitution of Channel 222C3 for Channel 222A at Olathe, Kansas, and modification of the construction permit for Station KCCV (FM) to specify operation on Channel 222C3. The coordinates for Channel 222C3 are 38-58-46 and 94-50-44. To accommodate the upgrade at Olathe, Bott Broadcasting Company has proposed the substitution of Channel 257A for Channel 223A at Topeka,

Kansas. The coordinates for Channel 257A at Topeka are 39–07–33 and 95–41–08. Margaret Escriva, permittee of Channel 223A, Topeka, Kansas, has requested the substitution of Channel 223C3 for Channel 223A at Topeka, and modification of her construction permit accordingly. The coordinates for Channel 223C3 at Topeka are 39–05–31 and 95–47–05.

DATES: Comments are due on or before November 23, 1992, and reply comments on or before December 8, 1992.

ADDRESSES: Federal Communications Commission, Washington, DC 20554 In addition to filing comments with the FCC, interested parties should serve the petitioners' counsel, as follows:

---

47 CFR Part 73

[MM Docket No. 92–221, RM–8071]

Radio Broadcasting Services; Quincy and Susanville, CA

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition for rule making filed on behalf of Olympic Broadcasters, Inc., licensee of Station KQNC (FM), Quincy, California, seeking the reallotment of Channel 271A from Quincy to Susanville, California, and modification of its license to specify operation on Channel 271C2 at the latter community. Coordinates used for channel 271C2 at Susanville are 40–27–13 and 120–34–14.

Petitioner's modification proposal complies with the provisions of § 1.420(g) and (i) of the Commission's Rules. Therefore, we will not accept competing expressions of interest in the use of Channel 271C2 at Susanville, or require the petitioner to demonstrate the availability of an additional equivalent class channel.

DATES: Comments must be filed on or before November 23, 1992, and reply comments on or before December 8, 1992.

ADDRESSES: Secretary, Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner's counsel, as follows: Richard A. Helmick, Esq., Cohn and Marks, 1333 New Hampshire Ave., NW., suite 600, Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Nancy Joyner, Mass Media bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 92–221, adopted September 9, 1992, and released October 2, 1992. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, Downtown Copy Center, (202) 452–1422, 1990 M St., NW., suite 640, Washington, DC 20036.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

[MM Docket No. 92–220, RM–8075]

Radio Broadcasting Services; Moose Lake, MN

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition filed by Agate Broadcasting of Minnesota requesting the allotment of FM Channel 296C3 to Moose Lake, Minnesota, as that community's first local service. Canadian concurrence will be requested for this allotment at coordinates 46–27–24 and 92–45–30.

DATES: Comments are due on or before November 23, 1992, and reply comments on or before December 8, 1992.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner's counsel, as follows: Brian T. Grogan, Moss & Barnett, 4800 Norwest Center, 90 South Seventh Street, Minneapolis, Minnesota 44502–4129.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. 92-152-1]

Receipt of Permit Application for Release Into the Environment of Genetically Engineered Organisms

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that an application for a permit to release genetically engineered organisms into the environment is being reviewed by the Animal and Plant Health Inspection Service. The application has been submitted in accordance with 7 CFR part 340, which regulates the introduction of certain genetically engineered organisms and products.

ADDRESSES: Copies of the application referenced in this notice, with any confidential business information deleted, are available for public inspection at USDA, room 1141, South Building, 14th Street and Independence Avenue, SW., Washington DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. You may obtain copies of this document by writing to the person listed under "FOR FURTHER INFORMATION CONTACT."

FOR FURTHER INFORMATION CONTACT: Dr. Arnold Foudin, Deputy Director, Biotechnology Permits, Biotechnology, Biologics, and Environmental Protection, APHIS, USDA, room 850, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436-7612.

SUPPLEMENTARY INFORMATION: The regulations in 7 CFR part 340, "Introduction of Organisms and Products Altered or Produced Through Genetic Engineering Which Are Plant Pests or Which There Is Reason to Believe Are Plant Pests," require a person to obtain a permit before introducing (importing, moving interstate, or releasing into the environment) into the United States certain genetically engineered organisms and products that are considered "regulated articles." The regulations set forth procedures for obtaining a permit for the release into the environment of a regulated article, and for obtaining a limited permit for the importation or interstate movement of a regulated article.

Pursuant to these regulations, the Animal and Plant Health Inspection Service has received and is reviewing the following application for a permit to release genetically engineered organisms into the environment:

Application No.	Applicant	Date received	Organisms	Field test location
92-255-01	ICI Seeds, Inc.	09-11-92	Corn plants genetically engineered to express genes from a non-pathogenic source organism and tolerance to the herbicide glufosinate..	Hawaii.

Done in Washington DC, this 2nd day of October 1992.

Robert Melland,

Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 92-24486 Filed 10-7-92; 8:45 am]

BILLING CODE 3410-34-M

Forest Service

Southern Region; Exemption From Appeal of the Decision To Control Southern Pine Beetle in Upland Island Wilderness

AGENCY: Forest Service, USDA.

ACTION: Notice; exemption of decision from administrative appeal.

SUMMARY: Pursuant to 36 CFR 2.4(a)(11), the Regional Forester for the Southern Region has determined that good cause exists and notices is hereby given to exempt from administration appeal the decision to suppress southern pine beetle (SPB) infestations within Upland Island Wilderness, Angelina National Forest, Texas, during the current outbreak where they are threatening pine forests on adjacent private lands and potentially threatening a colony and foraging habitat of the red-cockaded woodpecker (RCW), a federally-listed endangered species.

EFFECTIVE DATE: October 8, 1992.

FOR FURTHER INFORMATION CONTACT: Wesley A. Nettleton, Group Leader, Entomology, Southern Region, Forest Service-USDA, 1720 Peachtree Road, NW., Atlanta, GA 30367 (404) 347-2961.

SUPPLEMENTARY INFORMATION: The Forestry Stewardship Act of 1990 authorizes the protection of federally-owned forest lands from insects and diseases. The 1964 Wilderness Act in section 4(d)(1), states; "In addition, such conditions as the Secretary deems desirable." The 1973 Endangered Species Act requires that the Forest Service must "seek to conserve endangered species." The USDI Fish and Wildlife Service (FWS) issued a biological opinion dated December 12, 1986, stating that failure to take action in wilderness to protect the RCW colonies from SPB is likely to jeodardize the continued existence of the species. The Forest Service followed the advice of the FWS. A Record of Decision (ROD) for the Final Environmental Impact Statement for the Suppression of the Southern Pine Beetle (SPB-FEIS) was signed on April 6, 1987. The alternative selected in the ROD protects RCW colonies within the wilderness and adjacent private forested land by permitting suppression of SPB spots within wilderness. However, stringent criteria were set for determining the need for any control action. In wilderness, SPB spots will normally be allowed to run their natural course until an essential RCW colony or its foraging habitat or adjacent forested-private land is threatened. Before any control action is taken a site-specific environmental analysis must be completed. It must

indicate that the spot: (1) Occurs within ¼ mile of susceptible host type on private land, or (2) is predicted to threaten an essential RCW colony site within the next 30 days. The analysis must also show a reasonable expectation of meeting the control objectives. Affected and interested publics will be informed about potential control-related activities.

One SPB spot has crossed the wilderness boundary this year and others are active within the wilderness and within ¼ mile of susceptible host pine forests on private commercial forests and forested residential areas. Due to the current major SPB outbreak within Upland Island Wilderness, an environmental analysis is currently underway on a proposed action to suppress the SPB infestations that are predicted to cross the wilderness boundary onto private lands where owners show evidence of actively managing their land to suppress SBP infestations, or are maintaining a high degree of forest health. It also proposes to protect the essential RCW colony #95–1 and its associated foraging habitat that occurs within Upland Island Wilderness. The analysis includes control methods identified in the selected alternative in the ROD for SPB–FEIS, and it also analyzes the use of behavioral chemicals that have been proven effective in local experimental work by the Texas Forest Service. The environmental document being prepared will disclose the effects of the proposed action on the environment, document public involvement, and address the issues raised by the public.

Given the existing rapid expansion of infestations, time for action is critical. Any additional delay could result in further loss to presently undamaged forest resources on adjacent private lands or an essential RCW colony site resulting in a violation of the Endangered Species Act.

Dated: October 2, 1992.

Robert J. Lentz,

Deputy Regional Forester.

BILLING CODE 3410–11–M

COMMISSION ON CIVIL RIGHTS

Agenda and Public Meeting of the New York State Advisory Committee

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the New York State Advisory Committee will be convened at 1:15 p.m. and adjourn at 4 p.m. on Friday, October 30, 1992, in Conference Room 317–A, Leo O'Brien Federal Building, North Pearl Street and Clinton Avenue, Albany, New York, 12207. The purposes of the meeting are to release the Committee's recently approved report, Minority Elderly Access to Health Care and Nursing Homes and complete details for a Statewide conference.

Persons desiring additional information, or planning a presentation to the Committee, should contact Setsuko M. Nishi (718/951–5324, 212/642–2401) or John I. Binkley, Director, ERO, at (202/523–5264) or TDD (202/376–8116). Hearing impaired persons who will attend the meeting and require the services of a sign language interpreter should contact the regional office at least five (5) working days before the scheduled date of the meeting.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, DC, October 2, 1992.

Carol-Lee Hurley,

Chief, Regional Programs Coordination Unit.

BILLING CODE 6335–01–M

DEPARTMENT OF COMMERCE

International Trade Administration

Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review

AGENCY: International Trade Administration/Import Administration Department of Commerce.

ACTION: Notice of opportunity to request administrative review of antidumping or countervailing duty order, finding, or suspended investigation.

BACKGROUND: Each year during the anniversary month of the publication of an antidumping or countervailing duty order, finding, or suspension of investigation, an interested party as defined in section 771(9) of the Tariff Act of 1930 may request, in accordance with § 353.22 of § 355.22 of the Commerce Regulations, that the Department of Commerce ("the Department") conduct an administrative review of that antidumping or countervailing duty order, finding, or suspended investigation.

OPPORTUNITY TO REQUEST A REVIEW: Not later than October 31, 1992, interested parties may request administrative review of the following orders, findings, or suspended investigations, with anniversary dates in October for the following periods:

Antidumping duty proceedings	Period
Italy:	
Pressure Sensitive Plastic Tape. (A–475–059)	10/01/91–09/30/92
Steel Wire Rope. (A–588–045)	10/01/91–09/30/92
Tapered Roller Bearings, 4 Inches or Less in Outside Diameter and Certain Components Thereof. (A–588–054)	10/01/91–09/30/92
Tapered Roller Bearings, and Parts Thereof, Finished and Unfinished, Over 4 Inches. (A–588–604)	10/01/91–09/30/92
The People's Republic of China:	
Barium Chloride. (A–570–007)	10/01/91–09/30/92
Shop Towels of Cotton. (A–570–003)	10/01/91–09/30/92
Yugoslavia:	
Industrial Nitrocellulose. (A–479–801)	10/01/91–09/30/92
Countervailing Duty Proceedings	
Argentina:	
Leather. (C–357–803)	01/01/91–12/31/91
Brazil:	
Certain Agricultural Tillage Tools. (C–351–406)	01/01/91–12/31/91
India:	
Certain Iron-Metal Castings. (C–533–063)	01/01/91–12/31/91
Iran:	
Roasted In-Shell Pistachios. (C–507–601)	01/01/91–12/31/91
New Zealand:	
Certain Steel Wire Nails. (C–614–701)	01/01/91–12/31/91

Antidumping duty proceedings	Period
Sweden:	
Certain Carbon Steel Products. (C–401–401)	01/01/91–12/31/91
Thailand:	
Certain Steel Wire Nails. (C–549–701)	01/01/91–12/31/91

In accordance with §§ 353.22(a) and 355.22(a) of the Commerce regulations, an interested party may request in writing that the Secretary conduct an administrative review of specified individual producers or resellers covered by an order, if the requesting person states why the person desires the Secretary to review those particular producers or resellers. If the interested party intends for the Secretary to review sales of merchandise by a reseller (or a producer if that producer also resells merchandise from other suppliers) which was produced in more than one country of origin, and each country of origin is subject to a separate order, then the interested party must state specifically which resellers(s) and which countries of origin for each reseller the request is intended to cover.

Seven copies of the request should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, room B–099, U.S. Department of Commerce, Washington DC 20230. Further, in accordance with § 353.31 or § 355.31 of the Commerce Regulations, a copy of each request must be served on every party on the Department's service list.

The Department will publish in the Federal Register a notice of "Initiation of Antidumping (Countervailing) Duty Administrative Review", for requests received by October 31, 1992.

If the Department does not receive, by October 31, 1992, a request for review of entries covered by an order or finding listed in this notice and for the period identified above, the Department will instruct the Customs Service to assess antidumping or countervailing duties on those entries at a rate equal to the cash deposit of (or bond for) estimated antidumping or countervailing duties required on those entries at the time of entry, or withdrawal from warehouse, for consumption and to continue to collect the cash deposit previously ordered.

This notice is not required by statute, but is published as a service to the international trading community.

Dated: October 1, 1992.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

[FR Doc. 92–24557 Filed 10–7–92; 8:45 am]

BILLING CODE 3510–DS–M

[A–588–702]

Certain Stainless Steel Butt-Weld Pipe and Tube Fittings From Japan; Final Results of Antidumping Duty Administrative Review

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administration review.

SUMMARY: On May 8, 1992, the Department of Commerce published in the **Federal Register** the preliminary results of its 1990–91 administrative review of the antidumping order on certain stainless steel butt-weld pipe and tube fittings (SSPFs) from Japan. The review covers one manufacturer/exporter of this merchandise to the United States, Benkan Corporation (Benkan), and the period from March 1, 1990 through February 28, 1991.

The Department gave interested parties an opportunity to comment on the preliminary results. Based on our analysis of comments received, the dumping margins have not changed from the preliminary results of review. However, we note that the rate published in the preliminary results of review should have been 5.37 percent, not 5.30 percent and that the 5.37 percent rate was disclosed to interested parties. The difference in the rates is attributable to numeric rounding.

EFFECTIVE DATE: October 8, 1992.

FOR FURTHER INFORMATION CONTACT: Bruce Harsh or Linda L. Pasden, Office of Agreements Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482–3793.

SUPPLEMENTARY INFORMATION:

Background

On May 8, 1992, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on certain stainless steel butt-weld pipe and tube fittings (SSPFs) from Japan in the **Federal Register** (57 FR 19882). This review covers shipments made by Benkan during the period from March 1, 1990 through February 28, 1991. Verification was conducted at Benkan in Japan the week of November 4, 1991. The Department has now completed this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Review

The products covered by this review are certain stainless steel butt-weld pipe and tube fittings. These fittings are used in piping systems for chemical plants, pharmaceutical plants, food processing facilities, waste treatment facilities, semiconductor equipment applications, nuclear power plants, and other areas. This merchandise is currently classifiable under the Harmonized Tariff Schedules (HTS) item 7307.23.0000. The HTS item number is provided for convenience and U.S. Customs purposes. The written product description remains dispositive.

Analysis of Comments Received

We gave interested parties an opportunity to comment on the preliminary results of this review. We received timely written comments from Benkan, the respondent. Flowline, the petitioner, provided timely rebuttal statements to Benkan's comments.

Comment 1: Benkan takes issue with the Department's exclusion of a certain related distributor's sales. Benkan notes that the reason stated by the Department in the preliminary results for the exclusion of these sales is that the Department was not satisfied that the price was comparable to the price at which Benkan sold such or similar merchandise to unrelated parties. However, the respondent claims that its sales were at arm's length because the prices to its related distributor were "comparable" to those charged to unrelated customers, and were even higher for a substantial number of product groups.

Benkan further claims that the Department's exclusion of the sales to the related distributor is clearly contradicted by the factual evidence on the record. Moreover, Benkan asserts that none of the facts relating to Benkan's sales to the related distributor have changed from the previous proceedings. Benkan notes that the Department examined home market

sales of conventional fittings in the original investigation and in two previous reviews, and verified data in two of the previous proceedings, and was satisfied that Benkan's sales to the related distributor were at arm's length.

Benkan argues that the Department's statements made in the disclosure conference on June 1, 1992, and the explanation provided in the preliminary results, regarding the exclusion of sales to the related distributor in question were inconsistent. Benkan notes that while the preliminary results emphasize price terms, the verification report emphasizes differences in sales contracts. Benkan points out that, assuming arguendo that the exclusion of the sales occurred because there were differences in the sales contracts rather than differences in prices, its contract with this particular distributor does not, on its face, reveal any terms that are "special" or "different" from other sales contracts. In addition, since the Department elected not to include any contracts that were "different" in the verification exhibits, or substantiate the differences between the contracts, it is unfair to ask Benkan to prove the negative. Benkan urges the Department to specifically state its reasons if the Department decides to exclude this related distributor's sales.

Petitioner holds that the statute and regulations both support the Department's position as stated in the preliminary results to exclude related party transactions. Flowline asserts that the burden of proof is on Benkan to satisfy the Department that the sales to a related party are at arm's length. Moreover, Benkan did not provide any new information that might overcome the regulatory presumption to exclude such sales.

Department's Position: We disagree with Benkan, and have continued to disregard these sales in the calculation of foreign market value (FMV) for the final results of this administrative review. Based on the sales contracts and other documents the Department examined at verification, we believe that sales made to this related distributor were not arm's length.

We found that, unlike the other distributors, this related distributor received a mark-up or commission. According to Benkan, the mark-up or commission was given to secure Benkan's relationship with this distributor; the amount varied depending upon the complexity of the sale (memorandum to the file, dated June 8, 1992). However, we do not have information on the record concerning the specific mark-up by transaction. We also found, at verification, that the prices reported in the questionnaire response were not the prices to this related distributor but were net of the mark-up or commission paid (Verification Exhibit BC–5). Since Benkan did not report the actual price paid, we could not, as suggested by Benkan, conduct a price-to-price comparison to determine whether these prices are arm's length (section 353.45(a) of the Commerce regulations). thus, as best information available, the Department concluded that the prices were not arm's length and could not be relied upon for price comparisons. (See 19 CFR 353.38).

Whether or not these prices are arm's length was not an issue in the original investigation or in previous reviews. This is the first time that the issue arose as a result of our verification. The Department must consider the evidence on the road of each review in making factual determinations such as this.

Comment 2: Benkan argues that the Department unreasonably rejected its difference-in-merchandise (DIFMER) adjustment calculation, which used an average per-ton, steel-pipe cost. Benkan points out that Commerce stated that no adjustments were made for the differences in merchandise because, at verification, the Department determined that Benkan improperly calculated the material costs by aggregating costs of different schedules of pipe.

Benkan asserts that the Department's position in this review is a sudden change from the methodology used in prior reviews and that Benkan has never been required to provide steel pipe costs by schedule (i.e., pipe thickness) or by pipe size, in this or any prior proceeding. The respondent argues that because the Department has consistently accepted Benkan's DIFMER methodology in the three prior proceedings and never requested any modification of its steel pipe cost data in this review, the Department is acting in an unfair manner. The respondent notes a decision made by the Court of International Trade (CIT) in *Shikoku Chemicals Corp., et. al.* v. *United States*, Slip Op. 92–74 (May 18, 1992) that rejects a sudden change in methodology where the Department had consistently used another methodology in several prior reviews and in the original investigation. The Court noted the Department's consistent application of another methodology in several proceedings and found that, given the unique facts of the case, the respondents had "a right to rely on Commerce's consistent approach extending over the original fair value investigation and four annual reviews."

Benkan also notes that the CIT has held that the Department erred in rejecting claimed adjustments on the grounds of insufficient information, citing *Floral Trade Council of Davis, Cal* v. *United States*, 775 Fed Supp. 1492 (CIT 1991). In that case, the CIT reversed Commerce's decision to reject calculation adjustments from certain respondents since they had failed to provide sufficient information to the Department concerning the requested adjustments.

Respondent also claims that the Department's methodology for selecting home market comparisons, comparing "always" the heavier schedule pipe fittings, necessitates the granting of the DIFMER adjustment in order to offset a "systematic bias" against Benkan.

Benkan notes that the record fails to provide any insight as to why the Department considered it imperative that the respondent calculate steel pipe by schedule rather than by pipe size or by supplier. At verification, the Department never attempted to test the validity of its assumption against other price-affecting factors in steel products.

The petitioner argues that the Department's denial of the DIFMER adjustment was appropriate and necessary. Petitioner notes that Benkan's physical DIFMER adjustment did not directly account for cost differences tied to wall schedule differences which had been described in Benkan's response dated July 3, 1991; they merely accounted for average cost differences based on weight. In addition, the verification report notes that Benkan could have accounted for costs attributable to pipe schedule differences.

The petitioner asserts that Benkan is being disingenuous to argue that it "has never objected * * * and the Department has never required Benkan to provide steel costs by 'schedule.' " Petitioner points out that this is the first time that the description of Benkan's DIFMER adjustment is correctly understood, even though it had been reviewed previously.

Petitioner further argues that the Department is not being "systematically biased" against Benkan in the use of best information available regarding the product comparisons.

Department's Position: Based on information obtained at verification, we determined that Benkan's DIFMER allocation methodology is not reasonable because it did not properly allocate the actual costs associated with the physical attributes of the SSPFs.

In the questionnaire response Benkan claimed that the model match must be based on the significant physical attributes of the SSPF Accordingly,

Benkan established a 6-digit code which denotes the physical appearance (i.e., shape or type of fitting), material grade, size (outside diameter), wall thickness and component material (i.e., seamless or welded pipe) (para. 4, p. 18). Using the 6-digit code, Benkan determined the identical or the most similar home market matches and reported them in the Merchandise Concordance List (Exhibit 13). Where similar matches were found, Benkan provided the material costs for the U.S. product and the most similar home market product.

Only through verification did we learn that Benkan's material costs were reported as averages of several different schedules of pipe in various sizes, and wall thicknesses, and that these averages were multiplied by the weight of the pipe to derive the reported DIFMERs. Moreover, we found that this allocation method was used for reporting purposes only and did not reflect how Benkan tracks the cost of the raw material pipe in its accounting records. Specifically, we found that Benkan tracks these costs by grade, size, schedule, etc. (verification Exhibits F–1 and F–4).

Since the size and wall thickness of the pipe are physical attributes used in the model matching process, and they are significant factors in the cost of the pipe, we determined that the use of overall average costs is inappropriate and is not reflective of the cost of physical differences. Our determination is further supported by the fact that the price of the raw material pipe varied by as much as 11 percent.

Benkan's assertion that the Department's position to not allow a DIFMER adjustment, particularly under these circumstances of the review, was "systematically biased" against it and ensured dumping margins is not true. The Department gave Benkan an opportunity to provide specific, alternative model matches for any comparison it did not agree with in the preliminary results. Since Benkan did not provide any alternative model matches and the company did not question the Department's selection of comparison models as not being such or similar, the Department continued to use the same models.

Moreover, Benkan's assertion that the Department should further test the validity of its assumption against "other steel-price-affecting factors" goes far beyond the purpose of verification, which is to determine the accuracy and completeness of the response. In this instance, the Department determined that Benkan's DIFMER calculations did not adequately reflect the costs of the physical differences.

We agree with Benkan's assertion that the Department should strive for consistency in its methodology. However, the DIFMER allocation was not an issue which had been focused upon by either the Department or the parties in the original investigation or in previous reviews. As a result, Benkan's claim that it relied on the Department's decision in prior reviews is without merit and Benkan cannot be said to rely on any affirmative actions by the Department with respect to its method of reporting raw material costs.

Although Benkan raises the *Shikoku* case to argue its point, that case is not final at this date. The case at hand is further distinguished from the *Shikoku* case by the fact that Benkan does not have four consecutive annual reviews with no dumping margins; in *Shikoku*, the Court emphasized that it was only the change in methodology that prevented *Shikoku* from obtaining a revocation. *Id.* Indeed, Benkan has never received a zero rate. Finally, the reporting error in this review is much more significant than the "insignificant' error in the *Shikoku* case.

Final Results of Review

After analysis of the comments received, we determined that a margin of 5.37 percent exists for Benkan for the period March 1, 1990 through February 28, 1991.

The Department shall determine, and the U.S. Customs Service shall assess, antidumping duties on entries of the subject merchandise covered by this review. The Department will issue appraisement instructions directly to the U.S. Customs Service.

Furthermore, the following deposit requirements will remain in effect until publication of the final results of the next administrative review for all shipments of the subject merchandise, entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice, as provided by section 751(a)(1) of the Act: (1) The cash deposit rate will be 5.37 percent for Benkan; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will be 5.37 percent. This rate represents the highest rate for any firm with shipments in the most recent administrative review, other than those firms receiving a rate based entirely on best information available.

These deposit requirements, when imposed, will remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

In addition, this notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 353.35(d). Failure to comply is a violation of the APO.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and § 353.22 of the Commerce Department's regulations (19 CFR 353.22).

Dated: October 1, 1992.

Rolf Th. Lundberg,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

National Oceanic and Atmospheric Administration

Florida Keys National Marine Sanctuary Advisory Council Meeting

AGENCY: Sanctuaries and Reserves Division (SRD), Office of Ocean and Coastal Resource Management (OCRM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Florida Keys National Marine Sanctuary Advisory Council; Notice of open meeting.

SUMMARY: The Council was established in December 1991 to advise and assist the Secretary of Commerce in the development and implementation of the comprehensive management plan for the Florida Keys National Marine Sanctuary.

Time and place: October 23, 1992 from 9:00 a.m. until adjournment. The meeting

location will be at the Buccaneer Resort, Mile Marker 48.5, Route 1, Marathon, Florida.

Agenda

1. Presentations related to zoning
2. Discussion of management alternatives

Public Participation

The meeting will be open to public participation and the last thirty minutes will be set aside for oral comments and questions. Seats will be set aside for the public and the media. Seats will be available on a first-come first-served basis.

FOR FURTHER INFORMATION CONTACT: Pamala James at (305) 743-2437 or Ben Haskell at (202) 606-4016.

Dated October 6, 1992.

Frank W. Maloney,

Deputy Assistant Administrator for Ocean Services and Coastal Zone Management.

(Federal Domestic Assistance Catalog Number 11.429, Marine Sanctuary Program)

[FR Doc. 92-24663 Filed 10-7-92; 8:45 am]

BILLING CODE 3510-08-M

Marine Mammals; Permits

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Issuance of modification to Permit No. 738 (P77#51).

Notice is hereby given that pursuant to the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), § 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act (16 U.S.C. 1531-1543) and the regulations governing endangered fish and wildlife (50 CFR parts 217-222), and the Conditions hereinafter set out, Scientific Research Permit No. 729, issued to the Southeast Fisheries Science Center, National Marine Fisheries Service, P.O. Box 271, La Jolla, CA 92038, on May 16, 1991 (56 FR 23684), has been modified to add aerial surveys and an increased number of takes of those species previously authorized, in order to include all cetaceans which may be sighted during the course of conducting aerial surveys.

This modification also grants authority for the addition of the following species to the list of cetaceans which may be sighted during the surveys, over the remaining three-and-one-half-year period that the permit is valid: up to 2500 right whale (*Eubalaena glacialis*); 250 blue whale (*Balaenoptera musculus*); 2500 fin whale (*B. physalus*); 1250 Sei whale (*B. borealis*); 2500 Bryde's whale (*B. edeni*); 2500 minke whale (*B. acutorostrata*); 2500 humpback whale (*Megaptera novaeangliae*); 2500 sperm whale (*Physeter macrocephalus*); 2500 beaked whale, including Cuvier's beaked whale (*Ziphius cavirostris*), Blainville's beaked whale (*Mesoplodon densirostris*), Sowerby's beaked whale (*M. bidens*), and Gervais' beaked whale (*M. europaeus*).

Issuance of this Permit as required by the Endangered Species Act of 1973 was based on a finding that such Permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which is the subject of this Permit; (3) is consistent with the purposes and policies set forth in section 2 of the Endangered Species Act of 1973. This Permit was also issued in accordance with and is subject to parts 220-222 of title 50 CFR, the National Marine Fisheries Service regulations governing endangered species permits.

This Modification became effective upon signature.

The Permit and Modification documentation are available for review in the following offices by appointment:

Permit Division, Office of Protected Resources, National Marine Fisheries Service, NOAA, 1335 East-West Hwy., Silver Spring, MD 20910 (301/713-2289); and Director, Southeast Region, National Marine Fisheries Services, 9450 Koger Blvd., St. Petersburg, FL 33702 (813/893-3141).

Dated: October 1, 1992.

Nancy Foster,

Office of Protected Resources.

[FR Doc. 92-24670 Filed 10-7-92; 8:45 am]

BILLING CODE 3510-22-M

Marine Mammals; Permits

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Request for modification of permit No. (P77 #56).

Notice is hereby given that the National Marine Mammal Laboratory, Alaska Fisheries Science Center, Northwest Region, 7600 Sand Point Way, NE. BIN C15700—Building 1, Seattle, WA 98115-0070, requested a modification to Permit No. 754, issued on November 14, 1991 (56 FR 60988), as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407) and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 754 currently authorizes the researcher to: (1) Capture, tag, handle and release up to three times per year and to capture, instrument, tag, handle and release up to five times per year, 200 crabeater seals (*Lobodon carcinophagus*), 200 leopard seals (*Hydrurga leptonyx*), 200 weddell seals (*Leptonychotes weddelli*), 100 Ross seals *Ommatophoca rossi*), 200 southern elephant seals (*Mirounga leonina*) and 1100 Antarctic fur seals (*Arctocephalus gazella*); (2) incidentally harass up to 3,000 southern elephant seals, 40,000 Antarctic fur seals and 500 each crabeater, leopard, Weddell, and Ross seals during activities associated with the types of take specified above and with surveys for abundance and distribution of pinnipeds and seabirds; (3) import into the United States all biological specimens taken from the species listed above (e.g., blood samples, vaginal smears) or obtained from dead seals (e.g., skeletal material); and (4) import biological specimens from the pinniped species described above provided by collaborating investigators in Argentina, Australia, Brazil, Canada, Chile, Finland, France, Germany, India, Italy, Japan, New Zealand, Norway, Poland, South Africa, South Korea, Spain, Sweden, United Kingdom, and the USSR.

The applicant now requests authorization to capture, tag, handle and release Antarctic fur seals up to six times per year in order to monitor pup growth over the breeding season for the four-year period that the Permit remains valid.

Concurrent with the publication of this notice in the **Federal Register**, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee on Scientific Advisors.

Written data or views, or requests for a public hearing on this modification request should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, U.S. Department of Commerce, 1335 East-West Hwy., room 7324, Silver Spring, MD 20910, within 30 days of the publication of this notice. These individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries. All statements and opinions contained in this modification request are summaries of those for the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review by interested persons in the following offices by appointment:

Office of Protected Resources, National Marine Fisheries Service, 1335

East-West Hwy., Suite 7324, Silver Spring, MD 20910 (301/713–2289); and

Northwest Region, National Marine Fisheries Service, NOAA, 7600 Sand Point Way, NE., BIN C15700—Building 1, Seattle, WA 98115–0070 (206/526–6150).

Dated: September 29, 1992.

Charles Karnella,

Deputy Director, Office of Protected Resources.

BILLING CODE 3510–22–M

Patent and Trademark Office

Performance Review Board; Membership

AGENCY: Patent and Trademark Office, Department of Commerce.

ACTION: Announcement of membership of the Patent and Trademark Office Performance Review Board.

SUMMARY: In conformance with the Civil Service Reform Act of 1978, 5 U.S.C. 4314(c)(4), the Patent and Trademark Office announces the appointment of persons to serve as members of its Performance Review Board.

This notice announces the appointment of Deputy Assistant Secretary for Resource Management, Bureau of Diplomatic Security, the United States Department of State, Kathleen J. Charles as the "outside" member of the Performance Review Board to replace the Assistant Director, Office of Executive Development, Human Resources Development Group, Office of Personnel Management, Dr. Michael G. Hansen.

ADDRESS: Comments should be addressed to Personnel Officer, Patent and Trademark Office, Office of Personnel, One Crystal Park, suite 700, Washington, DC 20231.

FOR FURTHER INFORMATION CONTACT: Colleen Woodard at the above address on (703) 305–8062.

SUPPLEMENTARY INFORMATION: The new membership of the Patent and Trademark Office Performance Review Board is as follows:

Bradford R. Huther, Chairman, Assistant Commissioner for Finance and Planning, Patent and Trademark Office, Washington, DC 20231. Term—permanent.

Edward R. Kubasiewicz, Member, Counselor to the Assistant Secretary and Commissioner of Patents and Trademarks, Patent and Trademark Office, Washington, DC 20231. Term—permanent.

Jeffrey M. Samuels, Member, Assistant Commissioner for Trademarks, Patent and Trademark Office, Washington, DC 20231. Term—permanent.

Theresa A. Brelsford, Member, Assistant Commissioner for Public Services and Administration, Patent and Trademark Office, Washington, DC 20231. Term—permanent.

Thomas P. Giammo, Member, Assistant Commissioner for Information Systems, Patent and Trademark Office, Washington, DC 20231. Term—permanent.

John F. Terapane, Jr., Member, Director, Patent Examining Group 120, Patent and Trademark Office, Washington, DC 20231. Term—expires September 30, 1994.

J. David Sams, Member, Chairman, Trademark Trial and Appeal Board, Patent and Trademark Office, Washington, DC 20231. Term—expires September 30, 1994.

Kathleen J. Charles (Outside) Member, Deputy Assistant Secretary for Resource Management, Bureau of Diplomatic Security, U.S. Department of State, Washington, DC 20520. Term—expires September 30, 1994.

Dated: September 29, 1992.

Douglas B. Comer,

Acting Assistant Secretary and Acting Commissioner of Patents and Trademarks.

COMMISSION OF FINE ARTS

Commission of Fine Arts; Meeting

The Commission of Fine Arts' next meeting is scheduled for 29 October 1992 at 10:00 a.m. in the Commission's offices in the Pension building, suite 312, Judiciary Square, 441 F Street, NW., Washington, DC 20001 to discuss various projects affecting the appearance of Washington, DC, including buildings, memorials, parks, etc.; also matters of design referred by other agencies of the government.

Inquiries regarding the agenda and requests to submit written or oral statements should be addressed to Charles H. Atherton, Secretary, Commission of Fine Arts, at the above address or call the above number.

Dated in Washington, DC, 30 September 1992.

Charles H. Atherton,

Secretary.

BILLING CODE 6330–01–M

DEPARTMENT OF DEFENSE

Office of the Secretary

Establishment of the Department of Defense (DoD)-Department of Energy (DOE) System Safety Red Team Advisory Committee

ACTION: Notice.

SUMMARY: Under the provisions of Public Law 92–463, the "Federal Advisory Committee Act," notice is hereby given that the DoD-DOE System Safety Red Team Advisory Committee is being established.

The DoD-DOE System Safety Red Team Advisory Committee will advise the Secretary of Defense, Secretary of Energy and the Assistant to the Secretary of Defense (Atomic Energy) on matters relating to the evaluation of safety and precautionary measures applicable to nuclear weapons systems. The committee will: perform technical evaluations of nuclear weapon system design and procedures, as they relate to the prevention of inadvertent nuclear detonation or plutonium dispersal; and, review the nuclear system of safety of warhead and weapon subsystems design in all credible environments, as well as the documentation related to such systems.

Careful efforts will be made to ensure that the membership of the Committee will be diverse and well-balanced in terms of the functions to be performed and the interest groups represented. Members will be drawn from among appropriate officials of the DoD and DOE, as well as several national research laboratories.

For additional information regarding the DoD-DOE System Safety Red Team Advisory Committee, please contact Stanley Keel, telephone: 703–695–7936.

Dated: October 2, 1992.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 92–24373 Filed 10–7–92; 8:45 am]

BILLING CODE 3810–01–M

Renewal of Five Statutory Boards of the Department of Defense

ACTION: Notice.

SUMMARY: Under the provisions of Public Law 92–463, the "Federal Advisory Committee Act," notice is hereby given that the following statutorily mandated advisory boards of the Department of Defense have been renewed, effective October 1, 1992: The U.S. Military Academy Board of Visitors, the U.S. Naval Academy Board

of Visitors, the U.S. Air Force Academy Board of Visitors, the National Board for the Promotion of Rifle Practice, and the U.S. Army Coastal Engineering Research Board.

The membership of these Advisory Boards is determined primarily by the respective statutes governing their establishment and composition. In those instances where latitude is given, the membership will continue to be diverse and well-balanced in terms of the functions to be performed and the interest groups represented.

For additional information regarding these statutory advisory boards, contact Mr. Hank Gioia, 703-695-4281.

Dated: October 2, 1992.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 92-24372 Filed 10-7-92; 8:45 am]

BILLING CODE 3810-01-M

Department of the Army

Department of the Army Historical Advisory Committee; Meeting

1. In accordance with section 10(A)(2) of the Federal Advisory Committee Act (Pub. L. 92-463) announcement is made of the following committee meeting:

Name of Committee: Department of the Army Historical Advisory Committee.

Date: 24 October 1992.

Place: U.S. Army Center of Military History, 2d Floor, Franklin Court Building, 1099 14th Street, NW., Washington, DC 20005-3402.

Time: 24 October—0900-1500 hours.

Proposed Agenda: Review and discussion of the status of historical activities in the U.S. Army.

Purpose of meeting: The committee will review the Army's historical activities for FY 92 based on reports and manuscripts received throughout the period and formulate recommendations through the Chief of Military History to the Chief of Staff, U.S. Army, and the Secretary of the Army for advancing history in the U.S. Army.

2. Meetings of the Advisory Committee are open to the public. Due to space limitations, attendance may be limited to those persons who have notified the Advisory Committee Management Office in writing, at least five days prior to the meeting of their intention to attend the 24 October meeting.

3. Any members of the public may file a written statement with the Committee, before, during or after the meeting. To the extent that time permits the Commission Chairman may allow public presentations of oral statements at the meeting.

4. All communications regarding this Advisory Committee should be addressed to Dr. Jeffrey J. Clarke, U.S. Army Center of Military History, Washington, DC 20005-3402.

Dated: October 1, 1992.

Jeffrey J. Clarke,

Chief Historian.

BILLING CODE 3710-08-M

Army Science Board; Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Committee Meeting:

Name of the Committee: Army Science Board (ASB).

Dates of the Meetings: October 23, 1992.

Time: 1500-1600 hour.

Place: Pentagon, Washington, DC.

Agenda: The Army Science Board (ASB) Ad Hoc Subgroup reviewing the U.S. Army Materiel Command (AMC), Research, Development and Engineering Centers (RDECs), will brief Army leadership on the study results. This meeting will be closed to the public in accordance with section 552b(c) of title 5, U.S.C., specifically subparagraph (2) and (9) thereof, and Title 5, U.S.C. appendix 2, subsection 10(d). The matters to be discussed will relate solely to the internal personnel rules and practices of the Army, and would disclose information the premature disclose of which would be likely to significantly frustrate implementation of a proposed agency action thereby precluding opening any portion of the meeting. The ASB Administrative Office, Sally Warner, may be contacted for further information at (703) 695-0781.

Sally A. Warner,

Administrative Officer, Army Science Board.

Army Science Board; Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Committee Meeting:

Name of the Committee: Army Science Board (ASB).

Dates of the Meetings: October 27, 1992.

Time: 1030-1115 hours.

Place: Pentagon.

Agenda: The Army Science Board's Systems Issue Group will meet with government and contractor representatives to discuss results of the test firings at Yuma Proving Grounds, review pressure oscillation analysis and discuss the latest design of the Regenerative Liquid Propellant Gun. This meeting will be closed to the public in accordance with section 552b(c) of title 5, U.S.C., specifically subparagraphs (1) and (4) thereof, and title 5, U.S.C., appendix 2, subsection 10(d). The classified and unclassified matters and proprietary information to be discussed is so inextricably intertwined so as to preclude opening any portion of the meeting. The ASB Administrative Officer, Sally Warner, may be contacted for further information at (703) 695-0781.

BILLING CODE 3810-AE-F

DEPARTMENT OF EDUCATION

National Assessment Governing Board; Public Forum

AGENCY: National Assessment Governing Board; Education.

ACTION: Notice of meeting.

SUMMARY: The National Assessment Governing Board is announcing the opportunity for commentary and review of the achievement levels being considered for the 1992 writing assessment of the National Assessment of Educational Progress (NAEP). The Board, in accordance with its statutory responsibility to identify "appropriate achievement levels for each grade and subject to be tested under the National Assessment" has contracted with American College Testing, which convened a panel of writing experts to recommend writing achievement levels for grades 4, 8, and 12 to be used in reporting the 1992 NAEP. The Board intends to take final action on these recommendations at its regularly scheduled quarterly meeting on November 20, 1992. This document is intended to notify interested individuals

and organizations of their opportunity to present oral and/or written views to the Board.

DATES: November 9, 1992, and November 12, 1992.

TIME: 10 a.m. to 3 p.m.

PLACE: November 9, 1992—The Madison Hotel, 15th and M Streets, NW., Washington, DC; November 12, 1992—The Fairmont Hotel, 1717 North Akard Street, Dallas, Texas.

FOR FURTHER INFORMATION CONTACT: Mel Webb, NAEP Project Director, American College Testing, 2201 North Dodge Street, Iowa City, Iowa 52243. Telephone: 319–337–1472; or Mary Lyn Bourque, Assistant Director for Psychometrics, National Assessment Governing Board, 800 North Capitol Street, suite 825, Washington, DC 20002–4233. Telephone: 202–357–6940.

SUPPLEMENTARY INFORMATION: The National Assessment Governing Board is established under section 406(i) of the General Educational Provisions Act (GEPA) as amended by section 4303 of the National Assessment of Educational Progress Improvement Act (NAEP Improvement Act), title III–C of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (Pub. L. 100–297) (20 U.S.C. 1221e–1).

The Board is established to formulate policy guidelines and to advise the Commissioner of the National Center for Education Statistics on policies and actions needed to improve the form and use of the National Assessment of Educational Progress, and develop specifications for the design, methodology, analysis, and reporting of test results. The Board also is responsible for selecting subject areas to be assessed, identifying the objectives for each age and grade tested, and establishing standards and procedures for interstate and national comparisons. The National Assessment Governing Board will hold a public forum in Washington, DC on Monday, November 9, 1992, and a public forum in Dallas, Texas on Wednesday, November 12, 1992, to hear comments on proposed definitions of writing achievement levels for grades 4, 8, and 12 to be used in reporting the National Assessment of Educational Progress. The proposed achievement levels were prepared by the expert writing panel in accordance with the NAGB policy document "Setting Appropriate Achievement Levels for the National Assessment of Educational Progress," dated May 11, 1990, and a design developed by American College Testing and approved by the Board on January 16, 1992. The proposals include detailed descriptions of the subject-matter knowledge and skills proposed for each level.

These proposals are scheduled to be presented to the Board during its quarterly meeting in Fort Lauderdale, Florida on November 20 and 21, 1992. The text of these proposals and a description of the achievement levels-setting process may be obtained by contacting the ACT office at the address or telephone number above by 3 p.m. on November 2, 1992. However, every effort will be made to receive testimony from all persons attending the forum who wish to make a presentation. Written statements should be submitted at the forum or to the ACT office by 5 p.m. on November 12, 1992. The Board plans to analyze all comments received in response to this announcement. The results of the public comments will be used by the Board in conjunction with other information to fulfill its statutory requirement to establish achievement levels on the National Assessment.

Records are kept of all Board proceedings, and are available to public inspection at the National Assessment Governing Board, 800 North Capital Street, Suite 825, Washington, DC, from 8:30 a.m. to 5 p.m., Monday through Friday.

Dated: October 3, 1992.

Roy Truby,

Executive Director, National Assessment Governing Board.

BILLING CODE 4000–01–M

National Assessment Governing Board; Public Forum

AGENCY: National Assessment Governing Board; Education.

ACTION: Notice of meeting.

SUMMARY: The National Assessment Governing Board is announcing the opportunity for commentary and review of the achievement levels being considered for the 1992 reading assessment of the National Assessment of Educational Progress (NAEP). The Board, in accordance with its statutory responsibility to identify "appropriate achievement levels for each grade and subject to be tested under the National Assessment" has contracted with American College Testing, which convened a panel of reading experts to recommend reading achievement levels for grades 4, 8, and 12 to be used in reporting the 1992 NAEP. The Board intends to take final action on these recommendations at its regularly scheduled quarterly meeting on November 20, 1992. This document is intended to notify interested individuals and organizations of their opportunity to present oral and/or written views to the Board.

DATES: October 19, 1992, and October 22, 1992.

TIME: 10 a.m. to 3 p.m.

PLACE: October 19, 1992—The Madison Hotel, 15th and M Streets, NW., Washington, DC; October 22, 1992—Hyatt Regency Hotel, 711 South Hope Street, Los Angeles, California.

FOR FURTHER INFORMATION CONTACT: Mel Webb, NAEP Project Director, American College Testing, 2201 North Dodge Street, Iowa City, Iowa, 52243. Telephone: 319–337–1472; or, Mary Lyn Bourque, Assistant Director for Psychometrics, National Assessment Governing Board, 800 North Capitol Street, Suite 825, Washington, DC, 20002–4233. Telephone: 202–357–6940.

SUPPLEMENTARY INFORMATION: The National Assessment Governing Board is established under section 406(i) of the General Education Provisions Act (GEPA) as amended by section 4303 of the National Assessment of Educational Progress Improvement Act (NAEP Improvement Act), title III–C of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (Pub. L. 100–297), (20 U.S.C. 1221e–1).

The Board is established to formulate policy guidelines and to advise the Commissioner of the National Center for Education Statistics on policies and actions needed to improve the form and use of the National Assessment of Educational Progress, and develop specifications for the design, methodology, analysis, and reporting of test results. The Board also is responsible for selecting subject areas to be assessed, identifying the objectives for each age and grade tested, and establishing standards and procedures for interstate and national comparisons. The National Assessment Governing Board will hold a public forum in Washington, DC on Monday, October 19, 1992, and a public forum in Los Angeles, California on Thursday, October 22, 1992, to hear comments on proposed definitions of reading achievement levels for grades 4, 8, and 12 to be used in reporting the National Assessment of Educational Progress. The proposed achievement levels were prepared by the expert reading panel in accordance with the NAGB policy document "Setting Appropriate Achievement Levels for the National Assessment of Educational Progress," dated May 11, 1990, and a design developed by American College Testing and approved by the Board on January

16, 1992. The proposals include detailed descriptions of the subject-matter knowledge and skills proposed for each level.

These proposals are scheduled to be presented to the Board during its quarterly meeting in Fort Lauderdale, Florida on November 20 and 21, 1992. The text of these proposals and a description of the achievement levels-setting process may be obtained by contacting the ACT office at the address or telephone number above by 3 p.m. on October 14, 1992. However, every effort will be made to receive testimony from all persons attending the forum who wish to make a presentation. Written statements should be submitted at the forum or to the ACT office by 5 p.m. on October 22, 1992. The Board plans to analyze all comments received in response to this announcement. The results of the public comments will be used by the Board in conjunction with other information to fulfill its statutory requirement to establish achievement levels on the National Assessment.

Records are kept of all Board proceedings, and are available to public inspection at the National Assessment Governing Board, 800 North Capitol Street, Suite 825, Washington, DC, from 8:30 a.m. to 5 p.m., Monday through Friday.

Dated: October 3, 1992.

Roy Truby,

Executive Director, National Assessment Governing Board.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Transmittal of Mined Geologic Disposal System (MGDS) Annotated Outline for the Preparation of a License Application, Revision 1, to U.S. Nuclear Regulatory Commission (NRC)

AGENCY: Department of Energy.

ACTION: Notice.

SUMMARY: The Department of Energy (DOE) transmitted the Mined Geologic Disposal System (MGDS) Annotated Outline for the Preparation of a License Application, Revision 1, dated September 30, 1992, to the NRC for information and guidance on September 29, 1992. The annotated outline process is the basis for developing a license application, if any, for the MGDS program. The annotated outline process is iterative, with revisions to be developed in consultation with the NRC.

FOR FURTHER INFORMATION CONTACT: For further information and to obtain a copy of the annotated outline, contact Corinne Macaluso, RW-331, Office of Civilian Radioactive Waste Management, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-2837.

Issued in Washington, DC on October 1, 1992.

John W. Bartlett,

Director, Office of Civilian Radioactive Waste Management.

BILLING CODE 6450-01-M

Bonneville Power Administration

Yakima River Basin Fisheries Project; Availability and Notice of Public Meetings

AGENCY: Bonneville Power Administration (BPA), DOE.

ACTION: Notice of availability and notice of public meetings.

SUMMARY: BPA is releasing a draft EIS on the Yakima River Basin Fisheries Project and is planning six public meetings on the draft EIS. The meetings will be held at the following times and locations:

Monday, October 26, 1992, 7-10 p.m., Best Western Tower Inn, 1515 George Washington Way, Richland, WA 99352.

Tuesday, October 27, 1992, 7-10 p.m., Arboretum, 1401 Arboretum Drive, Yakima, WA 98901.

Thursday, October 29, 1992, 1-4 p.m. and 7-10 p.m., Red Lion Inn—Coliseum, 1225 N. Thunderbird Way, Portland, OR 97227.

Wednesday, November 4, 1992, 7-10 p.m., Hyatt Regency—Bellevue, 900 Bellevue Way, NE., Bellevue, WA 98004.

Thursday, November 5, 1992, 7-10 p.m., Best Western—Ellensburg Inn, 1700 Canyon Road, Ellensburg, WA 98926.

BPA will be accepting written comments at the address listed below. If you need a copy of the draft EIS, please call the Public Involvement office's document request line in Portland at 800—622-4520, and request the Yakima River Basin Fisheries Project Draft EIS.

DATES: The public comment period closes December 18, 1992.

ADDRESSES: Written comments should be submitted to the public Involvement Manager, Bonneville Power Administration, P.O. Box 12999, Portland, Oregon 97212.

FOR FURTHER INFORMATION CONTACT: Ms. Kevin Ward, EIS Project Manager, at 503-230-5373; or the Public Involvement office, at the address listed above, 503-230-3478. Or call BPA's nationwide toll-free number, 800-622-4519. For general information on NEPA process, contact: Carol M. Borgstrom, Director, Office of NEPA Oversight (EH-25), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, 202-586-4600 or 800-472-2756. Information may also be obtained from:

Mr. Marvin Nelson, Yakima Project Office, 103 S. Third St., Yakima, Washington 98901, 509-575-5805.

Mr. George E. Bell, Lower Columbia Area Manager, Suite 243, 1500 NE. Irving Street, Portland, Oregon 97232, 503-230-4551.

Mr. Robert N. Laffel, Eugene District Manager, room 206, 211 East Seventh Avenue, Eugene, Oregon 97401, 503-465-6952.

Mr. Wayne R. Lee, Upper Columbia Area Manager, room 561, West 920 Riverside Avenue, Spokane, Washington 99201, 509-353-2518.

Mr. George E. Eskridge, Montana District Manager, 800 Kensington, Missoula, Montana 59801, 406-329-3060.

Mr. Ronald K. Rodewald, Wenatchee District Manager, P.O. Box 741, room 307, 301 Yakima Street, Wenatchee, Washington 98801, 509-662-4377, extension 379.

Mr. Terence G. Esvelt, Puget Sound Area Manager, P.O. Box C19030, Suite 400, 201 Queen Anne Avenue North, Seattle, Washington 98109-1030, 206-553-4130.

Mr. Thomas V. Wagenhoffer, Snake River Area Manager, 101 West Poplar, Walla Walla, Washington 99362, 509-522-6225.

Ms. C. Clark Leone, Idaho Falls District Manager, 1527 Hollipark Drive, Idaho Falls, Idaho 83401, 208-523-2706.

Mr. James R. Normandeau, Boise District Manager, room 450, 304 N. 8th Street, Boise, Idaho 83702, 208-334-9137

SUPPLEMENTARY INFORMATION: BPA proposes to fund several fishery related activities in the Yakima River Basin. These activities, known as the Yakima Fisheries Project (YFP), would be managed as a partnership among BPA, the State of Washington, and the Yakima Indian Nation. The YFP is a central feature of the Northwest Power Planning Council's (Council) Fish and Wildlife Program. The Council selected the Yakima River system for attention because fisheries resources are severely reduced from historic levels and because there is a significant potential for enhancement of these resources. BPA's proposed action is: (1) To fund the construction, operation, and maintenance of experimental facilities for anadromous fish; (2) to develop and carry out research activities; and (3) to gather information on supplementation

techniques. Supplementation is a strategy for building fish spawning runs by releasing artificially propagated fish into natural streams to increase natural production. Alternatives for accomplishing the proposed action combine: (1) variations of stocks to enhance; (2) numbers of salmon and steelhead to produce; and (3) types and locations of facilities. The No-Action Alternative would leave present anadromous fisheries resources in the Yakima River Basin. The preferred alternative has not yet been selected. Major issues analyzed in the draft EIS include potential impacts of the project on genetic and ecological resources in existing fish populations. The YFP is designed to operate with existing instream water flow levels and project operations would not impact water rights in the Yakima River Basin. Environmental analysis included in this draft EIS will cover operation of the planned production facilities and potential impacts from the siting and construction of acclimation facilities.

Stephen J. Wright,

Assistant Administrator for Bonneville Power Administration.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket Nos. ER92-575-000, et al.]

Wisconsin Electric Power Co., et al., Electric Rate, Small Power Production, and Interlocking Directorate Filings

September 29, 1992.

Take notice that the following filings have been made with the Commission:

1. Wisconsin Electric Power Co.

[Docket No. ER92-575-000]

Take notice that on September 21, 1992, Minnesota Power & Light Company tendered for filing its FERC Order No. 84 Rate Schedule, First Revised Sheet No. 1. The proposed change would decrease revenues from third-party purchase and resale transactions under FERC Order No. 84. The rate decrease is proposed to be effective as of the effective date of the Interchange Agreement between Minnesota Power & Light Company and Wisconsin Electric Power Company, which was filed on May 28, 1992 in this docket and noticed on June 1, 1992. Copies of the filing were served upon the utility's jurisdictional customers, the Public Utilities Commission of Minnesota and the Public Service Commission of Wisconsin.

Comment date: October 14, 1992, in accordance with Standard Paragraph E at the end of this notice.

2. Tampa Electric Co.

[Docket No. ER92-854-000]

Take notice that on September 24, 1992, Tampa Electric Company (Tampa Electric) tendered for filing a Letter of Commitment providing for the sale by Tampa Electric to the City of St. Cloud Electric Utilities (St. Cloud) of 10 megawatts of capacity and energy from Tampa Electric's Big Bend Station coal-fired generating resources. The Letter of Commitment is submitted as a supplement to Service Schedule D under Tampa Electric's agreement for interchange service with St. Cloud.

Tampa Electric proposes an effective date for the Letter of Commitment of the earlier of January 1, 1994, or the date that St. Cloud requests, and Tampa Electric agrees to provide, the committed capacity and energy. Accordingly, Tampa Electric requests waiver of the Commission's notice requirements.

Copies of the filing have been served on St. Cloud and the Florida Public Service Commission.

Comment date: October 14, 1992, in accordance with Standard Paragraph E at the end of this notice.

3. Louisville Gas and Electric Co.

[Docket No. ER92-853-000]

Take notice that Louisville Gas and Electric Company (LG&E), by letter dated September 21, 1992, tendered for filing a Seventh Supplemental Agreement to the interconnection agreement between Southern Indiana Gas & Electric Company and LG&E.

The Seventh Supplemental Agreement modifies the Interconnection Agreement by the deletion of Service Schedules D and E, Energy Transfer and Short Term Power, respectively. This filing also includes new Service Schedules H, J, K, L, and M, for Southern Indiana Power and Energy, Southern Indiana Delivery of Third Party Purchases, Louisville Power and Energy, Louisville Delivery of Third Party Purchases, and Diversity Power, respectively. The filing also modifies Service Schedule A, Emergency Service, Service Schedule B, Interchange (renamed Economy Energy), and redefines "Out-of-Pocket Costs".

A copy of the filing was served upon the Kentucky Public Service Commission and the Indiana Utility Regulatory Commission.

Comment date: October 14, 1992, in accordance with Standard Paragraph E at the end of this notice.

4. Wheelabrator Falls Inc.

[Docket No. ER92-849-000]

Take notice that on September 22, 1992, Wheelabrator Falls Inc. submitted for filing, pursuant to Rule 207 of the Commission's Rules of Practice and Procedure, 18 CFR 385.207, an initial rate schedule for sales to Public Service Electric and Gas Company.

Comment date: October 14, 1992, in accordance with Standard Paragraph E at the end of this notice.

5. Western Resources, Inc.

[Docket No. ER92-847-000]

Take notice that on September 21, 1992, Western Resources, Inc. (WRI) tendered for filing a proposed change to its Federal Energy Regulatory Commission Electric Service Tariff No. 208. WRI states the purpose of the change is to extend the term of the existing Electric Power Supply Contract between WRI and the City of Seneca, Kansas. The change is proposed to become effective November 20, 1992.

Copies of the filing were served upon the City of Seneca and the Kansas Corporation Commission.

Comment date: October 14, 1992, in accordance with Standard Paragraph E at the end of this notice.

6. Central Power and Light Co.

[Docket No. ER92-755-000]

Take notice that on September 21, 1992, Central Power and Light Company (CPL) tendered for filing a letter amendment to an Interconnection Agreement filed in this proceeding on July 29, 1992. The letter amendment clarifies the expenses which South Texas Electric Cooperative, Inc. (STEC) will reimburse to CPL.

Copies of the filing were served on STEC and the Public Utility Commission of Texas.

Comment date: October 14, 1992, in accordance with Standard Paragraph E at the end of this notice.

7. Louisville Gas and Electric Co.

[Docket No. ER92-840-000]

Take notice that Louisville Gas and Electric Company (LG&E), by letter dated September 21, 1992, tendered for filing a Sixth Supplemental Agreement to the interconnection agreement between Big Rivers Electric Corporation and LG&E.

The Sixth Supplemental Agreement modifies the Interconnection Agreement by the deletion of Service Schedules C and E, Short Term Power and Fuel Conservation Power and Energy, respectively. This filing also includes new Services Schedules F, G, H, J, and

K, for Big Rivers Power and Energy, Big Rivers Delivery of Third Party Purchases, Louisville Power and Energy, Louisville Delivery of Third Party Purchases, and Diversity Power, respectively. The filing also modifies Service Schedule A, Emergency Service, Service Schedule B, Interchange (renamed Economy Energy), and redefines "Out-of-Pocket Costs".

A copy of the filing was served upon the Kentucky Public Service Commission.

Comment date: October 14, 1992, in accordance with Standard Paragraph E at the end of this notice.

8. New York State Electric & Gas Corp.

[Docket No. ER92-746-000]

Take notice that on September 22, 1992, New York State Electric & Gas Corporation (NYSEG) tendered for filing, pursuant to § 35.13 of the regulations under the Federal Power Act, a proposed amendment to its filing regarding the borderline sales presently designated as Rate Schedule FERC No. 32. The proposed amendment eliminates the facilities charge initially described in January 6, 1937 letter agreement between NYSEG and CHG&E and subsequently modified in a July 24, 1958 letter agreement between the two parties.

NYSEG has sent a copy of this filing to both CHG&E and the Public Service Commission of the State of New York.

Comment date: October 14, 1992, in accordance with Standard Paragraph E at the end of this notice.

9. Philadelphia Electric Co.

[Docket Nos. ER92-632-000 and ER92-654-000]

Take notice that on September 10, 1992, Philadelphia Electric Company (PE) tendered for filing Amendment Agreements to the above mentioned Dockets.

The Amendment Agreements amend the Agreements for the sale of System Energy which PE has entered into with Allegheny Electric Cooperative, Inc. and Orange and Rockland Utilities, Inc. PE requests that the Rate Schedules become effective on the dates requested in their initial filings, August 17, 1992 for Allegheny and June 22, 1992 for O&R.

Comment date: October 14, 1992, in accordance with Standard Paragraph E at the end of this notice.

10. The Union Light, Heat and Power Co.

[Docket No. E92-61-000]

Take notice that on September 24, 1992, the Union Light, Heat and Power Company filed an application with the Federal Energy Regulatory Commission under Section 204 of the Federal Power Act requesting authorization to issue not more than $35 million of unsecured promissory notes on or before December 31, 1994, with a final maturity date no later than December 31, 1994.

Comment date: October 23, 1992, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24430 Filed 10-7-92; 8:45 am]

BILLING CODE 6717-01-M

Application Filed With the Commission

October 2, 1992.

Take notice that the following hydroelectric application has been filed with the Federal Energy Regulatory Commission and is available for public inspection.

a. *Type of Application:* Conduit Exemption (Tendered Notice).

b. *Project No.:* 11336-000.

c. *Date Filed:* September 18, 1992.

d. *Applicant:* City of Buffalo, Wyoming.

e. *Name of Project:* Buffalo.

f. *Location:* On the City of Buffalo's water supply pipeline that draws water from Clear Creek, 2 miles west of the City, in Johnson County, Wyoming (NE ¼ of NE ¼, Sec. 5, T50N, R82W).

g. *Filed Pursuant to:* Federal Power Act 16 U.S.C. 791(a)-825(r).

h. *Applicant Contact:* Michael T. O'Grady, States Water Resources Corporation, 2424 Pioneer Avenue, Suite 204, Cheyenne, Wyoming 82001, (307) 634-7848.

i. *FERC Contact:* Hector M. Pérez at (202) 219-2843.

j. *Description of Project:* The proposed project would consist of a powerhouse containing a 245-kW unit, and other appurtenant facilities. The project would have an estimated average annual generation of 1,638,000 kilowatthours.

k. Under § 4.32(b)(7) of the Commission's regulations (18 CFR), if any resource agency, Indian Tribe, or person believes that the applicant should conduct an additional scientific study to form an adequate factual basis for a complete analysis of the application on its merits, they must file a request for the study with the Commission, not later than November 17, 1992, and must serve a copy of the request on the applicant.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. JD92-09935T Oklahoma-27]

State of Oklahoma; NGPA Determination by Jurisdictional Agency Designating Tight Formation

October 1, 1992.

Take notice that on September 29, 1992, the Corporation Commission of the State of Oklahoma (Oklahoma) submitted the above-referenced notice of determination pursuant to § 271.703(c)(3) of the Commission's regulations, that the Formation designated as the Cherokee Common Source of Supply, underlying Sections 24 and 25, and the Des Moines Common Source of Supply, underlying Sections 26 and 27, of Township 12 North, Range 14 West, Custer County, Oklahoma qualifies as a single designated tight formation under section 107(b) of the Natural Gas Policy Act of 1978.

The notice of determination also contains Oklahoma's findings that the referenced formation meets the requirements of the Commission's regulations set forth in 18 CFR Part 271.

The application for determination is available for inspection, except for material which is confidential under 18 CFR 275.206, at the Federal Energy Regulatory Commission, 825 North Capitol Street, NE, Washington, DC 20426. Persons objecting to the determination may file a protest, in accordance with 18 CFR 275.203 and 275.204, within 20 days after the date this notice is issued by the Commission.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24404 Filed 10-7-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TQ93-2-1-000]

Alabama-Tennessee Natural Gas Co.; Proposed PGA Rate Adjustment

October 2, 1992.

Take notice that on September 30, 1992, Alabama-Tennessee Natural Gas Company ("Alabama-Tennessee"), Post Office Box 918, Florence, Alabama 35631, tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheet with a proposed effective date of October 1, 1992:

35th Revised Sheet No. 4

Alabama-Tennessee states that this filing is an out-of-cycle purchased gas adjustment ("PGA") filing, the purpose of which is to correlate more accurately Alabama-Tennessee's projected gas costs with the rates of its upstream pipeline supplier, Tennessee Gas Pipeline Company ("Tennessee"). Alabama-Tennessee states that on September 27, 1992, it received the Transition Gas Inventory Charge ("TGIC") commodity cost of natural gas purchases for the month of October, 1992 from Tennessee in accordance with the so-called "Cosmic Settlement" which the Federal Energy Regulatory Commission ("Commission") approved in Docket Nos. RP88-228, *et al.* According to Alabama-Tennessee, this information shows that Tennessee's sales commodity rates will increase substantially from the rates that have been in effect since September 1, 1992, and upon which Alabama-Tennessee's recent out-of-cycle quarterly PGA filing submitted on August 31, 1992 in docket No TQ93-1-1-000 ("August 31 Filing") was based. Alabama-Tennessee states that, as a result, the commodity gas costs shown in Alabama-Tennessee's August 31 Filing are significantly understated.

In addition to a waiver of § 154.22 of the Commission's Regulations so that its revised tariff sheet can be made effective as of October 1, 1992, Alabama-Tennessee has requested any other waivers of the Commission's Regulations that may be necessary to permit the tariff sheet to become effective as proposed.

Alabama-Tennessee states that copies of the tariff filing have been mailed to all of its jurisdictional sales and transportation customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 or Rule 214 of the Commission's Rules of Practice and Procedure 18 CFR 385.211 and 385.214. All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24418 Filed 10-7-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. RP92-237-000]

Alabama-Tennessee Natural Gas Co.; Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that Alabama-Tennessee Natural Gas Company ("Alabama-Tennessee"), on September 30, 1992, tendered for filing proposed changes in its FERC Gas Tariff, First Revised Volume No. 1. The proposed effective date for these tariff sheets is November 1, 1992. The proposed changes would increase revenues for jurisdictional sale for resale services by $8,181,350 annually, based on the 12-month period ending May 31, 1992, as adjusted for known and measurable changes for the period ending February 28, 1993.

According to Alabama-Tennessee, its proposed rates are based on the Commission's recently issued Order No. 636, "Pipeline Service Obligations and Revisions to Regulations Governing Self-Implementing Transportation; and Regulation of Natural Gas Pipelines After Partial Wellhead Decontrol," 57 FR 13,267 (April 16, 1992), III FERC Stats. & Regs. [Regulations Preambles] ¶30,939 (April 8, 1992), order on reh'g, Order No. 636-A, 57 FR 36,128 (August 12, 1992), III FERC Stats. & Regs. [Regulations Preambles] ¶30,950 (August 3, 1992) ("Restructuring Rule"). In particular, these tariff sheets reflect unbundled sales and transportation services and rates based on the straight fixed variable method of cost classification, allocation, and rate design. Alabama-Tennessee states that, except as required under the Restructuring Rule, these rates are also in accordance with the Commission's "Policy Statement Providing Guidance with Respect to the Designing of Rates," 47 FERC ¶61,295, order on reh'g, 48 FERC ¶61,122 (1989).

Alabama-Tennessee has requested such waiver of the Commission's Regulations as may be necessary to accept its application as proposed.

Alabama-Tennessee states that copies of the filing were served upon the company's jurisdictional customers and interested public bodies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214, 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24416 Filed 10-7-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TQ93-1-28-000]

CNG Transmission Corp.; Notice of Proposed Change in FERC Gas Tariff

October 2, 1992.

Take notice that on September 30, 1992, CNG Transmission Corporation ("CNG") filed the following revised tariff sheets to First Revised Volume No. 1 of its FERC Gas Tariff:

Twenty-Third Revised Sheet No. 31
Fifteenth Revised Sheet No. 32
Nineteenth Revised Sheet No. 34
Fourteenth Revised Sheet No. 35

CNG requests an effective date for these sheets of October 1, 1992.

CNG states that the purpose of this filing is to authorize CNG to establish a cost-based PGA sales rate for the period October 1, 1992, until April 1, 1993, when CNG plans to implement Order No. 636. CNG states further that this transitional measure is necessary for CNG to implement the new services envisioned by the Commission in Order No. 636 and that this filing will help minimize its transition costs.

CNG states that this filing will result in a weighted average cost of gas of $1.7028 for Rate Schedules RQ, CD, and ACD for the period October 1, 1992, to April 1, 1993.

CNG has requested a waiver of the Commission's regulations requiring it to make quarterly PGA filings in December

1992, and March 1993 as well as waiver of the requirement applying the three percent test. Alternatively, CNG requests that the Commission apply the three percent test to the six-month period reflected in this filing.

CNG states that copies of this filing were served upon CNG's customers as well as interested state commissions. Also, copies of this filing are available during regular business hours at CNG's main offices in Clarksburg, West Virginia.

Any person desiring to be heard or to protest said filing should file a protest or motion to intervene with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure, 18 CFR 385.214 and 385.211. All motions or protests should be filed on or before October 9, 1992. Protests will be considered taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket Nos. TQ93-1-21-000 and TM93-3-21-000]

Columbia Gas Transmission Corp.; Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that Columbia Gas Transmission Corporation (Columbia) on September 30, 1992, tendered for filing the following proposed changes to its FERC Gas Tariff, First Revised Volume No. 1.

October 1, 1992

Twenty-fourth Revised Sheet No. 26
Sixteenth Revised Sheet No. 26.1
Twenty-third Revised Sheet No. 26A
Sixteenth Revised Sheet No. 26A.1
Thirteenth Revised Sheet No. 26B.1
Eighth Revised Sheet No. 26C.1
Thirteenth Revised Sheet No. 26D
Twenty-third Revised Sheet No. 163

Columbia states the sales rates set forth on Sixteenth Revised Sheet No. 26.1 reflect an increase of 27.92¢ per Dth in the commodity rate and a decrease in the demand rate of $.054 per Dth when compared with the total CDS rates reflected in its last PGA filing which was filed on September 1, 1992 with an effective date of September 2, 1992. In addition, the transportation rates set forth in Eighth Revised Sheet No. 26C.1 and Thirteenth Revised Sheet No. 26D reflect an increase in the Fuel Charge component of 0.67¢ per Dth.

Columbia states that copies of the filing is being mailed to all jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, Union Center Plaza Building, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of Columbia's filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24421 Filed 10-7-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. TQ93-2-21-000 and TM93-2-21-000]

Columbia Gas Transmission Corp.; Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that Columbia Gas Transmission Corporation (Columbia) on September 30, 1992, tendered for filing the following proposed changes to its FERC Gas Tariff, First Revised Volume No. 1, to be effective November 1, 1992.

Twenty-Fifth Revised Sheet No. 26
Eighteenth Revised Sheet No. 26.1
Twenty-Fourth Revised Sheet No. 26A
Eighteenth Revised Sheet No. 26A.1
Twenty-Second Revised Sheet No. 26B
Fourteenth Revised Sheet No. 26B.1
Twenty-Third Revised Sheet No. 26C
Ninth Revised Sheet No. 26C.1
Fifteenth Revised Sheet No. 26D
Twenty-Fourth Revised Sheet No. 163

Columbia states the sales rates set forth on Eighteenth Revised Sheet No. 26.1 reflect an increase of 22.04¢ per Dth in the commodity rate and an overall decrease of $0.196 per Dth in the total demand rate when compared with the total CDS rates currently in effect. The transportation rates set forth on Ninth Revised Sheet No. 26C.1 and Fifteenth Revised Sheet No. 26D reflect an increase of 0.48¢ per Dth in the Fuel Charge component.

Columbia states that copies of the filing is being mailed to all jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, Union Center Plaza Building, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestant parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of Columbia's filing are on file with the Commisson and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24420 Field 10-7-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TQ93-2-2-000]

East Tennessee Natural Gas Co.; Rate Filing

October 2, 1992.

Take notice that on September 30, 1992, East Tennessee Natural Gas Company ("East Tennessee"), submitted for filing five copies each of Twenty-Eighth Revised Sheet Nos. 4 and 5 to First Revised Volume No. 1 of its FERC Gas Tariff to be effective October 1, 1992.

East Tennessee Natural Gas Company states that the purpose of the instant filing is to implement an out-of-cycle PGA rate adjustment to East Tennessee's current rate, to be effective from October 1, 1992 to December 31, 1992. East Tennessee states that due to an unexpected increase in gas prices, it is currently unable to purchase gas at or below the rates reflected in its previously quarterly filing in Docket No. TQ-93-1-2, filed on August 31, 1992 to be effective October 1, 1992. The increase in the current adjustment is necessary to prevent substantial under-recoveries of gas costs.

East Tennessee further states that copies of the filing has been mailed to all affected customers and state regulatory commissions.

Any person desiring to be heard or to protect such filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington,

DC 20425, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining appropriate action but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene; provided, however, that any person who had a previously filed a petition or intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TQ93-1-24-000]

Equitrans, Inc.; Proposed Change in FERC Gas Tariff

October 2, 1992.

Take notice that Equitrans, Inc. (Equitrans) on September 30, 1992, tendered for filing with the Federal Energy Regulatory Commission (Commission) the following tariff sheets to its FERC Gas Tariff, Original Volume No. 1, to become effective October 1, 1992:

Thirty-Ninth Revised Sheet No. 10
Twenty-Eighth Revised Sheet No. 34

This filing implements an Out-of-Cycle Purchased Gas Cost Adjustment (PGA) to reflect (1) increased gas costs charged by Texas Eastern Transmission Corporation's (TETCO) under its Rate Schedule CD-1 filed in Docket No. TQ92-8-17 on September 29, 1992; and (2) increases in the purchased gas costs of spot market purchases and Southwest supply purchases. The filing is necessary in order to have the rates charged to Equitrans' jurisdictional customers more closely reflect the experienced cost of gas being incurred by the Applicant.

The changes proposed in this filing to the purchased gas cost adjustment under Rate Schedule PLS is an increase in the commodity cost of $0.4422 per dekatherm (Dth). The purchased gas cost adjustment to rate Schedule ISS is an increase of $0.4765 per Dth.

Pursuant to § 154.51 of the Commission's Regulations, Equitrans requests that the Commission grant any waivers necessary to permit the tariff sheets contained herein to become effective on October 1, 1992.

Equitrans states that a copy of its filing has been served upon its purchasers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24409 Filed 10-7-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TQ93-1-34-000]

Florida Gas Transmission Co.; Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that on September 30, 1992 Florida Gas Transmission Company (FGT) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheet to be effective October 1, 1992:

Thirty-Second Revised Sheet No. 8

FGT states that the above-referenced tariff sheet is being filed to reflect an increase in FGT's cost of gas purchased from that level reflected in its last Out-of-Cycle PGA filing effective September 1, 1992 in Docket No. TQ92-6-34-000.

On August 28, 1992, FGT made a filing in its Out-of-Cycle PGA in Docket No. TQ92-6-34-000 containing a projected cost of purchased gas for the period August 1, 1992 through October 31, 1992 of $2.5088/MMBtu saturated. Subsequent to the Out-of-Cycle filing, FGT has again experienced an increase in its cost of purchased gas to a level that now exceeds the level of purchased gas cost established in FGT's last Out-of-Cycle PGA. However, FGT is precluded from adjusting its rates under Section 15.10 (Interim Adjustment Filings) of its FERC Gas Tariff to reflect a level of gas cost that exceeds the level established in its last Out-ot-Cycle PGA filing. Therefore, FGT is making the instant Out-of-Cycle PGA filing in order to reflect the increases in its cost of purchased gas to a level of $3.1538/MMBtu saturated.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426 in accordance with Sections 385.211 and 385.214 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene.

Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24426 Filed 10-7-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TQ93-2-34-000]

Florida Gas Transmission Co.; Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that on September 30, 1992 Florida Gas Transmission Company (FGT) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets to be effective November 1, 1992:

Thirty-Third Revised Sheet No. 8
Sixth Revised Sheet No. 160
Fifth Revised Sheet No. 222
Sixth Revised Sheet No. 223
Fourth Revised Sheet No. 224
Sixth Revised Sheet No. 225
Fifth Revised Sheet No. 226
Sixth Revised Sheet No. 227
Sixth Revised Sheet No. 228
Fifth Revised Sheet No. 229
Fifth Revised Sheet No. 230
Fourth Revised Sheet No. 231
Seventh Revised Sheet No. 232

FGT states that Thirty-Third Revised Sheet No. 8 is being filed in accordance with § 154.308 of the Commission's Regulations and pursuant to Section 15 of FGT's FERC Gas Tariff, Second Revised Volume No. 1 to reflect a decrease in FGT's jurisdictional rates due to a decrease in its average cost of gas purchased from that reflected in its Out-of-Cycle PGA filing, Docket No. TQ93-1-34-000, effective October 1, 1992.

FGT further states that its projected purchase cost of gas for the period

November, 1992 through January, 1993, shown in detail on Schedule Q1, represents a decrease from $3.1538/MMBtu saturated, as reflected in FGT's Out-of-Cycle PGA filing in Docket No. TQ93–1–34–000, effective October 1, 1992 to $3.0677/MMBtu saturated in the instant filing.

FGT is required to update its Index of Entitlements concurrently with its Quarterly PGA filing pursuant to Section 9 of the General Terms and Conditions of its Tariff and has included such changes in Fourth Revised Sheet Nos. 224 and 231, Fifth Revised Sheet Nos. 222, 226, 229, and 230, Sixth Revised Sheet Nos. 223, 225, 227, and 228, and Seventh Revised Sheet No. 232. Additionally, Sixth Revised Sheet No. 160 updates the receipt point list contained in Rate Schedule PTS–1.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426 in accordance with § 385.211 and 385.214 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene.

Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TQ93–2–4–000]

Granite State Gas Transmission, Inc.; Proposed Changes in Rates

October 2, 1992.

Take notice that on September 30, 1992, Granite State Gas Transmission, Inc. (Granite State), 300 Friberg Parkway, Westborough, Massachusetts 01581–5039, tendered for filing with the Commission Nineteenth Revised Sheet No. 21 in its FERC Gas Tariff, Second Revised Volume No. 1, containing changes in rates for effectiveness on October 1, 1992.

According to Granite State, its filing is a revised purchased gas adjustment for the fourth quarter of 1992. Granite State further states that it filed its regular fourth quarter purchased gas cost adjustment on September 9, 1992 in Docket No. TQ93–1–4–000. It is stated that, in the short interval since its prior filing, the costs for its projected spot market purchases during the fourth quarter have risen rapidly and spot market supplies comprise approximately 73 percent of projected purchases during the quarter. According to Granite State, the revised rates in the instant filing are derived on the same quantities of projected purchases and sales as in the prior filing.

It is stated that the proposed rate changes are applicable to Granite State's jurisdictional services rendered to Bay State Gas Company and Northern Utilities, Inc. Granite State further states that copies of its filing were served upon its customers and the regulatory commissions of the States of Maine, Massachusetts and New Hampshire.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426 in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92–24410 Filed 10–7–92; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. TQ93–1–46–000]

Kentucky West Virginia Gas Co., Proposed Change in FERC Gas Tariff

October 2, 1992.

Take notice that Kentucky West Virginia Gas Company (Kentucky West) on September 29, 1992, tendered for filing with the Federal Energy Regulatory Commission (Commission) an Out-of-Cycle PGA filing, which includes Fortieth Revised Sheet No. 41 to its FERC Gas Tariff, Second Revised Volume No. 1, to become effective October 1, 1992. The revised tariff sheet reflects a current increase of $0.5742 per Dth in the average cost of purchased gas resulting in a Weighted Average Cost of Gas of $2.1589 per Dth.

Kentucky West states that effective October 1, 1992, pursuant to its obligations under various gas purchase contracts, it has specified a total price of $2.1700 per Dth, inclusive of all taxes and any other production-related cost add-ons, that it would pay under these contracts.

Pursuant to § 154.51 of the Commission's regulations, Kentucky West requests waiver of the thirty day notice requirement to permit the tariff sheet attched hereto to become effective on October 1, 1992. In addition, Kentucky West requests waiver of § 154.304 of the Commission's regulations and any other provisions of the Commission's regulations necessary to permit the attached tariff sheet to become effective on October 1, 1992.

Kentucky West states that, by its filing, or any request or statement made therein, it does not waive any rights to collect amounts, nor the right to collect carrying charges applicable thereto, to which it is entitled pursuant to the mandate of the United States Court of Appeals for the Fifth Circuit issued on March 6, 1986, in *Kentucky West Virginia Gas Co.* v. *FERC*, 780 F.2d 1231 (5th Cir. 1986), or to which it is or becomes entitled pursuant to any other judicial and/or administrative decisions.

Kentucky West states that a copy of its filing has been served upon each of its jurisdictional customers and interested State Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with § 385.211 and § 385.214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92–24425 Filed 10–7–92; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. TQ93-1-25-000]

Mississippi River Transmission Corp.; Rate Change Filing

October 2, 1992.

Take notice that on September 29, 1992 Mississippi River Transmission Corporation (MRT) tendered for filing Eighty-Third Revised Sheet No. 4, and Forth-Second Revised Sheet No. 4.1 to its FERC Gas Tariff, Second Revised Volume No. 1 to be effective October 1, 1992. MRT states that the purpose of the instant filing is to reflect an out-of-cycle purchase gas cost adjustment (PGA).

MRT states that Eighty-Third Revised Sheet No. 4 and Forty-Second Revised Sheet No. 4.1 reflect an increase of 74.77 cents per MMBtu in the commodity cost of purchased gas from PGA rates filed on August 28, 1992 to be effective September 1, 1992, in Docket No. TQ92-15-25-000. MRT also states that since the August 28, 1992 filing date, MRT has experienced changes in purchase and transportation costs for its system supply that could not have been reflected in that filing under current Commission regulations.

MRT states that a copy of the filing has been mailed to each of MRT's jurisdictional sales customers and the State Commissions of Arkansas, Missouri, and Illinois.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.211 and 385.214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. TQ93-2-16-000]

National Fuel Gas Supply Corp.; Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that on September 30, 1992, National Fuel Gas Supply Corporation ("National") tendered for filing the following revised tariff sheets as part of its FERC Gas Tariff, Second Revised Volume No. 1, to become effective on October 1, 1992:

(A) Twenty-Fourth Revised Sheet No. 5
(B) Alt Twenty-Fourth Revised Sheet No. 5

National states that the purpose of this filing is to implement an out-of-cycle Purchased Gas Cost Adjustment ("PGA") rate change to reflect the increased gas cost resulted from the impact of the current market price. The primary tariff sheet (A) assumes the acceptance of National's August 28th compliance filing at Docket No. RP86-136-000 *et al* whereas the alternate tariff sheet (B) assumes otherwise. However, both sheets reflect identical gas cost projection in the quarter of October 1992. National states that the primary and alternate tariff sheet reflect commodity rate at 293.46 cents per Dt and 294.21 cents per Dt respectively.

National further states that copies of this filing were served upon the Company's jurisdictional customers and the Regulatory Commissions of the States of New York, Ohio, Pennsylvania, Delaware, Massachusetts and New Jersey.

Any person desiring to be heard or to protest said filing should file a motion to invervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 214 or 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211). All such motions to intervene or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Northern Natural Gas Co.; Notice of Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that Northern Natural Gas Company (Northern), on September 30, 1992 tendered for filing changes in its FERC Gas Tariff, Third Revised Volume No. 1 (Volume No. 1 Tariff) and Original Volume No. 2 (Volume No. 2 Tariff).

Northern is filing the revised tariff sheets to adjust its Base Average Gas Purchase Cost in accordance with the Quarterly PGA filing requirements codified by the Commission's Order Nos. 483 and 483-A. The instant filing reflects a Base Average Gas Purchase Cost of $3.8260 per MMBtu to be effective October 1, 1992.

Northern states that copies of the filing were served upon Northern's jurisdictional sales customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 3825.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Tennessee Gas Pipeline Co.; Technical Conference

October 1, 1992.

Take notice that on October 8, 1992, the Commission staff will convene a technical conference in the above-captioned dockets at the offices of the Federal Energy Regulatory Commission, located at 825 N. Capitol Street, Washington, DC 20426 at 10 a.m., in a room to be announced.

The purpose of the technical conference is to discuss Tennessee Gas Pipeline Company's (Tennessee) proposal to include increased facility costs in its initial rates for service in these dockets.

Tennessee should be prepared to present information, by project, regarding:

- Each facility for which cost increases are being claimed specifying type of facility (e.g., a pipeline loop), the mileposts (beginning and ending), miles, diameter, horsepower, county, state, in-service date or proposed in-service date. (Separately, list original facilities in existing approved rates for New England Power Company.)
- Cost increases for each cost item of an individual facility (i.e., right-of-way, materials, installation, contingency, project development, legal fees, AFUDC, etc.) and the particular subcategorics of each cost item where the cost increase occurs. For cost increases in the Iroquois/Tennessee Project, Tennessee should itemize cost increases by segments (Segments 3 and 4) and by phases (Phases I and II).
- The original cost, the cost increase (including the date these increases were incurred), and written justification for each cost increase.

Parties protesting these proposals should also be prepared to present specific information in support of their objections.

All interested parties and Commission staff are invited to attend the technical conference. For further information, contact Amy Heyman, (202) 208-0115.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TQ93-1-18-000]

Texas Gas Transmission Corp.; Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that Texas Gas Transmission Corporation (Texas Gas), on September 29, 1992 tendered for filing the following revised tariff sheets to its FERC Gas Tariff, Original Volume No. 1:

Sixtieth Revised Sheet No. 10
Sixtieth Revised Sheet No. 10A
Forth-first Revised Sheet No. 11
Thirty-first Revised Sheet No. 11A
Thirty-first Revised Sheet No. 11B

Texas Gas states that these tariff sheets reflect changes in purchased gas costs pursuant to an Out-of-Cycle PGA Rate Adjustment and are proposed to be effective October 1, 1992. Texas Gas further states that the proposed tariff sheets reflect a commodity rate increase of $1.0553 per MMBtu from the rates set forth in the Out-of-Cycle PGA filed July 30, 1992 (Docket No. TQ92-8-18). No changes to the demand and SGN Standby rates are proposed in this filing.

Texas Gas states that copies of the filing are being mailed to all of Texas Gas's jurisdictional sales customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capital Street, NE., Washington, DC 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such protests or motions should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TQ93-2-18-000]

Texas Gas Transmission Corp.; Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that Texas Gas Transmission Corporation (Texas Gas), on September 30, 1992, tendered for filing the following revised tariff sheets to its FERC Gas Tariff, Original Volume No. 1:

Sixty-first Revised Sheet No. 10
Sixty-first Revised Sheet No. 10A
Forty-second Revised Sheet No. 11
Thirty-second Revised Sheet No. 11A
Thirty-second Revised Sheet No. 11B

Texas Gas states that these tariff sheets reflect changes in purchased gas costs pursuant to a Quarterly PGA Rate Adjustment and are proposed to be effective November 1, 1992. Texas Gas further states that the proposed tariff sheets reflect a commodity rate decrease of $(.3147) per MMBtu from the rates set forth in the Out-of-Cycle PGA filed September 29, 1992 (Docket No. TQ92-9-18). No changes are proposed for the demand or SGN Standby rates.

Texas Gas states that copies of the filing are being mailed to Texas Gas's jurisdictional sales customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such protests or motions should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TQ93-1-17-000]

Texas Eastern Transmission Corp.; Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern) on September 30, 1992 Tendered for filing as part of its FERC Gas Tariff, Fifth Revised Volume No. 1, six copies of the tariff sheets listed on appendix A and appendix B to the filing.

The proposed effective date of these revised tariff sheets is October 1, 1992.

Texas Eastern states that these tariff sheets are being filed pursuant to Section 23, Purchased Gas Cost Adjustment contained in the General Terms and Conditions of Texas Eastern's FERC Gas Tariff and pursuant to Order No. 483 issued November 10, 1987 in Docket No. RM86-14. As contemplated in Docket No. RM86-14 and Order No. 483, this filing constitutes an out-of-cycle PGA rate increase. Texas Eastern states that in compliance with § 154.308(b)(2) of the Commission's Regulations, a report containing detailed computations for the derivation of the current adjustment to be applied to Texas Eastern's effective rates is enclosed in the format as prescribed by FERC Form No. 542-PGA (Revised) and FERC's NOTICE OF CRITERIA FOR ACCEPTING ELECTRONIC PGA FILINGS dated April 12, 1991.

Texas Eastern states that the change proposed in this out-of-cycle PGA filing is a commodity sales rate increase of $0.5658/dth based upon the change in Texas Eastern's projected October 1992 cost of purchased gas from Texas Eastern's August 1, 1992 Out-of-cycle PGA in Docket No. TQ92-7-17 filed on July 30, 1992.

Texas Eastern states that on September 15, 1992 Texas Eastern filed substitute tariff sheets to be effective for the period beginning December 1, 1990 to-date reflecting the rates provided for in the Stipulation and Agreement in Docket No. RP88-67, *et al.* (Phase II/PCBs) filed by Texas Eastern on December 17, 1991 (PCB Settlement). The substitute tariff sheets filed herewith listed on appendix B reflect Texas Eastern's PCB settlement rates adjusted for the PGA change proposed herein.

Texas Eastern respectfully requests the Commission to accept the tariff sheets on appendix A hereto to be effective for purposes of rendering billings beginning October 1, 1992 and accept the substitute tariff sheets on Appendix B as a supplement to Texas Eastern's September 15, 1992 filing in Docket No. RP88-67 *et al.* (Phase II/PCBs) for the period beginning October 1, 1992.

Texas Eastern states that copies of its filing have been served on all Authorized Purchasers of Natural Gas from Texas Eastern, applicable state regulatory agencies and all parties on the service list in Docket Nos. RP88-67, *et al.* (Phase II/PCBs).

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on a file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP92-235-000]

United Gas Pipe Line Co.; Proposed Changes in FERC Gas Tariff

October 2, 1992.

Take notice that on September 30, 1992, United Gas Pipe Line Company ("United") tendered for filing proposed changes to its FERC Gas Tariff, Third Revised Volume No. 1, to establish rates and revenue responsibility for all jurisdictional customers on the United system effective November 1, 1992 pursuant to Section 4(e) of the Natural Gas Act ("NGA"). United states that the instant filing is made to comply with Section IV(B) of the Joint Stipulation and Agreement ("S&A") in Docket No. RP91-126, *et al.*, United anticipates an effective date of April 1, 1993, for the applicable tariff sheets assuming the Commission exercises its authority under section 4(e) of the NGA and suspends the effective date for the full five month statutory period.

United states that the filing is only made to satisfy its obligations under the S&A. United anticipates that the Commission will approve its Order No. 636 compliance filing, due November 2, 1992, on or before April 1, 1993. If the compliance filing is not approved by the Commission before April 1, 1993, the instant filing supports revised rates for its current services to be effective on that date. The base period for the filing is the twelve months ended May 31, 1992, as adjusted for known and measurable changes for the nine months ending February 29, 1993.

United states that the instant filing reflects the elimination of United's Market Response Storage and Delivery Service ("MRSDS"). MRSDS was a limited term experimental service explicitly approved by the Commission for a period expiring March 31, 1993. United further states that it intends to file to abandon its gathering facilities pursuant to section 7(b) of the NGA on or before November 2, 1992 in conjunction with its Order No. 636 filing. Accordingly, United has eliminated the allocation of general and overhead costs to the gathering functions in the instant filing in anticipation of the abandonment filing.

The filing supports a revised cost of service of $200.6 million, which is a reduction of $0.6 million from that approved by the Commission in Docket No. RP91-126. adjustments have been made to all components of the cost of service, including an adjustment to reflect the effect of FASB 106, Employers' Accounting for Postretirement Benefits Other Than Pension. United is claiming an overall rate of return of 14.14% on a capital structure consisting of 56.18% debt and 43.82% equity and an return on equity of 16%. The filing also reflects a decrease in throughput resulting from (1) anticipated reductions in sales due to the expiration of city gate customers S&A purchase commitments; (2) the elimination of MRSDS; and, (3) discounted transportation levels. united has proposed the use of the Straight Fixed Variable ("SFV") method of cost classification, allocation and rate design.

The tendered tariff sheets also reflect the expiration of MRSDS and Rate Schedule PL. United's last PL customer, Mississippi River Transmission Corporation, filed a notice of abandonment pursuant to for Order No. 490 on June 1, 1992, for effectiveness April 30, 1992.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC, 20426, in accordance with the

relevant provisions of the Commission's Rules of Practice and Procedure, 18 CFR 385.214 and 385.211. All such petitions or protests must be filed on or before October 9, 1992. Protests will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of United's September 30, 1992, rate filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24414 Filed 10-7-92; 8:45 am]

BILLING CODE 6717-01

[Docket No. RP92-236-000]

Williston Basin Interstate Pipeline Co.; Proposed Changes in FERC Gas Tariffs

October 2, 1992.

Take notice that on September 30, 1992, Williston Basin Interstate Pipeline Company (Williston Basin), suite 300, 200 North Third Street, Bismarck, North Dakota 58501, tendered for filing revised tariff sheets to its FERC Gas Tariff.

These revised tariff sheets reflect the recalculation of rates to incorporate the fourth conversion of firm sales service to firm transportation service by a Williston Basin sales customer. Williston Basin has requested a November 1, 1992 effective date for the revised tariff sheets.

Williston Basin states that copies of the filing has been served upon Williston Basin's customer.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding must file a motion to intervene. Copies of the filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24422 Filed 10-7-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. TQ93-1-49-000 and TM93-2-49-000]

Williston Basin Interstate Pipeline Co.; Purchased Gas Adjustment Filing

October 2, 1992.

Take notice that on September 30, 1992, Williston Basin Interstate Pipeline Company (Williston Basin), 200 North Third Street, suite 300, Bismarck, North Dakota 58501, tendered for filing as part of its FERC Gas Tariff the following revised tariff sheets:

First Revised Volume No. 1

5th Rev Alt 43rd Revised Sheet No. 10

Original Volume No. 1-A

5th Rev Alt 36th Revised Sheet No. 11
5th Rev Alt 41st Revised Sheet No. 12
3rd Rev Alt 22nd Revised Sheet No. 97A

Original Volume No. 1-B

5th Rev Alt 31st Revised Sheet No. 10
5th Rev Alt 31st Revised Sheet No. 11

Original Volume No. 2

5th Rev Alt 43rd Revised Sheet No. 10
5th Rev Alt 37th Revised Sheet No. 11B

The proposed effective date of the tariff sheets is November 1, 1992.

Williston Basin states that 5th Rev Alt 43rd Revised Sheet No. 10 (First Revised Volume No. 1) reflects a decrease in the Current Gas Cost Adjustment applicable to Rate Schedules G-1, SGS-1 and E-1 of 11.134 cents per dkt as compared to that contained in the Company's June 15, 1992 filing in Docket Nos. TA92-2-49-000 and TM92-7-49-000 which became effective August 1, 1992.

Williston Basin further states that 5th Rev Alt 36th Revised Sheet No. 11, 5th Rev Alt 41st Revised Sheet No. 12 and 3rd Rev Alt 22nd REvised Sheet No. 97A (Original Volume No. 1-A), 5th REv Alt 31st Revised Sheet Nos. 10 and 11 (Original Volume No. 1-B), 5th Rev Alt 43rd Revised Sheet No. 10 and 5th Rev Alt 37th Revised Sheet No. 11B (Original Volume No. 2) reflected revisions to the fuel reimbursement charge and percentage components of the Company's relevant gathering, transportation and storage rates as compared to that contained in the Company's June 15, 1992 filing in Docket Nos. TA92-2-49-000 and TM92-7-49-000. Such changes in the fuel reimbursement charges and percentages are a result of the changes in Williston Basin's average cost of purchased gas.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before October 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding must file a motion to intervene. Copies of the filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

Office of Fossil Energy

[FE Docket No. 89-19-NG]

Wisconsin Power and Light Co.; Order Granting Interim Authority to Import Natural Gas From Canada

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of interim order.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice that on September 29, 1992, it issued DOE/FE Opinion and Order No. 362-A which temporarily extends the import authorization granted Wisconsin Power and Light Company (WPL) on December 18, 1989, in DOE/FE Opinion and Order No. 362 (1 FE ¶ 70,278). DOE extended the previous authorization beyond its expiration date of September 30, 1992, to enable WPL to continue importing up to 10,718 Mcf of gas per day from TransCanada PipeLines Limited, and up to 100,000 Mcf per day of spot market gas until DOE issues a final decision on WPL's pending import application filed September 21, 1992, in FE Docket No. 92-121-NG. The interim order ensures there will be sufficient supplies of gas for customers served by WPL's distribution system during the 1992-1993 winter heating season.

Issued in Washington, DC on October 1, 1992.

Charles F. Vacek,

Deputy Assistant Secretary for Fuels Programs, Office of Fossil Energy.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL-4519-5]

Agency Information Collection Activities Under OMB Review

AGENCY: Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden.

DATES: Comments must be submitted on or before November 9, 1992.

FOR FURTHER INFORMATION OR TO OBTAIN A COPY OF THIS ICR, CONTACT: Sandy Farmer at EPA, (202) 260-2740.

SUPPLEMENTARY INFORMATION:

Office of Environmental Education

Title: National Environmental Education Awards Application Form (EPA No. 1622.01).

Abstract: This ICR is a new collection in support of the National Environmental Education Awards Program established by the National Environmental Education Act (NEEA) under Public Law 101-169, section 8. Each year, in accordance with the NEEA, the National Environmental Education Advisory Council (NEEAC) will select three individuals for each of four awards. The EPA Administrator will then select a single recipient for one of these awards. The four awards are: 1) the 'Theodore Roosevelt Award', 2) the 'Henry David Thoreau Award', 3) the 'Rachel Carson Award' and the 4) 'Gifford Pinchot Award'. They are to be awarded to individuals for outstanding achievements in various fields of environmental education.

Following approval of this ICR, applicants will be required to complete and submit the National Environmental Education Award Application to EPA representatives from the Office of Environmental Education (OEE). The application will gather specific information on the applicant, the applicant's achievement, and the relevance of this achievement to environmental education and to a particular award. Applicants will also be required to submit a sample of their original work and a resume.

OEE representatives will screen the applications to ensure that the basic requirements, as outlined in the NEEA, are fulfilled. The information will then be compiled and presented to the NEEAC for the selection of candidates.

Burden Statement: Public reporting burden for this collection of information is estimated to average 1 hour per response including time for reviewing instructions, searching existing data sources, gathering and maintaining data, and completing and reviewing the application.

Respondents: Eligible individuals, as described in the NEEA.

Estimated Number of Respondents: 300.

Estimated Number of Responses per Respondent: 1.

Frequency of Collection: On occasion.

Estimated Total Annual Burden on Respondents: 300 hours.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, to:

Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (PM-223Y), 401 M Street, SW., Washington, DC, 20460.

and

Tim Hunt, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th St., NW., Washington, DC, 20503.

Dated: September 30, 1992.

SUPPLEMENTARY INFORMATION:

Office of Water

Title: Modification of Secondary Treatment Requirements for Discharges into Marine Waters (ICR No. 0138.04)

Abstract: Section 301(h) of the Clean Water Act (CWA) states that Publicly Owned Treatment Works (POTWs) discharging pollutants into certain marine waters may apply for and be granted a waiver from secondary treatment requirements for conventional pollutants if the POTW meets particular regulatory conditions. EPA can only issue this waiver with the concurrence of the State in which the POTW is located. Section 301(h) also established a deadline of December 31, 1982 for waiver applications.

At present, EPA has received most of the information it needs to make initial decisions on waiver approvals and is receiving no new waiver applications. However, the Agency is accepting further application information from POTWs in two cases: 1) where the POTW chooses to submit a revised application and 2) where a permittee seeks renewal of an expiring permit.

To be granted a waiver, POTWs must have demonstrated that they meet nine water quality criteria and that they have established monitoring programs. Two of these criteria were recently added under sections 303(c) and 303(d) of the 1987 Water Quality Act (WQA). First, waiver applicants serving populations of 50,000 or more must demonstrate that industrial sources discharging toxic pollutants are in compliance with applicable pretreatment requirements. Second, these same respondents must demonstrate that they each have a pretreatment program which, together with the POTW's treatment process, eliminates the same amount of pollutants as would be the case if the POTW had a secondary treatment process.

States are responsible for determining compliance with two of the nine criteria. Namely, they must verify that: 1) an applicable water quality standard exists for the pollutant for which a permit modification is requested and 2) that a POTW's discharge does not bring about additional requirements for other point or nonpoint sources.

In addition, under section 401(a)(1) of the CWA, States must certify that the permits EPA issues comply with all State laws.

Burden Statement: The average burden associated with the present collection is 461 hours per response. This total includes time for searching existing data sources, gathering the data

needed, and completing and reviewing the collection of information.

Respondents: Publicly owned treatment works, States.

Estimated No. of Respondents: 63.

Estimated Total Annual Burden on Respondents: 75,093 hours.

Frequency of Collection: Variable.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, to:

Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (PM–223Y), 401 M Street, SW., Washington, DC, 20460.

and

[FRL–4520–1]

Open Meeting of the EPA Border Environmental Plan Public Advisory Committee; Meeting Agenda

INTRODUCTION: The EPA Border Environmental Plan Public Advisory Committee (the "Advisory Committee") was established on March 28, 1992 pursuant to the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2, to advise the EPA Administrator on matters concerning the Agency's involvement in the protection and enhancement of the environment within the U.S.-Mexico border area (the "Border Area"), an area extending 100 kilometers (62 miles) on either side of the U.S.-Mexico border. The Advisory Committee also makes recommendations to the EPA Administrator on the implementation of the Integrated Environmental Plan for the Mexican-U.S. Border Area (First Stage, 1992–1994) (the "Border Plan").

TIME, PLACE AND PURPOSE: The EPA Border Environmental Plan Public Advisory Committee will meet on Monday, November 9 and Tuesday, November 10, 1992 in El Paso, Texas. On Monday, November 9, the meeting will take place at the Hotel Westin Paso del Norte, 101 S. El Paso Street, El Paso, Texas 79901, and will run from 8:30 a.m. to 5 p.m., with additional discussion time until 8 p.m., if necessary. There will be a break for lunch between Noon and 2 p.m. On Tuesday, November 10, members of the Advisory Committee and interested members of the public will visit one or more U.S. "colonias" in the vicinity of El Paso, and will attend a briefing a the offices of the International Boundary and Water Commission (IBWC), located at 4171 N. Mesa, Suite 310, El Paso, Texas 79902, as set out in the agenda below. Activities will run from 9 a.m. to Noon.

The purpose of this meeting is to review the issues raised at the Santa Fe, New Mexico meeting of the Advisory Committee held in June 1992, and to determine appropriate follow-up activities.

AGENDA:

Monday, November 9, 1992

8:30–9 a.m.: Welcome; presentation of the agenda

9–10:30: Discussion of the administration of the Advisory Committee, including further discussion of and a new vote on the Steering Committee

10:30–Noon: Presentations on Border Plan related activities by EPA Regions 6 and 9; circulation of the minutes of the June 1992 meeting of the full Advisory Committee

Noon–2 p.m.: Lunch

2–4: General discussion

4–5: Summary of proceedings

5–8: Additional time for discussion (if needed)

Tuesday, November 10, 1992

9–10:30 a.m.: Visit to one or more U.S. "colonias" in the vicinity of El Paso

11–Noon: Briefing at the offices of the International Boundary and Water Commission (IBWC) on IBWC programs:

PUBLIC PARTICIPATION: The meeting will be open to the public. All persons desiring to attend are encouraged to inform Sylvia I. Correa, the Designated Federal Officer for the EPA Border Environmental Plan Public Advisory Committee, at the address or telefax numbers listed below, no later than 5 p.m. on October 28, 1992. At the November 9 session, seating for interested members of the public, which is limited, will be available on a first-come, first-served basis. There will be a sign-up sheet at the November 9 session for a limited number of interested members of the public to indicate their desire to participate in the site visit(s) and briefing in the morning of November 10, the details of which will be announced at the November 9 session. These individuals must supply their own transportation.

Public comments to the Advisory Committee can be made at any time through the submission of written statements. Written statements to be reviewed by Advisory Committee members prior to the November meeting must be received by Sylvia Correa, at the address or telefax numbers listed below, no later than 5 p.m. on October 28, 1992.

FOR FURTHER INFORMATION CONTACT: Sylvia I. Correa, Designated Federal Officer for the EPA Border Environmental Plan Public Advisory Committee, Office of International Activities, Mail Code A–106, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460; telephone: (202) 260–4890; telefax: (202) 260–8512 or (202) 260–4470.

Dated: October 2, 1992.

Sylvia I. Correa,

Designated Federal Officer for the EPA Border Environmental Plan, Public Advisory Committee, Office of International Activities, U.S. Environmental Protection Agency.

BILLING CODE 6560–50–M

FARM CREDIT SYSTEM INSURANCE CORPORATION

Statement of Policy on Assistance to Operating Insured System Banks

AGENCY: Farm Credit System Insurance Corporation.

ACTION: Comment period extension.

SUMMARY: On September 8, 1992 (57 FR 40912) the Farm Credit System Insurance Corporation (Corporation) published, with a request for comments, a notice of its intention to adopt a policy statement setting forth the circumstances under which financial assistance to operating institutions will be considered, and the terms and conditions which would likely be imposed in conjunction with the granting of assistance. The comment period will expire on October 8, 1992. In order to allow affected organizations additional time to respond, the Board of Directors of the Corporation extends the comment period until November 16, 1992, and invites public comment on such terms and conditions of assistance to operating insured System banks.

DATES: The comment period is extended until November 16, 1992. Comments must be submitted on or before that date.

ADDRESSES: Comments should be mailed or delivered (in triplicate) to G. Michael Dew, Director, Risk Management Division, Farm Credit System Insurance Corporation, Mclean, Virginia 22102–0626. Copies of all comments received will available for examination by interested parties in the offices of the Farm Credit System Insurance Corporation, 1501 Farm Credit Drive, McLean, Virginia.

FOR FURTHER INFORMATION CONTACT: G. Michael Dew, Director, Risk Management Division, Farm Credit System Insurance Corporation, P.O. Box 9626, McLean, VA 22102-0626, (703) 883-4385, TDD (703) 883-4455.

SUPPLEMENTARY INFORMATION: Section 5.61 of the Farm Credit Act of 1971 (the Act) provides the Farm Credit System Insurance Corporation (Corporation) with authority, in its sole discretion, to provide assistance to insured banks as that term is defined in § 5.61. Given the importance of the provisions of § 5.61, the Corporation extends the comment period until November 16, 1992, and invites public comment on the terms and conditions which would likely be imposed in conjunction with the granting of assistance to operating insured System banks.

Dated: February 9, 1992.

Curtis M. Anderson,

Secretary, Board of Directors, Farm Credit System Insurance Corporation.

Editorial Note: This document was received at the Office of the Federal Register on October 5, 1992.

FEDERAL COMMUNICATIONS COMMISSION

FCC to Hold En Banc Hearing Friday, October 9, 1992

October 2, 1992.

The Federal Communications Commission will hold an *en banc* hearing on Toll Fraud issues. The hearing is scheduled to begin at 9 a.m. on Friday, October 9, 1992, in room 856, at 1919 M Street, NW., Washington, DC, and will continue all day.

The hearing will be open to the public; however, seating is limited. Overflow seating will be available in rooms 315 and 535.

For more information contact Linda Dubroof, Common Carrier Bureau, at (202) 634-1800. The contact for media coverage is Steve Svab, Office of Public Affairs, at (202) 632-5050.

Issued: October 2, 1992.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

Board of Scientific Counselors, Agency for Toxic Substances and Disease Registry; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Agency for Toxic Substances and Disease Registry (ATSDR) announces the following committee meeting.

NAME: Board of Scientific Counselors, ATSDR.

TIMES AND DATES:

8:30 a.m.-5 p.m., November 5, 1992.

7 p.m.-9 p.m., November 5, 1992.

8:30 a.m.-3:45 p.m., November 6, 1992.

PLACE: The Westlin Peachtree Plaza Hotel, Confederate Room/Six Flags Suite, Peachtree at International Boulevard, NE., Atlanta, Georgia 30343.

STATUS: The entire meeting will be open to the public.

PURPOSE: The Board of Scientific Counselors, ATSDR, advises the Administrator, ATSDR, on ATSDR programs to ensure scientific quality, timeliness, utility, and dissemination of results. Specifically, the Board advises on the adequacy of the science in ATSDR-supported research, emerging problems that require scientific investigation, accuracy and currency of the science in ATSDR reports, and program areas to emphasize and/or to de-emphasize.

AGENDA: The agenda will include:

- Emergency response and consultation activities: Overview, issues, and Agency plan.
- Does Reconstruction: Science issues and research plans.
- Minority Health Initiative update: Waste site demographics, health conditions, health risk communication, and minorities in environmental health.
- Great Lakes Applied Research Program: Meeting of research grantees and overview of study protocols.
- Applied Research Program of the Association of Minority Health Professions Schools: Overview of ATSDR-funded research.
- Public Health Assessments: Science issues and future directions.
- ATSDR Cancer Policy Framework: Update.

Written comments are welcome and should be received by the contact person listed below prior to the opening of the meeting.

CONTACT PERSON FOR MORE INFORMATION: Charles Xintaras, Sc.D., Executive Secretary, Board of Scientific Counselors, ATSDR, Mailstop E-28, 1600 Clifton Road, NE., Atlanta, Georgia 30333, telephone 404/639-0708.

Elvin Hilyer,

Associate Director for Policy Coordination.

BILLING CODE 4160-70-M

Agency For Toxic Substances and Disease Registry

[ATSDR-59]

Availability of Draft Toxicological Profiles

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Public Health Service (PHS), Department of Health and Human Services (HHS).

ACTION: Notice of availability.

SUMMARY: The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) (42 U.S.C. 9604(i)(3)) directs the Administrator of ATSDR to prepare toxicological profiles of priority hazardous substances and to revise and republish each toxicological profile as necessary. This notice announces the availability of 10 updated drafts and 5 new draft toxicological profiles prepared by ATSDR for review and comment. The original versions of the updated profiles were released for comment on August 14, 1990.

DATES: To ensure consideration, comments on these draft toxicological profiles must be received on or before February 19, 1993. Comments received after the close of the public comment period will be considered at the discretion of ATSDR based upon what is deemed to be in the best interest of the general public.

ADDRESSES: Requests for copies of the draft toxicological profiles or comments regarding the draft toxicological profiles should be sent to the attention of Ms. Susie Tucker, Division of Toxicology, Agency for Toxic Substances and Disease Registry, Mailstop E-29, 1600 Clifton Road, NE., Atlanta, Georgia 30333.

Requests for the draft toxicological profiles must be in writing. Please specify the profiled hazardous substance(s) you wish to receive. ATSDR reserves the right to provide only one copy of each profile requested, free of charge. In case of extended distribution delays, requestors will be notified.

Written comments and other data submitted in response to this notice and the draft toxicological profiles should bear the docket control number ATSDR-59. Send one copy of all comments and three copies of all supporting documents to the Division of Toxicology at the above address by the end of the comment period. All written comments and draft profiles will be available for public inspection at the ATSDR, Building 4, Executive Park Drive, Atlanta, Georgia (not a mailing address), from 8 a.m. until 4:30 p.m., Monday through Friday, except for legal holidays. Because all public comments regarding ATSDR toxicological profiles are available for public inspection, no confidential business information should be submitted in response to this notice.

FOR FURTHER INFORMATION CONTACT: Ms. Susie Tucker at the Division of Toxicology, Agency for Toxic Substances and Disease Registry, Mailstop E-29, 1600 Clifton Road, NE., Atlanta, Georgia 30333, telephone (404) 639-6300.

SUPPLEMENTARY INFORMATION: The Superfund Amendments and Reauthorization Act (SARA) (Pub. L. 99-499) amends the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund) (42 U.S.C. 9601 et seq.) by establishing certain requirements for the ATSDR and the Environmental Protection Agency (EPA) with regard to hazardous substances which are most commonly found at facilities on the CERCLA National Priorities List (NPL). Among these statutory requirements is a mandate for the Administrator of ATSDR to prepare toxicological profiles for each substance included on the priority lists of hazardous substances. These lists identified the 275 hazardous substances which both Agencies determined pose the most significant potential threat to human health. The lists were published in the **Federal Register** on April 17, 1987, (52 FR 12866); October 20, 1988, (53 FR 41280); October 26, 1989, (54 FR 43615); and October 17, 1990, (55 FR 42067). CERCLA also requires ATSDR to assure the initiation of a research program to fill data needs associated with the substances.

Section 104(i)(3) of CERCLA (42 U.S.C. 9604(i)(3)) outlines the content of these profiles. Each profile is required to include an examination, summary and interpretation of available toxicological information and epidemiologic evaluations. This information and data are to be used to ascertain the levels of significant human exposure for the substance and the associated health effects. The profiles must also include a determination of whether adequate information on the health effects of each substance is available or in the process of development. When adequate information is not available, ATSDR, in cooperation with the National Toxicology Program (NTP), is required to assure the initiation of a program of research designed to determine these health effects.

Although key studies for each of the substances were considered during the profile development process, this **Federal Register** notice seeks to solicit any additional studies, particularly unpublished data and ongoing studies, which will be evaluated for possible addition to the profiles now or in the future.

The following draft toxicological profiles are expected to be available to the public on or about October 17, 1992.

Document	Hazardous substance	CAS number
1	Acetone	67-64-1
2	Carbon Tetrachloride	56-23-5
3	Chlordane	57-74-9
4	Chlorodibenzofurans	No CAS #
5	4,4'-DDE, DDD, DDT	50-29-3, 72-54-8, 72-55-9
6	1,2-Dichloroethane	107-06-2
7	1,1-Dichloroethene	75-34-4
8	Hexachlorobutadiene	87-68-3
9	Hexachlorocyclohexanes	58-89-9, 319-84-6, 319-85-7, 319-86-8
10	4,4'-Methylenebis(2-chloroaniline) (MBOCA)	101-14-4
11	Mercury	7439-97-6
12	Methoxychlor	72-43-5
13	Pentachlorophenol	87-86-5
14	Toluene	108-88-3
15	Zinc	7440-66-6

All profiles issued as "Drafts for Public Comment" represent the agency's best efforts to provide important toxicological information on priority hazardous substances in compliance with the substantive and procedural requirements of section 104(i)(3) of CERCLA, as amended. As in the past, we are seeking public comments and additional information which may be used to supplement these profiles. ATSDR remains committed to providing a public comment period for these documents as a means to best serve public health and our constituency.

Dated: October 1, 1992.

William L. Roper,

Administrator, Agency for Toxic Substances and Disease Registry.

[FR Doc. 92-24442 Filed 10-7-92; 8:45 am]

BILLING CODE 4160-70-M

Centers for Disease Control

Savannah River Site Environmental Dose Reconstruction Project: Public Meetings

The National Center for Environmental Health (NCEH), Centers for Disease Control (CDC), announces the following meetings:

Name: Savannah River Site Environmental Dose Reconstruction Project.

Date: October 26, 1992; November 2, 1992; November 4, 1992.

Time: 7 p.m.–9 p.m.; 7 p.m.–9 p.m.; 7 p.m.–9 p.m.

Place: Town House Hotel, 1615 Gervais Street, Columbia, South Carolina 29201; Hilton Desoto, South Harbor View, Meeting Room, 15 East Liberty Street, Savannah, Georgia 31401; City Manager's Office, Meeting Room 101; 215 "The Alley", Aiken, South Carolina 29802.

Status: Open to the public for observation and comment, limited only by space available. The meeting rooms accommodate approximately 200 people.

Purpose: Under a Memorandum of Understanding (MOU) with the Department of Energy (DOE), the Department of Health and Human Services has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production and use.

An initial step in an analytic epidemiologic study for persons living offsite of a given DOE facility is the reconstruction of radiation doses due to releases from that facility. CDC is beginning such an environmental dose reconstruction for DOE's Savannah River Site near Aiken, South Carolina. A contractor has been selected to begin gathering the data necessary to perform the dose reconstruction and to provide for public involvement in all aspects of this project. The purpose of these public meetings is to introduce the contractor to the community, to outline the project for the public, and to solicit individual public comments and suggestions on all aspects of the dose reconstruction.

Agenda items are subject to change as priorities dictate.

CONTACT PERSON FOR MORE INFORMATION: Paul Renard, Radiation Studies Branch, Division of Environmental Hazards and Health Effects, NCEH, CDC, 4770 Buford Highway NE, (F-35), Atlanta, Georgia, 30341-3724, telephone 404/488-7040.

Elvin Hilyer,

Associate Director for Policy Coordination, Centers for Disease Control.

[FR Doc. 92-24444 Filed 10-7-92; 8:45 am]

BILLING CODE 4160-18-M

Tuberculosis Transmission in Health-Care Settings; Meeting

The Centers for Disease Control (CDC) announces an open meeting to review and assess the need to revise the current CDC guidelines for reducing the risk of tuberculosis transmission in health-care settings, "Guidelines for Preventing the Transmission of Tuberculosis in Health-Care Settings, with Special Focus on HIV-Related Issues," Morbidity and Mortality Weekly Report (MMWR) 1990; 39 [No. RR-17]: 1-29.

Name: Issues in Preventing Tuberculosis Transmission in Health-Care Facilities.

Times and Dates: 8:30 a.m.–5 p.m., October 22, 1992; 8:30 a.m.–1 p.m., October 23, 1992.

Place: CDC, Auditorium B, 1600 Clifton Road, NE., Atlanta, Georgia 30333.

Status: Open to the public, limited only by the space available.

CONTACT FOR ADDITIONAL INFORMATION: Organizations and persons who wish to obtain background materials and an agenda for the meeting may contact the National Center for Infectious Diseases, CDC, 1600 Clifton Road, NE, Mailstop C-20, Atlanta, Georgia 30333, Attention: Diane Holley, telephone (404) 639-0044, FAX (404) 639-3853.

NOTIFICATION OF ATTENDANCE: If you or other representatives of your organization plan to attend the meeting, please provide name(s), organization, address, and telephone and FAX numbers to the contact shown above by October 16, 1992. There is no registration fee.

SUPPLEMENTARY INFORMATION:

A. Background

In 1990, CDC published "guidelines for Preventing the Transmission of Tuberculosis in Health-Care Settings, with Special focus on HIV-Related Issues," (MMWR 1990; 39 [No. RR-17]: 1-29). The 1990 guidelines address a variety of issues, including identification of persons with potentially infectious tuberculosis; isolation precautions for tuberculosis patients; engineering controls, such as ventilation and ultraviolet irradiation; health-care worker tuberculosis screening; and personal respiratory protection.

Recently, the National Institute for Occupational Safety and Health (NIOSH), CDC, prepared and submitted to the Occupational Safety and Health Administration a risk assessment regarding the use of personal respiratory protection in preventing tuberculosis transmission in health-care facilities ("NIOSH Recommended Guidelines for Personal Respiratory Protection of Workers in Health-Care Facilities Potentially Exposed to Tuberculosis" [September 14, 1992]).

B. Meeting

CDC will hold an open meeting on October 22-23, 1992, to review and assess the need to revise the 1990 CDC guidelines for reducing the risk of tuberculosis transmission in health-care settings. The meeting will bring together experts in tuberculosis prevention and control; nosocomial infection prevention; occupational safety and health and biosafety; as well as representatives of labor, medical, and hospital administration organizations; and other interested persons or organizations. The meeting will cover a range of issues related to tuberculosis infection control, including patient management; tuberculosis isolation precautions; engineering controls, such as ventilation and ultraviolet irradiation; health-care worker tuberculosis screening; and personal respiratory protection, including discussion of the September 14, 1992, NIOSH guidelines. Information from this meeting will be considered in assessing the need to revise the 1990 CDC guidelines.

C. Subsequent Comment Period

Written comments containing research findings, relevant data, or responses to the information presented during this open meeting will be considered by CDC if received on or before November 27, 1992. Comments should be submitted in writing to Ms. Holley at the address shown above.

D. Transcript

The proceedings of this meeting will be transcribed. Any interested person may, consistent with the orderly conduct of the meeting, record or otherwise transcribe the meeting.

Dated: October 2, 1992.

Elvin Hilyer,

Associate Director for Policy Coordination, Centers for Disease Control.

[FR Doc. 92-24448 Filed 10-7-92; 8:45 am]

BILLING CODE 4160-18-M

National Committee on Vital and Health Statistics (NCVHS) Subcommittee on Mental Health Statistics; Meeting

Pursuant to Public Law 92-463, the National Center for Health Statistics (NCHS), Centers for Disease Control, announces the following committee meeting:

Name: NCVHS Subcommittee on Mental Health Statistics.

Time and Date: 9:30 a.m.-4 p.m., October 29, 1992.

Place: Room 337A-339A, Hubert H. Humphrey Building, 200 Independence Avenue, SW., Washington, DC 20201.

Status: Open.

Purpose: The subcommittee will hold discussions around potential future subcommittee activities including the collection and analysis of institutional and person-oriented longitudinal data on children and youth with mental disorders, and recent developments in the area of disability statistics.

Contact Person for More Information: Substantive program information as well as summaries of the meeting and a roster of committee members may be obtained from Gail F. Fisher, Ph.D., Executive Secretary, NCVHS, NCHS, room 1100, Presidential Building, 6525 Belcrest Road, Hyattsville, Maryland 20782, telephone number 301/436-7050.

Elvin Hilyer,

Associate Director for Policy Coordination Centers for Disease Control.

BILLING CODE 4160-18-M

National Committee on Vital and Health Statistics (NCVHS) Subcommittee on Medical Classification Systems; Meeting

Pursuant to Public Law 92-463, the National Center for Health Statistics (NCHS), Centers for Disease Control, announces the following meeting (working session):

Name: NCVHS Subcommittee on Medical Classification Systems.

Time and Date: 9 a.m.-12 noon, November 4, 1992.

Place: Room 303A-305A, Hubert H. Humphrey Building, 200 Independence Avenue, SW., Washington, DC 20201.

Status: Open.

Purpose: The subcommittee will discuss the benefits of a single procedure classification system and the subcommittee's work plan for fiscal year 1993.

Contact Person For More Information: Substantive program information as well as summaries of the meeting and a roster of committee members may be obtained from Gail F. Fisher, Ph.D., Executive Secretary, NCVHS, NCHS, room 1100, Presidentail Building, 6525 Belcrest Road, Hyattsville, Maryland 20782, telephone 301/436-7050.

BILLING CODE 4160-18-M

Food and Drug Administration

[Docket No. 92N-0378; DESI 10520]

Levo-Dromoran Injection and Tablets; Drugs for Human Use; Drug Efficacy Study Implementation; Final Evaluation

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces that Levo-Dromoran (levorphanol tartrate) injection and tablets are effective for the management of pain or as a premedicant where an opioid analgesic is appropriate. FDA further announces the conditions for the approval and marketing of the drug for this use.

DATES: Revised labeling in accordance with this notice shall be put into use by December 7, 1992. Revised labeling and supplements are due on or before December 7, 1992.

ADDRESSES: Communications in response to this notice should be identified with the reference number DESI 10520, and directed to the attention of the appropriate office named below.

Revised labeling and supplements to full new drug applications (NDA's) (identify with NDA number): Pilot Drug Evaluation Staff (HFD-7), Center for Drug Evaluation and Research, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

Original abbreviated new drug applications and supplements thereto (identify as such): Office of Generic Drugs (HFD-600), Center for Drug Evaluation and Research, Food and Drug Administration, Metropark North #2, 5600 Fishers Lane, Rockville, MD 20857.

Requests for the applicability of this notice to a specific product: Division of Drug Labeling Compliance (HFD-310), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855.

FOR FURTHER INFORMATION CONTACT: Megan L. Foster, Center for Drug Evaluation and Research (HFD-366), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301-295-8041.

SUPPLEMENTARY INFORMATION:

Background

The following NDA's are the subject of this notice:

NDA 8-719 for Levo-Dromoran Injection, containing 2 milligrams per milliliter (mg/mL) levorphanol tartrate; held by Roche Pharmaceuticals (Roche), Division of Hoffmann-LaRoche, Inc., Nutley, NJ 07110.

NDA 8-720 for Levo-Dromoran Tablets, containing 2 mg levorphanol tartrate; held by Roche.

In a notice published in the **Federal Register** of July 9, 1966 (31 FR 9426), all holders of new drug applications that became effective before October 10, 1962, on the basis of a showing of safety, were requested to submit to FDA reports containing the best data available in support of the effectiveness of their products for the claimed indications. Roche, the holder of NDA's 8-719 and 8-720, did not submit data on Levo-Dromoran. Consequently, Levo-Dromoran was not included in the Drug Efficacy Study Implementation (DESI) review conducted by the National Academy of Sciences-National Research Council (NAS-NRC).

In a notice published in the **Federal Register** of November 19, 1975 (40 FR 53609), FDA invited firms that were not included in the NAS-NRC review to supplement their NDA's with data and information concerning effectiveness. Pursuant to this notice, which listed NDA's 8-719 and 8-720, Roche provided efficacy supplements in support of the use of levorphanol tartrate for the management of pain or as a premedicant. FDA has evaluated these data and determined that they provide substantial evidence of effectiveness for those indications.

Levorphanol tartrate is regarded as a new drug under section 201(p) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 321(p)), and an approved application under section 505 of the act (21 U.S.C. 355) is required for marketing.

In addition to the product specifically named above, this notice applies to any product that is not the subject of an approved application and is identical to the product named above. It may also be

applicable, under 21 CFR 310.6, to a similar or related drug product that is not the subject of an approved application. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product that the person manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product by writing to the Division of Drug Labeling Compliance (address above).

A. Effectiveness Classification

FDA has reviewed all available evidence and concludes that levorphanol tartrate injection and tablets are effective for the indications listed in the labeling conditions below.

B. Conditions for Approval and Marketing

FDA is prepared to approve abbreviated new drug applications that meet the relevant requirements of section 505(j) of the act (21 U.S.C. 355(j)), as well as the conditions described herein. The listed drug under section 505(j)(6) of the act for levorphanol tartrate injection is Roche's Levo-Dromoran Injection 2 mg/mL. The listed drug for levorphanol tartrate tablets is Roche's Levo-Dromoran Tablets 2 mg.

The agency is also prepared to approve supplements to previously approved NDA's under conditions described herein.

1. *Form of drug.* The injectable drug product contains 2 mg/mL of levorphanol tartrate and is suitable for injection, and the oral drug product contains 2 mg of levorphanol tartrate and is suitable for oral administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The indication is as follows: Levorphanol tartrate is indicated for the management of pain or as a premedicant where an opioid analgesic is appropriate.

3. *Marketing status.* a. *Approved products.* Marketing of the drug products that are now the subject of an approved or effective NDA may be continued provided that, on or before December 7, 1992, the holder of the application has submitted (i) revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted (this submission should be identified as "FPL for approved supplements 8719/S008 and 8720/S006"), and (ii) a supplement to provide updating information with respect to the composition, manufacture, and specifications of the drug substance and the drug product as described in 21 CFR 314.50(d)(1)(i) and (d)(1)(ii). Revised labeling in accordance with the labeling conditions described above shall be put into use on or before December 7, 1992. Approval of the revised labeling is not required before it is used.

b. *Other products.* Approval of an abbreviated new drug application must be obtained in accordance with section 505(j) of the act before marketing such products. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505 (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Center for Drug Evaluation and Research (21 CFR 5.70).

Dated: September 18, 1992.

D. B. Burlington,

Acting Director, Center for Drug Evaluation and Research.

BILLING CODE 4160-01-F

National Institutes of Health

National Institute of Allergy and Infectious Diseases; Meeting; Allergy, Immunology, and Transplantation Research Committee

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Allergy, Immunology, and Transplantation Research Committee on October 27, 1992, at the Holiday Inn Crowne Plaza, 1750 Rockville Pike, Rockville, Maryland 20852.

The meeting will be open to the public from 8:15 a.m. to 10 a.m. on October 27, to discuss administrative details relating to committee business and for program review. Attendance by the public will be limited to space available. In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5, U.S.C. and section 10(d) of Public Law 92-463, the meeting will be closed to the public for the review, discussion, and evaluation of individual grant applications and contract proposals from 10 a.m. until adjournment on October 27. These applications, proposals, and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications and proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Ms. Patricia Randall, Office of Research Reporting and Public Response, National Institute of Allergy and Infectious Diseases, Building 31, room 7A32, National Institutes of Health, Bethesda, Maryland 20892, telephone 301-496-5717, will provide summary of the meeting and a roster of the committee members upon request.

Dr. Mark Rohrbaugh, Scientific Review Administrator, Allergy, Immunology and Transplantation Research Committee, NIAID, NIH, Solar Building, room 4C22, Bethesda, Maryland 20892, telephone 301-496-8424, will provide substantive program information.

(Catalog of Federal Domestic Assistance Program Nos. 93.855, Immunology, Allergic and Immunologic Diseases Research, National Institutes of Health.)

Dated: September 24, 1992.

Susan K. Feldman,

Committee Management Officer, NIH.

BILLING CODE 4140-01-M

Division of Research Grants; Meetings

Pursuant to Public Law 92-463, notice is hereby given of the meetings of the following study sections for October through November 1992, and the individuals from whom summaries of meetings and rosters of committee members may be obtained.

These meetings will be open to the public for approximately one-half hour at the beginning of the first session of the first day of the meeting during the discussion of administrative details relating to study section business. Attendance by the public will be limited to space available. These meetings will be closed thereafter in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5, U.S.C. and section 10(d) of Public Law 92-463, for the review, discussion and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

The Office of Committee Management, Division of Research Grants, Westwood Building, National

Institutes of Health, Bethesda, Maryland 20892, telephone 301–496–7534 will furnish summaries of the meetings and rosters of committee members. Substantive program information may be obtained from each scientific review administrator, whose telephone number is provided. Since it is necessary to schedule study section meetings months in advance, it is suggested that anyone planning to attend a meeting contact the scientific review administrator to confirm the exact date, time and location. All times are a.m. unless otherwise specified.

BILLING CODE 4140–01–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. D–92–1005; FR–3199–D–01]

Amendment to the Consolidated Delegations of Authority for Housing for the Congregate Housing Services Program

AGENCY: Office of the Secretary, HUD.

ACTION: Notice of amendment to the Consolidated Delegations of Authority for Housing.

SUMMARY: This Notice amends the Consolidated Delegations of Authority for Housing published in the **Federal Register** on May 22, 1989, at 54 FR 22033, to authorize the Assistant Secretary for Housing-Federal Housing Commissioner to administer the Congregate Housing Services Program ("CHSP") pursuant to section 802 of the National Affordable Housing Act ("NAHA") (42 U.S.C. 8011), in addition to title IV of the Housing and Community Development Act of 1978 (42 U.S.C. 8001 *et seq.*).

EFFECTIVE DATE: September 30, 1992.

FOR FURTHER INFORMATION CONTACT: Jerold S. Nachison, Elderly and Handicapped People Division, Office of Elderly and Assisted Housing, Department of Housing and Urban Development, 451 7th Street, SW., room 6122, Washington, DC 20410. Telephone (202) 708–3291. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: By Consolidated Delegations of Authority published in the **Federal Register** on May 22, 1989, at 54 FR 22033, the Secretary of Housing and Urban Development delegated to the Assistant Secretary for Housing-Federal Housing Commissioner the power and authority of the Secretary to administer the Congregate Housing Services Program ("CHSP") pursuant to title IV of the Housing and Community Development Amendments of 1978 (42 U.S.C. 8001 *et seq.*)

Section 802 of the National Affordable Housing Act ("NAHA") (42 U.S.C. 8011) established a revised Congregate Housing Services Program. The Dire Emergency Supplemental Appropriations Act of 1991 (Pub. L. 102–27) provides that all funds appropriated under the HUD Appropriations Act of 1991 (Pub. L. 101–507) and all unobligated balances of prior year appropriations available under title IV of the Housing and Community Development Amendments of 1978, shall now be available only under section 802 of NAHA. In order to assure that the Assistant Secretary for Housing-Federal Housing Commissioner has adequate authority to act under past and present law, therefore, the Secretary is amending the Consolidated Delegations of Authority for housing to include authority for the Assistant Secretary for Housing/Federal Housing Commissioner to administer the CHSP under section 802 of the NAHA, in addition to title IV of the Housing and Community Development Act of 1978, as follows:

Item 16 under Section A. Multifamily Housing, of the Consolidated Delegations of Authority dated May 22, 1989 at 54 FR 22033 is hereby amended to read as follows: "Title IV of the

Housing and Community Development Amendments of 1978 (42 U.S.C. § 8001, *et seq.*) and section 802 of the National Affordable Housing Act (42 U.S.C. 8011)."

Authority: Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Dated: September 30, 1992.

Jack Kemp,

Secretary of Housing and Urban Development.

[FR Doc. 92-24513 Filed 10-7-92; 8:45 am]

BILLING CODE 4210-32-M

[Docket No. D-92-1000; FR-3343-D-01]

Delegation of Authority Under the Fair Housing Act

AGENCY: Office of the Secretary, HUD.

ACTION: Notice of delegation of authority.

SUMMARY: By this notice, the Secretary of Housing and Urban Development is delegating to the General Counsel the authority to reopen for purposes of reconsideration determinations of no reasonable cause made by the Assistant Secretary for Fair Housing and Equal Opportunity or determinations of no reasonable cause made by the Directors of the HUD Regional offices for Fair Housing and Equal Opportunity.

EFFECTIVE DATE: September 30, 1992.

FOR FURTHER INFORMATION CONTACT: Harry L. Carey, Assistant General Counsel, Fair Housing Division, Office of the General Counsel, Department of Housing and Urban Development, Room 9238, 451 Seventh Street, SW., Washington, DC 20410-2000, telephone: (202) 708-0570. (This is not a toll-free number.) A telecommunications device for hearing impaired persons (TDD) is available at 1-800-543-8294.

SUPPLEMENTARY INFORMATION: Part 103 of title 24 of the Code of Federal Regulations contains HUD's regulations governing the processing of complaints by members of the public under the Fair Housing Act. Under 24 CFR 103.400, in processing complaints under the Act, the Secretary of Housing and Urban Development has delegated to the General Counsel the authority to make determinations of whether or not reasonable cause exists to believe that discrimination has occurred and to the Assistant Secretary for Fair Housing and Equal Opportunity the authority to make determinations that no reasonable cause exists to believe that discrimination has occurred. In a redelegation of authority published in the **Federal Register** on January 3, 1992, at 57 FR 296, the Assistant Secretary for Fair Housing and Equal Opportunity redelegated his authority under 24 CFR 103.400 to the Directors of the HUD Regional Offices for Fair Housing and Equal Opportunity.

In this notice, the Secretary of Housing and Urban Development is delegating to the General Counsel the authority to reopen for purposes of reconsideration determinations of no reasonable cause made by the Assistant Secretary for Fair Housing and Equal Opportunity or determinations of no reasonable cause made by the Directors of the HUD Regional Offices for Fair Housing and Equal Opportunity. After such reconsideration, the General Counsel may affirm a determination that no reasonable cause exists to believe that a discriminatory housing practice has occurred or is about to occur, issue an independent determination that no reasonable cause exists, or issue a determination that reasonable cause exists to believe that a discriminatory housing practice has occurred or is about to occur.

If, pursuant to this delegation, the General Counsel reopens for purposes of reconsideration a no reasonable cause determination, the General Counsel or his or her designee shall promptly notify all parties to the complaint.

In a notice published in a recent issue of the **Federal Register** (57 FR 45066, September 30, 1992), the General Counsel amended a redelegation of authority published in the **Federal Register** on January 25, 1991, at 56 FR 2931, which redelegated authority to Regional Counsel to make determinations of no reasonable cause in instances specified therein, to clarify that the General Counsel is authorized to reopen for purposes of reconsideration determinations of no reasonable cause made by Regional Counsel, as well as his or her own such determinations. In another notice published in a recent issue of the **Federal Register** (57 FR 45066, September 30, 1992), the Assistant Secretary for Fair Housing and Equal Opportunity amended a redelegation of authority published on January 3, 1992, at 57 FR 296, which redelegated authority to the Directors of the HUD Regional offices for Fair Housing and Equal Opportunity to make determinations of no reasonable cause. The amendment clarifies that the Assistant Secretary for Fair Housing and Equal Opportunity is authorized to reopen for purposes of reconsideration determinations of no reasonable cause made by the Directors of the HUD Regional Offices for Fair Housing and Equal Opportunity, as well as his or her own such determinations.

Accordingly, the Secretary of Housing and Urban Development delegates to the General Counsel the following authority:

The General Counsel is authorized to reopen for purposes of reconsideration determinations made by the Assistant Secretary for Fair Housing and Equal Opportunity or made by the Directors of HUD Regional offices for Fair Housing and Equal Opportunity that no reasonable cause exists to believe that a discriminatory housing practice has occurred or is about to occur. The General Counsel may, after reconsideration, affirm a determination that no reasonable cause exists to believe that a discriminatory housing practice has occurred or is about to occur, issue an independent determination that no reasonable cause exists, or issue a determination that no reasonable cause exists to believe that a discriminatory housing practice has occurred or is about to occur. If the General Counsel reopens for purposes of reconsideration such a no reasonable cause determination, the General Counsel or his or her designee shall promptly notify all parties to the complaint.

Authority: 42 U.S.C. 3600-3619; 42 U.S.C. 3535(d).

Dated: September 30, 1992.

Alfred A. DelliBovi,

Deputy Secretary of Housing and Urban Development.

[FR Doc. 92-24395 Filed 10-7-92; 8:45 am]

BILLING CODE 4210-32-M

[Docket No. N-92-3518; FR-3335-N-01]

"Step-Up": An Employment and Training Program for Public and Indian Housing Residents and Other Low-Income People

AGENCY: Office of the Secretary, HUD.

ACTION: Notice of new program.

SUMMARY: The Department is announcing a new employment and training program, called Step-Up, for public and Indian housing residents and other low-income people. The program is effective immediately; any Public Housing Authorities and Indian Housing Agencies (collectively, HAs) that are interested in sponsoring a Step-Up program should contact the HUD Office of Labor Relations at the address or telephone number below. The program utilizes flexibility in Federal prevailing wage and apprenticeship regulations to provide employment and training opportunities and fundamental support services to HA residents and other low-

income persons, and can provide contractors a vehicle for demonstrating a good faith effort toward meeting Federal affirmative employment and training obligations. Developed with the cooperation of the Department of Labor and the National Association of Housing and Redevelopment Officials, the program can provide many public and Indian housing residents, and other low-income persons, first-time access to maintenance and construction job opportunities, particularly jobs on Davis-Bacon covered construction work. Apprentices spend up to one year in Step-up status, after which they must be placed in appropriate further training or career opportunity positions. (This notice is informational in nature and does not announce funding availability; however, some costs may be eligible expenditures under other existing programs of the Department.)

FOR FURTHER INFORMATION CONTACT: Richard S. Allen, Deputy Assistant to the Secretary for Labor Relations, Department of Housing and Urban Development, 451 7th Street, SW., room 7118, Washington, DC 20410; telephone (202) 708–0370 or (202) 708–9300 (TDD) (these numbers are not toll-free), or 1–800–877–8339 (TDD).

SUPPLEMENTARY INFORMATION:

Background

Step-Up is a program to provide employment, job training, and career opportunities to residents of Public Housing Agency and Indian Housing Authority (collectively, HAs) developments, and other local low-income persons. In addition to on-the-job work experience, Step-Up apprentices will receive support services that may include daycare; transportation; career, educational, financial, and other counseling; and classroom instruction to supplement work experience and develop basic learning and personal skills (e.g., the competencies and foundation skills identified by the Department of Labor Secretary's Commission on Achieving Necessary Skills (SCANS), General Education Diploma (GED) training, and literacy and English language skills). The program can also provide a framework for focusing existing social and other support services toward empowering low-income persons through employment and training. The program is unique because it facilitates the exposure of apprentices to a variety of trades, unlike traditional apprenticeship programs that concentrate on a single trade.

The program will establish a temporary (one-year maximum) first step in a longer-term training and employment continuum. The Department's Office of Labor Relations (HUD/OLR) and the National Association of Housing and Redevelopment Officials (NAHRO) will provide or coordinate technical assistance and oversight for program sponsors and participants. Local programs must develop standards that are based on the National Apprenticeship Standards (Guidelines) that were approved by the Department of Labor's Bureau of Apprenticeship and Training (BAT) for the Step-Up program. BAT, HUD/OLR, and recognized State apprenticeship agencies will assist local sponsors in developing local program standards that meet the Guidelines, and will provide registration of resultant programs and apprentices with the local BAT or State apprenticeship agency, as appropriate.

Program Requirements

(1) *Program Eligibility.* Each proposal to establish a Step-Up program will be reviewed for joint approval by the Headquarters' offices of HUD/OLR and BAT. To be approved, a program must:

(a) Provide for consultation with resident organizations concerning program implementation;

(b) Provide resident preference in recruiting and screening for apprentices;

(c) Assign to Step-Up apprentices the same tasks normally performed by regular apprentices; and

(d) Stipulate that Helpers, as that term is defined by 29 CFR 5.2(n)(4), may not be employed at the same job site as Step-Up apprentices.

(2) *Wages.* The wage rates and ratios of Step-Up apprentices to other workers will be determined and clearly identified in the locally registered apprenticeship standards. These standards may require alternate wage rates if work assignments for Step-Up apprentices will vary between those governed by Davis-Bacon Act (49 Stat. 1011) wage requirements and HUD-determined prevailing wage rates. In most cases the wage rates will be less than the beginning rate of regular-track apprentices; however, the rates may not be less than the applicable Federal or State minimum wage rate.

Apprentice wage rates established to conform to Davis-Bacon Act prevailing wage requirements must provide a progressively increasing wage rate expressed as a percentage of the journeyworker's rate. If the local Step-Up program standards are silent regarding the level of benefits to be paid, Step-Up apprentices on Davis-Bacon projects must be paid the full prevailing fringe benefit, if any, contained in the applicable wage determination.

Wage rates for work assignments that are subject to the payment of HUD-determined prevailing wage rates must be determined for the local program in consultation with HUD.

(3) *Worksites.* Apprentices can be employed directly by the HA (force account), or they may be referred to contractors working on any private or public worksite in the community, including Davis-Bacon projects. The number of Step-Up apprentices allowed at a given worksite may not exceed the ratio approved for the local Step-Up program.

Sponsors

HAs are eligible to sponsor Step-Up programs themselves or may cosponsor programs with resident management corporations and other contractors. The sponsor is responsible for organizing all of the required components to the local program. Those components will include consultation with resident organizations, recruiting apprentices, providing support services, arranging work assignments for apprentices, and monitoring the progress of each apprentice. In addition, each sponsor is encouraged to establish cooperative arrangements with construction and maintenance contractors and other employers, and with local maintenance and building and construction trades unions, and to pursue and manage career opportunities for apprentices aggressively.

The sponsor is responsible for identifying potential worksites and promoting the use of Step-Up apprentices by public and private contractors and other employers. Every effort should be made to provide apprentices with diverse and meaningful job assignments, in order to maximize the variety of work experience provided.

The sponsor is also responsible for monitoring the progress of each apprentice, including the apprentice's progress in on- and off-the-job training; counseling; the development of good work and learning habits by the apprentice; and ensuring that work performed by the apprentice meets acceptable work standards. Supervisors and trainers should be encouraged to keep the local sponsor informed of the progress and performance of the apprentices in all facets of their training.

Apprentices

(1) *Recruiting and Screening.* Sponsors can take advantage of a number of existing resources to recruit, screen, and refer apprentice candidates.

Examples include resident councils and resident management corporations, local school districts, employment offices, and Private Industry Councils (as established pursuant to section 102(a) of the Job Training Partnership Act, 29 U.S.C. 1512(a)).

A preference factor for residents must be built in to the sponsor's selection process. Applicants for apprenticeship are required to possess a high school diploma or equivalency; be actively pursuing a GED; or agree to enroll in a program leading to a GED.

(2) *Support Services.* The sponsor is responsible for identifying what support services are needed, considering local conditions and the needs of individual Step-Up apprentices. Sponsors shall seek to arrange for the provision of these services to the extent available resources allow. Examples of support services that may be needed include daycare; transportation; career, educational, financial and other counseling; classroom training to supplement on-the-job experience; literacy and language skills (e.g., English as a second language); and work clothes, tools, or other equipment that might be needed for various work assignments.

Existing agencies and organizations are normally available in most localities to coordinate support services and referrals. For example, daycare may be arranged on-site through a resident management corporation; classroom training could be provided by local schools or community colleges; and counseling could be made available through social service and human resource agencies.

(3) *Placement.* Placement is the final step of the Step-Up year for each apprentice. Successful placement can include registration in a traditional construction, maintenance, or any other apprenticeship program; registration in similar training programs; enrollment in vocational education or professional studies (e.g., community college, higher education); and employment in a skills-oriented position. Apprentices may be placed at any time during their one-year term, and must be placed at the end of one year. While the sponsor is ultimately responsible for the successful placement of each apprentice, the apprentice is expected to participate in identifying and pursuing appropriate placement opportunities.

Other Federal Requirements and Programs

(1) *Requirements.* Section 3 of the Housing and Urban Development Act of 1968 provides in part that in covered projects the Department shall require, to the greatest extent feasible, that opportunities for training and employment be given to lower income persons residing within the unit of local government or the metropolitan area (or nonmetropolitan county) in which the project is located. Furthermore, certain federally assisted contracts are also subject to the nondiscrimination and affirmative employment requirements of Executive Order 11246. The Step-Up program may provide a compliance vehicle for State and local agencies and contractors to meet these Federal affirmative employment and training obligations through the employment of Step-Up apprentices.

(2) *Linkages to Other Federal Programs.* (a) *Family Self-Sufficiency.* Step-Up also has strong linkages to Family Self-Sufficiency (FSS), an initiative enacted in section 554 of the National Affordable Housing Act (Pub. L. 101–625, approved November 28, 1990) to help residents of the Department's public and assisted housing achieve economic independence. Like Step-Up, FSS promotes the coordination of existing public and private resources to provide employment; training; and essential support services, including child care, transportation, education, and counseling. Beginning in Fiscal Year 1993, HAs that receive new allocations of public or Indian housing development funds, or Section 8 rental certificates or rental vouchers, must operate FSS programs of a size (i.e., for the same number of families) equal to the cumulative number of new units reserved. Step-Up programs operated in conjunction with FSS can greatly enhance the employment and training opportunities available to participating families.

(b) *non-HUD Programs.* A number of programs administered through other Federal agencies, including the Departments of Labor and Health and Human Services, also provide funding and technical resources for employment and training programs that seek to combine basic skills training, occupational skills training, and supportive services. These programs include the Job Opportunities and Basic Skills Training Program and similar programs authorized under the Job Training Partnership Act (29 U.S.C. 1501–1791g).

Additionally, the Department of Labor published a notice (57 FR 41016, September 8, 1992) announcing a grants competition for the Fiscal Year 1992 demonstration program under the Nontraditional Employment for Women Act (Pub. L. 102–235, approved December 12, 1991) (NEW Act). The NEW Act establishes a four-year, $6 million demonstration program to assist States in the development of exemplary programs that train and place women in nontraditional occupations, with a special focus on growth occupations with increased wage potential. This demonstration program is an outgrowth of several key initiatives undertaken by the Department of Labor, including the Secretary's Initiative to Improve Opportunities for Women in the Skilled Trades (WIST), which seeks to improve opportunities for women and minorities in the skilled trades, especially apprenticeships. Step-Up is an excellent vehicle to implement the objectives of WIST and the NEW Act, because Step-Up provides access for public housing residents (many of whom are female heads of households) to apprenticeship in construction and maintenance (skilled) occupations.

Person interested in learning more about these non-HUD programs should contact the sponsoring Federal agency directly.

Other Matters

Environmental Impact

In accordance with 40 CFR 1508.4 of the regulations of the Council on Environmental Quality and 24 CFR 50.20(1) of the HUD regulations, the policies and procedures contained in this notice relate only to prevailing wage and cost determinations that do not constitute a development decision that affects the physical condition of specific project areas or building sites, and, therefore, are categorically excluded from the requirements of the National Environmental Policy Act.

Federalism

The General Counsel, as the Designated Official under section 6(a) of Executive Order 12612, Federalism, has determined that the policies contained in this notice will not have substantial direct effects on States or their political subdivisions, or the relationship between the federal government and the States, or on the distribution of power and responsibilities among the various levels of government. As a result, the rule is not subject to review under the Order. The notice is limited to announcing a new voluntary apprenticeship employment and training program.

Family

The General Counsel, as the Designated Official under Executive Order 12606, The Family, has determined that this notice does not have potential for significant impact on family formation, maintenance, and

general well-being, and, thus, is not subject to review under the order. No significant change in existing HUD policies or programs will result from publication of this notice, as those policies and programs relate to family concerns.

Authority: 42 U.S.C. 1437j(a); 42 U.S.C. 3535(d).

Dated: October 2, 1992.

Joseph A. Scudero,

Assistant to the Secretary for Labor Relations.

BILLING CODE 4210-32-M

Office of the Assistant Secretary for Housing-Federal Housing Commissioner

[Docket No. D-92-1006; FR-3351-D-01]

Amendment to the Redelegation of Authority for the Congregate Housing Services Program

AGENCY: Office of the Assistant Secretary for Housing-Federal Housing Commissioner, HUD.

ACTION: Notice of amendment to the redelegation of authority.

SUMMARY: This Notice amends the Redelegation of Authority published in the **Federal Register** on November 29, 1990 at 55 FR 49579, to authorize the Deputy Assistant Secretary for Multifamily Housing Programs to approve the reservation of funds to continue existing Congregate Housing Services Program ("CHSP") grants for the CHSP funded under section 802 of the National Affordable Housing Act ("NAHA") (42 U.S.C. 8011), in addition to title IV of the Housing and Community Development Act of 1978 (42 U.S.C. 8001 *et seq.*). It also rescinds the authority of the Director, Office of Elderly and Assisted Housing to approve existing CHSP grantees.

EFFECTIVE DATE: September 30, 1992.

FOR FURTHER INFORMATION CONTACT: Jerold S. Nachison, Elderly and Handicapped People Division, Office of Elderly and Assisted Housing, Department of Housing and Urban Development, 451 7th Street, SW, Room 6122, Washington, DC 20410. Telephone (202)-708-3291. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: By delegation of authority published in the **Federal Register** on November 29, 1990 at 55 FR 49579, the Assistant Secretary for Housing-Federal Housing Commissioner redelegated to the Deputy Assistant Secretary for Multifamily Housing Programs and the Director, Office of Elderly and Assisted Housing, the power and authority of the Assistant Secretary for Housing-Federal Housing Commissioner to approve the reservation of funds for extension of Congregate Housing Services Program ("CHSP") grants funded under title IV of the Housing and Community Development Amendments of 1978 (42 U.S.C. 8001 *et seq.*)

Section 802 of the National Affordable Housing Act ("NAHA") (42 U.S.C. 8011) established a revised CHSP. The Dire Emergency Supplemental Appropriations Act of 1991 (Pub. L. 102-27) provides that all funds appropriated under the HUD Appropriations Act of 1991 (Pub. L. 101-507) and all unobligated balances of prior year appropriations available under title IV of the Housing and Community Development Amendments of 1978, shall now be available only under section 802 of NAHA. In order to assure that the Deputy Assistant Secretary for Multifamily Housing Programs has adequate authority to act under past and present law, therefore, the Assistant Secretary for Housing-Federal Housing Commissioner is amending the existing redelegation to the Deputy Assistant Secretary for Multifamily Housing Programs to grant the authority to approve the reservation of funds to continue existing CHSP grants funded under section 802 of the National Affordable Housing Act ("NAHA") (42 U.S.C. 8011), as well as title IV of the Housing and Community Development Act of 1978 (42 U.S.C. 8001 *et seq.*)

The Assistant Secretary for Housing-Federal Housing Commission is also rescinding the authority of the Director, Office of Elderly and Assisted Housing to approve CHSP grantees.

In order to effectuate these changes, the Redelegation of Authority dated November 29, 1990, at 55 FR 49579, is hereby amended to read as follows:

The Assistant Secretary for Housing Commissioner redelegates to the Deputy Assistant Secretary for Multifamily Housing Programs the authority to renew or extend any existing Congregate Housing Services Program ("CHSP") grant funded under the National Affordable Housing Act (42 U.S.C. 8011) ("NAHA") or under Title IV of the Housing and Community Development Act of 1978 (42 U.S.C. § 8001 *et seq.*), after the expiration of the original multi-year grant.

Authority: Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Dated: September 30, 1992.

Arthur J. Hill,

Assistant Secretary for Housing-Federal Housing Commissioner.

[FR Doc. 92-24518 Filed 10-7-92; 8:45 am]

BILLING CODE 4210-27-M

Office of the Assistant Secretary for Public and Indian Housing

[Docket No. D-92-1004; FR-3309-D-01]

Redelegation of Authority for the Component of the Home Investment Partnerships (HOME) Program for Indian Tribes

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Notice of redelegation of authority.

SUMMARY: This notice redelegates to all Regional Administrators the power and authority of the Assistant Secretary for Public and Indian Housing and the General Deputy Assistant Secretary for Public and Indian Housing with respect to the HOME Investment Partnership (HOME) Program for Indian tribes, which was delegated by the Secretary of Housing and Urban Development in the **Federal Register** on November 4, 1991, at 56 FR 56417.

EFFECTIVE DATE: September 17, 1992.

FOR FURTHER INFORMATION CONTACT: Dominic Nessi, Director, Office of Indian Housing, Department of Housing and Urban Development, 451 Seventh Street, SW., room 4140, Washington, DC 20410, telephone (202) 708-1015, TDD (202) 708-0850. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION: This notice redelegates all the power and authority of the Assistant Secretary and the General Deputy Assistant Secretary for Public and Indian Housing to Regional Administrators for the component of the HOME Program involving Indian tribes. This power and authority was delegated by the Secretary of Housing and Urban Development to the assistant Secretary and the General Deputy Assistant Secretary for Public and Indian Housing in the **Federal Register** on November 4, 1991, at 56 FR 56417. The authority redelegated may not be redelegated further to other employees of the Department of Housing and Urban Development. This redelegation of authority does not include the power and authority to administer the

remainder of the HOME Program involving states and units of general local government, which was the subject of a delegation of authority published in the **Federal Register** on November 4, 1991, at 56 FR 56416, and two redelegations of authority published in the **Federal Register** on June 4, 1992, at 57 FR 23593.

The HOME Program is a new program authorized by the HOME Investment partnerships Act (Pub. L. 101–625, title II, 104 Stat. 4079, 4094–4128 (November 28, 1990), codified at 42 U.S.C 12721–12839. In general, under the HOME Program, funds are allocated by formula among eligible state and local governments that qualify as participating jurisdictions to develop affordable housing for low-income and very low-income families. HOME funds are also made available, on a competitive basis, to Indian tribes to develop affordable housing for low-income and very low-income families, HOME funds are also authorized for technical assistance.

The Assistant Secretary and General Deputy Assistant Secretary for Public and Indian Housing hereby redelegate the following power and authority:

Section A. Authority Redelegated

The Assistant Secretary and General Deputy Assistant Secretary for Public and Indian Housing redelegate to Regional Administrator all power and authority with respect to the HOME Investment Partnerships (HOME) Program for a Indian tribes (42 U.S.C. 12721–12939).

Section B. Authority Excepted

The authority redelegated under Section A does not include the power to sue and be sued or the power to issue or waive rules and regulations.

Section C. No Further Redelegation

The Regional Administrators may not redelegate to employees of the Department any of the power and authority delegated under this redelegation.

Authority: HOME improvement partnerships Act (42 U.S.C. 12721–12839); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Dated: September 17, 1992.

Joseph G. Schiff,

Assistant Secretary for Public and Indian Housing.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CO–070–0–4410–13–241A]

Grand Junction Advisory Council; Meeting

AGENCY: Bureau of Land Management, Department of Interior.

ACTION: Notice meeting.

SUMMARY: The Grand Junction District Advisory Council will meet on Tuesday, November 10, 1992. The meeting will convene at 9 a.m. in the conference room at the Bureau of Land Management Office, 2815 H Road, Grand Junction, Colorado.

SUPPLEMENTARY INFORMATION: The agenda for the meeting will include (1) introduction, (2) opening remarks by District Manager, (3) Election of Officers (Chair and Vice-chair), (4) Year long scheduling of DAC meetings, (5) Board recommendation on Hawxhurst Land Exchange—Cathie Zarlingo, (6) Follow-up on Long Term Visitors—Mike Mottice, (7) Summary of the Federal Land Exchange Facilitation Act and changes from current procedures—Rich Arcand, (8) Briefing on the Ruby Canyon management plan process—Neil Bradford, (9) Any new issue updates for board members—Area Managers, and (10) Public Comment Period. Following the Public Comment Period, the Council will move the meeting to Rabbit Valley for lunch and tour.

The meeting is open to the public. Interested persons may make oral statements to the Council between 11 and 11:30 a.m. to file written statements for the Council's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, 2815 H Road, Grand Junction, Colorado, 81506 by August 15, 1992. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the District Manager.

Minutes of the Council will be available for public inspection in the District Office thirty (30) days following the meeting.

FOR FURTHER INFORMATION CONTACT: Tim Hartzell, District Manager, Grand Junction District Office, Bureau of Land Management, 2815 H Road, Grand Junction, Colorado 81506, phone (303) 244–3000.

Tim Hartzell,

District Manager.

BILLING CODE 4310–84–M

[MT–930–4210–04; MTM 80295]

Conveyance of Certain Lands in Beaverhead County, Montana, and Order Providing for Opening of Public Land in Beaverhead County; Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This order will open lands reconveyed to the United States in an exchange under the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1701 et seq. (FLPMA), to the operation of the public land laws. The land that was acquired in the exchange provides access to a large block of public land adjacent to the Lima Reservoir, additional wetlands, wildlife habitat, and increased opportunity for riparian habitat improvement projects. The exchange also allows for increased management efficiency of public land in the area. No minerals were exchanged by either party. The public interest was well served through completion of this exchange.

EFFECTIVE DATE: November 16, 1992.

FOR FURTHER INFORMATION CONTACT: James Binando, BLM Montana State Office, P.O. Box 36800, Billings, Montana 59107, 406–255–2935.

SUPPLEMENTARY INFORMATION: 1. Notice is here given that pursuant to section 206 of FLPMA the following described lands were transferred to Evan V. Huntsman, Bill G. Huntsman, and Evon W. Huntsman:

Principal Meridian, Montana

T. 14 S., R. 6 W.,
Sec. 7, lots 3 and 4, E½SW¼;
Sec. 17, NE¼NW¼;
Sec. 18, lots 1–4, inclusive, SE¼SW¼, W½SE¼;
Sec. 19, lots 1–4, inclusive, E½W½, S½S½;
Sec. 20, S½SW¼, SW¼SE¼;
Sec. 21, N½N½, SE¼NE¼;
Sec. 27, N½, SW¼;
Sec. 28, E½E½, NW¼NE¼, NW¼;
Sec. 29, N½.
T. 14 S., R. 7 W.,
Sec. 1, N½SW¼;
Sec. 12, SE¼.
Total acreage conveyed: 2,609.84 acres.

2. In exchange for the above selected land, the United States acquired the following described surface estate from Evan Huntsman, Senior, Florence M. Huntsman, and Evan V. Huntsman:

Principal Meridian, Montana

T. 13 S., R. 5 W.,
Sec. 18, SE¼SW¼, SW¼SE¼;
Sec. 19, W½E½, E½NW¼, NE¼SW¼.
T. 14 S., R. 6 W.,
Sec. 24, W½SW¼, SE¼SE¼;
Sec. 25, NE¼.

T. 9 S., R. 11 W.,
Sec. 3, S½;
Sec. 10, N½;
Sec. 14, SW¼NE¼, NW¼, N½SW¼, SE¼SW¼, SE¼;
Sec. 15, SW¼NE¼;
Sec. 23, NW¼NE¼, E½NW¼.
Containing 1,920.00 acres, more or less.

3. The value of the Federal public land was appraised at $143,000 and the private land was appraised at $132,000. An equalization payment was made to the United States for $11,000.

4. At 9 a.m. on November 16, 1992 the lands described in paragraph 2 above that were conveyed to the United States will be opened only to the operation of the public land laws generally, subject to valid existing rights and requirements of applicable law. All valid applications received at or prior to 9 a.m. on November 16, 1992, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Dated: September 30, 1992.

James Binando,

Chief, Branch of Lands.

BILLING CODE 4310-DN-M

[OR-943-4212-13; GP2-469; OR-43988]

Conveyance of Public Lands; Order Providing for Opening of Lands; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This action informs the public of the conveyance of 2,274.76 acres of public lands out of Federal ownership. This action will also open 11,711.42 acres of reconveyed lands to surface entry, and 2,920 acres to mining and mineral leasing. Of the balance, the minerals in 2,120 acres have been and continue to be open to mining and mineral leasing, and the minerals in 6,671.42 acres are not in Federal ownership.

EFFECTIVE DATE: November 15, 1992.

FOR FURTHER INFORMATION CONTACT: Linda Sullivan, BLM Oregon State Office, P.O. Box 2965, Portland, Oregon 97208, 503-280-7171.

SUPPLEMENTARY INFORMATION:

1. Notice is hereby given that in an exchange of lands made pursuant to Section 206 of the Act of October 21, 1976, 43 U.S.C. 1716, a patent has been issued transferring 2,274.76 acres in Crook, Harney, and Wheeler Counties, Oregon, from Federal to private ownership.

2. In the exchange, the following described lands have been reconveyed to the United States:

Willamette Meridan

T. 10 S., R. 20 E.,
Sec. 13;
Sec. 14, NE¼, NE¼NW¼, and E½SE¼;
Sec. 15, 21, and 23;
Sec. 24, W½NW¼ and N½SW¼;
Sec. 28, SW¼NW¼ and NW¼SW¼;
Sec. 29, E½E½, NW¼, N½SW¼, SE¼SW¼, and SW¼SE¼;
Sec. 32, NW¼NE¼ and S½;
Sec. 33, NE¼NE¼.
T. 10 S., R. 21 E.,
Sec. 14, W½E½, S½NW¼, and SW¼;
Sec. 15, S½NE¼ and SE¼;
Secs. 16 and 17;
Sec. 19, lots 1, 2, 3, and 4, E½, and E½W½;
Sec. 21, W½E½, W½, and SE¼SE¼;
Sec. 22, N½N½, SW¼NW¼, and S½;
Sec. 23, E½NE¼, NW¼NW¼, S½NW¼, and S½;
Sec. 26;
Sec. 27, N½, SW¼, and E½SE¼;
Secs. 28, 29, and 33;
Sec. 35, N½, N½S½, and SE¼SE¼.

Excepting from the foregoing lands those portions thereof lying within the limits of the Bridge County Road No. 14, the Twickenham Bridge Creek Cut-Off County Road No. 20, and the Girds Creek County Road No. 18 rights-of-way.

The areas described aggregate approximately 11,711.42 acres in Wheeler County.

3. At 8:30 a.m., on November 15, 1992, the lands described in paragraph 2 will be opened to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid existing applications received at or prior to 8:30 a.m., on November 15, 1992, will be considered as simultaneously filed at that time. Those received thereafter will be considered in the order of filing.

4. At 8:30 a.m., on November 15, 1992, the following described lands will be opened to location and entry under the United States mining laws. Appropriation of land under the general mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 1716, Sec. 38, shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts:

Willamette Meridian

T. 10 S., R. 20 E.,
Sec. 14, NE¼, NE¼NW¼, and E½SE¼;
Sec. 24, W½NW¼ and N½SW¼;
Sec. 28, SW¼NW¼ and NW¼SW¼;
Sec. 29, E½E½, E½NW¼, N½SW¼, SE¼SW¼, and SW¼SE¼;
Sec. 32, NW¼NE¼;
T. 10 S., R. 21 E.,
Sec. 14, W½E½, SE¼NW¼, E½SW¼, and SW¼SW¼;
Sec. 16;
Sec. 22, N½N½, SW¼NW¼, N½S½, and SE¼SW¼;
Sec. 23, E½E½, W½NW¼, and NW¼SW¼;
Sec. 26, E½NE¼, SW¼NW¼, NE¼SW¼, and NE¼SE¼;
Sec. 27, SW¼NE¼ and E½NW¼.

5. At 8:30 a.m., on November 15, 1992, the lands described in paragraph 4 will be opened to applications and offers under the mineral leasing laws.

Dated: September 30, 1992.

Order Providing for Opening of Public Land; Washington

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This action will open 144 acres of reconveyed land to surface entry subject to the provisions of section 24 of the Federal Power Act and mining. The land has been and continues to be open to mineral leasing.

EFFECTIVE DATE: November 15, 1992.

FOR FURTHER INFORMATION CONTACT: Linda Sullivan, BLM Oregon State Office, P.O. Box 2965, Portland, Oregon 97208, 503-280-7171.

SUPPLEMENTARY INFORMATION: Notice is hereby given that pursuant to the Recreation and Public Purposes Act of June 14, 1926 (44 U.S.C. 741), as amended and supplemented (43 U.S.C. 869 et seq), the following described land has been voluntarily reconveyed to the United States:

Willamette Meridian

T. 40 N., R. 26 E.,
Sec. 13, lots 4, 5, 6, and 7.
The area described contains 144 acres in Okanogan County.

At 8:30 a.m. on November 15, 1992, the above described land will be opened to operation of the public land laws generally, subject to valid existing rights, the provision of existing withdrawals, and segregation of record

and the requirements of applicable law. All valid applications received at or prior to 8:30 a.m., on November 15, 1992, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

At 8:30 a.m., on November 15, 1992, the above described land will be opened to location and entry under the United States mining laws, subject to the provisions of existing withdrawals. Appropriation of land under the general mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 1716, Sec. 38, shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. Filing of Plats of Survey; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The plats of the following described lands are scheduled to be officially filed in the Wyoming State Office, Cheyenne, Wyoming, thirty (30) calendar days from the date of this publication.

Sixth Principal Meridian, Wyoming

T. 51 N., R. 68 W., accepted September 30, 1992
T. 52 N., R. 68 W., accepted September 30, 1992
T. 24 N., R. 119 W., accepted September 30, 1992

Sixth Principal Meridian, Nebraska

T. 27 N., R. 5 E., accepted September 30, 1992
T. 27 N., R. 6 E., accepted September 30, 1992

If protests against a survey, as shown on any of the above plats, are received prior to the official filing, the filing will be stayed pending consideration of the protest(s) and or appeal(s). A plat will not be officially filed until after disposition of protest(s) and or appeal(s). These plats will be placed in the open files of the Wyoming State Office, Bureau of Land Management, 2515 Warren Ave., Cheyenne, Wyoming, and will be available to the public as a matter of information only. Copies of the plats will be made available upon request and prepayment of the reproduction fee of $2.00 per copy.

A person or party who wishes to protest a survey must file with the State Director, Bureau of Land Management, Cheyenne, Wyoming, a notice of protest prior to thirty (30) calendar days from the date of this publication. If the protest notice did not include a statement of reasons for the protest, the protestant shall file such a statement with the State Director within thirty (30) calendar days after the notice of protest was filed.

The above-listed plats represent dependent resurveys and subdivisions.

Proposed Withdrawal and Opportunity for Public Meeting; New Mexico

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management proposes to withdraw 2,845.88 acres of public land in Taos County to protect the Orilla Verde Recreation Area. This notice closes the land for up to 2 years from surface entry and mining. The land will remain open to mineral leasing.

DATES: Comments and requests for a public meeting must be received by November 9, 1992.

ADDRESSES: Comments and meeting requests should be sent to the New Mexico State Director, BLM, P.O. Box 27115, Santa Fe, New Mexico, 87502-7115.

FOR FURTHER INFORMATION CONTACT: Georgiana E. Armijo, BLM New Mexico State Office, 505-438-7594.

SUPPLEMENTARY INFORMATION: On September 21, 1992, a petition was approved allowing the Bureau of Land Management to file an application to withdraw the following described public land from settlement, sale, location, or entry under the general land laws, including the mining laws subject to valid existing rights:

New Mexico Principal Meridian

T. 24 N., R. 11 E.,
Sec. 2, SE¼SW¼;
Sec. 10, lots 1 to 4, inclusive, NE¼NE¼, and NW¼SE¼;
Sec. 11, lots 1 to 4, inclusive;
Sec. 14, lots 1 to 3, inclusive, SE¼SW¼, and W½SW¼;
Sec. 15, lots 1 to 7, inclusive, S½NE¼, E½SW¼, and SE¼;
Sec. 16, lots 1 and 2, SE¼NE¼, SE¼SW¼, SW¼SE¼, and N½SE¼;
Sec. 20, E½SE¼;
Sec. 21, lots 1 to 10, inclusive, N½SW¼, E½SE¼, and NW¼;
Sec. 22, W½;
Sec. 28, lots 1 to 2, inclusive, SW¼NW¼, E½NW¼, and NE¼;
Sec. 29, lots 1 to 4, inclusive, NW¼NE¼, and NE¼NW¼.

The area described contains 2,845.88 acres in Taos County.

The purpose of the proposed withdrawal is to protect the Orilla Verde Recreation Area.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the New Mexico State Director of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the New Mexico State Director within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the land will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date. The temporary uses which may be permitted during this segregative period are licenses, permits, cooperative agreements, or discretionary land use authorizations, but only with the approval of an authorized officer of the Bureau of Land Management.

Dated: September 29, 1992.

Monte G. Jordan,

Associate State Director.

Fish and Wildlife Service

Receipt of Applications for Permit

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, *as amended* (16 U.S.C. 1531, *et seq.*):

PRT-771629

Applicant: F.M. Driscoll, Kelso, WA.

The applicant requests a permit to import five pairs of captive-hatched white-eared pheasants (*Crossoptilon crossoptilon*) from Robert Ian Henderson, Stocksfield-On-Tyne, England, to obtain new breeding stock for enhancement of propagation and survival of the species.

PRT-772489

Applicant: F.M. Driscoll, Kelso, WA.

The applicant requests a permit to export one pair each of captive-hatched brown-eared pheasants (*Crossoptilon mantchuricum*) and Elliot's pheasants (*Syrmaticus ellioti*) to Michel Klat, Reading, England, for enhancement of propagation and survival of the species.

PRT-772488

Applicant: James Duffy, Foster, RI.

The applicant requests a permit to import a sport-hunted trophy of one male bontebok (*Damaliscus dorcas dorcas*) culled from the captive herd maintained by J. Van Druten, Riekertsfontein, Victoria-West, South Africa, for the purpose of enhancement of survival of the species.

PRT-772298

Applicant: Gladys Porter Zoo, Brownsville, TX

The applicant requests a permit to export five captive-hatched Philippine crocodiles. (*Crocodylus novaeguineae mindorensis*) to Silliman University, Philippines, for captive breeding purposes.

PRT-772452

Applicant: Richard Haskins, S. San Francisco, CA.

The applicant requests a permit to import a sport-hunted trophy of one male bontebok (*Damaliscus dorcas dorcas*) culled from the captive herd maintained by T.P. Erasmus, "Mariendal", Kroonstad, Orange Free State, South Africa, for the purpose of enhancement of survival of the species.

PRT-767310

Applicant: Hunter Schuehle, San Antonio, TX.

The applicant requests a permit to authorize interstate and foreign commerce and export of excess male red lechwe (*Kobus leche*), dama gazelle (*Gazella dama* supp.), barasingha (*Cervus duvavcel*), elds deer (*Cervus eldi*) and Arabian oryx (*Oryx leucoryx*) culled from his captive herd for the purpose of enhancement of propagation and survival of the species.

PRT-772637

Applicant: Racine Zoo, Racine, WI.

The applicant requests a permit to reimport one female Asian elephant (*Elephus maximus*) from the African Lion Safari, Cambridge, Ontario, Canada, for educational purposes aimed at the conservation of the species.

Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, room 432, Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

Documents and other information submitted with these applications are available for review by any party who submits a written request for a copy of such documents to, or by appointment during normal business hours (7:45–4:15) in, the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, room 432, Arlington, Virginia 22203. Phone: (703/358–2104); FAX: (703/358–2281).

Dated: October 2, 1992.

BILLING CODE 4310-31-M

INTERSTATE COMMERCE COMMISSION

[Docket No. AB-167 (Sub-No. 1105x)]

Consolidated Rail Corp.; Abandonments Exemption; in Centerville, IN

Applicant has filed a notice of exemption under 49 CFR 1152 subpart F—*Exempt Abandonment* to abandon its 5.2 mile line of railroad from approximately milepost 121.3, in Richmond, IN to approximately milepost 126.5, in Centerville, IN.

Applicant has certified that: (1) No local or overhead traffic has moved over the line for at least 2 years; (2) no formal complaint filed by a user of rail service on the line (or a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court or has been decided in favor of the complainant within the 2-year period; and (3) the requirements at 49 CFR 1105.12 (newspaper publication) and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to this exemption, any employee adversely affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective on November 7, 1992 (unless stayed). Petitions to stay that do not involve environmental issues,[1] formal expressions of intent to file offers of financial assistance under 49 CFR 1152.27(c)(2),[2] and trail use/rail banking statements under 49 CFR 1152.29 must be filed by October 19, 1992.[3] Petitions to reopen or requests for public use conditions under 49 CFR 1152.28 must be filed by October 28, 1992, with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representative: Robert S. Natalini, Consolidated Rail Corporation, Two Commerce Square, 2001 Market St., Philadelphia, PA 19101–1416.

If the notice of exemption contains false or misleading information, use of the exemption is void *ab initio*.

Applicant has filed an environmental report which addresses the abandonment's effects, if any, on the environment and historic resources.

The Section of Energy and Environment (SEE) will prepare an environmental assessment (EA). SEE will issue the EA by October 13, 1992. Interested persons may obtain a copy of the EA from SEE by writing to it (room 3219, Interstate Commerce Commission, Washington, DC 20423) or by calling Elaine Kaiser, Chief, SEE at (202) 927–6248. Comments on environmental and historic preservation matters must be filed within 15 days after the EA becomes available to the public.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Decided: October 1, 1992.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035–01–M

[Finance Docket No. 32156]

Southern Pacific Transportation Co.; Merger Exemption; Northwestern Pacific Railroad Co. and Visalia Electric Co.

Southern Pacific Transportation Company (SPC) and its wholly owned subsidiaries, Northwestern Pacific Railroad Company (NWP) and Visalia Electric Company (VE), filed a notice of exemption to merge SPC's subsidiary corporations into SPC, with SPC as the surviving corporation. Under the plan of merger, SPC will acquire all of the assets and assume all liabilities and obligations of its subsidiaries. The merger will be consummated on or after October 1, 1992.

The transaction involves the merger of companies within a corporate family and is specifically exempted from the necessity of prior review and approval under 49 CFR 1180.2(d)(3). The merger will not result in adverse changes in service levels, significant operational changes, or a change in the competitive balance with carriers outside the corporate family.

To ensure that all employees who may be affected by the transaction are given the minimum protection under 49 U.S.C. 10505(g)(2) and 11347, the labor conditions set forth in *New York Dock Ry.—Conntrol—Brooklyn Eastern Dist.*, 360 I.C.C. 60 (1979), are imposed.

Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not stay the transaction. Pleadings must be filed with the Commission and served on: Gary A. Laakso, Southern Pacific Transportation Company, Southern Pacific Bldg., room 846, One Market Plaza, San Francisco, CA 94105.

Decided: October 2, 1992.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035–01–M

DEPARTMENT OF JUSTICE

Browning Ferris Industries, Inc., Lodging of Consent Decrees Pursuant to Comprehensive Environmental Response, Compensation, and Liability Act

In accordance with Departmental policy, 28 CFR 50.7, and pursuant to section 122(d)(2)(B) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9622(d)(2)(B), notice is hereby given that on September 10, 1992, two proposed consent decrees in *United States* v. *Browning-Ferris Industries, Inc.*, Civil Action No. 92–CV–75460–DT, were lodged with the United States District Court for the Eastern District of Michigan, Southern Division. The United States filed this action under sections 106 and 107 of CERCLA, 42 U.S.C. 9606 and 9607.

The first consent decree provides that fourteen of the defendants will complete the cleanup remedy selected by the U.S. Environmental Protection Agency for the G&H Landfill Site in Macomb County, Michigan, pay $2.6 million of the past response costs incurred by the United States concerning the Site, and pay all future response costs, including oversight costs, incurred by the United States in connection with the Site. The second consent decree provides that the remaining two defendents, PPG Industries, Inc. and Reichhold Chemicals, Inc., will pay $2,464,760 of the past response costs incurred by the United States concerning the Site, plus interest.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the proposed consent decrees. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, Department of Justice, Washington, DC 20530, and should refer to *United States* v. *Browning-Ferris Industries, Inc., et al.*, D.J. Ref. No. 90–11–3–171B.

The proposed consent decrees may be examined at the office of the United States Attorney, Eastern District of Michigan 817 Federal Building, 231 West Lafayette, Detroit, Michigan 48226; at the Region V Office of U.S. Environmental Protection Agency, Records Center, Seventh Floor, 77 West Jackson Boulevard, Chicago, Illinois 60604–3590; and at the Consent Decree Library, 601 Pennsylvania Avenue Building, NW., Washington, DC 20044 (202–347–2072). Copies of the proposed

---

[1] Ordinarily a stay will be routinely issued by the Commission in these proceedings where an informed decision on environmental issues (whether raised by a party or by the Section of Energy and Environment in its independent investigation) cannot be made prior to the effective date of the notice of exemption. See *Exemption of Out-of-Service Rail Lines*, 5 I.C.C.2d 377 (1988). Any entity seeking a stay involving environmental concerns is encouraged to file its request as soon as possible in order to permit this Commission to review and act on the request before the effective date of this exemption.

[2] See *Exempt. of Rail Abandonment—Offers of Finan. Assist.*, 4 I.C.C.2d 164 (1987)

[3] The Commission will accept a late-filed trail use statement as long as it retains jurisdiction to do so.

consent decrees may be obtained in person or by mail from the Consent Decree Library, 601 Pennsylvania Avenue, NW., Box 1097, Washington, DC 20004. In requesting a copy, please refer to the referenced case and enclose a check in the amount of $70.50 for the first decree, including its appendices, and in the amount of $3.75 for the second decree with PPG industries and Reichhold Chemicals (25 Cents per page for reproduction cost), payable to the Consent Decree Library.

Vicki A. O'Meara,

Acting Assistant Attorney General Environment and Natural Resources Division.

BILLING CODE 4410–01–M

Estate of Forster; Lodging of Consent Decrees pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, As Amended

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that on September 10, 1992, a proposed Consent Decree in *United States* v. *Estate of Forster*, Civil Action No. *88–CV–70613–DT*, was lodged with the United States District Court for the Eastern District of Michigan. The proposed Consent Decree concerns the hazardous waste site known as the G & H Landfill Site, located in Shelby Township, Macomb County, Michigan. The Consent Decree sets forth a settlement between the United States and the Estate of Leonard Forster, under which the Estate will impose deed restrictions on the Site prohibiting any use of the Site that would interfere with any response action at the Site, reimburse the United States for $201,136 of its unreimbursed past costs plus interest earned on this amount following its deposit into the Court's Registry, and grant access to the Site for the performance of response actions.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General for the Environmental and Natural Resources Division, Department of Justice, Washington, DC 20530, and should refer to *United States* v. *Estate of Forster*, D.J. Ref. 90–11–3–171A.

The proposed Consent Decree may be examined at the Office of the United States Attorney, Eastern District of Michigan, 817 Federal Building, 231 W. Lafayette, Detroit, Michigan 48226–2784; at the Region V Office of the Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604; and the Consent Decree Library, 601 Pennsylvania Avenue Building, NW., Washington, DC 20004 (202–347–2072). A copy of the proposed Consent Decree may be obtained in person or by mail from the Consent Decree Library, 601 Pennsylvania Avenue, NW., Box 1097, Washington, DC 20004. In requesting a copy, please refer to the referenced case and enclose a check in the amount of $3.75 (25 cents per page for reproduction costs) payable to the Consent Decree Library.

Vickie A. O'Meara,

Acting Assistant Attorney General, Environment and Natural Resources Division.

BILLING CODE 4410–01–M

Lodging of Consent Decree Pursuant to Superfund (CERCLA) and RCRA

Notice is hereby given that on September 29, 1992, two proposed Consent Decrees in *United States* v. *Prentiss Creosote & Forest Products, Inc.*, No. H89–0130 CIV–W, were lodged with the United States District Court for the Southern District of Mississippi. These Consent Decrees concern the Prentiss Creosote Superfund Site in Jefferson Davis County, Mississippi. Pursuant to section 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9607(a), as amended by the Superfund Amendments and Reauthorization Act of 1986, Public Law 99–499, and/or section 3008(a) and (h) of the Resource Conservation and Recovery Act, 42 U.S.C. 6928(a) and (h), the Complaint in this action seeks recovery of past response costs incurred by the United States at the Prentiss Creosote Site. The Site consists of a former wood treating facility. Under the first proposed Consent Decree, defendants Emmette Allen and Prentiss Creosote Materials, Inc. will pay $50,000. Under the second proposed Decree, defendant Sessions Polk will pay $3000.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments concerning the proposed Consent Decrees. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, U.S. Department of Justice, P.O. Box 7611, Ben Franklin Station, Washington, DC 20044, and should refer to *United States* v. *Prentiss Creosote & Forest Products, Inc.*, D.J. Ref. 90–7–1–461.

The proposed Consent Decrees may be examined at any of the following offices: (1) The Office of the United States Attorney for the Southern District of Mississippi, 245 East Capitol Street, room 324, Jackson, Mississippi; (2) the U.S. Environmental Protection Agency, Region 4, 345 Courtland Street, NE., Atlanta, Georgia; and (3) the Consent Decrees Library, 601 Pennsylvania Avenue Building, NW., Washington, DC 20004 (telephone (202) 347–2072). Copies of the proposed Decrees may be obtained by mail from the Consent Decree Library, 601 Pennsylvania Avenue, NW., P.O. Box 1097, Washington DC 20004. For a copy of the Consent Decrees please enclose a check for $7.75 ($.25 per page reproduction charge) payable to "Consent Decrees Library."

Vicki A. O'Meara,

BILLING CODE 4410–01–M

Lodging of Consent Decree Pursuant to Clean Air Act

In accordance with Department policy, 28 CFR 50.7, notice is hereby given that on September 28, 1992, 492-CV0066 a proposed Consent Decree in *United States* v. *Raymond Kampf and Buddy O. Wilson*, was lodged in the United States District Court for the Northern District of Ohio. The Complaint filed by the United States alleged violations of the Clean Air Act, the National Emissions Standards for Hazardous Air Pollutants (NESHAP) for Asbestos, 40 CFR part 61, subpart M. The Consent Decree requires the defendants to pay a total civil penalty of $2,500 in full settlement of the claims set forth in the Complaint filed by the United States. The Consent Decree further requires the Defendant to comply with the asbestos NESHAP and provide EPA with notice before removing any asbestos in the future.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments concerning the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, U.S. Department of Justice, P.O. Box 7611, Ben Franklin Station, Washington, DC 20044, and should refer to *United States* v. *Raymond Kampf and Buddy O. Wilson*, D.J. Ref. No. 90–5–2–1–1692.

The proposed Consent Decree may be examined at any of the following offices: (1) The United States Attorney for the Northern District of Ohio, suite 500, 1404 East Ninth Street, Cleveland, Ohio

44114–1748 (contact Assistant United States Attorney Arthur Harris); (2) the U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604–3590 (contact Assistant Regional Counsel Jeffrey Trevino); and (3) the Environmental Enforcement Section, Environment & Natural Resources Division, U.S. Department of Justice, room 1541, 10th & Pennsylvania Avenue, NW., Washington, DC. Copies of the proposed Consent Decree may be obtained in person or by mail from the Environmental Enforcement Section Document Center, Box 1097, 601 Pennsylvania Avenue, NW., Washington, DC 20004, telephone (202) 347–7829. For a copy of the Consent Decree please enclose a check in the amount of $3.00 (25 cents per page reproduction charge) payable to Consent Decree Library.

John C. Cruden,

BILLING CODE 4410–01–M

Lodging of Consent Decree Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act

In accordance with section 122(i) of the Comprehensive Environmental Response, Compensation and Liability Act, as amended (CERCLA), 42 U.S.C. 9622(i) and Departmental policy at 28 CFR 50.7, notice is hereby given that on *September 25*, 1992, a proposed consent decree in *United States* v.*Thatcher Company*, (*John Day Acid Spill*), Civil Action No. *92–1187JO*, was lodged with the United States District Court for the District of Oregon. The complaint alleges, *inter alia*, that owner/operator Thatcher Company, Inc. was liable under Section 107 of CERCLA, 42 U.S.C. 9607, for natural resource damages, including the reasonable costs of assessing such damages, incurred in connection with the release of hydrochloric acid, a hazardous substance, into the John Day River. Pursuant to the proposed consent decree: (1) The State of Oregon is entitled to $7,498 for reimbursement of response action costs arising out of the discharge of the hydrochloric acid; and (2) the United States, the State, and the Confederated Tribes of the Umatilla Indian Reservation will receive, as natural resources trustee, $275,000 from the defendant to be used for restoration or replacement of natural resources damaged by the discharge of the hydrochloric acid. The Department of Justice, for a period of thirty (30) days from the date of this publication, will receive comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resource Division, Department of Justice, Washington, D.C. 20530, and should refer to *United States* v.*Thatcher Company*, Department of Justice reference number 90–11–3–678.

The proposed consent decree may be examined at the office of the United States Department of Interior, 500 NE. Multnomah Street, Portland, Oregon 97232, and at the Consent Decree Library, 601 Pennsylvania Avenue, NW., Washington, DC 20004, (202) 347–2072. A copy of the proposed consent decree may be obtained in person or by mail from the Consent Decree Library, 601 Pennsylvania Avenue, NW., Box 1097, Washington, DC 20004. In requesting a copy, please enclose a check in the amount of $5.25 (25 cents per page reproduction costs) payable to "Consent Decree Library". When requesting a copy, please refer to *United States* v.*Thatcher Company*, Department of Justice number 90–11–3–678.

Cyclic Thermoplastic Research Venture; Notice Pursuant to the National Cooperative Research Act of 1984

Notice is hereby given that, on August 25, 1992, pursuant to section 6(a) of the National Cooperative Research Act of 1984, 15 U.S.C. 4301 *et seq.* ("the Act"), the Ford Motor Company filed a written notification simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the Cyclic Thermoplastic Research Venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties to the venture are Ford Motor Company, Dearborn, MI and General Electric Company, Fairfield, CT and its general area of planned activity is to develop new automotive applications and molding processes for General Electric developed cyclic thermoplastic composite materials. The program includes the fabrication of an automotive structural part under conditions which simulate volume production. The cost, performance and recyclability of the composite part will be evaluated for future applicability in automotive uses, the venture will work closely with governmental and other organizations and perform further acts allowed by the venture's objectives. Membership in the venture remains open, and the parties intend to file additional written notification disclosing all changes in membership to the venture.

DEPARTMENT OF LABOR

Employment and Training Administration

[TA–W–27,386]

Advanced Monobloc Corp., Cranbury, NJ; Amended Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on September 3, 1992, applicable to the workers at the subject firm. The certification notice will soon be published in the **Federal Register**.

New information from the company shows several worker separations after the termination date of February 28, 1992. Accordingly, the Department is changing the termination date from February 28, 1992 to October 5, 1992.

The intent of the Department's certification is to include all workers of Advanced Monobloc Corportion in Cranbury, New Jersey.

The amended notice applicable to TA–W–27,386 is hereby issued as follows:

All workers of Advanced Monobloc Corporation Cranbury, New Jersey who became totally or partially separated from employment on or after January 24, 1991 and before October 5, 1992 are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974:

Signed in Washington, DC, this 30th day of September 1992.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[FR Doc. 92–24492 Filed 10–7–92; 8:45 am]

BILLING CODE 4510–30–M

[TA-W-26,503]

Bigard/Drillers, Inc. a/k/a Drillers Inc. Mt. Pleasant, MI; Amended Certification Regarding Eligibility to Apply for Workers Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on December 31, 1991, applicable to all workers of the subject firm. The notice was published in the **Federal Register** on January 9, 1992 (57 FR 932).

At the request of the State Agency and workers the Department reviewed the certification for workers of Bigard Drillers, Inc., in Mt. Pleasant, Michigan. New information received from the company shows that the parent company is Drillers, Inc., in Houston, Texas which purchased Bigard Drilling on November 13, 1990. The new name became Bigard/Drillers, Inc. The subject firm is also known as Drillers, Inc. Accordingly, the Department is amending the certification to show the correct workers group.

The amended notice applicable to TA-W-26, 503 is hereby issued as follows:

"All workers of Bigard Drilling and Bigard/Drillers Inc., a/k/a Drillers, Inc., Mt. Pleasant, Michigan who became totally or partially separated from employment on or after November 4, 1990 are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974."

Signed at Wasington, DC, this 30th day of September 1992.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

[TA-W-27,614]

Brown Shoe Co., St. Louis, Mo; Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on August 17, 1992 in response to a worker petition which was filed on August 17, 1992 on behalf of workers at Brown Shoe Company, St. Louis, Missouri.

The investigation revealed that the petitioning group of workers at Brown Shoe Company, 8300 Maryland Avenue, St. Louis, Missouri (TA-W-27,614) is the same group of workers which petitioned under Brown Shoe Company, 8300 Maryland Avenue, Clayton, Missouri (TA-W-27,570).

A previous investigation of Brown Shoe Company, Clayton, Missouri (TA-W-27,570) resulted in a active certification (Brown Shoe Company, Clayton, Missouri, TA-W-27,570, certification issued on September 23, 1992, impact date of July 17, 1991 and an expiration date of September 23, 1994); consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, DC this 24th day of September, 1992

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[TA-W-27,818]

Compaq Computer Corp. Houston, TX.; Notice of Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on August 17, 1992 in response to a worker petition which was filed on August 17, 1992 on behalf of workers at Compaq Computer Corporation, Houston, Texas.

An active certification covering the petitioning group of workers remains in effect (TA-W-26,663). Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, D.C. this 30th day of September, 1992

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[FR Doc. 92-24493 Filed 10-7-92; 8:45 am]

BILLING CODE 4510-30-M

[TA-W-27,726]

Fruehauf Trailer Operations, Uniontown, PA; Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on August 31, 1992 in response to a worker petition which was filed on behalf of workers at Fruehauf Trailer Operations, Uniontown, Pennsylvania.

A negative determination applicable to the petitioning group of workers was issued on January 16, 1992 (TA-W-26,381). No new information is evident which would result in a reversal of the Department's previous determination. Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, DC this 30th day of September 1992.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[FR Doc. 92-24491 Filed 10-7-92; 8:45 am]

BILLING CODE 4510-30-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-261]

Carolina Power & Light Co.; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption from the requirements of appendix R to 10 CFR part 50 to Carolina Power & Light Company (the licensee) for the H.B. Robinson Steam Electric Plant, Unit No. 2, located in Darlington County, South Carolina.

Environmental Assessment

Identification of Proposed Action

The exemption would grant relief in 10 areas where fire protection features are not in conformance with the technical requirements of section III.J of appendix R to 10 CFR part 50, which requires eight-hour battery powered emergency lighting units in certain areas. The exemption is in response to the licensee's request dated January 22, 1992.

The Need for the Proposed Action

The proposed exemption is needed because the portable lighting units described in the licensee's request regarding the emergency light are more practical for meeting appendix R. Literal compliance with appendix R would not significantly enhance safety and is not necessary to meet the intent of appendix R.

Environmental Impacts of the Proposed Action

The proposed exemption will not adversely affect the licensee's ability to achieve and maintain safe shutdown conditions following a postulated fire. The probability of a fire will not be increased, and the post-fire radiological releases will be no greater than previously determined; furthermore, the proposed exemption will not otherwise affect radiological plant effluents. The Commission concludes, therefore, that there are no significant radiological environmental impacts associated with this proposed exemption.

With regard to potential non-radiological impacts, the proposed exemptions involve features located entirely within the restricted areas as defined in 10 CFR part 20. They do not affect non-radiological plant effluents and have no other environmental impact; therefore, the Commission concludes that there are no significant non-radiological environmental impacts associated with the proposed exemption.

Alternative Use of Resources

This action does not involve use of resources not previously considered in the Final Environmental Statement for the H.B. Robinson Steam Electric Plant, Unit No. 2, dated April 1975.

Agencies and Persons Consulted

The staff reviewed the licensee's request and did not consult other agencies or persons.

Finding of No Significant Impact

The Commission has determined not to prepare an environmental impact statement for the proposed exemption. Based upon the foregoing environmental assessment, the staff concludes that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the request for exemption dated January 22, 1992, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the Local Public Document Room located at the Hartsville Memorial Library, Home and Fifth Avenues, Hartsville, South Carolina 29535.

Dated at Rockville, Maryland this 2nd day of October 1992.

Elinor G. Adensam,

Director, Project Directorate II–1, Division of Reactor Projects— I/II, Office of Nuclear Reactor Regulation.

[FR Doc. 92–24504 Filed 10–7–92; 8:45 am]

BILLING CODE 7590–01–M

ACNW Working Group on Potential for Presence of Natural Resources at a High-Level Waste Repository Site; Meeting

The ACNW Working Group on Potential for Presence of Natural Resources at a High-Level Waste Repository Site will hold a meeting on October 20, 1992, at the St. Tropez Hotel, 455 East Harmon Avenue, Las Vegas, NV. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Tuesday, October 20, 1992—8:30 a.m. Until the Conclusion of Business

The Working Group will discuss the potential for the presence of significant resources at the proposed Yucca Mountain high-level waste repository.

Applicable NRC and DOE regulations contain statements regarding the need to avoid sites with significant natural resources. The presence of significant natural resources, including groundwater, at or near the site of a proposed high-level waste repository is an adverse situation, that could potentially lead to a disqualifying condition. It is perceived that the presence of such resources in the vicinity of the site could give rise to activities that would eventually lead to inadvertent human intrusion into the repository.

Oral statements may be presented by members of the public with the concurrence of the ACNW Working Group Chairman; written statements will be accepted and made available to the Working Group. Recordings will be permitted only during those sessions of the meeting when a transcript is being kept, and questions may be asked only by members of the ACNW Working Group, its consultants, and staff. Persons desiring to make oral statements should notify the ACNW staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the ACNW Working Group, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

Further information regarding the agenda for this meeting, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACNW staff engineer, Mr. Howard J. Larson, ACNW (telephone 301/492–7707) between 7:30 a.m. and 5:00 p.m. (EST). Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., that may have occurred.

Dated: October 1, 1992.

R.K. Major,

Chief, Nuclear Waste Branch.

[FR Doc. 92–24499 Filed 10–7–92; 8:45 am]

BILLING CODE 7590–01–M

Advisory Committee on Reactor Safeguards; Revised Meeting Agenda

In accordance with the purposes of Sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b), the Advisory Committee on Reactor Safeguards will hold a meeting on October 8–10, 1992, in room P–110, 7920 Norfolk Avenue, Bethesda, Maryland. Notice of this meeting was published in the **Federal Register** on September 23, 1992. Portions of this meeting on Friday and Saturday, October 9 and 10, 1992, have been revised to accommodate additional sessions.

Friday, October 9, 1992

8:30 a.m.–10 a.m.: Maintenance of Nuclear Power Plants (Open)—The Committee will review and comment on a proposed Regulatory Analysis and a draft Regulatory Guide, "Monitoring the Effectiveness of Maintenance at Nuclear Power Plants," and an associated NUMARC document 93–01, Revision 2A, "Industry Guideline for Monitoring the Effectiveness of Maintenance at Nuclear Power Plants."

Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

10:15 a.m.–10:45 a.m.: Preparation of ACRS Reports (Open)—The Committee will discuss the scope and content of reports to be considered during this meeting.

10:45 a.m.–11:15 a.m.: Training and Requalification of Nuclear Power Plant Operators (Open)—The Committee will hear a briefing, discuss, and report as appropriate on results of the NRC pilot simulator examination program and proposed changes to NRC rule (10 CFR part 55) regarding recertification of nuclear power plant operators.

Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

11:15 a.m.–12:15 p.m.: Use of PRA in the Regulatory Process (Open)—The Committee will hear a briefing by representatives of the NRC Working Group on the status of tasks related to use of PRA in the NRC regulatory process.

1:15 a.m.–3:15 p.m.: Design Acceptance Criteria (Open)—The Committee will review and comment on proposed Design Acceptance Criteria (DAC) in the areas of man/machine

interface and control and protection systems.

Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

3:15 p.m.–4:15 p.m.: Yankee Rowe Nuclear Power Plant (Open)—The Committee will hear a briefing by representatives of the NRC staff regarding lessons learned from the review and evaluation of the Yankee Rowe nuclear plant reactor pressure vessel integrity.

Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

4:15 p.m.–5:15 p.m.: Subcommittee and Members Activities (Open/Closed)—The Committee will discuss the report and recommendations of the ACRS Planning and procedures Subcommittee regarding conduct of Committee business, the international meeting on computers on September 22, 1992, and the visit to Eastern European nuclear power plants by the ACRS Chairman and information provided to him by representatives of the organizations responsible for the operation of these facilities.

Portions of this session will be closed as necessary to discuss information provided in confidence by a foreign source.

5:15 p.m.–5:30 p.m.: Election of ACRS Officer (Closed)—The Committee will discuss qualifications of candidates nominated for Member-at-Large of the Planning and Procedures Subcommittee.

This session will be closed to discuss information the release of which would represent a clearly unwarranted invasion of personal privacy.

5:30 p.m.–6:30 p.m.: Preparation of ACRS Reports (Open)—The Committee will discuss proposed ACRS reports regarding matters considered during this meeting.

Saturday, October 10, 1992

8:30 a.m.–11:15 a.m.: Preparation of ACRS Reports (Open)—The Committee will discuss proposed ACRS reports regarding matters considered during this meeting.

11:15 a.m.–12 Noon: Appointment of ACRS Members (Closed)—The Committee will discuss qualifications of candidates proposed for appointment as members of the Committee.

This session will be closed to discuss information the release of which would represent a clearly unwarranted invasion of personal privacy.

1 p.m.–2:30 p.m.: Miscellaneous (Open/Closed)—The Committee will complete discussions of items considered during this meeting, including recommendations regarding candidates for the NRC "Thermal-Hydraulic" review group, and matters which were not completed at previous meetings as time and availability of information permit.

Portions of this session will be closed as necessary to discuss information regarding the qualifications of candidates proposed for appointment to this review group, the release of which would represent a clearly unwarranted invasion of personal privacy.

Procedures for the conduct of and participation in ACRS meetings were published in the Federal Register on October 1, 1991 (56 FR 49800). In accordance with these procedures, oral or written statements may be presented by members of the public, recordings will be permitted only during those open portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Committee, its consultants, and staff. Persons desiring to make oral statements should notify the ACRS Executive Director, Mr. Raymond F. Fraley, as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements. Use of still, motion picture, and television cameras during this meeting may be limited to selected portions of the meeting as determined by the Chairman. Information regarding the time to be set aside for this purpose may be obtained by a prepaid telephone call to the ACRS Executive Director prior to the meeting. In view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary, to facilitate the conduct of the meeting, persons planning to attend should check with the ACRS Executive Director if such rescheduling would result in major inconvenience.

I have determined in accordance with Subsection 10(d) Public Law 92–463 that it is necessary to close portions of this meeting noted above to discuss Information provided in confidence by a foreign source in accordance with 5 U.S.C. 552(c)(4) and information the release of which would represent a clearly unwarranted invasion of personal privacy per 5 U.S.C. 552(c0(6).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted can be obtained by a prepaid telephone call to the ACRS Executive Director, Mr. Raymond F. Fraley (telephone 301–492–8049), between 8 a.m. and 4:30 p.m. EST.

Dated: October 2, 1992.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 92–24498 Filed 10–7–92; 8:45 am]

BILLING CODE 7590–01–M

Fifth Meeting of the SCDAP/RELAP5 Peer Review Committee

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of meeting.

SUMMARY: The SCDAP/RELAP5 Peer Review Committee will hold its fifth meeting to review the technical adequacy of the SCDAP/RELAP5 code.

DATES: November 3–4, 1992.

TIME: 8:30 am each day.

ADDRESSES: One White Flint North, Rockville.

FOR FURTHER INFORMATION CONTACT: Dr. Y.S. Chen, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, DC 20555, (301) 492–3566.

SUPPLEMENTARY INFORMATION: The SCDAP/RELAP5 Peer Review Committee will hold its fifth meeting to review the technical adequacy of the SCDAP/RELAP5 code on November 3–4, 1992, in Rockville, Maryland. The SCDAP/RELAP5 code has been developed for best-estimate transient simulation of light water reactor coolant systems during severe accidents as well as large and small break loss-of-coolant accident, and operational transients such as anticipated transient without SCRAM, loss of offsite power, loss of feedwater, and loss of flow. The code is based on three separate codes: RELAP5, SCDAP, and TRAP–MELT, which are combined to model the coupled interactions that occur between the Reactor Coolant System (RCS), the core, and the fission products during a severe accident. The newest version of the code is SCDAP/RELAP5/MOD3. A number of organizations inside and outside the NRC are using or planning to use the current version. Although the quality control and validation efforts are seen to be proceeding, there is a need to have a broad technical review by recognized experts to determine the technical adequacy of the SCDAP and TRAP–MELT portions of SCDAP/RELAP5 for the serious and complex analyses it is expected to perform.

This meeting will focus on completing the review, finalizing the summary report and receiving comments from the NRC.

Dated at Rockville, Maryland, this 1st day of October, 1992.

For the U.S. Nuclear Regulatory Commission.

Farouk Eltawila,

Chief, Accident Evaluation Branch, Division of Systems Research, Office of Nuclear Regulatory Research.

[FR Doc. 92-24501 Filed 10-7-92; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-321 and 50-366]

Georgia Power Co.; Partial Denial of Amendment to Facility Operating License and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) has denied a request by Georgia Power Company, (the Licensee) for amendments to Facility Operating License Nos. DPR-57 and NPF-5, issued to the licensee for operation of the Edwin I. Hatch Nuclear Plant, Unit Nos. 1 and 2, located in Appling County, Georgia. Notice of Consideration of Issuance of the amendments was published in the **Federal Register** on August 5, 1992 (57 FR 34584).

The licensee's application of July 17, 1992, proposed several changes to the Technical Specifications relating to shutdown and refueling operations. The amendments authorize these changes except for one to change Hatch Unit 2 Action statement regarding shutdown cooling operation of the residual heat removal (RHR) service water system. This specific change, as proposed, was found to be nonconservative in that it will reduce the redundancy required for the operability of the RHR service water system which presently exists in the limiting condition of operation for Technical Specification 3.7.1.1.

The NRC staff has concluded that the licensee's proposed change is unacceptable and is denied. The licensee was notified of the Commission's denial by letter dated October 1, 1992.

By November 9, 1992, the licensee may demand a hearing with respect to the denial described above. Any person whose interest may be affected by this proceeding may file a written petition for leave to intervene.

A request for hearing or petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC, 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by the above date.

A copy of any petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, D.C., 20555, and to Ernest L. Blake, Jr., Esquire, Shaw, Pittman, Potts and Trowbridge, 2300 N. Street, NW., Washington, DC 20037, attorney for the licensee.

For further details with respect to this action, see (1) the application for amendment dated July 17, 1992, and (2) the Commission's letter to the Licensee dated October 1, 1992.

These documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street NW., Washington, DC 20555, and at the local public document room located at the Appling County Public Library, 301 City Hall Drive, Baxley, George 31513. A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Document Control Desk.

Dated at Rockville, Maryland, this 1st day of October, 1992.

For the Nuclear Regulatory Commission.

David B. Matthews,

Project Directorate II-3, Division of Reactor Projects, Office of Nuclear Reactor Regulation.

[FR Doc. 92-24503 Filed 10-7-92; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-336-OLA, FOL No. DPR-65 (ASLBP No. 92-665-02-OLA) (Spent Fuel Pool Design)]

Northeast Nuclear Energy Co. (Millstone Nuclear Power Station, Unit No. 2); Hearing and Prehearing Conference

October 1, 1992.

On April 28, 1992, the Nuclear Regulatory Commission published in the **Federal Register** a notice that the Commission was considering issuance of an amendment to the operating license issued to Northeast Nuclear Energy Company for the operation of Millstone Nuclear Power Station, Unit No. 2, located in New London County, Connecticut. 57 FR 17934.

The amendment would modify the spent fuel pool design of Millstone Unit 2 by changing the design from a two-region to a three-region configuration. The notice stated that the Commission Staff proposed to make a determination that the amendment request involves a "no significant hazards consideration" consistent with the provisions of 10 CFR 50.91. The public was invited to comment on the proposed determination. Further, the notice provided that any person whose interest may be affected by the amendment proceeding and who wishes to become a party to the proceeding may file a request for a hearing and petition for leave to intervene by May 28, 1992.

An Atomic Safety and Licensing Board (Licensing Board) was established to rule on requests for hearing and petitions for leave to intervene and to preside over any resulting hearing. Seven persons or organizations located in the vicinity of Millstone Nuclear Power Station submitted requests for hearing and petitions for leave to intervene. By Order of September 30, 1992, the Licensing Board found that one petitioner, Co-Operative Citizen's Monitoring Network (CCMN), had standing to intervene in the proceeding and the CCMN has submitted a contention appropriate for hearing. The Order admitted CCMN as a party to the proceeding and accepted the contention for hearing. The contention pertains to whether the criticality analysis for the redesign of the spent fuel pool was completed and accurate. Other parties to the proceeding are the Staff of the Nuclear Regulatory Commission and Northeast Nuclear Energy Company, the Licensee herein.

The public shall please take notice that a public hearing shall take place among the named parties on CCMN's contention at a time and place to be later announced.

To prepare for the hearing, the Licensing Board directs the parties or their representatives to appear at a prehearing conference in accordance with the provisions of 10 CFR 2.751a and 2.752. The conference shall be held on November 5, 1992 in New Haven, Connecticut at a time and place to be announced. The prehearing conference is open to the public, but only the parties and their representatives may participate.

Matters to be discussed at the prehearing conference shall include:

1. Further identification, simplification and clarification of the issues in the proceeding.

2. The possibility of settlement, stipulations of fact and admissions of fact.

3. Determine the need for any discovery under the NRC discovery rules, 10 CFR 2.740-2.744.

4. Establish a schedule for motions for summary disposition, exchange of evidence, and any evidentiary hearing.

5. Questions by the Board to the parties concerning technical matters relevant to the contention, and;

6. Any other matter properly before the Licensing Board.

The parties are requested to have their technical advisors present to aid the Licensing Board and the parties in the discussion of issues. The Licensing Board shall serve its questions upon the parties in advance of the prehearing conference.

Dated: October 1, 1992.

For the Atomic Safety and Licensing Board.

Ivan W. Smith,

Chairman, Administrative Judge.

[FR Doc. 92-24500 Filed 10-7-92; 8:45 am]

BILLING CODE 7590-01-M

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review

SUMMARY: In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35), the Railroad Retirement Board has submitted the following proposal(s) for the collection of information to the Office of Management and Budget for review and approval.

Summary of Proposal(s)

(1) *Collection title:* Railroad Separation Allowance or Severance Pay Report.

(2) *Form(s) Submitted:* BA-9.

(3) *OMB Number:* 3220-0173.

(4) *Expiration date of current OMB clearance:* Three years from date of OMB approval.

(5) *Type of request:* Extension of the expiration date of a currently approved collection without any change in the substance or in the method of collection.

(6) *Frequency of response:* Quarterly.

(7) *Respondents:* Businesses or other for profit.

(8) *Estimated annual number of respondents:* 300.

(9) *Total annual responses:* 5,000.

(10) *Average time per response:* 1.25.

(11) *Total annual reporting hours:* 6,250.

(12) *Collection description:* Section 7301 of the Railroad Unemployment & Retirement Improvement Act of 1988 (Public Law 100-647) provides for a lump-sum payment to an employee or the employee's survivor equal to the Tier 2 taxes paid by the employee on a separation allowance or severance payment for which the employee did not receive credits towards retirement. The collection obtains the information needed from railroad employers concerning the separate allowances and severance payments paid after December 31, 1988.

ADDITIONAL INFORMATION OR COMMENTS: Copies of the form and supporting documents can be obtained from Dennis Eagan, the agency clearance officer (312-751-4693). Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 N. Rush Street, Chicago, Illinois 60611-2092 and the OMB reviewer, Laura Olvien (202-395-7316), Office of Management and Budget, room 3002, New Executive Office Building, Washington, DC 20503.

Dennis Eagan,

Clearance Officer.

BILLING CODE 7905-01-M

Agency Forms Submitted for OMB Review

SUMMARY: In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35), the Railroad Retirement Board has submitted the following proposal(s) for the collection of information to the Office of Management and Budget for review and approval.

Summary of Proposal(s)

(1) *Collection title:* RUIA Claims Notification and Verification Systems.

(2) *Form(s) submitted:* ID-4k.

(3) *OMB Number:* 3220-0171.

(4) *Expiration date of current OMB clearance:* Three years from date of OMB approval.

(5) *Type of request:* Extension of the expiration date of a currently approved collection without any change in the substance or in the method of collection.

(6) *Frequency of response:* On Occasion.

(7) *Respondents:* Businesses or other for profit.

(8) *Estimated annual number of respondents:* 500.

(9) *Total annual responses:* 500,000.

(10) *Average time per response:* .0105677

(11) *Total annual reporting hours:* 6,235

(12) *Collection description:* Section 5b of the RUI Act requires that effective January 1, 1990, when a claim for benefits is filed with the Railroad Retirement Board (RRB), the RRB shall provide notice of such claim to the claimant's base year employer(s) and afford such employer(s) an opportunity to submit information relevant to the claims.

ADDITIONAL INFORMATION OR COMMENTS: Copies of the form and supporting documents can be obtained from Dennis Eagan, the agency clearance officer (312-751-4693). Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 N. Rush Street, Chicago, Illinois 60611-2092 and the OMB reviewer, Laura Oliven (202-395-7316), Office of Management and Budget, room 3002, New Executive Office Building, Washington, DC 20503.

BILLING CODE 7905-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-31281; File No. SR-MSRB-92-7]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the Municipal Securities Rulemaking Board Relating to Delivery of Official Statements to the Board

October 1, 1992.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on September 3, 1992, the Municipal Securities Rulemaking Board ("Board" or "MSRB") filed with the Securities and Exchange Commission ("Commission" or "SEC") a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The purpose of the proposed rule change is to require underwriters of primary offerings to send copies of official statements to the Board if such documents are prepared by or on behalf of the issuer. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement Of The Terms Of Substance Of The Proposed Rule Change

The Board is filing an amendment to rule G-36, on delivery of official statements to the Board (hereafter referred to as "the proposed rule change"). The proposed rule change would expand the scope of rule G-36 by requiring that underwriters of primary offerings must send copies of official statements to the Board if such documents are prepared by or on behalf of the issuer. However, the amendment would retain the exemption for "limited placements," as that term is used in Securities Exchange Act Rule 15c2-12 ("SEC Rule 15c2-12").

II. Self-Regulatory Organization's Statement Of The Purpose Of, And Statutory Basis For, The Proposed Rule Change

In its filing with the Commission, the Board included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The texts of these statements may be examined at the places specified in Item IV below. The Board has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Rule G–36 currently requires that brokers, dealers, and municipal securities dealers deliver to the Board, among other things, copies of final official statements for most primary offerings, if such documents are prepared by or on behalf of the issuer.[1] These official statements then are made available to interested parties through the Board's Municipal Securities Information Library ("MSIL") system.

An underwriter's specific obligations under rule G–36 are governed, in part, by whether the offering is subject to SEC Rule 15c2–12, relating to preparation of official statements. In general, SEC Rule 15c2–12 requires underwriters participating in primary offerings of municipal securities of $1 million or more to obtain, review, and distribute to investors copies of final official statements. The rule also requires underwriters to, among other things, contract with the issuer to receive a sufficient number of copies of the final official statement to comply with Board rules.

Certain primary offerings of municipal securities are not subject to the requirements of SEC Rule 15c2–12. The rule does not apply to (i) offerings under $1 million in par value; and (ii) offerings that are specifically exempted under section (c) of that rule. The three categories of offerings that fall under this exemption are those primary offerings with authorized denominations of $100,000 or more and which:

(1) Are sold to no more than thirty-five persons, each of whom the underwriter reasonably believes (i) has such knowledge and experience in financial and business matters that it is capable of evaluating the merits and risks of the prospective investment and (ii) is not purchasing for more than one account or with a view to distributing the securities (referred to herein as "limited placements"); or

(2) Have maturities of nine months or less; or

(3) At the option of the holder thereof may be tendered to an issuer of such securities or its designated agent for redemption or repurchase at par value or more at least as frequently as every nine months until maturity, earlier redemption, or purchase by an issuer or its designated agent.

While SEC Rule 15c2–12 applies to primary offerings with aggregate principal amounts of $1 million or more (unless specifically exempted from that rule), rule G–36 applies to primary offerings of $1 million or more, as well as offerings under $1 million. For offerings of $1 million or more, rule G–36 requires that the underwriter send to the Board two copies of the official statement along with two completed Forms G–36(OS) [2] within one business day of receiving the official statement from the issuer, but in no event later than 10 business days after the date of the final agreement to purchase, offer or sell the securities. For issues under $1 million, rule G–36 requires that, if the issuer has voluntarily prepared an official statement, then the underwriter must send the documents to the Board within one business day of settlement or closing of the issue. However, the requirements of rule G–36 currently do not apply to offerings that qualify for an exemption under SEC Rule 15c2–12(c), regardless of the amount of the offering. While there is no mandatory delivery requirement for such exempt offerings, copies of official statements for such offerings are included in the MSIL system if an issuer voluntarily prepares an official statement and the underwriter voluntarily provides copies of that document (along with completed Forms G–36(OS)) to the Board. The Board specifically exempted these offerings from the scope of rule G–36 when it adopted the rule in 1989. At that time, the Board noted that SEC Rule 15c2–12 did not require that official statements be prepared for such offerings, and the Board believed that official statements voluntarily prepared for such offerings probably would be of little interest to the market.

At a meeting of the Board's MSIL Advisory Committee,[3] several committee members stated that the Board should ensure that its collection of official statements in the MSIL system is as complete as possible. Several committee members noted that disclosure documents for short-term securities, such as those nine months or under in maturity, were an important source of information about municipal issuers. Based on these comments, as well as the experience gained by the Board over the last several years in collecting and disseminating official statements, the Board believes that there is interest among market participants for official statements relating to two categories of offerings that are currently exempt from Board rule G–36, *i.e.*, offerings with maturities of nine months or less (which includes short-term notes), and offerings with put periods of nine months or less (which includes variable rate demand obligations).

In creating the MSIL system, the Board repeatedly has expressed its concern that the general lack of access to information about municipal securities and their issuers is detrimental to the overall integrity and efficiency of the municipal securities market. The Board's efforts in this area have been aimed at enhancing the availability of, and accessibility to, existing disclosure documents. The Board determined to adopt the proposed rule change because it believes that expanding the scope of rule G–36 to include offerings with maturities of nine months or less and offerings with put periods of nine months or less will result in a more complete collection of disclosure documents, thereby increasing the overall integrity, efficiency and liquidity of the municipal securities market.

(b) The Board has adopted this amendment to rule G–36 pursuant to Section 15B(b)(2)(C) of the Act which requires, in pertinent part, that the Board's rules be designed:

to prevent fraudulent and manipulative acts and practices, to promote just and

---

[1] For purposes of rule G–36, the following terms have the following meanings:

(i) A "final official statement" is defined as a document or set of documents prepared by an issuer of municipal securities or its representative, setting forth, among other things, information concerning the issuer(s) of such securities and the proposed issue that is complete as of the date of delivery of the document or set of documents to the underwriter.

(ii) A "primary offering" is an offering of municipal securities directly or indirectly by or on behalf of an issuer of such securities, including certain remarketings.

[2] Form G–36(OS) requires the party sending the official statement to provide certain information which is necessary for the Board to process such documents for inclusion in the MSIL system.

[3] The MSIL Advisory Committee advises the Board on MSIL system operations. It is composed of 26 individuals, representing a cross-section of municipal securities market participants. The Committee met on January 15, 1992, in New York City, at which time the scope of rule G–36 was discussed.

equitable principles of trade * * * to remove impediments to and perfect the mechanism of a free and open market in municipal securities, and, in general, to protect investors and the public interest * * *.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Board does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act since it will apply equally to all brokers, dealers, and municipal securities dealers.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

At its February 1992 meeting, the Board determined to publish for comment draft amendments to rule G–36, on delivery of official statements to the Board. The draft amendments and Request for Comments were subsequently published in the April 1992 issue of *MSRB Reports*, and the Board received four comment letters in response thereto. One commentator provided information on limited placements; one commentator opposed the inclusion of short-term and limited placement offerings; one commentator supported the amendments in their entirety; and one commentator opposed any expansion of rule G–36. The following specific comments were provided to the Board:

Limited Placements

None of the commentators suggested that limited placements by included within the scope of rule G–36. Two commentators believe that private placement memoranda differ from official statements, and that such documents are not intended for public distribution. One of these commentators believes that this mode of marketing sometimes is chosen to ensure the confidentiality of financial information, and that a mandatory delivery requirement would have a chilling effect on private placements. Nevertheless, this commentator believes that voluntary filings would provide useful information to the market without misleading the public because underwriters can refrain from filing in instances in which the disclosure would be misleading. One commentator believes that although some of these securities enter the public market, making the memoranda publicly available could lead to misuse of the information. The Board concurs with the commentators.

Variable Rate Demand Obligations ("VRDOs") and Short-Term Offerings

Two commentators believe that there is limited secondary market activity in VRDOs and short-term securities, and consequently, that there would be little, if any, benefit to including disclosure documents for such securities in the MSIL system. In contrast, members of the MSIL Advisory Committee have commented that such issues sometimes appear in the secondary market, and that it would be desirable for the Board to collect and make available these documents. The Board notes that primary offerings of short-term notes and VRDOs often are fairly large in par value and, in some cases, are actively traded in the market. Thus, the Board believes that, on balance, including such documents in the MSIL system would benefit the market by increasing public access to these disclosure documents.[4]

Some of the commentators believe that information disseminated from the MSIL System may be misleading to investors if, for example, circumstances have changed and the documents are no longer current or reliable, or if the investor attempts to apply information in the document to other securities to which the document does not relate, and for which purpose the document was not intended. The Board notes that such an argument can be applied to any of the official statements currently provided to the Board under rule G–36. The Board believes that these documents clearly describe the issues to which they relate and their dates of preparation. One commentator suggests that the Board place a legend on any materials disseminated from the MSIL system indicating that such materials are dated and may no longer be reliable. The Board has done so.

One of the commentators believes that including VRDOs and short-term offerings within the scope of rule G–36 would increase costs for issuers. This commentator states that the VRDO market is specialized and that if issuers believe that their documents may be accessed through the MSIL system and relied upon by unsophisticated investors, then they may be forced to make more comprehensive disclosure to avoid liability. Similarly, the commentator argues that disclosure that may be adequate for short-term securities may be misleading when applied to that issuer's long-term obligations, and that in order to avoid liability, such issuers may be forced to produce more comprehensive (and expensive) disclosure documents in connection with short-term securities.

The Board is prohibited from regulating the form and content of issuers' disclosure documents, and from requiring issuers to prepare official statements. Thus, the Board cannot require issuers to produce (or deliver) more comprehensive disclosure documents. As stated above, the Board's efforts in this area have been aimed solely at enhancing the availability of, and accessibility to, existing disclosure documents. The Board believes that expanding the scope of rule G–36 will enhance public access to these important disclosure documents, in furtherance of the Board's statutory purposes.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submissions, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of the filing will also be available for inspection and copying at the Board's principal offices. All submissions should refer to File No. SR–MSRB–92–7 and should be submitted by October 29, 1992.

[4] As noted above, some underwriters now send official statements for these offerings to the Bureau on voluntary basis. The Board currently enters these documents into the MSIL system and makes them available to the public for inspection and copying.

For the Commission by the Division of Market Regulation, pursuant to delegated authority, 17 CFR 200.30-3(a)(12).

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

Release No. 34-31280; File No. SR-NASD-92-31

Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Order Approving Proposed Rule Change Relating to the Designation of Public Arbitrators Under the NASD Code of Arbitration Procedure

October 1, 1992.

On July 2, 1992, the National Association of Securities Dealers, Inc. ("NASD" or "Association") submitted a proposed rule change to the Securities and Exchange Commission ("SEC" or "Commission") pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") [1] and Rule 19b-4 thereunder.[2] The proposal amends part III, section 19(c) of the NASD's Code of Arbitration Procedure ("Code") [3] in order to designate individuals who are associated with the futures industry as being from the securities industry for the purpose of serving on an arbitration panel. Such individuals would, therefore, be excluded from the definition of "public arbitrator" contained in Section 19(d) of the Code.[4]

Notice of the proposed rule change, as amended, together with its terms of substance was provided by the issuance of a Commission release (Securities Exchange Act Release No. 31056, August 19, 1992) and by publication in the Federal Register (57 FR 38802, August 27, 1992). No comments were received on the proposal. This order approves the proposed rule change.

The instant proposed rule change developed, in part, from a report by the Commodity Futures Trading Commission ("CFTC") which was reviewed by SICA. The report was the result of a study of arbitration facilities that had been used to resolve disputes involving commodities and futures products. Arbitration awards rendered under the rules of the National Futures Association ("NFA") and the various self-regulatory organizations ("SROs") were reviewed in connection with the study. The report concluded that while the number of futures-related arbitration cases handled outside the NFA was very low, the other forums' arbitration rules were adequate to qualify them as alternative forums under CFTC Regulation 180.3. Since some futures-related disputes are handled under the Code, SICA determined that the Code should be amended to exclude as public arbitrators any individuals who have close ties with the futures industry. The amendment would parallel other exclusions from the definition of public arbitrator for individuals who have close ties with the securities industry. SICA recommended that all SROs adopt this provision. In order to improve its arbitrator classification rules and to provide for more uniform arbitration standards throughout the securities industry, the NASD proposed the instant rule change.

In general, subparagraph (6) to section 19(c) designates individuals who are associated with the futures industry as being from the securities industry for the purpose of serving on an arbitration panel. This includes individuals who are registered under the Commodity Exchange Act,[5] who are members of a registered futures association or any commodities exchange, or who are associated with any such persons. Such individuals would, therefore, be excluded from the definition of "public arbitrator" contained in section 19(d) of the Code. The NASD's arbitrator classification rules for cases involving public investors have been designed to assure two distinct pools of arbitrators. One pool, from which a minority of an arbitration panel is selected, consists of securities arbitrators, persons who have a strong knowledge of securities industry practices based upon their own meaningful securities industry affiliations. The second pool, from which the majority of a panel is selected, consists of public arbitrators, persons who either do not have any industry affiliation, or who do not have current or significant industry affiliations. All arbitrators, public and industry, are required to be impartial with respect to each individual dispute before them. Given the close similarities and ties between the securities and commodities industries, the proposed rule change appropriately classifies persons with commodities industry affiliations as securities arbitrators.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the NASD, including the requirements of section 15A(b)(6) of the Act.[6] Section 15A(b)(6) requires, in part, that the rules of the NASD be designed "to prevent fraudulent and manipulative acts and practices * * * to foster cooperation and coordination with persons engaged in regulating, clearing, settling, [and] processing information * * * [and] to protect investors and the public interest * * *." The proposed rule change will help ensure the integrity of the arbitration process, thus furthering the prevention of fraudulent and manipulative practices and protecting investors and the public interest. Further, the instant rule proposal helps foster cooperation and coordination between the various entities that assist in regulating the securities industry.

IT IS THEREFORE ORDERED, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.[7]

Margaret H. McFarland

Deputy Secretary.

BILLING CODE 8010-01-M

[Release No. 34-31279; File No. SR-NASD-92-22]

Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Order Approving Proposed Rule Change Relating to an Exemption From Free-Riding and Withholding Interpretation for Securities of Issuers That Wholly Own a Member Firm

October 1, 1992.

On June 2, 1992, the National Association of Securities Dealers, Inc. ("NASD" or "Association") filed with the Securities and Exchange Commission ("SEC" or "Commission") a proposed rule change pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") [1] and Rule 19b-4 thereunder.[2] The proposal amends

Section 13 of Schedule E to the NASD By-Laws ("Section 13") [3] to provide an exemption from the NASD's Free-Riding and Withholding Interpretation ("Free-Riding Interpretation") [4] for securities of issuers that wholly own a member firm.

Notice of the proposed rule change, together with its terms of substance, was provided by the issuance of a Commission release (Securities Exchange Act Release No. 31019, August 11, 1992) and by publication in the **Federal Register** (57 FR 37178, August 18, 1992). No comments were received on the proposal. This order approves the proposed rule change.

The rule change approved herein amends Schedule E to the NASD's By-Laws to provide that a member may sell securities to its employees and other associated persons when the securities are issued by an entity that wholly owns the member. Currently, the NASD's Free-Riding Interpretation prohibits employees and other associated persons of NASD member firms owned by large holding companies from purchasing shares of their respective holding company in a public offering. The NASD believes that it is appropriate and within the original intent of Section 13 to permit such persons to purchase the securities offered by their respective holding companies.

The NASD's Free-Riding Interpretation requires NASD members to make a *bona fide* public distribution, at the public offering price, of securities in a public offering that trade at a premium in the secondary market, whenever such secondary market begins. The Free-Riding Interpretation is based on the NASD's belief that the failure to make a *bona fide* public distribution when there is demand for an issue can be a factor in artificially raising the price at which the security trades in the secondary market. In particular, failure to make a *bona fide* distribution when the member may have information relating to demand for the securities or other factors not generally known to the public would be inconsistent with high standards of commercial honor and just and equitable principles of trade, and would lead to an impairment of public confidence in the fairness of the investment banking and securities business.

Section 13 provides an exemption from the Free-Riding Interpretation to permit an NASD member to sell certain securities in a public offering that trade at a premium in the secondary market, to the member's employees; to potential employees of the member resulting from a merger, acquisition, or other business combination of members that results in one public successor corporation; to persons associated with the member; and to the immediate family of such employees or associated persons. This exemption is applicable only to securities that are offered in a public offering by (i) the member, (ii) a parent of a member, or (iii) an issuer treated as a member or parent of a member pursuant to Section 9 of Schedule E to the NASD By-Laws.[5] Section 13 is based on the NASD's belief that employees of a member may naturally wish to have an ownership interest in their member-employer or its parent that is a public company, and that investment by employees in their employers is beneficial to the employee-employer relationship.

Section 2(h) of Schedule E defines the term "parent" for purposes of Section 13 as any entity affiliated with a member from which member the entity derives 50% or more of its gross revenues or in which it employs 50% or more of its assets. Large, diversified holding companies cannot meet this definition of a parent of a member because the activities of the broker-dealer are only a small part of their business. Employees and other associated person of NASD member firms owned by such large holding companies, therefore, cannot rely on the section 13 exemption to the Free-Riding Interpretation to purchase shares of their respective holding company in a public offering.

The NASD believes that it is appropriate and within the intent of section 13 and the Free-Riding Interpretation to allow employees and other section 13 associated persons of NASD members wholly-owned by large holding companies to purchase the securities offered by such entities even though the holding company does not come within the Schedule E definition of "parent." It is the NASD's belief that enabling such persons to purchase shares of their respective holding company in a public offering is consistent with the policy of permitting employees of members to have an ownership interest in their member-employers.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the NASD and, in particular, the requirements of section 15A(b)(6) of the Act.[6] Section 15A(b)(6) requires, *inter alia*, that the NASD's rules be designed to "promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing and settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest." The Commission believes that investment by employees in their employers is beneficial to the employee-employer relationship, and thus, is in the interest of investors, and in the public interest. For this reason, and for the reasons stated above, the Commission believes that the proposed rule change satisfies the requirements of section 15A(b)(6) of the Act.

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the instant rule change be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, Pursuant to delegated authority.[7]

Margaret H. McFarland,

Deputy Secretary.

[2] PTC's proposed rule change was filed as File No. SR-PTC-92-11 on August 21, 1992. GNMA is the

Continued

of the proposed rule change was published in the **Federal Register** to solicit comments from interested persons.[3] As discussed below, the Commission is approving PTC's proposal on an accelerated basis.

II. Description of the Proposal

PTC proposes to eliminate pennies from the face value of GNMA I and II securities [4] that are carried on deposit at PTC so that all such values will be expressed in whole numbers. PTC further proposes to change the trading multiple from $5,000 for GNMA I's and II's to $1.00 so that any portion of a GNMA which is a multiple of one will be deliverable through PTC, provided the minimum $25,000 denomination is met.

A. Pennies

1. *The Truncation Program*

PTC's proposal arose from discussions among PTC, GNMA, and the MBS Operations Committee of the Public Securities Association ("PSA") [5] regarding ways to increase the efficiency in trading of GNMA securities. As a result of those discussions, PTC proposes to eliminate on its records pennies from GNMA securities issued prior to October 1, 1988 and express the values of those GNMA securities in whole numbers.[6] GNMA securities, for depository purposes, will be rendered similar to FNMAs [7] and Freddie Macs,[8] which are both issued without pennies.

PTC will effect the truncation by performing a one-time elimination of pennies on PTC's records of Participant positions, including securities position reports, Repo In, Repo Out and CLF Positions, for the portion of each GNMA pool the Participant holds which was issued prior to October 1, 1988 (the "Affected Securities"). PTC will create a "dropped penny file" which will record, by pool number and Participant, the value of the pennies eliminated. Once the pennies have been eliminated, Participants will be unable to enter data for the Affected Securities with pennies because that data entry field will be eliminated.

Eliminating pennies from PTC's records will merely represent a change in PTC's record description of the GNMAs it holds on deposit for its Participants. Penny elimination will have no other financial or economic impact on PTC; however, it will have a modest financial effect on Participants over the remaining life of the Affected Securities.

The "jumbo certificate" for Affected Securities held by PTC's custodian, Chemical Bank, at the time of the pennies' elimination, as well as Affected Securities deposited after the conversion, will continue to show their original face value reflecting the presence of the pennies.

Issuers' records will continue to reflect the pennies' presence, and issuers' monthly principal and interest ("P&I") payments to PTC (as the registered owner through its nominee, MBSCC & Co.) on the Affected Securities will be determined accordingly. Nevertheless, PTC will not pass that portion of the P&I attributable to pennies directly to Participants.

On the rare occasion that a Participant should request the withdrawal of the entire balance of an issue on deposit at PTC, Chemical Bank, PTC's custodian, will issue two certificates. One will be issued to the Participant (or in the name requested by the PTC Participant) in the amount requested, less any pennies. Another certificate will be issued for the balance, including pennies, to MBSCC & Co., PTC's nominee name. Because of the *de minimis* amount involved, PTC will request that the GNMA issuer refrain from paying PTC P&I on a balance of less than a dollar.

2. Financial Impact of Penny Truncation

PTC maintains that the financial impact of its penny truncation program will be negligible and well within the industry practice for reconciling *de minimis* differences in deliveries, deposits and the like. PTC has illustrated the financial effect of the penny truncation program as follows:

Assumptions

1. All 53 PTC Participants hold positions of equal amounts of Affected Securities.

2. These Participant positions remain constant for the 12 year (assumed) remaining time to maturity of Affected Securities.

3. There will continue to be 53 PTC Participants for the next 12 years.

Illustrations	
Total face amount of affected securities.	$663 billion
Total Amortized amount of Affected Securities (58.3%).	$386.5 billion
Estimated remaining time to maturity of affected securities.	12 years
Number of GNMA pools affected.	148,681 pools
Total face amount of *pennies* on affected securities.	$76,660
Amortized value of *pennies* on affected securities (58.3%).	$44,692
Less estimated penny recapture at pool maturity [9].	−$3,717
Net amount of pennies truncated by PTC.	$40,975
Net amount of truncated pennies per year (net pennies divided by 12).	$3,415
Net amount of truncated pennies per Participant per year (*i.e.* net amount of truncated pennies per year divided by 53 Participants).	$64

[9] The amount of the recapture upon redemption is subtracted because when an Affected Security is redeemed, consistent with the procedures for P&I payments, the issuer will remit to PTC the redemption amount calculated on the original face amount (including pennies). PTC will not deduct any amount from the redemption value, but rather, will pass along to Participants the amount received from the issuer.

Because PTC does not operate to make a profit, the value of the truncated pennies will either be passed along as a rebate to Participants or be reflected in PTC's fee structure. Accordingly, the scale and scope of the economic loss to Participants, on the basis of the assumptions described above, is the loss of the use of the funds by Participants.

Assumed annual rate of return for truncated pennies—4% year

Economic loss per participant per year—$2.56

Of course, many Participants act as custodians. Therefore, it will be their customers, rather than PTC's Participants, that will bear the ultimate loss of their pro rata share of PTC's Participants' $2.56 per year loss.

B. Change in Multiple

PTC is also proposing to change the multiple on GNMA I and II securities from $5,000 to $1.00. Currently, the portion of a GNMA pool not divisible by

---

Government National Mortgage Association, also known as Ginnie Mae.

[3] Securities Exchange Act Release No. 31135 (September 2, 1992), 57 FR 41158.

[4] There are two types of GNMA securities. GNMA I securities, which were first issued in 1970, have a central transfer agent but no central paying agent. The paying agent for each GNMA I issuer makes Principal and Interest ("P&I") payments directly to the registered owners of each issue. GNMA II securities, which were first introduced in 1983, take advantage of technological improvements made since 1970, thus allowing GNMA II securities issuers to make consolidated payments to registered owners through a centralized paying agent.

[5] The PSA is an association of brokers, dealers and banks active in the U.S. Government securities markets.

[6] Beginning October 1, 1988, GNMA has issued GNMA securities in whole numbers, obviating the need for truncation.

[7] FNMA is the Federal National Mortgage Association, also known as Fannie Mae.

[8] Freddie Mac is the Federal Home Loan Mortgage Corporation (FHLMC).

$5,000 is called a "tail" and cannot be delivered through PTC. By changing the multiple to $1.00, Participants will be able to deliver any portion of a pool, including a "tail," provided the minimum $25,000 denomination is met.

C. Industry Support for Pennies Program

PTC undertook its pennies truncation program following extensive consultation with the PSA and GNMA. In addition, the proposal has been discussed during ten separate meetings of PTC's Operations Committee, the members of which represent PTC's participating banks and dealers, and has the full support of that Committee. Participants have indicated their wish for the change through the PSA, citing the need for the elimination of pennies due to the administrative difficulty pennies produce in their systems. PTC maintains that the elimination of pennies will result in cost savings to the industry.[10] Furthermore, the retention of pennies on GNMAs creates a reconciliation problem because many banks and dealers delete pennies from their records and discrepancies may arise between their records and the records they receive from PTC.

III. Discussion

Sections 17A(b)(3)(A) and (F) of the Act require that a clearing agency is organized and its rules designed to promote the prompt and accurate clearance and settlement of securities transactions for which it is responsible and to assure the safeguarding of funds and securities which are in the custody or control of a clearing agency.[11] As discussed below, the Commission believes that PTC's proposal is consistent with these goals.

PTC estimates the direct financial effect of penny truncation to be minimal.[12] Even without taking into account the recapture of pennies upon the maturity of affected securities, PTC estimates the cost to participants to be $64 per year. With the recapture of pennies, that cost declines to only $2.56, representing the time value of the pennies lost by participants through penny truncation.

While the price of penny truncation is minimal, the continued presence of pennies imposes several burdensome costs on Participants. The presence of pennies increases the likelihood of errors in keystroke entry of transactions. Pennies also cause administrative difficulties in Participants' systems. Additionally, the presence of pennies creates a reconciliation problem because many banks and dealers delete pennies from their records and discrepancies may arise between their records and the records they receive from PTC. The elimination of pennies will result in fewer processing errors and a net cost savings to the industry.[13] Thus, the proposal will promote the prompt and accurate clearance and settlement of securities transactions.

PTC has established procedures designed to safeguard the funds and securities affected by the truncation of pennies from its records. PTC has established procedures to provide for an accurate accounting of the amount eliminated from its records by the proposal through the creation of a dropped penny file. PTC also has established mechanisms to recapture the P&I payments associated with the truncated pennies. Moreover, PTC has agreed to establish a policy for the disposition of truncated pennies that is consistent with section 17A(b)(3)(D) of the Act which requires the equitable allocation of dues, fees and other charges among participants of a clearing agency and to file such policy with the Commission as a proposed rule change under section 19(b) of the Act.[14]

PTC has requested that the Commission find good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing in the **Federal Register**. PTC has requested that the Commission approve the proposal by October 1, 1992 to provide sufficient time for its participants to prepare for the truncation of pennies from PTC's records. Effective December 1, 1992, PTC plans to eliminate pennies from its records. The Commission believes that there is good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing in the **Federal Register** because the elimination of pennies from PTC's records will result in savings to investors and those that act on their behalf consistent with the goals of section 17A(a)(1) of the Act.[15]

The staff of the Board of Governors of the Federal Reserve System ("Board of Governors") has stated that it believes that the proposed rule change is consistent with the safeguarding of securities and funds in the custody or control of the clearing agency or for which it is responsible.[16]

IV. Conclusion

For the reasons stated above, the Commission finds that PTC's proposal is consistent with section 17A of the Act. The Commission also finds good cause for approving the proposal prior to the thirtieth day after publication in the **Federal Register**.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[17] that PTC's proposed rule change (SR–PTC–92–11) be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area #2594]

California; Declaration of Disaster Loan Area

As a result of the President's major disaster declaration on August 29, 1992, I find that Calaveras and Shasta Counties in the State of California constitute a disaster area as a result of damages caused by fires beginning August 16 and continuing through August 20, 1992. Applications for loans for physical damage may be filed until the close of business on October 29, 1992, and for loans for economic injury until the close of business on June 1, 1993, at the address listed below: U.S. Small Business Administration, Disaster Area 4 Office, P.O. Box 13795, Sacramento, CA 95853–4795, or other locally announced locations. In addition, applications for economic injury loans from small businesses located in the contiguous counties of Alpine, Amador, Lassen, Modoc, Plumas, San Joaquin, Siskiyou, Stanislaus, Tehama, Trinity, and Tuolumne in the State of California may be filed until the specified date at the above location.

The interest rates are:

	Percent
For physical damage:	
Homeowners with credit available elsewhere	8.000
Homeowners without credit available elsewhere	4.000
Businesses with credit available elsewhere	6.000
Businesses and non-profit organizations without credit available elsewhere	4.000
Others (including non-profit organizations) with credit available elsewhere	8.500
For economic injury:	
Businesses and small agricultural cooperatives without credit available elsewhere	4.000

The number assigned to this disaster for physical damage is 259405 and for economic injury the number is 770200.

(Catalog of Federal Domestic Assistance Program Nos. 59002 and 59008)

Dated: September 8, 1992.

Interest Rates

The interest rate of section 7(a) Small Business Administration direct loans (as amended by Pub. L. 97–35) and the SBA share of immediate participation loans is 7⅝ percent for the fiscal quarter beginning October 1, 1992.

On a quarterly basis, the Small Business Administration also publishes an interest rate called the optional "peg" rate (13 CFR 122.8–4 (d)). This rate is a weighted average cost of money to the government for maturities similar to the average SBA loan. This rate may be used as a base rate for guaranteed fluctuating interest rate SBA loans. For the October-December quarter of FY 93, this rate will be 6⅞ percent.

Dated September 24, 1992.

Coast Guard

[CGD 92–053]

Navigation Safety Advisory Council; Meeting

AGENCY: Coast Guard, DOT.

ACTION: Notice of meeting.

SUMMARY: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. 2), notice is hereby given to a meeting of the Navigation Safety Advisory Council to be held at the Hyatt Regency Tampa, Two Tampa City Center, Tampa, FL on Saturday through Tuesday, November 14–17, 1992. The Council will convene for a preliminary plenary session at 5:00 p.m. on Saturday, November 14, 1992.

Committees will meet on Saturday, November 14 from 5:30 to 8:30 p.m. and on Sunday, November 15 from 9 to 12 a.m. and 1 to 4 p.m. Committee discussions will include the following topics:

a. *Navigation Rules:*

1. Relationship between International Rule 5 and the lookout provisions of the STCW Convention.

2. Review of Rule 24(a) lighting requirements for vessels engaged in towing.

b. *Navigation Equipment Committee:*

1. Training for users of Electronic Chart Display (ECDIS).

c. *Human Factors in Navigation Safety:*

1. Bridge procedures and bridge team management.

2. Workhour limitations and fatigue.

3. Conduct of trials in which the officer of the navigational watch acts as the sole lookout in periods of darkness.

d. *Marine Information and Communications:*

1. Review draft U.S. Note to IMO Subcommittee on Standards of Training and Watchkeeping concerning the

relationship between master/navigational watch and the pilot.

The Council will convene in plenary session on Monday, November 16 at 8 a.m. to 5 p.m. and reconvene on Tuesday, November 17 at 8 a.m. to 12 noon to hear Committee status reports and any matters properly brought before the Council.

The meeting is open to the public. Persons wishing to make oral statements should notify the Executive Director at the address below no later than Friday, November 13, 1992. Any person may present a written statement to the Council at any time without advance notice.

FOR FURTHER INFORMATION CONTACT: Margie G. Hegy, Executive Director, Navigation Safety Advisory Council, U.S. Coast Guard (G–NSR–3), Washington, DC 20593–0001, Telephone (202) 267–0415.

Dated: October 1, 1992.

W.J. Ecker,

Rear Admiral, U.S. Coast Guard, Chief, Office of Navigation Safety and Waterway Services.

BILLING CODE 4910–14–M

Federal Aviation Administration

Proposed Advisory Circular 21–CGSR: Computer Generated/Stored Records

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of and requests comments on proposed Advisory Circular (AC) 21–CGSR, Computer Generated/Stored Records. The proposed AC, provides information and guidance concerning computerized manufacturing and quality records systems. This notice is necessary to give all interested persons an opportunity to present views on the proposed AC.

DATES: Comments must be received on or before December 7, 1992.

ADDRESSES: Copies of the proposed AC 21–CGSR can be obtained from and comments may be returned, to the following address: Federal Aviation Administration, Production Certification Branch, AIR–220, Aircraft Manufacturing Division, Aircraft Certification Service, 800 Independence Avenue, SW., Washington, DC, 20591.

FOR FURTHER INFORMATION CONTACT: Ava Robison, Federal Aviation Administration, Production Certification Branch, AIR–220, Aircraft Manufacturing Division, room 333, Aircraft Certification Service, 800 Independence Avenue SW., Washington, DC 20591, (202) 267–7147.

SUPPLEMENTARY INFORMATION:

Background

This AC is an acceptable means, but not the only means of demonstrating compliance with the requirements of Federal Aviation Regulations part 21, Certification Procedures for Products and Parts. The proposed AC provides information and guidance on the elements of a computer system that generates and stores aviation manufacturing and quality records.

Comments Invited

Interested persons are invited to comment on the proposed AC by submitting such written data, views, or arguments as they desire to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Director, Aircraft Certification Service, before issuing a final AC. Comments submitted must identify the proposed AC 21–CGSR, File Number PO–220–0171.

Comments received on the proposed AC 21–CGSR may be examined, before and after the comment closing date in room 333, FAA Headquarters Building (FOB–10A), 800 Independence Avenue, SW., Washington, DC 20591, between 8:30 a.m. and 4:30 p.m.

Issued in Washington, DC, on September 21, 1992.

Terry A. Allen,

Acting Manager, Aircraft Manufacturing Division.

[FR Doc. 92–24354 Filed 10–7–92; 8:45 am]

BILLING CODE 4910–13–M

Proposed Advisory Circular 21–PAS; Quality Assurance Controls for Product Acceptance Software

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of and requests comments on proposed Advisory Circular (AC) 21–PAS Quality Assurance Controls for Product Acceptance Software. The proposed AC provides information and guidance concerning control of product acceptance software. This notice is necessary to give all interested persons an opportunity to present views on the proposed AC.

DATES: Comments must be received by December 7, 1992.

ADDRESSES: Copies of the proposed AC 21–PAS can be obtained from, and comments may be returned to, the following address: Federal Aviation Administration, Production Certification Branch, AIR–220, Aircraft Manufacturing Division, Aircraft Certification Service, 800 Independence Avenue SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: Ava Robinson, Federal Aviation Administration, Production Certification Branch, AIR–220, Aircraft Manufacturing Division, room 333, Aircraft Certification Service, 800 Independence Avenue SW., Washington, DC 20591, (202) 267–7146.

SUPPLEMENTARY INFORMATION:

Background

Prior to this proposed AC, the FAA has not issued any guidance concerning ground based software. Since most production approval holders use some form of software to test or inspect products, this proposed AC is intented to provide information on ensuring inspection/test software remains in the released configuration. The proposed AC 21–PAS provides information and guidance on the control of software used to demonstrate conformance with Federal Aviation Administration approved type design. This proposed AC is an acceptable means, but not the only means of demonstrating compliance with the requirements of Federal Aviation Regulations Part 21, Certification Procedures for Products and Parts.

Comments Invited

Interested persons are invited to comment on the proposed AC by submitting such written data, views, or arguments as they desire to the address specified above. Comments submitted must identify the proposed AC 21–PAS, File Number PO–220–0221. All communications received on or before the closing date for comments specified above will be considered by the Director, Aircraft Certification Service, before issuing a final AC.

Comments received on the proposed AC 21–PAS may be examined, before and after the comment closing date in room 333, FAA Headquarters Building (FOB–10A), 800 Independence Avenue SW., Washington, DC 20591, between 8:30 a.m. and 4:30 p.m.

Issued in Washington, DC, on September 21, 1992.

Terry A. Allen,

Acting Manager, Aircraft Manufacturing Division.

BILLING CODE 4910–13–M

Federal Highway Administration

Environmental Impact Statement; Craven County, NC

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Craven County, North Carolina.

FOR FURTHER INFORMATION CONTACT: Roy C. Shelton, Operations Engineer, 310 New Bern Avenue, Suite 410, Raleigh, North Carolina 27601, Telephone: (919) 856–4350.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the North Carolina Department of Transportation (NCDOT), will prepare an environmental impact statement (EIS) on a proposal to improve U.S. Route 70 (U.S. 70) in Craven County, North Carolina. The proposed improvement would involve the reconstruction of existing U.S. 70 through the town of Havelock, North Carolina, or a bypass on new location for a distance of about 10 miles.

Improvements to the corridor are considered necessary for the existing and projected traffic demand. Alternatives under consideration include (1) No-build; (2) using alternative travel modes; (3) improving the existing highway; and (4) constructing a four-lane, limited access highway on new location.

Letters describing the proposed action and soliciting comments have been sent to appropriate Federal, State and local agencies. A series of public meetings and a public hearing will be held. Public notice will be given of the time and place of the meetings and hearing. The draft EIS will be available for public and agency review and comment prior to the hearing.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provide above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Issued on: October 1, 1992.

Roy C. Shelton,

Operations Engineer, Raleigh, North Carolina.

BILLING CODE 4910–13–M

Intent To Rule on Application To Impose and Use a Passenger Facility Charge (PFC) at Pellston Regional Airport, Pellston, MI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of intent to rule on application.

SUMMARY: The FAA proposes to rule and invites public comment on the application to impose and use a PFC at Pellston Regional Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Public Law 101–508) and part 158 of the Federal Aviation Regulations (14 CFR part 158).

DATES: Comments must be received on or before November 9, 1992.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address:

Federal Aviation Administration, Detroit Airports District Office, Willow Run Airport, East, 8820 Beck Road, Belleville, Michigan 48111.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Mr. Raymond L. Thompson, Airport Manager, of the County of Emmet, Michigan, at the following address: Pellston Regional Airport, Pelston, Michigan 49769.

Air carriers and foreign air carriers may submit copies of written comments previously provided to the County of Emmet under § 158.23 of part 158.

FOR FURTHER INFORMATION CONTACT: Mr. Dean C. Nitz, Acting Manager, Detroit Airports District Office, Willow Run Airport, East, 8820 Beck Road, Belleville, Michigan 48111, (313) 487–7300. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invites public comment on the application to impose and use a PFC at Pellston Regional Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 190) (Public Law 101–508) and part 158 of the Federal Aviation Regulations (14 CFR part 158).

On September 21, 1992, the FAA determined that the application to impose and use a PFC submitted by County of Emmet, Michigan was subsequently complete within the requirements of § 158.25 of part 158. The FAA will approve or disapprove the application, in whole or in part, no later than December 22, 1992.

The following is a brief overview of the application.

Level of the proposed PFC: $3.00.

Proposed charge effective date: October 1, 1992.

Proposed charge expiration date: December 31, 1997.

Total estimated PFC revenue: $440,875.

Brief description of proposed project(s):

Project To Impose and Use PFC

Construct aircraft ramp
Heated sand storage building
Rehabilitate Runway 14/32
Rehabilitate Taxiway G

Project Only To Impose a PFC

Blast pads for Runways 14 and 32, and paved shoulders for Runway 14/32
Acquire physically challenged passengers (PCP) equipment
Acquire snow removal equipment (broom)
Runway 5/23 lighting

Rehabilitate taxiways A and B

Class or classes of air carriers which the public agency has requested not be required to collect PFCs: Air Taxis and Charters.

Any person may inspect the application in person at the FAA office listed above under **"FOR FURTHER INFORMATION CONTACT"**.

In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at the Pellston Regional Airport.

Issued in Des Plaines, Illinois on October 1, 1992.

James H. Washington,

Acting Manager, Airports Division Great Lakes Region.

BILLING CODE 4910-13-M

National Highway Traffic Safety Administration

[Docket No. 92-34; Notice 2]

Mack Trucks Inc.; Grant of Petition for Determination of Inconsequential Noncompliance

This notice grants the petition by Mack Trucks, Inc. (Mack) of Allentown, Pennsylvania, to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 *et seq.*) for a noncompliance with Federal Motor Vehicle Safety Standard No. 108, "Lamps, Reflective Devices, and Associated Equipment." The basis of the petition was that the noncompliance is inconsequential as it relates to motor vehicle safety.

Notice of receipt of the petition was published on July 17, 1992, and an opportunity afforded for comment (57 FR 31748).

From December 1, 1991 through March 26, 1992, Mack installed front-mounted turn signal lamps on approximately 1,000 RB, RD, RM, DM, and DMM model trucks. The turn signal lamps on these vehicles do not comply with the photometric requirements of Standard No. 108.

Effective December 1, 1991, paragraph S5.1.1 of Standard No. 108 was amended to incorporate by reference Society of Automotive engineers Standard J1395 April 1985. Paragraph 5.3.2 of J1395 states that the functional lighted lens area of a single lamp, each compartment of a multiple compartment, and each lamp of a multiple lamp arrangement shall be at least 75 cm^2 (11.635 in^2). The subject lamps have functional lighted lens area of 72 cm^2 (11.18 in^2). Mack supported its petition for inconsequential noncompliance with the following:

Mack Trucks, Inc. has utilized the lamps in question * * * since approximately 1979 without problem.

Each lamp provides 11.18 square inches (slightly more than 72 square centimeters) of functional lighted lens area compared to the required 75 square centimeters (equivalent to 11.625 square inches), a difference of less than 3 square centimeters (0.445 square inch).

Mack Trucks, Inc. believes that, based on the subject lamps' minimal difference (less than 4%) from the required functional lighted lens area and our use of these same lamps for more than ten (10) years on the same vehicle models without problem, the noncompliance * * * does not affect the safety of our vehicles and is, therefore, inconsequential.

No comments were received on the petition.

The noncompliance represented by this petition is clearly distinguishable from that which is the basis for the typical inconsequentiality petition. In the usual situation, the standard represents a fixed level of performance which the petitioner's vehicle or equipment item fails to reach. In this instance, the performance of the equipment has not varied, but the level of performance prescribed has changed. Had petitioner's vehicles been manufactured before December 1, 1991, they would have complied with Standard No. 108. The new requirement, effective that date, was intended to improve motor vehicle safety. Failure to meet the new requirement results, of course, in a noncompliance, but the noncompliance represents a level of safety performance previously considered an acceptable minimum standard. Further, the margin of failure in this instance is slight, less than half a square inch per lamp, as is the number of vehicles involved, 1,000 units.

There is precedent for granting a petition where compliance with previously existing requirements has become a noncompliance because of an amendment to a standard. These precedents have concerned Standard No. 101 where failure to provide certain identification symbols was deemed inconsequential because the identification that was provided met the requirement in effect before the effective date of the symbol requirement (Ford Motor Co., Docket IP81-5; Toyota Motor Co., Docket IP81-8; Volvo White, Docket IP85-7). The agency sees no substantive difference between those petitions, and the petition under consideration. Accordingly, in consideration of the foregoing, the petitioner has met its burden of persuasion that the noncompliance herein described is inconsequential as it relates to motor vehicle safety, and its petition is granted.

Authority: 15 U.S.C. 1417; delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.

Issued on: September 30, 1992.

Barry Felrice,

Associate Administrator for Rulemaking.

DEPARTMENT OF THE TREASURY

Public Information Collection Requirements Submitted to OMB for Review

Dated: October 2, 1992.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96-511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 3171 Treasury Annex, 1500 Pennsylvania Avenue, NW., Washington, DC 20220.

Internal Revenue Service

OMB Number: 1545-0201
Form Number: IRS Form 5308
Type of Review: Revision
Title: Request for Change in Plan/Trust Year
Description: Form 5308 is used to request permission to change the plan or trust year for a pension benefit plan. The information submitted is used in determining whether IRS should grant permission for the change.
Respondents: Businesses or other for-profit
Estimated Number of Respondents: 480
Estimated Burden Hours Per Respondent: 44 minutes
Frequency of Response: On occasion
Estimated Total Reporting Burden: 339 hours
OMB Number: 1545-1074
Form Number: IRS Form 8743
Type of Review: Revision
Title: Information on Fuel Inventories and Sales
Description: Form 8743 is used to provide information on fuel inventories and sales. This form enables IRS to monitor the excise tax liability for all taxable fuels. (Internal Revenue Code (IRS) sections 4081, 4091, 4041 and 4042). The form will be

filed by refiners, importers or terminal operators.
Respondents: Individuals or households, Businesses or other for-profit, Small businesses or organizations
Estimated Number of Respondents/ Recordkeepers: 108,000
Estimated Burden Hours Per Respondent/Recordkeeper:
Recordkeeping—6 hours, 13 minutes
Learning about the law or the form—18 minutes
Preparing and sending the form to the IRS—28 minutes
Frequency of Response: Quarterly
Estimated Total Reporting/ Recordkeeping Burden: 748,440 hours
Clearance Officer: Garrick Shear (202) 622-3869, Internal Revenue Service, room 5571, 1111 Constitution Avenue, NW., Washington, DC 20224

BILLING CODE 6720-01-M

UNITED STATES COMMISSION ON IMPROVING THE EFFECTIVENESS OF THE UNITED NATIONS

Meeting and Hearing

AGENCY: United States Commission on Improving the Effectiveness of the United Nations.

ACTION: Notice of public meeting.

SUMMARY: The purpose of this meeting is to obtain information on the subject of United Nations reform and U.S. policy toward the United Nations, and to conduct other Commission business. The meeting will be open to the public.

DATES: October 23, 1992, 9:30 a.m. to 5 p.m.

ADDRESSES: The meeting will be held at the Ceremonial Court Room at the U.S. Federal Court House, 601 Market Street, Philadelphia, PA.

FOR FURTHER INFORMATION CONTACT: Gregory Wierzynski, Executive Director, 1825 Connecticut Avenue, suite 1011, Washington, DC 20009; telephone: (202) 673-5012; telefax: (202) 673-5007.

Experts or representatives of interested groups wishing to present testimony should contact the Executive Director and submit a summary of their presentation by October 16, 1992.

Citizens interested in testifying may sign up with the Court Security Officer between 9:30 a.m. and 11 a.m. on the date of the meeting and will be selected on a first-come, first-served basis. Testimony will be heard after 3:30 p.m. Citizen witnesses must limit their statements to five minutes but may submit additional material for the record.

The U.S. Commission on Improving the Effectiveness of the United Nations was established by Public Law 100-204, 101 Stat. 1934 (22 U.S.C. 287 note). The Commission is charged with preparing and submitting to the President and Congress a report containing a detailed statement of its findings, conclusions and recommendations regarding reform of the United Nations system and the role of the United States in the United Nations system. The Commission is bipartisan and is privately-funded.

The Commission members are: Representative James A. Leach and Charles M. Lichenstein, Co-Chairs; Thomas F. Eagleton, Representative Edward F. Feighan, Edwin J. Feulner, Jr., Walter Hoffmann, Senator Nancy L. Kassebaum, Alan L. Keyes, Jeane J. Kirkpatrick, Peter M. Leslie, Gary E. MacDougal, Reverend Richard John Neuhaus, Senator Clairborne Pell, Jerome J. Shestack, Harris O. Schoenberg, and Jose S. Sorzano.

Dated: October 5, 1992.

DEPARTMENT OF VETERANS AFFAIRS

Information Collection Under OMB Review

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

The Department of Veterans Affairs has submitted to OMB the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35). This document lists the following information: (1) The title of the information collection, and the Department form number(s), if applicable; (2) a description of the need and its use; (3) who will be required or asked to respond; (4) an estimate of the total annual reporting hours, and recordkeeping burden, if applicable; (5) the estimated average burden hours per respondent; (6) the frequency of response; and (7) an estimated number of respondents.

ADDRESSES: Copies of the proposed information collection and supporting documents may be obtained from Janet G. Byers, Veterans Benefits Administration (20A5), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420 (202) 233-3021.

Comments and questions about the items on the list should be directed to VA's OMB Desk Officer, Joseph Lackey, NEOB, room 3002, Washington, DC 20503, (202) 395-7316. Do not send requests for benefits to this address.

DATES: Comments on the information collection should be directed to the OMB Desk Officer on or before November 9, 1992.

Dated: September 29, 1992.

By direction of the Secretary.

B. Michael Berger, Director,

Records Management Service.

Reinstatement

1. Veterans Application for Work-Study Allowance, VA Form 20-8691.
2. The form is needed to identify those veteran-students who wish to apply for the supplemental VA work-study benefit and to assist VA in selecting eligible applicants.
3. Individuals or households.
4. 5,375 hours.
5. 15 minutes.
6. On occasion.
7. 21,500 respondents.

Sunshine Act Meetings

Federal Register
Vol. 57, No. 196
Thursday, October 8, 1992

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL RESERVE SYSTEM BOARD OF GOVERNORS

TIME AND DATE: 11:00 a.m., Tuesday, October 13, 1992.

PLACE: Marriner S. Eccles Federal Reserve Building, C Street entrance between 20th and 21st Streets, NW., Washington, DC 20551.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Personnel actions (appointments, promotions, assignments, reassignments, and salary actions) involving individual Federal Reserve System employees.
2. Any items carried forward from a previous announced meeting.

CONTACT PERSON FOR MORE INFORMATION: Mr. Joseph R. Coyne, Assistant to the Board; (202) 452-3204. You may call (202) 452-3207, beginning at approximately 5 p.m. two business days before this meeting, for a recorded announcement of bank and bank holding company applications scheduled for the meeting.

Dated: October 5, 1992.

Jennifer J. Johnson,

Associate Secretary of the Board.

[FR Doc. 92-24820 Filed 10-5-92; 4:52 pm]

BILLING CODE 6210-01-M

NATIONAL CREDIT UNION ADMINISTRATION

Notice of Meetings

TIME AND DATE: 9:30 a.m., Tuesday, October 13, 1992.

PLACE: Filene Board Room, 7th Floor, 1776 G Street, NW., Washington, DC 20456.

STATUS: Open.

BOARD BRIEFINGS:

1. Central Liquidity Facility Report and Report on CLF Lending Rate.
2. Insurance Fund Report.

MATTERS TO BE CONSIDERED:

1. Aproval of Minutes of Previous Open Meeting.
2. Proposed Charter Application for Citizens Community Federal Credit Union, Omaha, Nebraska.
3. Proposed Charter Application for South Central Los Angeles Community Development Federal Credit Union, Los Angeles, CA.
4. Proposed Amendment: Part 710, NCUA's Rules and Regulations, Voluntary Liquidation of Federal Credit Unions.
5. Final Amendment: Section 700.1(i), NCUA's Rules and Regulations, Risk Assets.
6. Fiscal Year 1993 Overhead Transfer Rate.

RECESS: 10:45 a.m.

TIME AND DATE: 11:00 a.m., Tuesday, October 13, 1992.

PLACE: Filene Board Room, 7th Floor, 1776 G Street, NW., Washington, DC 20456.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Approval of Minutes of Previous Closed Meeting.
2. Administrative Action under Sections 206 and 208 of the Federal Credit Union Act. Closed pursuant to exemptions (8), (9)(A)(ii), and (9)(B).
3. Central Liquidity Facility Investment Policy. Closed pursuant to exemption (9)(B).
4. National Credit Union Share Insurance Fund Investment Policy. Closed pursuant to exemption (9)(B).
5. Request from a Corporate Credit Union for a Determination under Section 704.1(b) of NCUA's Rules and Regulations. Closed pursuant to exemptions (8) and (9)(A)(ii).
6. Personnel Action. Closed pursuant to exemptions (2), (6), (8), and (10).

FOR MORE INFORMATION CONTACT: Beckey Baker, Secretary of the Board, Telephone (202) 682-9600.

Beckey Baker,

Secretry of the Board.

Department of the Interior

Bureau of Indian Affairs

Indian Gaming; Notices

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Indian Gaming

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of approved Tribal-State Compact.

SUMMARY: Pursuant to 25 U.S.C. 2710, of the Indian Gaming Regulatory Act of 1988 (Pub. L. 100–497), the Secretary of the Interior shall publish, in the Federal Register, notice of approved Tribal-State Compacts for the purpose of engaging in Class III (casino) gambling on Indian reservations. The Assistant Secretary—Indian Affairs, Department of the Interior, through his delegated authority has approved the Southern Ute Indian Tribe—State of Colorado Gaming Compact, which was enacted on August 11, 1992.

DATES: This action is effective on October 8, 1992.

ADDRESSES: Office of Tribal Services, Bureau of Indian Affairs, Department of the Interior, MS/MIB 4603, 1849 "C" Street, NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Hilda Manuel, Chief, Division of Tribal Government Services, Bureau of Indian Affairs, Washington, DC 20240, (202) 208–7446.

Dated: October 1, 1992.

William D. Bettenberg,

Acting Assistant Secretary—Indian Affairs.

Environmental Protection Agency

Daminozide; Notice of Final Determination for Non-Food Uses and Termination of the Daminozide Special Review

ENVIRONMENTAL PROTECTION AGENCY

[OPP-30000/40C; FRL-4163-7]

Daminozide; Notice of Final Determination for Non-Food Uses and Termination of the Daminozide Special Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final determination and termination of Special Review.

SUMMARY: This Notice concludes the Special Review of the non-food uses of daminozide and announces the Agency's decision to retain these registrations without requiring modification to the label. This Notice also contains the Agency's revised estimate of the dietary risks based on the conclusions of the 2-year UDMH cancer studies in mice and rats.

ADDRESSES: Requests for a hearing must be submitted to: Hearing Clerk (A-110), Environmental Protection Agency, 401 M St., SW., Washington, DC, 20460.

Additional information supporting this action is available for public inspection from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays in the Public Response and Program Resource Branch, Field Operations Division, (H7506C), Office of Pesticide Programs, Environmental Protection Agency, Room 1132, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA 22202.

FOR FURTHER INFORMATION CONTACT: By Mail: Thomas Moriarty, Special Review Branch, Special Review and Reregistration Division (H7508W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office Location and Telephone Number: Third Floor, CS #1, 2800 Jefferson Davis Highway, Arlington, VA 22202 (703) 308-8035.

SUPPLEMENTARY INFORMATION:

Electronic Availability: This document is available as an electronic file on *The Federal Bulletin Board* at 9 a.m. on the date of publication in the Federal Register. By modem dial 202-512-1387 or call 202-512-1530 for disks or paper copies. This file is available in Postscript, Wordperfect 5.1 and ASCII.

This Notice announces EPA's decision to retain the non-food use registrations of products which contain daminozide as the active ingredient. This Notice concludes EPA's administrative Special Review of the risks and benefits of daminozide which was initiated in a Federal Register notice of July 1984 (49 FR 29186). A notice of Preliminary Determination (PD 2/3) was issued in May 1989 (54 FR 22558), and supporting documents, including the Technical Support Document (TSD), for the PD 2/3 were made available to any requesting party at that time. The Agency received a request by the sole registrant of daminozide products, Uniroyal Chemical Company, in October 1989, to voluntarily withdraw all food-use registrations of daminozide. A notice was published in November 1989 (54 FR 47492) which canceled all food use registrations of daminozide as of November 17, 1989. This Notice concludes EPA's special review of the non-food uses of daminozide.

This Notice is organized into nine units. Unit I is an introduction providing background information and the legal basis for this action. Unit II is a summary of previous regulatory actions concerning the registration of daminozide products. Unit III presents EPA's summary of the toxicological concerns, cancer classification, and comments received in response to EPA's PD2/3. Unit IV contains EPA's exposure assessment, final worker risk estimates and additional comments received in response to the PD 2/3. Unit V contains the benefits associated with daminozide and comments received in response to the PD 2/3. Unit VI contains EPA's reassessment of the dietary risks of daminozide based on the refined cancer potency factor (Q_1^*) and Unit VII summarizes EPA's risk/benefit determination and announces EPA's regulatory action. Finally, Unit VIII announces the availability of the Public Docket and Unit IX lists references contained in this document.

I. Introduction

Daminozide is the common name for butanedioic acid mono (2,2-dimethylhydrazine). The sole registrant, Uniroyal Chemical Company (Uniroyal), produces four products, B-Nine, B-Nine SP, Alar 85, and Alar Technical, which contain daminozide as the active ingredient. Daminozide is a systemic growth regulator registered only for use on ornamental and bedding plants. Daminozide also was registered for use on food crops; however, Uniroyal Chemical Company voluntarily canceled all food use registrations of daminozide on November 14, 1989.

Legal background. Before a pesticide product may be lawfully sold or distributed in either intrastate or interstate commerce, the product must be registered by EPA (FIFRA sections 3(a) and 12(a)(1)). A registration is a license allowing a pesticide product to be sold and distributed for specified uses in accordance with specified use instructions, precautions, and other terms and conditions of a registration.

In order to obtain a registration for a pesticide under FIFRA, an applicant must demonstrate that the pesticide satisfies the statutory standard for registration. The standard requires, among other things, that the pesticide perform its intended function without causing "unreasonable adverse effects on the environment." The term "unreasonable adverse effects on the environment" is defined in FIFRA section 2(bb), as "any unreasonable risk to man or the environment, taking into account the economic, social and environmental costs and benefits of the use of any pesticide." This standard requires a finding that the benefits of the use of the pesticide exceed the risks of use when the pesticide is used in compliance with the terms and conditions of registration or in accordance with commonly recognized practices.

The burden of proving that a pesticide satisfies the statutory standard is on the proponent of registration and continues as long as the registration remains in effect. Under FIFRA section 6, the Administrator may issue a Notice of Intent to Cancel the registration of a pesticide product whenever it is determined that the pesticide product causes unreasonable adverse effects on the environment. EPA created the Special Review process to facilitate the identification of pesticide uses which may not satisfy the statutory requirements for registration and to provide an informal procedure to gather and evaluate information about the risks and benefits of these uses.

A Special Review is initiated if a pesticide meets or exceeds the risk criteria set out in the regulations at 40 CFR part 154. EPA announces that a Special Review is initiated by issuing a notice in the Federal Register. Registrants and other interested persons are invited to review the data upon which the Special Review is based and to submit data and information to rebut EPA's conclusions by showing that EPA's initial determination was in error, or by showing that use of the pesticide is not likely to result in any significant risk to human health or the environment. In addition to submitting rebuttal evidence, persons wishing to comment may submit relevant information to aid in the determination of whether the economic, social, and environmental benefits of the pesticide outweigh the risks of use. After reviewing the comments received and other relevant material obtained during the Special Review process, EPA makes a decision

on the future status of registrations of the pesticide.

The Special Review process may be concluded in various ways depending upon the outcome of EPA's risk/benefit assessment. If EPA concludes that all of its risk concerns have been adequately rebutted, the pesticide registration will be maintained unchanged, or if all its risk concerns are adequately addressed through label changes, a special review may be terminated after such label changes. If, however, all risk concerns are not rebutted, EPA will proceed to a full risk/benefit assessment. In determining whether the use of a pesticide poses risks which are greater than its benefits, EPA considers possible changes to the terms and conditions of registration which can reduce risks, and what impacts such modifications may have on the benefits of use. If EPA determines that such changes reduce risks to the level where the benefits outweigh the risks, it may require that such changes be made in the terms and conditions of the registration. Alternatively, EPA may determine that no changes in the terms and conditions of a registration will adequately assure that use of the pesticide will not pose any unreasonable adverse effects. If EPA makes such a determination, it may seek cancellation, and, if necessary, suspension. In either case, EPA must issue a Notice of Intent to Suspend or a Notice of Intent to Cancel the registrations. If the Notice requires changes in the terms and conditions of registration, cancellation may be avoided by making the specified changes set forth in the Notice, if possible. Adversely affected persons, including registrants and applicants for registration, may also request a hearing on the suspension or cancellation of a specified registration or use.

II. Regulatory History

A. Rebuttable Presumption Against Registration

In June 1984, EPA (the Agency) issued a Notice of Rebuttable Presumption Against Registration (RPAR) for Daminozide which initiated what is now called the Special Review Process (40 CFR part 154). The RPAR included the Notice of Initiation of Special Review (PD 1) (49 FR 29186, July 18, 1984), and the Pesticide Registration Standard and Guidance Document. At that time, the Agency was concerned about carcinogenic risk to the general population through dietary exposure to daminozide. Data available at that time indicated that daminozide was carcinogenic in laboratory mice and rats. The Agency was specifically concerned about risk from unsymmetrical dimethylhydrazine (UDMH). UDMH, a known carcinogen in laboratory animals, is a contaminant of commercial daminozide and a metabolite of daminozide once it enters the body.

EPA believed, however, that the risks associated with the non-food uses of daminozide were not significant. The Agency noted that daminozide was not rapidly absorbed through the skin and exposure to applicators was low (Ref. 1).

Through the PD 1, the Agency solicited information from registrants, applicants, and interested parties to help conduct a full risk/benefit analysis of daminozide. Information which the Agency solicited included information on the importance of daminozide to agriculture and information regarding alternative growth regulators such as their efficacy and use patterns.

B. Draft Preliminary and Final Determination (PD 2/3/4), Data Call-In, and Tolerance Extension.

In September 1985 EPA submitted a Draft PD 2/3/4 to the Scientific Advisory Panel (SAP) and the U.S. Department of Agriculture, as required by FIFRA. The Agency intended to proceed with a PD 2/3/4 in order to expedite the special review of daminozide. (A PD 2/3/4 allows the Agency to propose and finalize a regulatory action in one step whereas it is usually completed in two; first by proposing a regulatory action (PD 2/3) then by finalizing a regulatory action (PD 4)).

The SAP believed that the animal cancer data were insufficient to support a quantitative risk assessment and recommended that EPA require additional data before taking regulatory action on daminozide. Although EPA is not legally bound by the SAP's opinion, the Panel is an integral part of Agency decisions. In this case, EPA accepted the Panel's recommendations and did not proceed with the Draft PD 2/3/4 but required additional data, and took a number of steps to reduce risk to the general population as discussed below.

A Data Call-In Notice was issued in 1986 which required a number of additional studies including cancer studies in mice and rats, a greenhouse worker exposure study, and a market basket survey to measure levels of daminozide and UDMH on produce in the grocery store (Ref. 2).

To reduce risk to the general population, the Agency reduced the application rate of daminozide on apples and added to the label an advisory statement which cautioned against the use of daminozide on apples intended for processing. (Levels of UDMH increase when apples are processed). EPA also reduced the tolerance for daminozide residues on apples from 30 ppm to 20 ppm and set the tolerance to expire on July 31, 1987. The Agency intended to reevaluate the daminozide tolerance on apples after the preliminary results of the residue and market basket survey data were available. However, data available at that time (July 1987), showed that the tolerances could not be lowered without making some legally treated apples over tolerance and therefore, subject to seizure. Thus, EPA extended the 20 ppm apple tolerance until January 31, 1989 (51 FR 12889). In early 1989, the Agency reevaluated the tolerance in light of the interim results of the cancer studies.

In January 1989, EPA estimated, based on the interim results of the UDMH cancer studies in rat and mice, that the dietary risk to the general population from daminozide/UDMH was 4.9×10^{-6}. In considering the estimated risk, EPA believed that regulatory action should be pursued but that the daminozide tolerance, due to expire January 31, 1989, could be extended for an additional 18 months without posing an unreasonable risk to the general population.

C. Preliminary Determination to Cancel Certain Daminozide Product Registrations and Draft Notice of Intent to Cancel (PD 2/3)

In preparing the PD 2/3, which was issued in May 1989 (54 FR 22558), EPA reviewed all comments and data submitted in response to the PD 1, the historical toxicity data, and the interim results of the UDMH cancer studies required through the 1986 Data Call-In.

The Agency's primary concern about exposure to daminozide/UDMH was cancer. Although EPA had classified both UDMH and daminozide as Group B2, probable human, carcinogens, (Ref. 3), EPA had identified UDMH as the primary agent of concern. At that time EPA did not estimate risk from daminozide, as it did for UDMH. Although daminozide produced the same types of tumors as did UDMH (hemangiomas/hemangiosarcomas), the incidences of tumors showed trends but no statistical significance by pairwise comparison with controls (Ref. 3).

The interim results of the UDMH cancer studies in mice and rats were received in March 1988. Based on the report from the mouse study, EPA calculated an interim UDMH cancer potency factor (Q_1^*). (Cancer potency is a quantitative measure or estimate of the relationship between exposure to

increasing doses of the chemical substance in question and the increased severity of the carcinogenic effect, such as the number of tumors). EPA believed that vascular tumors (hemangiosarcoma) were appropriate to use in calculating the interim Q_1^* because: (1) It is a relatively uncommon malignant tumor and has a low background rate in laboratory mice and rats; and (2) it is the same type of tumor seen in the earlier UDMH studies (Toth 1973, Toth 1977a, Toth 1977b, and Haun 1984) (Refs. 4, 5, 6, and 7).

Dietary risk was estimated using the interim (Q_1^*) and exposure estimates derived from levels of daminozide residues on treated foods, as observed in the market basket survey, and consumption patterns. EPA estimated dietary risk to the general population from exposure to UDMH to be 4.9×10^{-5}. Full descriptions of exposure estimates and risk calculations, including exposure and risk calculations to various subpopulations, are contained in the Technical Support Document (TSD) (Ref. 3).

Risk from the non-food uses of daminozide was estimated using exposure estimates from a surrogate worker exposure study. Although Uniroyal submitted a daminozide worker exposure study in 1986, it was found to be inadequate to assess exposure, therefore, EPA used surrogate data (Sumagic PRG [Merricks, 1987]) it had on hand to estimate daminozide exposure to greenhouse workers. The Agency estimated risk to a worker performing the three job functions of mixer, loader, and applicator, to be 2×10^{-6} (Ref. 3).

The Agency also conducted a preliminary analysis of the benefits associated with the use of daminozide on both food and non-food crops. The analysis was conducted to determine the potential economic impacts to consumers, retailers, and producers if daminozide was not available. The Agency also considered the biological effects of daminozide, methods of application, and projected biological and economic impacts if daminozide were canceled, as well as the most likely chemical and non-chemical alternatives if daminozide were not available. EPA's preliminary benefit analysis of the following sites is contained in the TSD: apples (several varieties), peanuts, cherries, grapes, peaches, nectarines, pears and tomatoes (tomato transplants), and the non-food uses of daminozide.

EPA believed that the carcinogenic risk posed to the general population from the food uses of daminozide outweighed the benefits and therefore proposed to cancel all food-use registrations of daminozide. However, EPA proposed to retain the non-food uses of daminozide without modification to the label because it believed that the risks posed to greenhouse workers were outweighed by the benefits.

D. Notice of Receipt of Request to Cancel and Termination of Special Review of Food Uses, and Final Tolerance Rule

In October 1989, Uniroyal Chemical Company requested voluntary cancellation of all food-use registrations of daminozide. On November 14, 1989, the Agency published a notice (54 FR 47482) announcing its receipt of this request. That notice announced Uniroyal's commitment to submit the final report of the 2-year UDMH cancer studies and also announced EPA's intention to conduct a final dietary and worker risk assessment based on the conclusions of these studies. Subsequently, the Agency received the final reports of the UDMH cancer studies. In addition, Uniroyal Chemical Company voluntarily submitted worker exposure and metabolism data. The final dietary and worker risk assessments, based on these data, are contained in Units III, IV, VI, and VII of this Notice.

The Agency issued the Proposed Rule to revoke tolerances for daminozide on September 7, 1989 (54 FR 37276) the final tolerance rule for daminozide was published on March 19, 1990 (55 FR 10218), which set all tolerances for daminozide residues on food and feed crops at zero as of May 31, 1991.

E. Conclusion of Special Review (PD 4)

EPA's assessment and final decision regarding the risks and benefits for the non-food uses of daminozide are set forth in this document. This Notice also contains the Agency's reassessment of the dietary risks of daminozide. Based on both newly received data (including the final report of the rat and mouse cancer studies, new worker exposure data, and metabolism data), and historical daminozide data, EPA has determined that benefits from daminozide use on ornamental and bedding crops outweigh the risks to workers. Accordingly, EPA is announcing its decision to retain all non-food use registrations of daminozide without change to the label. Additionally, dietary risks have been reestimated using the final report of the UDMH cancer study in mice. EPA maintains that the dietary risk posed to the general population in 1989 was unreasonable and the Agency does not intend to change its regulatory position on the food-uses of daminozide. A more detailed discussion of the risks and benefits associated with the non-food uses is contained in the latter part of this Notice.

III. Summary of Toxicological Concerns and Agency Evaluation of Comments

The principal effect of concern with daminozide is the carcinogenic potential of UDMH. In 1989, EPA based its Preliminary Determination on the interim results of the UDMH cancer studies in rats and mice (Uniroyal 1988c, 1988d, 1988e). The final report of these studies has been submitted and EPA finds these data appropriate for cancer risk assessment (Ref. 8). EPA has considered, as a whole, the data from both the interim and the final reports of the cancer studies in evaluating the carcinogenic potential of daminozide and UDMH.

A. Carcinogenicity

1. *Hazard identification.* In one study (Uniroyal 1988c), Fisher 344 rats were administered UDMH in their drinking water at concentration levels of 0, 1, 50, or 100 ppm for 2 years. Gross findings included a dose related increase in cloudy corneas in both sexes which was not statistically significant. Non-neoplastic lesions were not observed in the test animals with the exception of bile duct hyperplasia and inflammation of the liver in the highest dosed males and in the mid-dose and high-dose females. The females also showed a statistically significant increasing trend of liver tumors (hepatocellular carcinomas/adenocarcinomas) and of combined liver tumors (hepatocellular adenomas and carcinomas/adenocarcinomas). Females also exhibited a significant increase in combined adenomas and carcinomas in the 50 and 100 ppm concentration groups when compared to controls. There were no other dose-related increases of neoplasms at other sites in females (Ref. 9).

A second study (Uniroyal 1988d), was conducted in which CD-1 mice were administered UDMH in their drinking water for 2 years at concentration levels of 0, 1, 5, or 10 ppm in males and 0, 1, 5, or 20 ppm in females. In the second year of the study, survival decreased in both sexes in all dose groups. However, only the top dose of both the males and females showed a substantial decrease in survival when compared to controls at termination. At week 78, the male mice showed a noticeable decrease in the survival (ranging from 82 percent to 86 percent), when compared to controls. There was an increase in the incidence

of brown pigment in the liver of both males and females in the mid-dose and high-dose groups between 12 and 24 months. Both males and females also showed a significant increase in the number of combined lung tumors (bronchioloalveolar adenoma and/or carcinoma). Male and female mice also showed an increase in the occurrence of bronchioloalveolar adenomas (Ref. 9).

In the third study (Uniroyal 1988e), CD–1 mice were administered UDMH at concentration levels of 0, 40, or 80 ppm in drinking water. The majority of deaths of the test animals occurred in the second year of the study. While there was a significant decrease in the survival of males only in the 80 ppm dose group, the females showed a significant decrease in survival in both the 40 ppm and 80 ppm dose groups. There was a biologically significant dose-related decrease in water consumption in male mice receiving 40 and 80 ppm when compared to controls. There was an increased incidence of lung tumors (alveolar/bronchiolar adenomas) and vascular liver tumors (hemangioma and hemangiosarcomas) which were considered dose related. In the 80 ppm dose group, both sexes showed both a pair-wise comparison, and a significant increasing trend in hemangiosarcomas and bronchioloalveolar tumors. In pair-wise comparison to the controls with the 40 ppm dose group, there was a significant increasing trend of vascular tumors (hemangiosarcomas) and combined vascular and lung adenomas (hemangiomas and lung adenomas/carcinomas). The males in the 40 ppm dose group also showed an increase in the incidence of combined vascular tumors (hemangiomas and hemangioma sarcomas), combined lung tumors (lung adenomas/carcinomas), and combined hepatocellular tumors (adenomas and/or carcinomas).

Female mice in the 80 ppm dose group showed significant increased trends and significant pair-wise comparison to controls for vascular tumors (hemangiosarcomas), combined vascular tumors (hemangiomas and hemangiosarcomas), lung tumors (bronchioloalveolar adenomas) and combined lung tumors (bronchioloalveolar adenomas and bronchioloalveolar carcinomas). In pair-wise comparison to controls, the 40 ppm dose group showed a significant increase in vascular tumors (hemangiosarcomas), combined vascular tumors (hemangiomas and hemangioma sarcomas), in hepatocellular adenomas, in lung tumors (bronchioloalveolar adenomas) and combined lung tumors (bronchioloalveolar adenomas and/or carcinomas) (Ref. 9).

2. *Metabolism.* A metabolism study in miniature swine was submitted to the Agency in 1987 (Ref. 10). Daminozide was administered in a single 5 mg/kg oral dose and after 96 hours was found in almost all tissues at levels up to 73 ppb, with the liver and kidney containing the highest levels. Analysis indicated that both ^{14}C-UDMH and ^{14}C-dimethylnitrosamine (DMN), which are derived from ^{14}C-daminozide, were excreted in the urine. From urinalysis, EPA estimated that only about 10 percent of the oral dose could be shown to be absorbed and approximately 1 percent (1 ppm) of daminozide is metabolized to UDMH. DMN levels in the urine, collected in the first 24 hours, ranged from 0.01 to 0.69 ppm.

3. *Mutagenicity.* While daminozide has been demonstrated to be negative for mutagenicity in a number of studies, UDMH has shown positive mutagenic activity in various other studies which have been submitted to the Agency. The Agency also notes that the open literature reports UDMH as positive for mutagenicity. Based on the available information, the Agency remains concerned about the mutagenic potential of UDMH (Refs. 11, 12, 13, 14, 15, and 16), although the available data does not conclusively indicate whether UDMH is mutagenic. In addition, further metabolism of UDMH can result in the formation of DMN, a well known mutagen.

B. Unit Risk (Q_1)*

EPA calculated the final Q_1* based on the incidence of hemangiosarcomas from all sites of the male CD–1 mouse study (the combined report of Uniroyal 1988d and Uniroyal 1988e) (Ref. 17). The Agency did not combine the incidence of the hemangioma with that of the incidence of the hemangiosarcoma in deriving the cancer potency factor because the data were insufficient to demonstrate evidence that the benign hemangioma progressed to the malignant hemangiosarcoma (Ref. 18). The number of hemangiomas were few and, even if included, would only marginally affect the unit risk estimate.

The Agency is also aware of the increased incidence of lung tumors in both the lower dose CD–1 mouse study and in the higher dose CD–1 mouse study. However, the refined unit risk estimate of UDMH (the final UDMH Q_1*) did not reflect the incidence of these tumors for the following reasons: (1) Historical incidences of lung tumors in the CD–1 male mouse were high, ranging from 17 percent to 52 percent; (2) incidences of lung adenomas and lung carcinomas in the two highest dose groups (40 and 80 ppm) were significantly higher than controls but were not dose-related; (3) the lung tumors were found only at interim or terminal sacrifice, or when animals died at unscheduled times during the study; (4) the hemangiosarcoma, which has a low background incidence in CD–1 mice, was a rapidly fatal tumor that was observed throughout the study; and, (5) the lung tumors were not able to be correctly evaluated by the same statistical method as the hemangiosarcoma (Ref. 18). The unit risk estimate of lung tumors alone, of hemangiosarcomas alone, and of the combined incidence of lung tumors and hemangiosarcomas were computed. The unit risk estimate of the combined tumors was within one order of magnitude of that of the unit risk estimate of the hemangiosarcoma. Use of either the combined unit risk estimate or that of the hemangiosarcoma alone would have a similar impact on the final regulatory decision.

Finally, the Agency did not use data from the rat study to estimate a UDMH Q_1* because only a small number of tumors occurred in only one sex and only at relatively high doses. The Agency believes that the responses observed in the rat study contrasted with the concerns raised by the responses seen in the mouse studies (Ref. 18).

A separate cancer potency factor was calculated using data from male mice (0.46 $(mg/kg/day)^{-1}$) and data from the female mice (0.31 $(mg/kg/day)^{-1}$). EPA used the more conservative Q_1* from the male mice, 0.46 $(mg/kg/day)^{-1}$, for the final risk assessment (Ref. 19). Because both sexes of mice had statistically significant increases in mortality with increasing doses of UDMH, hemangiosarcomas from all sites were evaluated by Peto's Prevalence test and the cancer potency factor was evaluated by the time-to-tumor Weibull83 model (Ref. 17).

C. Cancer Classification

EPA classified UDMH and the parent compound daminozide as Group B2 carcinogens using the weight-of-the-evidence approach and following the classification scheme set forth in EPA's Carcinogen Risk Assessment Guidelines (51 FR 33992, September 24, 1986). "Weight-of-the-evidence" is an approach the Agency uses to evaluate how likely an agent is to be a human carcinogen by taking into consideration the quality and adequacy of the data and the kinds and consistency of responses induced by a suspect

carcinogen. Using this approach the Agency has determined that there is sufficient evidence from animals to consider the agent(s) probable human carcinogens. Evidence is "sufficient" for an agent to be classified as a probable human carcinogen if there is an increased incidence of tumors: (a) In multiple species or strains of test animals; or (b) in multiple experiments, for example, with different dose levels or routes of administration; or (c) to an unusual degree in a single experiment with regard to high incidence, unusual site or type of tumor, or early age at onset.

UDMH is an inherent component of commercial daminozide and daminozide also breaks down to UDMH. The Agency, therefore, has classified both the metabolite, UDMH, and the parent, daminozide, as B2 carcinogens (Ref. 9) based on the following evidence:

(1) Administration of UDMH to female rats for 2 years was associated with a significant increase of combined liver tumors (carcinomas, and combined adenomas and carcinomas). In male and female mice, there was a statistically significant increase in the incidence of lung tumors.

(2) Administration of UDMH to male and female mice was associated with a significant increased incidence of vascular tumors (hemangiosarcomas and combined hemangiomas and hemangiosarcomas) at the mid-dose and high-dose levels.

(3) UDMH is structurally related to other hydrazine compounds (such as 1,2 dimethylhydrazine and monomethylhydrazine) which produce vascular and lung tumors.

(4) Data from a metabolism study in miniature pigs indicated the presence of DMN in the urine. DMN has been reported to produce vascular and pulmonary tumors identical to those evoked by both daminozide and UDMH.

(5) The mutagenicity concern for both UDMH and DMN also supports the Agency's cancer classification.

D. Comments and EPA Response

In response to the PD 2/3, EPA received comments regarding the Agency's evaluation of daminozide (Ref. 20). Several comments were submitted regarding the Agency's toxicological evaluation of daminozide/UDMH. A summary of these comments and the Agency's response follows.

Comment. Uniroyal believes that the Group B2 cancer classification of daminozide is inappropriate and that the weight-of-the-evidence supports a finding that daminozide is not carcinogenic. Uniroyal cited a 1988 study in which rats were administered daminozide in doses up to 10,000 ppm with no reported carcinogenic effects related to the administration of daminozide. Uniroyal also believes that several studies (Toth 77 and NCI 78), which the Agency used to support its regulatory decision, are not appropriate for cancer risk assessment because of irregularities in the design of the studies and in the way the studies were conducted.

EPA Response. With respect to the cancer classification of daminozide, the Agency recognizes that the cancer study in rats, as cited above, did not produce an overt incidence of tumors, as compared to the responses observed in mice. Additionally, the Agency notes that the gastrointestinal tract of various animal species to which alar is exposed, vary considerably and some species are more able to tolerate metabolic insult while others have a greater capability to cause (by metabolic conversion) or allow (due to appropriate pH condition) the breakdown of daminozide to UDMH. Since daminozide has been shown to breakdown to UDMH in several species, e.g., mice, guinea pig and swine, although not in the rat, the Agency believes that it is only appropriate that both the parent compound, daminozide, and the metabolite compound, UDMH, be classified as Group B2 carcinogens.

With respect to the Agency's use of the Toth 77 and NCI 78 studies, the Agency did not base its 1989 proposed regulatory decision on these two studies, rather the Agency used these two studies only as support for its proposed regulatory decision. (Indeed, the Scientific Advisory Panel recommended that the Agency not perform a quantitative risk assessment based on these studies.) The Agency, therefore, called for more definitive cancer data through a Data Call In, issued in 1986. The cancer studies in mice and rats provided the basis for the Agency's 1989 proposed regulatory decision.

Comment. Uniroyal believes that the dose levels used in the higher-dose cancer study in mice (40 or 80 ppm) exceed the Maximum Tolerated Dose (MTD), and therefore, the study is inappropriate to use for human health risk assessment. Uniroyal contends that the administered dose levels produced extreme levels of toxicity in the test animals, resulting in an increased rate of mortality. Uniroyal believes the high rate of mortality in the test animals makes data produced from this study highly questionable.

EPA Response. The Agency requested an additional carcinogenicity study in mice at doses of 0, 40, or 80 ppm because it did not believe that the MTD would be achieved with doses of 10 or 20 ppm of UDMH in the lower dose studies. The Agency consulted with other governmental testing facilities knowledgeable in setting test dose levels in cancer studies in order to establish dosing levels which should be administered to show whether UDMH was in fact carcinogenic.

Although the top doses produced some toxicity, the Agency believes that the high mortality, resulting from tumor rupture, cannot be attributed to exceedance of the MTD. Additionally, data from both higher dose and lower dose cancer studies with UDMH, when considered together show a good dose relationship with statistical significance, thereby arguing against the MTD being exceeded. The Agency, therefore, considered it appropriate to use the data from both the higher dose and the lower dose studies to assess human risk.

Comment. Uniroyal believes that the open literature on UDMH mutagenicity, which supports EPA's concern, is not accurate. UDMH mutagenicity data, as reported in the open literature, show that mutagenic responses are associated with cytotoxicity and are found only in studies where the test material was contaminated with dimethylnitrosamine (DMN).

EPA Response. The Agency believes that at least a portion of UDMH is nitrosated in humans, as it is in some animals, such as mice, due to the gastric acid secretions of a low pH. The Agency realizes that nitrosation does not occur in all mutagenicity studies. However, the Agency maintains a concern for the mutagenic potential of UDMH because it is capable of nitrosating, in the human, to DMN which is a known mutagenic agent.

IV. Worker Exposure and Risk

At the time of the PD 2/3, the Agency made a number of assumptions in estimating worker exposure to UDMH because of the limited data available at that time. Since then, the Agency has received a number of studies which have allowed EPA to refine the exposure assessment. Exposure to UDMH comes from two sources: (1) Conversion of daminozide to UDMH when it is ingested or absorbed through the skin or lungs; and (2) presence of UDMH as a contaminant in the commercial product and conversion of daminozide to UDMH when left standing in the mixing tank. The total risk from UDMH is estimated by adding together the individual risk from each source of exposure to UDMH.

A. Worker Exposure

A worker exposure study submitted by Uniroyal in 1990 measured dermal and inhalation exposure to daminozide from application to ornamentals in a greenhouse. Exposure was monitored separately for the mixer/loader job function and the applicator job function.

The Agency calculates the unit of exposure to daminozide by dividing the total dermal and inhalation exposure by the volume of pesticide handled. Actual dermal exposure to the body (exposure to the skin under the clothing) was measured using whole body dosimeters (long cotton briefs worn under the workers' typical clothing and over the workers' underwear). Dermal exposure to the face and neck was measured by extracts from swabs and exposure to the hands was measured from washing in detergent or rinsing in distilled water. Total dermal exposure was measured as the sum of all the residues from the upper and lower body dosimeters and residues measured from the facial and neck swab and hand rinse (Ref. 21).

Inhalation exposure was measured with an air sampling pump attached to the collar of the worker. Calculations for inhalation exposure were based on a respiration rate of 45 liters/minute for all job functions (Ref. 21).

Based on information provided by commercial growers and Uniroyal, EPA used the following parameters to estimate exposure to workers in both large and small greenhouses: (1) Workers in a large-greenhouse operation handle approximately 24 pounds of daminozide annually and small-greenhouse workers handle 10 pounds annually; (2) maximum exposure to a worker was estimated assuming that a worker will have a combined job function of mixer, loader, and applicator; (3) daminozide is not applied on consecutive days and the maximum period of exposure for any one application is 5 hours; (4) maximum concentration of the active ingredient is used (5,000 ppm solution), and is applied two times per year on multiple crops; and (5) daminozide is applied as a fine spray (as opposed to a coarse spray) which results in higher exposure (Ref. 22).

1. *Exposure to UDMH metabolized from daminozide.* Based on the miniature pig metabolism study, EPA has determined that upon entering the gut, about 1 percent of daminozide is metabolized to UDMH (Ref. 10). However, a worker's dermal and/or inhalation exposure to daminozide most likely does not result in metabolic conversion of daminozide to UDMH in the gut but elsewhere in the body e.g., the bloodstream. Because the exact rate of metabolic conversion in the body is not known, EPA assumes it to be the same as the 1 percent rate at which daminozide is metabolized to UDMH in the gut. EPA believes that this may be an overestimation because the metabolic conversion rate in the gut is generally higher (due to pH), than in other parts of the body. A worker's exposure to UDMH which is metabolically converted from daminozide is summarized in Column A of Tables 1a and 1b. in Unit. IV.A.2 of this notice.

2. *Exposure to UDMH from contamination and hydrolysis of daminozide.* The other source of UDMH exposure is from that amount of UDMH which is present as a contaminant of the commercial daminozide product. Commercial daminozide is comprised of 0.005 percent UDMH (Ref. 3). Exposure to UDMH also comes from the conversion (hydrolysis) of daminozide to UDMH when a solution of daminozide is mixed and stands in the tank before being used. EPA calculates that 0.012 percent of a daminozide solution hydrolyzes to UDMH when allowed to stand in the tank for 24 hours (the daminozide label states that spray and stock solutions must be used within 24 hours) (Ref. 22). Estimated exposure to UDMH as a contaminant, and UDMH as a hydrolysis product, is calculated as 0.005 percent and 0.012 percent respectively, of exposure to the parent compound, daminozide. A worker's dermal exposure to UDMH as a contaminant and hydrolysis product of daminozide is summarized in columns B and C of the following Table 1a:

TABLE 1a.—DERMAL EXPOSURE TO DAMINOZIDE AND UDMH

(in mg/kg/year, for combined function of mixer/loader/applicator)

Site	Daminozide	UDMH		
		A	B	C
	Exposure to daminozide (parent)	1 percent UDMH metabolized (in the body from the parent)	0.005 percent UDMH as part of the parent (contaminant)	UDMH hydrolyzed from the parent (0.012 percent)
Large Greenhouses	0.18	1.8×10^{-3}	9.0×10^{-6}	2.2×10^{-5}
Small Greenhouses	0.075	0.75×10^{-3}	3.8×10^{-6}	9.0×10^{-6}

A worker's inhalation exposure to UDMH which is metabolically converted from daminozide, which is a contaminant of commercial daminozide and is hydrolized from commercial daminozide is summarized in columns A, B, and C, respectively of the following Table 1b:

TABLE 1b.—INHALATION EXPOSURE TO DAMINOZIDE AND UDMH

(in mg/kg/year, for combined function of mixer/loader/applicator)

Site	Daminozide	UDMH		
		A	B	C
	Exposure to daminozide (parent)	1 percent UDMH metabolized (in the body from the parent)	0.005 percent UDMH as part of the parent (contaminant)	UDMH hydrolyzed from the parent (0.012 percent)
Large Greenhouses	0.12	1.2×10^{-3}	6.0×10^{-6}	1.4×10^{-5}

TABLE 1b.—INHALATION EXPOSURE TO DAMINOZIDE AND UDMH—Continued

(in mg/kg/year, for combined function of mixer/loader/applicator)

Site	Daminozide	UDMH		
		A	B	C
	Exposure to daminozide (parent)	1 percent UDMH metabolized (in the body from the parent)	0.005 percent UDMH as part of the parent (contaminant)	UDMH hydrolyzed from the parent (0.012 percent)
Small Greenhouses	0.049	4.9×10^{-4}	2.5×10^{-6}	5.9×10^{-6}

B. Absorption

1. *UDMH as a contaminant and hydrolyzed from daminozide.* The UDMH which is a contaminant of daminozide and which is hydrolyzed from daminozide comes into contact with the worker as UDMH per se and therefore, the rate of dermal absorption of UDMH is necessary to determine the dose.

A dermal absorption study was recently submitted by Uniroyal which demonstrated dermal absorption and bioavailability of UDMH in rats (Ref. 23). Based on this study, the bioavailability of UDMH for the treatment group which most closely matched a worker's potential exposure ranged from 11 percent to 24 percent. EPA used a UDMH dermal absorption rate of 20 percent as a reasonable worst-case scenario (Ref. 24).

The Agency assumes that 100 percent of the UDMH which is present as a contaminant of daminozide or is hydrolyzed from daminozide is absorbed into the lungs.

2. *UDMH which is metabolically converted from daminozide.* Metabolic conversion of daminozide to UDMH occurs once daminozide has entered the body. The rate of dermal absorption of daminozide is known to be 1 percent and the amount of daminozide which is metabolically converted to UDMH once it enters the body, is assumed to be 1 percent (Ref. 25).

EPA also assumes that 100 percent of that which is metabolically converted from daminozide to UDMH is absorbed into the lungs (Ref. 24).

C. Risk Characterization

Lifetime risk to workers may be estimated by converting exposure estimates to a lifetime average daily dose (LADD) and multiplying by the refined UDMH Q_1^* of 0.46 $(mg/kg/day)^{-1}$. The LADD converts yearly exposure to an average daily dose over a worker's lifetime (EPA assumes a professional applicator works 35 years of a 70-year lifetime). The Agency has calculated risk to workers using an approach which measures exposure to UDMH. Exposure to UDMH comes from three sources; as a contaminant of daminozide, as a hydrolysis product of daminozide and as a metabolic break down product of daminozide.

Inhalation and dermal risk from UDMH which is metabolically converted from daminozide is broken down in the following Table 2a:

TABLE 2a.—RISK FROM UDMH WHICH IS METABOLICALLY CONVERTED FROM DAMINOZIDE

Site	Dose[1] (mg/kg/day)	LADD (mg/kg/day)	Q_1^* $(mg/kg/day^{-1})$	Lifetime Risk
Large Greenhouse				
Inhalation	4.8×10^{-4}	6.6×10^{-7}	0.46	3.0×10^{-7}
Dermal	7.2×10^{-6}	9.9×10^{-9}	0.46	4.6×10^{-9}
Small Greenhouse				
Inhalation	2.0×10^{-4}	2.7×10^{-7}	0.46	1.2×10^{-7}
Dermal	3.0×10^{-6}	4.1×10^{-9}	0.46	1.9×10^{-9}

[1] Dose values are derived from Column A of Table 1a and 1b. Inhalation values are adjusted for molecular weight (UDMH is 40 percent by weight of daminozide). Dermal values are adjusted for molecular weight and dermal absorption (daminozide is dermally adsorbed at a rate of 1 percent).

Inhalation and dermal risk from UDMH which is a contaminant of, and hydrolized from commercial daminozide is broken down in the following Table 2b:

TABLE 2b.—RISK FROM UDMH AS A CONTAMINANT AND HYDROLYSIS PRODUCTS OF DAMINOZIDE

Site	Dose[1] (mg/kg/day)	LADD (mg/kg/day)	Q_1^* $(mg/kg/day^{-1})$	Lifetime Risk
Large Greenhouse				
Inhalation	1.2×10^{-3}	1.6×10^{-6}	0.46	7.4×10^{-7}
Dermal	3.6×10^{-6}	4.9×10^{-9}	0.46	2.3×10^{-9}
Small Greenhouse				
Inhalation	4.9×10^{-3}	6.7×10^{-6}	0.46	3.1×10^{-6}
Dermal	1.5×10^{-5}	2.0×10^{-8}	0.46	9.2×10^{-10}

[1] Dose values are derived by adding values from Columns B and C of Tables 1a and 1b. Inhalation values are taken from Column C and adjusted by 40 percent and added to Column B, dermal values are taken from Column B adjusted by 20 percent and added to Column C which is adjusted by 20 percent and 40 percent.

Risk from UDMH is the sum of the risks posed by UDMH from all three sources of exposure to UDMH. Incorporating a number of worst-case assumptions stated earlier in this Notice, EPA estimates upper-bound lifetime risk to workers in large greenhouses to be 3.1×10^{-7} and to workers in small greenhouses to be 1.2×10^{-7}, as summarized in the following Table 3 (Ref. 24):

TABLE 3.—TOTAL LIFETIME RISK FROM UDMH[1]

Site	Risk
Large Greenhouses	3.1×10^{-7}
Small Greenhouses	1.2×10^{-7}

[1] Includes risk from all sources, combined inhalation and dermal exposure and for the combined function of mixer/loader and applicator.

D. Risk From Daminozide

The Agency has regulated daminozide based on a risk estimate using an approach that measures exposure to UDMH. The Agency has also conducted an alternative UDMH risk assessment based on an approach that measures the effects of daminozide per se, since daminozide is also a Group B2 carcinogen. The Agency used a daminozide Q_1^* and estimates of exposure to daminozide to estimate worker risk. Based on this alternative approach, the Agency estimates upper-bound lifetime risk to workers to be 1.5×10^{-6} and 5.8×10^{-7}, for large and small greenhouses respectively. Although the Agency has performed this alternative risk assessment based on daminozide, the Agency believes that the preferable method to estimating risk is to measure exposure from UDMH per se. Therefore, the Agency has based its regulatory decision on risk estimates which come from measuring exposure to UDMH. The risk estimate based on daminozide is explained in full detail in the *Addendum to the Daminozide Risk Assessment*, available in the public docket.

E. Comments and EPA's Response

Only one comment was received regarding the Agency's non-dietary risk assessment. This comment and the Agency's response are summarized below.

Comment. Uniroyal believes that exposure estimates taken from the surrogate worker exposure study, (Sumagic PRG [Merricks, 1987]), which the Agency used to estimate exposure for the PD 2/3, are too high. Uniroyal also cites a surrogate study available in the open literature which shows that exposure values to workers are lower than those used by the Agency.

Response. At the time of the PD 2/3, the Agency chose to use the surrogate data which were available and considered appropriate instead of searching through the open literature for another appropriate exposure study. As stated earlier in this Notice, EPA found that risk to greenhouse workers, based on the surrogate exposure data, was acceptable.

The current exposure assessment incorporates a number of assumptions which are different from those incorporated into the exposure estimates of the PD 2/3; therefore, a direct comparison between the two is not possible. However, although the present exposure estimates and those contained in the PD 2/3 are based on different assumptions, EPA believes that the present exposure estimates are the most accurate measure of exposure available.

V. Summary of Benefits Assessment and Agency Evaluation of Comments

The benefits of a pesticide product are characterized by estimating the potential economic impact to industry, retailers, and consumers if that product were no longer available and more expensive or less efficacious alternatives are used.

Daminozide is a plant growth regulator used on a number of bedding plants and other crops including the following: chrysanthemums, azaleas, easter lilies, and hydrangeas. Daminozide is used to create a more compact plant with greener foliage (i.e., thicker and less elongated stems), to increase plant longevity, and to facilitate plant transport. Growers like daminozide because of its predictable effects and ease of application ("spray to run-off"). In 1989, EPA estimated that 90 percent of all potted chrysanthemums and 40 percent to 50 percent of the 65 million square feet of bedding plants were treated with daminozide. EPA believes that the use of daminozide on bedding plants, mums, and poinsettias has remained relatively constant.

There are four likely chemical alternatives to daminozide: uniconazole, ancymidol, chlormequat, and paclobutrazol. In addition, there are non-chemical controls such as withholding water or fertilizer, controlling light, and maintaining lower room temperatures. No single chemical alternative, however, can produce the same effects as daminozide. All the chemical alternatives are limited by either a narrower use spectrum, phytotoxic effects, or higher costs. Non-chemical controls are also considered less desirable because of adverse effects on the plants such as delayed flowering, discoloration, and smaller leaves.

To produce the same effects as daminozide, several chemical alternatives would have to be used in combination. The result would be increased cost (estimated to range from 10 to 20 times higher) and a lower quality of plant.

EPA currently estimates that the potential economic loss from cancellation of daminozide would be no less than $15 million and could be considerably higher (Ref. 26). This estimate is based on the incremental increase in costs resulting from the substitution of alternatives for daminozide.

Comments and EPA's Response. The Agency received one written comment in response to the PD 2/3 regarding the Agency's benefits analysis. This comment and the Agency's response are summarized below:

Comment. Uniroyal stated that EPA underestimated the benefits of daminozide use on ornamentals. The Society of American Florists and the Professional Plant Growers Association also submitted written comments in support of this position.

Response. Although Uniroyal agreed with EPA's estimate of percent crop treated, Uniroyal's figures for gross poundage of daminozide used on ornamentals are higher than those used by the Agency. EPA accepts the Uniroyal number for usage of daminozide on ornamentals.

Uniroyal also states that, based on the opinions of five university horticulturists and extension personnel, the added economic value to certain crops treated with daminozide ranges from 10 percent to 75 percent. However, without information on consumer acceptance and willingness to pay for treated versus non-treated plants, it is not possible to judge the accuracy of these estimates.

VI. Final Assessment of the Dietary Risks

In the Notice of Voluntary Cancellation (54 FR 47492), EPA stated that it would revise its dietary risk assessment based on the final report of the UDMH cancer studies. As stated earlier in this document, EPA has reviewed the final UDMH cancer data and has refined the UDMH Q_1^*. Using this refined Q_1^* (0.46 $(mg/kg/day)^{-1}$), and the dietary exposure estimates contained in the PD 2/3, EPA has revised the upper-bound lifetime dietary risk estimate in the PD 2/3 of 4.9×10^{-5} for the general population to 2.6×10^{-5} (Ref. 27). In light of the revised lifetime

dietary risk estimate of 2.6×10^{-5}, and the benefits of the food uses as estimated in 1989, EPA believes that it would have pursued the same course of action as that taken in 1989. Therefore, the revised dietary risk assessment does not change the Agency's regulatory or scientific position on the food-uses of daminozide.

In general, the Agency's risk assessment methodology may overestimate risk. However, it has been designed to avoid underestimating risk and, therefore, allows the Agency to act in a protective manner. The revised dietary risk assessment supports EPA's 1989 position that the dietary risks posed by the food uses of daminozide generally presented an unreasonable risk to human health. The Agency believes that its proposed regulatory action in 1989 on the food uses of daminozide was protective of public health.

VII. Risk/Benefit Analysis and Announcement of Termination of the Daminozide Special Review.

Based on the information summarized and presented in this Notice, EPA has determined that the non-food uses of daminozide, as currently registered, do not pose an unreasonable risk to workers (mixer/loaders and/or applicators). Given the magnitude of the benefits from the non-food uses of daminozide and the negligible risks posed to persons exposed to daminozide while working with it, EPA is announcing its decision to allow the continued uses of daminozide on the non-food use crops as presently registered.

The Agency estimates the lifetime risk to workers from exposure to UDMH to be 10^{-7} and estimates that the potential economic impacts from cancellation of daminozide would be no less than $15 million but could be considerably higher.

The cost-effectiveness (C-E) coefficient is a tool used to compare the estimated loss of benefits from cancellation of daminozide to the estimated reduction in carcinogenic risk from a particular use. It is an estimate of the societal cost per cancer case avoided. EPA has estimated that the C-E of cancellation of the non-food uses of daminozide is approximately $1 billion per theoretical cancer case avoided (Ref. 28). The Agency recognizes that the C-E coefficient has limitations and uses it only as a guide, not a decision tool, in the risk/benefit analysis determination.

VIII. Availability of the Public Docket

Pursuant to 40 CFR 154.15, the Agency has established a public docket (OPP-30000/40D) for the Daminozide Special Review. This public docket includes: (1) This Notice; (2) any other notices pertinent to the Daminozide Special Review; (3) non-Confidential Business Information (CBI) documents and copies of written comments or other materials submitted to the Agency in response to this Notice or any other Notice, and any other documents regarding daminozide submitted at any time during the Special Review process by any person outside the government; (4) a transcript of all public meetings held by the Agency for the purpose of gathering information on daminozide; (5) memoranda describing each meeting held during the Special Review process between Agency personnel and any person outside the government pertaining to daminozide; and (6) a current index of materials in the public docket.

Environmental Protection Agency

Amitrole; Preliminary Determination To Terminate Special Review

ENVIRONMENTAL PROTECTION AGENCY

[OPP-30000/38A; FRL 4164-1]

Amitrole; Preliminary Determination To Terminate Special Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed decision to terminate Special Review.

SUMMARY: This Notice sets forth EPA's preliminary determination regarding the continued registration of pesticide products containing amitrole and sets forth the Agency's assessment of the risks and benefits associated with the pesticidal uses of amitrole. On May 15, 1984, the Agency issued a Notice of Special Review of pesticide products containing amitrole based on carcinogenic concerns (49 FR 20546). This Notice proposes to terminate the amitrole Special Review based on the Agency's determination that the benefits of use outweigh the risks.

DATES: Written comments on this Notice must be received on or before November 9, 1992.

ADDRESS: Submit three copies of written comments, bearing the document control number "OPP-30000/38A; FRL 4164-1" by mail to: Public Docket and Freedom of Information Section, Field Operations Division (H7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Information submitted in any comment concerning this Notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked CBI may be publicly disclosed by EPA without prior notice to the submitter. All non-CBI written comments and the correspondence index will be available for public inspection and copying in Rm. 1132 at the Virginia address given above, from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT: Philip J. Poli, Review Manager, Special Review Branch, Special Review and Reregistration Division (H7508W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Third floor, Westfield Bldg., 2800 Jefferson Davis Highway, Arlington, VA. (703) 308-8038.

SUPPLEMENTARY INFORMATION:

Electronic Availability: This document is available as an electronic file on the Federal Bulletin Board at 9 a.m. on the date of publication in the **Federal Register**. By modem dial 202-512-1387 or call 202-512-1530 for disks or paper copies. This file is available in Postscript, Wordperfect 5.1 and ASCII.

This document presents the basis for the Agency's proposed decision to terminate the Special Review of amitrole.

I. Introduction

A. Summary

Amitrole is the common name for 3-amino-1,2,4-triazole. It is most commonly sold under the trade names AMIZOL and Amitrol T, and is formulated both as a wettable powder and a liquid concentrate.

Amitrole was first registered as an herbicide under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) in 1956. It is a systemic broad spectrum, post-emergence herbicide that is used to control many annual and perennial broadleaf weeds, grasses and woody species. Amitrole is classified by EPA as a Restricted Use pesticide [Ref. 1]. Section 3(d) of FIFRA specifies that only certified applicators trained for and familiar with pesticide use, or persons under their direct supervision, can use amitrole containing products. The current registered uses of amitrole are limited to non-crop, commercial sites. All amitrole food uses were canceled by the EPA in 1971 because of the carcinogenic potential from dietary exposure.

Currently, amitrole is registered for use on land surrounding commercial, industrial and farm premises, on rights-of-way, public utilities, and nurseries. Under the current use pattern, the principal pathway for human exposure is by the dermal route resulting from mixing, loading and applying the pesticide.

EPA's Special Review was initiated to address the use of amitrole on non-crop sites and by homeowners, and examined the carcinogenic risk to mixers, loaders and applicators. Since the time the Special Review was initiated, the registrant has taken voluntarily actions which have reduced worker exposure to amitrole. These actions include deletion of high exposure application methods such as knapsack sprayers, adoption of a "no-glug" container design for the liquid formulation to reduce splashing while pouring, addition of protective clothing requirements to labels, and packaging of the wettable powder formulation in water soluble packets. Additionally, the registrant has canceled all homeowner products.

EPA has completed its risk/benefit analysis of amitrole and has determined that the benefits from continued use of amitrole outweigh the risks. Accordingly, the Agency is proposing to terminate the Special Review.

B. Legal Background

In order to obtain a registration for a pesticide under FIFRA, an applicant must demonstrate that the pesticide satisfies the statutory standard for registration. The standard requires, among other things, that the pesticide will not cause "unreasonable adverse effects on the environment" [FIFRA section 3(c)(5)]. The term "unreasonable adverse effects on the environment" means "any unreasonable risk to man or the environment, taking into account the economic, social, and environmental costs and benefits of the use of any pesticide" [FIFRA section 2(bb)]. This standard requires a finding that the benefits of each use of the pesticide outweigh the risks of such use, when the pesticide is used in compliance with the terms and conditions of registration and in accordance with commonly recognized practices.

The burden of proving that a pesticide satisfies the statutory standard is on the proponents of registration and continues as long as the registration remains in effect. Under FIFRA section 6, the Administrator may cancel the registration of a pesticide or require modification of the terms and conditions of a registration if he determines that the pesticide product causes unreasonable adverse effects to man or the environment. EPA created the Special Review process to facilitate the identification of pesticide uses which may not satisfy the statutory standard for registration and to provide a public procedure to gather and evaluate information about the risks and benefits of these uses.

A Special Review may be initiated if a pesticide meets or exceeds the risk criteria set out in the regulations at 40 CFR part 154. EPA announces that a Special Review is initiated by publishing a Position Document (PD) in the **Federal Register**. After a PD is issued, registrants and other interested persons are invited to review the data upon which the review is based and to submit data and information to rebut EPA's conclusions by showing that EPA's initial determination was in error, or by

showing that use of the pesticide is not likely to result in unreasonable adverse effects on human health or the environment. In addition to submitting rebuttal evidence, commenters may submit relevant information to aid in the determination of whether the economic, social and environmental benefits of the use of the pesticide outweigh the risks. After reviewing the comments received and other relevant materials obtained during the Special Review process, EPA makes a decision on the future status of registrations of the pesticide.

The Special Review process may be concluded in various ways depending upon the outcome of EPA's risk/benefit assessment. If EPA concludes that all of its risk concerns have been adequately rebutted, the pesticide registration will be maintained unchanged. If, however, all risk concerns are not rebutted, EPA will proceed to a full risk/benefit assessment. In determining whether the use of a pesticide poses risks which are greater than the benefits, EPA considers possible changes to the terms and conditions of registration which can reduce risks to the level where the benefits outweigh the risks, and it may require that such changes be made in the terms and conditions of the registration. Alternatively, EPA may determine that no changes in the terms and conditions of a registration will adequately assure that use of the pesticide will not cause any unreasonable adverse effects. If EPA makes such a determination, it may seek cancellation, suspension, or change in classification of the pesticide's registration. This determination would be set forth in a Notice of Final Determination issued in accordance with 40 CFR 154.33.

Issuance of this Notice means that the Agency has assessed the potential adverse effects associated with the uses of amitrole and has preliminarily determined that the benefits override the risks.

C. Regulatory Background

The Registration Standard for amitrole was published on March 30, 1984. It required submission of product chemistry, environmental fate, toxicology and ecological effects data.

On May 15, 1984, the EPA issued a notice to initiate a Special Review based on carcinogenic concerns to mixers, loaders and applicators for registrations of products containing amitrole (49 FR 20548). This document, also referred to as Position Document 1 or PD 1, detailed the basis for the Agency's decision to initiate a Special Review. At that time, the Agency determined that all uses, including the homeowner use, would be the subject of the Special Review for amitrole. Subsequently, all products designated for homeowner use were canceled [Ref. 2], and the ensuing Special Review focused on the carcinogenic risk to mixers, loaders and applicators. The Agency had reviewed data concerning the potential adverse effects associated with uses of amitrole which indicated that amitrole induces thyroid and pituitary tumors in the rat, plus liver and thyroid tumors in mice, and had determined that pesticide products containing amitrole met or exceeded the risk criterion in 40 CFR 162.11(a)(3)(ii)(A), (1984 volume). That section required that a Special Review shall be initiated if a pesticide "induces oncogenic effects in experimental mammalian species or in man as a result of oral, inhalation or dermal exposure." That criterion is mirrored by the current provision of 40 CFR 154.7(a)(2), (1991 volume), which sets forth the similar criterion for initiation of a Special Review by EPA.

II. Summary of Toxicological Concerns and Agency Evaluation ofComments

The Special Review of amitrole was initiated in 1984 because of data indicating that amitrole induces thyroid, pituitary and liver tumors in laboratory animals. In addition, the Agency required further information to be submitted regarding amitrole's other potential effects [Ref. 1]. This section summarizes the Agency's review of studies for all effects of concern and includes discussion of new information and public comments that have been received since publication of the PD 1.

A. Carcinogenicity

In the PD 1, the Agency indicated its concern about the carcinogenic effects of amitrole. In making its current determination, EPA reviewed nine long-term carcinogenicity studies conducted with amitrole on rats, mice or hamsters. One of the rat studies is a chronic inhalation study; the rest of the studies (4 rat, 3 mouse and 1 hamster) are oral feeding, gavage or drinking water studies [Refs. 3 through 12]. None of these studies individually satisfied EPA testing guidelines; some had major deficiencies (e.g., target doses grossly exceeded [Ref. 3]; problems with the histological examination and presentation of data [Ref. 4]). The rat inhalation study and one of the rat oral studies were classified as invalid. In addition, one perinatal carcinogenicity study in mice could not be evaluated. The chronic feeding study in hamsters was not addressed by the Agency because the hamster was determined to be the least sensitive species. The rest of the studies are classified as supplementary; that is, the studies are scientifically valid, but do not satisfy all Agency guideline requirements. These five studies are discussed below, and do indicate that amitrole is likely to be a carcinogen, inducing thyroid and pituitary tumors in rats, and thyroid and liver tumors in mice. They are considered part of the weight-of-evidence determination for the carcinogenic potential of amitrole. Following these studies are discussions of other pertinent information which support the carcinogenic potential of amitrole.

1. *Rat studies— a. Keller; Hazleton, 1959.* Amitrole was administered in the diet at 0, 10, 50 or 100 ppm to Charworth Farm rats and was associated with numerical increases, in both sexes at the terminal sacrifice, in the incidence of thyroid adenoma at 50 ppm and 100 ppm and in combined thyroid adenoma/carcinoma at 100 ppm. There were statistically significant positive trends for thyroid adenomas and for combined adenoma/carcinoma in both sexes. There were also statistically significant positive trends in thyroid hyperplasia in both sexes at 68 weeks, which were not seen at 104 weeks.

b. *Johnson; Food and Drug Research, 1981.* Amitrole was administered in the diet in five "pulsed" dose groups (A, 0–0; B, 5–100; C, 1–20; D, 3–60; E, 10–200 ppm) to Fischer 344 rats. In treatment groups B, D and E, statistically significant increases in the incidence of thyroid follicular cell adenoma and combined adenoma/carcinoma were reported in both sexes. There were also statistically significant positive trends for adenoma and carcinoma, both individually and combined, in both sexes. In both sexes, there were both statistically significant increases in the incidence of follicular cell hyperplasia in all treatment groups, and also statistically significant positive trends. Increases in thyroid organ weights were observed for groups B and E, both sexes. Thyroid hormone T3 was elevated throughout the study for all treatment groups compared to controls, while T4 values were variable.

c. *Steinhoff, 1979, 1983.* Amitrole was administered in the diet at 0, 1, 10 or 100 ppm to Wistar rats and was associated with statistically significant increases in the incidence of thyroid tumors at 100 ppm in males and females when compared to the controls, as well as a statistically significant positive trend in both sexes. There was a numerical increase in the incidence of pituitary tumors in both sexes in all treatment groups, which was statistically significant in both sexes at 100 ppm.

with a statistically significant positive trend for females. Percentage accumulations of radioiodine were increased in both sexes at 100 ppm at "the majority of the test times", which was thought to be due to increases in physiologically active thyroid tissue; proportional plasma iodine remained fairly constant throughout the study.

2. *Mouse studies*— a. *Innes, 1969.* Amitrole was administered by stomach tube at 6,667 ppm and by dietary feeding at 2,192 ppm. In this study, amitrole was used as a positive control for screening 120 compounds to C57 mice. Results indicated carcinoma of the thyroid in 64 of 72 treated animals and hepatomas in 67 of 72 animals.

b. *Steinhoff, 1979, 1983.* Amitrole was administered in the diet to NMRI mice at 0, 1, 10 or 100 ppm and was associated with statistically significant positive trends for hepatocellular carcinoma and combined liver carcinoma/adenoma in females. Thyroid weights were increased throughout the study in both sexes at 100 ppm.

3. *Mutagenicity.* Although the published literature shows that amitrole is negative in a majority of mutagenicity assays [Ref. 13], there is some evidence that amitrole may have some genotoxic activity, as well as transformation activity in mammalian tests. Two sister chromatid exchange assays were reported positive; there were mixed results for DNA damage and unscheduled DNA synthesis, and all in vitro cell transformation assays were positive.

In addition, several studies suggest that amitrole has mutagenic activity when assayed with metabolic activation systems other than the usual liver preparations (e.g. "S9" mixes) [Ref. 14]. Also, Daston et. al. [Ref. 15] found that mutations were induced by amitrole in the mouse lymphoma assay supplemented with a prostaglandin H synthase activation system. Further, Krause and Eling [Ref. 16] have shown PHS- and lactoperoxidase-mediated binding of labelled amitrole to protein and nucleic acid (tRNA), as well as protein binding catalyzed by microsomal thyroid peroxidases; this demonstrates that amitrole can be activated to a reactive species.

Therefore, the data suggest that evidence of amitrole's possible genotoxicity may play a role in its carcinogenic potential. However, this is not an established conclusion, and the exact role genotoxicity has for amitrole-induced thyroid tumors is unclear at this time.

4. *Mechanism of tumor formation (Threshold Concept).* Amitrole is a potent antithyroid agent in laboratory animals, causing thyroid tumors in rats and mice. A plausible theory for amitrole-induced thyroid tumor development is supported by the threshold concept, discussed below. While the Agency recognizes that this concept provides a possible mechanism for thyroid tumor evolution, it has not been proven.

Experimental evidence indicates that thyroid tumors in rats can only occur as a result of exceeding a threshold (i.e., tumors appear only when hormone concentrations are altered above or below a specific level, identified as the threshold, for an extended period of time). To fully understand the threshold concept, it is necessary to provide a brief explanation of the physiological relationship between the pituitary gland and thyroid gland. Decreased levels of thyroid hormones disturb the physiological equilibrium which causes the anterior pituitary gland to secrete thyroid stimulating hormone (TSH). In turn, TSH causes thyroid hormone levels to rise back to normal levels. The anterior pituitary then decreases production of TSH which causes a subsequent decrease in the production of thyroid hormone. If there is a disruption of this feedback mechanism resulting in decreased thyroid hormone levels that cannot be counterbalanced by increased TSH production, the result is the continuous but futile stimulation of the thyroid by TSH. This constant stimulation by TSH over an extended period of time changes the morphology of the thyroid gland and, at some critical point, results in tumor formation. This is the proposed mechanism for tumor formation involving a threshold. It is unclear what role the genotoxicity of amitrole may play in this process.

Amitrole may interfere with the synthesis of thyroid hormones by inhibiting iodide peroxidase, which results in positive feedback to the pituitary (described above) for as long as amitrole exposure is sufficient to maintain decreased thyroid levels. It has been argued, therefore, that unless exposure levels of amitrole are high enough to sufficiently inhibit iodide peroxidase for an extended period of time, causing the appropriate hormone levels to exceed a specific concentration, thyroid tumors should not be induced. In other words, doses of amitrole below the threshold would be inadequate to cause this exaggerated positive feedback.

5. *Structure-Activity.* Amitrole is a heterocyclic aromatic amine, with a structure somewhat similar to a few triazoles that have been shown to induce liver tumors in mice. Other heterocyclic aromatic amines, for instance, some bicyclo- and tricyclo-heterocyclic aromatic amines, have been shown to be very potent carcinogens and mutagens. Also, some homocyclic aromatic amines (those with double rings attached by a simple ether-like bridge), show a correlation between anti-thyroid activity (inhibition of thyroid peroxidase) and thyroid carcinogenesis. Because the structure of amitrole is remotely related to those of other tumor-inducing aromatic amines, it has been determined that there is a weak structure activity relationship.

6. *Classification of carcinogenic potential.* Based on the weight-of-evidence provided collectively by the five studies discussed in this document, amitrole is considered to be a probable human carcinogen. Evidence is considered to be sufficient if there is an increased incidence of tumors: (a) In multiple species or strains of test animals; or (b) in multiple experiments, for example, with different dose levels or routes of administration; or (c) to an unusual degree in a single experiment with regard to high incidence, unusual site or type of tumor, or early age of onset. Although it was generally agreed within the Agency that none of the individual studies were good. However, it was evident that malignant and benign tumors were observed in both sexes of multiple strains of the rat (thyroid) [Refs. 4, 5 and 8] and in two strains of mice (liver) [Refs. 7 and 10]. Other data supporting the conclusion of likely carcinogenic potential include the limited evidence of genotoxicity for amitrole, the structure-activity correlations based on the triazoles (mouse liver tumors), and the slight relationship to heterocyclic aromatic amines.

7. *Potency factor (Q_1^*).* For the purposes of risk characterization, the low dose extrapolation multi-stage model using the thyroid tumor data in the rat was chosen. None of the mouse liver data were amenable to quantification and, furthermore, the rat seemed to be the more sensitive species as tumors occurred at lower doses. Therefore, the amitrole Q_1^*, which is the geometric mean of estimates computed separately for male and female rats, was determined to be 1.13 $(mg/kg/day)^{-1}$ [Ref. 17].

B. Developmental and Reproductive Effects

Studies on rabbits, rats, and mice were conducted to assess the potential for amitrole to induce developmental effects [Refs. 18, 19, 20 and 21]. In all three species, amitrole is a developmental toxicant at dose levels

that are maternally toxic. The rabbit is the most sensitive species. In a gavage study in rabbits, dose levels of 0, 4, 40 and 400 mg/kg/day were tested. Developmental and maternal toxicity were observed at 40 mg/kg/day and higher. Maternal effects included loss of body weight, reduced gravid uterine weight, increased relative liver weight (400 mg/kg/day) and increased number of abortions and total litter resorptions, fewer viable implants per litter, blood on the paperboard and yellow/brown fluid in the amniotic sacs (40 and 400 mg/kg/day). The No Observed Effect Level (NOEL) for maternal toxicity was 4.0 mg/kg/day. Developmental effects included decreased fetal body weights and cleft palate (400 mg/kg/day) and increased numbers of early and late resorptions, malformed fore- and hindlimbs, dome-shaped head, hydrocephaly, lateral scoliosis, curved nasal bones, displaced thalamus and poorly ossified bones in skull, trunk and extremities (40 and 400 mg/kg/day). The developmental NOEL was 4.0 mg/kg/day.

A dermal developmental study also was conducted in rabbits. Again, in this study, amitrole is a developmental toxicant at levels which are maternally toxic. Rabbits were dosed over 10 percent of the body surface with 1,000, 1,500, or 2,000 mg/kg/day of amitrole during days 7 through 19 of gestation. The NOEL for maternal toxicity was 1,000 mg/kg/day and the Lowest Observed Effect Level (LOEL) was 1,500 mg/kg/day based on decreased body weights on gestation day 20, decreased food consumption from gestation days 10 through 20 and ascites. The NOEL for developmental toxicity was 1,000 mg/kg/day and the LOEL was 1,500 mg/kg/day based on decreased gravid uterine weights, decreased fetal bodyweights, increased number of total resorptions and increased skeletal anomalies including unossified hyoid (skull), unossified pubis, absent and/or unossified talus, and left carotid arising from innominate artery.

A 2–generation rat reproduction study was not required by the Agency because, based on current use patterns of amitrole, no reproductive risk to workers was expected. However, the Agency has received a 2–generation reproduction study (determined to be supplementary) [Ref. 22], in which Sherman rats were fed 0, 25 or 50 mg/kg amitrole in the diet for 55 days and then mated. Decreases in body weights and food consumption, enlarged thyroids and reduced liver and kidney weights were observed in the parents of both treated groups. The number of offspring, mean body weights and survival were reduced in the offspring of both treated groups. No malformations were reported. Because this study does not meet Agency guidelines, a determination on the validity of the noted reproductive effects could not be made.

The Agency has received a range-finding reproduction study [Ref. 23] in which rats were tested at dose levels of 40, 100, 300 and 800 ppm in the diet. There was maternal toxicity at all dose levels (decreased maternal body weight gains from gestation days 0–7 at 100 ppm and above, and goiter and increased thyroid-to-body weight ratios at 40 ppm and above). The mean number of pups was significantly lower at dose levels of 100 ppm and above, and decreases in T4 were seen in F1 males at 40 ppm, and in both sexes at 100 ppm and above. TSH was increased at 100 ppm and at 300 ppm. Increased thyroid weights, hyperplastic goiter and follicular hyperplasia also were observed in the offspring.

C. Public Comments and Agency Responses To The Position Document 1

A number of comments relating to the toxicity of amitrole were received in response to the PD 1. A summary of those comments and the Agency's responses follow.

1. *Comment.* Amitrole is a secondary, not a primary, thyroid and pituitary carcinogen in laboratory animals.

Response. The Agency believes that while the data in the rat are suggestive of a disruption in the thyroid-pituitary status, the data are neither clear and complete nor consistent. Therefore, the Agency treats amitrole as a primary carcinogen for the thyroid and pituitary. The Agency also believes that amitrole is a primary carcinogen for the liver.

2. *Comment.* It is inappropriate to extrapolate thyroid and pituitary carcinogenic effects in laboratory animals to humans.

Response. The Agency takes the position that humans are at least as sensitive as laboratory animals unless data are developed to establish and quantify any differences in sensitivity.

3. *Comment.* Exposure to amitrole must be of sufficient magnitude and duration to elicit thyroid, pituitary, and liver carcinogenic effects.

Response. The Agency believes that exposure to low doses of amitrole can elicit thyroid and pituitary carcinogenic effects. Thyroid tumors were observed in long-term rat studies at doses as low as 60 ppm in the diet. There are some data that indicate that amitrole may induce an increase in liver tumors in mice at low dose levels as well. The Agency agrees that exposure to amitrole must be prolonged to elicit thyroid and pituitary carcinogenic effects. The Agency believes that extended and continuing exposure is necessary to initiate the liver carcinogenic process.

4. *Comment.* Amitrole has no mutagenic potential.

Response. The Agency believes that while a large number of mutagenicity studies are negative (many of them from studies in bacteria), there are a number of studies with positive results (see Hill et al., 1989). In addition, several studies suggest that amitrole has mutagenic activity when assayed with metabolic activation systems other than the usual liver preparations; for example, "S9" mixes. (See Mutagenicity, Unit II. A. 3. of this notice) Overall, the genotoxicity evidence for amitrole from available tests is not entirely negative and there are indications of genotoxic, as well as transformation, activity in mammalian tests.

5. *Comment.* The appropriate model to estimate thyroid and pituitary carcinogenic risk is a non-linear model, not the multi-stage model.

Response. The Agency believes that while the data in the rat were suggestive of a disruption in the thyroid-pituitary status, the data were neither clear and complete nor consistent, and did not support the use of the threshold model. Therefore, for the purpose of risk characterization, a low dose extrapolation multi-stage model has been used for quantification of human risk.

6. *Comment.* The Agency inappropriately used modeling to estimate risk from exposure to amitrole.

Response. The Agency believes that the application of modeling techniques to estimate risk is appropriate for thyroid and pituitary carcinogenic effects. The Agency believes that the data are insufficient to support the use of a NOEL/uncertainty factor methodology for estimation of risk.

III. Occupational and Residential Exposure and Risk and Agency Evaluation of Comments

A. Position Document 1

In the May 1984 Notice of Special Review (PD 1), the Agency concluded that, except for uses associated with homeowner products, the carcinogenic risk associated with all use patterns and application techniques of amitrole may result in unreasonable adverse effects. The Agency's risk analysis was based on exposure estimates obtained from surrogate studies employing other pesticides with uses and application

techniques similar to amitrole, and one exposure study which utilized amitrole.

When conducting the risk assessment, the Agency assumed that all workers were unprotected; that is, they wore only cotton work clothes, short-sleeved shirts but no hat, gloves or respirator. Fifteen percent of the body surface was assumed to be uncovered. Applicator exposure was calculated from surrogate data where amitrole exposure was determined to be a linear function of the pounds of amitrole active ingredient expected to be used vs. the pounds of applied surrogate active ingredient. When no data were available, applicator exposure was calculated as a function of the duration of application and the concentration of the active ingredient in the spray. Mixer/loader exposures were estimated from surrogate data and were assumed to be proportional to the amount of amitrole active ingredient vs. the amount of surrogate active ingredient. Highway tractor (or truck) applicators and forest helicopter applicators were assumed to be tended by mixer/loader personnel. Except for applicators using home-use pressurized aerosols, all other applicators were assumed to be involved in mixing/loading operations. The Agency's assumptions were conservative and may have overestimated actual exposure.

The Agency estimated the exposure for each application technique and each site type on which amitrole was registered. These sites included: rights-of-way, marshes and drainage ditches, ornamentals, and land surrounding commercial, industrial, agricultural, domestic, and recreational premises. The typical exposure was based on average field worker exposure, while minimum and maximum values were based on the highest and lowest exposures observed in the data. Dermal exposure, especially to the hands, constituted virtually all of the total amitrole exposure. Exposure estimates ranged from 1×10^{-1} mg/kg/day for certain industrial uses to 3×10^{-7} mg/kg/day for homeowner uses. The use of protective clothing (coveralls, gloves, hats and boots) was expected to reduce the dermal exposure.

At the time of the PD 1, there were no data available to estimate the dermal penetration of amitrole. Since dermal exposure was the greatest single source of exposure to workers, this was an important parameter in assessing exposure and therefore risk. Because of the lack of data, the Agency calculated the risk to workers using two assumptions. First, EPA assumed that 100 percent of amitrole would be absorbed, a worst case assumption. Risk estimates under this assumption ranged from 10^{-6} to 10^{-5} for homeowners to 10^{-2} to 10^{-1} for utility power wagon applicators, industry power wagon applicators, industry knapsack/hand-carry applicators, railroad tanktrain mixer/loaders and highway tractor/truck mixer/loaders. Second, EPA also assumed 0.1 percent dermal absorption, based on the chemical properties of amitrole. Based on this assumption, the risk estimates ranged from 10^{-9} to 10^{-8} for homeowners to 10^{-4} to 10^{-3} for utility power wagon mixer/loader/applicators, and industry power wagon mixer/loader/applicators.

B. Current Exposure and Risk Estimates

1. *Label, packaging, and use changes.* Rhone-Poulenc, the sole U.S. registrant of amitrole, has voluntarily canceled all homeowner products (55 FR 41763, October 15, 1990), and has voluntarily taken actions which have reduced worker exposure to amitrole. These actions include deleting the high exposure application methods, such as knapsack sprayers, which had previously resulted in the highest risk. Rhone-Poulenc also adopted a "no-glug" container to reduce splashing while pouring, added protective clothing requirements to product labels and canceled all uses except on rights-of-way, public utilities, nurseries, and land surrounding commercial, industrial and farm premises. The current risk assessment for amitrole is for workers mixing, loading and applying amitrole to highway rights-of-way, the use with the greatest exposure and, therefore, risk.

2. *Current exposure estimates and assumptions.* The current assessment is based on worker exposure studies conducted for bromoxynil [Ref. 17], another herbicide. The Agency used the bromoxynil worker exposure study as a surrogate for the liquid formulations of amitrole because: (1) The container design for amitrole was amended so it is similar to that of bromoxynil; (2) the label restrictions for protective clothing and engineering controls for amitrole are comparable in effectiveness to those for bromoxynil; (3) the application equipment used to apply amitrole to rights-of-way is similar to that used for bromoxynil; and (4) the ground boom equipment used for bromoxynil agricultural sites would likely result in similar or greater exposure as compared to equipment used for amitrole on highway rights-of-way.

In general, the exposure assessment assumed that workers wore clean cotton (or cloth) coveralls over long sleeve shirts and long pants in addition to boots or sturdy footwear. For workers handling concentrated product (mixer/loaders) or when repairing and cleaning the equipment used with this product, chemical resistant gloves were also assumed to be used. These protective clothing requirements are on the current labels.

Usage data utilized for this assessment indicate that the typical usage per person on highway rights-of-way is 100 lbs active ingredient (ai) per day and 1,000 lbs ai/year. The typical application rate is assumed to be 2.5 lbs ai/acre and 40 acres are treated per day. A typical worker is assumed to weigh 70 kg.

Based on these assumptions, the total yearly exposure to liquid formulations for a 70 kg worker is 2.2×10^{-2} mg/kg/year. The average daily exposure is 5.9×10^{-5} mg/kg/day. The Agency believes that the exposure from the water soluble packets will be far less than the exposure incurred by mixer/loaders from the liquid formulation. Exposures of applicators to mixtures from either liquid or wettable powder formulations are assumed to be the same. Therefore, the exposure estimate of 5.9×10^{-5} mg/kg/day for the liquid is judged to be the highest exposure estimate for all amitrole formulations.

3. *Current risk estimates*— a. *Carcinogenic risk.* The availability of the bromoxynil exposure studies and the dermal penetration study has allowed EPA to refine its risk estimates. In the PD 1, in the absence of a valid study to demonstrate otherwise, dermal penetration was assumed to be 100 percent. A dermal penetration study on amitrole was subsequently received and reviewed, and was used in the current risk assessment. Dermal penetration in this study was shown to be 0.1 percent [Ref. 24]. Additionally, EPA estimates that the unit cancer risk (Q_1^*) is 1.13 $(mg/kg/day)^{-1}$.

When calculating the Lifetime Average Daily Dose (LADD), EPA assumed a worker life span of 70 years with an amitrole exposure period of over 35 years. Using these values, and an average daily exposure estimate of 5.9×10^{-5} mg/kg/day, the LADD was determined to be 2.9×10^{-5} mg/kg/day.

The excess lifetime cancer risk to workers involved in mixing, loading, and application of the liquid formulations of amitrole for highway rights-of-way uses is estimated to be 3.3×10^{-5} [Ref. 17].

b. *Other risks.* Three developmental studies, two oral and one dermal, are available for amitrole. Because the primary route of exposure is dermal, the most appropriate study to assess potential developmental effects to workers exposed to amitrole is the

dermal study. Using the NOEL of 1,000 mg/kg/day from this study to calculate margins of exposure, EPA determined that workers would not be at risk for developmental effects from exposure to amitrole.

C. Public Comments and Agency Responses to the Position Document 1

Comments relating to exposure to amitrole were received in response to the PD 1. A summary of those comments and the Agency's responses follow.

1. *Comment.* The worker exposure estimates used for the Registration Standard and the Position Document 1 in 1984 are unrealistic and represent a worst case exposure scenario.

Response. The Agency acknowledges that, in the absence of more specific available data, its 1984 worker exposure estimates were conservative and represented a worst case scenario. Both the Registration Standard and the PD 1 specifically state that calculations may overestimate exposure. Since 1984, the Agency has received better data that allow a more accurate estimate of exposure and risk. The Agency originally assumed 100 percent dermal penetration; actual data generated in 1985 by the registrant showed the dermal penetration to be 0.1 percent. Additionally, exposure data from a bromoxynil study were used as a surrogate for amitrole, which allowed the Agency to more accurately estimate exposure to mixers/loaders/applicators.

2. *Comment.* The amitrole exposure study [Ref. 25] demonstrated that hands received only 6 percent of the total dermal exposure. Lower legs, chest and thighs received 94 percent of the total exposure. Respiratory exposure was insignificant (less than 0.1 percent of the total exposure).

Response. The Agency disagrees with this and estimates hand exposure at approximately 96 percent. The estimate in Baugher (1982) was based on an application time of 2.36 hours with applicators using latex gloves. The actual application time was 7 hours with applicators wearing cotton gloves that absorb and retain moisture, with latex gloves worn underneath. The Agency noted that the exposure estimate was based on the residue on the outside of the latex gloves. The forearms, chest, and inhalation account for the balance of exposure. The Agency concurs that inhalation represents less than 0.1 percent of the total exposure.

3. *Comment.* Normal exposure will not alter thyroid function of workers.

Response. The Agency concurs that typical mixing/loading/application practices of certified applicators coupled with protective clothing and the exposure reduction measures will reduce exposure to levels which will not likely alter worker thyroid function.

IV. Summary of Benefits and Evaluation of Alternatives

A. Importance of Amitrole

Benefits of amitrole include its relatively low cost, broad spectrum control of newly emerged or established broadleafs and its miscibility with other low cost, broad spectrum residual soil active chemicals. Amitrole controls newly emerged or established broadleafs because it is a contact herbicide that kills growing vegetation. Amitrole is mixed with residual herbicides because its short 2–4 week half-life precludes effectiveness against later-germinating weeds. Amitrole provides nonselective weed control when used alone or in combination with longer lasting herbicides on highway berms, guard rails, around sign posts, railroad beds, and similar areas. Highway rights-of-way sometimes require total vegetation control which is generally achieved through use of nonselective herbicides such as amitrole in tank mix combination with a soil residual herbicide.

B. Usage of Amitrole

Amitrole is imported, not produced in the United States. Rhone-Poulenc is the only U.S. importer of amitrole. Domestic usage has been falling throughout the 1980's and 1990's, partially due to the 1984 classification of amitrole as a Restricted Use pesticide. The decline in use of amitrole may also be due to the recent registration of other herbicides with a broader spectrum of weed control. The EPA estimated that annual usage of amitrole in 1984 was between 500,000 and 800,000 pounds but, by 1989, had decreased to between 50,000 and 100,000 pounds of active ingredient. Total annual usage of amitrole declined even further in 1990 to between 40,000 and 60,000 pounds active ingredient. It is estimated that 80 to 90 percent of amitrole use is for highway rights-of-way. The remaining usage is divided among many minor uses which include landscape management, industrial areas and recreational areas. In the late 1970's, amitrole was used widely on railroad, highway and utility rights-of-way, but currently, its major use is along highways [Ref. 26].

According to the registrant, voluntary cancellation in 1991 of its California registration was due to its estimates that the projected sales volume of amitrole did not justify expenditures needed to comply with California data requirements [Ref. 27]. The registrant estimated at the time of cancellation that 90 percent of the pesticide's market share existed in that state. Concurrently, Rhone-Poulenc requested from the Agency, and was granted, a 2–year existing stocks provision to allow products currently in channels of trade to be distributed and sold in California until May 1993. It is expected that the voluntary cancellation in California will accelerate the current declining trend in usage of amitrole.

C. Alternatives Assessment

Amitrole rights-of-way alternatives are divided into two classes: chemical and mechanical control.

1. *Chemical control.* The major alternatives to amitrole are glyphosate, sulfometuron-methyl, diuron, imazapyr, and hexazinone [Ref. 28]. EPA has classified glyphosate as an E carcinogen; that is, evidence indicates that glyphosate is not carcinogenic in humans. Sulfometuron-methyl has not been assigned a carcinogenic classification, but may pose developmental risks. Many of the alternatives to amitrole have outstanding data requirements, thus a satisfactory comparison of the risks for all of the alternatives has not be completed by the Agency. However, glyphosate, at present, appears to be less toxic to humans than amitrole or its alternatives.

Alternatives to amitrole are generally more expensive, and the loss of amitrole from the market could result in increased cost of weed control. Amitrole alternatives provide equivalent, or in some cases, better control of certain weeds with the exception of poison ivy control, for which amitrole is the most efficacious herbicide. If the most likely alternatives, glyphosate and sulfometuron-methyl, were substituted for amitrole, there would be a chemical cost increase ranging from $12.02 to $40.34 per acre treated [Ref 27].

An estimated 30,000 to 50,000 acres of rights-of-way in the United States are currently treated with amitrole. Total chemical cost of maintaining rights-of-way in the United States is estimated to be $224 million per year [Ref. 29]. If glyphosate or sulfometuron-methyl were substituted for amitrole, the aggregated chemical cost increase may range from $600,000 for glyphosate to a chemical cost increase of $2 million for sulfometuron-methyl. Thus, although the other chemical alternatives offer similar control (except for poison ivy), the cost per acre is significantly higher.

2. *Mechanical control.* Controlling brush on highway rights-of-way by manual or mechanical cutting and

controlled burning are high cost alternatives, especially at sites along guardrails and steep slopes, the precise areas of herbicide use.

V. Risk/Benefit Analysis

A. Summary of Risk

EPA has evaluated the risk posed by amitrole to workers mixing, loading and applying the pesticide to highway rights-of-way. Although amitrole is registered for several additional sites, this use pattern is the one that poses the greatest exposure, and therefore risk. EPA has estimated the excess lifetime cancer risk from this exposure to amitrole to be 3.3 x 10^{-5}.

B. Summary of Benefits

Amitrole is a relatively inexpensive and efficacious broad-spectrum herbicide. If amitrole were unavailable, growers would have to use more expensive alternatives (e.g. glyphosate, sulfometuron-methyl) as substitutes, with costs increasing from $600,000 to $2 million/year. Also, many of these alternatives may not provide as effective control of certain weeds as amitrole.

C. Cost-Effectiveness

A cost-effectiveness analysis was developed by the Agency comparing amitrole and its two main alternatives, glyphosate and sulfometuron-methyl [Ref. 30]. The cost-effectiveness analysis reflected two scenarios that took under consideration three possible occupational exposure levels. The first scenario gave a point estimate for 250 applicators (an estimate provided by the registrant as the total annual number of workers exposed, before cancellation in California) and the second scenario utilized 100 applicators (an EPA estimate of the total number of exposed workers, before cancellation in California). The analysis also considered three scenarios for length of exposure: 1 year, 5 years and 35 years. Typically, 1 year of exposure represents college students who are exposed to amitrole only during summer work programs. Five years represents the applicator who finds different employment after several years. Thirty-five years depicts the applicator who is employed in the same profession throughout a lifetime. The exposure figure of 35 years was used for calculating the present risk assessment. This resulted in an estimated risk of 3.3 x 10^{-5}. However, the Agency believes that its assumption that worker exposure occurs for 35 years is conservative and tends to overestimate typical exposure. A more likely length of exposure for a typical worker is considered to be 5 years; the risk estimate for amitrole based on 5 years of exposure is calculated to be 5 x 10^{-6}.

For all scenarios, the upper end of the treated acreage was used in defining the low and high cost per cancer case avoided, if amitrole was canceled and replaced by one of the two principal alternatives. The cost-effectiveness estimate under the scenario of 250 applicators for a 35 year exposure period would range from $73 million to $244 million per cancer case avoided. The risk resulting from 5 years of exposure, the more likely scenario, would increase these costs associated with avoiding an extra cancer case.

D. Conclusions

Based on its risk and benefits assessment, the Agency has concluded that the benefits provided from the use of amitrole outweigh the risks. The cost-effectiveness analysis supports this conclusion by demonstrating the extremely high costs of avoiding a cancer case that would be incurred with cancellation of amitrole.

VI. Agency's Decision Regarding Special Review

Because EPA has concluded that the risks of amitrole are outweighed by the benefits of continued use, EPA proposes that the Special Review based on potential carcinogenic risk of amitrole to workers be concluded. Use of bromoxynil data as a surrogate for amitrole data and the data on dermal penetration have enabled the Agency to refine the amitrole risk assessment to be more realistic than the worst-case assessment conducted for the PD 1. The label modifications and risk reduction measures taken by the registrant, Rhone-Poulenc, have significantly reduced worker exposure to amitrole. Consequently, there is a corresponding reduction in the risks posed by the remaining uses of amitrole. Even given the differences in risk between amitrole and its most likely alternatives, EPA believes that the 3.3 x 10^{-5} risk associated with 35 years of exposure to amitrole is outweighed by the benefits of use. The Agency believes that amitrole's remaining uses pose no significant threat to workers or the general public, and that its significantly lower costs and higher efficacy rates as compared to its alternatives merit retention of the remaining uses. However, because of the positive carcinogenicity studies, the Agency will continue to require that amitrole remain a Restricted Use pesticide, that the cancer warning statement remain in place, that the current application method remain limited to boom sprayers and that present protective clothing requirements remain on labelling.

VII. Public Comment Opportunity

During the 30-day comment period, specific comments are solicited on the preliminary determination set forth in this Notice. The Agency will review and consider any comments received during the official comment period before issuing the final determination to conclude the Special Review of amitrole. Interested persons are invited to submit written comments on this proposal to conclude the Special Review of pesticide products which contain amitrole. All comments and information should be submitted in triplicate by [Insert date 30 days after date of publication in the **Federal Register**] to the address given in this Notice under the ADDRESS section. The comments and information must bear the document control number, "OPP-30000/38A; FRL 4164-1." All written comments filed pursuant to this notice, except "CBI", will be available for public inspection in Rm. 1132, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA. 22202, from 9 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

Part V

Environmental Protection Agency

40 CFR Part 721
Significant New Uses of Certain Chemical Substances; Final Rule

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 721

[OPPTS-50598; FRL-3934-7]

RIN 2070-AB27

Significant New Uses of Certain Chemical Substances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is promulgating significant new use rules (SNURs) under section 5(a)(2) of the Toxic Substances Control Act (TSCA) for 24 chemical substances which were the subject of premanufacture notices (PMNs) submitted to EPA. Today's action requires certain persons who intend to manufacture, import, or process these substances for a significant new use to notify EPA at least 90 days before commencing the manufacturing or processing of the substance for a use designated by this SNUR as a significant new use. The required notice will provide EPA with the opportunity to evaluate the intended use, and if necessary, to prohibit or limit that activity before it occurs. EPA is promulgating this SNUR using direct final procedures.

EFFECTIVE DATE: The effective date of this rule is December 7, 1992. This rule shall be promulgated for purposes of judicial review at 1 p.m. Eastern Standard Time on October 22, 1992. If EPA receives notice before November 9, 1992 that someone wishes to submit adverse or critical comments on EPA's action in establishing a SNUR for one or more of the chemical substances subject to this rule, EPA will withdraw the SNUR for the substance for which the notice of intent to comment is received and will issue a proposed SNUR providing a 30-day period for public comment.

ADDRESSES: Each comment or notice of intent to submit adverse or critical comment must bear the docket control number OPPTS-50598 and the name(s) of the chemical substance(s) subject to the comment. Since some comments may contain confidential business information (CBI), all comments should be sent in triplicate (with additional sanitized copies if confidential business information is involved) to: TSCA Document Receipt Office (TS-790), Office of Pollution Prevention and Toxics, Environmental Protection Agency, rm. E-105, 401 M St., SW., Washington, DC 20460. Nonconfidential versions of comments on this rule will be placed in the rulemaking record and will be available for public inspection. Unit IX. of this preamble contains additional information on submitting comments containing CBI.

FOR FURTHER INFORMATION CONTACT: Susan B. Hazen, Director, Environmental Assistance Division (TS-799), Office of Pollution Prevention and Toxics, Environmental Protection Agency, rm. E-543-B, 401 M St., SW., Washington, DC 20460, Telephone: (202) 554-1404, TDD: (202) 554-0551.

SUPPLEMENTARY INFORMATION: This SNUR will require persons to notify EPA at least 90 days before commencing manufacturing or processing of a substance for any activity designated by this SNUR as a significant new use. The supporting rationale and background to this rule are more fully set out in the preamble to EPA's first direct final SNURs at 55 FR 17376 on April 24, 1990. Consult that preamble for further information on the objectives, rationale, and procedures for the rules and on the basis for significant new use designations including provisions for developing test data.

I. Authority

Section 5(a)(2) of TSCA (15 U.S.C. 2604(a)(2)) authorizes EPA to determine that a use of a chemical substance is a "significant new use." EPA must make this determination by rule after considering all relevant factors, including those listed in section 5(a)(2). Once EPA determines that a use of a chemical substance is a significant new use, section 5(a)(1)(B) of TSCA requires persons to submit a notice to EPA at least 90 days before they manufacture, import, or process the substance for that use. The mechanism for reporting under this requirement is established under 40 CFR 721.10.

II. Applicability of General Provisions

General provisions for SNURs appear under subpart A of 40 CFR part 721. These provisions describe persons subject to the rule, recordkeeping requirements, exemptions to reporting requirements, and applicability of the rule to uses occurring before the effective date of the final rule. Rules on user fees appear at 40 CFR part 700. Persons subject to this SNUR must comply with the same notice requirements and EPA regulatory procedures as submitters of PMNs under section 5(a)(1)(A) of TSCA. In particular, these requirements include the information submission requirements of section 5(b) and 5(d)(1), the exemptions authorized by section 5(h)(1), (2), (3), and (5), and the regulations at 40 CFR part 720. Once EPA receives a SNUR notice, EPA may take regulatory action under section 5(e), 5(f), 6, or 7 to control the activities for which it has received the SNUR notice. If EPA does not take action, EPA is required under section 5(g) to explain in the **Federal Register** its reasons for not taking action.

Persons who intend to export a substance identified in a proposed or final SNUR are subject to the export notification provisions of TSCA section 12(b). The regulations that interpret section 12(b) appear at 40 CFR part 707. Persons who intend to import a chemical substance identified in a final SNUR are subject to the TSCA section 13 import certification requirements, which are codified at 19 CFR 12.118 through 12.127 and 127.28. Such persons must certify that they are in compliance with the SNUR requirements. The EPA policy in support of the import certification appears at 40 CFR part 707.

III. Substances Subject to This Rule

EPA is establishing significant new use and recordkeeping requirements for the following chemical substances under 40 CFR part 721 subpart E. In this unit, EPA provides a brief description for each substance, including its PMN number, chemical name (generic name if the specific name is claimed as CBI), CAS number (if assigned), basis for the action taken by EPA (including the statutory citation and specific finding), toxicity concern, and the CFR citation assigned in the regulatory text section of this rule. The specificuses which are designated as significant new uses are cited in the regulatory text section of the rule by reference to 40 CFR part 721 subpart B where the significant new uses are described in detail.

Data on potential exposures or releases of the substances, testing other than that specified for the substances, or studies on analogous substances, which may demonstrate that the significant new uses being reported do not present an unreasonable risk, may be included with significant new use notification. In addition, this unit describes tests that are recommended by EPA to provide sufficient information to evaluate the substance. Descriptions of recommended tests are provided for informational purposes.

PMN Numbers P-88-2100 and P-88-2169

Chemical name: (generic) Acrylamide, polymers with tetraalkyl ammonium salt and polyalkyl, amino alkyl methacrylamide salt.
CAS numbers: Not available.
Basis for action: The PMN substances will be used as water clarifiers. Test

data on structurally similar polycationic compounds indicate that the PMN substances may cause toxicity to aquatic organisms. Based on this data EPA expects toxicity to aquatic organisms to occur at a concentration of 2 ppb of the PMN substances in surface waters. EPA determined that use of the substances as water clarifiers as described in the PMNs did not present an unreasonable risk because the substances would not be released to surface waters. EPA has determined that potential uses, such as water retention aids, other types of clarifiers or flocculents could result in releases to surface waters where the concentration of the PMN substances exceeds 2 ppb. Based on this information, the PMN substances meet the concern criteria at 721.170(b)(4)(ii).

Recommended testing: The Agency has determined that the results of the following acute aquatic toxicity testing would help characterize possible environmental effects of the substances: Algal (40 CFR 797.1050); daphnid (40 CFR 797.1300); fish (40 CFR 797.1400); and fish toxicity mitigated by dissolved organic carbon (40 CFR 795.115). These tests should be conducted with flow-through conditions and measured concentrations.

CFR citation: 40 CFR 721.6540.

PMN Number P-90-2

Chemical name: (generic) Disubstituted phenoxazine, chlorometalate salt.

CAS number: Not available.

Basis for action: The use of the PMN substance as described in the PMN was claimed confidential. Test data on substances similar in structure to the PMN substance and an analogous chemical substance indicate that the PMN substance may cause mutagenicity and oncogenicity. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk to human health. EPA has determined that potential other uses such as a dye could result in risk to human health. Based on this information the PMN substance meets the concern criteria at 721.170(b)(1)(i)(D).

Recommended testing: The Agency has determined that the results of a 2-year rodent bioassay (40 CFR 798.3300) would help characterize possible human health effects of the PMN substance.

CFR citation: 40 CFR 721.4720.

PMN Numbers P-90-1984 and P-90-1985

Chemical name: (generic) Fatty acid polyamine condensate, phosphoric acid ester salt.

CAS numbers: Not available.

Basis for action: The PMN substances will be used as steel corrosion inhibitors. Test data on structurally similar ditallowimidazoline esters indicate that the PMN substances may cause toxicity to aquatic organisms. Based on this data EPA expects toxicity to aquatic organisms to occur at a concentration of 1 ppb of the PMN substances in surface waters. EPA determined that use of the substances, as described in the PMN, did not present an unreasonable risk because the substances would not be released to surface waters. EPA has determined that potential use as a fabric softener could result in releases to surface waters where the concentration of the PMN substances could be greater than 1 ppb. Based on this information the PMN substances meet the concern criteria at § 721.170 (b)(4)(ii).

Recommended testing: The Agency has determined that the results of the following acute aquatic toxicity testing would help characterize possible environmental effects of the substance: Algal (40 CFR 797.1050); daphnid (40 CFR 797.1300); and fish (40 CFR 797.1400). These tests should be conducted with flow-through conditions and measured concentrations.

CFR citation: 40 CFR 721.6200.

PMN Number P-91-87

Chemical name: (generic) Fatty amide.

CAS number: Not available.

Basis for action: The PMN substance will be used as an asphalt additive. Based on calculations of the physical and chemical properties of the substance, the quantitative structure activity relationship (QSAR) of the PMN substance indicates that the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at a concentration as low as 1 ppb of the PMN substance in surface waters. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk because the substance would not be released to water. EPA has determined that other uses of the substance may result in releases to surface waters greater than 1 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(iii).

Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050), an acute daphnid assay (40 CFR 797.1300), and an acute fish assay (40 CFR 797.1400) will characterize environmental effects.

CFR citation: 40 CFR 721.3720.

PMN Number P-91-101

Chemical name: 2-Imino-1,3-thiazin-4-one-5,6-dihydromonohydrochloride.

CAS number: Not available.

Basis for action: Test data on structurally similar chemical substances indicate that the PMN substance may cause toxicity to aquatic organisms. Based on this data EPA expects toxicity to aquatic organisms to occur at a concentration of 30 ppb of the PMN substance in surface waters. The PMN submitter intends to import the PMN substance and therefore no releases from domestic manufacture will occur. However, EPA has determined that domestic manufacture could result in releases to surface waters where the concentration of the PMN substance would be greater than 30 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(ii). In addition, based on test data on structurally similar chemical substances, P-91-101 may be developmentally toxic to humans. EPA has determined that import, processing, and use of the PMN substance as a liquid for the use as described in the PMN does not pose a significant risk to workers. However, EPA predicts inhalation exposures to the PMN substance as a solid or a powder form may cause significant risk to workers. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(3)(ii).

Recommended testing: The Agency has determined that the results of the following acute aquatic toxicity testing would help characterize possible environmental effects of the substance: Algal (40 CFR 797.1050); daphnid (40 CFR 797.1300); and fish (40 CFR 797.1400). The daphnid and fish tests should be conducted with flow-through conditions and measured concentrations. The algal study should be conducted with static conditions and measured concentrations. In addition, the Agency has determined that the results of a two-species developmental toxicity test (40 CFR 798.4900) would help characterize possible human health effects of the substance.

CFR citation: 40 CFR 721.4480.

PMN Number P-91-102

Chemical name: (generic) Amidinodithiopropionic acid hydrochloride.

CAS number: Not available.

Basis for action: Test data on structurally similar chemical substances indicate that the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA expects

toxicity to aquatic organisms to occur at a concentration of 30 ppb of the PMN substance in surface waters. The PMN submitter intends to import the PMN substance and therefore no releases from domestic manufacture will occur. However, EPA has determined that domestic manufacture could result in releases to surface waters where the concentration of the PMN substance would be greater than 30 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(ii).
Recommended testing: The Agency has determined that the results of the following acute aquatic toxicity testing would help characterize possible environmental effects of the substance: Algal (40 CFR 797.1050); daphnid (40 CFR 797.1300); and fish (40 CFR 797.1400). The daphnid and fish tests should be conducted with flow-through conditions and measured concentrations. The algal study should be conducted with static condiditons and measured concentrations.
CFR citation: 40 CFR 721.4460.

PMN Number P-91-118

Chemical name: (generic) Oligomeric silicic acid ester compound with an hydroxylalkylamine.
CAS number: Not available.
Basis for action: The PMN substance will be used as a binder for paints. Test data on structurally similar alkoxysilanes indicate that the PMN substance may cause lung toxicity. Based on these data EPA expects toxicity to exposed workers to occur if they are exposed by inhalation. EPA determined that use of the substance as a binder for paints as described in the PMN did not present an unreasonable risk because the substance would be processed and used in enclosed processes eliminating potential inhalation exposures. EPA has determined that other potential uses may result in inhalation exposures from nonenclosed processes. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(3)(ii).
Recommended testing: The Agency has determined that the results of a 90–day subchronic inhalation study in rats (40 CFR 798.2250) would characterize potential health effects of the substance.
CFR citation: 40 CFR 721.3100.

PMN Number P-91-288

Chemical name: (generic) Alkoxylated dialkyldiethylenetriamine, alkyl sulfate salt.
CAS number: Not available.
Basis for action: The PMN substance will be used as a cellulose softener. Test data on structurally similar substances indicate that the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at a concentrations as low as 5 ppb of the PMN substance in surface waters. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk because the substance would not be released to water during manufacturing. EPA has determined that other manufacturing processes may result in releases to surface waters greater than 5 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(ii).
Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050), an acute daphnid assay (40 CFR 797.1300), and an acute fish assay (40 CFR 797.1400) conducted under static nominal conditions will characterize environmental effects.
CFR citation: 40 CFR 721.2420.

PMN Number P-91-328

Chemical name: (generic) Disubstituted phenylazo trisubstituted naphthalene.
CAS number: Not available.
Basis for action: The PMN substance was submitted for use as a chemical intermediate. Absorption of the PMN substance is not expected through the skin, expected to be poor through the GI tract, but is expected through the lungs. Test data on a structurally similar substance indicates that an azo reduced naphthalene product of the PMN substance may cause carcinogenicity and mutagenicity. Based on this information, the PMN substance meets the concern criteria at § 721.170(b)(1)(i)(D). This action is being taken because of human health concerns regarding toxicity from exposure to the PMN substance via inhalation. Although EPA does not expect inhalation exposure to manufacturing or processing workers or other targeted populations during the use identified in the PMN submission, if the use or physical form of the PMN substance were to change the inhalation exposure to workers could increase significantly. Therefore, the SNUR will require submission of a notice to EPA at least 90 days before the PMN substance may be used other than as an intermediate, or in a powder form, or in a way that generates a dust.
Recommended testing: The Agency has determined that the results of an in vitro rat hepatocyte primary culture/DNA repair test (unscheduled DNA synthesis UDS assay) on the PMN substance and naphthalene containing azo reduction product, with β-naphthylamine as a concurrent positive control, may help address the health concerns.
CFR citation: 40 CFR 721.5200.

PMN Number P-91-442

Chemical name: (generic) Ethylene oxide adduct of fatty acid ester with pentaerythritol.
CAS number: Not available.
Basis for action: The PMN substance will be used as an intermediate for the production of a disperse dye carrier for finishing polyester fibers. Test data on structurally similar nonionic surfactants indicate that the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA expects toxicity to aquatic organisms to occur at a concentration of 10 ppb of the PMN substance in surface waters. EPA determined that use of the substance as an intermediate for the production of a disperse dye carrier for finishing polyester fibers did not present an unreasonable risk because the substance would not be released to surface waters. EPA has determined that other potential uses, as well as potential domestic manufacture, could result in releases to surface waters where the concentration of the PMN substance could be greater than 10 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(ii).
Recommended testing: The Agency has determined that the results of the following aquatic toxicity tests would help characterize possible environmental effects of the substance: Algal (40 CFR 797.1050); daphnid (40 CFR 797.1300); and fish (40 CFR 797.1400) acute tests. These tests should be conducted with flow-through conditions and measured concentrations.
CFR citation: 40 CFR 721.3680.

PMN Number P-91-487

Chemical name: (generic) Substituted phenylimino carbamate derivative.
CAS number: Not available.
Basis for action: The PMN substance will be used as a coloring agent. Test data on structurally similar substances indicate that the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at a concentrations as low as 7 ppb of the PMN substance in surface waters. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk because the substance is imported and would not be released to water during manufacturing. EPA has determined that if the substance is manufactured in the United States releases to surface waters may result. Based on this information

the PMN substance meets the concern criteria at § 721.170(b)(4)(ii).
Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050), an acute daphnid assay (40 CFR 797.1300), and an acute fish assay (40 CFR 797.1400) conducted under static nominal conditions will characterize environmental effects.
CFR citation: 40 CFR 721.2025.

PMN Number P-91-490

Chemical name: (generic) Substituted ethanolamine.
CAS number: Not available.
Basis for action: The PMN substance will be used as a chemical intermediate. Test data on structurally similar anionic polymers indicate that the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at concentrations as low as 1 ppb of the PMN substance in surface waters. EPA determined that use of the substance as a chemical intermediate as described in the PMN did not present an unreasonable risk because releases of the substance would not result in surface water concentrations exceeding the environmental concern level. Test data on a structurally similar chemical also indicate that the PMN substance may cause liver toxicity and cataracts. Based on these data EPA expects liver toxicity and cataract formation in workers exposed by inhalation. EPA determined that use of the substance in a liquid form as described in the PMN did not present an unreasonable risk because workers would not be exposed by inhalation. EPA has determined that other potential uses may result in releases to surface waters where the concentration of the PMN substance could be greater than 1 ppb or where workers could be exposed by inhalation. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(ii) and (b)(3)(ii).
Recommended testing: EPA has determined that a 21–day daphnid chronic test (40 CFR 797.1330) and a 28–day fish early life stage test (40 CFR 797.1600) would help characterize possible environmental effects of the substance. EPA has also determined that a 90–day subchronic oral study in rats (40 CFR 797.2650) would help characterize possible health effects of the substance.
CFR citation: 40 CFR 721.3360.

PMN Number P-91-521

Chemical name: (generic) Acrylic acid, polymer with substituted ethene.
CAS number: Not available.
Basis for action: The PMN substance will be used as a surface finishing agent. Test data on structurally similar anionic polymers indicate that the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA expects toxicity to aquatic organisms to occur at a concentration of 200 ppb of the PMN substance in surface waters. EPA determined that use of the substance as a surface finishing agent as described in the PMN did not present an unreasonable risk because releases of the substance would not result in surface water concentrations exceeding the environmental concern level. EPA has determined that other potential uses may result in releases to surface waters where the concentration of the PMN substance could be greater than 200 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(ii).
Recommended testing: The Agency has determined that the results of the following toxicity testing would help characterize possible environmental effects of the substance: Acute algal (40 CFR 797.1050) and acute algal in hard medium where the PMN substance contains equivalent calcium.
CFR citation: 40 CFR 721.6560.

PMN Number P-91-584

Chemical name: (generic) Aryl sulfonate of a fatty acid mixture, polyamine condensate.
CAS number: Not available.
Basis for action: The PMN substance will be used as a corrosion inhibitor. Test data on structurally similar substances indicate that the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at concentrations as low as 1 ppb of the PMN substance in surface waters. EPA determined that use of the substance as a corrosion inhibitor as described in the PMN did not present an unreasonable risk because the substance would not be released to water. EPA has determined that other potential uses may result in releases to surface waters greater than 1 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(ii).
Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050), an acute daphnid assay (40 CFR 797.1300), and an acute fish assay (40 CFR 797.1400) conducted under static nominal conditions will characterize environmental effects.
CFR citation: 40 CFR 721.6220.

PMN Number P-91-710

Chemical name: (generic) Alkyl substituted diaromatic hydrocarbons.
CAS number: Not available.
Basis for action: The PMN substances will be used as industrial chemicals. Based on calculations of the physical and chemical properties, the QSAR of the PMN substances indicate that they may cause toxicity to aquatic organisms. Based on these data, EPA is concerned that toxicity to aquatic organisms may occur at a concentration as low as 1 ppb of the PMN substances in surface waters. EPA determined that use of the substances as described in the PMN did not present an unreasonable risk because the substances would not be released to water. EPA has determined that other uses of the substances may result in releases to surface waters greater than 1 ppb. Based on this information the PMN substances meets the concern criteria at § 721.170(b)(4)(iii).
Recommended testing: EPA has determined that the results of a chronic 60–day early life stage toxicity test in rainbow trout (40 CFR 797.1600), a 21–day chronic daphnid toxicity test (40 CFR 797.1330), and a 96–hr bioassay in algae (40 CFR 797.1050) would help characterize possible environmental effects of the substance.
CFR citation: 40 CFR 721.840.

PMN Number P-91-838

Chemical name: (generic) Salt of cyclodiamine and mineral acid.
CAS number: Not available.
Basis for action: The PMN substance will be used as a hardener for epoxide resins. Based on analogy of the PMN substance to aliphatic amines, the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at a concentration as low as 90 ppb of the PMN substance in surface waters. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk because the substance would not be released to water during manufacturing because the substance would not be manufactured in the United States. EPA has determined that releases of the substance to surface water greater than 90 ppb may occur if the substance is manufactured in the United States. Based on this information the PMN substance meets the concern criteria at § 721.170 (b)(4)(ii).
Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050), an acute daphnid assay (40 CFR 797.1300), and an acute fish

assay (40 CFR 797.1400) will characterize environmental effects.
CFR citation: 40 CFR 721.2175.

PMN Number P-91-934

Chemical name: (generic) 2,2'-[[1-Methylethylidene]bis[4,1-phenyloxy[1-(butoxymethyl)-[2,1-ethanediyl]]oxymethylene]]bisoxirane, reaction product with a diamine.
CAS number: Not available.
Basis for action: The PMN substance will be used as a hardener for various epoxy systems. Based on analogy of the PMN substance to aliphatic amines, the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at a concentration as low as 2 ppb of the PMN substance in surface waters. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk to aquatic organisms because the substance would not be released to water. EPA has determined that releases to surface waters greater than 2 ppb may result if the substance is used in marine paints. Based on this information the PMN substance meets the concern criteria at § 721.170 (b)(4)(ii).
Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050), an acute daphnid assay (40 CFR 797.1300), and an acute fish assay (40 CFR 797.1400) will characterize environmental effects.
CFR citation: 40 CFR 721.5050.

PMN Number P-91-1243

Chemical name: (generic) Substituted cyclohexyldiamino ethyl ester.
CAS number: Not available.
Basis for action: The PMN substance will be used as an industrial chemical. Based on the analogy of the PMN substance to aliphatic amines, the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at a concentration as low as 1 ppb of the PMN substance in surface waters. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk because the substance would not be released to water. EPA has determined that other uses of the substance may result in releases to surface waters greater than 1 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(ii).
Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050), an acute daphnid assay (40 CFR 797.1300), an acute fish assay (40 CFR 797.1400), and an acute fish assay (40 CFR 797.1400) modified with humic acid will characterize environmental effects.
CFR citation: 40 CFR 721.2980.

PMN Number P-92-131

Chemical name: (generic) Cyclic amide.
CAS number: Not available.
Basis for action: The PMN substance will be used as solvent. Based on the analogy of the PMN substance to neutral organic chemicals, the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at a concentration as low as 70 ppb of the PMN substance in surface waters. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk because the substance would not released to surface waters at concentrations above 70 ppb. EPA has determined that other uses of the substance may result in releases to surface water above 70 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(ii).
Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050) will characterize the environmental effects of the PMN substance.
CFR citation: 40 CFR 721.2120.

PMN Number P-92-294

Chemical name: (generic) Diphenylmethane diisocyanate (MDI) modified.
CAS number: Not available.
Basis for action: The PMN substance will be used as a reactive component for structural article formation. Based on the known toxicity of analogous substances, the PMN substance may cause respiratory sensitization and other lung effects if inhaled. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk because the substance would not be inhaled. EPA has determined that other uses of the substance may result in inhalation exposures. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(3)(ii).
Recommended testing: EPA has determined that a respiratory sensitization test (Karol et al., 1983 *Toxicology and Applied Pharmocology*, 68:229–241) and a dermal sensitization test in guinea pigs (40 CFR 798.4100) will characterize the sensitization effects of the PMN substance and that a 90–day subchronic toxicity test via the inhalation route (40 CFR 798.2450) will characterize other pulmonary effects of the PMN substance.
CFR citation: 40 CFR 721.2540.

PMN Number P-92-445

Chemical name: (generic) Fatty acid amine condensate, polycarboxylic acid salts.
CAS number: Not available.
Basis for action: The PMN substance will be used as a corrosion inhibitor. Based on the analogy of the PMN substance to aliphatic amines, the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at a concentration as low as 4 ppb of the PMN substance in surface waters. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk because the substance would not be released to water. EPA has determined that other uses of the substance may result in releases to surface waters greater than 4 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170 (b)(4)(ii).
Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050), an acute daphnid assay (40 CFR 797.1300), an acute fish assay (40 CFR 797.1400), and an acute fish assay (40 CFR 797.1400) modified with humic acid will characterize the environmental effects of the PMN substance.
CFR citation: 40 CFR 721.3620.

PMN Number P-92-446

Chemical name: (generic) Coco acid triamine condensate, polycarboxylic acid salts.
CAS number: Not available.
Basis for action: The PMN substance will be used as a corrosion inhibitor. Based on the analogy of the PMN substance to aliphatic amines, the PMN substance may cause toxicity to aquatic organisms. Based on these data EPA is concerned that toxicity to aquatic organisms may occur at a concentration as low as 4 ppb of the PMN substance in surface waters. EPA determined that use of the substance as described in the PMN did not present an unreasonable risk because the substance would not be released to water. EPA has determined that other uses of the substance may result in releases to surface water greater than 4 ppb. Based on this information the PMN substance meets the concern criteria at § 721.170(b)(4)(ii).
Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050), an acute daphnid assay (40 CFR 797.1300), an acute fish assay (40 CFR 797.1400), and an acute fish assay (40 CFR 797.1400) modified with humic acid will characterize the

environmental effects of the PMN substance.
CFR citation: 40 CFR 721.2086.

IV. Objectives and Rationale of the Rule

During review of the PMNs submitted for the 24 chemical substances that are subject to this SNUR, EPA determined that one or more of the criteria of concern established at § 721.170 were met.

EPA is issuing this SNUR for specific chemical substances which have undergone premanufacture review to ensure the following objectives: That EPA will receive notice of any company's intent to manufacture, import, or process a listed chemical substance for a significant new use before that activity begins; that EPA will have an opportunity to review and evaluate data submitted in a SNUR notice before the notice submitter begins manufacturing, importing, or processing a listed chemical substance for a significant new use; that, when necessary to prevent unreasonable risks, EPA will be able to regulate prospective manufacturers, importers, or processors of a listed chemical substance before a significant new use of that substance occurs; and that all manufacturers, importers, and processors of the same chemical substance are subject to similar requirements. Issuance of a final effective SNUR for a chemical substance does not signify that the substance is contained on the TSCA Inventory. Manufacturers, importers, and processors are responsible for ensuring that a new chemical substance subject to a final SNUR is contained on the TSCA Inventory.

V. Direct Final Procedure

EPA is issuing these SNURs as direct final rules, as described in § 721.160(c)(3) and 721.170(d)(4). In accordance with § 721.160(c)(3)(ii), this rule will be effective [insert date 60 days after date of publication in the **Federal Register**], unless EPA receives a written notice by [insert date 30 days after date of publication in the **Federal Register**] that someone wishes to make adverse or critical comments on EPA's action. If EPA receives such a notice, EPA will publish a notice to withdraw the direct final SNUR(s) for the specific substance(s) to which the adverse or critical comments apply. EPA will then propose a SNUR for the specific substance(s) providing a 30–day comment period.

This action establishes SNURs for 24 chemical substances. Any person who submits a notice of intent to submit adverse or critical comments must identify the substance and the new use to which it applies. EPA will not withdraw a SNUR for a substance not identified in a notice.

VI. Test Data and Other Information

EPA recognizes that section 5 of TSCA does not require developing any particular test data before submission of a SNUR notice. Persons are required only to submit test data in their possession or control and to describe any other data known to or reasonably ascertainable by them. Unit III. of this preamble lists those recommended tests for informational purposes. The recommended studies may not be the only means of addressing the potential risks of the substance. However, SNUR notices submitted for significant new uses without any test data may increase the likelihood that EPA will take action under section 5(e).

SNUR notice submitters should be aware that EPA will be better able to evaluate SNUR notices which provide detailed information on:

(1) Human exposure and environmental release that may result from the significant new use of the chemical substances.

(2) Potential benefits of the substances.

(3) Information on risks posed by the substances compared to risks posed by potential substitutes.

VII. Applicability of Rule to Uses Occurring Before Effective Date of the Final Rule

To establish a significant "new" use, EPA must determine that the use is not ongoing. The chemical substances subject to this rule have recently undergone premanufacture review. Section 5(e) orders have been issued in 16 cases and notice submitters are prohibited by the section 5(e) orders from undertaking activities which EPA is designating as significant new uses. In cases where EPA has not received a Notice of Commencement (NOC) and the substance has not been added to the Inventory, no other person may commence such activities without first submitting a PMN. For substances for which a NOC has not been submitted at this time, EPA has concluded that the uses are not ongoing. However, EPA recognizes in cases when chemical substances identified in this SNUR are added to the Inventory prior to the effective date of the rule, the substances may be manufactured, imported, or processed by other persons for a significant new use as defined in this rule before the effective date of the rule. However, all of the substances contained in this rule have CBI chemical identities, and since EPA has received a limited number of post-PMN *bona fide* submissions, the Agency believes that it is highly unlikely that many, if any, of the significant new uses described in the following regulatory text are ongoing.

As discussed at 55 FR 17376 (April 24, 1990), EPA has decided that the intent of section 5(a)(1)(B) is best served by designating a use as a significant new use as of this date of publication rather than as of the effective date of the rule. Thus, persons who begin commercial manufacture, import, or processing of the substances regulated through this SNUR will have to cease any such activity before the effective date of this rule. To resume their activities, these persons would have to comply with all applicable SNUR notice requirements and wait until the notice review period, including all extensions, expires. EPA has promulgated provisions to allow persons to comply with this SNUR before the effective date. If a person were to meet the conditions of advance compliance in § 721.45(h) (53 FR 28354, July 17, 1988), the person will be considered to have met the requirements of the final SNUR for those activities. If persons who begin commercial manufacture, import, or processing of the substance between publication and the effective date of the SNUR do not meet the conditions of advance compliance, they must cease that activity before the effective date of the rule. To resume their activities, these persons would have to comply with all applicable SNUR notice requirements and wait until the notice review period, including all extensions, expires.

VIII. Economic Analysis

EPA has evaluated the potential costs of establishing significant new use notice requirements for potential manufacturers, importers, and processors of the chemical substance subject to this rule. EPA's complete economic analysis is available in the public record for this rule (OPPTS–50598).

IX. Rulemaking Record

EPA has established a record for this rulemaking (docket control number – OPPTS–50598). The record includes information considered by EPA in developing this rule.

A public version of the record without any confidential business information is available in the TSCA Public Docket Office from 8 a.m. to 12 noon and 1 p.m. to 4 p.m., Monday through Friday, except legal holidays. The TSCA Public Docket Office is located at rm. NE–G004, 401 M St., SW., Washington, DC.

Any person who submits comments claimed as CBI must mark the comments as "confidential", "trade secret", or other appropriate designation. Comments not claimed as confidential at the time of submission will be placed in the public file. Any comments marked as confidential will be treated in accordance with the procedures in 40 CFR part 2. Any person submitting comments claimed to be confidential must prepare and submit a nonconfidential public version in triplicate of the comments that EPA can place in the public file.

X. Regulatory Assessment Requirements

A. Executive Order 12291

Under Executive Order 12291, EPA must judge whether a rule is "major" and therefore requires a Regulatory Impact Analysis. EPA has determined that this rule will not be a "major" rule because it will not have an effect on the economy of $100 million or more, and it will not have a significant effect on competition, costs, or prices. While there is no precise way to calculate the total annual cost of compliance with this rule, EPA estimates that the cost for submitting a significant new use notice range from $4,552 to $12,166, including a $2,500 user fee payable to EPA to offset EPA costs in processing the notice. EPA believes that, because of the nature of the rule and the substances involved, there will be few SNUR notices submitted. Furthermore, while the expense of a notice and the uncertainty of possible EPA regulation may discourage certain innovation, that impact will be limited because such factors are unlikely to discourage an innovation that has high potential value.

This regulation was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291.

B. Regulatory Flexibility Act

Under the Regulatory Flexibility Act (5 U.S.C. 605(b)), EPA has determined that this rule would not have a significant impact on a substantial number of small businesses. EPA has not determined whether parties affected by this rule would likely be small businesses. However, EPA expects to receive few SNUR notices for the substances. Therefore, EPA believes that the number of small businesses affected by this rule will not be substantial, even if all of the SNUR notice submitters were small firms.

C. Paperwork Reduction Act.

The information collection requirements contained in this rule have been approved by OMB under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), and have been assigned OMB control number 2070–0012.

Public reporting burden for this collection of information is estimated to vary from 30 to 170 hours per response, with an average of 100 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Chief, Information Policy Branch, PM–223, U.S. Environmental Protection Agency, 401 M St., SW., Washington, DC 20460; and to Office of Management and Budget, Paperwork Reduction Project (2070–0012), Washington, D.C. 20503.

List of Subjects in 40 CFR Part 721

Chemicals, Environmental protection, Hazardous materials, Reporting and recordkeeping requirements, Significant new uses.

Dated: September 17, 1992.

Linda J. Fisher,

Assistant Administrator for Prevention, Pesticides and Toxic Substances.

Therefore, 40 CFR part 721 is amended as follows:

PART 721—[AMENDED]

1. The authority citation for part 721 continues to read as follows:

Authority: 15 U.S.C. 2604, 2607, and 2625(c).

2. By adding new § 721.840 to subpart E to read as follows:

§ 721.840 Alkyl substituted diaromatic hydrocarbons.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as an alkyl substituted diaromatic hydrocarbons (PMN P–91–710) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

3. By adding new § 721.2025 to subpart E to read as follows:

§ 721.2025 Substituted phenylimino carbamate derivative.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as a substituted phenylimino carbamate derivative (PMN P–91–487) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

4. By adding new § 721.2086 to subpart E to read as follows:

§ 721.2086 Coco acid triamine condensate, polycarboxylic acid salts.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as coco acid triamine condensate, polycarboxylic acid salts. (PMN P–92–446) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

5. By adding new § 721.2120 to subpart E to read as follows:

§ 721.2120 Cyclic amide.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as a cyclic amide (PMN P–92–131) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(4), (b)(4), and (c)(4) (concentration set at 70 ppb).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

6. By adding new § 721.2175 to subpart E to read as follows:

§ 721.2175 Salt of cyclodiamine and mineral acid.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as a salt of cyclodiamine and mineral acid (PMN P–91–838) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(f).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

7. By adding new § 721.2420 to subpart E to read as follows:

§ 721.2420 Alkoxylated dialkyldiethylenetriamine, alkyl sulfate salt.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as an alkoxylated dialkyldiethylenetriamine, alkyl sulfate salt (PMN P–91–288) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

8. By adding new § 721.2540 to subpart E to read as follows:

§ 721.2540 Diphenylmethane diisocyanate (MDI) modified.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as a diphenylmethane diisocyanate (MDI) modified (PMN P–92–294) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(v)(1), (v)(2), (w)(1), (w)(2), (x)(1), (x)(2), (y)(1), and (y)(2).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

9. By adding new § 721.2980 to subpart E to read as follows:

§ 721.2980 Substituted cyclohexyldiamino ethyl esters.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as substituted cyclohexyldiamino ethyl esters (PMN P–91–1243) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

10. By adding new § 721.3100 to subpart E to read as follows:

§ 721.3100 Oligomeric silicic acid ester compound with a hydroxylalkylamine.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as oligomeric silicic acid ester compound with a hydroxylalkylamine (PMN P–91–118) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(a).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

11. By adding new § 721.3360 to subpart E to read as follows:

§ 721.3360 Substituted ethanolamine.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as substituted ethanolamine (PMN P–91–490) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80 (v)(1), (v)(2), (w)(1), (w)(2), (x)(1), (x)(2), (y)(1), and (y)(2).

(ii) *Release to water.* Requirements as specified in § 721.90(a)(4), (b)(4), and (c)(4) (N = 1 ppb).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

12. By adding new § 721.3620 to subpart E to read as follows:

§ 721.3620 Fatty acid amine condensate, polycarboxylic acid salts.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as a fatty acid amine condensate, polycarboxylic acid salts. (PMN P–92–445) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

13. By adding new § 721.3680 to subpart E to read as follows:

§ 721.3680 Ethylene oxide adduct of fatty acid ester with pentaerythritol.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as ethylene oxide adduct of fatty acid ester with pentaerythritol (PMN P–91–442) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

14. By adding new § 721.3720 to subpart E to read as follows:

§ 721.3720 Fatty amide.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as a fatty amide (PMN P–91–87) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

15. By adding new § 721.4460 to subpart E to read as follows:

§ 721.4460 Amidinothiopropionic acid hydrochloride.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as amidinothiopropionic acid hydrochloride (PMN P–91–102) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(f).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

16. By adding new § 721.4480 to subpart E to read as follows:

§ 721.4480 2-imino-1,3-thiazin-4-one-5,6-dihydromonohydrochloride.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as 2-imino-1,3-thiazin-4-one-5,6-dihydromonohydrochloride (PMN P–91–101) is subject to reporting under this section for the significant new uses

described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(f), (v)(1), (v)(2), (w)(1), (w)(2), (x)(1), and (x)(2).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

17. By adding new § 721.4720 to subpart E to read as follows:

§ 721.4720 Disubstituted phenoxazine, chlorometalate salt.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as disubstituted phenoxazine, chlorometalate salt (PMN P–90–0002) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(g).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

18. By adding new § 721.5050 to subpart E to read as follows:

§ 721.5050 2,2'-[(1-Methylethylidene)bis[4,1-phenyloxy[1-(butoxymethyl)-(2,1-ethanediyl]oxymethylene]]bisoxirane, reaction product with a diamine.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as 2,2'-[(1-methylethylidene)bis[4,1-phenyloxy[1-(butoxymethyl)-(2,1-ethanediyl]oxymethylene]]bisoxirane, reaction product with a diamine (PMN P–91–934), is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

19. By adding new § 721.5200 to subpart E to read as follows:

§ 721.5200 Disubstituted phenylazo trisubstituted naphthalene.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as disubstituted phenylazo trisubstituted naphthalene (PMN P–91–328) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(g), (v)(1), (w)(1), (x)(1), and (y)(2).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified § 721.125(a), (b), (c), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

20. By adding new § 721.6200 to subpart E to read as follows:

§ 721.6200 Fatty acid polyamine condensate, phosphoric acid ester salts.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substances identified as fatty acid polyamine condensate, phosphate ester salts (PMNs P–90–1984 and P–90–1985) are subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

21. By adding new § 721.6220 to subpart E to read as follows:

§ 721.6220 Aryl sulfonate of a fatty acid mixture, polyamine condensate.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as an aryl sulfonate of a fatty acid mixture, polyamine condensate (PMN P–91–584) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

22. By adding new § 721.6540 to subpart E to read as follows:

§ 721.6540 Acrylamide, polymers with tetraalkyl ammonium salt and polyalkyl, aminoalkyl methacrylamide salt.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substances identified generically as acrylamide, polymers with tetraalkyl ammonium salt and polyalkyl, amino alkyl methacrylamide salt (PMNs P–88–2100 and P–88–2169) are subject to reporting under this section for the significant new use described in paragraph (a)(2) of this section.

(2) The significant new use is:

(i) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

23. By adding new § 721.6560 to subpart E to read as follows:

§ 721.6560 Acrylic acid, polymer with substituted ethene.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as acrylic acid, polymer with substituted ethene (PMN P–91–521) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Release to water.* Requirements as specified in § 721.90(a)(4), (b)(4), and (c)(4) (N = 200 ppb).

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB control number 2070–0012)

Department of the Interior

Bureau of Indian Affairs

25 CFR Parts 101 and 103

Loans to Indians From the Revolving Loan Fund, Loan Guaranty, Insurance, and Interest Subsidy; Final Rule

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

25 CFR Parts 101 and 103

RIN 1076-AC39

Loans to Indians From the Revolving Loan Fund, Loan Guaranty, Insurance, and Interest Subsidy

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Final rule.

SUMMARY: The Indian Financing Act Amendments of 1988 increased the maximum amounts of loans to individuals which can be guaranteed and liberalized provisions for the sale of guaranteed loans so that they may be purchased by "any person." These amendments require changes to agency regulations on financial activities.

Other changes comply with OMB Circulars A–129, Managing Federal Credit Programs, and A–70, Federal Credit Policy.

Other changes reflect the current policies in the administration of the Revolving Loan and the Loan Guaranty Programs.

EFFECTIVE DATE: November 9, 1992.

FOR FURTHER INFORMATION CONTACT: Woodrow B. Sneed, Division of Financial Assistance, Bureau of Indian Affairs, Mail Stop 4060 MIB, 1849 C Street NW., Washington, DC 20240, telephone (202) 208–4796.

SUPPLEMENTARY INFORMATION: These amendments are published in exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 DM 8. The policy of the Department of the Interior is, whenever practical, to afford the public an opportunity to participate in the rulemaking process. Accordingly, these proposed regulations were published in the **Federal Register** on September 23, 1991 and interested persons were invited to submit written comments regarding the proposed rule.

Fifteen letters of comment were received. Twelve commenters objected to proposed § 103.13 reducing the maximum amount of guarantees from 90 percent to 80 percent. One comment was in favor of the 80 percent limitation. The arguments that reducing the amount of guaranty would drastically limit the ability of eligible borrowers to find lenders were persuasive, so the loan guaranty limit will remain at 90 percent.

Three comments objected to the requirement in § 101.3 that the borrower have at least 20 percent equity in the business being financed with a direct loan. The commenters feel this requirement will render the loan program inaccessible to tribes and individuals most in need of loans. Loans, however, under the Indian Financing Act, 25 U.S.C. 1465, may be made only when, in the judgment of the Secretary of the Interior, there is a reasonable prospect of repayment. Experience has proven that debt financing approaching 100 percent drastically increases the likelihood of loan default. Most private banks require at least 30 percent equity to support loan repayment. Less than a 20 percent equity requirement is believed to be insufficient to ensure the repayment standard required by the Indian Financing Act.

The Supplementary Information part of the preamble to the proposed rule points out that the requirement for 20 percent equity applies to both direct and guaranteed loans. This proposed requirement was inadvertently left out of part 103, the rule for guaranteed loans. We are putting the equity requirement in § 103.10 of that part.

One commenter pointed out that the definition of "equity" in §§ 101.1 and 103.1 could include intangible assets, such as goodwill, and assets which might not be subject to a lender's lien. We have modified the definition to avoid these results.

One commenter perceived an inconsistency between §§ 101.11 and 103.44, the first of which allows a charge for loan origination while the latter does not. We have deleted the provision allowing a loan origination fee in § 101.11 to remove this inconsistency.

Two writers commented that the penalties on default under proposed § 101.15 are too harsh. These are penalties which are enforceable against borrowers from all Federal lending programs. They are listed in OMB Circular A–129. Borrowers should be given notice of their availability to the Government and they will remain in the final rule.

One writer suggested requirements for a Debt Collection Certificate showing that borrowers were aware of the remedies available to collect debts owed the Government and a foreclosure/liquidation plan submitted by the lender prior to foreclosure. The proposed rule adequately addresses problems with which these proposals are concerned and they will not be added to the final rule.

Another commenter suggested allowing existing lenders to pay a one time premium. We have added language to § 103.43 to allow this option. The same commenter suggested changing § 103.46 so that it is clear that a late payment date on invoices is required and not discretionary. We have changed "should" to "shall" in the third sentence of that section to accomplish this result.

The Department of the Interior has determined that this document is not a major action under Executive Order 12291 and certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

The Department has further determined that this proposed rulemaking does not constitute a major Federal action significantly affecting the quality of the human environment and that no detailed statement is required pursuant to the National Environmental Policy Act of 1969.

The collections of information contained in § 101.4, 103.15, and 103.34 have been approved by the Office of Management and Budget under 44 U.S.C. 3501 et seq. and assigned clearance number 1076–0020. The information is being collected to implement the requirements of 25 U.S.C. 1451 et seq. and 25 U.S.C. 1481 et seq. and will be used to establish eligibility for loans or loan guaranties. Response is required to obtain a benefit in accordance with 25 U.S.C. 1451 et seq. and 1481 et seq. Public reporting burden for this information is estimated to average 15 minutes to 3 hours per response to part 101 collections and 30 minutes per response to part 103 collections. This is the same burden as estimated in the rules being amended and includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information to Information Clearance Officer; Bureau of Indian Affairs; Washington, DC 20240; and to the Office of Management and Budget; Paperwork Reduction Project (1076–0020); Washington, DC 20503.

Amendments to part 103 increase the amount of a loan to individual Indians which can be guaranteed and provide that guaranteed loans can be purchased by "any person."

These changes reflect changes in the Indian Financing Act by the 1988 amendments.

- Other changes listing remedies on default and limiting the amount of guaranties comply with OMB Circular A–129, Managing Federal Credit Programs, and A–70, Federal Credit Policy. The section on use of tribal funds for lending programs and economic development is deleted because the

disposition of tribal funds is the business of the tribes and should not be restricted unnecessarily by excessive regulation.

A provision that tribes may mortgage their unrestricted lands is deleted because there is no authority for it, unless the land was purchased subject to a mortgage.

Amendments clarify that the lender of guaranteed or insured loans retains responsibility for administering loans even if the guaranty certificate is conveyed to another party. To this end, most references to holders of guaranty certificates are deleted.

Amendments provide that interest subsidies on guaranteed or insured loans will be discontinued any time a guaranty or insurance agreement terminates for any reason.

The prohibition on points, finders fees, loan origination fees, bonuses, and commissions under the loan guaranty and insurance program is emphasized.

Amendments provide that lenders will share pro rata in proceeds from the liquidation of a borrower's assets upon default after the United States has recovered its costs in managing and disposing of the collateral.

A requirement that borrowers must provide at least 20 percent equity in the business being financed with a direct or guaranteed loan is added. Premium payments are required in a lump sum at the beginning of a loan.

The primary author of this document is Woodrow B. Sneed, Division of Financial Assistance, Bureau of Indian Affairs, telephone number [202] 208–4796.

List of Subjects in 25 CFR Parts 101 and 103

Indians—business and finance, Loan programs—Indians, Loan programs—business.

For the reasons set out in the preamble, parts 101 and 103 of title 25, chapter I, of the Code of Federal Regulations are amended as set forth below:

PART 101—LOANS TO INDIANS FROM THE REVOLVING LOAN FUND

1. The authority citation for 25 CFR part 101 is revised to read as follows:

Authority: 25 U.S.C. 1469.

2. Section 101.1 is revised to read as follows:

§ 101.1 Definitions.

As used in this part 101:

Applicant means an applicant for a United States Direct Loan from the revolving loan fund or a loan from a relending organization.

Commissioner means the Commissioner of Indian Affairs or an authorized representative.

Cooperative association means an association of individuals organized pursuant to state, Federal, or tribal law, for the purpose of owning and operating an economic enterprise for profit with profits distributed or allocated to patrons who are members of the organization.

Corporation means an entity organized as a corporation pursuant to state, Federal, or tribal law, with or without stock, for the purpose of owning and operating an economic enterprise.

Default means failure of a borrower to:

(1) Make scheduled payments on a loan when due,

(2) Obtain the lender's approval for disposal of assets mortgaged as security for a loan, or

(3) Comply with the covenants, obligations, or other provisions of a loan agreement.

Economic enterprise means any Indian-owned commercial, industrial, agricultural, or business activity established or organized for the purpose of profit, provided that eligible Indian ownership constitutes not less than 51 percent of the enterprise.

Equity means the borrower's residual ownership, after deducting all business debt, of tangible business assets used in the business being financed, on which a lender can perfect a first lien position.

Financing statement means the document filed or recorded in county or state offices pursuant to the provisions of the Uniform Commercial Code notifying third parties that a lender has a lien on the chattels and/or crops of a borrower.

Indian means a person who is a member of an Indian tribe as defined in this part.

Organization means the governing body of any Indian tribe, or entity established or recognized by such governing body for the purpose of the Indian Financing Act.

Other organization means any non-Indian individual, firm, corporation, partnership, or association.

Partnership means a form of business organization in which two or more legal persons are associated as co-owners for the purposes of business or professional activities for private pecuniary gain, organized pursuant to tribal, state, or Federal law.

Reservation means Indian reservation, California rancheria, public domain Indian allotment, former Indian reservation in Oklahoma, and land held by Alaska Native groups incorporated under the provisions of the Alaska Native Claims Settlement Act (85 Stat. 688), as amended.

Revolving loan fund means all funds that are now or hereafter a part of the revolving fund authorized by the Act of June 18, 1934 (48 Stat. 986), the Act of June 26, 1936 (49 Stat. 1968) and the Act of April 14, 1950 (64 Stat. 44), as amended and supplemented including sums received in settlement of debts for livestock pursuant to the Act of May 24, 1950, (64 Stat. 190) and sums collected in repayment of loans made, including interest or other charges on loans, and any funds appropriated pursuant to Section 106 of the Indian Financing Act of 1974 (88 Stat. 77).

Secretary means the Secretary of the Interior.

Tribe means any Indian tribe, band, nation, rancheria, pueblo, colony or community, including any Alaska Native village or any regional, village, urban or group corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688), as amended, which is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs.

3. Section 101.3 is amended by adding a sentence at the end of paragraph (a) as follows:

§ 101.3 Eligible borrowers under United States direct loan program.

(a) * * * In addition, the applicant will be required to have equity equal to 20 percent of the total cost of a new enterprise, or 20 percent of the total cost of expansion of an existing enterprise.

* * * * *

4. Section 101.4 is amended by removing the second sentence and by adding three new sentences in its place as follows:

§ 101.4 Applications.

* * * Applications shall include the name, current address and telephone number of the applicant(s); current and prior Taxpayer Identification Number—Employer Identification Number if a business entity, Social Security Number if an individual; and current employer's name, address, and telephone number; amount of the loan requested; purpose for which loan funds will be used; and security to be offered; period of the loan, assets, liabilities and repayment capacity of the applicant; budgets reflecting income and expenditures of the applicant; and any other information necessary to adequately evaluate the application. The borrower must sign a statement declaring no delinquency on Federal taxes or other Federal debt and borrower's good standing on dealings in

procurement or non-procurement with the Federal Government. The Bureau will obtain a current credit bureau report and prescribe procedures to be used in handling loan proceeds. * * *

5. Section 101.6 is amended by adding the following sentence at the end of paragraph (a):

§ 101.6 Modification of loans.

(a) * * * In addition, a current credit bureau report, obtained by the Bureau of Indian Affairs, will be made a part of the modification request.

* * * * *

6. Section 101.11 is amended by revising paragraph (b) and (c) as follows:

§ 101.11 Interest.

* * * * *

(b) Additional charges to cover loan administration costs, including credit reports, may be charged to borrowers.

(c) Education loans may provide for deferral of interest while the borrower is in school full time or in the military service.

* * * * *

7. Section 101.15 is amended by adding new paragraphs (j)-(s) as follows:

§ 101.15 Penalties on default.

* * * * *

(j) Report the name and account information of a delinquent borrower to a credit bureau.

(k) Assess additional interest and penalty charges for the period of time that payment is not made.

(l) Assess charges to cover additional administrative costs incurred by the Government to service the account.

(m) Offset amounts owed the borrower under other Federal programs including other programs administered by the Bureau of Indian Affairs.

(n) Refer the account to a private collection agency to collect the amount due.

(o) Refer the account to the U.S. Department of Justice for collection by litigation.

(p) If the borrower is a current or retired Federal employee, take action to offset the borrower's salary or civil service retirement benefits.

(q) Refer the debt to the Internal Revenue Service for offset against any amount owed the borrower as an income tax refund.

(r) Report any written-off debt to the Internal Revenue Service as taxable income to the borrower.

(s) Recommend suspension or debarment from conducting further business with the Federal Government.

§ 101.20 [Removed]

§§ 101.21 through 101.26 [Redesignated as 101.20 through 101.25]

(8) Section 101.20 is removed and §§ 101.21 through 101.26 are redesignated §§ 101.20 through 101.25.

§ 101.20 [Amended]

9. Newly redesignated § 101.20 is amended by removing paragraph (e) and redesignating paragraph (f) as paragraph (e).

PART 103—LOAN GUARANTY, INSURANCE, AND INTEREST SUBSIDY

10. The authority citation for 25 CFR part 103 is revised to read as follows:

Authority: 25 U.S.C. 1498.

11. Section 103.1 is revised to read as follows:

§ 103.1 Definitions.

As used in this part:

Applicant means one who applies for a guaranteed or insured loan.

Borrower means the Indian organization or individual Indian receiving a guaranteed or insured loan.

Commissioner means the Commissioner of Indian Affairs or his authorized representative.

Cooperative Association means an association of individuals organized pursuant to state, Federal, or tribal law for the purpose of owning and operating an economic enterprise for profit with profits distributed or allocated to patrons who are members of the organization.

Corporation means an entity organized as a corporation pursuant to state, Federal, or tribal law, with or without stock for the purpose of owning and operating an economic enterprise.

Default means failure of a borrower to:

(1) Make scheduled payments on a loan when due,

(2) Obtain the lender's approval for disposal of assets mortgaged as security for a loan, or

(3) Comply with the covenants, obligations, or other provisions of a loan agreement.

Economic enterprise means any Indian-owned commercial, industrial, agricultural, or business activity established or organized for the purpose of profit, provided that eligible Indian ownership constitutes not less than 51 percent of the enterprise.

Equity means the borrower's residual ownership, after deducting all business debt, of tangible business assets used in the business being financed, on which a lender can perfect a first lien position.

Financing statement means the document filed or recorded in county or state offices pursuant to the provisions of the Uniform Commercial Code notifying third parties that a lender has a lien on the chattels and/or crops of a borrower.

Guaranty means the obligation assumed by the United States to repay a specific percentage of a loan upon default of the borrower pursuant to the regulations in this part.

Indian means a person who is a member of an Indian tribe as defined in this part.

Insured loan means a loan made pursuant to an agreement approved by the Commissioner with a financial institution, under which an obligation is assumed by the United States to indemnify the lender for a percentage of the loss on loans, pursuant to the regulations in this part.

Interest subsidy means payments which may be made by the United States to lenders making guaranteed or insured loans to reduce the interest rate which borrowers pay the lenders to the rate established pursuant to section 104 of the Indian Financing Act of 1974 (25 U.S.C. 1451 et seq.).

Mortgage means a mortgage or deed of trust evidencing an encumbrance of land, a mortgage or security agreement executed as evidence of a lien against crops and chattels, and a mortgage or deed of trust evidencing a lien on leasehold interests.

Organization means the governing body of any Indian tribe or entity established or recognized by such governing body for the purpose of the Indian Financing Act.

Partnership means a form of business organization in which two or more persons are associated as co-owners for the purposes of business or professional activities for private pecuniary gain organized under tribal, state, or Federal law.

Premium means the charges paid by lenders for the guaranty or insurance of loans under provisions for reimbursement of lenders by the United States for a percentage of losses incurred.

Reservation means Indian reservation, California rancheria, public domain Indian allotment, former Indian reservation in Oklahoma, and land held by Alaska Native groups incorporated under the provisions of the Alaska Native Claims Settlement Act (85 Stat. 688), as amended.

Secretary means the Secretary of the Interior.

Tribe means any Indian tribe, band, nation, rancheria, pueblo, colony or community, including any Alaska Native village or any regional, village, or urban

or group corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) as amended which is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs.

12. Section 103.7 is amended by removing the first sentence and adding two sentences in its place as follows:

§ 103.7 Eligible organizations.

Tribes and Indian organizations having a form of organization satisfactory to the Commissioner recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs, and indicating reasonable assurance of repayment, are eligible for guaranteed or insured loans. If Indian ownership of an economic enterprise falls below 51 percent, the borrower shall be in default and the guaranty shall cease and the interest subsidy shall be discontinued. * * *

13. Section 103.10 is amended by adding new paragraphs (e) and (f) as follows:

§ 103.10 Ineligible loans.

* * * * *

(e) Loans which are linked to Federally tax-exempt bond obligations.

(f) Loans to a borrower whose equity, as defined in § 103.1, in the business being financed is less than 20 percent.

14. Section 103.13 is amended by revising paragraph (a) to read as follows:

§ 103.13 Amount of guaranty.

(a) The percentage of a loan that is guaranteed shall be the minimum necessary to obtain financing for an applicant, but may not exceed 90 percent of the unpaid principal and interest. The liability under the guaranty shall increase or decrease pro rata with an increase or decrease in the unpaid portion of the principal amount of the obligation. No loan to an individual Indian, partnership, or other non-tribal organization may be guaranteed for an unpaid principal amount in excess of $500,000 or such maximum amount provided in any amendments to the Indian Financing Act of 1974.

* * * * *

15. Section 103.15 is amended by revising the heading of the section and paragraphs (a) and (c) as follows:

§ 103.15 Applications for loan guaranties or insurance.

(a) Applicants for loans will deal directly with lenders for both guaranteed and insured loans. The form of loan applications will be determined by the lender. The application for a loan guaranty or insurance, or attachments thereto, must include or show the following:

(1) The name and address of the borrower with the tax identification number if the borrower is a business entity or the social security number if an individual;

(2) A statement signed by the borrower that the borrower is not delinquent with any Federal tax or other obligations;

(3) The plan of operation for the economic enterprise including an identified target market for the goods or services being offered;

(4) Purpose(s) and the amount of the loan;

(5) Security to be given which shall be itemized with valuations of such collateral and the method used to value the collateral, the date of such valuation, who performed the valuation, and the creditor priority positions;

(6) Hazard and liability insurance to be carried;

(7) Interest rate;

(8) Repayment schedule;

(9) Repayment source(s);

(10) How title to the property to be purchased with the loan will be taken;

(11) Current financial statements of the loan applicant;

(12) Description and dollar value of the equity or personal investment to be made by the applicant;

(13) Charges pursuant to § 103.44;

(14) Pro forma balance sheets, operating statements and cash flow statements for at least three years;

(15) Balance sheets and operating statements for the two preceding years, or applicable period thereof if already in operation;

(16) The lender's evaluation of the economic feasibility of the enterprise and internal credit memorandum; and

(17) A current credit bureau report on the borrower.

Applications will also show the percentage of guaranty requested.

* * * * *

(c) The Commissioner may review applications for guaranteed loans individually and independently from the lending institution.

16 Section 103.16 is revised to read as follows:

§ 103.16 Loan otherwise available.

If the information in an application for a guaranteed or insured loan indicates that the applicant may obtain the loan without a guaranty or insurance, the Commissioner may deny the request for a guaranty or insurance.

17. Section 103.17 is amended by revising the second sentence of paragraph (a) and adding a third sentence as follows:

§ 103.17 Refinancing.

(a) * * * Applications to refinance loans to an economic enterprise will be accompanied by financial and cash flow statements required in § 103.15(a) (1) through (17).

A guaranty of a loan to refinance existing indebtedness will be considered only if the loan will result in a significantly lower lender's interest rate to the borrower, or provide a substantially longer term for repayment of the loan, or decrease the loan-to-asset value ratio of the business being financed.

* * * * *

18. Section 103.23 is amended by revising the last sentence in paragraph (b) as follows:

§ 103.23 Increase in principal of loans.

* * * * *

(b) * * * If the financing involves an economic enterprise, the application must be accompanied by the information required in § 103.15(a) (1) through (17) of this part.

* * * * *

19. Section 103.27 is amended by adding a sentence at the end as follows:

§ 103.27 Amount of security.

* * * The lender shall itemize and describe the collateral given as security as described in 103.15(a) (5) and (10) of this part.

20. Section 103.30 is amended by revising paragraph (a) as follows:

§ 103.30 Land.

(a) Indian individuals may execute mortgages or deeds of trust on nontrust or unrestricted land as security without the approval of any Federal official.

* * * * *

21. Section 103.34 is amended by adding a new sentence after the first sentence as follows:

§ 103.34 Restrictions

* * * Lenders will document any and all prior security interests of record with respect to proposed collateral. * * *

22. Section 103.36 is revised to read as follows:

§ 103.36 Default on guaranteed loans.

(a) Within 45 calendar days after the occurrence of a default, the lender shall notify the Commissioner by certified or registered mail showing the name of borrower, guaranty certificate number, amount of unpaid principal, amount of principal delinquent, amount of interest accrued and unpaid to date of notice.

amount of interest delinquent at time of notice, and other failure of the borrower to comply with provisions of the loan agreement. Within 60 calendar days after default on a loan, the lender shall proceed as prescribed in either paragraph (b), (c), or (d) of this section, unless an extension of time is requested by the lender and approved by the Commissioner. The request for an extension shall explain the reason why a delay is necessary and the estimated date on which action will be initiated. Failure of the lender to proceed with action within 60 calendar days or the date to which an extension is approved by the Commissioner shall cause the guaranty certificate to cease being in force or effect. If the Commissioner is not notified of the failure of a borrower to make a scheduled payment or of other default within the required 45 calendar days, the Commissioner will proceed on the assumption that the scheduled payment was made and that the loan agreement is current and in good standing. The Commissioner will then decrease the amount of the guaranty pro rata by the amount of the due installment and the lender will have no further claim for guaranty as it applied to the installment, except for the interest subsidy on guaranteed loans which may be due.

(b) The lender may make written request that payment be made pursuant to the provisions of the guaranty certificate or guaranty agreement. If the Commissioner finds that a loss has been suffered, the lender may be paid the pro rata portion of the amount guaranteed including unpaid interest.

(c) The borrower and the lender may agree upon an extension of the repayment terms or other forbearance for the benefit of the borrower. The lender may extend all reasonable forbearance if the borrower becomes unable to meet the terms of a loan. However, such forbearance will not be extended if it will increase the likelihood of a loss on a loan. Agreements between a lender and a borrower shall be in writing and will require approval by the Commissioner.

(d) The lender may advise the Commissioner in writing that suit or foreclosure is considered necessary and proceed to foreclosure and liquidation of all security interests. On completion of foreclosure and liquidation, if the Commissioner determines that a loss has been suffered, the lender will be reimbursed for the pro rata portion of the amount of unpaid principal and interest guaranteed. A lender will submit a claim for reimbursement for losses on a form furnished by the Commissioner and will furnish any additional information needed to establish the amount of the claim. On reimbursement of a lender for the pro rata amount of the loss guaranteed as provided in the guaranty certificate, the lender will subrogate its rights and interest in the loan to the United States and assign the loan obligations and security for the loan to the United States. The Commissioner may establish the date on which accrual of interest or charges shall cease. This date may not be later than the date of judgment and decree of foreclosure or sale. The Commissioner will take any action necessary to protect the interest of the United States.

Subsequent to subrogation and assignment, any collections shall be for the account of the United States up to the amount paid on the guaranty plus any costs or expenses incurred by the United States. Collections will be deposited in the loan guaranty and insurance fund established pursuant to this part. Any amounts collected in excess of those necessary to reimburse the United States for amounts paid under the guaranty plus costs or expenses shall be paid to the lender up to the amount of the lender's losses. Any residue from collection shall go to the borrower.

§ 103.38 [Amended]

23. Section 103.38 is amended by removing the word "deems" in the first sentence and adding in its place "deemed."

24. Section 103.42 is amended by revising the introductory text of paragraph (a); adding a new paragraph (a)(5); removing the second sentence in paragraph (c); and adding a sentence at the end of paragraph (c); as follows:

§ 103.42 Interest subsidy.

(a) The Commissioner may pay an interest subsidy to lenders on loans which are guaranteed or insured under this part 103 at rates which are necessary to reduce the interest rate payable by the borrowers to a rate determined in accordance with title I, section 104, of the Indian Financing Act of 1974 (Pub. L. 93–262, 83 Stat. 77). The rate of subsidy will be established by the Commissioner at the time of issuance of a guaranty certificate or insurance agreement on loans requiring approval by the Commissioner. Interest subsidy payments by the United States shall be discontinued on such loans if the lender elects to discontinue the guaranty or insurance or causes the termination of the guaranty or insurance by failure to make premium payments as required by § 103.43, or when one of the following occurs:

* * * * *

(5) Cash flow form the business being financed appears sufficient to pay for full debt service based on periodic review by the Commissioner. Cash flow shall be deemed sufficient to pay debt service when earnings before interest and taxes, after adjustments for extraordinary items, equal or exceed industry norms.

* * * * *

(c) * * * The interest subsidy rate established by the Commissioner will be in effect for three years. At the end of the third year the need for subsidy will be reviewed and extended on an annual basis for the next two years, if justified.

27. Section 103.43 is revised as follows:

§ 103.43. Premium charges.

A premium of 2.0 percent of the guaranteed portion of a loan will be charged to lenders. The lender may increase the principal amount of the loan by the cost of the premium and charge it to the borrower. The lender shall pay the premium within 90 days of the date of approval of the loan guaranty. Existing lenders may elect to modify their Loan Guaranty and Insurance Agreements with the Bureau of Indian Affairs so as to pay future premium payments in a lump sum. If the guaranty premium is not paid within 90 days of approval of the loan guaranty or modification of the agreement, the Commissioner will send the lender a notice of non-payment. If the premium is not paid within 30 days of the receipt of this notice, the guaranty shall be subject to termination.

28. Section 103.44 is amended by revising the last sentence as follows:

§ 103.44 Other charges.

* * * Payment by the borrower of points, finders fees, loan origination fees, bonuses or commissions for loans guaranteed under this part is prohibited.

29. Section 103.46 is amended by designating the existing paragraph as paragraph (a) and adding paragraph (b) as follows:

§ 103.46 Loan servicing.

* * * * *

(b) Loan servicing must meet the following standards regarding billing and documentation. Payments must be routinely invoiced, in most cases on a monthly basis. Invoices shall include the date the payment is due and the date the payment will be considered late (i.e., grace period). Borrowers should be encouraged to use pre-authorized debits

or credit cards when making payments. Loan files must contain current information on payment history, including delinquencies and defaults, and any subsequent loan action concerning deferrals, refinancing, or rescheduling. There should be a record of the time and outcome of each contact with the borrower, including notification of delinquent status, requests for repayment, and intent to report the delinquent debt to credit bureaus or to refer debts to collection agencies.

30. Section 103.51 is amended by revising the first two sentences to read as follows:

§ 103.51 Sale or assignment of guaranteed loans.

Any guaranteed loan, including the security and guaranty certificate, may be sold to any person. The person acquiring the loan shall notify the Commissioner in writing with 30 days after acquisition. * * *

William D. Bettenberg,

Acting Assistant Secretary—Indian Affairs.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper, 24x microfiche format and magnetic tape. The annual subscription price for the **Federal Register** paper edition is $375, or $415 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $353; and magnetic tape is $37,500. Six month subscriptions are available for one-half the annual rate. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA or MasterCard. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 57 FR 12345.

Rules and Regulations

Federal Register
Vol. 57, No. 197
Friday, October 9, 1992

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

RIN 0560-AC66

1992-Crop National Poundage Quota, National Average Support Levels for Quota and Additional Peanuts, and Minimum CCC Export Edible Sales Price for Additional Peanuts

AGENCY: Agricultural Stabilization and Conservation Service and Commodity Credit Corporation, Untied States Department of Agriculture (USDA).

ACTION: Final rule.

SUMMARY: This rule establishes the 1992 national poundage quota for quota peanuts of 1,540,000 short tons (st), national average level of price support for quota peanuts of $674.93 per st, national average level of price support for additional peanuts of $131.09 per st, and minimum CCC sales price of additional peanuts for export edible use of $400.00 per st. These determinations were made pursuant to the statutory requirements of the Agricultural Adjustment Act of 1938, as amended by the Food, Agriculture, Conservation, and Trade Act of 1990.

EFFECTIVE DATES: December 13, 1991, for § 729.214 (the national poundage quota). February 18, 1992, for § 1421.7(c)(8) (the national average support levels for quota and additional peanuts) and § 1421.27(a)(2) (i) and (ii) the minimum CCC sales price of additional peanuts for export edible use).

FOR FURTHER INFORMATION CONTACT: Ronald W. Holling, Tobacco and Peanuts Analysis Division, ASCS, USDA, room 3732, South Building, P.O. Box 2415, Washington, DC 20013, telephone 202-720-7477.

SUPPLEMENTARY INFORMATION: This rule has been reviewed under USDA procedures established to implement Executive Order 12291 and Departmental Regulation 1512-1 and has been classified as "not major". This rule will not result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individuals, industries, Federal, State, or local governments or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Final Regulatory Impact Analyses discussing the impacts of the established quota, support levels, and minimum CCC sales price of additional peanuts for export edible use are available from the above-named person.

The titles and number of the Federal assistance program, as found in the Catalog of Federal Domestic Assistance, to which this rule applies are Commodity Loans and Purchases—10.051.

This program/activity is not subject to the provisions of Executive Order No. 12372 relating to intergovernmental consultation with State and local officials. See the Notice related to 7 CFR part 3015, subpart V, published at 48 FR 29115 (June 24, 1983).

This rule has been reviewed in accordance with Executive Order 12778. The provisions of this rule do not preempt State law, are not retroactive, and do not involve administrative appeals.

It has been determined that the Regulatory Flexibility Act is not applicable because neither ASCS nor CCC is required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject of these determinations.

The amendments to 7 CFR parts 729 and 1421 set forth in this final rule do not contain information collections that require clearance by the Office of Management and Budget under the provisions of 44 U.S.C. chapter 35.

Announcement of the Quota

Section 358-1(a)(1) of the Agricultural Adjustment Act of 1938, as amended (the 1938 Act), requires that the national poundage quota for peanuts for each of the 1991 through 1995 marketing years (MYs) be established by the Secretary at a level that is equal to the quantity of peanuts (in tons) that the Secretary estimates will be devoted in each such MY to domestic edible, seed, and related uses. Section 358-1(a)(1) of the 1938 Act further provides that the national poundage quota for a MY shall not be less than 1,350,000 st. The MY for 1992-crop peanuts is from August 1, 1992 through July 31, 1993. Poundage quotas for the 1991-1995 crops of peanuts were approved by 98.2 percent of peanut growers voting in a referendum conductd December 10-13, 1990.

A proposed quota with a public comment period was published on November 21, 1991, in the **Federal Register** (56 FR 58672). The proposed quota was 1,610,000 st. The calculations included individual estimates for: (1) Domestic food use, (2) farm sales and local sales of peanuts, (3) seed, (4) crushing residual, (5) shrinkage and other losses, and (6) quota product exports. A number of comments were received. Following a review of the comments and more recent estimates made by he USDA Interagency Commodity Estimate Committee (ICEC) for Oilseeds, Oils, and Meals, the 1992 quota is established at 1,540,000 st. Updated data resulted in adjustments to the estimates for domestic food use, seed, and crushing residual. The adjustments in those three factors also produced a slight revision in the estimate for shrinkage and other losses. The differences between the estimates on which the proposed quota was based versus the estimates on which the final quota was established are set out in the following table:

ESTIMATED DOMESTIC EDIBLE, SEED, AND RELATED USES

Item	Quota in short tons	
	Proposed [1]	Final [2]
Domestic Edible:		
Domestic food	1,211,000	1,186,000
On farm and local sales	21,000	21,000
Subtotal	1,232,000	1,207,000
Seed	119,000	106,000

ESTIMATED DOMESTIC EDIBLE, SEED, AND RELATED USES—Continued

Item	Quota in short tons	
	Proposed [1]	Final [2]
Related Uses:		
Crushing residual	189,000	158,000
Shrinkage and other losses	49,000	48,000
Segregation 2 and 3 loan transfers to quota loan	20,000	20,000
Quota product exports	1,000	1,000
Subtotal	259,000	227,000
Total	1,610,000	1,540,000

[1] Contained in November 21, 1992, **Federal Register** publication.
[2] Final Quota Determination.

Discussion of the Comments on Proposed Quota and of the Revisions

A total of 23 comments was received during the public comment period that ended on December 9, 1991. Comments were submitted by two manufacturer/processor associations, eight manufacturers, three sheller associations, two farm bureaus, four grower associations or commissions, and four growers.

The comments and revisions made to derive the 1992-crop national quota are discussed below.

Overall Quota Level

A number of comments were directed to the overall quota level rather than to individual elements of the calculation.

The manufacturer/processor associations and all manufacturers either supported the proposed quota of 1,610,000 st or a larger quota. One sheller association supported a 1992 quota unchanged from the 1991 quota of 1,550,000 st, but also expressed that it did not have serious disagreement with the proposed quota. All other associations, bureaus, and commissions supported a quota reduction to 1,500,000 st. All growers supported a smaller quota than that which was proposed. However, no grower recommended a specific tonnage. As set forth below, adjustments were made in the quota from the proposed amount based on adjustments in the individual estimates of use.

Crushing Residual

The crushing residual represents the farmer stock equivalent weight of crushing grade kernels shelled from quota peanuts. In any given load of quota farmer stock peanuts, a portion of such peanuts is only suitable for the crushing market. The quota must be sufficient to provide for the shelling of both edible and crushing grades. Manufacturers supported the past and proposed use of a 14-percent factor to account for the amount of crushing peanuts in a ton of farmer stock peanuts. Shellers/growers proposed use of a 12-percent factor and argued that the 14-percent factor should be reduced to reflect the blending of loose shelled kernels and a portion of 1 1/16 kernel splits back into domestic edible shelled peanuts. The prior use of the 14-percent factor was based on the assumption that loose shelled kernels and 1 1/16 kernel would be crushed. Following a review of the comments, it was determined that crushing peanuts will be approximately 12 percent, on a farmer stock basis, of the total MY 1992 domestic food and seed production.

Domestic edible use

One manufacturer/processor association estimated the growth in the quota should be 8 to 9 percent but provided no specific estimate for individual components of domestic edible use. The other manufacturer/processor association estimated the amount of peanuts to be used for domestic edible use to be 1,200,000 st. Sheller and grower associations estimated the amount of peanuts to be used for domestic edible use to be 1,150,000 st. As of December 11, 1991, the ICEC estimated the MY 1992 domestic edible peanut use at 1,200,000 st, down 25,000 st from the ICEC estimate used in connection with the proposed quota. An estimated of 1,200,000 st was determined appropriate but was further reduced by 14,000 st to account for product exporters. (In most instances, product exports are either made from, or may otherwise be credited under section 359a(e)(1) of the 1938 Act as being made from, additional peanuts.)

Seed Use

The seed estimate is based on the expected 1993-crop planted acreage for peanuts and the farmer stock equivalent of the seed needed to plant such acreage. Manufacturer and grower comments regarding this estimate varied concerning seeding rates. Manufacturers supported the use of a more traditional 110-pound-per-acre seeding rate. Shellers/growers proposed the use of a 90-pound-per-acre seeding rate. The sheller/grower recommendation was based on the improved accuracy of pneumatic planters and research enabling growers to have sustained yields with reduced seeding rates. The final seed estimate is based on a review of the most reliable data. ICEC concluded that a 95-pound-per-acre seeding rate is the best estimate.

Shrinkage and Other Losses

This estimate is based on multiplying a factor of 0.04 times domestic food use. Because the domestic food use estimate was revised downward, the estimate for shrinkage and other losses was lowered accordingly.

Quota Peanuts Support Level

The Agricultural Act of 1949, as amended, provides that the Secretary of Agriculture (Secretary) shall determine the rate of loans, payments, and purchases for the 1991–1995 crops of commodities without regard to the requirements for notice and public participation in rulemaking as prescribed in 5 U.S.C. 553 or in any directive of the Secretary.

The announcement of the national support level for the 1992 crop of quota and additional peanuts was required to be made by the Secretary no later than February 15, 1992.

In accordance with section 108B(a)(2) of the 1949 Act, as amended, the national average price support level for the 1992 crop of quota peanuts must be the corresponding 1991-crop price support level adjusted to reflect any increases in the national average cost of peanut production excluding any changes in the cost of land) during the calendar year immediately preceding MY 1992, except that the price support level cannot exceed the 1991-crop support level by more than 5 percent. The 1991-crop quota peanut price support level was $642.79 per st. The 1992-crop support level was determined based on the following estimates:

COST ESCALATOR CALCULATIONS

Variable/component	1990 crop	1991 crop
Total Cash Expense, Capital Replacement, and Unpaid Labor, Less Land Return.	$507.76/acre	$567.91/acre.
Trend Yields	2,500 lbs/acre	2,500 lbs/acre.
Adjusted Costs Per Pound.	$0.20310	$0.22716.
	Dollars Per st.	
Adjusted Costs Per st.	1990	1991.
	406.21	454.33.

COST ESCALATOR CALCULATIONS—Continued

Variable/component	1990 crop	1991 crop
	1992 Quota Calculations Dollars per st.	
Change During 1991 in the Average Cost of Producing Peanuts.	48.12	
Maximum Increase (5%).	32.14	
1992 Quota Support Level.	642.79+32.14=674.93	

Source: T&PAD/ASCS/USDA January 1992.

As indicated in the chart, which was derived form data of the USDA, Economic Research Service, relevant peanut production costs, as calculated in accordance with the statute, increased $48.12 per st, exceeding the maximum permitted 5-percent increase ($32.14 per st). The 1992-crop quota peanut price support level is accordingly established at $674.93 per st.

Additional Peanut Support Level

Section 108B(b)(1) of the 1949 Act, as amended, provides that price support shall be made available for additional peanuts at such level as the Secretary determines will ensure no losses to CCC from the sale or disposal of such peanuts, taking into consideration the demand for peanut oil and peanut meal, expected prices of other vegetable oils and protein meals, and the demand for peanuts in foreign markets.

The price support level for additional peanuts is established at $131.09 per st to assure no losses to CCC from the sale or disposal of such peanuts. It reflects the average 1991 soybean oil and meal price equivalent of $192.24 per st less an estimated carrying cost of $61.15 per st on 1991 loan inventory. Peanuts pledged as collateral for a price support loan are sold to recover the loan and related costs. The $131.09 per st support level will provide a reasonable margin of error to prevent losses to the CCC on the sale and disposition of 1992-crop additional peanuts. Prior to making this determination, the following information was considered.

The domestic use of peanut oil during MY 1992 is forecast to be 100,500 st, down 20 percent from MY 1991 projected domestic use. MY 1992 peanut oil beginning stocks are expected to be 30,000 st, up 240 percent from MY 1991. MY 1992 peanut oil prices are expected to average 26.5 cents per pound, up 4.5 cents per pound from MY 1991 prices, but lagging well behind the average price of 45.5 cents per pound for MY 1990.

The domestic use of peanut meal during MY 1992 is forecast to be 65,000 st, down 19,500 st from MY 1991 projected domestic use. MY 1992 peanut meal beginning stocks are expected to be 5,000 st, up 11 percent from MY 1991. Peanut meal prices are expected to average $175.00 per st, up $2.50 per st from MY 1991 prices, but lagging behind the average price of $193.00 per st for MY 1990.

The average price for soybean oil for MY 1992 is forecast to be 19.0 cents per pound, unchanged from MY 1991. The domestic disappearance of soybean oil during MY 1992 is forecast to be 6,200,000 st, up less than 1 percent from projected MY 1991 domestic disappearance. MY 1992 soybean oil beginning stocks are expected to be 1,125,000 st, up 242,500 st from MY 1991.

The average price for cottonseed oil for MY 1992 is forecast to be 18.75 cents per pound, up 0.25 cents per pound from MY 1991. The domestic disappearance of cottonseed oil during MY 1992 is forecast to be 505,000 st, up 7 percent from projected MY 1991 domestic disappearance. MY 1992 cottonseed oil beginning stocks are expected to be 80,000 st, up 12,000 st from MY 1991.

The average soybean meal price for MY 1992 is forecast to be $170.00 per st, down $2.50 per st from MY 1991. The domestic disappearance of soybean meal during MY 1992 is forecast to be 23,300,000 st, down 1 percent from projected MY 1991 domestic disappearance. MY 1992 soybean meal beginning stocks are expected to be 300,000 st, up 15,000 st from MY 1991.

The average cottonseed meal price for MY 1992 is forecast to be $140.00 per st, down $5.00 per st from MY 1991. The domestic disappearance of cottonseed meal during MY 1991 is forecast to be 1,845,000 st, up 4 percent from projected MY 1991 domestic disappearance. MY 1992 cottonseed meal beginning stocks are expected to be 75,000 st, down 20 percent from MY 1991.

The world use of peanuts for MY 1991 is expected to be 23.03 million metric tons, up 0.5 percent from MY 1990. World peanut production for MY 1991 is forecast to be a record 23.51 million metric tons, up 3 percent from MY 1990. Ending stocks for MY 1991 are forecast at 0.75 million metric tons, up 63 percent from MY 1990.

Minimum CCC Sales Price for Additional Peanuts Sold for Export Edible Use

The announcement of a minimum price at which additional peanuts owned or controlled by CCC may be sold for use as edible peanuts in export markets is announced at the same time that the quota and additional peanut support level are announced. Thus, producers and handlers have information to facilitate the negotiation of private contracts for the sale of additional peanuts.

An overly high price may create an unrealistic expectation of high pool dividends and discourage private sales. If too low, the price could unnecessarily adversely affect prices paid to producers for additional peanuts.

The minimum price at which 1992-crop additional peanuts owned or controlled by CCC may be sold for use as edible peanuts in export markets is established at $400 per st. This level will provide price stability for additional peanuts sold under contract and provide some assurance to handlers that CCC will not undercut the handlers' export contracting efforts by offerings of additional peanuts for export edible sale below the historic minimum sales price.

List of Subjects

7 CFR Part 729

Poundage quotas, Peanuts, Reporting and recordkeeping requirements.

7 CFR Part 1421

Loan programs—Agriculture, Peanuts, Price support programs, Reporting and recordkeeping requirements, Warehouses.

Accordingly, 7 CFR parts 729 and 1421 are amended as follows:

PART 729—[AMENDED]

1. The authority citation for 7 CFR part 729 continues to read as follows:

Authority: 7 U.S.C. 1301, 1357 et seq., 1372, 1373, 1375; 7 U.S.C. 1445c–3.

2. Part 729, subpart B, is amended by adding a new section, § 729.214, to read as follows:

§ 729.214 National poundage quota.

(a) The national poundage quota for quota peanuts for marketing year 1991 is 1,550,000 short tons.

(b) The national poundage quota for quota peanuts for marketing year 1992 is 1,540,000 short tons.

PART 1421—[AMENDED]

3. The authority citation for part 1421 continues to read as follows:

Authority: 7 U.S.C. 1421, 1423, 1425, 1441z, 1444f–1, 1445b–3a, 1445e, and 1446f; 15 U.S.C. 714b and 714c.

4. Section 1421.7 is amended by revising paragraph (c)(8) to read as follows:

§ 1421.7 Adjustment of basic support rates.

* * * * *

(c) * * *

(8)(i) 1991 Peanuts, Quota—$642.79 per short ton; Additional—$149.75 per short ton;

(ii) 1992 Peanuts, Quota—$674.93 per short ton; Additional—$131.09 per short ton;

* * * * *

5. Section 1421.27(a)(2) (i) and (ii) is added to read as follows:

§ 1421.27 Producer-handler purchases of additional peanuts pledged as collateral for a loan.

(a)(1) * * *

(2) * * *

(i) The 1991 minimum CCC sales price for additional peanuts sold for export edible use is $400 per short ton;

(ii) The 1992 minimum CCC sales price for additional peanuts sold for export edible use is $400 per short ton.

FEDERAL RESERVE SYSTEM

12 CFR Part 230

[Regulation DD; Docket No. R-0753]

Truth in Savings; Correction

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Correction to final regulations.

SUMMARY: This document contains corrections to Regulation DD (Docket No. R-0753) published September 21, 1992 (57 FR 43337). The regulation implements the Truth in Savings Act, which requires depository institutions to disclose fees, interest rates and other terms concerning deposit accounts, and limits the methods by which institutions determine the balance on which interest is calculated.

EFFECTIVE DATE: September 21, 1992.

FOR FURTHER INFORMATION CONTACT: Leonard Chanin, Senior Attorney, or Jane Ahrens, Kurt Schumacher, or Mary Jane Seebach, Staff Attorneys (202/736-5500), Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System. For the hearing impaired *only*, Telecommunications Device for the Deaf (TDD), Dorothea Thompson (202/452-3544), Board of Governors of the Federal Reserve System, 20th and C Streets, NW., Washington, DC 20551.

SUPPLEMENTARY INFORMATION:

Background

Regulation DD, which is the subject of these corrections, implements the Truth in Savings Act (12 U.S.C. 4301 *et seq.*, contained in the Federal Deposit Insurance Corporation Improvement Act of 1991, Pub. L. 102-242, 105 Stat. 2236).

Need for Correction

As published, the final regulation contains two drafting errors that may be confusing and should be clarified. Several minor typographical errors in the regulation appeared and are being corrected. Errors in the supplementary information that may be confusing are also being corrected at this time.

Correction of Publication

For the reasons set forth in the preamble, the publication on September 21, 1992 of the final regulations (Docket No. R-0753), which were the subject of FR Doc. 92-22478, is corrected as follows:

1. On page 43353, in the third column, in Paragraph (b)(6)(iii)—Withdrawal of interest prior to maturity, first sentence, the word "account" is corrected to read "amount".

2. On page 43362, in the third column, in Paragraph (a)(4)--Length of period, third paragraph, second sentence, the phrase "both April 30" is corrected to read "both April 1 and April 30".

3. On page 43371, in the third column, in Appendix A, Part I, B. Stepped-rate accounts (different rates apply in succeeding periods), second sentence, the word "but" is corrected to read "that".

4. On page 43372, in the second column, in Appendix A, Part I, D. Tiered-rate accounts (different rates apply to specified balance levels), Tiering Method A, second paragraph, third line from the top of the column, the word "within" is corrected to read "with".

PART 230 [CORRECTED]

§ 230.6 [Corrected]

5. On page 43379, in the second column, in § 230.6(a)(3), in the fourth and fifth lines, the words "dollar amounts of the" are removed.

Appendix A [Corrected]

6. On page 43380, in the second column, in Appendix A, introductory text, in the tenth line, the word "percentages" is corrected to read "percentage".

7. On page 43382, first column, in Appendix A, Part II, example (2), in the 16th line, the figure "6.69%" is corrected to read "5.40%".

8. On page 43382, first column, in Appendix A, Part II, example (2), in the equation in the last line, the figure "6.69%" is corrected to read "5.40%".

Appendix B [Corrected]

9. On page 43382, second column, in Appendix B, B-1 (a)(ii), under Limitations on Rate Changes, fourth line, the word "by" is corrected to read "be".

10. On page 43383, first column, in Appendix B, B-1 (f), Fees, the clause is corrected to read as follows:

* * * * *

(f) * * *

The following fees may be assessed against your account:

_____ $_____

_____ $_____

_____ $_____

_____ *(conditions for imposing fee)* $_____

_____ %

of _____.

* * * * *

By order of the Board of Governors of the Federal Reserve System, October 5, 1992.

FARM CREDIT ADMINISTRATION

12 CFR Parts 611, 615 and 627

RIN 3052-AA92

Organization; Funding and Fiscal Affairs, Loan Policies and Operations, and Funding Operations; Title V Conservators and Receivers

AGENCY: Farm Credit Administration.

ACTION: Final rule.

SUMMARY: The Farm Credit Administration (FCA), by the Farm Credit Administration Board (Board), adopts final regulations governing conservatorships and receiverships for which the Farm Credit System Insurance Corporation (Insurance Corporation) is appointed as conservator or receiver. These regulations were published as proposed regulations on June 3, 1992, 57 FR 23348. The final regulations reflect

amendments to the Farm Credit Act of 1971 by the Agricultural Credit Act of 1987 providing that, after January 5, 1993, the Insurance Corporation will be the exclusive entity appointed as conservator or receiver of a Farm Credit System institution (System institution or Farm Credit institution). Also adopted are amendments to existing conservatorship and receivership regulations, which continue to apply in situations where the Insurance Corporation is not appointed as conservator or receiver.

EFFECTIVE DATE: The regulations shall become effective upon the expiration of 30 days after publication during which either or both houses of Congress are in session. Notice of the effective date will be published in the **Federal Register.**

FOR FURTHER INFORMATION CONTACT:
Rebecca S. Orlich, Senior Attorney, Office of General Counsel, Farm Credit Administration, McLean, VA 22102–5090, (703) 883–4020, TDD (703) 883–4444,

or

John J. Hays, Policy Analyst, Regulation Development Division, Office of Examination, Farm Credit Administration, McLean, VA 22102–5090, (703) 883–4498, TDD (703) 883–4444.

SUPPLEMENTARY INFORMATION:

I. General

The Agricultural Credit Act of 1987 (Pub. L. 100–233) (1987 Act) amended the Farm Credit Act of 1971 (Act) by adding a new title V which provided for the establishment of the Insurance Corporation. New sections 5.51(5) and 5.58(9) of the Act empower the Insurance Corporation to act as conservator or receiver. The 1987 Act also amended section 4.12(b) of the Act to provide that, after January 5, 1993, the Insurance Corporation will be the exclusive entity to be appointed by the FCA as conservator or receiver of a System institution. In new part 627, the Board sets forth the powers and duties of the Insurance Corporation when it acts as conservator or receiver of a System institution. Other conservators or receivers will continue to be governed by the existing provisions in part 611, subparts K, L, M, and N of the regulations, as amended.

The Board's decision to promulgate separate regulations for conservatorships and receiverships for which the Insurance Corporation is the conservator or receiver is based on fundamental differences between the Insurance Corporation and other persons or entities that have previously been appointed to the position. The primary difference is that the Insurance Corporation is a Federal agency in its own right. Thus, provisions pertaining to the status of other conservators or receivers as agents of the FCA are unnecessary for the Insurance Corporation. In addition, the Board believes that retention of a Farm Credit charter by an institution for which the Insurance Corporation acts as receiver is no longer necessary in all circumstances and has provided that the Board may, in its discretion, cancel the charter at the commencement of such receivership or at any time thereafter. Finally, most of the provisions relating to FCA supervisory involvement have been removed. For a full discussion of these matters, see 57 FR 23348 (June 3, 1992).

II. Discussion of Comments

The FCA received comments from the Farm Credit Council (FCC) on behalf of its member System institutions, and from two Farm Credit Banks (FCBs). The FCBs' comments consisted of statements of support for the FCC's comments. Their comments are discussed below.

A. Definition of "Farm Credit institution"

The FCC objected to the inclusion of the Federal Farm Credit Banks Funding Corporation (Funding Corporation), the Farm Credit System Financial Assistance Corporation (FAC), and the Federal Agricultural Mortgage Corporation (Farmer Mac) in the definition of "Farm Credit institution" in proposed § 627.2705(b) for purposes of applying the conservatorship and receivership regulations. These institutions are also included in the definition of "bank" in existing regulation § 611.1170(h) of this chapter. The FCC questioned the appropriateness of applying the receivership procedures to these institutions on the ground that such institutions are "congressionally established."

The FCA Board agrees with the FCC that the institutions were either established by Congress, in the case of the Funding Corporation and Farmer Mac, or chartered by the FCA pursuant to congressional mandate, in the case of the FAC. All the institutions are, however, designated by statute as "institution[s] of the Farm Credit System." See sections 4.9(a), 6.20, and 8.1(a) (1) of the Act. Section 4.12(b) of the Act empowers the FCA Board to "appoint a conservator or receiver for any *System institution*" (emphasis added) if one or more specified grounds exist, and the FCA's power to appoint is exclusive. Should a System institution become insolvent or should any other ground for appointment of a conservator or receiver arise, only the FCA can appoint a conservator or receiver. There is no distinction made in the application of section 4.12(b) on the basis of how a System institution was created. Therefore, unless some other provision of the Act provides for a different treatment, the three institutions in question should be subject to section 4.12(b) and to the conservatorship and receivership regulations.

The provisions pertaining to the FCA's authority to regulate Farmer Mac are in title VIII of the Act. This title was amended by the Food, Agriculture, Conservation and Trade Act Amendments of 1991 (1991 Amendments) (Pub. L. 102–237) to establish a regulatory scheme of FCA examination and supervision through the Office of Secondary Market Oversight (OSMO). New section 8.11(a) provides that the FCA shall act through OSMO to examine, supervise, and promulgate rules and regulations for Farmer Mac, and new section 8.37(b)(6) authorizes the Director of OSMO to "[a]ppoint a conservator for [Farmer Mac] consistent with this Act." [1] Furthermore, section 8.3(c)(6), which was enacted in 1988, provides that Farmer Mac shall "have succession until dissolved by a law enacted by the Congress." Therefore, it appears that the Act gives the FCA, acting through the OSMO Director, power to appoint a conservator but does not permit the FCA to place Farmer Mac in receivership. The FCA would appoint a receiver only if Congress enacts a new law directing or authorizing the agency to take such action. Consequently, the receivership regulations would be inapplicable to Farmer Mac.

In addition, the Board has determined that the conservatorship regulations adopted here today should not be applicable to Farmer Mac but should be addressed separately. The Board has therefore removed Farmer Mac from the definitions of "bank" and "Farm Credit institution" in the final regulations.

There is no other provision of the Act that specifically addresses the appointment of a conservator or receiver for the Funding Corporation or the FAC. Accordingly, it is the Board's view that section 4.12(b) applies to them and that these regulations should likewise be

[1] The FCA interprets "consistent with this Act" to mean that relevant provisions of section 4.12 apply—such as, for example, the provision that an institution has a right to challenge the appointment of a conservator, or the requirement that the Insurance Corporation be appointed to act as conservator.

applicable.[2] Therefore, the final regulations include the Funding Corporation and the FAC in the definitions of "bank" and "Farm Credit institution."

The FCA Board is aware of the special statutory origin of the Funding Corporation and the FAC. Should one or more of the grounds for appointment of a conservator or receiver ever arise at one of the institutions, the Board would not anticipate taking any action without full consideration of such institution's special status and consultation with appropriate parties. The Board notes that the nature of the operational activities of these two institutions makes it extremely unlikely that either would ever be placed in receivership, but should that occur, there should be some mechanism for winding up the affairs of the institutions. Also, when the FAC terminates its existence, it may be necessary to place the corporation in receivership to wind up its affairs. When and if any of these events occur, it should be the FCA that places them in receivership and the Insurance Corporation that acts as receiver.

B. Consultation With District Bank Before Voluntary Liquidation of Association

Section 627.2720 of the proposed regulations did not contain a requirement that the FCA consult with the district FCB before placing an association in voluntary receivership, as is currently required in § 611.1160(a) of this chapter. The FCC requested that the consultation requirement be added to new part 627, reasoning that the FCA would and should want to know the views of the association's largest creditor and bank, in light of the potential impact of the liquidation on the FCB itself and the other association stockholders in the district. The FCC also stated that, if the district FCB did not have the opportunity to express its views to the FCA prior to the liquidation, it seemed unreasonable and unworkable to expect the FCB to fulfill its statutory and regulatory requirement to "institute appropriate measures to minimize the adverse effect of the liquidation on those borrowers whose loans are purchased by or otherwise transferred to another System institution" (section 4.12(a) of the Act).

The Board does not agree that it is "unreasonable and unworkable" to expect an FCB to fulfill its statutory duties if the FCB has not been consulted. The Board notes, however, that because the FCA would also be concerned about minimizing the adverse effects of a liquidation, the FCA would ordinarily be in contact with a district bank before approving an association's proposed voluntary liquidation. Although the Board does not believe it is necessary to place a consultation requirement in the regulations, in light of the FCC's concerns a provision has been added in § 627.2720(a) that the FCA may, in its discretion, consult with the district bank prior to approving a voluntary liquidation of an association.

The discretionary consultation provision should not, however, be construed as granting an FCB any right to prevent an association's proposed liquidation. Rather, the consultation would provide the FCA with additional information with which to decide whether to approve the liquidation and, if it is approved, how to arrange for continued Farm Credit service in the territory.

The FCC also requested the addition in part 627 of another provision of existing regulations that permits the board of directors of an institution in receivership, at the discretion of the FCA Board, to remain in office during the receivership to provide advice and recommendations to the receiver during the liquidation. The Board has decided not to add this provision to part 627 because it believes that the issue is now more appropriately the concern of the Insurance Corporation when it acts as receiver.

C. Cancellation of the Charter of an Institution in Receivership

The FCC questioned the appropriateness of canceling the charter of an institution at the commencement of a receivership, rather than at the end as is currently the practice. The FCC asserted that the charter cancellation "needlessly clouds" the issue of whether the institution has standing to challenge the imposition of an involuntary receivership.

The FCA Board does not believe that cancellation of the charter places any cloud on the right of the institution to bring an action, within 30 days after the appointment of a receiver, for an order requiring the FCA Board to remove the receiver. This right is expressly granted by section 4.12(b) of the Act, and no valid regulation can have the effect of overriding a statutory requirement.

However, the Board has determined that it will consider the merits of cancellation of the charter at the commencement of each receivership on a case-by-case basis. The Board expects that, ordinarily, the charter would be canceled when the Insurance Corporation is appointed as receiver. If circumstances indicate that there would be a benefit to retaining the charter of a specific institution for a period of time after the appointment of the receiver, the Board will have the flexibility to so provide. Therefore, the Board is adopting a provision that the Board may, in its discretion, cancel the charter of an institution in receivership at any time after the Insurance Corporation is appointed as receiver.

D. Ongoing and Future Credit Needs of Eligible Borrowers

The FCC requested that the Board clarify in the final regulations how the ongoing and future credit needs of eligible borrowers will be met in the territory formerly served by an association in liquidation. The Board has decided not to revise the proposed regulations in response to this comment because it believes that the organizational differences among districts are too numerous and the credit needs of eligible borrowers throughout the country are too various to address this issue through regulations. Thus, future credit needs will necessarily be addressed on a case-by-case basis.

List of Subjects

12 CFR Part 611

Agriculture, Banks, Banking, Rural areas.

12 CFR Part 615

Accounting, Agriculture, Banks, Banking, Government securities, Investments, Rural areas.

12 CFR Part 627

Agriculture, Banks, Banking, Claims, Rural areas.

For the reasons set forth in the preamble, parts 627, 611, and 615 of chapter VI, title 12 of the Code of Federal Regulations are added and amended, respectively, as follows:

1. A new part 627 is added to read as follows:

PART 627—TITLE V CONSERVATORS AND RECEIVERS

Subpart A—General

Sec.

627.2700 General—applicability.
627.2705 Definitions.
627.2710 [Reserved]
627.2715 Action for removal of conservator or receiver.

Subpart B—Receivers and Receiverships

627.2720 Appointment of receiver.

[2] The FCA interprets the FAC termination provision in section 6.31 of the Act to set a time after which the FAC authorities are extinguished, not to prohibit the placing of the institution in conservatorship or receivership.

627.2725 Powers and duties of the receiver.
627.2730 Preservation of equity.
627.2735 Notice to holders of uninsured accounts and stockholders.
627.2740 Creditors' claims.
627.2745 Priority of claims—associations.
627.2750 Priority of claims—banks.
627.2752 Priority of claims—other Farm Credit institutions.
627.2755 Payment of claims.
627.2760 Inventory, audit, and reports.
627.2765 Final discharge and release of the receiver.

Subpart C—Conservators and Conservatorships

627.2770 Conservators.
627.2775 Appointment of a conservator.
627.2780 Powers and duties of conservators.
627.2785 Inventory, examination, audit, and reports to stockholders.
627.2790 Final discharge and release of the conservator.

Authority: Secs. 4.2, 5.9, 5.10, 5.17, 5.51, 5.58 of the Farm Credit Act; 12 U.S.C. 2183, 2243, 2244, 2252, 2277a, 2277a–7.

Subpart A—General

§ 627.2700 General—applicability.

The provisions of this part shall apply to conservatorships and receiverships of Farm Credit institutions for which the Farm Credit System Insurance Corporation is appointed as conservator or receiver.

§ 627.2705 Definitions.

For purposes of this part the following definitions apply:

(a) *Act* means the Farm Credit Act of 1971, as amended.

(b) *Farm Credit institution(s)* or *institution(s)* means all associations, banks, service corporations chartered under title IV of the Act, the Federal Farm Credit Banks Funding Corporation, and the Farm Credit System Financial Assistance Corporation.

(c) *Conservator* means the Farm Credit System Insurance Corporation acting in its capacity as conservator.

(d) *Insurance Corporation* means the Farm Credit System Insurance Corporation.

(e) *Receiver* means the Insurance Corporation acting in its capacity as receiver.

§ 627.2710 [Reserved]

§ 627.2715 Action for removal of conservator or receiver.

Upon the appointment of a conservator or receiver for a Farm Credit institution by the Farm Credit Administration Board pursuant to § 627.2710 of this part, the institution may, within 30 days of such appointment, bring an action in the United States District Court for the judicial district in which the home office of the institution is located, or in the United States District Court for the District of Columbia, for an order requiring the Farm Credit Administration Board to remove such conservator or receiver and, if the charter has been canceled, to rescind the cancellation of the charter. Notwithstanding any other provision of subpart B or C of this part, the institution's board of directors is empowered to meet subsequent to such appointment and authorize the filing of an action for removal. An action for removal may be authorized only by such institution's board of directors.

Subpart B—Receivers and Receiverships

§ 627.2720 Appointment of receiver.

(a) The board of directors of a Farm Credit institution, by the adoption of an appropriate resolution, may vote to liquidate the institution, and upon approval of the resolution by the Farm Credit Administration Board, the Board may, by order, place the Farm Credit institution in receivership. If the institution seeking to liquidate is an association, the Farm Credit Administration may, in its discretion, consult with the district bank prior to approving the association's resolution to liquidate.

(b) The Farm Credit Administration Board may, in its discretion, appoint ex parte and without notice a receiver for any Farm Credit institution in accordance with the grounds for appointment set forth in § 627.2710 of this part.

(c) The voluntary or involuntary liquidation of a Farm Credit institution shall be conducted by the receiver. After January 5, 1993, the Insurance Corporation shall be the sole entity to be appointed as receiver.

(d) Upon the appointment of the Insurance Corporation as receiver, the Chairman of the Farm Credit Administration Board shall immediately notify the institution, and its district bank in the case of an association, and shall publish a notice of the appointment in the **Federal Register.**

(e) In the case of the voluntary or involuntary liquidation of an association, the district bank shall institute appropriate measures to minimize the adverse effect of the liquidation on those borrowers whose loans are purchased by or otherwise transferred to another System institution.

(f) Upon the issuance of the order placing a Farm Credit institution into liquidation and appointing the Insurance Corporation as receiver, all rights, privileges, and powers of the board of directors, officers, and employees of the institution shall be vested exclusively in the receiver. The Farm Credit Administration Board may simultaneously, or any time thereafter, cancel the charter of the institution.

§ 627.2725 Powers and duties of the receiver.

(a) *General.* (1) Upon appointment as receiver, the receiver shall take possession of a Farm Credit institution pursuant to 12 U.S.C. 2183 and § 627.2710 of this part in order to wind up the business operations of such institution, collect the debts owed to the institution, liquidate its property and assets, pay its creditors, and distribute the remaining proceeds to stockholders. The receiver is authorized to exercise all powers necessary to the efficient termination of an institution's operation as provided for in this subpart.

(2) Upon its appointment as receiver, the receiver automatically succeeds to—

(i) All rights, titles, powers and privileges of the institution and of any stockholder, officer, or director of such institution with respect to the institution and the assets of the institution; and

(ii) Title to the books, records, and assets of any previous conservator or other legal custodian of such institution.

(3) The receiver of a Farm Credit institution serves as the trustee of the receivership estate and conducts its operations for the benefit of the creditors and stockholders of the institution.

(b) *Specific powers.* The receiver may:

(1) Exercise all powers as are conferred upon the officers and directors of the institution under law and the charter, articles, and bylaws of the institution.

(2) Take any action the receiver considers appropriate or expedient to carry on the business of the institution during the process of liquidating its assets and winding up its affairs.

(3) Extend credit to existing borrowers as necessary to honor existing commitments and to effectuate the purposes of the receivership.

(4) Borrow such sums as necessary to effectuate the purposes of the receivership.

(5) Pay any sum the receiver deems necessary or advisable to preserve, conserve, or protect the institution's assets or property or rehabilitate or improve such property and assets.

(6) Pay any sum the receiver deems necessary or advisable to preserve, conserve, or protect any asset or property on which the institution has a lien or in which the institution has a

financial or property interest, and pay off and discharge any liens, claims, or charges of any nature against such property.

(7) Investigate any matter related to the conduct of the business of the institution, including, but not limited to, any claim of the institution against any individual or entity, and institute appropriate legal or other proceedings to prosecute such claims.

(8) Institute, prosecute, maintain, defend, intervene, and otherwise participate in any legal proceeding by or against the institution or in which the institution or its creditors or members have any interest, and represent in every way the institution, its members, and creditors.

(9) Employ attorneys, accountants, appraisers, and other professionals to give advice and assistance to the receivership generally or on particular matters, and pay their retainers, compensation, and expenses, including litigation costs.

(10) Hire any agents or employees necessary for proper administration of the receivership.

(11) Execute, acknowledge, and deliver, in person or through a general or specific delegation, any instrument necessary for any authorized purpose, and any instrument executed under this paragraph shall be valid and effective as if it had been executed by the institution's officers by authority of its board of directors.

(12) Sell for cash or otherwise any mortgage, deed of trust, chose in action, note contract, judgment or decree, stock, or debt owed to the institution, or any property (real or personal, tangible or intangible).

(13) Purchase or lease office space, automobiles, furniture, equipment, and supplies, and purchase insurance, professional, and technical services necessary for the conduct of the receivership.

(14) Release any assets or property of any nature, regardless of whether the subject of pending litigation, and repudiate, with cause, any lease or executory contract the receiver considers burdensome.

(15) Settle, release, or obtain release of, for cash or other consideration, claims and demands against or in favor of the institution or receiver.

(16) Pay, out of the assets of the institution, all expenses of the receivership and all costs of carrying out or exercising the rights, powers, privileges, and duties as receiver.

(17) Pay out of the assets of the institution all approved claims of indebtedness in accordance with priorities established in this subpart.

(18) Take all actions and have such rights, powers, and privileges as are necessary and incident to the exercise of any specific power.

(19) Take such actions, and have such additional rights, powers, privileges, immunities, and duties as the Farm Credit Administration Board authorizes by order or by amendment of any order or by regulation.

(c) *Authority to pay claims.* The receiver of a bank is also empowered to pay claims of holders of notes, bonds, debentures, or other obligations issued by the bank under 12 U.S.C. 2153(c) or (d) in accordance with procedures specified by the Insurance Corporation pursuant to § 627.2740(d) of this part.

§ 627.2730 Preservation of equity.

(a) Except as provided for upon final distribution of the assets of the institution, no capital stock, participation certificates, equity reserves, or other allocated equities of an institution in receivership shall be issued, allocated, retired, sold, distributed, transferred, assigned, or applied against any indebtedness of the owners of such equities.

(b) Immediately upon the adoption of a resolution by its board of directors to liquidate voluntarily the institution, the capital stock, participation certificates, equity reserves, and allocated equities of the institution shall not be issued, allocated, retired, sold, distributed, transferred, assigned, or applied against any indebtedness of the owners of such equities until such time as the stockholders of the institution or the Farm Credit Administration Board disapproves such resolution. In the event the resolution is approved by the stockholders of the institution and the Farm Credit Administration Board, and the institution is placed in receivership, the provisions of paragraph (a) of this section shall govern further disposition of the equities of the institution.

(c) Notwithstanding paragraphs (a) and (b) of this section, eligible borrower stock shall be retired in accordance with section 4.9A of the Act.

§ 627.2735 Notice to holders of uninsured accounts and stockholders.

(a) Upon the placing of an institution in liquidation, the receiver shall immediately notify every borrower who has an uninsured account (voluntary or involuntary) as described in § 614.4513 of this chapter that the funds ceased earning interest when the receivership was instituted and will be applied against the outstanding indebtedness of any loans of such borrower unless, within 15 days of such notice, the borrower directs the receiver to otherwise apply such funds in the manner provided for in existing loan documents.

(b) As soon as practicable after the receiver takes possession of the institution, the receiver shall notify, by first class mail, each holder of stock and participation certificates of the following matters:

(1) The number of shares such holder owns;

(2) That the stock and other equities of the institution may not be retired or transferred until the liquidation is completed, whereupon the receiver will distribute a liquidating dividend, if any, to the owners of such equities; and

(3) Such other matters as the receiver or the Farm Credit Administration deems necessary.

§ 627.2740 Creditors' claims.

(a) The receiver shall publish promptly a notice to creditors to present their claims against the institution, with proof thereof, to the receiver by a date specified in the notice, which shall be not less than 90 calendar days after the first publication. The notice shall be republished approximately 30 days and 60 days after the first publication. The receiver shall promptly send, by first class mail, a similar notice to any creditor shown on the institution's books at the creditor's last address appearing thereon. Claims filed after the specified date shall be disallowed, except as the receiver may approve them for full or partial payment from the institution's assets remaining undistributed at the time of approval.

(b) The receiver shall allow any claim that is timely received and proved to the receiver's satisfaction. The receiver may disallow in whole or in part any creditor's claim or claim of security, preference, or priority which is not proved to the receiver's satisfaction or is not timely received and shall notify the claimant of the disallowance and reason therefor. Sending the notice of disallowance by first class mail to the claimant's address appearing on the proof of claim shall be sufficient notice. The disallowance shall be final, unless, within 30 days after the notice of disallowance is mailed, the claimant files a written request for payment regardless of the disallowance. The receiver shall reconsider any claim upon the timely request of the claimant and may approve or disapprove such claim in whole or in part.

(c) Creditors' claims that are allowed shall be paid by the receiver from time to time, to the extent funds are available therefor and in accordance with the priorities established in this subpart and

in such manner and amounts as the receiver deems appropriate. In the event the institution has a claim against a creditor of the institution, the receiver shall offset the amount of such claim against the claim asserted by such creditor.

(d) The claims of holders of notes, bonds, debentures, or other obligations issued by a bank under 12 U.S.C. 2153 (c) or (d) shall be made, if deemed necessary or appropriate, in accordance with procedures formulated by the Insurance Corporation. In the formulation of such procedures, the Insurance Corporation shall consult with the Farm Credit Administration.

§ 627.2745 Priority of claims—associations.

The following priority of claims shall apply to the distribution of the assets of an association in liquidation:

(a) All costs, expenses, and debts incurred by the receiver in connection with the administration of the receivership.

(b) Administrative expenses of the association, provided that such expenses were incurred within 60 days prior to the receiver's taking possession, and that such expenses shall be limited to reasonable expenses incurred for services actually provided by accountants, attorneys, appraisers, examiners, or management companies, or reasonable expenses incurred by employees which were authorized and reimbursable under a pre-existing expense reimbursement policy, that, in the opinion of the receiver, are of benefit to the receivership, and shall not include wages or salaries of employees of the association.

(c) If authorized by the receiver, claims for wages and salaries, including vacation pay, earned prior to the appointment of the receiver by an employee of the association whom the receiver determines it is in the best interest of the receivership to engage or retain for a reasonable period of time.

(d) If authorized by the receiver, claims for wages and salaries, including vacation pay, earned prior to the appointment of the receiver, up to a maximum of three thousand dollars ($3,000) per person as adjusted for inflation, by an employee of the association not engaged or retained by the receiver. The adjustment for inflation shall be the percentage by which the Consumer Price Index (as prepared by the Department of Labor) for the calendar year preceding the appointment of the receiver exceeds the Consumer Price Index for the calendar year 1992.

(e) All claims for taxes.

(f) All claims of creditors, including the district bank, which are secured by assets or equities of the association in accordance with applicable Federal or State law.

(g) All claims of the district bank other than those provided for in paragraph (f) of this section, based on the financing agreement between the association and the bank, including interest accrued before and after the appointment of the receiver, minus any setoff for stock or other equity of the district bank owned by the association made in accordance with this paragraph or paragraph (f) of this section. Prior to making such setoff, the district bank must obtain the approval of the Farm Credit Administration Board for the retirement of such equities.

(h) All claims of general creditors.

§ 627.2750 Priority of claims—banks.

The following priority of claims shall apply to the distribution of the assets of a bank in liquidation:

(a) All costs, expenses, and debts incurred by the receiver in connection with the administration of the receivership.

(b) Administrative expenses of the bank, provided that such expenses were incurred within 60 days prior to the receiver's taking possession, and that such expenses shall be limited to reasonable expenses incurred for services actually provided by accountants, attorneys, appraisers, examiners, or management companies, or reasonable expenses incurred by employees which were authorized and reimbursable under a pre-existing expense reimbursement policy, that, in the opinion of the receiver, are of benefit to the receivership, and shall not include wages or salaries of employees of the bank.

(c) If authorized by the receiver, claims for wages and salaries, including vacation pay, earned prior to the appointment of the receiver by an employee of the bank whom the receiver determines it is in the best interest of the receivership to engage or retain for a reasonable period of time.

(d) If authorized by the receiver, claims for wages and salaries, including vacation pay, earned prior to the appointment of the receiver, up to a maximum of three thousand dollars ($3,000) per person as adjusted for inflation, by an employee of the bank not engaged or retained by the receiver. The adjustment for inflation shall be the percentage by which the Consumer Price Index (as prepared by the Department of Labor) for the calendar year preceding the appointment of the receiver exceeds the Consumer Price Index for the calendar year 1992.

(e) All claims for taxes.

(f) All claims of creditors which are secured by specific assets or equities of the bank, with priority of conflicting claims of creditors within this same class to be determined in accordance with priorities of applicable Federal or State law.

(g) All claims of holders of bonds issued by the bank individually to the extent such are collateralized in accordance with 12 U.S.C. 2154.

(h) All claims of holders of consolidated and Systemwide bonds and claims of the other Farm Credit banks arising from their payments pursuant to 12 U.S.C. 2155.

(i) All claims of general creditors.

§ 627.2752 Priority of claims—other Farm Credit institutions.

The following priority of claims shall apply to the distribution of the assets of an institution, other than a bank or association, in liquidation:

(a) All costs, expenses, and debts incurred by the receiver in connection with the administration of the receivership.

(b) Administrative expenses of the institution, provided that such expenses were incurred within 60 days prior to the receiver's taking possession, and that such expenses shall be limited to reasonable expenses incurred for services actually provided by accountants, attorneys, appraisers, examiners, or management companies, or reasonable expenses incurred by employees which were authorized and reimbursable under a pre-existing expense reimbursement policy, that, in the opinion of the receiver, are of benefit to the receivership, and shall not include wages or salaries of employees of the institution.

(c) If authorized by the receiver, claims for wages and salaries, including vacation pay, earned prior to the appointment of the receiver by an employee of the institution whom the receiver determines it is in the best interest of the receivership to engage or retain for a reasonable period of time.

(d) If authorized by the receiver, claims for wages and salaries, including vacation pay, earned prior to the appointment of the receiver, up to a maximum of three thousand dollars ($3,000) per person as adjusted for inflation, by an employee of the institution not engaged or retained by the receiver. The adjustment for inflation shall be the percentage by which the Consumer Price Index (as prepared by the Department of Labor)

for the calendar year preceding the appointment of the receiver exceeds the Consumer Price Index for the calendar year 1992.

(e) All claims for taxes.

(f) All claims of creditors which are secured by specific assets or equities of the institution, with priority of conflicting claims of creditors within this same class to be determined in accordance with priorities of applicable Federal or State law.

(g) All claims of general creditors.

§ 627.2755 Payment of claims.

(a) All claims of each class described in § 627.2745, § 627.2750, or § 627.2752 of this part, respectively, shall be paid in full, or provisions shall be made for such payment, prior to the payment of any claim of a lesser priority. If there are insufficient funds to pay in full any class of claims described in § 627.2745, distribution on such class shall be on a pro rata basis.

(b) Following the payment of all claims, the receiver shall distribute the remainder of the assets of the institution to the owners of stock, participation certificates, and other equities in accordance with the priorities for impairment set forth in the bylaws of the institution.

(c) Notwithstanding this section, eligible borrower stock shall be retired in accordance with section 4.9A of the Act.

§ 627.2760 Inventory, audit, and reports.

(a) As soon as practicable after taking possession of an institution, the receiver shall make an inventory of the assets and liabilities as of the date possession was taken.

(b) The institution in receivership shall be audited on an annual basis by a certified public accountant selected by the receiver.

(c) With respect to each receivership, the receiver shall make an annual accounting or report, as appropriate, available upon request to any stockholder of the institution in receivership or any member of the public, with a copy provided to the Farm Credit Administration.

(d) Upon the final liquidation of the institution, the receiver shall send to each stockholder of record a report summarizing the disposition of the assets of the receivership and claims against the receivership.

§ 627.2765 Final discharge and release of the receiver.

After the receiver has made a final distribution of the assets of the receivership, the receivership shall be terminated, the charter shall be canceled by the Farm Credit Administration Board if such cancellation has not previously occurred, and the receiver shall be finally discharged and released.

Subpart C—Conservators and Conservatorships

§ 627.2770 Conservators.

(a) The Insurance Corporation shall be appointed as conservator by the Farm Credit Administration Board pursuant to section 4.12 of the Act and § 627.2710 of this part to take possession of an institution in accordance with the terms of the appointment. Upon appointment, the conservator shall direct the institution's further operation until the Farm Credit Administration Board decides whether to place the institution into receivership. Upon correction or resolution of the problem or condition that provided the basis for the appointment and upon a determination by the Farm Credit Administration Board that the institution can be returned to normal operations, the Farm Credit Administration Board may turn the institution over to such management as the Farm Credit Administration Board may direct.

(b) The conservator shall exercise all powers necessary to continue the ongoing operations of the institution, to conserve and preserve the institution's assets and property, and otherwise protect the interests of the institution, its stockholders, and creditors as provided in this subpart.

§ 627.2775 Appointment of a conservator.

(a) The Farm Credit Administration Board may appoint ex parte and without notice a conservator for any Farm Credit institution provided that one or more of the grounds for appointment as set forth in § 627.2710 exist.

(b) Upon the appointment of a conservator, the Chairman of the Farm Credit Administration shall immediately notify the institution and, in the case of an association, the district bank, and notice of the appointment shall be published in the **Federal Register**. As soon as practicable after the conservator takes possession of the institution, the conservator shall notify, by first class mail, each holder of stock and participation certificates in the institution of the establishment of the conservatorship and shall describe the effect of the conservatorship on the institution's operations and on the borrower's loan and equity holdings.

(c) Upon the issuance of the order placing a Farm Credit institution in conservatorship, all rights, privileges, and powers of the members, board of directors, officers, and employees of the institution are vested exclusively in the conservator.

(d) The conservator is responsible for conserving and preserving the assets of the institution and continuing the ongoing operations of the institution until the conservatorship is terminated by order of the Farm Credit Administration Board.

(e) The Board may, at any time, terminate the conservatorship and direct the conservator to turn over the institution's operations to such management as the Board may designate, in which event the provisions of this subpart shall no longer apply.

§ 627.2780 Powers and duties of conservators.

(a) The conservator of an institution serves as the trustee of the institution and conducts its operations for the benefit of the creditors and stockholders of the institution.

(b) The conservator may, with respect to Farm Credit institutions, exercise the powers that a receiver of an institution may exercise under any of the provisions of § 627.2725(b) of this part, except paragraphs § 627.2725 (b)(2) and (b)(17). In interpreting the applicable paragraphs for purposes of this section, the terms "conservator" and "conservatorship" shall be read for "receiver" and "receivership."

(c) The conservator may extend credit to new and existing borrowers as is necessary to the continuing operation of the institution and to effectuate the purposes of the conservatorship.

(d) The conservator may also take any other action the conservator considers appropriate or expedient to the continuing operation of the institution.

§ 627.2785 Inventory, examination, audit, and reports to stockholders.

(a) As soon as practicable after taking possession of a Farm Credit institution the conservator shall make an inventory of the assets and liabilities of the institution as of the date possession was taken. One copy of the inventory shall be filed with the Farm Credit Administration.

(b) The institution in conservatorship shall be examined by the Farm Credit Administration in accordance with section 5.19 of the Act. The institution shall also be audited by a certified public accountant in accordance with part 621 of this chapter.

(c) Each institution in conservatorship shall prepare and file with the Farm Credit Administration financial reports in accordance with the requirements of

part 621 of this chapter. The conservator of the institution shall provide the certification required in § 621.12 of this chapter.

(d) Each institution in conservatorship shall prepare and issue published financial reports in accordance with provisions of part 620 of this chapter, and the certifications and signatures of the board of directors or management provided for in §§ 620.2(b), 620.2(c), and 620.5(m)(2) of this chapter shall be provided by the conservator of the institution.

§ 627.2790 Final discharge and release of the conservator.

At such time as the conservator shall be relieved of its conservatorship duties, the conservator shall file a report on the conservator's activities with the Farm Credit Administration. The conservator shall thereupon be completely and finally released.

PART 611—ORGANIZATION

2. The authority citation for part 611 continues to read as follows:

Authority: Secs. 1.3, 1.13, 2.0, 2.10, 3.0, 3.21, 4.12, 4.15, 5.9, 5.10, 5.17, 7.0–7.13, 8.5(e) of the Farm Credit Act; 12 U.S.C. 2011, 2021, 2071, 2091, 2121, 2142, 2183, 2203, 2243, 2244, 2252, 2279a–2279f–1, 2279aa–5(e); secs. 411 and 412 of Pub. L. 100–233, 101 Stat. 1568, 1638; secs. 409 and 414 of Pub. L. 100–399, 102 Stat. 989, 1003 and 1004.

Subpart K—Appointment of Conservators and Receivers

§ 611.1155 [Amended]

3. Section 611.1155 is amended by adding two sentences to the end of the existing text to read:

§ 611.1155 General.

* * * Subparts K, L, M, and N of this part shall not apply to conservatorships or receiverships for which the Farm Credit System Insurance Corporation is appointed as conservator or receiver. Such conservatorships and receiverships shall be governed by part 627 of this chapter.

§ 611.1156 [Redesignated]

4. Section 611.1156 is redesignated as § 627.2710, and paragraph (a) of newly designated § 627.2710 is revised to read as follows:

§ 627.2710 Grounds for appointment of conservators and receivers.

(a) Upon a determination by the Farm Credit Administration Board of the existence of one or more of the factors set forth in paragraph (b) of this section, with respect to any bank, association, or other institution of the System, the Farm Credit Administration Board may, in its discretion, appoint a conservator or receiver for such institution. After January 5, 1993, the Insurance Corporation shall be the sole entity to be appointed as conservator or receiver.

* * * * *

§ 611.1157 [Amended]

5. Section 611.1157 is amended by removing the reference "§ 611.1156 of this part" and adding in its place, the reference "§ 627.2710 of this chapter" in paragraphs (a) and (b).

Subpart L—Liquidation of Associations

§ 611.1160 [Amended]

6. Section 611.1160 is amended by removing the reference "§ 611.1156 of this part" and adding in its place, the reference "§ 627.2710 of this chapter" in paragraphs (b) and (g).

7. Section 611.1168 is amended by removing paragraphs (c), (d), and (e); by redesignating paragraph (f) as new paragraph (d); and by adding new paragraph (c) to read as follows:

§ 611.1168 Inventory, examination, audit, and reports to stockholders.

* * * * *

(c) The receiver shall make an annual accounting or report, as appropriate, available upon request to any stockholder of the association in receivership or any member of the public.

* * * * *

Subpart M—Liquidation of Banks

§ 611.1170 [Amended]

8. Section 611.1170 is amended by removing the reference "§ 611.1156 of this part" and adding in its place, the reference "§ 627.2710 of this chapter" in paragraphs (b) and (g); and by removing "the Federal Agricultural Mortgage Corporation," from paragraph (h).

9. Section 611.1175 is amended by removing paragraphs (c), (d), and (e); by redesignating paragraph (f) as new paragraph (d); and by adding new paragraph (c) to read as follows:

§ 611.1175 Inventory, examination, audit, and reports to stockholders.

* * * * *

(c) The receiver shall make an annual accounting or report, as appropriate, available upon request to any stockholder of the bank in receivership or any member of the public.

* * * * *

Subpart N—Conservators and Conservatorships of Banks and Associations

§ 611.1180 [Amended]

10. Section 611.1180 is amended by removing the reference "§ 611.1156" and adding in its place, the reference "§ 627.2710 of this chapter" in paragraph (a); and by removing "the Federal Agricultural Mortgage Corporation," from paragraph (f).

PART 615—FUNDING AND FISCAL AFFAIRS, LOAN POLICIES AND OPERATIONS, AND FUNDING OPERATIONS

11. The authority citation for part 615 is revised to read as follows:

Authority: Secs. 1.5, 1.7, 1.10, 1.11, 1.12, 2.2, 2.3, 2.4, 2.5, 2.12, 3.1, 3.7, 3.11, 3.25; 4.3, 4.9, 4.14B, 4.25, 5.9, 5.17, 6.20, 6.26 of the Farm Credit Act; 12 U.S.C. 2013, 2015, 2018, 2019, 2020, 2073, 2074, 2075, 2076, 2093, 2122, 2128, 2132, 2146, 2154, 2160, 2202b, 2211, 2243, 2252, 2278b, 2278b–6; sec. 301(a) of Pub. L. 100–233, 101 Stat. 1568, 1606.

Subpart H—Capital Adequacy

§ 615.5216 [Amended]

12. Section 615.5216 is amended by removing the reference "§ 611.1156" and adding in its place, the reference "§ 627.2710 of this chapter" in paragraph (b).

Dated: October 2, 1992.

Curtis M. Anderson,

Secretary, Farm Credit Administration Board.

Federal Energy Regulatory Commission

18 CFR Parts 2 and 284

[Docket No. RM92–13–000; Order No 544]

Revisions to Regulations Governing NGPA Section 311 Construction and the Replacement of Facilities

Issued September 21, 1992

AGENCY: Federal Energy Regulatory Commission (Commission) DOE.

ACTION: Final rule.

SUMMARY: The Commission is issuing a final rule that requires companies (1) constructing natural gas facilities to transport natural gas pursuant to section 311 of the Natural Gas Policy Act of 1978 (NGPA, or (2) replacing natural gas facilities pursuant to § 2.55(b) of the Commission's regulations, to notify the

Commission at least 30 days prior to commencing construction if the cost of the project exceeds the cost limit specified in the Commission's regulations. The purpose of this 30-day advance notification requirement is to enable the Commission to review the environmental impact of extensive section 311 construction and § 2.55(b) replacement activities before they commence and, where warranted, to intervene.

EFFECTIVE DATE: November 9, 1992.

FOR FURTHER INFORMATION CONTACT: Paul W. Schach, Office of the General Counsel, Federal Energy Regulatory Commission, 825 N. Capitol Street, NE., Washington, DC 20426, (202) 208–2245.

SUPPLEMENTARY INFORMATION: In addition to publishing the full text of this document in the **Federal Register**, the Commission also provides all interested persons an opportunity to inspect or copy the contents of this document during normal business hours in room 3104, 941 North Capitol Street, NE., Washington, DC 20426.

The Commission Issuance Posting System (CIPS), an electronic bulletin board service, provides access to the texts of formal documents issued by the Commission. CIPS is available at no charge to the user and may be accessed using a personal computer with a modem by dialing (202) 208–1397. To access CIPS, set your communications software to use 300, 1200, or 2400 baud, full duplex, no parity, 8 data bits, and 1 stop bit. The full text of this document will be available on CIPS for 30 days from the date of issuance. The complete text on diskette in WordPerfect format may also be purchased from the Commission's copy contractor, La Dorn Systems Corporation, located in room 3106, 941 North Capitol Street, NE., Washington, DC 20426

Before Commissioners: Martin L. Allday, Chairman; Charles A. Trabrandt, Elizabeth Anne Moler, Jerry J. Langdon, and Brando Terzic.

I. Introduction

The Federal Energy Regulatory Commission (Commission) is issuing a final rule that requires companies (1) constructing natural gas facilities to transport natural gas pursuant to section 311 of the Natural Gas Policy Act of 1978 (NGPA),[1] or (2) replacing natural gas facilities pursuant to § 2.55(b) of the Commission's regulations,[2] to notify the Commission at least 30 days prior to commencing construction if the cost of the project exceeds the cost limit specified in Column 1 of Table I of § 157.208(d) of the regulations. That cost limit, which in 1992 is $8.2 million, is that applicable to the Part 157, Subpart F automatic authorization. The purpose of this 30-day advance notification requirement is to enable the Commission to review the environmental impact of extensive section 311 construction and § 2.55(b) replacement activities before they commence and, where warranted, to intervene.

The Commission initiated this rulemaking proceeding by Notice of Proposed Rulemaking (NOPR) issued on August 3, 1992.[3] The objective was to re-promulgate regulations adopted in an interim rule, in Order No. 525,[4] and recently vacated on procedural grounds by the United States Court of Appeals for the District of Columbia Circuit (D.C. Circuit), in *Tennessee Gas Pipeline Company* v. *FERC (Tennessee)*.[5] While the NOPR proposed the identical regulations that were vacated, the commentors have persuaded us to modify our proposal substantially.

II. Public Reporting Burden

The Commission estimates the public reporting burden for the collection of information required by the final rule's advance notification requirement to average approximately 5 hours per response. This estimate represents a weighted average for § 2.55(b) and section 311 filings. It recognizes the comments of four parties [6] that our previous estimate of 4 hours per response was too low. We anticipate that an average of 15 advance notifications will be filed each year. We thus estimate the annual reporting burden for advance notification filings to be about 75 hours.

We note that CNG, INGAA, and PGT claimed that 15 to 20 hours may be needed to prepare an advance notification. Transco stated that 12 hours was an approximate mean figure for its 1991 filings. No commentor, however, distinguished between § 2.55(b) and section 311 projects. We believe that § 2.55(b) filings cannot reasonably take longer than an average of 4 hours to prepare.

Regarding section 311 filings, we believe that 10 hours is a reasonable and conservative estimate of the time required, on average. We use as a starting point Transco's 12-hour estimate since it, apparently, was based on specific data. (CNG, INGAA, and PGT, we note, did not represent their 15- to 20-hour figures as average, but stated simply that some filings may take that long to prepare.) Additionally, many companies use standard forms for these filings, making data summarization easy. And many section 311 projects are no more extensive than § 2.55(b) projects. Therefore, such filings should not take significantly longer than § 2.55(b) filings.

Examining Transco's 12-hour figure, we note that it states that this estimate includes time to "research the project," internally review, and respond to subsequent inquiries. Since the Commission's § 157.206(d) regulations require certain things to be done and reports to be produced (but not filed), it is inappropriate, we believe, to include time involved with "researching the project" in the burden associated with the final rule. In addition, we have no way or determining whether the efficiency of Transco's internal review process is typical, and we believe that, for most filings for smaller section 311 projects, very little review time should be needed. Finally, Transco's figure is based on the first full year after implementation of the interim rule. We expect the time needed to prepare advance notifications to decrease as experience with the system grows. Thus, we believe 10 hours is a reasonable average burden for section 311 advance notification filings.

Regarding the final rule's annual reporting requirement, the Commission expects the public reporting burden to average approximately 41 hours per response. We anticipate that 55 pipeline respondents will file one annual report per year for a total annual reporting burden of 2,255 hours.

The industry burden associated with advance notification filings (75 hours) and annual report filings (2,255 hours) thus is expected to total approximately 2,330 hours per year. The average burden per filing (including both advance notifications and annual reports) is estimated to average 33.3 hours per filing. This includes the time needed to review instructions, search existing company files, gather and maintain the information needed, complete and review the collection of information, and file the information with the Commission.

Send comments regarding these burden estimates or any other aspect of the Commission's collection of information, including suggestions for reducing this burden, to the Federal Energy Regulatory Commission, 941 North Capital Street, NE., Washington, DC 20426 [Attention: Mr. Michael Miller, Information Policy and Standards Branch, (202) 208–1415], and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 [Attention: Desk Officer for the Federal Energy Regulatory Commission].

III. Background

Section 2.55(b) of the Commission's regulations permits a natural gas pipeline company to replace existing facilities without prior authorization under section 7(c) of the Natural Gas Act (NGA).[7] Section 284.3(c) of the regulations provides automatic authorization to construct facilities that will be used solely for the transportation of natural gas pursuant to NGPA section 311. Section 284.11 requires any pipeline constructing, or abandoning and removing, facilities under § 284.3(c) to comply with the environmental terms and conditions of § 157.206(d).

On August 2, 1990, the Commission issued an interim rule in Order No. 525, without notice and comment.[8] On the same day, it issued a NOPR in a proceeding that has come to be known as the construction rule proceeding.[9]

The interim rule required natural gas pipelines to notify the Commission 30 days before commencing any replacement of facilities pursuant to § 2.55(b), or any section 311 construction or abandonment with removal of facilities pursuant to § 284.3(c). The notification had to include the following information: (1) A brief description of the facilities; (2) U.S. Geological Survey 7.5-minute series topographic maps showing the location of the facilities; and (3) a description of the procedures to be used for erosion control, revegetation and maintenance, and stream and wetland crossings. Additionally, for section 311 construction the pipeline also had to provide evidence of having met the Commission's environmental compliance procedure at § 157.206(d).

The purpose of the interim rule was to give the Commission a temporary procedure, pending adoption of a final rule in the construction rule proceeding, for reviewing section 311 construction activities under § 284.3(c), and replacement activities under § 2.55(b), before construction commenced. The Commission believed that the opportunity for prior review would allow it to take appropriate action where necessary to ensure compliance with the applicable environmental statutes and regulations.[10]

On September 20, 1991, the Commission issued a final rule in the construction rule proceeding, in Order No. 555.[11] For § 2.55(b) replacement activities, the Commission eliminated the 30-day advance notification requirement but narrowed the definition of exempt replacement activities, and added two new conditions, that together it believed would adequately minimize any potential adverse environmental impacts.[12] For section 311 construction, Order No. 555 adopted, at § 284.11(b) of the regulations, essentially the same 30-day advance notification requirement previously adopted as an interim rule.

Order No. 555 was scheduled to take effect on November 19, 1991 but, on November 13, 1991, the Commission postponed the effective date of the rule until 30 days after publication in the **Federal Register** of an order on rehearing.[13] This caused the interim rule to remain in effect. Rehearing of Order No. 555 is pending.

On July 14, 1992, as stated, the D.C. Circuit vacated the interim rule in Tennessee. The court found that the Commission had "failed to provide a sufficient basis for invoking the good cause exception" of the APA,[14] which permits an agency to promulgate a regulation without notice and comment under certain circumstances. The court's mandate issued on September 16, 1992, thus reinstating the pre-Order No. 525 regulations as of the date of the court's opinion on July 14, 1992.

IV. The Proposed Regulations

As stated, we instituted this rulemaking proceeding to repromulgate the same regulations vacated by the court in Tennessee. Specifically, we proposed to require a pipeline to notify the Commission 30 days prior to commencing: (1) Any section 311 construction, or abandonment with removal of facilities, pursuant to § 284.3(c) of the regulations; and (2) any replacement of facilities pursuant to § 2.55(b). Such advance notification, we believed, would enable the Commission to review planned activities before construction commenced and, where warranted, to intervene.

In proposing the same regulations vacated by the court, we expounded the identical rationale that the Commission previously adopted in promulgating the interim rule. We explained that originally it was thought that only very minor facilities, such as taps and interconnections, would be constructed under section 311, and that stringent Commission review therefore was unnecessary. As it turned out, however, pipelines viewed section 311 as a vehicle or constructing more extensive projects.[15] We gave two examples of section 311 construction that had proceeded without advance notification to the Commission and which, we believed, had presented serious environmental repercussions.[16] Without advance notification of section 311 construction projects, we stated, the Commission had no means, other than through the press, of being informed of such construction and ensuring environmental compliance.

Further, we stated that, like section 311 construction, the replacement of facilities under § 2.55(b) could be extensive. We noted that when § 2.55(b) was adopted over 40 years ago, [17] there

---

[7] 15 U.S.C. 717–717z (1988).

[8] The Commission invoked the good cause exception of the Administrative Procedure Act (APA), which permits rulemaking without public notice and comment when an agency "for good cause finds * * * that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest." 5 U.S.C. 553(b)(3)(B) (1988).

[9] Revisions to Regulations Governing Certificates for Construction, IV FERC Stats. & Regs. ¶ 32,477 (1990). The construction rule proceeding involved numerous matters in addition to the one addressed by the interim rule.

[10] *See* Order No. 525, FERC Stats. & Regs., Regulations Preambles 1986–1990, at 31,812.

[11] Revisions to Regulations Governing Authorizations for Construction of Natural Gas Pipeline Facilities, III FERC Stats. & Regs. ¶ 30,928 (1991).

[12] Specifically, Order No. 555 defined exempt replacement activities as involving "[f]acilities which have or will soon become physically deteriorated or obsolete to the extent that replacement is deemed advisable to comply with Department of Transportation regulations * * *." In addition, the final rule required that: (1) Service through the replaced facilities not result in a reduction or abandonment of service; (2) the new facilities have a substantially equivalent designed delivery capacity as the old facilities; (3) the replacement occur within the pipeline's existing right-of-way; and (4) the old facilities be abandoned in compliance with the guidelines of the U.S. Environmental Protection Agency for facilities exposed to PCB contamination greater than 50 ppm.

[13] Revision to Regulations Governing Authorizations for Construction of Natural Gas Pipeline Facilities, III FERC Stats. & Regs. ¶ 30,928A (1991).

[14] Tennessee, slip op. at 2.

[15] As an example, we cited Arkla Energy Resources, a Division of Arkla, Inc., 54 FERC ¶ 61,033 (1991), where the Commission granted Arkla NGA section 7(c) authority to operate Line AC, a large diameter, 225-mile pipeline that Arkla previously had constructed pursuant to NGPA section 311.

[16] These examples, involving Transco and Questar, are discussed *infra*.

[17] See Order No. 148, 14 FR 681 (Feb. 16, 1949).

were fewer pipeline construction projects and the majority involved relatively short lengths of small-diameter pipeline. Over the years, an integrated and sophisticated national pipeline grid developed. Today, we stated, the replacement of facilities potentially could involve hundreds of miles of large-diameter pipeline. And the environment where a pipeline originally was laid may very well have changed completely by the time replacement occurred: what was once a rural area may now be densely populated. Accordingly, we believed that advance notification of § 2.55(b) replacement activities was as necessary as advance notification of section 311 construction projects.

V. The Commenting Parties

The 23 parties identified in the appendix to this order filed timely comments in response to the NOPR. (Beside the full name of each party is the shorthand name by which we refer to it in this order.)

In general, nearly all of the commenting pipelines and pipelines associations assail the proposed 30-day advance notification requirement for § 2.55(b) replacement activities. While many also oppose an advance notification requirement for section 311 construction, others, while less adamantly opposed to it, still believe it is overly broad as written. Only one pipeline, Texas Gas, states, albeit conditionally, that it does not object to complying with the proposed notification requirement.

Three commentors representing gas distribution companies [18] support a prior notification requirement for section 311 construction but oppose it for § 2.55(b) replacements. Another such commentor has no objection to an advance notification requirement for either type of activity.[19] All of these commentors, however, advocate some form of additional public notice of section 311 construction. We expand on these generalities, and discuss the particulars, in the immediately following section.

VI. Discussion

A. The Need For An Advance Notification Requirement

1. Commentors' Positions

a. *The Commission adduced insufficient data to support a need for the proposed rule.* Most commentors opposing the proposed rule in its entirety point out that the § 2.55(b) regulations were in effect for nearly 40 years, and the section 311 regulations nearly 11 years, with no prior notification requirement. The interim rule was in effect 2 years. The commentors argue that, despite all this experience, the Commission provided only scant evidence documenting either harm that occurred to the environment when no advance notification requirement was in effect, or potential harm that the interim rule averted.

Several commentors point out that the Commission cited just two examples to support the asserted need for the advance notification requirement. Both examples, they note, involved section 311 construction.

One case involved the construction by Transco of 138 miles of 30- and 42-inch pipeline, a compressor station, and other related facilities, at a cost of approximately $83 million.[20] The Commission found that, by failing to comply with the National Historic Preservation Act, Transco had seriously damaged or destroyed 48 archaeological sites. It required Transco to pay $25.5 million in civil penalties and reimbursements.

The other case involved the installation of approximately $75,000 of tie-in, metering, and regulating facilities by Questar at an existing regulation station.[21] The Commission imposed a $5,000 civil penalty on Questar for its inadvertent failure to provide the required 30-day advance notification, under the interim rule, and to consult certain agencies prior to beginning construction.[22]

Many commentors argue that these examples are meager evidence upon which to base a requirement affecting all section 311 construction and all § 2.55(b) replacement activities. Most argue that, even assuming that these examples are adequate to support some form of advance notification requirement for section 311 construction, they do not support the need to impose an advance notification requirement on § 2.55(b) replacement activities. As support, they point to the court's observation in Tennessee that "[i]t goes without saying that evidence of harm resulting from the past construction of a new [section 311] pipeline provides no support for the rule's requirement of advance notification of replacement work performed pursuant to section 2.55(b)." [23]

b. *Replacement activities already are subject to substantial environmental regulations.* In any event, PGT argues that replacement activities already are subject to substantial environmental requirements. For example, common replacement activities such as turbine and driver replacements are subject to rigorous air quality reviews under the New Source Review and Permitting processes of the U.S. Environmental Protection Agency (EPA), the states, and local air pollution control districts. Replacement activities involving PCB contaminated facilities are subject to EPA oversight. And pipelines must obtain individual permits from local districts for stream and road crossings, as well as permission from fish and wildlife agencies for river crossings. PGT argues that additional Commission oversight would only add a duplicative and unnecessary layer of regulatory review.

CNG asserts that one of the Commission's stated concerns for proposing an advance notification requirement for replacement activities—that a formerly rural area may now be densely populated—is assuaged by U.S. Department of Transportation (DOT) regulations. CNG states that DOT has defined class locations to ensure safe pipeline operations in populated areas.[24] The class location of a pipeline segment determines its MAOP. Whenever an increase in population density changes a pipeline segment's class location, the operator must lower the segment's MAOP or replace it with thicker walled pipeline.

c. *An advance notification requirement for replacement activities conflicts with DOT regulations.* Six parties [25] argue that, whereas the

[19] NI-Gas.

[20] Transcontinental Gas Pipe Line Corp., 48 FERC ¶¶ 61,132 and 61,189 (1989), 55 FERC ¶ 61,318 (1991).

[21] Questar Pipeline Co., 57 FERC ¶ 61,058 (1991), 58 FERC ¶ 61,157 (1992).

[22] Questar objects to our citing its case with Transco's as representative of extensive section 311 construction that has "presented potentially serious environmental repercussions." It believes that this wrongly impugns its reputation and character, because: (1) There was never the potential for any environmental harm (all construction occurred on a previously heavily developed, fenced, and graveled site that had been in continuous use by Questar for 25 years); (2) Questar voluntarily notified the Commission of its inadvertent failure to provide advance notification; (3) it cooperated fully with the Commission to remedy the inadvertent violation; and (4) it did not commence service until corrective regulatory action had been taken. We agree with Questar that its case is a bad example for the proposition cited. We no longer rely on it.

[23] Tennessee, slip op. at 8. The interim rule only cited the Transco Case. The Questar case occurred later and, as we have conceded above, is a poor example.

[24] 49 CFR 192.5 defines four class locations. For example, class 1 is any class location unit that has 10 or less buildings intended for human occupancy. Class 4 is any class location unit where buildings with four or more stories prevail.

[25] AGA, ANR, CNG, Enron, Great Lakes, and INGAA.

Commission stated, in both its clarification of the interim rule [26] and the new NOPR, that it does not intend the 30-day advance notification requirement to conflict with DOT's safety regulations, in fact it does.[27] The commentors point out that no segment of a pipeline may be operated unless it is maintained in compliance with the minimum federal safety standards established by DOT under the Natural Gas Pipeline Safety Act.[28] For example, a pipeline must report a safety-related condition to DOT within 5 working days after it is first determined to exist, and within 10 days after it is identified.[29] If permanent repairs are not feasible at the time of discovery, the operator must take "immediate temporary measures to protect the public * * *." [30] Failure to comply may lead to significant civil or criminal penalties.[31]

INGAA points out that, even assuming that our part 284, Subpart I regulations actually cover emergencies that require replacements, not all the replacements required by DOT constitute emergencies. Specifically, there are eight safety-related conditions that require a prompt report to DOT and immediate remedial action. Of these eight conditions, only one directly refers to an emergency.[32] The others focus on preventing emergencies.[33]

Several commentors,[34] however, argue that our own Part 284, Subpart I regulations do not cover emergencies requiring replacement activities. Thus, these regulations would not override, as the Commission asserted, the proposed 30-day advance notification requirement.

Additionally, the commentors argue that seeking a waiver of the advance notification requirement is not an adequate alternative because the process takes too long. CNG examined the five randomly selected cases that the Commission cited as evidence of its willingness to grant waivers. They took, it states, between 10 and 19 days to process.

d. *Alternatively, minor projects should be exempted from any advance notification requirement.* Many commentors argue alternatively that, if the Commission decides to adopt an advance notification requirement, for either section 311 construction, replacement activities, or both, minor facilities should be excluded from the requirement's scope. In this regard, they allege that the Commission overreacted to its stated reason for proposing the rule—to prevent potential damage to the environment—by seeking to include in the scope of its proposed remedy every section 311 construction project and every § 2.55(b) replacement activity. The commentors focus on the stated reason for the Commission's concern: that, where originally it was believed that only minor facilities would be constructed under section 311 or replaced pursuant to § 2.55(b), today both types of projects may be extensive. Assuming that this concern is valid (and many commentors dispute it with regard to replacement activities),[35] the commentors fault the Commission for not tailoring its proposal to this concern over extensive projects. Instead, the Commission proposed a broad, sweeping approach that would include in its scope all activities regardless of size, type, or potential environmental impact.

These commentors thus argue that if the Commission decides to adopt an advance notification requirement, it should exempt certain projects from it. Various commentors suggest various approaches, including excluding from the scope of the requirement: (1) Emergency replacements; [36] (2) minor replacements (*e.g.*, those less than 2 miles in length, and those inside the fence of an existing compressor station);[37] (3) projects costing less than the cost limit applicable to Part 157, Subpart F automatic authorization; [38] and (4) replacements costing less than $5 million.[39]

2. Commission Response

We conclude that a 30-day advance notification requirement is needed to enable the Commission to review extensive construction projects, under both section 311 and § 2.55(b), before they occur to ensure that they do not adversely affect the environment. The need for this advance notification derives from our mandate under the National Environmental Policy Act of 1969 (NEPA) [40] to weigh carefully the potential environmental impact of activities subject to our jurisdiction.

Section 311 construction activities, as stated, must comply with the environmental requirements at § 157.206(d) of the regulations. Although § 2.55(b) replacement activities are not subject to those environmental requirements, we may, where appropriate, require an environmental review.

Contrary to earlier statements that we first made in Order No. 525–A and repeated in the NOPR to this proceeding,[41] replacement activities are not categorically excluded under § 380.4 of our regulations from the need to prepare an environmental assessment (EA) or environmental impact statement (EIS).[42] Since the Commission thus has a responsibility under NEPA to review replacement activities that pose potentially serious, adverse environmental impacts, we need to be informed of such activities before they occur. The information submitted in the advance notification requirement that we are adopting here will allow us to review extensive replacement projects to determine whether additional environmental review is appropriate in a

[27] In the NOPR, we emphasize that the proposed 30-day advance notification requirement would not conflict with DOT's regulations that require pipeline operators to take prompt action to correct safety-related conditions. We explained that the proposed rule would not override Commission regulations (at Part 284, Subpart I) that authorize pipelines to act immediately to correct conditions posing a safety hazard. [41] See Order No. 525–A, 53 FERC at 61,470–471; Advance Notification NOPR, IV FERC Stats. & Regs. at 32,617.

[42] In Order No. 486, the Commission rejected some commentors' requests to create a categorical exclusion for replacement activities. The Commission stated:

> Merely because land was disturbed when the trench was originally dug does not mean that replacing the old pipe with a new pipe will not disturb the environment. Such an action must be assessed in light of current land use and concerns about erosion, sediment control, impact on streams and soils, threatened and endangered species and potential PCB contamination.

Regulations Implementing the National Environmental Policy Act of 1969, FERC Stats. & Regs., Regulations Preambles 1986–1990 ¶ 30,783, at 30,928 (1987) (Order No. 486), *on reh'g*, FERC Stats. & Regs., Regulations Preambles 1986–1990 ¶ 30,799 (1988) (Order No. 486–A). Moreover, the replacement of facilities does not appear in the codified list of categorical exclusions at § 380.4.

particular instance. The same holds true for section 311 construction.

Our concern is focused on extensive construction projects. We noted above the example involving Transco that resulted in serious environmental damage. That damage could have been averted had we had the opportunity to review the project's environmental compliance before construction began. That example, coupled with our responsibility under NEPA, is sufficient, we conclude, to require a 30-day advance notification requirement for extensive section 311 projects.

We cannot provide a similar example concerning an extensive replacement project that resulted in serious environmental damage. That is primarily because most facilities are replaced in small increments (often less than 1 mile in length) and, commonly, in previously certificated rights-of-way. As we stated in the NOPR, however, a replacement could, potentially, involve hundreds of miles of large-diameter pipeline.[43] Accordingly, the very real possibility that a replacement activity can be extensive, coupled again with our responsibility under NEPA, is sufficient, we conclude, to require pipelines to notify us in advance of extensive replacement projects.

The commentors thus have convinced us that we framed our proposed rule too broadly to deal with our more limited concern for averting the potentially serious environmental harm that extensive section 311 construction and replacement activities may cause. They thus have persuaded us to exclude from the advance notification requirement non-extensive section 311 construction and § 2.55(b) replacement activities.

The reasons are twofold. First, the construction or replacement of minor facilities does not present the same potential for serious environmental harm as more extensive projects due, simply, to their smaller scale. Second, while the potential for environmental harm is not eliminated in smaller section 311 construction and § 2.55(b) replacement projects, we have to balance the burden on pipelines of an advance notification requirement with the potential benefits of that requirement. For minor facilities, we conclude, the potential benefits do not outweigh the burdens, particularly because, before construction can begin, all section 311 projects must comply with the environmental terms and conditions of § 157.206(d) and all replacement activities must comply with the environmental requirements of other federal, state, and local agencies. We thus are comfortable in limiting our prior review of such projects to those involving the construction or replacement of extensive facilities.

Our task, then, is to translate our concern, which is limited to extensive section 311 construction and replacement projects, into a workable rule—in other words, to define the universe of non-extensive projects that properly should be excluded from the advance notification requirement. It is very difficult to define this universe by identifying every type of facility that properly should be exempted from the requirement, particularly on the existing record. By far the most workable approach, we conclude, is to adopt a project cost limit. Projects falling under that cost limit will be construed as non-extensive, for purposes of this rule, and not subject to the advance notification requirement. Conversely, projects costing more than that cost limit will be considered extensive and subject to the requirement.

We have chosen as the project cost limit for the final rule the cost limit applicable to the NGA section 7, automatic authorization (which also is known as the as the part 157, subpart F automatic authorization). That cost limit, found in Column 1 of Table I of § 157.208(d) of the regulations, is, for 1992, $8.2 million. It is revised annually for inflation. One benefit of adopting that cost limit for this rule's advance notification requirement is that NGA section 7, NGPA section 311, and § 2.55(b) replacement activities all will be treated alike for purposes of advance notification.[44] In short, for purposes of the advance notification requirement, we can find no reason to treat the three types of construction authorizations differently. In fact, we find it desirable, from both our perspective and that of affected pipelines, to treat them alike.

Additionally, we agree with the commentors that the proposed advance notification requirement for replacement activities, if adopted, potentially would conflict with DOT safety regulations and that our own part 284, subpart I regulations would not override it. The purpose of the subpart I regulations is to "exempt[] a person who engages in an emergency natural gas transaction * * * from the certificate requirements of section 7" of the NGA.[45] "Emergency natural gas transaction" is defined as the sale, transportation, or exchange of natural gas (including the construction and operation of necessary facilities) conducted pursuant to subpart I that is: (1) Necessary to alleviate an emergency; and (2) not anticipated to last more than 60 days.[46]

Thus, a safety related replacement activity does not fall squarely within the codified purpose of the subpart I regulations, since a § 2.55(b) replacement activity is, by definition, already exempt from the requirements of NGA section 7. Nor does it fall within the codified definition of an "emergency natural gas transaction," since it cannot meet the second proviso concerning the expected duration of the emergency. In addition, the preamble [47] adopting the subpart I regulations clearly indicates that the focus of that proceeding was on certain types of supply emergencies resulting, for example, from curtailments or weather induced increases in requirements. The preamble does not mention, directly or indirectly, facility replacements.

However, even assuming that the subpart I regulations do apply to emergency replacement activities, they would not override the 30-day advance notification requirement. Subpart I only would exempt emergency replacement activities from the certificate requirements of NGA section 7. However, by definition a § 2.55(b) replacement activity already is exempt from those requirements.[48] And the 30-day advance notification requirement is a § 2.55(b) requirement, not a section 7 requirement.

Thus, the part 284, subpart I regulations are inapposite to emergency replacement activities. In addition, an advance notification requirement would conflict with DOT safety regulations requiring immediate action to prevent safety related problems not yet

---

[43] As of September 3, 1992, the Commission received, under the interim rule, 643 advance notifications of replacement activities. Of that figure, 507 filings involved less than 1 mile of pipeline; 90 involved between 1 and 10 miles of pipeline; 19 between 11 and 20 miles of pipeline; and 27 filings involved more than 20 miles of pipeline (including two that involved more than 100 miles of pipeline).

[44] In this regard, we note that construction proceeding under the Part 157, Subpart F automatic authorization, while subject to the environmental requirements of § 157.206(d), is not subject to an advance notification requirement.

[45] 18 CFR 284.261.

[46] 18 CFR 284.262(d). "Emergency," in turn, is defined as "[a]ny situation in which the participant, in good faith, determines that immediate action is required or is reasonably anticipated to be required for the protection of life or health or for maintenance of physical property." 18 CFR 284.262(a)(1)(iii).

[47] Emergency Natural Gas Sale, Transportation and Exchange Transactions, III FERC Stats. & Regs. ¶ 30,888 (1988) (Order No. 449).

[48] Section 2.55 reads, as pertinent, "For the purposes of section 7(c) of the Natural Gas Act, as amended, the word *facilities* as used therein shall be interpreted to exclude: * * * (b) *Replacement of facilities.* * * *"

constituting an emergency. Accordingly, to prevent a possible conflict between the 30-day advance notification requirement and DOT's regulations in the case of an immediately required replacement that costs more than the cost limit specified in Column 1 of Table I of § 157.208(d), we are specifically excluding from the scope of the advance notification requirement replacement activities that are required to be performed immediately under DOT safety regulations.

The general, 30-day advance notification requirement for replacement activities and section 311 construction is found, respectively, at § 2.55(b)(1)(iii) and § 284.11(b)(1) of the final regulations. The exception to that general requirement for projects costing less than the § 157.208(d) cost limit is found at § 2.55(b)(2)(i) and § 284.11(b)(2). And the exception to that requirement for replacement activities that are required to be performed immediately under DOT safety regulations is found at § 2.55(b)(2)(ii) of the final regulations.

B. The Applicability of the Advance Notification Requirement For Section 311 Construction to Intrastate Pipelines

Section 311 was enacted to allow interstate and intrastate pipelines to provide service which, being in interstate commerce, would otherwise fall under the requirements of the NGA, without subjecting those entities to the full panoply of federal jurisdiction. Part 284 of the Commission's regulations governs section 311 transactions. As noted in the NOPR,[49] under § 284.11 an intrastate pipeline constructing facilities to be used for section 311 transactions (which are in interstate commerce by their very nature) always has been held to the same § 157.208(d) environmental standards as an interstate pipeline in like circumstances. Similarly, the advance notification requirement for section 311 construction that we are adopting here applies to both interstate and intrastate pipelines constructing section 311 facilities.

1. Commentors' Positions

The Association of Texas Intrastates asks us to clarify the applicability of the advance notification requirement to intrastate pipelines. It notes that intrastate pipelines may construct three kinds of facilities: (1) Those used solely for intrastate service; (2) those used for intrastate service and for section 311(a)(2) service;[50] and (3) those used solely for section 311(a)(2) service. The Association of Texas Intrastates notes further that the NOPR indicated that the section 311 advance notification requirement would apply to any pipeline constructing under the section 311 construction authorization at § 284.3(c) of the regulations.[51] It asks us to clarify that the only facilities eligible to be built under that authorization are those utilized solely for section 311 transportation.

2. Commission Response

The Association of Texas Intrastates is correct. The final rule makes the section 311 advance notification requirement applicable to any construction or replacement activity performed pursuant to § 284.3(c) of the regulations that exceeds the applicable cost limit. By definition, the § 284.3(c) authorization can be used only to build facilities that will be utilized solely for section 311 transportation.

C. The Information Required in an Advance Notification

We are adopting the proposal set forth in the NOPR concerning the specific information that an advance notification must include. Under § 284.11(c) of the final regulations, an advance notification for section 311 construction must include the following information:

(1) A brief description of the facilities to be constructed or replaced (including pipeline size and length, compression horsepower, design capacity, and cost of construction);

(2) Evidence of having complied with each of the environmental terms and conditions contained in § 157.206(d) of the regulations;

(3) Current U.S. Geological Survey 7.5-minute series topographical maps showing the location of the facilities; and

(4) A description of the procedures to be used for erosion control, revegetation and maintenance, and stream and wetland crossings.

Under § 2.55(b)(3) of the final regulations, the advance notification for a replacement activity must include the information described in (1), (3), and (4) above. It need not include evidence of having complied with § 157.206(d) because replacement activities are not subject to those regulations.

We do not believe that collecting and collating this information for projects costing more than $6.2 million (for 1992) will be burdensome. All of the required information should be readily accessible to the pipeline. Any inconvenience to the pipeline that might be caused by the preparation of an advance notification should be minor when measured against the potential environmental damage that we are seeking to prevent.

1. Commentors' Positions

ANR and Columbia comment on the second element of the advance notification for section 311 construction that requires a pipeline to demonstrate that it has complied with the environmental terms and conditions of § 157.206(d) before filing the notification with the Commission. Columbia states that a minimum of six weeks is required to obtain clearances from state historic preservation officers for the construction of even minor facilities. Adding that 6-week period to the 30-day notification period thus delays at least 10 weeks the start of construction. Both ANR and Columbia request that we permit a pipeline to file an advance notification prior to its completing the § 157.206(d) environmental compliance process. The pipeline, however, would have to complete that process prior to beginning construction.

2. Commission Response

The very purpose of the advance notification requirement is to enable the Commission to review an extensive project before construction commences and to ensure that the pipeline has in fact achieved compliance with the environmental terms and conditions of § 157.206(d). If we adopted Columbia's and ANR's suggestions, a pipeline could file an advance notification, complete the § 157.206(d) process 29 days later, and begin construction the next day. Under that scenario, we would have no opportunity to review the pipeline's environmental compliance before construction began, thus defeating the very purpose of the requirement. Accordingly, we reject the suggestion.

Additionally, we believe that, particularly for extensive projects costing more than $6.2 million (for 1992), a pipeline is likely to obtain the clearances required by § 157.206(d) prior to entering into contracts for the actual construction or ordering the necessary equipment for the job. Therefore, submitting this information 30 days prior to the start of construction is not unreasonable and should not delay planned activities. In any event, in an unusual situation a pipeline may seek a waiver of the requirement.

[50] Section 311(a)(2) service is service by an intrastate pipeline on behalf of an interstate pipeline or an LDC served by an interstate pipeline.

[51] Advance Notification NOPR, IV FERC Stats. & Regs. at 32,617.

D. Reporting Requirements

1. One-Time Reports

It is likely that some section 311 construction or § 2.55(b) replacement activities may have commenced, or will commence, during the hiatus when the pre-Order No. 525 regulations are in effect—*i.e.*, between July 14, 1992 (the day the court's opinion in Tennessee issued) and the date this final rule takes effect (*i.e.*, November 9, 1992). Accordingly, to avoid a gap in the Commission's knowledge of projects commenced during that time, we are adopting the proposal set forth in the NOPR, at § 2.55(b)(4)(i) and § 284.11(d)(1) of the final regulations, and requiring pipelines to submit, within 30 days of this rule's effective date, a one-time report informing the Commission of every construction and replacement project costing more than $8.2 million that they commenced during the hiatus. If, for any reason, a pipeline filed an advance notification for a project commenced on or after July 14, 1992, it may reference that filing in its one-time report without repeating the required information.

2. Annual Reports

Additionally, we are adopting an annual reporting requirement at § 2.55(b)(4)(ii) and § 284.11(d)(2) of the final regulations. Under it, a company must file an annual report by May 1 of each year that includes, for each section 311 construction and § 2.55(b) replacement activity that it completed during the previous calendar year that was exempt from the advance notification requirement, the information required for an advance notification.

The annual reporting requirement will serve two purposes. First, it will allow the Commission to verify that pipelines are complying on their own with all applicable environmental requirements and, consequently, that the limited advance notification requirement is working. Second, as it will inform the Commission of all projects not subject to the advance notification requirement, it will bridge a gap in the Commission's knowledge of such activities. We note that this annual reporting requirement parallels a similar reporting requirement for projects authorized under the Part 157, Subpart F automatic authorization.[52]

In preparing this annual report, a company need not repeat information that is common to all projects. For example, if the company uses the same erosion control plan for all projects, it only has to describe it once. This should simplify and make less burdensome the requirement.

E. Matters Not Within the Scope Of This Proceeding

We noted in the NOPR that the proposed regulation at § 2.55(b) was somewhat different from the one adopted in Order No. 555 (which we described above, and which was stayed pending rehearing generally of Order No. 555). Because of the need to react quickly to the court's decision in Tennessee to ensure that some mechanism was in place to enable us to review both section 311 construction and § 2.55(b) replacement activities before construction commenced, we stated that we would not consider in this proceeding any of the issues raised on rehearing of Order No. 555 concerning the § 2.55(b) regulation adopted there.[53] We also should have stated expressly that we would not consider here any section 311 issues raised on rehearing of Order No. 555.

In this regard, we note that AGA, AGD, NI-Gas, and So-Cal have urged here that a pipeline be required to give either public notice of section 311 construction, or at least notice to affected LDCs and state commissions, in addition to Commission notification. That matter not only is at issue on rehearing of Order No. 555 but also is outside the publicly noticed scope of this proceeding. Accordingly, we will not address it here.

F. Conclusion

In sum, we conclude that a 30-day advance notification requirement is necessary to enable the Commission to review extensive section 311 construction and § 2.55(b) replacement activities before they occur. It will enable the Commission, in the case of section 311 construction, to ensue that a pipeline has complied with the environmental requirements of § 157.206(d) of the regulations, and, in the case of § 2.55(b) replacements, to determine whether additional environmental review is needed. For purposes of this rule, only section 311 construction and § 2.55(b) replacement projects costing more than the cost limit specified in Column 1 of Table I of § 157.208(d) of the regulations will be considered extensive and thus subject to the 30-day advance notification requirement.

In practical terms, this should eliminate the vast majority of replacement and section 311 projects from the scope of the advance notification requirement. We note that, in the 25 months between August 2, 1990 (the day the interim rule took effect) and September 2, 1992, the Commission received 699 advance notifications for § 2.55(b) replacement projects and 202 advance notifications for section 311 projects. Only 25 of the former, and 5 of the latter, were for projects costing more than $8.2 million.

Finally, to avert any possible conflict with DOT regulations, § 2.55(b) replacements that are required to be performed immediately under DOT safety regulations will not be subject to the advance notification requirement.

VII. Environmental Analysis

Commission regulations require that an EA or EIS be prepared for any Commission action that may have a significant adverse effect on the human environment.[54] The Commission has categorically excluded certain actions from these requirements on the ground that they do not have a significant effect on the human environment.[55]

The final rule requires pipelines to notify the Commission prior to commencing certain construction activities. However, it does not alter the inherent nature of the activities or their impact upon the human environment. Accordingly, an EA is unnecessary and was not prepared.

VIII. Regulatory Flexibility Act Certification

The Commission certifies, pursuant to the Regulatory Flexibility Act of 1980 (RFA),[56] that the final rule will not have a "significant economic impact on a substantial number of small entities."[57] The RFA is intended to ensure careful and informed agency consideration of rules that may significantly affect small entities and to encourage consideration of alternative approaches to minimize harm or burdens to small entities.

We conclude that this rule will not have a significant economic impact, within the meaning of the RFA, on a substantial number of small entities, largely because we do not believe that most of the entities that will be affected by it fall within the RFA's definition of "small entity."[58] However, even if the

[58] Section 601 of the RFA defines "small entity" as a small business, a small not-for-profit enterprise, or a small governmental jurisdiction. In turn, a "small business" is defined by reference to section 3 of the Small Business Act as an enterprise which is

Continued

final rule were to affect a substantial number of small entities, we do not believe that its impact would be substantial. First, a substantial number of section 311 construction and § 2.55(b) replacement projects have been excluded from the scope of the final rule. Second, both the time needed to prepare an advance notification and the cost of doing so should be modest.

IX. Information Collection Requirements

The regulations of the Office of Management and Budget (OMB) require that OMB approve certain information collection requirements imposed by agency rules.[59]

The information collection form affected by the final rule's advance notification requirement is FERC–577(A), Gas Pipeline Certificates: Environmental Impact Statement, (1902–161). This information collection is required to enable the Commission to carry out its legislative mandate under the NGA, NGPA, and NEPA. As previously discussed, the information required by the advance notification requirement will permit the Commission to review extensive section 311 construction and § 2.55(b) replacement activities before they commence and, where necessary, to intervene. In addition, the annual report required by the final rule for projects not subject to the advance notification requirement will enable the Commission to verify pipelines' compliance with all applicable environmental requirements and, further, will bridge a gap in the Commission's knowledge of such projects.

An estimated 55 respondents on average per year will be affected by the final rule. The respondents will consist mostly of large interstate pipeline companies (approximately 50), with a few (approximately 5) medium to large intrastate pipeline companies. As stated, the public reporting burden with respect to the advance notification requirement is estimated to average approximately 5 burden hours per response. The public reporting burden with respect to the annual reporting requirement is estimated to average approximately 41 burden hours per response. The total public reporting burden with respect to the advance notification and annual reporting requirements is estimated to average approximately 33.3 hours per response or approximately 2,330 burden hours per year.

"independently owned and operated and which is not dominant in its field of operation." 15 U.S.C. 632(a) (1988).

Secretary.

PART 2—GENERAL POLICY AND INTERPRETATIONS

1. The authority citation for part 2 continues to read as follows:

Authority: 15 U.S.C. 717–717w, 3301–3432; 16 U.S.C. 792–825r, 2601–2645; and 42 U.S.C. 4321–4361, 7101–7352.

2. In § 2.55, paragraph (b) is revised to read as follows:

§ 2.55 Definition of terms used in section 7(c).

* * * * *

(b) *Replacement of facilities.* (1) Facilities which constitute the replacement of existing facilities that have or will soon become physically deteriorated or obsolete, to the extent that replacement is deemed advisable, if:

(i) The replacement will not result in a reduction or abandonment of service through the facilities;

(ii) The replacement facilities will have a substantially equivalent designed delivery capacity as the facilities being replaced; and

(iii) Except as described in paragraph (b)(2) of this section, the company files notification of such activity with the Commission at least 30 days prior to commencing construction.

(2) *Advance notification not required.* The advance notification described in paragraph (b)(1)(iii) of this section is not required if:

(i) The cost of the replacement project does not exceed the cost limit specified in Column 1 of Table I of § 157.208(d) of this chapter; or

(ii) U.S. Department of Transportation safety regulations require that the replacement activity be performed immediately;

(3) *Contents of the advance notification.* The advance notification described in paragraph (b)(1)(iii) of this section must include the following information:

(i) A brief description of the facilities to be replaced (including pipeline size and length, compression horsepower, design capacity, and cost of construction);

(ii) Current U.S. Geological Survey 7.5-minute series topographic maps showing the location of the facilities to be replaced; and

(iii) A description of the procedures to be used for erosion control, revegetation and maintenance, and stream and wetland crossings.

(4) *Reporting requirements.* (i) *One-time report.* A company must file (on electronic media pursuant to § 385.2011 of this chapter, accompanied by 7 paper copies) a one-time report with the Commission, by December 9, 1992, that includes all of the information required in paragraph (b)(3) of this section, for any replacement activity authorized under paragraph (b)(1) of this section that cost more than $8.2 million and was commenced between July 14, 1992 and November 9, 1992.

(ii) *Annual report.* On or before May 1 of each year, a company must file (on electronic media pursuant to § 385.2011 of this chapter, accompanied by 7 paper copies) an annual report that lists for the previous calendar year each replacement project that was completed pursuant to paragraph (b)(1) of this section and that was exempt from the advance notification requirement pursuant to paragraph (b)(2) of this section. For each such replacement project, the company must include all of the information described in paragraph (b)(3) of this section.

* * * * *

PART 284—CERTAIN SALES AND TRANSPORTATION OF NATURAL GAS UNDER THE NATURAL GAS POLICY ACT OF 1978 AND RELATED AUTHORITIES

3. The authority citation for part 284 is revised to read as follows:

Authority: 15 U.S.C. 717–717w; 15 U.S.C. 3301–3432; 42 U.S.C. 7101–7352; 43 U.S.C. 1331–1356.

4. Section 284.11 is revised to read as follows:

§ 284.11 Environmental compliance.

(a) Any activity involving the construction of, or the abandonment with removal of, facilities that is

authorized pursuant to § 284.3(c) and Subpart B or C of this part is subject to the terms and conditions of § 157.206(d) of this chapter.

(b) *Advance notification*—(1) *General rule.* Except as provided in paragraph (b)(2) of this section, at least 30 days prior to commencing construction a company must file notification with the Commission of any activity described in paragraph (a) of this section.

(2) *Exception.* The advance notification described in paragraph (b)(1) of this section is not required if the cost of the project does not exceed the cost limit specified in Column 1 of Table I of § 157.208(d) of this chapter.

(c) *Contents of advance notification.* The advance notification described in paragraph (b)(1) of this section must include the following information:

(1) A brief description of the facilities to be constructed or abandoned with removal of facilities (including pipeline size and length, compression horsepower, design capacity, and cost of construction);

(2) Evidence of having complied with each provision of § 157.206(d) of this chapter;

(3) Current U.S. Geological Survey 7.5-minute series topographical maps showing the location of the facilities; and

(4) A description of the procedures to be used for erosion control, revegetation and maintenance, and stream and wetland crossings.

(d) *Reporting requirements*—(1) *One-time report.* A company must file (on electronic media pursuant to § 385.2011 of this chapter, accompanied by 7 paper copies) a one-time report with the Commission, by December 9, 1992, that includes all of the information required in paragraph (c) of this section, for any activity described in paragraph (a) of this section that cost more than $6.2 million and was commenced between July 14, 1992 and November 9, 1992.

(2) *Annual report.* On or before May 1 of each year, a company must file (on electronic media pursuant to § 385.2011 of this chapter, accompanied by 7 paper copies) an annual report that lists for the previous calendar year each activity that is described in paragraph (a) of this section, and which was completed during the previous calendar year and exempt from the advance notification requirement pursuant to paragraph (b)(2) of this section. For each such activity, the company must include all of the information described in paragraph (c) of this section.

18 CFR Part 284

[Docket No. RM90-7-001; Order No. 537-A]

Revisions to Regulations Governing Transportation Under Section 311 of the Natural Gas Policy Act of 1978 and Blanket Transportation Certificates

Issued September 21, 1992

AGENCY: Federal Energy Regulatory Commission (Commission) DOE.

ACTION: Order on rehearing.

SUMMARY: On September 20, 1991, the Commission issued a final rule to revise its regulations governing transportation of natural gas by interstate and intrastate pipelines under section 311 of the Natural Gas Policy Act of 1978 (NGPA), and interstate pipelines under blanket certificates issued pursuant to Commission regulations. Order No. 537-A addresses requests for rehearing and/or clarification filed by ten parties.

In addition to clarifying various provisions of the final rule, Order No. 537-A grants rehearing with respect to new section 284.227 of the regulations promulgated by the final rule. Specifically, Order No. 537-A clarifies that intrastate pipelines holding limited-jurisdiction blanket certificates under section 284.227 may act in a chain to transport gas gathered by gathers in adjacent state or Federal waters for delivery in the intrastate pipelines' state of operation.

EFFECTIVE DATE: November 4, 1991.

FOR FURTHER INFORMATION CONTACT: Jack O. Kendall, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, (202) 208-1022.

SUPPLEMENTARY INFORMATION: In addition to publishing the full text of this document in the **Federal Register**, the Commission has made this document available so that all interested persons may inspect or copy its contents during normal business hours in room 3308, 941 North Capitol Street, NE., Washington, DC 20426.

The Commission Issuance Posting System (CIPS), an electronic bulletin board service, provides access to the texts of formal documents issued by the Commission. CIPS is available at no charge to the user and may be accessed using a personal computer with a modem by dialing (202) 208-1397. To access CIPS, set your communications software to use 300, 1200, or 2400 baud, full duplex, no parity, 8 data bits, and 1 stop bit. The full text of Order No. 537-A will be available on CIPS for 30 days from the date of issuance. The complete text on diskette in WordPerfect format may also be purchased from the Commission's copy contractor, La Dorn Systems Corporation, also located in room 3308, 941 North Capitol Street, NE., Washington, DC 20426.

Order on Rehearing

Before Commissioners: Martin L. Allday, Chairman; Charles A. Trabandt, Elizabeth Anne Moler, Jerry J. Langdon and Branko Terzic.

Revisions to Regulations Governing Transportation under section 311 of the Natural Gas Policy Act of 1978 and Blanket Transportation Certificates, Docket No. RM90-7-001; Hadson Gas Systems, Inc., Docket No. GP88-11-004; Cascade Natural Gas Corp. v. Northwest Pipeline Corporation, *et al.*, Docket No. CP88-286-005; and Texas Eastern Transmission Corporation, Docket Nos. RP88-61-015, RP88-67-048, RP88-175-003.

I. Introduction

On September 20, 1991, the Federal Energy Regulatory Commission

(Commission) issued Order No. 537,[1] a final rule revising the regulations governing transportation by interstate and intrastate pipelines under section 311 of the Natural Gas Policy Act of 1978 (NGPA).[2] The final rule also revised the prior notice and protest procedures applicable to interstate pipelines' activities under part 284 blanket transportation certificates.[3] This order addresses requests for rehearing and clarification filed by Associated Gas Distributors (Gas Distributors), Association of Texas Intrastate Natural Gas Pipelines (Texas Intrastates), Houston Pipe Line Company (Houston), Ozark Gas Transmission (Ozark), United Texas Transmission Company (United Texas), Transcontinental Gas Pipe Line Corporation (Transco), United Distribution Companies (United Distribution), and Washington Gas Light Company, Frederick Gas Company, Inc., and Shenandoah Gas Company (Washington Gas), filing jointly.

II. Background

The final rule adopted a new interpretation of the "on behalf of" standard in section 311 of the NGPA, as applied to both interstate and intrastate pipelines.[4] Under the new rule, a transaction is authorized under section 311 if the "on behalf of" entity (1) has physical custody of and transports the gas at some point, or (2) holds title to the gas at some point for a purpose related to its identity as an intrastate pipeline, interstate pipeline, or local distribution company (LDC).[5] Further, an interstate pipeline's transportation service will qualify for section 311 authorization when the shipper/customer is either located in an LDC's service area or physically capable of receiving gas supplies directly from an intrastate pipeline if that LDC or intrastate pipeline certifies that the interstate pipeline's transportation service is on its behalf.

The final rule also adopted a new § 284.227 to provide limited-jurisdiction, blanket certificate authority under section 7 of the Natural Gas Act (NGA) authorizing intrastate pipelines to deliver directly to end users in their own states gas received by the intrastate pipelines from gatherers that gathered the gas in adjacent Federal waters or onshore or offshore in an adjacent state. Intrastate pipelines operating under this new authority must, with the exception of the "on behalf of" standard, comply with all conditions of subpart C of part 284, with subpart regulates intrastate pipelines performing services under section 311 of the NGPA.

The blanket certificate transportation regulations which apply to interstate pipelines were also revised in the final rule to operate similarly to the regulations in Subpart B of Part 284 governing section 311 transportation services performed by intrastate pipelines. The result of these revisions is that if any party files a complaint regarding an interstate pipeline's commencement of service, the interstate pipeline is able to continue service without interruption until the Commission issues an order requiring that the transportation service cease. These notification requirements applying to interstate pipelines performing service under blanket certificates were also revised to mirror those governing section 311 transportation services. The revised regulations provide that a pipeline that would provide service to a customer located in an LDC's service area is required to give prior written notice only to the LDC and its regulatory agency.

III. Requests for Rehearing and Clarification

A. Section 311 Issues

LDC Certification

In some instances, an interstate pipeline may receive gas that has been transported upstream by an intrastate pipeline. The interstate pipeline may rely on section 311 authority to deliver the gas directly to an end user, if the upstream intrastate pipeline is the designated "on behalf of" entity. In such instances, among others, the interstate pipeline's section 311 transportation authority does not depend on an "on behalf of" certification by an LDC whose service area includes the end user. However, in any instance where an end user is located in an LDC's service area, § 284.106(a)(4) of the regulations requires notification to the LDC prior to an interstate pipeline transporting gas under section 311 in an arrangement that will bypass the LDC.

United Distribution claims that an LDC within whose service area and end user is located should always certify that the transportation is on its behalf in order to prevent contorted transactions designed to avoid giving an LDC notice, or obtaining the LDC's support, and to prevent the construction of duplicative facilities. United Distribution emphasizes that the LDC may have existing facilities in the area and may still be under public service obligations to provide service to the customer.

The Commission's Response

In any situation where an intrastate pipeline is performing a qualifying function and has agreed to be the on behalf of entity, the Commission is unwilling to mandate that an interstate pipeline must always get the LDC's certification when transporting in the LDC's service area. Granting this authority to LDC's would effectively enable them to veto a potential transaction. This would frustrate and distort the market oriented industry structure the Commission is establishing. Section 311 of the NGPA sought to integrate intrastate and interstate gas markets by providing authority for interstate pipelines to transport on behalf of either intrastate pipelines or LDCs; thus, market integration is promoted if the interstate pipeline transports for the end user on behalf of either entity. We note, however, that even if the designated on behalf of entity is the intrastate pipeline, the interstate pipeline must give the LDC notice of the transaction. Notice to the LDC is required even though the LDC's certification is not.

Further, the state authorities have the means to address and adjust an LDC's service obligation to a particular end user served by an interstate pipeline transporting gas on behalf of an intrastate. Additionally, a state commission could adjust an LDC's service obligation to the extent that obligation would require the LDC to construct duplicative facilities. Moreover, the construction of duplicative facilities to permit transportation service by an interstate pipeline on behalf of an intrastate pipeline is not necessarily wasteful, but instead may be an efficient outcome if it is the result of economic pressure created by fair competition.

For instance, the construction of facilities by an interstate pipeline may allow an end user to choose among alternate sources of supply, instead of

---

[1] 56 FR 50235 (Oct. 4, 1991). FERC Stats. & Regs., Regs. Preambles, ¶ 30,927 (1991).

[2] 15 U.S.C. 3301–3432 (1988).

[3] 18 CFR 284.221.

[4] On August 2, 1990, the Commission issued a notice of proposed rulemaking (NOPR) stating its intent to revise its interpretation of the "on behalf of" standard of section 311 transportation for interstate pipelines as mandated by the Court in *Associated Gas Distributors* v. *FERC*, 899 F. 2d 1250 (D.C. Cir. 1990), *reh'g denied*, No. 88–1856 (D.C. Cir June 4, 1990). The Commission proposed to revise the standard as applied to intrastate pipelines as well. The Commission also proposed to substitute notification procedures applicable to Part 284 blanket certificates with procedures similar to those applicable to section 311 transportation services.

[5] An interstate pipeline may transport gas under section 311 authorization for services performed on behalf of an intrastate pipeline or an LDC; an intrastate may transport gas under section 311 authorization for services performed on behalf of an interstate pipeline or an LDC.

being limited to an LDC as its single source of potential gas supply. Such duplication in facilities is not wasteful, in our view, if it serves to increase competition among companies to provide gas to an end user, and if the construction is not unfairly subsized by other customers of the pipeline who will benefit from the facilities.

In the absence of unfair competition (*e.g.*, price squeeze or undue discrimination), our policy of permitting interstate pipelines to bypass service provided by, or which may be provided by, an LDC benefits all segments of the natural gas industry by increasing direct access to transportation and supply markets; encouraging responsiveness to supply and price signals; imposing on LDC's (which often have monopoly power) the need to discipline costs to maintain customers bases; and allowing pipelines to compete for markets served inefficiently.

The question of who should bear the cost burden of facilities which bypass LDC's can be resolved by the Commission when a pipeline seeks to recover the costs in a rate case. Any issues of unfair competition can be addressed through complaint proceedings. Under these circumstances, we believe that the rule provides adequate protection for consumers and LDCs alike against unfair competition and any wasteful duplication of facilities.

For the above reasons, we will deny United Distribution's request for rehearing on this issue.

Pipeline Tariff Requirements

United Distribution also requests that the Commission clarify that transactions which qualify as section 311 transportation under the rule's on behalf of standard do not also have to satisfy the "shipper must own" provisions in a pipeline's open access transportation tariff.

The Commission's Response

As noted both in the final rule and here, there are instances in which an interstate pipeline's transportation of gas qualifies as on behalf of an intrastate pipeline or LDC, but which does not involve the on behalf of entity holding title to the gas while it is being transported by the interstate pipeline. Thus, although a pipeline's tariff may require that the shipper hold title to gas while it is in the interstate pipeline's system, the on behalf of entity may hold title at some other point in the gas's journey to an end user or LDC. Therefore, the "shipper must own provisions" of a pipeline's tariff are not necessarily inconsistent with the standards for qualifying under section 311 as an on behalf of entity. However, a pipeline's tariff may not require that the shipper and the on behalf of entity be the same entity.

Section 311 Facilities Used for Converted Transportation

Transco submits that the Commission failed to prescribe a reasonable period of time for interstate pipelines to obtain certificate authority under section 7(c) of the NGA authorizing the operation of facilities built under section 311 authority, but now used for converted transportation service.[6] In the interim rule, the Commission exercised its authority under the exemption provision of section 7 of the NGA to permit the continued use of uncertificated section 311 facilities for converted transactions for the duration of the interim rule without the issuance of NGA certificates. In the final rule, the Commission denied Transco's Entrade's and PSI Marketing's requests to extend the section 7(c) exemption for section 311 facilities affected by the final rule. The final rule did not provide a time period in which interstate pipelines were required to obtain the necessary authorization to operate the facilities under section 7 of the NGA. The result, Transco asserts, is that the temporary authorization for the continued use of section 311 facilities expired upon the effective date of the final rule.

Transco requests that the Commission grant pipelines a three month period after the effective date of the final rule to obtain necessary authorizations. Transco states that the Commission's failure to prescribe a reasonable time period must have been unintentional since the Commission acknowledged in the interim rule that pipelines may need to obtain an NGA certificate authorization for the use of the facilities for converted services.[7] Transco also requests the Commission to extend the authorization necessary for the continued use of these section 311 facilities for converted transportation service until such time as an NGA certificate is obtained, for a period of time not to exceed three months.

The Commission Response

As we noted in the final rule, there are some section 311 facilities constructed prior to the interim rule that would have been eligible under the automatic or prior notice provisions for construction by interstate pipelines under their part 157, subpart F, blanket certificates; and we granted Transco's request for clarification that interstate pipelines may seek NGA certification for qualifying section 311 facilities under Part 157's automatic and prior notice blanket construction procedures.[8] On the other hand, some pipelines may need to file case-specific certificate applications for certain facilities which are not eligible under the automatic or prior notice provisions of Part 157. We conclude that it would have been appropriate to provide for a reasonable time period in which pipelines could apply for appropriate authority to operate facilities constructed prior to the interim rule and now used to provide converted services.

In the time period since the final rule was issued, many pipelines are likely to have applied for and obtained appropriate certificate authority to operate the facilities formerly operated pursuant to section 311 of the NGPA. However, since the final rule did not provide a time frame for doing so and since rehearing on this issue was pending, there may have been uncertainty in the industry as to when pipelines were required to obtain authority to operate facilities constructed prior to the interim rule and now used for converted section 311 service. Some pipelines may have delayed filing for appropriate authority in anticipation of clarification or rehearing of the final rule. To allay any concern regarding whether pipelines which have not yet applied for section 7(c) authority have been authorized to operate section 311 facilities currently used for converted transportation, we clarify that the temporary exemption has continued and will be continued until the pipelines obtain appropriate authority, as discussed below.

Pipelines which have not filed for appropriate certificate authority under the NGA will have three months from the date of issuance of this order on rehearing in which to apply. To the extent such authority has not been obtained within the three-month time period, the Commission will consider

[6] On the same day the NOPR was issued, the Commission issued an interim rule adopting the "hold title or transport" interpretation of the on behalf of standard for section 311 transportation performed by interstate pipelines until a final rule was promulgated. In addition to adopting the safe harbor standard, the Commission established procedures to expedite the conversion of existing section 311 transportation services to blanket certificates authorizations so as to prevent market disruption. FERC Stats. & Regs., Reg. Preambles (1986–1990), ¶30,894, *amended*, FERC Stats. & Regs., Reg. Preambles (1986–1990), ¶30,898, *reh'g denied*, 53 FERC ¶ 61,141 (1990).

[7] FERC Stats. & Regs., Reg. Preambles (1986–1990), ¶30,894 at 31,795 n.7 (1990).

[8] FERC Stats. & Regs. Preambles, ¶30,927 at 30,208 (1991).

extensions of time on a case-by-case basis for pipelines with pending applications or prior notice filings. However, we urge all pipelines that must apply for certificate authority to do so as early as possible within the three-month time period.

B. New Section 284.227 Issues

Chain Transportation

Texas Intrastates, Houston, and United Texas request that the Commission revise new § 284.227 so that an intrastate pipeline may be eligible for a certificate to transport gas received from a qualifying gatherer to another intrastate pipeline in the same state which, in turn, delivers the gas to either another intrastate pipeline or an end user, thereby creating a chain of intrastate pipeline transportation links between the gatherer and the end user.

The parties point out that under the adopted § 284.227, the only transactions that appear qualify for the limited-jurisdiction blanket certificate involve a single intrastate pipeline as the link between the qualifying gatherer and the end user.

The Commission's Response

The final rule addressed circumstances where an intrastate pipeline receives gas from a gatherer who had gathered the gas from an adjacent State or from Federal waters and the intrastate pipeline's state of operation. In such cases, the intrastate does not necessarily transport the gas on behalf of an LDC or an interstate pipeline under the rule's new interpretation of the "on behalf of" requirement; therefore, the transportation is not authorized under section 311 of the NGPA. However, since the gas originates in an adjacent state or Federal waters, the intrastate is transporting the gas in interstate commerce. The question, therefore, arose as to the type of authority necessary to permit this type of transaction to occur without subjecting the intrastate pipeline and all of its facilities and operations to the jurisdiction of the Commission.

Through recognizing that only a small portion of intrastate pipelines' services include such transactions, the Commission concluded that transaction structured in this manner do enable parties to make efficient gas delivery arrangements and, while not authorized under section 311, do promote section 311's purpose of eliminating artificial restraints on the movement of gas supplies between interstate and intrastate markets. Accordingly, the rule adopted a new § 284.227 to provide that an intrastate pipeline would be eligible for a limited-jurisdiction blanket certificate in order to transport gas in the above-described situation.

As noted, the parties requesting rehearing point out that transaction involving gas gathered in an adjacent State or in Federal waters can be structured so that more than one intrastate pipeline provides the links between the gatherer and the end user. The parties emphasize that all of the intrastate pipelines would operate in the same State and the gas received from the gatherer would not leave the State in which the intrastate pipelines operate. Thus, these parties urge the Commission to revise § 284.227 to ensure that each intrastate pipeline's link is authorized in this type of transaction.

We agree that the requested revision of new § 284.227 is appropriate. As with single link transactions involving one intrastate pipeline, arrangements involving more than one intrastate pipeline, also promote section 311's purpose of eliminating artificial restraints on the movement of gas supplies between interstate and intrastate gas markets.

Therefore, in order to ensure that intrastate pipelines will be able to continue their involvement with these types of transactions, § 284.227 will be revised to clarify that more than one intrastate pipeline may rely on § 284.227's blanket certificate authorization to transport gas produced in adjacent Federal waters or onshore or offshore in an adjacent State if 91) the gas was received by the intrastate pipeline from a gatherer or other intrastate pipeline; (2) the intrastate pipeline delivers the gas in the intrastate pipeline's state of operation to an end user or another intrastate pipeline; and (3) the gas is ultimately used by an end user in the same State.

Section 601 Protection

Texas Intrastates and Houston further assert that since the limited-jurisdiction, blanket certificates will be authorized by section 7 of the NGA, rather than section 311 of the NGPA, intrastate pipelines that provide transportation services pursuant to such certificates are not longer afforded the protection of section 601 of the NGPA. Section 601 insulates an intrastate pipeline's section 311(a)(2) activities from the Commission's jurisdiction. They suggest a number of possible solutions to correct this alleged oversight.

The Commission's Response

The Commission stated in the final rule that an intrastate pipeline's acceptance of a blanket certificate under § 284.227, "will not subject the intrastate pipeline to the Commission's jurisdiction under the Natural Gas Act except to the extent necessary to ensure that services provided by the intrastate pipeline under the blanket certificate comply with the terms and conditions of the certificate."[9] The limited jurisdiction of the certificate attaches when the intrastate pipeline receives the gas to transport and ceases when it delivers the gas to its recipient, either an end-user or another intrastate pipeline.

Texas Intrastate's and Houston's concern is based on an assumption that because the gas which is moving in interstate commerce pursuant to an intrastate pipeline's limited-jurisdiction certificate will be commingled with gas moving in connection with the intrastate pipeline's nonjurisdictional activities, all of the gas in the system and the transportation of the commingled gas will become subject to Federal jurisdiction. This might be the result if the intrastate pipeline were undertaking these activities without its limited-jurisdiction certificate; however, the limited-jurisdiction certificate prevents this result. We reiterate that transportation performed pursuant to the limited-jurisdiction certificate authorized in § 284.227 will not affect the jurisdictional status of an intrastate's other activities.

Notice Requirements

United Distribution suggests that the Commission may not have met the notice and comments requirements of the Administrative Procedure Act (APA), 5 U.S.C. §§ 551 *et seq.*, since the limited-jurisdiction, blanket certificates were not raised in the NOPR. United Distribution is concerned about the potential use of the new certificates, with respect to both the number of intrastate pipelines using them and the types of services to be provided. To enable it to determine the impact of the new certificates, United Distribution requests clarification that an intrastate pipeline that accepts a limited-jurisdiction, blanket certificate under § 284.227 is subject to the same notice requirements as an interstate pipeline transporting under a part 284 blanket certificate.

The Commission's Response

We disagree with United Distribution's assertion that the APA's notice and comments requirements may not have been met. Although the limited-jurisdiction certificates were not

[9] FERC Stats. & Regs., Regs. Preambles, ¶ 30,927 at 30,203 (1991).

specifically mentioned in the NOPR, § 284.227 is a logical outgrowth of the notice and comments already given.[10] The Commission proposed in the NOPR to revise the regulations governing section 311 transportation by intrastate pipelines. As stated in the final rule, Texas Intrastates and Houston raised in their comments the issue of how to treat transactions previously performed under section 311 involving intrastate pipelines and gatherers that gathered the gas in adjacent Federal waters or onshore or offshore in adjacent states. The adoption of § 284.227 was a logical and rational resolution of this issue.

United Distribution also asks that the Commission clarify that an intrastate pipeline holding a certificate under § 284.227 is subject to the same notice requirements as an interstate pipeline transporting under its part 284 blanket certificate transportation. We note that section 284.227(e) provides that the intrastate pipeline's authority is subject to the intrastate pipeline's compliance with all the terms and conditions of subpart C of part 284, which includes the reporting requirements of § 284.126.

C. Prior Notice and Protest Procedure Issues

Removal of the Prior Notice and Protest Procedures

Gas Distributors, Washington Gas, and United Distribution oppose the revisions to the prior notice and protest procedures applicable to intrastate pipelines performing transportation services under their part 284 blanket certificates. These parties maintain that the notice and protest procedures are an essential element of blanket certificate transportation services and assist the Commission in the administration of its section 7(c) duties. They further argue that the revisions are contrary to the public interest and in conflict with Order No. 436.[11] They contend that the Commission's assertion of administrative burden is unsubstantiated and an inadequate justification for depriving interested parties of notice and an opportunity to be heard.

Gas Distributors, Washington Gas, and United Distribution maintain that, contrary to the Commission's assertions, the complaint procedures are insufficient to handle potential protests of blanket certificate transportation transactions. They contend that the time involved in the processing of complaints is too long for this to be a viable forum for resolution of matters related to open-access transportation. Gas Distributors and Washington Gas suggest that the Commission consider promulgating regulations, such as requiring the resolution of complaints within 60 days, to ensure that the process is more reliable.

They further submit that the Commission erred when it stated in the final rule that LDCs will have sufficient notice of transportation transactions by interstate pipelines when sales and delivery taps are constructed under a pipeline's part 157, Subpart F, blanket facilities certificate because the Commission, in Order No. 555, eliminated any requirement for notice to anyone other than the Commission for certain facilities.[12]

Gas Distributors, Washington Gas, and United Distribution believe that, rather than substituting the section 311 notification requirement for the blanket regulations' notice and protest procedures, the blanket regulations should have been substituted for the section 311 provisions. If the Commission does not impose the notice and protest procedures on section 311 transportation, at a minimum, the Commission should revise the section 311 notice procedures to require thirty days prior public notice, rather than requiring notice to an LDC and its state agency at any time prior to the commencement of the transportation. Thus, even if an LDC is not on behalf of the party, it would receive at least thirty days notice. Such a measure would allot the LDC a sufficient period to respond competitively to the possible changes in service demand and cost.

The Commission Response

As stated in the final rule, every individual blanket transportation service need not be made subject to the notice and hearing requirements of section 7(c) of the NGA. The rulemaking proceeding satisfies the NGA's statutory hearing requirements.

Furthermore, the fact that in Order No. 436 the Commission chose to impose a **Federal Register** notice requirement and other specific protest procedures for blanket certificate transportation services did not bar the Commission from modifying such procedures at a later date. Although the Commission concluded in Order No. 436 that the notice and protest procedures for blanket transportation services would be an effective mechanism for protecting the interests of parties concerned about specific open-access transactions, even though experience up to that point in time showed that few protests were filed, the Commission was free to reevaluate that conclusion at a later date. It is well established that an administrative agency may depart from prior policy or an earlier interpretation of a regulation if the departure is adequately explained and justified.[13]

In the instant rulemaking, the Commission discussed several reasons why it is reasonable to conclude that the notice and protest procedures at issue here are no longer necessary for blanket certificate transportation services. For example, the Commission found that there continued to be only a relatively few protests filed and that most such protests were really in the nature of complaints. Thus, the issues raised were inappropriate within the context of the notice and protest procedures. It was therefore, reasonable for the Commission to conclude that the remaining pleadings appropriately styled as protests, only 10 since Order No. 436 was issued, could be resolved through the Commission's complaint process.[14]

Additionally, the Commission concluded that the administrative burden and expense associated with notice in the **Federal Register** of each blanket transportation transaction and the processing of waiver requests could not be justified in light of the fact that so few parties had availed themselves of the previous procedures. Finally, and most importantly, the Commission found that the notice and protest procedures for blanket transportation created a non-market incentive for parties to rely on section 311 authority rather than section 7 blanket authority because of a desire on the part of pipelines to avoid the blanket transportation's notice and protest procedures. In light of the Commission's ongoing commitment to promote market-based decisions in the industry, it is reasonable for the Commission to conclude that the benefits gained by conforming blanket transportation and section 311 notice

[10] Whether an Agency has complied with the notice provisions of the APA depends on whether the final rule is a "logical outgrowth" of the proposed rule and rulemaking proceedings. *Hercules Inc.* v. *U.S. E.P.A.*, 938 F.2d 276 (citing *Small Refiner Lead Phase-Down Task Force* v. *E.P.A.*, 705 F.2d 506, 548–47 (D.C. Cir. 1983)) (D.C. Cir. 1991). See also *Chocolate Manufacturer's Association of United States* v. *Block*, 755 F.2d 1098 (Parties are deprived notice and an opportunity to be heard when a final rule is not a logical outgrowth of the notice and comments) (4th Cir. 1985).

[11] FERC Stats. & Regs., Reg. Preambles 1982–1985, ¶ 30,665 (1985).

[12] FERC Stats. & Regs., Reg. Preambles 1991, ¶ 30,928 (1991).

[13] See, *e.g.*, *Arcadian Gas Pipeline System* v. *FERC*, 878 F.2d 865 (5th Cir. 1989).

[14] We note that of these 10 complaints, none resulted in a finding in favor of the complainant.

procedures outweigh any benefit to interested parties resulting from retaining the notice and protest requirements.

The Commission reiterates its conclusion that the notice requirements put into place in the final rule will suffice to provide adequate information to interested parties. We disagree with the suggestion that the regulations should require notice 30 days before transportation commences in order to allow LDC's to respond competitively. Such a requirement would unnecessarily delay service and would conflict with our goals of creating an efficient market for natural gas. We think the existing compliant procedures provide adequate safeguards against unfair competition.

We also note that petitioners mischaracterize the affect that Order No. 555 would have had on notice requirements because even under the revised regulations adopted in Order No. 555, prior notice would still have been required for the construction of delivery taps, and the new regulations required public notification in newspapers and notification of state governors and attorneys general prior to any construction of interstate facilities.[15]

Services Commenced After September 20, 1991

Ozark states that it began transporting gas under its blanket transportation certificate on October 1, 1991, after the issuance of the final rule, but prior to the rule's effective date, November 4, 1991. Under § 284.223(a) as it was in effect on October 1, 1991, blanket transportation commenced under the authorization in that section is limited to 120 days. Ozark points out that before the 120 day period will run, the final rule will become effective and the provision for prior notice filings under § 284.223 will be eliminated. To avoid filing duplicate "new" reports if it desires to continue transporting after the 120 day period, Ozark requests that the Commission clarify that transportation authorization obtained through 120 day filings made after the filings made after the final rule's date of issuance, but before its effective date, does not expire at the end of the 120 days, but continues for the term of the underlying transaction.

The Commission's Response

The provisions of the final rule became effective November 4, 1991. Any transportation service commenced under a blanket certificate prior to that date must be performed in compliance with the regulations in effect at the time of commencement. Ozark commenced its service under the previously effective regulations and, therefore, must continue under this scheme. Accordingly, if a transportation service was commenced pursuant to previously effective § 284.223(a) after the issuance of the rule, but prior to the rule's effective date, the service was authorized to continue beyond 120 days only if the pipeline complied with the previously effective prior notice procedures. Therefore, the Commission denies Ozark's request.

D. Technical Amendment

A technical amendment to 284.122(d)(2) is being adopted to change the word "intrastate" to "interstate," as reflected in the appended regulatory text.

IV. Effective Date and Paperwork Reduction Act Statement

The technical revisions to § 284.122, as discussed herein, will become effective retroactively to the date revisions promulgated in Order No. 537 became effective, November 4, 1991. The technical revisions are necessary to clarify that intrastate pipelines may transport gas in a chain from certain gathers to end users pursuant to the certificate authorization issued in that section. Because the existing regulatory language is ambiguous as to whether more than one intrastate pipeline may use such authority in a given transaction, some transactions may already have been or are being conducted in this manner. Retroactive application of the revised § 284.122 is necessary to clarify that such authority was available for intrastate pipelines participating in chain transactions of this type and that the participating pipelines were not operating in violation of the NGA. Accordingly, good cause exists to apply the provisions of revised § 284.122 retroactively. Additionally, we note that the Commission is not required to give prior public notice of a technical amendment of the type discussed here.

Further, we note that the Office of Management and Budget's (OMB) regulations require that OMB approve certain collection and recordkeeping requirements imposed by an agency.[16] In connection with the issuance of the final rule, the Commission fully complied with OMB's regulations. This order on rehearing, however, does not have any impact on the collection and recordkeeping requirements already imposed by the final rule. Therefore, it is unnecessary for the Commission to submit this order on rehearing to the OMB for review.

V. Conclusion

List of Subjects in 18 CFR Part 284

Continential Shelf,
Natural gas,
Reporting and recordkeeping requirements.

For the reasons set forth above, the Commission grants rehearing in part, denies rehearing in part and amends part 284, title 18, chapter I, Code of Federal Regulations, as set forth below.

By the Commission. Commissioner Moler dissented with a separate statement attached.

Lois D. Cashell,

Secretary.

PART 284—[AMENDED]

1. The authority citation for part 284 is revised to read as follows:

Authority: 15 U.S.C. 717–717w; 15 U.S.C. 3301–3432; 42 U.S.C. 7101–7352; 43 U.S.C. 1331–1356.

2. In § 284.122, paragraph (d)(2) is amended by removing the word "intrastate" after the words "as an" and inserting in lieu thereof the word "interstate."

3. In § 284.227, paragraph (a) is revised to read as follows:

§ 284.227 Certain transportation by intrastate pipelines.

(a) *Blanket certificate.* A blanket certificate shall issue under this section to any intrastate pipeline that receives natural gas produced in adjacent Federal waters or onshore or offshore in an adjacent state, *provided that*:

(1) The gas must be received by the intrastate pipeline from a gatherer or other intrastate pipeline;

(2) The intrastate pipeline delivers the gas in the intrastate pipeline's state of operation to an end user or another intrastate pipeline; and

(3) The gas ultimately used by an end user in the same state.

RP88–81–015, RP88–67–048, RP88–175–003.

Issued September 21, 1992.

MOLER, Commissioner, *dissenting:*

[15] We note that Order No. 555 has been stayed pending rehearing. 57 FERC ¶61,195 (1991). Thus, the notice provisions relating to construction under blanket certificates have not gone into effect.

[16] 5 CFR 1320.13.

This order raises the issue of whether the Commission will provide local distribution companies (LDCs) a reasonable opportunity to respond to the threat of being bypassed. Faced with complaints that the "on behalf of" definition adopted on remand will encourage bypass, and if so what to do about it, the Commission's response is that the interstate pipeline must give notice of the transaction to the LDC. That "notice" is notice in name only; there is no requirement for advance notice with a meaningful opportunity for the LDC to respond. I have argued for a 30-day notice period to give the LDC that opportunity. My arguments have fallen on deaf ears. This decision is one more example of where the majority has taken steps to make bypass easier while, at the same time, continuing to do nothing to address rate consequences. I simply cannot support the result.

In recent years, the Commission has approved numerous applications filed by interstate pipelines to bypass LDCs, and to serve the end-users behind them directly. The Commission's bypass policy is clear. The Commission will approve a bypass—any bypass—in the absence of unfair competition or undue discrimination.[1] The policy is driven by a desire for the LDCs to compete at the local level to retain their industrial load.

The broad policy has been upheld in the courts.[2] However, the courts have told the Commission in clear terms that we cannot blindly approve bypass:

[I]f parties oppose bypass on the ground that it thwarts state efforts to subsidize residential customers with economic rents secured from businesses, the Commission will have to address such claims.[3]

Rather than developing the requisite policy, the Commission is moving in the opposite direction. It should be clear to all that the Commission will approve, without delay, virtually any bypass negotiated between an interstate pipeline and end-user. At the same time the Commission has done nothing to address the concerns about cost shifts which will occur at the local level. The Commission has either refused to recognize that the cost shifts will occur, saying those cost shifts are speculative, or advised state commissions that certain, unspecified steps, could be taken to avoid any cost shifting. All the while the Commission refuses to reduce the contract demand of a bypassed LDC on either a generic, or case specific, basis, or by reallocating ongoing take or pay costs to the end-user.[4] This is no accident. The Commission's policy makes bypass easier, thwarts LDC's efforts to respond, and refuses to adjust rates once the bypass occurs.

The lack of notice problem is exacerbated by other changes the Commission is making in the rules governing construction. Under the regulations in effect today, interstate pipelines constructing bypass facilities under Section 7(c) of the Natural Gas Act must give LDCs notice of the proposed construction and a 30-day period in which to protest.[5] Protests received, and not withdrawn or otherwise resolved, must be acted on by the Commission. There is no comparable notice and protest requirement for construction of facilities under Section 311 of the NGPA. In addition, in the final rule on NGPA 311 construction, [6] the Commission is allowing the construction of facilities costing up to $6.2 million without notice to any party. The rule refuses to address arguments of various parties [7] favoring a 30-day notice period prior to construction of 311 facilities.[8]

What does this complex set of rules and regulations mean when one takes into account the interplay of the instant order on remand, and the section 311 construction rule? I believe the answer is simple: Construction of bypass facilities costing less than $6.2 million under section 311 of the NGPA can and will occur with no Commission review. Service will be able to commence without any meaningful notice; indeed, actual notice to the LDC and state commission of the operation of those facilities can conceivably occur the second before the commencement of service.

That is not good policy if the purpose of our bypass policy is to force LDCs to compete for service. To compete, the LDC and state commission must first have adequate notice so they can respond with appropriate measures.

In conclusion, one can disagree with what should be the proper vehicle for addressing bypass concerns and what the proper approach should be. However, the Commission must first recognize that a problem exists and then be willing to address that problem. I do not see that willingness presently on the part of the Commission. Thus, I dissent.

Elizabeth Anne Moler,

Commissioner.

[FR Doc. 92-24521 Filed 10-8-92; 8:45 am]

BILLING CODE 6717-01-M

[1] *See* Northern Natural Gas Co., 46 FERC ¶ 61,270, *reh'g denied*, 48 FERC ¶ 61,232 (1989).

[2] *Michigan Consol. Gas Co.* v. *FERC*, 883 F.2d 117 (D.C. Cir. 1989); *Kansas Power and Light Company* v. *FERC*, 891 F.2d 939 (D.C. Cir. 1989); *Cascade Natural Gas Corp.* v. *FERC*, 955 F.2d 1412 (10th Cir. 1992).

[3] Kansas Power and Light, 891 F.2d. 939 at 943.

[4] For example, in Order No. 636-A, the Commission stated that it will consider requests for relief relating to LDC bypass on a case-by-case basis in the context of the new regime of this rule, but will not adopt a policy that would grant automatic relief in all circumstances. Order No. 636-A, 57 FR 36,128 (August 12, 1992), III FERC Stats. & Regs. Preambles ¶30,950 at 30,659 (August 3, 1992). See also Northern Illinois Gas Company v. Natural Gas Pipeline Company of America, 48 FERC ¶61,337 (1989), *order denying reh'g*, 56 FERC ¶61,215 (1991).

[5] 18 CFR 157.205 (1992).

[6] Revisions to Regulations Governing NGPA section 311 Construction and the Replacement of Facilities, RM92-13-000, which is being issued contemporaneously with this Order on Rehearing.

[7] Southern California Gas Company, Northern Illinois Gas Company, Peoples Gas Light and Coke Company, the American Gas Association, and Associated Gas Distributors.

[8] The order says that this matter will be addressed on rehearing of Order No. 555. In Order No. 555, the Commission adopted a rule that would allow sales and delivery taps constructed under section 7(c) to be done without any prior notice and opportunity to comment by the LDC. The effective date of that order has been delayed, pending further action by the Commission. Thus I find it little comfort to tell the LDCs that their bypass arguments will be addressed in that rule.

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Part 10

[T.D. 92-98]

Treatment of Certain Interest Payments Under the United States-Canada Free-Trade Agreement

AGENCY: U.S. Customs, Department of the Treasury.

ACTION: Interim regulation; solicitation of comments.

SUMMARY: This document amends the Customs Regulations pertaining to the treatment of certain costs includable as direct costs of processing or assembling for purposes of the value-content requirement under the United States-Canada Free-Trade Agreement (CFTA). The change is made to reflect the recent recommendations of a panel convened pursuant to Chapter 18 of the CFTA that Article 304 of the CFTA includes any *bona fide* interest payments on debt of any form, secured or unsecured, to finance the acquisition of fixed assets used in the production of goods in the territory of a Party. Comments are solicited regarding the interim regulation particularly addressing procedures which would provide an objective traceable connection between proceeds of a loan and the acquisition of fixed production assets.

DATES: Interim rule effective October 9, 1992. Comments must be received on or before December 8, 1992.

ADDRESSES: Written comments (preferably in triplicate) may be addressed to the Regulations Branch, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, DC 20229. Comments submitted may be inspected at the above location until November 4, 1992, and after November 9, 1992, at 1099 14th St., NW., 4th floor, Washington, DC.

FOR FURTHER INFORMATION CONTACT: John Valentine, International Nomenclature Staff, (202) 566-8530.

SUPPLEMENTARY INFORMATION:

Background

On January 2, 1988, the United States and Canada (the Parties) entered into a

bilateral reciprocal free-trade area agreement: The United States-Canada Free-Trade Agreement (CFTA). The objectives of the CFTA are to eliminate barriers to trade in goods and services between the territories of the Parties, facilitate conditions of fair competition within the free-trade area, liberalize significantly conditions for investment within this free-trade area, establish effective procedures for the joint administration of the CFTA and the resolution of disputes, and lay the foundation for further bilateral and multilateral cooperation to expand and enhance the benefits of the CFTA. Article 304 of the CFTA defines the phrases "direct cost of processing" and "direct cost of assembling" for purposes of applying a specific rule of origin requiring a value-content determination; Chapter 18 of the CFTA provides the institutional framework—a binational Commission and dispute resolution panels as required—for avoiding or settling certain disputes under the CFTA regarding the interpretation or application of CFTA provisions.

The CFTA became law on September 28, 1988, with enactment of the United States-Canada Free-Trade Agreement Implementation Act of 1988 (the Act), Public Law 100-449, 102 Stat. 1851 (codified at 19 U.S.C. 2112 note), and took effect on January 1, 1989. On December 23, 1988, Customs published T.D. 89-3, 53 FR 51762, which set forth interim regulations to implement those portions of the Act which form the basis for determining whether goods imported into the U.S. from Canada are eligible for the preferential duty treatment accorded to goods originating in Canada, and solicited comments regarding the regulations. Sections 10.301-10.311, Customs Regulations (19 CFR 10.301-10.311). Following an analysis of the comments received, the interim regulations became final on January 22, 1992, with the publication of T.D. 92-8, 57 FR 2447.

The final regulations included, at § 10.305(a)(3)(iv), an interpretation of interest expenses that would be treated as a direct cost of processing or assembling for purposes of the CFTA, and provided that "mortgage interest," secured by real property, would be treated as a direct cost of processing or assembling, but only that portion of the interest which is related to real property directly used in the production of exported goods. This interpretation was based in part on an administrative decision dated May 22, 1991, issued in response to an advice request dated November 7, 1989, concerning the treatment of certain interest as a direct cost of processing under Article 304 of the Act.

On January 6, 1992, Canada invoked the dispute settlement mechanism under Chapter 18 of the CFTA. A panel was convened to determine whether the definition of "direct cost of processing" or "direct cost of assembling" set forth in Article 304 of the CFTA included interest payments on debt of any form, secured or unsecured, undertaken to finance the acquisition of fixed assets used in the production of goods in the territory of a Party.

In its Final Report, the Panel concluded that "mortgage interest" includes:

bona fide interest payments on debt of any form, secured or unsecured, undertaken on arm's length terms in the ordinary course of business to finance the acquisition of fixed assets such as real property, a plant, and/or equipment used in the production of goods in the territory of a Party, and that are subject to a determination based on the criteria specified in FTA [CFTA] Annex 301.2, are includable in the 'direct cost of processing' or 'direct cost of assembling' set forth in Article 304 of the FTA [CFTA].

The Panel also determined that the U.S. interpretation of Article 304 contained in the Customs letter and the Customs Regulations relating to interest other than mortgage interest on funds used to acquire real property, equipment and other fixed assets used in the production of the goods was inconsistent with the provisions of the CFTA.

This document amends 19 CFR 10.305(a)(3)(iv) by removing the language limiting the phrase "mortgage interest," thus allowing other forms of interest payments to be includable as the direct cost of processing or assembling for purposes of the CFTA and the Act.

Comments

Before adopting this interim regulation as a final rule, consideration will be given to any written comments timely submitted to Customs. Comments submitted will be available for public inspection in accordance with section 552 of the Freedom of Information Act (5 U.S.C. 552), § 1.4 of the Treasury Department Regulations (31 CFR 1.4), and § 103.11(b) of the Customs Regulations (19 CFR 103.11(b), on regular business days between the hours of 9 a.m. and 4:30 p.m. at the Regulations Branch, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, DC until November 4, 1992, and after November 9, 1992, at 1099 14th St., NW., 4th floor, Washington, DC. Because the governments of the United States and Canada are consulting concerning the establishment of an objective, traceable connection between a loan and production assets, the scrutiny of intra corporation loans, and the ascertainment of ordinary business practices, Customs seeks, in particular, public comments concerning procedures that would provide an objective traceable connection between proceeds of a loan and the acquisition of fixed production assets.

Inapplicability of Notice and Delayed Effective Date Requirements, the Regulatory Flexibility Act, and Executive Order 12291

Pursuant to the provisions of 5 U.S.C. 553(a)(1), public notice is inapplicable to this interim regulation because it implements a provision of the CFTA, which constitutes a foreign affairs function of the U.S. The regulation implements commitments made to foreign governmental entities by the Executive Office of the President and is in accordance with the President's statutory authority regarding administration of the CFTA. Further, because this interim regulation is necessary to support the objectives of the existing CFTA, pursuant to 5 U.S.C. 553(b)(A), public notice is not required. Furthermore, for the above reasons, pursuant to 5 U.S.C. 553(d)(2), the requirement for a delayed effective date is inapplicable. Since this document is not subject to the notice and public procedure requirements of 5 U.S.C. 553, it is not subject to provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this amendment implements a foreign affairs function of the United States, it is not subject to E.O. 12291; therefore, a regulatory impact analysis is not required.

Drafting Information

The principal author of this document was Gregory R. Vilders, Regulations Branch. However, personnel from other offices participated in its development.

List of Subjects in 19 CFR Part 10

Customs duties and inspection, Imports, U.S.-Canada Free-Trade Agreement.

Amendment to the Regulations

Accordingly, for the reason stated above, part 10, Customs Regulations (19 CFR part 10), is amended as set forth below.

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

1. The general authority citation for Part 10 continues to read as follows:

Authority: 19 U.S.C. 66, 1202, 1481, 1484, 1498, 1508, 1623, 1624;

* * * * *

2. Section 10.305(a)(3)(iv) is revised to read as follows:

§ 10.305 Value content requirement.

(a) * * *

(3) * * *

(iv) *Interest expense. Bona fide* interest payments on debt of any form, secured or unsecured, undertaken on arm's length terms in the ordinary course of business to finance the acquisition of fixed assets such as real property, a plant, and/or equipment used in the production of goods in the territory of Canada or the U.S. are includable in the direct cost of processing or direct cost of assembling. Interest will be treated as a direct cost of processing or assembling, but only that portion of the interest which is related to a fixed asset directly used in the production of the goods exported; thus, where a entire production facility is covered by a mortgage and incorporates both production and administrative or other general expense space, an appropriate allocation must be made in order to ensure that only that portion of the interest allocated to the production area is counted toward the value-content requirement. Interest expenses attributable to general and administrative costs or expenses, including interest on funds borrowed to meet the payroll of personnel directly involved in the production of goods, are not considered direct costs of processing or assembly.

BILLING CODE 4820-02-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 558

New Animal Drugs for Use in Animal Feeds; Bacitracin and Monensin

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by A. L. Laboratories, Inc. The NADA provides for the use of separately approved bacitracin zinc and monensin Type A medicated articles in making Type C medicated feeds for increased rate of weight gain, improved feed efficiency, and as an aid in the prevention of coccidiosis in broiler chickens.

EFFECTIVE DATE: October 9, 1992.

FOR FURTHER INFORMATION CONTACT: James F. McCormack, Center for Veterinary Medicine (HFV-128), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301-295-8802.

SUPPLEMENTARY INFORMATION: A. L. Laboratories, Inc., One Executive Dr., P.O. Box 1399, Fort Lee, NJ 07024, filed NADA 134-830, providing for combining separately approved Type A medicated articles to make Type C medicated feeds containing 90 to 110 grams (g) per ton of monensin and 4 to 50 g per ton of bacitracin zinc. The feeds are used in broiler chickens as an aid in the prevention of coccidiosis caused by *Eimeria necatrix, E. tenella, E. acervulina, E. brunetti, E. mivati,* and *E. maxima,* for increased rate of weight gain and improved feed efficiency.

The NADA is approved as of September 1, 1992. The regulations are amended in 21 CFR 558.355 by revising paragraph (b)(11) and by adding new paragraph (f)(1)(xxv) to reflect the approval. The basis for the approval is discussed in the freedom of information summary. Monensin and bacitracin zinc are new animal drugs used in Type A medicated articles to make Type C medicated feeds. Both drugs are Category I drugs which, as provided in 21 CFR 558.4(a), do not require an approved FDA Form 1900 for making Type C medicated feeds as in approved NADA 134-830 and in the regulation contained in 21 CFR 558.355(f)(1)(xxv).

Under section 512(c)(2)(F)(ii) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b(c)(2)(F)(ii)), this approval qualifies for 3 years exclusivity beginning September 1, 1992, because it contains reports of new clinical or field investigations essential to the approval of the application.

In accordance with the freedom of information provisions of part 20 (21 CFR part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA-305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday.

The agency has determined under 21 CFR 25.24(d)(1)(ii) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 558

Animal drugs, Animal feeds.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, 21 CFR part 558 is amended as follows:

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

1. The authority citation for 21 CFR part 558 continues to read as follows:

Authority: Secs. 512, 701 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b, 371).

2. Section 558.355 is amended by revising paragraph (b)(11) and by adding new paragraph (f)(1)(xxv) to read as follows:

§ 558.355 Monensin.

* * * * *

(b) * * *

(11) To 046573: 45 and 60 grams per pound, as monensin sodium provided by No. 000986, paragraphs (f)(1)(xviii), (xix), (xxiii), (xxiv), and (xxv) of this section.

* * * * *

(f) * * *

(1) * * *

(xxv) *Amount per ton.* Monensin, 90 to 110 grams plus bacitracin, 4 to 50 grams.

(a) *Indications for use.* For increased rate of weight gain and improved feed efficiency; as an aid in the prevention of coccidiosis caused by *Eimeria necatrix, E. tenella, E. acervulina, E. brunetti, E. mivati,* and *E. maxima.*

(b) *Limitations.* Do not feed to laying chickens; feed continuously as sole ration; in the absence of coccidiosis, the use of monensin with no withdrawal period may limit feed intake resulting in reduced weight gain; as bacitracin zinc provided by No. 046573 in § 510.600(c) of this chapter, as monensin sodium.

BILLING CODE 4160-01-F

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD5-90-026]

Drawbridge Operation Regulations; Atlantic Intracoastal Waterway, Elizabeth River, Southern Branch, Chesapeake, VA

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is changing the regulations governing the operation of the drawbridge across the Atlantic Intracoastal Waterway, Southern Branch of the Elizabeth River, mile 8.8, in Chesapeake, Virginia, by restricting drawbridge openings during the morning and evening rush hours, providing one opening for recreational vessels during the evening rush hour period, and allowing commercial vessels passage through the bridge at any time. This is intended to provide for regularly scheduled drawbridge openings to help reduce motor vehicle traffic delays and congestion on the roads and highways linked by this drawbridge.

EFFECTIVE DATE: These regulations become effective on November 9, 1992.

FOR FURTHER INFORMATION CONTACT: Ann B. Deaton, Bridge Administrator, Fifth Coast Guard District, at (804) 398-6222.

SUPPLEMENTARY INFORMATION:

Drafting Information

The principle persons involved in drafting this document are Linda L. Gilliam, Project Officer, and CAPT M. K. Cain, Project Attorney.

Regulatory History

On August 6, 1990, the Coast Guard published a notice of proposed rulemaking entitled Atlantic Intracoastal Waterway, Elizabeth River, Southern Branch, Chesapeake, Virginia, in the **Federal Register** (55 FR 31846). It would have closed the Dominion Boulevard Bridge to recreational, commercial and public vessels of the United States during morning and evening rush hours, Monday through Friday, from 6 a.m. to 9 a.m. and from 3 p.m. to 6 p.m., but allow the draw to open on signal at all times for vessels in distress. Based on the comments received from the commercial maritime industry, on July 29, 1991, the Coast Guard published a supplemental public notice entitled Atlantic Intracoastal Waterway, Elizabeth River, Southern Branch, Chesapeake, Virginia in the **Federal Register** (56 FR 35839). As a result of the comments received, on July 10, 1992, the Coast Guard published a second supplemental proposed rule entitled Atlantic Intracoastal Waterway, Elizabeth River, Southern Branch, Chesapeake, Virginia, in the **Federal Register** (57 FR 30705) in the **Federal Register**. A public hearing was not requested and one was not held.

Background and Purpose

Concerned motorists requested that the regulations for the drawbridge across the Southern Branch of the Elizabeth River, mile 8.8 in Chesapeake, Virginia, be amended to restrict openings during the peak highway traffic hours to help reduce traffic congestion, but remain open on signal during the rest of the time. As a result of the second supplemental proposed rule and comments received from the maritime industry and motoring public, the Coast Guard is restricting drawbridge openings to recreational traffic from 7 a.m. to 8 a.m. and from 4 p.m. to 6 p.m. with the exception of one opening at 5 p.m.., Monday through Friday, except Federal holidays. Commercial traffic will be allowed access through the bridge at any time. The original proposal restricted commercial traffic from requesting bridge openings during the morning and evening rush hours; however, after receiving comments from the marine industry and the City of Chesapeake as a result of the last two proposals, the decision to restrict commercial traffic during the restricted times was changed to allow commercial traffic access any time. Providing an opening for recreational vessels at 5 p.m. during the evening rush hour was the result of comments received from concerned marina owners located upstream and downstream of the bridge.

Discussion of Comments

As a result of the proposed rule and the public notice, comments were received from the motoring public and the maritime industry. The motorists were all in favor of closing the bridge to navigation during the morning and evening rush hours since elimination of draw openings would help reduce traffic disruption, delays, congestion and minor accidents. The maritime industry was against such restrictions based on economic impact, and waterway safety concerns.

The comments indicated that the proposed three hour restriction in the morning and the evening was too severe and would cause undue hardships for waterway traffic transiting on the Southern Branch of the Elizabeth River. The Coast Guard issued a supplemental proposed rule with shorter morning and evening rush hour restrictions. The proposed new hours of restriction were from 6:30 a.m. to 7:30 a.m. and 3:30 p.m. to 5 p.m., Monday through Friday. All vessel traffic was still restricted, except vessels in distress. This supplemental proposed rule (56 FR 35839) was published on July 29, 1991, with the comment period ending September 12, 1991. A supplemental public notice was issued September 5, 1991, extending the comment period to October 12, 1991, to allow the maritime industry more time to submit comments on the supplemental proposed rule.

As a result of the supplemental proposed rule and the public notice issued on August 1, 1991, comments were received from the maritime community and the motoring public. The comments from the motorists again were all in favor of the proposed restrictions during peak traffic hours. The majority of the comments from the motorists suggested extending the morning and evening rush hours. All suggestions varied on the appropriate hours of restriction. The comments from the commercial maritime industry were opposed to restricting the drawbridge based on such factors as economic impact concerns and safety. The City of Chesapeake also forwarded a resolution to the U.S. Coast Guard requesting that the proposed regulations for this drawbridge restrict openings to recreational vessels only during hours that better reflect peak highway traffic usage to help reduce traffic congestion, but remain open on signal during the rest of the time.

The second supplemental proposed rule issued July 10, 1992, has resulted in one change to the proposal. The marinas requested that two openings be provided during the afternoon restrictions to allow recreational vessels passage through the bridge. They based this request on business and city economies being negatively impacted by delayed arrivals of recreational vessels. The Coast Guard has decided to include one opening for recreational vessels during the afternoon restrictions to alleviate economic impacts to the marinas and the local cities within the Hampton Roads area. This opening will occur at 5 p.m., Monday through Friday, except Federal holidays.

Regulatory Evaluation

This action is considered to be non-major under Executive Order 12291 and nonsignificant under the Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact has been found to be so minimal that a full

regulatory evaluation is unnecessary. This opinion is based on the fact that commercial traffic will not be restricted during the morning and evening rush hours, and recreational traffic will not be totally restricted since one opening will be provided during the evening rush hour.

Small Entities

No comments were received concerning small entities or on the economic impact this rule would have on small entities. Since the impact on these regulations is expected to be minimal, the Coast Guard certifies under 5 U.S.C. 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) that this final rule will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This rule contains no collection of information requirements under the Paper Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that this rule does not raise sufficient federalism implications to warrant the preparation of a federalism assessment.

Environment

The Coast Guard considered the environmental impact of this rule and concluded that under section 2.B.2.g.(5) of Commandant Instruction M16475.1B, this final rule is categorically excluded from further environmental documentation. A Categorical Determination statement has been prepared and placed in the rulemaking docket.

Bridges.

Regulations

In consideration of the foregoing, the Coast Guard is amending part 117 of title 33, Code of Federal Regulations to read as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05–1(g).

2. In § 117.997, paragraphs (d) and (e) are redesignated as paragraphs (e) and (f) and a new paragraph (d) is added to read as follows:

§ 117.997 Atlantic Intracoastal Waterway, South Branch of the Elizabeth River to the Albemarle and Chesapeake Canal.

* * * * *

(d) The draw of the Dominion Boulevard Bridge, mile 8.8, in Chesapeake shall open on signal, except:

(1) From 7 a.m. to 8 a.m. and from 4 p.m. to 6 p.m., Monday through Friday, except Federal holidays, the drawbridge may not be opened for recreational vessels except it may be opened at 5 p.m. for recreational vessels waiting to pass.

(2) Vessels in an emergency involving danger to life or property shall be passed at any time.

BILLING CODE 4910-14-M

---

33 CFR Part 165

[COTP Los Angeles/Long Beach Regulation 92-83]

Safety Zone Regulations: Ports of Los Angeles/Long Beach, CA

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a safety zone of the territorial seas of the United States within 100 yards around the barges; St. Thomas, Isla Del Sol, Crowley 020, Crowley 411, Crowley 415, Crowley 417, Crowley 419, and the Crowley 420 and their attending tugs as they navigate in the territorial seas of the United States. The zone is needed to protect the public which may be attracted by the unusual appearance of, and danger posed by, tugs and barges carrying the topside platforms for offshore oil wells as they navigate in the territorial seas of the United States. Entry into this zone is prohibited unless authorized by the Captain of the Port.

EFFECTIVE DATES: This regulation becomes effective at 12 midnight, PDT October 2, 1992. It terminates at 12 midnight, PST November 30, 1992.

FOR FURTHER INFORMATION CONTACT: Lt. R.F. Shields at (310) 980–4457.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a notice of proposed rule making was not published for this regulation and it is being made effective in less than 30 days after Federal Regulation publication. Publishing an NPRM and delaying its effective date would be contrary to the public interest since immediate action is needed to protect the public which may be attracted by the unusual appearance of, and danger posed by, tugs and barges carrying the topside platforms for offshore oil wells as they navigate in the territorial seas of the United States.

Drafting Information

The drafters of this regulation are Lt. R.F. Shields, project officer for the Captain of the Port, and Capt. B.E. Weule, project attorney, Eleventh Coast Guard District Legal Office.

Discussion of Regulation

The event requiring this regulation will occur between 12 midnight, PDT October 2, 1992 and 12 midnight, PST November 30, 1992. This safety zone is necessary to protect the public which may be attracted by the unusual appearance of, and danger posed by, tugs and barges carrying the topside platforms for offshore oil wells as they navigate in the territorial seas of the United States.

List of Subjects in 33 CFR Part 165

Harbors marine safety, Navigation (water), Security measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart C of part 165 of title 33, Code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 49 CFR 1.46 and 33 CFR 1.05–1(g), 6.04–1, 6.04–6 and 160.5.

2. A new § 165.T1106 is added to read as follows:

§ 165.T1106 Safety Zone: Port of Los Angeles/Long Beach, CA.

(a) *Location.* The following area is a safety zone: The territorial waters of the United States within 100 yards around the following barges; St. Thomas, Isla Del Sol, Crowley 020, Crowley 411, Crowley 415, Crowley 417, Crowley 419, and the Crowley 420, and their attending tugs as they navigate in the territorial seas of the United States.

(b) *Effective Date.* This regulation becomes effective effective at 12 midnight, PDT October 2, 1992. It terminates at 12 midnight, PST November 30, 1992.

(c) *Regulations.* In accordance with the general regulations in 165.23 of this part, entry into this zone is prohibited

unless authorized by the Captain of the Port.

Dated: October 2, 1992.

J.E. Terveen,

Commander, U.S. Coast Guard, Alternate Captain of the Port, Los Angeles/Long Beach.

BILLING CODE 4910-14-M

---

33 CFR Part 165

[COTP Corpus Christi, TX, Regulation 92-14]

Safety Zone Regulation: Gulf of Mexico

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a safety zone in the Gulf of Mexico near the approach to the Aransas Pass Channel. The safety zone is needed to safeguard deep draft vessels from obstructions and shoaling in and near the channel that pose a threat to vessels transiting the area.

EFFECTIVE DATES: This regulation becomes effective at 12:01 a.m., August, 20, 1992. It terminates at 12 p.m. October 15, 1992, or upon the completion of dredging and salvage operations in the Aransas Pass Channel and safety fairway, whichever occurs first.

FOR FURTHER INFORMATION CONTACT: LTJG K.S. Roberts, telephone number, (512) 888-3162.

SUPPLEMENTARY INFORMATION: Under 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after **Federal Register** publication. Publishing an NPRM and delaying its effective date would be contrary to the public interest since immediate action is needed to safeguard vessels transiting the area from hazards in the channel.

Drafting Information

The drafters of this regulation are LTJG K.S. Roberts, Chief Waterways Management section, U.S. Coast Guard Marine Safety Office, Corpus Christi, Texas; CAPT R.J. Reining, Commanding Officer, U.S. Coast Guard Marine Safety Office, Corpus Christi, TX; and LT J.A. Wilson, project attorney, Eighth Coast Guard District, New Orleans, Louisiana.

Discussion of Regulation

The safety zone is needed to ensure the safety of vessels from obstructions and shoaling both in and around the Aransas Pass Channel and safety fairway. On August 6, 1992, the Tank Vessel STENA CONCERTINA, while on the ranges approaching the Aransas Channel, suffered a rapid decrease in speed, in two different areas, indicating that the vessel had come in contact with the bottom or a submerged object. The STENA CONCERTINA was at a draft of 44 feet 9 inches in a channel with a charted dredged depth of 45 feet. After an underwater damage assessment, it was determined that a substantial amount of bottom plating had been damaged, confirming that the vessel had come in contact with the bottom. The Army Corps Of Engineers surveyed the area, using side scan radar, and found an obstruction in the safety fairway, in the vicinity of the three mile territorial sea boundary line, in-line with the ranges at a depth of 44 feet 2 inches. Two other areas of shoaling were also discovered within the maintained channel.

This regulation is issued under 33 U.S.C. 1231, as set out in the authority citation for all of part 165.

Federalism

This proposed action has been analyzed under the principles and criteria contained in Executive Order 12612, and it has been determined that the proposed rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart C of part 165 of title 33, code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1(g), 6.04-1, 6.04-6, and 160.5; 49 CFR 1.46.

2. A new temporary § 165.T0857 is added to read as follows:

§ 165.T0857 Safety Zone: Gulf of Mexico.

(a) A stationary safety zone exists in the Gulf of Mexico within that portion of the Aransas Pass Safety Fairway, established in § 166.200(d)(4) of this title, that lies between the COLREGS Demarcation Line established in § 80.850(d) of this title and the seaward limit of the three mile territorial sea of the United States, as indicated on the National Oceanic and Atmospheric Administration chart 11307, 31st edition, March 16, 1991.

(b) *Regulations.* (1) Vessels with drafts exceeding 43 feet may not transit within the safety zone without permission from the Captain of the Port.

(2) Vessels with drafts from 41 feet to 43 feet may only transit within the safety zone at or near high tide.

(3) All other deep draft vessels transiting the safety zone must proceed with extreme caution.

(c) *Effective dates.* This regulation becomes effective at 12:01 a.m., August, 20, 1992. It terminates at 12 p.m. October 15, 1992, or upon the completion of dredging and salvage operations in the Aransas Pass Channel and safety fairway, whichever occurs first.

Dated: August 19, 1992.

Robert J. Reining,

Captain, U.S. Coast Guard, Captain of the Port, Corpus Christi, TX.

[FR Doc. 92-24669 Filed 10-8-92; 8:45 am]

BILLING CODE 4910-14-M

---

33 CFR Part 165

[COTP HOUSTON: Regulation 92-03]

Safety Zone Regulations; Bayport Ship Channel

AGENCY: Coast Guard, DOT.

ACTION: Temporary final.

SUMMARY: The Coast Guard is establishing a safety zone in the Bayport Ship Channel entrance along the westernmost edge of the Houston Ship Channel between 29°37'16" N, 94°57'31" W and 29°36'34" N, 95°57'13" W, westward to the light 4 (LLN 23330) and light 5 (LLN 23335). The zone is needed to protect the safety of vessels transiting the Bayport Ship Channel due to progressive shoaling, which has reduced the 41 foot project depth. Entry into this zone by any vessel with a draft exceeding 35 feet is prohibited unless authorized by the Captain of the Port.

EFFECTIVE DATES: This regulation becomes effective at 6 a.m. on July 17, 1992. It terminates at 6 a.m. on November 14, 1992, unless sooner terminated by the Captain of the Port, Houston.

FOR FURTHER INFORMATION CONTACT: LCDR Paul Bergman, c/o Commanding Officer, U.S. Coast Guard, Marine Safety Office Houston, P.O. Box 446, Galena Park, TX 77547-0446, Phone (713) 671-5113.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists

for making it effective in less than 30 days after Federal Register publication. Publishing an NPRM and delaying its effective date would be contrary to the public interest since immediate action is needed to protect marine shipping involved.

Drafting Information

The drafters of this regulation are LCDR Paul Bergman, project officer for the Captain of the Port, and CDR D.G. Dickman, project attorney, Eighth Coast Guard District Legal Office.

Discussion of Regulation

The situation requiring this regulation is a potential safety hazard associated with progressive shoaling in the Bayport Ship Channel. This shoaling is reported to have caused deep-draft vessels transiting this area to lose forward momentum and reduced steering response. This increases the possibility of a collision between vessels transiting the area, unintentional grounding, fouled cooling water intakes, or other marine casualties. This Safety Zone is a short term solution to this shoaling problem. Unless appropriate remedial action, such as dredging, is undertaken to return the Bayport Ship Channel to its project depth, a longer term solution, such as a Regulated Navigation Area, will be considered. This regulation is issued pursuant to 33 U.S.C. 1225 and 1231 as set out in the authority citation for all of part 165.

Federalism Implications

This proposed action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that proposed rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart C of part 165 of title 33, Code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5, and 49 CFR 1.46.

2. A new § 165.T844, is added to read as follows:

§ 165.T844 Safety Zone: Bayport Ship Channel.

(a) *Location.* The following area is a safety zone: The Bayport Ship Channel entrance along the westernmost edge of the Houston Ship Channel between 29°37′–16″N, 94°57′31″W and 29°36′34″N, 95–57′–13″W, westward to the light 4 (LLN 2330) and light 5 (LLN 23335).

(b) *Efective Date.* This regulation becomes effective at 8 a.m. on July 17, 1992. It terminates at 8 a.m. on November 14, 1992, unless cancelled by the Captain of the Port, Houston at an earlier time.

(c) *Regulations.*

(1) In accordance with the general regulations in § 165.23 of this part, entry into this zone by any vessel with a draft exceeding 35 feet is prohibited unless authorized by the Captain of the Port.

(2) Requests to enter the safety zone shall be made to the Captain of the Port, via Coast Guard Houston/Galveston Vessel Traffic Service.

Dated: July 17, 1992.

A.C. Alejandro,

Captain, U.S. Coast Guard, Captain of the Port.

[FR Doc. 92-24668 Filed 10-8-92; 8:45 am]

BILLING CODE 4910-14-M

33 CFR Part 165

[COTP Port Arthur, Texas Regulation 92-04]

Safety Zone Regulations: Port Arthur TX Turning Point

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a safety zone in the immediate vicinity of the Port Arthur Turning Point, GIWW MM 284.5 (Sabine-Neches Canal). The zone is needed to protect all vessels in the vicinity from a safety hazard associated with detected shoaling. The U.S. Coast Guard Captain of the Port, Port Arthur TX is establishing a draft restriction for vessels desiring to turn in this area. Vessels with a length exceeding 550 feet shall not attempt to turn in this area without permission of the Captain of the Port unless the vessel's draft is less than 30 feet. Vessels authorized to turn at this location shall effect the turn as close to the channel centerline as possible.

EFFECTIVE DATE: This regulation becomes effective on August 7, 1992. It terminates on February 1, 1993 unless emergency dredging operations are completed prior to this date.

FOR FURTHER INFORMATION CONTACT: The U.S. Coast Guard Captain of the Port, Port Arthur TX representative, LCDR M. R. DeVries at (409) 723–6511.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after Federal Register publication. Publishing an NPRM and delaying its effective date would be contrary to the public interest since immediate action is needed to prevent damage to the vessels involved.

Drafting Information

The drafters of this regulation are LCDR M. R. DeVries, project officer for the Captain of the Port, and LT J. A. Wilson, Project Attorney, Eighth Coast Guard District Legal Office.

Discussion of Regulation

The conditions requiring this regulation were discovered with the apparent grounding of a deep draft vessel turning at the Port Arthur Turning Point. Shoaling was verified by USACE's August 1, 1992 hydrographic survey results. This regulation is issued pursuant to 33 U.S.C. 1231 as set out in the authority citation for all of part 165.

Federalism Implications

This proposed action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the proposed rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

List of Subjects in 33 CFR part 165

Harbors, Marine safety, Navigation (water), Safety measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart C of part 165 of title 33, Code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for Part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 49 CFR 1.46 and 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5.

2. A new temporary § 165.T850 is added to read as follows:

§ 165.T850 Safety Zone: Port Arthur Turning Point.

(a) *Location.* The following area is a safety zone: Port Arthur Turning Point,

GIWW MM 284.5 (Sabine-Neches Canal) Port Arthur TX.

(b) *Effective date.* This regulation becomes effective on August 7, 1992. It terminates on February 1, 1993 unless emergency dredging operations are completed prior to this date.

(c) *Regulations.* In accordance with the general regulations in § 165.23 of this part, The Coast Guard Captain of the Port is establishing a safety zone in the immediate vicinity of the Port Arthur Turning Point, GIWW MM 284.5 (Sabine-Neches Canal) requiring a draft restriction for vessels desiring to turn in this area. Vessels with a length exceeding 550 feet shall not attempt to turn in this area without the permission of the Captain of the Port unless the vessel's draft is less than 30 feet. Vessels authorized to turn at this location shall effect the turn as close to the channel centerline as possible.

Dated: August 7, 1992.

J. L. Robinson,

Captain, USCG, Captain of the Port, Port Arthur, Texas.

[FR Doc. 92-24671 Filed 10-8-92; 8:45 am]

BILLING CODE 4910-14-M

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Part 51

Concession Contracts and Permits; Correction of Final Rule

AGENCY: National Park Service, Interior.

ACTION: Final rule; correction.

SUMMARY: The National Park Service is correcting an error in the text of the Final Rule on concession contracts and permits, published in the **Federal Register** on page 40503 of the September 3, 1992 edition (57 FR 40503).

FOR FURTHER INFORMATION CONTACT: Lee Davis, Chief, Concessions Division, National Park Service, Washington, DC 20013-7127. Tele. (202) 343-3784.

EFFECTIVE DATE: October 5, 1992.

SUPPLEMENTARY INFORMATION: The National Park Service promulgated regulations on concession contracts and permits on September 3, 1992 (57 FR 40496). These regulations revised 36 CFR part 51. After publication in the **Federal Register** it was noticed that a sentence was inadvertently left out of the text of § 51.4(a) on page 40503. The sentence left out, which should have been the fifth sentence in this paragraph, reads as follows: "In order to encourage minority and women-owned businesses to compete for concession contracts, the National Park Service shall provide maximum allowable information and assistance to minority and women-owned business." This sentence was published substantially the same in the proposed regulations on August 23, 1991 (57 FR 41897). It was also discussed in the preamble to the final regulations on page 40497. The sentence was mistakenly left out of the final rule by the National Park Service, and is corrected by this notice.

The following correction is made to the final regulations for concession contracts and permits published on September 3, 1992 in the **Federal Register** (57 FR 40496):

§ 51.4 [Corrected]

On page 40503, third column, paragraph (a) of § 51.4 is corrected by adding a new sentence after the fourth sentence of the paragraph to read as follows:

"In order to encourage minority and women-owned businesses to compete for concession contracts, the National Park Service shall provide maximum allowable information and assistance to minority and women-owned business."

Dated: October 6, 1992.

David L. Moffitt,

Acting Associate Director, Operations.

[FR Doc. 92-24685 Filed 10-8-92; 8:45 am]

BILLING CODE 4310-70-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

42 CFR Parts 412 and 413

[BPD-756-CN]

RIN 0938-AF79

Medicare Program; Changes to the Hospital Inpatient Prospective Payment Systems and Fiscal Year 1993 Rates; Correction

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Final rule; correction.

SUMMARY: In the September 1, 1992, issue of the **Federal Register** (FR Doc 92-20647) (57 FR 39746), we revised the Medicare inpatient hospital prospective payment systems for operating costs and capital-related costs. Additionally, in the addendum to that final rule, we described changes in the amounts and factors necessary to determine prospective payment rates for Medicare hospital inpatient services for operating costs and capital-related costs. These changes are applicable to discharges occurring on or after October 1, 1992. This notice corrects errors made in that document.

DATES: The corrections made in this notice are effective October 1, 1992.

FOR FURTHER INFORMATION CONTACT: Barbara Wynn, (410) 966-4529.

SUPPLEMENTARY INFORMATION: In the September 1, 1992, final rule, a portion of a response to a public comment and a portion of the subsequent public comment were inadvertently omitted. The final rule also contained several other typographical and technical errors. Therefore, we are making the following corrections to the September 1, 1992, final rule (56 FR 39746):

The following changes are made in the Supplementary Information:

1. On page 39776, first column, in the ninth line from the bottom of the page, the following text is inserted after the word "to":

take into account any additional funds required by hospitals to provide needed health care to Medicare beneficiaries. The issue of appropriate geographic classification of hospitals within the prospective payment system is clearly one of payment equity across hospitals rather than adequate funding of the system as a whole. We believe that the proper way to address the financial impact of MGCRB reclassifications on urban hospitals is to adopt appropriate guidelines that will ensure payment equity across hospitals. We believe the revised wage guidelines provide a major step in achieving that goal.

With respect to the method for computing the budget neutrality adjustment, we do not believe we have the statutory authority to change the way the budget neutrality adjustment is determined. Section 1886(d)(8)(D) of the Act clearly contemplates that geographic reclassifications will be funded through a uniform reduction in the urban standardized amounts. The suggestion that we compute the budget neutrality adjustment on a State-by-State basis would also violate the statute because it would result in a separate standardized amount for each State.

Comment: A commenter stated that the revised guidelines should be instituted for the reclassification decisions that will be implemented in FY 1993. The House Ways and Means.

2. On page 39786, beginning in the first column, in the first full paragraph, several technical changes are needed to conform the preamble language with the subsequent chart that the language describes. In the second line of the paragraph, the phrase "result in a slight

increase" is revised to read "result in no change". Also, in the same paragraph, beginning in the fifth line, the sentence that reads:

"We estimate that 57.8 percent of cases will be paid using the cost outlier methodology and 42.2 percent will be paid using the day outlier methodology, compared to 57.8 percent of cases being paid using the cost outlier methodology without the FY 1993 day outlier payment change."

is revised to read:

"We estimate that 57.8 percent of cases will be paid using the day outlier methodology and 42.2 percent will be paid using the cost outlier methodology."

3. On page 39786, third column, in the twentieth line of the first full paragraph, the operating cost-to-charge ratio is changed from "0.632770" to "1.285496".

The following changes are made in the regulatory text:

§ 412.1 [Corrected]

4. On page 39818, third column, in § 412.1(a), in the eighth line from the bottom of the page, a comma and the phrase "the costs of qualified nonphysician anesthetists' services, as described in § 412.113(c)," are inserted after the word "centers".

§ 412.2 [Corrected]

5. On page 39819, second column, in the introductory text of § 412.2(e), in the fourth line, the word "for" is inserted after the word "paid".

§ 412.302 [Corrected]

6. On page 39827, third column, paragraph (c)(1)(v) of § 412.302 is correctly revised to read as follows:

(c) * * *

(1) * * *

(v) The hospital must submit to its intermediary the binding agreement and supporting documents that relate to the obligated capital expenditure by the later of October 1, 1992, or within 90 days after the start of the hospital's first cost reporting period beginning on or after October 1, 1991. This documentation must include a project description (including details of any phased construction or financing) and an estimate of costs that were prepared no later than December 31, 1990.

The following changes are made in the addendum to the rule:

7. On page 39836, third column, beginning in the second line from the bottom of the page, the phrase "August 30, 1993 final rule" is revised to read "August 30, 1991 final rule."

8. On pages 39989 and 39990, in Table 1, under "Outlier Payment Changes", the heading "Proposed policy" is revised to read "Revised policy".

(Catalog of Federal Domestic Assistance Program No. 93.773, Medicare—Hospital Insurance)

Dated: October 5, 1992.

Neil J. Stillman,

Deputy Assistant Secretary for Information Resources Management.

BILLING CODE 4120-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 672

[Docket No. 911176-2018]

Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Closure.

SUMMARY: NMFS is closing the directed fishery for pollock in statistical area 63 in the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the fourth quarterly allowance of the total allowable catch (TAC) for pollock in this area.

EFFECTIVE DATES: Effective 12 noon, Alaska local time (A.l.t.), October, 5, 1992, through 12 midnight, A.l.t., December 31 1992.

FOR FURTHER INFORMATION CONTACT: Patsy A. Bearden, Resource Management Specialist, Fisheries Management Division, NMFS, 907-586-7228.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the exclusive economic zone within the GOA is managed by the Secretary of Commerce according to the Fishery Management Plan for Groundfish of the GOA (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 672.

The fourth quarterly allowance of pollock TAC for statistical area 63 is 10,103 metric tons (mt), determined in accordance with § 672.20(a)(2)(iv).

The Director of the Alaska Region, NMFS (Regional Director), has determined that the 1992 fourth quarterly allowance of pollock TAC for statistical area 63 will soon be reached. Therefore, in accordance with § 672.20(c)(2)(ii), NMFS is establishing a directed fishing allowance for the fourth quarter of 9,603 mt, and is setting aside the remaining 500 mt as bycatch to support other anticipated groundfish fisheries. The Regional Director has determined that the directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for pollock in statistical area 63, effective from 12 none A.l.t., October 5, 1992, through 12 midnight, A.l.t., December 31, 1992.

Directed fishing standards for applicable gear types may be found in the regulations at § 672.20(g).

Classification

This action is taken under 50 CFR 672.20 and is in compliance with Executive Order 12291.

List of Subjects in 50 CFR part 672

Fisheries, Reporting and recordkeeping requirements.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 5, 1992.

David S. Crestin,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

[FR Doc. 92-24595 Filed 10-5-92; 4:18 pm]

BILLING CODE 3510-22-M

---

50 CFR Part 672

[Docket No. 911176-2018]

Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Closure.

SUMMARY: NMFS is closing the directed fishery for Pacific cod by the offshore component in the Eastern Regulatory Area (statistical areas 64 and 65) of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the allocation of Pacific cod total allowable catch (TAC) to the offshore component in this area.

EFFECTIVE DATES: Effective 12 noon, Alaska local time (A.l.t.), October 5, 1992, through 12 midnight, A.l.t., December 31, 1992.

FOR FURTHER INFORMATION CONTACT: Andrew N. Smoker, Resource Management Specialist, Fisheries Management Division, NMFS, 907-586-7228.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the exclusive economic zone within the GOA is managed by the Secretary of Commerce according to the Fishery Management Plan for Groundfish of the GOA (FMP) prepared by the North Pacific Fishery

Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 672.

Amendment 23 to the FMP (57 FR 23321, June 3, 1992) allocated ten percent of the Pacific cod TAC to the offshore component. When Amendment 23 became effective on June 1, 1992, the balance of the Pacific cod TAC available for harvest in the Eastern Regulatory Area GOA was 700 metric tons (mt). In accordance with § 672.20(a)(2)(v)(B), NMFS has determined that the offshore allowance of the remaining TAC is 70 mt.

The Director of the Alaska Region, NMFS, has determined, in accordance with § 672.20(c)(2)(ii), that the entire 70 mt will be needed as bycatch to support other groundfish fisheries. Therefore, NMFS is establishing a directed fishing allowance of 0 mt and is setting aside 70 mt as incidental catch in directed fishing for other species. Consequently, NMFS is prohibiting directed fishing for Pacific cod in the Eastern Regulatory Area of the GOA by the offshore component effective from 12 noon, A.l.t., October 5, 1992, through 12 midnight, A.l.t., December 31, 1992.

Directed fishing standards for applicable gear types may be found in the regulations at § 672.20(g).

Classification

This action is taken under 50 CFR 672.20 and is in compliance with Executive Order 12291.

List of Subjects in 50 CFR Part 672

Fisheries, Reporting and recordkeeping requirements.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 5, 1992.

David S. Crestin,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510-22-M

---

50 CFR Part 675

[Docket No. 911172-2021]

Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Closure.

SUMMARY: NMFS is closing directed fishing by operators of vessels using non-travel gear in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary because the 1992 limit of Pacific halibut for non-trawl gear in the BSAI has been caught.

EFFECTIVE DATES: Effective 12 noon, Alaska local time (A.l.t.), October 5, 1992, through 12 midnight, A.l.t., December 31, 1992.

FOR FURTHER INFORMATION CONTACT: Andrew N. Smoker, Resource Management Specialist, Fisheries Management Division, NMFS, 907-586-7228.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the BSAI exclusive economic zone is managed by the Secretary of Commerce according to the Fishery Management Plan for the Groundfish Fishery of the BSAI (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 675.

Pursuant to § 675.21(a)(9), the prohibited species catch (PSC) limit of Pacific halibut caught while conducting any non-trawl gear fishery for groundfish in the BSAI Management Area during 1992 is an amount of Pacific halibut equivalent to 750 metric tons of halibut mortality.

The Director of the Alaska Region, NMFS, has determined, in accordance with § 675.21(d), that operators of U.S. fishing vessels using non-trawl gear have taken the limit of Pacific halibut PSC. Therefore, NMFS is prohibiting directed fishing for groundfish with non-trawl gear in the BSAI from 12 noon, A.l.t., October 5, 1992, through 12 midnight, A.l.t., December 31, 1992.

Directed fishing standards for applicable gear types may be found in the regulations at § 675.20(h).

Classification

This action is taken under 50 CFR 675.21 and is in compliance with Executive Order 12291.

List of Subjects in 50 CFR 675

Fisheries, Reporting and recordkeeping requirements.

Authority: 16 U.S.C. 1801 *et seq.*

BILLING CODE 3510-22-M

Proposed Rules

Federal Register
Vol. 57, No. 197
Friday, October 9, 1992

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Parts 831 837, 841, 842, 844 and 846

RIN 3206-AD60

Reemployment of Annuitants

AGENCY: Office of Personnel Management.

ACTION: Proposed rule.

SUMMARY: The Office of Personnel Management (OPM) is issuing proposed regulations governing the reemployment of Civil Service Retirement System (CSRS) and Federal Employees Retirement System (FERS) annuitants, and the effect of reemployment on future CSRS and FERS benefits. The proposed regulations would implement section 134 of Public Law 100-238 and consolidate all the rules governing reemployed annuitants into a single part of OPM regulations.

DATES: Comments must be received on or before December 8, 1992.

ADDRESSES: Send comments to Andrea S. Minniear, Assistant Director for Retirement and Insurance Policy, Office of Personnel Management, P.O. Box 884, Washington, DC 20044; or deliver to OPM, room 4351, 1900 E Street, NW., Washington, DC.

Comments on the information collection requirements contained in this regulation also should be filed with the office of Management and Budget. (See below under Paperwork Reduction Act.)

FOR FURTHER INFORMATION CONTACT: Eugene R. Littleford, (202) 606-0299.

SUPPLEMENTARY INFORMATION: Section 134 of Public Law 100-238, January 8, 1988, enacted provisions governing the reemployment of FERS annuitants, and CSRS annuitants who elect FERS coverage—provisions very similar to those in 5 U.S.C. 8344, which governs the reemployment of CSRS annuitants. The great similarity of these provisions, as well as the minor, technical differences that could cause confusion if they were dispersed throughout a number of different parts of title 5 of the Code of Federal Regulations, has led OPM to conclude that agencies and employees governed by the regulations would best be served by the promulgation of a new part of the regulations, part 837 of title 5, that would consolidate all the rules governing reemployed CSRS and FERS annuitants.

With the new part 837, OPM is proposing to express the determining factors governing the status of reemployment in the form of regulations, rather than relying strictly on the statutory provisions. In addition, these proposed regulations would require a mandatory exchange of information between the annuitant, the reemploying agency, and OPM. With this mandatory exchange of information, each party will be able to properly determine the reemployment status of the annuitant, and develop a more appropriate expectation of how reemployment will affect future annuity benefits.

This new part 837 will not, however, incorporate the rules governing the reemployment of annuitants without reduction in pay or annuity as provided by section 108 of the Federal Employees Pay Comparability Act of 1990. Those rules will remain codified in part 553 of title 5, Code of Federal Regulations. Also, waivers of annuity offset for annuitants employed by the judicial and legislative branches, as provided by section 655 of Public Law 102-190, December 5, 1991, will be governed by such rules and regulations as are promulgated by the waiving officials.

Reemployed Annuitants Generally

When a CSRS annuitant is reemployed by the Federal Government, his or her right to annuity may, by operation of law, be terminated, or it may continue during the period of reemployment, with the pay of the annuitant being offset by the amount of annuity allocable to the period of reemployment. A number of factors determine whether the annuity continues or terminates: type of annuity, type of appointment the annuitant receives, type of position to which the annuitant is appointed, and the annuitant's disability status. When FERS annuitants are reemployed, except for disability annuitants who have been found recovered or restored to earning capacity, their annuities generally continue during reemployment—without regard to the type of appointment used. Whether or not a CSRS or FERS annuitant is actually receiving annuity on the date of reemployment—for instance, when an annuitant has waived payment of annuity, or is receiving Federal Employees Compensation under chapter 81 of title 5, United States Code, in lieu of annuity—has no bearing on his or her status as an annuitant, or how future annuity benefits will be computed.

Whether annuitant status and right to annuity continue upon the reemployment of a disability annuitant depend on whether the disability annuitant has been found recovered or restored to earning capacity. Such findings can only be made by OPM. A disability annuitant who is reemployed at a lower grade or pay level than the position from which retired, or on a part-time basis when the previous employment was full time, or continues to receive partial compensation for loss of earning capacity due to a work-related injury during reemployment, generally cannot be found recovered form the disability strictly on the basis of the reemployment.

When the Right to Annuity Continues on Reemployment

Reemployed FERS annuitants whose annuities continue during reemployment (which includes reemployed CSRS annuitants who elect FERS) are subject, unless the employment is on an intermittent basis, to regular FERS deductions (currently 0.8 percent of basic pay). Reemployed CSRS annuitants are not automatically subject to CSRS deductions (7.0 percent for most employees), but may elect to have deductions taken from their pay. Since any future additional benefits are based on the total amount of basic pay, before the offset of annuity, both CSRS and FERS deductions are computed on the total amount of basic pay, before the offset of annuity. If, on separation from reemployment, the annuitant is not entitled to increased annuity benefits based on the period of employment, any CSRS or FERS deductions withheld during the period of reemployment will be refunded at the annuitant's request.

Except for certain circumstances involving receipt of Federal employees compensation in lieu of annuity, annuity is offset from pay even when the

annuitant is not in immediate receipt of annuity, or has waived receipt of annuity. The amount of annuity that the agency offsets from pay must be forwarded to OPM for deposit to the Civil Service Retirement and Disability Fund. While an annuitant's lump-sum credit (the total amount of contributions the annuitant had paid to the retirement fund at the time he or she retired, plus any accrued interest, where applicable) is ordinarily reduced by all annuity payments until it is expended, it is not reduced by any portion of any annuity payment that is offset from pay.

A supplemental annuity is an annuity earned through reemployment subject to certain statutory conditions: The retiree's entitlement to annuity must have continued during reemployment and his or her pay must have been offset by the amount of annuity. The supplemental annuity is added to the annuity previously awarded, effective upon separation from reemployment. However, the individual must apply for supplemental annuity before the supplemental annuity may be paid.

The statutes require the reemployment service be of a certain type and duration before title to a supplemental annuity is established. A reemployed annuitant who separates after completing at least 1 year of continuous, full-time reemployment service subject to offset of annuity, or periods of actual, continuous part-time and/or full-time reemployment service subject to offset of annuity and equivalent to 1 year of actual, continuous, full-time service, is entitled to a supplemental annuity.

Creditable full-time and part-time service only includes service performed during a regularly scheduled tour of duty. Intermittent employment, that is, employment without a regularly scheduled tour of duty, cannot be credited in determining title to, and in the computation of, a supplemental annuity. Only actual service, that is, service for which the employee was paid, may be credited for these purposes. Also, service as a judge or justice of the United States, as defined by section 451 of title 28, United States Code, or service as the President of the United States, does not qualify for supplemental annuity purposes.

All of the service credited in the computation of a supplemental annuity must be continuous. Continuous service is service that is not broken by a period of separation of more than 3 days, or by a conversion to an intermittent status. Leave without pay is not actual service, but does not break continuity of service.

In a supplemental annuity, reemployment subject to CSRS and CSRS Offset is credited under the CSRS formula; reemployment subject to FERS is credited under the FERS formula. This treatment of CSRS-Offset service is a special statutory rule for supplemental annuities—see section 302(a)(12) of Public Law 99–335, June 6, 1986, as amended by section 134 of Public Law 100–238, January 8, 1988—and is different from the rule that applies to the annuity computation of an employee who elects FERs. The average salary is the average rate of basic pay for all periods of service credited in the computation of the supplemental annuity. If the annuitant's basic annuity is reduced for a survivor benefit, the supplemental annuity will be reduced by 10 percent to provide an additional survivor benefit, unless the annuitant makes a timely filed written request to the contrary. For a CSRS annuitant, the additional survivor benefit is 55 percent of the unreduced supplemental annuity; for a FERS annuitant, it is 50 percent.

A reemployed annuitant who separates after completing at least 5 years of actual, continuous, full-time reemployment service subject to offset of annuity, or periods of actual, continuous, part-time and/or full-time reemployment service subject to offset of annuity and equivalent to 5 years of actual, continuous, full-time service, may elect, in lieu of his or her prior annuity and supplemental annuity entitlements, a redetermined annuity. A redetermined annuity is an annuity computed as if the annuitant had not previously retired, that is, all creditable service is used in a computation made under the provisions of law in effect at the time of separation from reemployment service.

When a reemployed annuitant who meets the service requirements for a supplemental annuity dies in service, any widow(er) (and former spouse under FERS) who is entitled to a survivor annuity is also entitled to supplemental survivor benefits.When a reemployed annuitant who meets the service requirements for a redetermined annuity dies in service, any widow(er) (and former spouse under FERS) who is entitled to a survivor annuity is entitled to elect redetermined survivor benefits.

Credit for service in the computation of a supplemental annuity or supplemental survivor benefit is subject to any deposit or deduction requirement that would otherwise apply to service of that nature.

When Annuity Terminates During Reemployment

Generally, former annuitants whose annuities were terminated on reemployment have their future annuity benefits redetermined on the basis of their subsequent separations from Federal service. However, there are certain exceptions to this rule.

An annuitant whose annuity was terminated on reemployment, and who, on once again separating from employment, is not entitled to either an immediate or deferred annuity on the basis of the most recent separation, and still meets the entitlement requirements to an immediate annuity based on a prior separation, may have that prior annuity reinstated. For example, if a CSRS annuitant who retired involuntarily has his or her annuity terminated on reemployment under the provisions of 5 U.S.C. 8344(b), but on separation from this reemployment, did not meet the 1-year-out-of-2 coverage requirement of 5 U.S.C. 8333(b), the annuitant would be entitled to have the prior annuity reinstated. A CSRS disability annuitant whose annuity had terminated during reemployment because of a finding of recovery or restoration to earning capacity, who on separation did not meet the 1-year-out-of-2 coverage requirement, would be entitled, before age 62, to reinstatement of the disability annuity, should both the disabling medical condition and lack of earning capacity reoccur. The reinstated annuity is equal in value to the terminated annuity, that is, it is not increased by cost-of-living adjustments that occurred during the period of termination.

Also, a CSRS annuitant, other than a former Member of Congress, whose annuity terminated when appointed by the President to a position covered by CSRS, or upon election as a Member of Congress, is guaranteed an immediate, redetermined annuity at least equal in amount to the annuity surrendered reemployment, increased by cost-of-living adjustments during the period of reemployment. If the former annuity was a disability annuity, however, the individual must still be disabled, or over age 60, when the individual is separated from the Presidential appointment. Also, if the individual elects FERS coverage during the period of reemployment, the guaranteed CSRS annuity is forfeited, and the individual's future annuity benefits are determined under FERS conversion rules (Section 302 of Pub. L. 99–335, June 6, 1986, the Federal Employees Retirement System Act of 1986, as amended, and part 846 of title 5, Code of Federal Regulations).

When Annuity Is Suspended During Reemployment

When a CSRS or FERS annuitant is appointed as a justice or judge of the United States, the annuity is suspended

because offset from salary of such employees is not permitted. Also, if a former Member who retired under the special CSRS provisions for Members is reemployed under certain conditions, the annuity is suspended. Suspension is different from termination, in that the individual retains annuitant status, and, consequently, the annuity benefit may be reinstated on termination of employment without the individuals meeting any additional entitlement requirements. Also, if the suspended annuitant dies while reemployed, death benefits are payable under CSRS as if he or she died as an annuitant. The amount of the reinstated annuity, or survivor annuity, includes cost-of-living adjustments that occurred during the period of reemployment.

Annuity Entitlements Based on Reemployment

On some occasions, reemployment may result in an individual's being potentially entitled to two annuity benefits under CSRS or FERS, based in part on the same service, or an annuity benefit under CSRS or FERS and another annuity benefit under another retirement system.

Neither CSRS or FERS contemplates simultaneous entitlement to two annuity benefits. However, this can occur, for example, when an individual entitled to a deferred annuity becomes reemployed before filing an application for benefits. These regulations would require an individual so situated to elect between the two possible benefits.

In regard to dual entitlement under two different retirement systems for Federal employees, these regulations provide that no individual can receive two annuity benefits based on the same period of service, or when dual receipt of the benefits is barred by other statute or regulation.

Part 837, as proposed, would also incorporate, without substantive amendment, certain portions of the regulations promulgated to implement the Whistleblower Protection Act of 1989.

Section Analysis

1. Section 837.101

This section describes the kinds of service to which part 837 applies—reemployment of CSRS and FERS annuitants in positions with the Federal Government and, with certain exclusions, the government of the District of Columbia.

2. Section 837.102

This section defines terms used in part 837.

3. Section 837.103

This section details information that must be provided by the annuitant to the agency, by the agency to the annuitant, and by the agency to OPM.

4. Section 837.201

This section states the rule that, unless the right to annuity is explicitly terminated on reemployment under the provisions of part 837, the individual's status as an annuitant continues, irrespective of whether the individual actually receives annuity during the period.

5. Section 837.202

This section details the types of annuity that terminate on reemployment.

6. Section 837.203

This section details what circumstance result in suspension of annuity during reemployment.

7. Section 837.301

This section details what circumstances result in the withholding of retirement deductions from the pay of reemployment annuitants

8. Section 837.302

This section details what circumstances require the reemploying agency to pay contributions to the retirement fund, and the amount of agency contributions due.

9. Section 837.303

This section states the circumstances that require the pay of the reemployed annuitant to be offset by the amount of annuity.

10. Section 837.304

This section provides that the reemploying agency must transfer to OPM the amount of funds that should have been withheld from the pay of the annuitant, whether or not it was withheld from the pay of the annuitant.

11. Section 837.305

This section states that an annuitant's lump-sum credit (of retirement deductions and deposits) shall not be reduced by the amount of annuity offset from pay under the provisions of § 837.303.

12. Section 837.306

This section provides that annuitants who are reemployed as justices and judges, as those terms are defined under 28 U.S.C. 451, may receive a refund of their unexpended lump-sum credit. Receipt of that payment will forfeit all rights to annuity based on the CSRS and/or FERS service.

13. Section 837.401

This section states that a disability annuitant may be reemployed in any position for which he or she is qualified.

14. Section 837.402

This section details additional information, over and above the requirements of § 837.103, that the agency must provide to a reemployed disability annuitant and OPM.

15. Section 837.403

This section states what action must be taken by the agency when the annuity of a reemployed disability annuitant is terminated during reemployment.

16. Section 837.404

This section provides rules controlling pay and annuity when OPM reinstates the disability annuity of an individual employed in a position not subject to CSRS or FERS.

17. Section 837.501

This section implements the statutory provision permitting a refund of retirement deductions withheld during reemployment when the reemployed annuitant is not entitled to a supplemental annuity on the basis of the reemployment.

18. Section 837.502

This section states that the circumstances under which an annuity terminated or suspended on the basis of reemployment will be reinstated on termination of the reemployment, and the rule for computation of the amount of the reinstated annuity.

19. Section 837.503

This section details the service requirements for supplemental annuity, what service may be credited in the computation of a supplemental annuity, and how a supplemental annuity is computed.

20. Section 837.504

This section details the title requirements, and computation, of a redetermined annuity.

21. Section 837.601

This section states the rule for determining whether a reemployed annuitant who dies while reemployed dies as an employee or as an annuitant.

22. Section 837.602

This section provides for a lump-sum payment of retirement deductions

withheld during reemployment when the reemployed annuitant dies in service, and there is no survivor annuitant, or the reemployment service did not establish entitlement to an increased survivor benefit under the provisions of § 837.602.

23. Section 837.603

This section details the service requirements, and computation, of increased survivor benefits based on reemployment service.

24. Section 837.701

This section details the circumstances that will result in the reduction of a supplemental annuity based on CSRS-Offset service because of simultaneous entitlement to social security old-age benefits based, in whole or in part, on the same service.

25. Section 837.702

This section details the circumstances that will result in the reduction of a supplemental survivor annuity based on CSRS-Offset service because of simultaneous entitlement to social security survivor benefits based, in whole or in part, on the same service.

26. Section 837.801

This section governs the simultaneous entitlement to two or more annuity benefits under CSRS, resulting from an employee's failure to apply for a benefit to which he or she is entitled prior to reemployment, or by applying for a benefit that would commence during a later period of employment.

27. Section 837.802

This section governs the reemployment of a CSRS or FERS annuitant under another retirement system for Federal employees.

28. Section 837.803

This section governs the reemployment of an annuitant when the retirement action has been canceled by the final order of a judicial or administrative authority.

29. Section 837.804

This section details the duration of elections made under 837.801 and 837.802.

Paperwork Reduction Act

The information collection requirement contained in § 837.103(c) has been submitted to the Office of Management and Budget for approval in accordance with the requirements of the Paperwork Reduction Act. It is estimated that there will be approximately 3000 responses annually, with an estimated average burden of 1 minute per response, for a total annual burden of 50 hours. Comments regarding these proposed collections of information at the time of reemployment should be sent to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503. Attention: Joseph Lackey, Desk Officer for the Office of Personnel Management. Comments should be received on or before December 8, 1992. All other comments should be sent to OPM as instructed above under "**ADDRESSES.**"

E.O. 12991. Federal Regulation

I have determined that this is not a major rule as defined under section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that within the scope of the Regulatory Flexibility Act, these regulations will not have a significant economic impact on a substantial number of small entities because they affect only Federal employees, retirees and survivors.

List of Subjects in 5 CFR Parts 831, 837, 841, 842, 844, and 846

Administrative practice and procedure, Air traffic controllers, Alimony, Claims, Disability benefits, Firefighters, Government employees, Income taxes, Intergovernmental relations, Law enforcement officers, Pensions, Reporting and recordkeeping requirements, Retirement.

Office of Personnel Management.

Douglas A. Brook,

Acting Director.

Accordingly, the Office of Personnel Management proposes to amend parts 831, 837, 841, 842, 844 and 846, as follows:

PART 831—RETIREMENT

1. The general authority citation for part 831 continues to read as follows:

Authority: 5 U.S.C. 8347; * * *

§ 831.502 Disability retirement.

2. Paragraph (f) and (g)(5) of § 831.502 are removed and paragraph (g) is redesignated (f).

Subpart H—[Removed and reserved]

3. Subpart H, consisting of §§ 831.801–831.804, of part 831 is removed and reserved.

4. Part 837 is added to read as follows:

PART 837—REEMPLOYMENT OF ANNUITANTS

Subpart A—General Provisions

Sec.
837.101 Applicability.
837.102 Definitions.
837.103 Notice.

Subpart B—Annuitant and Employee Status

837.201 Annuitant status.
837.202 Annuities that terminate on reemployment.
837.203 Annuities that are suspended during reemployment.

Subpart C—Coverage and Contributions

837.301 Coverage.
837.302 Agency contributions.
837.303 Annuity offset.
837.304 Agency liability for payments.
837.305 Lump-sum credit not reduced.
837.306 Refund of lump-sum credit.

Subpart D—Reemployment of Disability Annuitants

837.401 Generally.
837.402 Special notice.
837.403 Termination of annuity after reemployment.
837.404 Reinstatement of annuity during a period of employment not subject to CSRS or FERS.

Subpart E—Retirement Benefits on Separation

837.501 Refund of retirement deductions.
837.502 Reinstatement of annuity.
837.503 Supplemental annuity.
837.504 Redetermined annuity.

Subpart F—Death Benefits

837.601 Generally.
837.602 Lump-sum payment of retirement deductions.
837.603 Increased survivor benefits.

Subpart G—CSRS Offset

837.701 Offset from supplemental annuity.
837.702 Offset from supplemental survivor annuity.

Subpart H—Alternative Entitlements and Canceled Retirements

837.801 Unperfected entitlement to CSRS benefits based on a prior separation.
837.802 Benefits under another retirement system for Federal employees based on the most recent separation.
837.803 Cancellation of retirement by judicial or administrative authority.
837.804 Finality of elections under this subpart.

Authority: 5 U.S.C. 8337, 8344, 8347, 8455, 8456, 8461, and 8468.

Subpart A—General Provisions

§ 837.101 Applicability.

This part prescribes—

(a) The rules governing the reemployment of an annuitant by the Federal Government.

(b) The rules governing reemployment of an annuitant by the government of the

District of Columbia when the annuitant had been employed subject to CSRS by the District of Columbia prior to October 1, 1987, or was appointed to a position in the government of the District of Columbia on October 1, 1987, pursuant to the Saint Elizabeths Hospital and District of Columbia Mental Health Services Act.

(c) The rules governing the payment of retirement and death benefits based on reemployment covered by this part.

§ 837.102 Definitions.

Actual service means the period of time during which an annuitant is reemployed, excluding periods of separation and nonpay status.

Annuitant means a former employee or Member who is receiving, or meets the legal requirements and has filed claim for, annuity under either CSRS or FERS based on his or her service.

Another retirement system or *other retirement system* means a program created by Federal or District of Columbia statute or regulation and administered by an agency of the Federal Government or District of Columbia that provides retirement and/or death benefits to Federal or District of Columbia employees whose employment would otherwise be subject to the provisions of CSRS or FERS, or that credits service in the computation of benefits that would otherwise be credited in the computation of a CSRS or FERS benefit, or that provides a death benefit when a death benefit is payable from CSRS or FERS.

CSRS means the Civil Service Retirement System, as described in subchapter III of chapter 83 of title 5, United States Code.

CSRS annuitant means an annuitant retired under CSRS.

CSRS-Offset service means service by a reemployed CSRS annuitant that is subject to the OASDI tax by operation of section 101 of Public Law 98–21. It does not include any service performed before January 1, 1984.

CSRS-Offset wages means basic pay, as defined under 5 U.S.C. 8331(3), of an employee or Member performing CSRS-Offset service, but not to exceed the contribution and benefit base for the calendar year involved.

Continuous service means reemployment without a period of separation from service, or conversion to intermittent status, of more than 3 days.

Contribution and benefit base means the contribution and benefit base in effect with respect to the period involved, as determined under section 230 of the Social Security Act.

FEC means Federal Employees Compensation, that is, benefits paid on the basis of a work-related disease or injury under the provisions of chapter 81 of title 5, United States Code, but does not include a scheduled award under the provisions of 5 U.S.C. 8107, or medical services under 5 U.S.C. 8103.

FERS means the Federal Employees Retirement System, as described in chapter 84 of title 5, United States Code.

FERS annuitant means an annuitant who retired under FERS, or a reemployed CSRS annuitant whose election of FERS coverage under part 846 of this title is effective on or after January 8, 1988.

Full-time equivalent to part-time service means the amount of actual service that would result if the total hours worked on a part-time basis had been performed on a full-time basis, and the remaining portion of the period of reemployment was in a non-pay status.

Full-time service means actual service in which the reemployed annuitant is scheduled to work the number of hours and days required by the administrative workweek for his or her grade or class (normally 40 hours).

Fund means the Civil Service Retirement and Disability Fund as described at 5 U.S.C. 8348.

Intermittent service means any actual service performed on a less than full-time basis with no prescheduled regular tour of duty.

Lump-sum credit has the same meaning as the term is defined at section 8401(19) or section 8331(8) of title 5, United States Code, as may be applicable under the circumstances.

OASDI tax means, with respect to Federal wages, the Old Age, Survivors, and Disability Insurance tax imposed under section 3101(a) of the Internal Revenue Code of 1986.

Part-time service means actual service performed on a less than full-time basis under a pre-scheduled regular tour of duty.

Pay means the basic pay of the position to which the reemployed annuitant is appointed, prior to reduction for retirement contribution and annuity offset, and excludes any other benefits or compensation the reemployed annuitant receives, such as benefits authorized under the provisions of chapter 81 of title 5, United States Code.

Reemployed means reemployed in an appointive or elective position with the Federal Government, or reemployed in an appointive or elective position with the District of Columbia (when the annuitant was first employed subject to CSRS by the District of Columbia before October 1, 1987, or was appointed to a position in the government of the District of Columbia on October 1, 1987, pursuant to the Saint Elizabeth Hospital and District of Columbia Mental Health Services Act), whether the position is subject to CSRS, FERS, or another retirement system, but does not include appointment as a Governor of the Board of Governors of the United States Postal Service, or reemployment under provisions of law that exclude offset of pay by annuity, that is, sections 8344(i), (j), or (k), or 8468(f), (g), or (h) of title 5, United States Code.

Retired Member means a former Member of Congress, as defined by 5 U.S.C. 2106, who has met the requirements for Member retirement as specified at sections 8336(g), 8337(a), 8338(b), 8412, 8413, and 8451(b) of title 5, United States Code, and who has filed claim therefor.

Suspension, in regard to payment of annuity, means that payment of annuity stops but annuitant status continues.

Termination, in regard to payment of annuity, means that both payment or annuity and annuitant status cease.

§ 837.103 Notice.

(a) *To OPM.* On or before the date a reemployed annuitant is appointed, the appointing agency must notify OPM in writing of the appointment, and provide OPM with the following information—

(1) The annuitant's name, date of birth, social security number (if applicable), and retirement claim number;

(2) A description of the kind of appointment;

(3) Whether the amount of annuity allocable to the period of reemployment is, or will be, withheld from the reemployed annuitant's pay, in accordance with § 837.303; and

(4) When the appointment is an interim appointment under § 772.102 of this chapter, an explicit statement that the appointment is required by the Whistleblower Protection Act of 1989.

(b) *To annuitant.* The agency should advise the annuitant in writing, generally, of the effect reemployment has on annuitant status and/or the continued receipt of annuity, the possible future retirement benefits that may be payable to an annuitant on the basis of reemployment and for CSRS annuitants, whether the annuitant may elect to have retirement deductions withheld from his or her basic pay.

(c) *Obligation of annuitant to provide information.* Before appointment, and as a condition of reemployment, the annuitant must provide the employing agency with the following information—

(1) Whether the annuitant is then in receipt of annuity;

(2) The gross monthly amount of annuity the annuitant is then receiving;

(3) Whether the annuitant is a disability annuitant, and if so, whether OPM has found the annuitant recovered from his or her disability, or restored to earning capacity; and

(4) If the annuitant is a CSRS annuitant, whether the annuitant's retirement was based on an involuntary separation, not for charges of misconduct or delinquency.

Subpart B—Annuitant and Employee Status

§ 837.201 Annuitant status.

Unless his or her annuity is terminated under the provisions of §§ 837.202 or 837.403, an annuitant continues to be an annuitant throughout the period of reemployment, whether or not he or she continues to receive annuity payments during the period of reemployment.

§ 837.202 Annuities that terminate on reemployment.

(a) *FERS annuitants.* (1) The annuity of a FERS annuitant who is a disability annuitant whom OPM has found recovered or restored to earning capacity prior to reemployment terminates on reemployment.

(2) The annuity of a FERS annuitant who is a former military reserve technician awarded a disability retirement annuity under 5 U.S.C. 8456, in addition to being subject to paragraph (a)(1) of this section, shall terminate on the date the annuitant declines an offer of employment with a department or agency, where the employment is in the same commuting area and of the same grade as, or a level equivalent to, the position from which the annuitant retired.

(b) *CSRS annuitants.* (1) The annuity of a CSRS annuitant terminates on reemployment if—

(i) The annuitant is a disability annuitant whom OPM has found recovered or restored to earning capacity prior to reemployment, or whose disability annuity was awarded under the provisions of 5 U.S.C. 8337(h) because the annuitant was a National Guard Technician who was medically disqualifed for continued membership in the National Guard;

(ii) The annuitant is not a retired Member and the annuity is based on an involuntary separation (other than a separation that was mandated by statute based on the annuitant's age and length of service, or a separation for cause on charges of misconduct or delinquency) where the reemployment would, if the individual were not an annuitant, be covered by CSRS;

(iii) The annuitant is not a retired Member and is appointed by the President to a position that would, if the individual were not an annuitant, be covered by CSRS; or

(iv) The annuitant is not a retired Member and is elected as a Member.

(2) A disability annuity awarded a former National Guard Technician under the provisions of 5 U.S.C. 8337(h) shall terminate on the date the annuitant declines an offer of employment with a department or agency, where the employment is in the same commuting area and of the same grade as, or a level equivalent to, the position from which the annuitant retired.

§ 837.203 Annuities that are suspended during reemployment.

(a) *All annuitants.* Payments of annuity is suspended when—

(1) The annuitant is appointed as a justice or judge of the United States, as defined by section 451 of title 28, United States Code; or

(2) The annuitant receives an interim appointment under § 772.102 of this chapter.

(b) *CSRS annuitants only.* Payment of annuity is suspended when the annuitant is a retired Member and becomes employed in an elective position, or is appointed to a position that is not intermittent or without pay.

Subpart C—Coverage and Contributions

§ 837.301 Coverage.

(a) *When annuity terminates on, or is suspended during, reemployment.* Retirement coverage under either CSRS or FERS is governed by subpart B of part 831 or subpart A of part 842 of this chapter, as is appropriate.

(b) *When annuity continues.* (1) Unless a reemployed FERS annuitant's employment is on an intermittent basis, as an employee subject to another retirement system, or as President, deductions for the Fund shall be made under 5 U.S.C. 8422(a).

(2) A CSRS annuitant is not subject to deductions, unless he or she is serving in an other-than-intermittent status (except as President), is not covered by another retirement system, and elects to have retirement deductions made from his or her pay. Generally, deductions are made no later than the beginning of the first pay period immediately following the date the reemployed annuitant files the election with the employing agency. When the annuitant elects to have deductions made, he or she may not change the election during continuous service with that agency.

(3) The amount of basic pay prior to offset of annuity under § 837.303 is used in computing the amount of deductions. The rate of retirement deductions is that which attaches to the position under the provisions of sections 8334(a), 8334(k), or 8422(a) of title 5, United States Code, as is applicable.

§ 837.302 Agency contributions.

(a) *FERS annuitants.* An agency that reemploys a FERS annuitant subject to retirement deductions under § 837.301(b)(1) shall make contributions, as specified in 5 U.S.C. 8423, to the Fund, based on the reemployed annuitant's pay prior to offset of annuity under the provisions of § 837.303.

(b) *CSRS annuitants.* An agency that reemploys a CSRS annuitant is required to make an agency contribution when—

(1) The annuity is suspended or terminated under the provisions of subpart B of this part; and

(2) The appointment is subject to CSRS deductions under the provisions of subpart B of part 831 of this chapter.

§ 837.303 Annuity offset.

(a) *Applicability.* When the right to receive annuity continues during reemployment (even though actual receipt of annuity may have been waived under 5 U.S.C. 8345(d) or 8465(a)), the pay of the reemployed annuitant shall be offset by the amount of annuity allocable to the period of reemployment, except that—

(1) No amount shall be offset from pay in accordance with this section for a period for which the annuitant has elected to receive FEC benefits in lieu of annuity; and

(2) No amount shall be offset from a lump-sum payment of annual leave, made on or after termination of the reemployment period.

(b) *Payment.* The employing agency shall pay to the Fund the full amount required to be offset from a reemployed annuitant's salary under this section in accordance with instructions issued by OPM. Payment in full to the Fund is not contingent on actual offset from the reemployed annuitant's salary.

(c) *Computation.* To compute the amount of the annuity offset for any particular pay period, divide the amount of annuity for the calendar days included in the pay period by the number of hours that would constitute a full-time tour of duty for that pay period, then multiply the result by the number of hours actually paid for the pay period, not to exceed the number of hours that constitutes a full-time tour of duty.

§ 837.304 Agency liability for payments.

(a) The agency will remit funds properly withheld from the pay of a reemployed annuitant in accordance with this subpart to OPM in the manner prescribed for the transmission of withholdings and contributions as soon as possible, but not later than provided by standards established by OPM in the Federal Personnel Manual.

(b) When the employing agency fails to withhold from the pay of the reemployed annuitant some or all of the amounts required to be withheld from that pay by this subpart, the employee has received an overpayment of pay. The employing agency must collect the overpayment of pay (unless it is waived under 5 U.S.C. 5584 or some other applicable statute) and remit the proper funds to OPM in the manner prescribed for the transmission of withholdings and contributions as soon as possible, but not later than provided by standards established by OPM in the Federal Personnel Manual.

(c) If the employing agency waives the annuitant's repayment of the salary overpayment, it must submit—on behalf of the reemployed annuitant—an amount equal to the correct deduction from pay (or the balance due in the case of a partial deduction) to OPM in the manner prescribed for the transmission of withholdings and contributions as soon as possible, but not later than provided by standards established by OPM in the Federal Personnel Manual.

§ 837.305 Lump-sum credit not reduced.

When annuity continues during the period of reemployment, and the reemployment is subject to annuity offset under the provisions of § 837.303, or any similar provision of law or regulation, the amount of an annuitant's lump-sum credit to the Fund shall not be reduced by the amount of annuity allocable to the period of reemployment.

§ 837.306 Refund of lump-sum credit.

An annuitant serving as a justice or judge of the United States, as defined by section 451 of title 28, United States Code, may apply for and receive payment of the annuitant's lump-sum credit, less the amount of annuity or other benefits previously paid on that account. Receipt of a refund under this section will irrevocably terminate the right to annuity, and the annuitant status, of the recipient, based on any prior separations from employment covered by CSRS or FERS.

Subpart D—Reemployment of Disability Annuitants

§ 837.401 Generally.

A disability annuitant may be reemployed in any position for which he or she is qualified.

§ 837.402 Special notice.

(a) *To annuitant.* In addition to the advice described in paragraph 837.103(b), the agency should generally also advise a disability annuitant, in writing, prior to reemployment, that—

(1) Reemployment on a permanent basis in a position equivalent in grade and pay to the position from which the annuitant retired may constitute the basis for an OPM finding of recovery from disability;

(2) Reemployment subject to medical and physical qualification standards equivalent to those of the position from which the annuitant retried may constitute the basis for an OPM finding of recovery from disability;

(3) The pay of the position in which the annuitant is reemployed, prior to the offset of annuity, or the pay of an interim appointment under § 772.102 of this chapter, as may be applicable, will be included as earnings in determining whether the disability annuity will be terminated due to restoration to earning capacity;

(4) Receipt of, or continued entitlement to receive, full or partial FEC benefits during reemployment, when those benefits are based on the same injury or medical condition that is the basis for OPM's award of disability retirement, is conclusive evidence (unless there is contravening medical evidence) that the annuitant has not recovered from the disability; and

(5) A disability annuitant age 60 or over cannot be found by OPM to be restored to earning capacity, and can only be found recovered at the annuitant's request.

(b) *To OPM.* On reemployment of a disability annuitant, the employing agency shall, in addition to the notice required by § 837.103(a), notify OPM in writing of—

(1) The physical and medical requirements of the position (providing a copy of the employee's position description);

(2) The position's grade level and/or rate of pay;

(3) Whether the employment is full-time, part-time, or intermittent;

(4) Whether, to the best of the agency's knowledge, the reemployed annuitant is receiving, or entitled to receive, FEC benefits; and

(5) Whether any medical evidence was used in making the employment decision, and if so, provide OPM with a copy of the medical information.

§ 837.403 Termination of annuitant during reemployment.

(a) *Agency action.* When a reemployed disability annuitant is found recovered from disability or restored to earning capacity by OPM, OPM shall terminate the annuity as of the date of the finding, and the employing agency shall cease reducing pay by the amount of annuity allocable to the period of reemployment effective that same date. If the appointment is subject to retirement deductions, retirement deductions will begin or continue, as the case may be.

(b) *Subsequent Benefits*—(1) *CSRS.* If, on separation from a period of reemployment during which the disability annuity was terminated because of recovery or restoration to earning capacity, the former disability annuitant is entitled to either an immediate or deferred annuity based on the most recent separation, any right to an annuity based on a prior separation is permanently extinguished. If no such right to immediate or deferred annuity accrues based on this most recent separation, however, any right to immediate or deferred annuity will be determined on the basis of the next prior separation.

(2) *FERS.* If a disability annuity is terminated during a period of reemployment because of recovery or restoration to earning capacity, any right to an annuity based on a prior separation is permanently extinguished, except as otherwise provided by § 844.405(b)(2) of this chapter.

§ 837.404 Reinstatement of annuitant during a period of employment not subject to CSRS or FERS.

When OPM reinstates the disability annuity of an individual employed in a position not subject to CSRS or FERS, the employing agency shall withhold retirement deductions and offset pay subject to the provisions of subpart C of this part, as of the date of OPM's administrative determination of reinstatement. OPM shall offset from any retroactive payment of annuity for a period that is also a period of employment an amount equal to the amount of annuity, or the pay for the period of employment, whichever is the lesser.

Subpart E—Retirement Benefits on Separation

§ 837.501 Refund of retirement deductions.

A reemployed annuity who separates from reemployment without title to either a supplemental annuity or a redetermined annuity under this subpart is entitled to have any retirement deductions withheld from pay during the period of reemployment refunded without interest.

§ 837.502 Reinstatement of annuity.

(a) *When Appropriate.* (1) when an annuity was terminated because of reemployment under the provisions of § 837.202, or any similar provision of statute or regulation in effect prior to the promulgation of this part, the annuity that was terminated will be reinstated effective the date immediately following the date the reemployed annuitant separated from reemployment, if—

(i) The reemployed annuitant's right to annuity has not been terminated under any other provision of regulation or statute; and

(ii) The reemployed annuitant is not entitled to either an immediate or deferred CSRS or FERS annuity based on the separation from reemployment.

(2) when an annuity was suspended because of reemployment under the provisions of § 837.203, the annuity that was suspended will be reinstated effective the date immediately following the date the reemployed annuitant separated from reemployment.

(b) *Amount of Reinstated Annuity.* The amount of an annuity reinstated under the provisions of paragraph (a)(2) of this section will be the amount of the annuity at the effective date of termination, adjusted by such adjustments as would have occurred had the annuity remained payable during the period of reemployment.

§ 837.503 Supplemental annuity.

(a) *Title Requirements.* A reemployed annuitant is entitled, on separation, or conversion to intermittent service, to a supplemental annuity if—

(1) The annuity is not terminated or suspended on reemployment;

(2) The pay during reemployment was subject to offset by the amount of annuity allocable to the period of reemployment; and

(3) The annuitant performs—

(i) At least 1 year of actual, continuous, full-time service;

(ii) Actual, continuous part-time service equivalent to 1 year of actual full-time service, or;

(iii) A combination of part-time and full-time actual, continuous service that is equivalent to 1 year of actual full-time service.

(4) An annuitant separating from an interim appointment made under the provisions of § 772.102 of this chapter need not meet the requirements of paragraphs (a) (1) and (2) of this section to establish title to a supplemental annuity under this section.

(b) *Computation of supplemental annuity—(1) CSRS.* (i) That portion of a supplemental annuity that is based on the total years and full months of creditable reemployment service performed while covered under CSRS is computed under the provisions of 5 U.S.C. 8339 (a), (b), (d), (e), (h), (l), (n) and (q).

(ii) A supplemental annuity computed in whole or in part under the provisions of this paragraph, using CSRS-Offset service, is subject to reduction under subpart G of this part.

(2) *FERS.* That portion of a supplemental annuity that is based on the total years and full months of creditable reemployment service performed on and after the effective date of FERS coverage is computed under the provisions of 5 U.S.C. 8415 (a) through (f).

(3) *Average pay.* The average pay used in the computation of a supplemental annuity is the average basic pay for the entire period of actual continuous reemployment service, excluding intermittent service.

(4) *Survivor reduction.* If the reemployed annuitant's annuity, at the time he or she applies for supplemental annuity, is reduced to provide a survivor benefit for a spouse, (or, for FERS annuitants only, a former spouse), the supplemental annuity will be reduced by 10 percent, and the survivor annuities increased, if the annuitant was retired under CSRS, by 55 percent of the supplemental annuity, and if the annuitant was retired under FERS, by 50 percent of the supplemental annuity, unless the reemployed annuitant notifies OPM at the time of application that he or she does not wish to have such reductions and increases effected.

(c) *Creditable service.* (1) All actual reemployment service performed after the date of retirement on a full-time or part-time basis may be credited in the computation of a supplemental annuity provided—

(i) When the reemployment service was performed on or after October 1, 1982, retirement deductions were withheld or, for CSRS annuitants, a deposit has been paid under the provisions of 5 U.S.C. 8334;

(ii) The reemployment service was not performed subject to another retirement system, except when the deductions under the other retirement system have been refunded and a deposit paid to OPM, where the law so permits, or benefits under the other retirement system have been waived in favor of CSRS or FERS benefits; and

(iii) The reemployment service has not been used in the computation of another supplemental or redetermined annuity.

(2) A period of reemployment service during which annuitant status continues and annuity is paid, and which is excluded from the normal annuity offset from pay by special statutory provision, cannot be credited in the computation of a supplemental annuity or any subsequent annuity entitlement.

(d) *Commencing date.* (1) Except as provided in clause (2) of this subparagraph, the supplemental annuity commences on the earlier of the first day of the month following—

(i) The day the annuitant is separated from reemployment; or

(ii) The day the annuitant is converted to an intermittent status.

(2) The supplemental annuity of a FERS annuitant, and the supplemental annuity of a CSRS reemployed annuitant who has not elected FERS coverage and who was—

(i) Involuntarily separated from the reemployment service (except by removal for cause on charges of misconduct or delinquency);

(ii) Involuntarily converted to an intermittent status, or;

(iii) Separated from reemployment service, or converted to intermittent status, after serving 3 days or less in the month of such separation or conversion—shall commence on the earlier of the day after separation from reemployment service, the effective date of conversion to intermittent status, or the day after the date pay ceases.

§ 837.504 Redetermined annuity.

(a) *Title Requirements.* (1) A reemployed annuitant is entitled, on separation, or conversion to intermittent service, to a redetermined annuity if—

(i) The annuity was not terminated or suspended during reemployment;

(ii) The pay during reemployment was subject to offset by the amount of annuity allocable to the period of reemployment;

(iii) The annuitant performs—

(A) At least 5 years of actual, continuous, full-time service;

(B) Actual, continuous part-time service equivalent to 5 years of actual full-time service, or;

(C) A combination of part-time and full-time actual, continuous service that is equivalent to 5 years of actual full-time service.

(iv) Retirement deductions are withheld, or a deposit is paid, for the entire period of continuous reemployment service immediately preceding the most recent separation from reemployment service; and

(v) The reemployed annuitant elects the redetermined annuity in lieu of his or her prior annuity and the supplemental annuity that would be payable under § 837.503 of this subpart.

(vi) An annuitant separating from an interim appointment made under the provisions of § 772.102 of this chapter need not meet the requirements of paragraph (a)(1) (i) and (ii) of this section in order to establish title to a redetermined annuity under this section.

(2) An employee whose annuity was terminated under the provisions of § 837.202(b)(1)(iii), and who has not elected FERS coverage, is entitled to a redetermined annuity on separation.

(b) *Computation.* (1) A redetermined annuity is computed using all the reemployed annuitant's creditable service, under the provisions of law in effect governing the payment of CSRS and/or FERS annuities, as may be applicable, at the time of separation from reemployment service, or conversion to intermittent status.

(2) The amount of the redetermined annuity of an individual whose previous annuity was terminated under the provisions of § 837.202(b)(1)(iii) will at least equal the amount of the terminated annuity plus any increases under section 8340 of title 5, United States Code, occurring after the termination of the previous annuity and before the commencement of the redetermined annuity, adjusted by any annuity increase or reduction resulting from additional or different elections made by the reemployed annuitant.

(c) *Commencing date.* The commencing date of the redetermined annuity is the same as the law and/or regulations would provide in the case of a retiring employee.

Subpart F—Death Benefits

§ 837.601 Generally.

Except as otherwise provided by this subpart, when an annuitant who is reemployed under circumstances that provide for continuation of annuitant status during reemployment dies, death benefits are payable under CSRS or FERS as if the individual died as an annuitant, and not as an employee.

§ 837.602 Lump-sum payment of retirement deductions.

If an annuitant reemployed subject to the provisions of this part dies while so reemployed, and the annuitant would not have been entitled to a supplemental annuity, had the separation been for reasons other than death, or if there is no supplemental spousal survivor annuity payable (including a survivor annuity payable to a former spouse, if the annuitant retired under FERS) the amount of retirement deductions withheld during the period of reemployment will be paid in a lump sum to the person entitled under the provisions of 5 U.S.C. 8342(c) or 8424(d), as appropriate.

§ 837.603 Increased survivor benefits.

(a) *Supplemental Survivor Annuity.* (1) If an annuitant reemployed subject to the provisions of this part dies while so reemployed, and the annuitant would have been entitled to a supplemental annuity, had the separation been for reasons other than death, and there is a spousal survivor annuity payable (including a survivor annuity payable to a former spouse, if the annuitant retired under FERS) the amount of the spousal survivor annuity will, if any necessary deposit for service credit is made, be increased by 55 percent of the supplemental annuity, if the reemployed annuitant was retired under CSRS, or 50 percent of the supplemental annuity, if the reemployed annuitant was retired under FERS.

(2) Supplemental survivor annuity benefits payable under this paragraph, computed in whole or in part under the provisions of § 837.503(b)(1)(i), using CSRS-Offset service, are subject to reduction under subpart G of this part.

(b) *Redetermined Survivor Annuity.* If an annuitant reemployed subject to the provisions of this part dies while so reemployed, and the annuitant would have been entitled to elect a redetermined annuity, had the separation been for reasons other than death, and if there is a spousal survivor annuity payable (including a survivor annuity payable to a former spouse, if the annuitant retired under FERS), a person entitled to a spousal survivor annuity may elect to have his or her survivor annuity computed as if the annuitant had elected a redetermined annuity, provided any necessary deposit for service credit is made.

Subpart G—CSRS Offset

§ 837.701 Offset from supplemental annuity.

(a) OPM will reduce the supplemental annuity of an individual who has performed CSRS-Offset service, if the individual is entitled, or on proper application would be entitled, to old-age benefits under title II of the Social Security Act.

(b) The reduction required under paragraph (a) of this section is effective on the first day of the month during which the reemployed annuitant—

(1) Is entitled to a supplemental annuity under this part; and

(2) Is entitled, or on proper application would be entitled, to old-age benefits under title II of the Social Security Act.

(c) Subject to paragraphs (d) and (e) of this section, the amount of the reduction required under paragraph (a) of this section is the lesser of—

(1) The difference between—

(i) The social security old-age benefit for the month referred to in paragraph (b) of this section; and

(ii) The old-age benefit that would be payable to the individual for the month referred to in paragraph (b), excluding all CSRS-Offset wages as a reemployed annuitant, and assuming the annuitant was fully insured (as defined by section 214(a) of the Social Security Act); or

(2) The product of—

(i) The old-age benefit to which the individual is entitled or would, on proper application, be entitled; and

(ii) A fraction—

(A) The numerator of which is the annuitant's total CSRS-Offset service as a reemployed annuitant, rounded to the nearest whole number of years not exceeding 40 years; and

(B) The denominator of which is 40.

(d) Cost-of-living adjustments under 5 U.S.C. 8340 occurring after the effective date of the reduction required under paragraph (a) of this section will be based on only the supplemental annuity remaining after reduction under this subpart.

(e) The amounts for paragraphs (c)(1)(i), (c)(1)(ii), and (c)(2)(i) of this section are computed without regard to subsections (b) through (1) of section 203 of the Social Security Act (relating to reductions in social security benefits), and without applying the provisions of the second sentence of section 215(a)(7)(B)(i) or section 215(d)(5)(ii) of the Social Security Act (relating to part of the computation of the social security windfall elimination provisions).

(f) OPM will accept the determination of the Social Security Administration, submitted in a form prescribed by OPM, concerning entitlement to socal security benefits and the beginning and ending dates thereof.

§ 837.702 Offset from supplemental survivor annuity.

(a) OPM will reduce a supplemental survivor annuity (an annuity under 5 U.S.C. 8341) based on the service of an individual who performed CSRS-Offset service, if the survivor annuitant is

entitled, or on proper application would be entitled, to survivor benefits under section 202(d), (e), or (f) (relating to children's, widows', and widowers' benefits, respectively) of the Social Security Act.

(b) The reduction required under paragraph (a) of this section begins (or is reinstated) on the first day of the month during which the survivor annuitant—

(1) Is entitled to a disability or survivor annuity under CSRS; and

(2) Is entitled, or on proper application would be entitled, to survivor benefits under the Social Security Act provisions mentioned in paragraphs (a) and (c) of this section, respectively.

(c) The reduction under paragraphs (a) of this section will be computed and adjusted in a manner consistent with the provisions of § 837.701 (c) through (e).

(d) A reduction under paragraph (a) of this section stops on the date entitlement to the disability or survivor benefits under title II of the Social Security Act terminates. In the case of a survivor annuitant who has not made proper application for the social security benefit, the reduction under paragraph (a) of this section stops on the date entitlement to such survivor benefits would otherwise terminate. If a social security benefit is reduced under any provision of the Social Security Act, even if reduced to zero, entitlement to that benefit is not considered to have terminated.

(e) OPM will accept the determination or certification of the Social Security Administration, submitted in a form prescribed by OPM, concerning entitlement to social security survivor benefits and the beginning and ending dates thereof.

Subpart H—Alternative Entitlements and Canceled Retirements

§ 837.801 Unperfected entitlement to CSRS benefits based on a prior separation.

(a) An employee who meets the age and service requirements for title to a non-disability annuity under CSRS on the basis of a prior separation, but did not apply for that annuity before a subsequent separation from service to which a different annuity entitlement attaches, may elect, on application, to receive either—

(1) The annuity based on the later separation; or

(2) The annuity based on the prior separation, with payment of annuity suspended during the period(s) of employment subsequent to the commencing date of annuity, and such benefits as would be payable had the subsequent period(s) of employment been performed under the provisions of this part.

(b) When an individual who has applied for a deferred annuity under CSRS is reemployed under CSRS before the commencing date of that annuity, the application is deemed to have not been made.

§ 837.802 Benefits under another retirement system for Federal employees based on the most recent separation.

(a) *Generally.* An annuitant who has performed reemployment service after the commencing date of annuity under the provisions of another retirement system, and who is entitled to an annuity benefit from the other retirement system during a period in which he or she is also entitled to an annuity benefit under CSRS or FERS, may receive both benefits simultaneously, or for the same period, except that the annuitant may not receive both benefits simultaneously, or for the same period, if—

(1) The provisions of law or regulation governing the other retirement system do not permit the annuitant to receive both benefits simultaneously, or for the same period of time; or

(2) Entitlement to the annuity from the other retirement system is based on service credited in the computation of the CSRS or FERS annuity, or service credited in the computation of the annuity from the other retirement system was used in the computation of the CSRS or FERS annuity.

(b) *Election of Alternative Benefits.* (1) Where simultaneous receipt of, or entitlement to, both annuities is barred under the provisions of paragraph (a)(1) of this section, the annuitant must elect to receive either the annuity under the other retirement system, or the CSRS annuity.

(2) Where the annuitant, under the provisions of paragraph (b)(1) of this section, elects to receive annuity from the other retirement system in lieu of the CSRS or FERS annuity, the CSRS or FERS annuity terminates as of the commencing date of the other annuity, and any overpayment of CSRS annuity will be offset from the other annuity and paid to OPM.

(c) *Recomputation.* Where simultaneous receipt of annuities from more than one retirement system is barred by paragraph (a)(2) of this section, but not by paragraph (a)(1) of this section, the CSRS or FERS annuity may be recomputed to exclude credit for service credited in determining entitlement to, or the amount of, the annuity from the other retirement system, effective as of the commencing date of the annuity from the other retirement system for Federal employees, and the recomputed CSRS or FERS annuity may be paid simultaneous with, or for the same period as, the annuity from the other retirement system for Federal employees.

(d) *Forfeiture.* Where an annuitant's coverage as an employee under another retirement system, whether by election or by operation of law or regulation, results in forfeiture of annuity rights under CSRS or FERS, the CSRS or FERS annuity will terminate as of the effective date of coverage.

(e) *Survivors.* The rules detailed in this section in regard to dual entitlement to annuity benefits under CSRS or FERS and other retirement system also apply to dual entitlement to survivor benefits under CSRS or FERS and another retirement system, unless the particular circumstance is otherwise governed by specific provision of statute or regulation.

(f) *Agency Responsibilities.* The agency responsible for administering another retirement system must—

(1) Promptly notify OPM of an election of coverage under that retirement system by a reemployed CSRS or FERS annuitant, or the coverage of a reemployed CSRS annuitant under that retirement system by election or operation of law or regulation, when such coverage affects the annuitant's entitlement to CSRS annuity;

(2) Promptly notify OPM when a reemployed annuitant separates with entitlement to an annuity under the other retirement system that cannot, under the provisions of paragraph (a) of this section, be paid simultaneous with, or during the same period as, the CSRS annuity; and

(3) Reimburse OPM for overpayments of annuity resulting from a failure to comply with paragraphs (b) (1) and (2) of this section.

§ 837.803 Cancellation of retirement by judicial or administrative authority.

(a) *Cancellation of retirement action.* A separation from employment on which an application for retirement is based may only be canceled by the former employing agency in response to a direct and final order of a judicial or administrative body charged with the responsibility of reviewing the legality of the separation, and authorized to make such order, or by agreement between the annuitant and the former employing agency in resolution of a grievance, complaint, dispute, appeal or other action, involving an allegedly erroneous separation, before such authority.

(b) *Agency notification to OPM.* Upon receiving a final order requiring cancellation of the annuitant's separation or after the annuitant and the agency agree to cancel the separation, the employing agency must notify OPM and request the amount of the erroneous payment to be recovered under § 550.805(e) of this chapter from any back pay adjustment to which the employee may be entitled.

(c) *Collection of erroneously paid retirement benefits.*—(1) If OPM determines that an overpayment of annuity or lump-sum credit has occurred and the employee is entitled to receive back pay because of the canceled separation, the overpaid retirement benefits must be deducted to the extent they can be recovered from the back pay adjustment as required by § 550.805(e) of this chapter.

(2) Amounts recovered from back pay will not be subject to waiver consideration under the provisions of 5 U.S.C. 8346(b) or 8470(b). If there is no back pay or the back pay is insufficient to recover the entire payment, the employee may request that OPM waive the uncollected portion of the overpayment. If waiver is not granted, the employee must repay the erroneous payment.

§ 837.804 Finality of elections under this subpart.

Except as otherwise provided by this subpart, an election of coverage under, or annuity from, another retirement system, in lieu of CSRS or FERS coverage or annuity, or the election between simultaneous entitlements under CSRS or FERS, is final and conclusive for the period of simultaneous entitlement to coverage or annuity.

PART 841—FEDERAL EMPLOYEES RETIREMENT SYSTEM—GENERAL ADMINISTRATION

Subpart E—Employee Deductions and Government Contributions

5. The general authority citation for part 841 continues to read as follows:

Authority: 5 U.S.C. 8461(g); * * *

§ 841.506 [Amended]

6. In § 841.506, paragraphs (b), (d), and (e) are removed, and paragraph (c) is redesignated (b).

PART 842—FEDERAL EMPLOYEES RETIREMENT SYSTEM—BASIC ANNUITY

Subpart A—Coverage

7. The general authority citation for part 842 and the specific authority for § 842.104 continue to read:

Authority: 5 U.S.C. 8461(g); Section 842.104 * * * also issued under 5 U.S.C. 8641(n) * * *

§ 842.104 [Amended]

8. In § 842.104, paragraph (a) is removed, and paragraphs (b) through (g) are redesignated (a) through (f).

PART 844—FEDERAL EMPLOYEES RETIREMENT SYSTEM—DISABILITY RETIREMENT

9. The authority citation for part 844 continues to read:

Authority: 5 U.S.C. 8461.

Subpart D—Termination and Reinstatement of Disability Annuity

§ 844.403 [Removed]

§§ 844.404 and 844.405 [Redesignated as §§ 844.403 and 844.404]

10. Section 844.403 is removed, and §§ 844.404 an 844.405 are redesignated as §§ 844.403 and 844.404; and newly redesignated § 844.404, paragraph (e) is removed and paragraph (f) is redesignated (e).

PART 846—FEDERAL EMPLOYEES RETIREMENT SYSTEM—ELECTING COVERAGE

11. The general authority citation for part 846 continues to read:

BILLING CODE 6325-01-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 35

Medical Use of Byproduct Material; Training and Experience Criteria

AGENCY: Nuclear Regulatory Commission.

ACTION: Advance notice of proposed rulemaking: Withdrawal.

SUMMARY: The Nuclear Regulatory Commission is withdrawing an Advance Notice of Proposed Rulemaking (ANPRM) on the training and experience criteria for all individuals who use byproduct material for clinical procedures in the practice of medicine.

FOR FURTHER INFORMATION CONTACT: Larry W. Camper, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: 301-504-3417.

SUPPLEMENTARY INFORMATION: On May 25, 1988, the Commission published an ANPRM on the training and experience criteria for all individuals who use byproduct material for clinical procedures in the practice of medicine (53 FR 18845). In the ANPRM, the Commission explained that it was considering amending its training and experience criteria to reflect the realities of the evolution of medical practice, without compromising public health and safety. Rather than simply examining training and experience criteria for the diagnostic use of radiopharmaceuticals, NRC took that opportunity to request public comment on training and experience criteria for all individuals who participate in any type of medical use of byproduct material.

The comment period expired on August 24, 1988. The Commission received 94 letters of comment. Thirty-six were from hospital-based physicians; 16 from professional societies; 13 from technologies; 8 from State regulatory agencies; 6 from medical physicists; 5 from radiopharmacists; 4 from nuclear medicine training programs; 3 from private physicians; and 1 from a hospital administrator. Nineteen letters were received in support of a recommendation from the American College of Cardiology and the American Heart Association that the current 1000-hour requirement described in Subpart J be reduced for those practitioners performing only "single organ" imaging. Another 27 letters said that the training and experience requirements should be the same for every physician, and that the term "single organ" imaging was a misnomer, since cardiac imaging requires the use of various radioisotopes and radiopharmaceuticals, sophisticated instrumentation, and safe handling of radioactive material. Of the 41 letters addressing board certification, all were in favor of certification, but 27 letters stressed that the only satisfactory training was certification through an accredited program. Many letters addressed the shortage of professional

personnel. Several letters said that training and experience criteria for radiopharmaceutical and sealed source therapy were not sufficient.

In 1989, the staff received a contract report that characterized the training and experience criteria for personnel involved in the medical use of byproduct material. The final report was entitled: "Study on Training and Experience Criteria for Personnel Involved in the Medical Use of Byproduct Material," by S. Cohen and Associates, Inc. The report addressed the exact nature of the duties and responsibilities of all persons working in nuclear medicine departments, nuclear pharmacies, and radiation oncology departments; the degree to which current professional organizations already have criteria for educating and certifying individuals in these specialties; the degree to which States are already regulating persons working with radiation in medical institutions; and the existing Federal and State regulations for individuals working with radiation in medical institutions.

Using information from the public comments and the contracted report, the NRC staff prepared an analysis that was presented to NRC's Advisory Committee on Medical Uses of Isotopes (ACMUI) during its July 10, 1990, meeting. The ACMUI recommended against NRC modifying its requirements for physicians desiring to perform only limited nuclear procedures, and recommended that NRC do nothing about required training and experience criteria for technologists and other non-physician workers, unless additional information indicated that the deficient training of these groups contributed to misadministration reported to NRC.

On January 27, 1992, the Quality Management (QM) Program and Misadministration Rule became effective. NRC believes that implementation of this rule will result in increased direction and oversight by the authorized user, thus mitigating the need for NRC to specify training and experience criteria for technologists and other non-physician workers who handle byproduct material. Further, with the implementation of the QM Rule, the revised 10 CFR 35.25(a)(2) more clearly defines the requirements of adequate supervision.

The NRC staff continues to review and evaluate the adequacy of existing training and experience criteria for medical uses. The staff also continues to monitor the role of inadequate training or experience as a contributing factor to misadministration events reported to the NRC. Specific activities include: reviewing the preceptor process for documentation of training received by physician applicants, and establishing a new category of authorized individual, the "authorized nuclear pharmacist." Further, the NRC staff currently has studies underway using human factors and risk analysis techniques to examine reported misadministrations and brachytherapy and teletherapy practices. The staff hopes to gain insight regarding the design of equipment and the essential elements of training for these practices. The results of these studies may be used to develop guidance or proposed rulemaking, as appropriate, for medical personnel using byproduct material in these applications.

The Commission has concluded that the development of comprehensive training and experience criteria for the medical use of byproduct material, as described in the ANPRM, is not indicated at this time. The review of training and experience criteria for the medical use of byproduct material is an ongoing process, and revisions will be proposed as needed. Therefore, the Commission is withdrawing this ANPRM.

Dated at Rockville, Maryland, this 2d day of October 1992.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

[FR Doc. 92-24630 Filed 10-8-92; 8:45 am]

BILLING CODE 7590-01-M

SMALL BUSINESS ADMINISTRATION

13 CFR Part 120

Business Loan Policy; Pledging or Sale of Unguaranteed Portion of Loan

AGENCY: Small Business Administration.

ACTION: Notice of proposed rulemaking.

SUMMARY: Pursuant to section 7(a) of the Small Business Act (Act) 15 U.S.C. 636(a), the Small Business Administration (SBA) makes loans and other financings (hereinafter referred to collectively as loans) on a deferred (guaranteed) basis with banks or other lending institutions. SBA can guaranty up to 90 percent of such loans depending upon the loan amount. As such, there is an unguaranteed portion of every SBA guaranteed loan. This proposed rule would permit, under prescribed procedures, on a case by case basis, and with SBA's prior written consent, either the transfer of the unguaranteed portions of SBA guaranteed loans or the pledge of the notes which evidence SBA guaranteed loans. The intent of this regulation is to make this procedure available only to those participating lenders who are financially secure, who have a history of being in compliance with applicable regulations, and who regularly use commercial lines of credit as a way to finance their lending operations.

DATES: Comments must be received on or before November 9, 1992.

ADDRESSES: Comments should be mailed to: Charles R. Hertzberg, Assistant Administrator for Financial Assistance, U.S. Small Business Administration, 409 Third Street, SW., Washington, DC 20416.

FOR FURTHER INFORMATION CONTACT: Charles R. Hertzberg, AA/FA, (202) 205-6490.

SUPPLEMENTARY INFORMATION: Section 7(a) of the Small Business Act (Act) 15 U.S.C. 636(a) authorizes SBA to make loans on a deferred (guaranteed) basis with banks or other lending institutions. Historically, since its enactment in 1953, section 7(a) has contained various limitations on the amount of guaranty SBA may make available to a bank or other lending institution in furtherance of the statutory objectives expressed elsewhere in that provision. As a result, there remains an unguaranteed portion of every SBA guaranteed loan, the minimum size of which is dependent upon the statutory provision under which the loan is made.

The legislative history of these limiting provisions makes it clear that Congress did not intend for SBA to guarantee 100% of a given loan, and that it did intend for the bank or lending institution making a guaranteed loan to retain a sufficient economic interest in the loan to ensure its diligence in the making, servicing and liquidating of that loan. To that end, SBA historically has promulgated various regulations and utilized various contractual provisions designed to enforce the statutory requirement that the lender of a guaranteed loan retain an economic interest in the loan reasonably commensurate with the unguaranteed portion.

In most instances, that requirement for retention of economic interest has translated into a requirement for retention of at least a part of the unguaranteed portion of the guaranteed loan by the lender. (See for example 13 CFR 120.403-7(d)) However, SBA has permitted under prescribed procedures, on a case by case basis, and with its prior written consent both the transfer by some lenders of the unguaranteed portions of loans and the pledge by other lenders of the notes which evidence SBA guaranteed loans for the

purpose of financing transactions for the benefit of those lenders. (See paragraph 12(a) of Blanket Guaranty Agreement, SBA Form (750)). The regulations proposed herewith will codify the procedures SBA has followed in those transactions so as to give its community of lenders clear guidance on when and how such financing transactions can be consummated. They are intended to facilitate the financing of the unguaranteed portions of SBA guaranteed loans only in circumstances where the lender regularly used commercial lines of credit as a way to finance its lending operations.

In this regard, SBA is considering adopting a change to its regulations applicable only for two types of Nondepository Lenders. Nondepository Lenders that would be covered under this proposal are Small Business Lending Companies which are licensed and regulated by SBA (See 13 CFR Part 120), and Business and Industrial Development Companies which are chartered under state statutes. SBA is reserving the right to deny a lender's request for its consent under these regulations if such lender is not, or in the past not been, in compliance with regulations governing SBA lending activities or any other applicable state or Federal statutory or regulatory requirements.

The procedures that would be established pursuant to this proposed regulations will be available only to those non-depository lenders which meet certain criteria. First, as a threshold matter, the lender must be financially secure. Next, the lender must presently be, and historically have been, substantially in compliance with SBA regulations. The underlying premise of the proposal is that some non-depository lenders who meet these criteria are in a good position, through the transfer or pledge of their unguaranteed portions, to generate new funds that will enable them safely to expand the number of small businesses to which they can provide financing. That purpose can only be served when SBA is satisfied that the lender has demonstrated the financial and programmatic ability to service its loans.

These proposed regulations are intended to cover either a situation in which a lender wants to pledge the notes evidencing SBA guaranteed loans, or to transfer for value the unguaranteed portions of such notes or the right to the income stream from such unguaranteed portions for the purpose of obtaining financing. The documents necessary to effectuate any such financing arrangement will differ from case to case. SBA will attempt to accommodate any reasonable proposal for such financing. However, the regulatory requirements set out below are designed to provide general conditions which must be satisfied in all such cases before SBA will accommodate any proposal with its prior written consent.

In this regard, under these proposed regulations, only a party agreeable to SBA will be permitted to hold the notes evidencing SBA guaranteed loans. Normally, SBA requires the lender to retain custody of such notes. (See 13 CFR 120.200–2) However, SBA recognizes that parties to the types of financing transactions contemplated by these proposed regulations may sometimes not be willing to permit a lender to retain the notes for reasons peculiar to the transactions. In this case, SBA will either hold the notes itself or allow an agreed upon third party, but not the party providing the credit to the non-depository lender, to hold the notes in custody under agreed upon terms and conditions.

The proposed regulations require all parties to the financing transaction to enter into a written agreement which protects SBA's interests as guarantor of a major portion of the repayment of the notes, as a precondition to SBA's prior written consent to the transaction. Any such agreement will have to indicate the mechanism by which the notes will be held and safeguarded, contain an acknowledgment of SBA's interest in the notes, and reflect the agreement by all relevant parties to recognize and uphold that interest in a way consistent with the Small Business Act, the relevant regulations promulgated thereunder and the provisions of the contractual agreement under which SBA's guaranty was given. In this regard, SBA has developed a recommended format for the requisite agreement which it will make available to any parties who wish to proceed under the regulations.

Finally, under these proposed regulations, SBA will precondition its prior written consent upon the demonstration by the participating lender of a continuing economic interest in the unguaranteed portions of the loans. In the case of a pledge, that interest is demonstrated by retention of all economic interest in the actual unguaranteed portions. In the case of a transfer, a participant lender will be required to make a satisfactory showing that it continues to be economically at risk for the unguaranteed portions in a degree sufficient in SBA's sole judgment to warrant SBA's consent. The ultimate risk of loss on the unguaranteed portions must continue to be borne by the participating lender. The proposed regulation cites a number of non-exclusive means which may be employed singly or in combination by a lender to demonstrate such risk retention.

Compliance With Executive Orders 12291, 12612, and 12778, the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., and the Paperwork Reduction Act, 44 U.S.C. ch. 35

For purposes of Executive Order 12291, SBA certifies that this proposed rule, if promulgated in final, would not be considered a major rule because it would not have an annual economic effect in excess of $100 million, it would not lead to a major increase in costs, and it would not have adverse effects on competition. SBA believes this proposed rule will lead to additional funds being made available for the purpose of lending to small business concerns. SBA is of the opinion that such increased amounts will be approximately $50 million annually.

For purposes of the Regulatory Flexibility Act, SBA certifies that this proposed rule, if promulgated in final, would not have a significant economic impact on a substantial number of small entities for the same reason that it is not a major rule.

For purposes of Executive Order 12612, SBA certifies that this proposed rule, if promulgated in final, will not have federalism implications warranting the preparation of a Federalism Assessment.

For purposes of the Paperwork Reduction Act, SBA certifies that this proposed rule,if promulgated in final, will not have new or additional reporting or recordkeeping requirements.

For purposes of Executive Order 12778, SBA certifies that this proposed rule, to the extent practicable, is drafted in accordance with the standards set forth in Section 2 of that Order.

List of Subjects in 13 CFR Part 120

Loan programs—businesses, Small businesses.

For the reasons set forth above part 120 of title 13, Code of Federal Regulations, is proposed to be amended as follows:

PART 120—[AMENDED]

1. The authority cite for part 120 continues to read as follows:

Authority: 15 U.S.C. 634(b)(6) and 636 (a) and (h).

2. Subpart C of part 120 is amended by adding a new § 120.301–7 to read as follows:

§ 120.301–7 Financings by Nondepository Lenders.

(a) A Nondepository Lender may pledge the notes evidencing loans or financings (hereinafter collectively loans), a portion of the repayment of which are guaranteed by SBA, or transfer for value the unguaranteed portions of loans, a portion of the repayment of which are guaranteed by SBA, if SBA gives its prior written consent to such pledging or transfer. In order for SBA to exercise its discretion under this section, the lender must be financially secure and must presently be, and historically have been, substantially in compliance with SBA's regulations or any other applicable state or Federal statutory or regulatory requirements. SBA's written consent to such a transaction will be given in SBA's sole discretion, and will be given only if the following conditions are agreed to in writing by SBA, the Nondepository Lender and all third parties whose interests are involved in such a transaction:

(1) The lender of the loans, SBA or a third party custodian agreeable to SBA, will hold all pertinent loan instruments as defined by 13 CFR 120.200–2 and SBA's blanket Guaranty Agreement (SBA Form 750), and the lender will continue to service the loans after the pledge or transfer is made.

(2) The ultimate risk of loss on the unguaranteed portions must continue to be borne by the participating lender. The lender of the loans will continue to retain an economic risk in the unguaranteed portions. Retention of such economic risk must be demonstrated to SBA's satisfaction. Such demonstration may include, but is not limited to, agreement to the following undertaking(s) and must be sufficient in SBA's sole discretion to satisfy SBA's requirement that the lender remains at economic risk for the unguaranteed portions:

(i) In the case of a sale of unguaranteed portions:

(A) Establishment of a reserve fund; and/or

(B) Retention of insurance; and/or

(C) Agreement to reacquire any unguaranteed portion of a guaranteed loan or the note evidencing in SBA guaranteed loan if the underlying loan goes into default pursuant to SBA's regulations.

(ii) In the case of a pledge of notes, retention by the lender of all economic interest in the unguaranteed portion of any loans which the notes evidence.

(3) SBA, the lender and all relevant third parties, as determined by SBA in its sole discretion, must enter into a written agreement satisfactory to SBA under which SBA's interest as guarantor of the subject loans is acknowledged and all relevant third parties agree to recognize and uphold those interests pursuant to the Small Business Act, the regulations promulgated thereunder and the contractual provisions under which SBA agreed to guaranty the loans (SBA Form 750).

(b) For purposes of this regulation the term Nondepository Lender shall mean one of the following two types of Loan Participant as that term is defined at 13 CFR 120.300:

(1) Small Business Lending Company regulated by SBA.

(2) Business and Industrial Development Company.

3. Section 120.200–2 is amended by revising the second sentence thereof to read as follows:

§ 120.200–2 Servicing guaranteed loans.

* * * Unless provided otherwise, an agreement developed pursuant to 13 CFR 120.301–7, the Lender shall hold the note, instruments of hypothecation and all other agreements, documents and instruments required in connection with such loans. * * *

4. Section 120.403–7(d) is amended by revising the first sentence thereof to read as follows:

§ 120.403–7 Limitations on preferred lenders; SBA access.

* * * * *

(d) *Sale of all or part of unguaranteed portion.* Except as otherwise agreed to by SBA pursuant to agreement developed under 13 CFR 120.301–7, a Preferred Lender is prohibited from selling all or part of any part of the unguaranteed portion of a PLP loan when such unguaranteed portion is 20 percent of the loan. * * *

Dated: September 24, 1992.

Patricia Saiki,

Administrator.

RIN 1545–AQ28

Taxation of Fringe Benefits and Exclusions From Gross Income of Certain Fringe Benefits

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed amendments relating to the taxation and valuation of fringe benefits under section 61 of the Internal Revenue Code. These proposed amendments update previous guidance concerning the valuation of an employee's personal use of employer-provided fuel when an employer-provided automobile is valued pursuant to the automobile lease valuation rule. The proposed regulations affect employees receiving this fringe benefit and provide guidance to employers and employees to help determine their federal tax liability.

DATES: Written comments and requests for a public hearing must be received by November 9, 1992.

ADDRESSES: Send comments and requests for a public hearing to: Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, Attention: CC:CORP:T:R (EE–101–91), room 5228, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT: Marianna Dyson, at 202–622–4606 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Background

This document contains proposed amendments to the Income Tax Regulations (26 CFR part 1) under section 61 of the Internal Revenue Code of 1986 (Code). The amendments pertain to the valuation of employer-provided fuel under the automobile lease valuation rule of § 1.61–21(d) of the regulations.

Explanation of Provisions

The final fringe benefit regulations issued in July 1989 and effective for benefits furnished on or after January 1, 1989, provide that in valuing the personal use of automobiles under § 1.61–21(d) of the regulations, the Annual Lease Values do not include the fair market value of fuel provided by the employer. Thus, fuel consumed for any personal miles driven must be valued separately for inclusion in income. Section 1.61–21(d)(3)(ii)(A).

Under § 1.61–21(d)(3)(ii)(B), employer-paid fuel provided in kind to employees for personal use may be valued at fair market value or, in the alternative, at 5.5 cents per mile. If the cost of the fuel is reimbursed by or charged to an employer, the value of the fuel is its fair market value, which is generally the amount of the actual reimbursement or

amount charged, provided the purchase of the fuel is at arm's-length. Section 1.61–21(d)(3)(ii)(C).

For employers with fleets of at least 20 automobiles, § 1.61–21(d)(3)(ii)(D) sets forth two additional methods for valuing fuel for personal use. The general method provides that employers who reimburse employees for the cost of fuel or allow employees to charge the employer for the cost of fuel may value the fuel by reference to the employer's "fleet-average cents-per-mile fuel cost." The fleet-average cents-per-mile fuel cost is equal to the fleet-average per-gallon fuel cost divided by the fleet-average miles-per-gallon rate. The average per-gallon fuel cost and the miles-per-gallon rate are determined by averaging the per-gallon fuel costs and miles-per-gallon rates of a representative sample of the automobiles in the fleet equal to the greater of ten percent of the automobiles in the fleet or 20 automobiles for a representative period. Section 1.61–21(d)(3)(ii)(D).

In lieu of calculating the "fleet-average cents-per-mile fuel cost" under the general method of paragraph (d)(3)(ii)(D) of § 1.61–21, employers with fleets of at least 20 automobiles that use the fleet-average valuation rule of paragraph (d)(5)(D) may use the 5.5 cents-per-mile option of paragraph (d)(3)(ii)(B), if determining the amount of the actual reimbursement or the amount charged for the purchase of fuel would impose unreasonable administrative burdens on the employer ("the alternative method").

In no event, however, may an employer with a fleet of at least 20 automobiles use either the general or alternative method of paragraph (d)(3)(ii)(D) of § 1.61–21 unless the requirements of paragraph (d)(5)(v)(D) are also met. This paragraph contains the rules for using a fleet-average value in calculating the Annual Lease Values of the automobiles in the fleet. In particular, it specifies that the fair market value of each vehicle in the fleet may not exceed $16,500 (as adjusted pursuant to section 280F(d)(7) of the Code).

For calendar years prior to 1991, Notice 89–110, 1989–2 C.B. 447, expanded the availability of the 5.5 cents-per-mile option to employers with fleets of at least 20 automobiles that satisfy the requirements of paragraph (d)(5)(v)(D), regardless of whether they are actually using the fleet-average valuation rule of paragraph (d)(5)(v). Notice 91–41, 1991–51 I.R.B. 63, provides that the 5.5 cents-per-mile option as provided in Notice 89–110 is available in calendar year 1991.

Notice 89–110 did not eliminate the requirement that the employer must demonstrate that it is using the 5.5 cents-per-mile option because determining the amount of the actual reimbursement or the amount charged for the purchase of fuel would impose unreasonable administrative burdens on the employer. As a practical matter, however, it is believed that fleet operators with at least 20 automobiles would have little difficulty in demonstrating the existence of unreasonable administrative burdens.

The proposed amendments to § 1.61–21(d)(3)(ii) provide that, for calendar year 1992, employers with fleets of at least 20 automobiles may continue to use the 5.5 cents-per-mile rate as provided in Notice 89–110 and extended in Notice 91–41. In addition, the proposed amendments provide that employers with fleets of at least 20 automobiles may value fuel that is reimbursed by or charged to the employer by reference to the alternative cents-per-mile rate without regard to the rules in paragraph (d)(5)(v)(D) concerning the value of automobiles in the fleet, and without the necessity of demonstrating the existence of administrative burdens.

Finally, the proposed amendments provide that for calendar years subsequent to 1992 the Service will announce the appropriate cents-per-mile rate for valuing fuel that is provided in kind or that is reimbursed by or charged to employers with fleets of at least 20 automobiles. The announcement will appear in the annual revenue procedure concerning the optional standard mileage rates used in computing deductible costs for operating a passenger automobile for business.

The rules under paragraph (d)(3)(ii) of § 1.61–21, as amended by this Notice, will enable employers with fleets of at least 20 automobiles to value the personal use of employer-paid fuel in any of the following ways: (1) Fuel provided in kind may be valued at fair market value based on all the facts and circumstances; (2) fuel that is provided in kind may be valued at the cents-per-mile rate applicable to the particular year; (3) fuel, the cost of which is reimbursed by or charged to the employer, may be valued based on the amount of the actual reimbursement or the amount charged; (4) fuel, the cost of which is reimbursed by or charged to the employer, may be valued based on the fleet-average cents-per-mile fuel cost; or (5) fuel, the cost of which is reimbursed by or charged to the employer, may be valued based on the applicable cents-per-mile rate without regard to the fair market value of any automobile in the fleet or the administrative burdens requirement.

The amendments are proposed to be effective for benefits provided in calendar years beginning after December 31, 1992. However, because of the number of inquiries the Service has received from taxpayers expressing uncertainty as to the scope of the guidance in Notice 89–110 concerning employer-provided fuel, the amendments may be relied upon as if they had been included in the final regulations published on July 6, 1989.

Special Analyses

It has been determined that these rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and, therefore, an initial Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code, these regulations will be submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business.

Comments and Requests to Appear at a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably a signed original and eight copies) to the Internal Revenue Service. All comments will be available for public inspection and copying in their entirety. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. Written comments and requests for a hearing must be received by November 9, 1992. If a public hearing is held, notice of the time and place will be published in the **Federal Register**.

Drafting Information

The principal author of these regulations is Marianna Dyson, Office of the Associate Chief Counsel (Employee Benefits and Exempt Organizations), Internal Revenue Service. However, personnel from other offices of the Service and Treasury Department participated in their development.

List of Subjects in 26 CFR 1.61–1 through 1.67–4T

Income taxes, Reporting and recordkeeping requirements.

Proposed Amendments to the Regulations

The proposed amendments to 26 CFR part 1 are as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. The authority for part 1 continues to read in part:

Authority: 26 U.S.C. 7805 * * *

Par. 2. Section 1.61–21 is amended by revising paragraphs (d)(3)(ii) (A), (B), and (D) as follows:

§ 1.61–21 Taxation of fringe benefits.

* * * * *

(d) * * *

(3) * * *

(ii) *Fuel excluded*—(A) *In general.* The Annual Lease Values do not include the fair market value of fuel provided by the employer, whether fuel is provided in kind or its cost is reimbursed by or charged to the employer. Thus, if an employer provides fuel for the employee's personal use, the fuel must be valued separately for inclusion in income.

(B) *Valuation of fuel provided in kind.* Fuel provided in kind may be valued at fair market value based on all the facts and circumstances or, in the alternative, may be valued at 5.5 cents per mile for all miles driven by the employee in calendar years 1989 through 1992. For subsequent calendar years, the applicable cents-per-mile rate is the amount specified in the annual Revenue Procedure concerning the optional standard mileage raes used in computing deductible costs of operating a passenger automobile for business. However, fuel provided in kind may not be valued at the alternative cents-per-mile rate for miles driven outside the Unied States, Canada, or Mexico.

* * * * *

(D) *Additional methods available to employers with fleets of at least 20 automobiles*—(*1*) *Fleet-average cents-per-mile fuel cost.* If an employer with a fleet of at least 20 automobiles (regardless of whether the requirements of paragraph (d)(5)(v)(D) of this section are met) reimburses employees for the cost of fuel or allows employees to charge the employer for the cost of fuel, the fair market value of fuel provided to those automobiles may be determined by reference to the employer's fleet-average cents-per-mile fuel cost. The fleet-average cents-per-mile fuel cost is equal to the fleet-average per-gallon fuel cost divided by the fleet-average miles-per-gallon rate. The averages described in the preceding sentence must be determined by averaging the per-gallon fuel costs and miles-per-gallon rates of a representative sample of the automobiles in the fleet equal to the greater of ten percent of the automobiles in the fleet or 20 automobiles for a representative period, such as a two-month period.

(*2*) *Alternative cents-per-mile method.* In lieu of determining the fleet-average cents-per-mile fuel cost under paragraph (d)(3)(ii)(D)(*1*) of this section, an employer with a fleet of at least 20 automobiles may value the fuel provided for these automobiles by reference to the cents-per-mile rate set forth in paragraph (d)(3)(ii)(B) of this section (regardless of whether the requirements of paragraph (d)(5)(v)(D) of this section are met).

[Docket No. 115 CCR; FRL–4520–7]

Recovery of Costs for CERCLA Response Actions

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule; extension of comment period.

SUMMARY: The Environmental Protection Agency (EPA or Agency) is extending the public comment period on the proposed rule entitled, "Recovery of Costs for CERCLA Response Actions," which appeared in the **Federal Register** at 57 FR 34742–34755 (August 6, 1992). This extension of the public comment period is provided to allow commenters an opportunity to complete their review of and comments on the Agency's proposed rule.

DATES: EPA will accept public comments on the proposed rule postmarked on or before November 4, 1992. Comments postmarked after the close of the extended comment period will be stamped "late" and will be considered only to the extent practicable in the final rule.

ADDRESSES: Comments should be addressed to Francis J. Biros, CERCLA Enforcement Division (Mail Code: 5502–G), Office of Solid Waste and Emergency Response, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

Docket: Copies of all materials relevant to this rulemaking, including comments received during the public comment period, are contained in room M2427 at the U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460 (Docket Number 115 CCR). The docket is available for inspection between the hours of 9 a.m. and 4 p.m., Monday through Friday, excluding federal holidays. The public must make appointments to review the docket materials and should call the docket clerk at 202–260–3046 for appointments.

FOR FURTHER INFORMATION CONTACT: For general information about this proposed rulemaking, contact Sally Martiny, U.S. Environmental Protection Agency (5502–G), at 703–603–8920, or the RCRA/CERCLA Hotline 1–800–424–9346 tollfree (703–920–9810 in the Washington, D. C. metro area).

SUPPLEMENTARY INFORMATION: On August 6, 1992, EPA proposed amendments to certain provisions of the National Contingency Plan, 40 CFR part 300, and proposed new regulations related to cost recovery actions authorized under section 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The proposed regulation would clarify for purposes of response actions taken by EPA: what costs are recoverable, including direct costs, indirect costs, and interest; how these costs are determined; what information will support EPA's cost recovery efforts by describing the response action taken and providing an accurate accounting of all costs incurred; and, certain terms in the CERCLA statute of limitations for cost recovery actions.

The proposed regulation is intended to clarify certain aspects of the cost recovery process and thereby avoid unnecessary costs and delays involved in that process whether they occur during settlement negotiations or administrative or judicial proceedings with potentially responsible parties. See 57 FR 34742–34755 for a more detailed explanation of the Agency's proposal.

Since publication, the Agency has received requests from several commenters to extend the comment period. These requests noted that additional time is needed to review the proposed regulation and related docket materials. The Agency considered these requests and has decided to extend the comment period for 30 days. The public comment period for the proposed regulation was originally scheduled to end on October 5, 1992. Today's notice extends the public comment period for the proposed regulation for 30 calendar days until November 4, 1992 to allow commenters an opportunity to finalize their review and comments on the Agency's proposed cost recovery regulation.

Dated: September 30, 1992.

Don R. Clay,

Assistant Administrator, Office of Solid Waste and Emergency Response (OSWER).

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018-AB83

Endangered and Threatened Wildlife and Plants; Proposed Rule To List the Plant Astrophytum Asterias (Star Cactus) as Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The Fish and Wildlife Service (Service) proposes to list the plant *Astrophytum asterias* (star cactus), as an endangered species under the authority of the Endangered Species Act of 1973 (Act), as amended. This cactus is known from only two sites, one in Starr County, Texas, and the other in Tamaulipas, Mexico. Only about 2100 plants are known in the wild. The species is threatened by collecting, conversion of its habitat to agriculture or improved pasture, and habitat alteration from severe overgrazing. This proposal, if made final, would implement Federal protection provided by the Act for star cactus. Critical habitat is not being proposed. The Service seeks data and comments from the public on this proposal.

DATES: Comments from all interested parties must be received by December 8, 1992. Public hearing requests must be received by November 23, 1992.

ADDRESSES: Comments and materials concerning this proposal should be sent to the Field Supervisor, U.S. Fish and Wildlife Service, Ecological Services Field Office, c/o Corpus Christi State University, Campus Box 338, 6300 Ocean Drive, Corpus Christi, Texas 78412. Comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Tim Cooper, at the above address (Telephone 512/888-3346).

SUPPLEMENTARY INFORMATION:

Background

Star cactus was first collected in Tamaulipas, Mexico, by Baron von Karwinsky in 1843, and was named *Echinocactus asterias* by Joseph Zuccarini in 1845. In 1868, C.A. Lemaire described *Astrophytum prismaticum* and included *Echinocactus asterias* and several other Mexican species in the new genus *Astrophytum*. Thus, *Echinocactus asterias* Zuccarini became *Astrophytum asterias* (Zuccarini) Lemaire. Since these initial treatments, various taxonomic experts have placed star cactus in one genus or the other. The Service takes no position on the correct generic placement of star cactus, but will use the name *Astrophytum asterias* because of its prevalence in most current horticultural cactus literature.

Astrophytum asterias is a small spineless cactus. It is disk- or dome-shaped, 2–15 cm (1–6 in) across, up to 7 cm (3 in) tall, brownish or dull green, and often speckled with a covering of tiny white scales. Vertical grooves divide the main body into eight vaguely triangular sections, each section marked with a central line of circular indentations filled with straw-colored to whitish wooly hairs. Flowers are yellow with orange centers, and up to about 5 cm (2 in) in diameter. Fruits are green to grayish-red, about 1.25 cm (0.5 in) long, oval, and fleshy (Damude and Poole 1990).

Star cactus is a strikingly attractive plant that has been a favorite in the cactus and succulent trade for many years. Plants are easily grown from seed and propagation techniques have been studied in detail (Martin *et al.* 1971, Backeberg 1977, Pilbean 1987, Minnich and Hutflesz 1991). In a greenhouse environment, plants grown from seed are consistently hardier and more disease resistent than plants taken from the wild, which tend to be highly sensitive to cold and excess moisture. Cultivated plants of star cactus probably outnumber those in the wild many times. Despite relatively easy propagation and the superior quality of cultivated plants for horticultural purposes, field collected plants of star cactus still enter the commercial market. In a recent survey of the cactus trade in Texas, approximately 400 field collected star cactus plants were found at one nursery (Damude and Poole 1990).

The star cactus grows at low elevations in the grasslands and shrublands of the Rio Grande Plains or the Tamaulipan thornshrub. Originally the vegetation in this area was likely a subtropical grassland, perhaps with scattered trees. Now, because of fire suppression and severe overgrazing, much of the area has been invaded with thorny shrub and tree species. The habitat of star cactus in the original grassland is unclear. Today the species is found in sparse, fairly open brushland. It is most often found in the partial shade of other plants or rocks, growing on gravelly, saline clays or loams overlaying the Tertiary Catahoula and Frio formations. The Texas site is in a creek drainage (Damude and Poole 1990).

Much of the probable native habitat of star cactus has been converted to agriculture or improved pasture. In the area where plants presently occur, pasture improvement is done by clearing the shrubs and then planting buffelgrass (*Cenchrus ciliaris*). This aggressive non-native grass forms dense stands for several years after which the grass is reduced by grazing and shrubs begin returning. The landscape is, therefore, a mosaic of buffelgrass pasture and shrub stands of various ages. It is unlikely star cactus could survive this land management regime. Much of the probable suitable habitat in Mexico has been converted to corn fields or orange groves (Sanchez-Mejorada, *et al.* 1986).

Historically, star cactus occurred in Cameron, Hidalgo, and Starr Counties in south Texas, and the adjacent states of Nuevo Leon, and Tamaulipas in Mexico. Presently, star cactus is known from only one locality in Texas and one in Tamaulipas, both privately owned, with only about 2,100 plants known in the wild (Damude and Poole 1990). The Nuevo Leon site is believed to have been extirpated by collectors, and the Tamaulipas site has been reduced to very few individuals (Sanchez-Mejorada, *et al.* 1986).

Star cactus was included (under the name *Echinocactus asterias*) in category 2 in the September 27, 1985, and February 21, 1990, **Federal Register** notices (50 FR 39526 and 55 FR 6184) of plants under review for threatened or endangered classification. Category 2 includes those taxa for which there is some evidence of vulnerability, but for which there are not enough data to support listing proposals at the time. A status report on star cactus was completed December 1, 1990 (Damude and Poole 1990). This report provided sufficient information on the biological vulnerability and threats to star cactus to support a category 1 status and proposal to list the species as endangered.

Summary of Factors Affecting the Species

Section 4(a)(1) of the Endangered Species Act and regulations (50 CFR part 424) promulgated to implement the listing provisions of the Act set forth the procedures for adding species to the Federal lists. A species may be determined to be an endangered or threatened species due to one or more of the five factors described in Section 4(a)(1). These factors and their application to *Astrophytum asterias* (Zuccarini) Lemaire are as follows:

A. The Present or Threatened Destruction, Modification, or Curtailment of its Habitat or Range

Several common range management practices threaten the present habitat of star cactus. Root-plowing or other mechanical or chemical brush clearing activities, introduction of aggressive exotic grass species such as buffelgrass, suppression of the natural fire cycle, and excessive livestock numbers may all destroy or significantly alter the natural habitat (Damude and Poole 1990). Brush has been mechanically cleared in the past on the site of the Texas population, altering the habitat and possibly destroying many plants. Part of the Texas population is bisected by a paved road, and plants may have been destroyed during construction. Any potential road widening would present a threat to the population, as would the management practice of roadside pesticide or herbicide use (Damude and Poole 1990). Most of the historic range of star cactus in Mexico no longer contains suitable habitat because the natural vegetation has been destroyed and the land is under cultivation for oranges or corn. In Mexico today, the plant is restricted to rockier sites less threatened by cultivation and these sites are usually heavily grazed. Observers have noted that grazing practices are slowly altering the natural vegetation (Sanchez-Mejorada, *et al.* 1986).

B. Overutilization for Commercial, Recreational, Scientific, or Educational Purposes

Star cactus is highly prized by cactus enthusiasts for its rarity and unusual appearance. Though the plant has been in cultivation since the 1930's, and propagated material is available for sale, wild collected plants remain on the market. A recent survey of the cactus trade in Texas revealed 400 field dug specimens of star cactus at a Texas nursery, these presumably from Mexico. In addition to its desirability for horticultural collections, the plant has been reported to be used as a hallucinogen and to be actively sought in the wild for this purpose (E. Haner, Soil Conservation Service, Habbronville, Texas, *in litt.* 1992). The one known population in Nuevo Leon, Mexico is believed to be extirpated due to collecting. The known population in Tamaulipas, Mexico had many large individuals up to 15 cm (5 in) in diameter in 1978, but when visited in 1985 no plants remained over 7 cm (3 in) in diameter, and fewer than 100 individuals could be found in an extensive search (Sanchez-Mejorada, *et al.* 1986). Fewer than 2,100 individuals are known in the wild (Damude and Poole 1990).

C. Disease or Predation

Occasionally plants in deteriorated condition have been observed, but disease has not been confirmed in the known populations. No evidence of predation has been noted (Damude and Poole 1990).

D. The Inadequacy of Existing Regulatory Mechanisms

Commercial trade in field collected material of star cactus is not presently prohibited in the United States by Federal or Texas State law. Star cactus is listed in appendix I of the Convention on International Trade in Endangered Species of wild Fauna and Flora (CITES), 50 CFR 23.23, but protection under this treaty is limited to international trade. Mexico also has laws prohibiting the export of its native cacti. However, enforcement of Mexican export laws and CITES protections in this near-border area can be difficult. Listing under the Act would provide protection by prohibiting interstate commerce in this species without a permit, and would make it a Federal violation to collect this plant in knowing violation of any State law or regulation, including State criminal trespass law.

E. Other Natural or Manmade Factors Affecting its Continued Existence

With fewer than 2,100 individuals known in two populations, the species may well be vulnerable to extinction because of lowered viability and genetic variability in the wild.

The Service has carefully assessed the best scientific and commercial information available regarding the past, present, and future threats faced by this species in determining to propose this rule. Based on this evaluation, the preferred action is to list *Astrophytum asterias* as endangered. The status of endangered is appropriate because of the species' limited distribution, low population numbers, and imminent threats of collecting and habitat destruction.

Critical Habitat

Section 4(a)(3) of the Act, as amended, requires that, to the maximum extent prudent and determinable, the Secretary proposed critical habitat at the time the species is proposed to be endangered or threatened. The Service finds that designation of critical habitat is not presently prudent for this species. As discussed under Factor B in the "Summary of Factors Affecting the Species," star cactus is threatened by taking, an activity difficult to enforce against and only regulated by the Act with respect to plants in cases of (1) removal and reduction to possession of listed plants from lands under Federal jurisdiction, or their malicious damage or destruction on such lands; and (2) removal, cutting, digging up, or damaging or destroying in knowing violation of any State law or regulation, including State criminal trespass law. Such provisions are difficult to enforce, and publication of critical habitat descriptions and maps would make star cactus more vulnerable and increase enforcement problems. All involved parties and principal landowners have been notified of the location and importance of protecting this species' habitat. Protection of this species' habitat will be addressed through the recovery process and through the section 7 jeopardy standard. Therefore, it would not now be prudent or beneficial to the species to determine critical habitat for star cactus.

Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened under the Endangered Species Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain practices. Recognition through listing encourages and results in conservation actions by Federal, State, and private agencies, groups, and individuals. The Endangered Species Act provides for possible land acquisition and cooperation with the States and authorizes recovery plans for all listed species. The protection required of Federal agencies and the prohibition against certain activities involving listed plants are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species that is proposed or listed as endangered or threatened and with respect to its critical habitat, if any is being designated. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR part 402. Section 7(a)(4) requires Federal agencies to confer informally with the Service on any action that is likely to jeopardize the continued existence of a proposed species or result in destruction or adverse modification of proposed critical habitat. If a species is listed subsequently, section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or carry out are not likely to jeopardize the continued existence of such a species or to destroy or adversely modify its

critical habitat. If a Federal action may affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with the Service.

Some Federal actions that may affect this species include soil conservation and range improvement recommendations by the Soil Conservation Service to private landowners, the funding of these activities by the Agricultural Stabilization and Conservation Service, and the registration of herbicides and pesticides for rangeland use by the Environmental Protection Agency.

The Act and its implementing regulations found at 50 CFR 17.61, 17.62, and 17.63 set forth a series of general prohibitions and exceptions that apply to all endangered plants. All trade prohibitions of section 9(a)(2) of the Act, implemented by 50 CFR 17.61, apply. These prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to import or export, transport in interstate or foreign commerce in the course of a commercial activity, sell or offer for sale this species in interstate or foreign commerce, or to move and reduce to possession the species for areas under Federal jurisdiction. In addition, for listed plants, the 1988 amendments (Pub. L. 100-478) to the Act prohibit the malicious damage or destruction on Federal lands and the removal, cutting, digging up, or damaging or destroying of listed plants in knowing violation of any State law or regulation, including State criminal trespass law. Certain exceptions apply to agents of the Service and State conservation agencies. The Act and 50 CFR 17.62 and 17.63 also provide for the issuance of permits to carry out otherwise prohibited activities involving endangered species under certain circumstances.

Star cactus is a popular species with cactus and succulent enthusiasts and considerable commercial trade exists. The vast majority of trade involves plants artificially propagated from seed. However, some field collected plants are also being offered for sale (Damude and Poole 1990). Requests for copies of the regulations on listed plants and inquiries regarding prohibitions and permits may be addressed to the Office of Management Authority, U.S. Fish and Wildlife Service, 4401 N. Fairfax Drive, room 432, Arlington, Virginia 22203 (703/358-2104).

On October 22, 1987, *Astrophytum asterias* was included in Appendix I of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES), 50 CFR 23.23. The effect of this action is that both export and import permits are generally required before international shipment of this species may occur. Such shipment is strictly regulated by CITES party nations to prevent effects that may be detrimental to the species' survival. Generally, the import or export cannot be allowed if it is for primarily commercial purposes. If plants are certified as artificially propagated, however, international shipment requires only export documents under CITES, and commercial shipments may be allowed.

Public Comments Solicited

The Service intends that any final action resulting from this proposal will be as accurate and as effective as possible. Therefore, comments or suggestions from the public, other concerned governmental agencies, the scientific community, industry, or any other interested party concerning this proposed rule are hereby solicited. Comments particularly are sought concerning:

(1) Biological, commercial trade, or other relevant data concerning any threat (or lack thereof) to this species;

(2) The location of any additional populations of this species and the reasons why any habitat should or should not be determined to be critical habitat as provided by section 4 of the Act;

(3) Additional information concerning the range, distribution, and population size of this species; and

(4) Current or planned activities in the subject area and their possible impacts on this species.

Final promulgation of the regulation on this species will take into consideration the comments and any additional information received by the Service, and such communications may lead to a final regulation that differs from this proposal.

The Endangered Species Act provides for a public hearing on this proposal, if requested. Requests must be received within 45 days of the date of publication of the proposal. Such requests must be made in writing and addressed to: Field Supervisor, U.S. Fish and Wildlife Service, Ecological Services Field Office, c/o Corpus Christi State University, Campus Box 338, 6300 Ocean Drive, Corpus Christi, Texas 78412.

National Environmental Policy Act

The Fish and Wildlife Service has determined that an Environmental Assessment, as defined under the authority of the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the Federal Register on October 25, 1983 (48 FR 49244).

Friday, October 9, 1992

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forms Under Review by Office of Management and Budget

October 2, 1992.

The Department of Agricultural has submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35) since the last list was published. This list is grouped into new proposals, revisions, extension, or reinstatements. Each entry contains the following information:

(1) Agency proposing the information collection; (2) Title of the information collection; (3) Form number(s), if applicable; (4) How often the information is requested; (5) Who will be required or asked to report; (6) An estimate of the number of responses; (7) An estimate of the total number of hours needed to provide the information; (8) Name and telephone number of the agency contact person.

Questions about the items in the listing should be directed to the agency person named at the end of each entry. Copies of the proposed forms and supporting documents may be obtained from: Department Clearance Officer, USDA, OIRM, Room 404–W Admin. Bldg., Washington, DC 20250, (202) 690–2118.

BILLING CODE 3410–01–M

Agricultural Research Service

Isco, Inc.; Intent to Grant Exclusive License

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice of intent.

SUMMARY: Notice is hereby given that the U.S. Department of Agriculture, Agricultural Research Service, intends to grant an exclusive license to Isco, Inc., 4700 Superior Avenue, Lincoln, Nebraska, on U.S. Patent Application Serial No. 07/536,861, "Supercritical Fluid Extraction Enhancer," filed June 12, 1990. Notice of Availability for licensing this invention was given in the **Federal Register** on January 31, 1991.

DATES: Comments must be received within 60 calendar days of the date of publication of this Notice in the **Federal Register**.

ADDRESSES: Send comments to: USDA–ARS–Office of Cooperative Interactions, Beltsville Agricultural Research Center, Baltimore Boulevard, Building 005, Room 403, BARC–W, Beltsville, Maryland 20705–2350.

FOR FURTHER INFORMATION CONTACT: M. Ann Whitehead of the Office of Cooperative Interactions at the Beltsville address given above; telephone: 301–504–6786.

SUPPLEMENTARY INFORMATION: The Federal Government's patent rights to this invention are assigned to the United States of America, as represented by the Secretary of Agriculture. It is in the public interest to so license this invention as said company has submitted a complete and sufficient application for a license, promising therein to bring the benefits of said invention to the U.S. public. The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within sixty days from the date of this published Notice, Agricultural Research Service receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

W.H. Tallent,

Assistant Administrator.

BILLING CODE 3410–03–M

Animal and Plant Health Inspection Service

[Docket No. 92–110–2]

Veterinary Services Programmatic Environmental Impact Statement

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice

SUMMARY: We are advising the public of the proposed scope of study of a programmatic environmental impact statement (EIS) we intend to prepare for the Veterinary Services Program of the Animal and Plant Health Inspection Service. This notice identified potential issues to be analyzed in the EIS, and requests public comment on these and other issues.

DATES: Consideration will be given only to comments received on or before November 23, 1992.

ADDRESSES: Please send an original and three copies of your comments to Mr. Carl Bausch, Environmental Analysis and Documentation, Biotechnology, Biologics, and Environmental Protection, APHIS, USDA, room 828, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. Please state that your comments refer to Docket No. 92–110–2. Comments received may be inspected at USDA, room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Carl Bausch, Environmental Analysis and Documentation, Biotechnology, Biologics, and Environmental Protection, APHIS, USDA, room 828, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436–8565.

SUPPLEMENTARY INFORMATION: The Animal and Plant Health Inspection Service (APHIS), U.S. Department of Agriculture, intends to prepare a programmatic environmental impact statement on the Veterinary Services Program. A Notice of Intent was published in the **Federal Register** on July 23, 1992 (57 FR 32771–32772, Docket No. 92–110–1).

The Veterinary Services Program, which is responsible for protecting livestock and poultry from certain diseases, comprises four major activities: prevention, surveillance, control, and eradication. Implementation is in accordance with applicable Federal, State, and local authorities. The disease prevention activities administered by Veterinary Services are designed to reduce or prevent certain diseases from entering the United States or spreading to other States. Cooperation with States also prevents intrastate movement of infected and exposed animals. Most diseases for which Veterinary Services administers programs are listed by the U.S. Animal Health Association or the Office of International Epizootics.

The programmatic environmental impact statement will focus on the environmental effects of activities designed to deal with communicable diseases of livestock and poultry and to examine alternatives and the effects of those alternatives on the environment. The environmental impact statement also will serve as the document to which APHIS can tier an environmental assessment, and others may use as legally permissible, should the need arise to make decisions on program plans or a site-specific emergency.

Producers of livestock and poultry, land use planners, financiers, and others interested in animal production should actively participate in the environmental impact statement process. They will find it useful for raising disease issues to be considered when planning and designing production facilities and management strategies. States should find this process useful in their planning for management of diseases (including outbreaks and Federal-State cooperative disease eradication programs) and, insofar as legally permissible, will be able to tier their disease program to the environmental impact statement.

This notice of proposed scope of study identifies potential issues to be analyzed in the environmental impact statement. Public input regarding the issues discussed and the identification of any other issues is requested.

The Scoping Process

The initial step in the process of developing an environmental impact statement (EIS) is issue scoping. Scoping includes the solicitation of public comments in scoping meetings or by written comments. APHIS is inviting written comments from the interested public; Federal, State and local agencies; industry; environmental groups; and Federal and State agencies that have either jurisdiction by law or special expertise regarding any program issue or environmental impact that should be discussed in this EIS. The comments should identify those Veterinary Services activities believed to have consequential impact on the environment. Information obtained from scoping will be evaluated and used to target issues, including alternative means of accomplishing program goals, for study in the context of the EIS process. Information obtained by the scoping process also will be used to identify any environmental statute, regulation, policy, or custom of other interested parties or State or Federal agencies that might conflict with APHIS regulations, policies, or procedures related to disease prevention, surveillance, control, or eradication.

The Veterinary Services Program

If animal diseases are not continuously abated by public and private interests, the effects on the human environment could be severe. There are over 100 diseases and pests that can spread from animals to man and an even larger number that can spread from livestock and poultry to wild animals. When certain diseases are discovered in the United States, it sometimes is necessary to control or eradicate the disease by: destroying all infected and exposed animals; disposing of carcasses, manure, and waste in a biologically safe manner; and cleaning and disinfecting the premises using chemicals approved by the Environmental Protection Agency (EPA) or other appropriate devices. Insects and other animals capable of transmitting the disease (i.e., vectors and reservoirs) may need to be eliminated with pesticides, poison baits or other appropriate means.

In general, disease prevention and surveillance practices are less likely to affect the environment than control measures. Prevention and surveillance measures minimize the spread of diseases and pests. To this end, Veterinary Services regulates the movement of animals and animal products. Requirements for inspection, testing, treatment, quarantine and other similar procedures are designed to detect as many of the infected/infested carrier animals as possible. It is not possible to detect all animals that are infected with pathogenic microorganisms or infested with parasites. Some products derived from these carrier animals also may contain viable pathogens which can be responsible for the further spread of disease. Therefore, there is always a risk of spreading diseases with the movement of animals and animal products that have not been treated in a manner that would inactivate all microorganisms.

Information obtained in the scoping process will be carefully examined for ideas, concepts, and strategies that will enhance prevention and surveillance without increasing environmental impact.

In addition to adhering to all Federal statutes, APHIS has identified the following issues for closer scrutiny to determine whether they should be analyzed in the EIS:

- Pesticides used for vector and reservoir control. The pesticides used are those registered by EPA under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and used according to the label. Nevertheless, pesticides or their degradation products could accumulate over time, and/or run off or leach into surface and ground waters near dipping and spraying operations. Additionally, there may be concern for the safe storage and disposal of pesticides.
- Cleaning and disinfecting compounds. These chemicals could accumulate near cleaning and disinfecting sites if the rate of use is greater than the rate of degradation. Runoff and leaching of these compounds

could contaminate surface and ground water. Areas potentially susceptible to environmental accumulation include areas where animals have been destroyed and that have subsequently been cleaned and disinfected, and areas where trucks, planes and other vehicles used in the transport or holding of animals are cleaned and disinfected. There also may be concern for the safe storage and disposal of these compounds.

• Disposal of carcasses and contaminated manure and debris. This may be of particular concern when disposal is on the farm-of-origin. Such disposal must ensure that the decomposing materials do not contribute to the further spread of disease or to environmental degradation or contamination. These activities must be conducted in accordance with all appropriate Federal, State, and local statutes.

Comments on this notice are welcome. Following the comment period, a notice of final scope, reflecting, as appropriate, views and opinions submitted for consideration, will be published in the **Federal Register**. Any additional opportunities for public participation will be announced in the **Federal Register**.

Done in Washington, DC, this 5th day of October 1992.

Lonnie J. King,

Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 92-24661 Filed 10-8-92; 8:45 am]

BILLING CODE 3410-34-M

Commodity Credit Corporation

RIN 0560-AC41

1992 Price Support Levels for Fire-Cured (Type 21), Fire-Cured (Types 22-23), Dark Air-Cured (Types 35-36), Virginia Sun-Cured (Type 37), and Cigar-Filler and Binder (Types 42-44, 53-55) Tobaccos

AGENCY: Commodity Credit Corporation (CCC), USDA.

ACTION: Notice of determination of 1992 price support levels for five kinds of tobacco.

SUMMARY: This notice sets forth the levels of price support for (1) fire-cured (type 21), (2) fire-cured (types 22-23), (3) dark air-cured (types 35-36), (4) Virginia sun-cured (types 37), and (5) cigar-filler and binder (types 42-44; 53-55) tobacco for the 1992 marketing year. The levels of price support for these kinds of tobacco are required to be determined under the provisions of section 106 of the Agricultural Act of 1949, as amended.

EFFECTIVE DATE: February 28, 1992.

FOR FURTHER INFORMATION CONTACT: Robert H. Miller or Kenneth Robison, Tobacco and Peanuts Analysis Division, USDA, ASCS, room 3754-S, P.O. Box 2415, Washington, DC 20013, or call (202) 720-3734.

A Final Regulatory Impact Analysis describing the options considered in developing this notice and the impact of implementing each option is available on request from Mr. Robison.

SUPPLEMENTARY INFORMATION: This notice has been reviewed under USDA procedures established in accordance with Executive Order 12291 and Departmental Regulation 1512-1, and has been classified as "not major." The provisions of this notice will not result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State or local governments, or geographical regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, the environment, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The title and number of the Federal Assistance Program to which this notice applies are: Title—Commodity Loans and Purchases; Number—10.051, as set forth in the Catalog of Federal Domestic Assistance.

It has been determined that the Regulatory Flexibility Act is not applicable to this notice since the Commodity Credit Corporation (CCC) is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject of this notice.

This notice has been reviewed in accordance with Executive Order 12778. The provisions of this notice do not preempt State law, are not retroactive, and do not involve administrative appeals.

This program/activity is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR part 3105, subpart V, published at 48 FR 29115 (June 24, 1983).

It has been determined by an environmental evaluation that this action will have no significant impact on the quality of the human environment. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

Determination of Levels of Price Support

Price support is required to be made available for each crop of a kind of tobacco for which marketing quotas are in effect or for which marketing quotas have not been disapproved by producers. With respect to the 1992 crop of the five kinds of tobacco which are the subject of this notice, the respective maximum level of support is determined in accordance with section 106 of the Agricultural Act of 1949, as amended (the Act).

Section 106(f)(6)(A) of the Act provides that the level of support for the 1992 crop of a kind of tobacco shall be the level in cents per pound at which the 1991 crop of such kind of tobacco was supported, plus or minus, respectively, the amount by which (i) the support level for the 1992 crop, as determined under section 106(b) of the Act, is greater or less than (ii) the support level for the 1991 crop, as determined under section 106(b) of the Act, as that difference may be adjusted by the Secretary under section 106(d) of the Act if the support level under clause (i) is greater than the support level under clause (ii).

Accordingly, under section 106(f)(6)(A) of the Act, the support level for the 1992 crop of such kind of tobacco will be the 1991 level, adjusted by the difference between (plus or minus) the 1991 "basic support level" and the 1991 "basic support level."

In addition, section 106(f)(6)(B) of the Act provides that to the extent requested by the board of directors of an association through which price support is made available to producers ("producer association") the Secretary may reduce the support level determined under section 106(f)(6)(A) for any kind of tobacco (except flue-cured and burley) to more accurately reflect the market value and improve the marketability of tobacco. Accordingly, the price support level for a kind of tobacco set forth in this notice could be reduced if such a request is made.

The levels of price support for the 1991 crops of various kinds of tobacco, which were determined in accordance with section 106(f)(6)(A), are as follows:

Kind and type	Support level (cents per pound)
Virginia fire-cured (type 21)	113.2
KY-TN fire-cured (types 22-23)	136.7
Dark air-cured (types 35-36)	116.9
Virginia sun-cured (type 37)	117.7
Cigar-filler and binder (types 42-44, 53-55)	101.4

Section 106(b) of the Act provides that the "basic support level" for any year is determined by multiplying the support level for the 1959 crop of such kind of tobacco by the ratio of the average of the index of prices paid by farmers including wage rates, interest, and taxes (referred to as the "parity index") for the three previous calendar years to the average index of such prices paid by farmers, including wage rates, interest, and taxes for the 1959 calendar year. For the 1992 crop year:

(1) Average parity indexes for calendar years 1988–1991 are:

Year	Index	Year	Index
1988	1167	1989	1221
1989	1221	1990	1265
1990	1265	1991	1298
Average	1218	Average	1261

(2) Average parity index, calendar year 1959=298.

(3) 1991 ratio of 1218 to 298=4.09; 1992 ratio of 1261 to 298=4.23.

(4) Ratios times 1959 support levels are:

Kind and type	Support level 1959 ¢/lb.	Ratio 1991	Ratio 1992	Basic support level 1991 (¢/lb.)	Basic support level 1992 (¢/lb.)	Increase from 1991 to 1992 100%	Increase from 1991 to 1992 65%
VA 21	38.8	4.09	4.23	158.7	164.1	5.4	3.5
KY-Tenn 22–23	38.8	4.09	4.23	158.7	164.1	5.4	3.5
KY-Tenn 35–36	34.5	4.09	4.23	141.1	145.9	4.8	3.1
VA 37	34.5	4.09	4.23	141.1	145.9	4.8	3.1
Cigar-filler and binder 41–44, 54–55	28.6	4.09	4.23	117.0	121.0	4.0	2.6

Section 106(d) of the Act provides that the Secretary of Agriculture may reduce the level of support which would otherwise be established for any grade of such kind of tobacco which the Secretary determines will likely be in excess supply. In addition, the weighted average of the level of support for all eligible grades of such tobacco must, after such reduction, reflect not less than 65 percent of the increase in the support level for such kind of tobacco which would otherwise be established under section 106 of the Act if the support level is higher than the support level for the preceding crop. Before any such reduction is made, the Secretary must consult with the associations handling price support loans and consideration must be given to the supply and anticipated demand of such tobacco, including the effect of such reduction on other kinds of quota tobacco. In determining whether the supply of any grade of any kind to tobacco of a crop will be excessive, the Secretary shall take into consideration the domestic supply, including domestic inventories, the amount of such tobacco pledged as security for price support loans, anticipated domestic and export demand, based on the maturity, uniformity and stalk position of such tobacco.

For the 1992 crops, burley and flue-cured support levels were increased by 100 percent of the formula increase to within 13 percent of average market prices. For the remaining five kinds of tobacco, prices are further above the support level, and loan receipts remain low. However, loan placements rose sharply to 14 percent of sales compared with 0.3 percent in 1990/91 for fire-cured (type 21). For five-cured tobacco (type 21), and Virginia sun-cured (type 37), the 1992 support levels consist of the 1991 support levels increased by 65 percent of the difference between the 1992 "basic support level" and the 1991 "basic support level." The supply-use ratios suggest adequate supplies, except for dark air-cured (type 35–36) tobacco, for which supplies are tight. For fire-cured (types 22–23), dark air-cured (types 35–36), and cigar filler and binder (types 42–44; 53–55) tobaccos, the 1992 support level for each kind consists of the 1991 level of support increased by the difference between the 1992 "basic support level" and the 1991 "basic support level."

Determinations

Accordingly, the Secretary of Agriculture has determined, in accordance with section 106(f)(6)(A) and 106(f)(8)(A) of the 1949 Act, the following price support levels for the 1992 crops of Virginia fire-cured (type 21), Kentucky-Tennessee fire-cured (types 22–23), dark air-cured (types 35–36), Virginia sun-cured (type 37), and cigar filler and binder (types 42–44, 53–55).

Kind and type	Support level (cents per pound)
Virginia fire-cured (type 21)	136.7
Kentucky-Tennessee fire-cured (types 22–23)	142.1
Dark air-cured (types 35–36)	121.7
Virginia sun-cured (type 37)	120.8
Cigar filler and binder (types 42–44, 53–55)	105.4

Authority: (15 U.S.C. 714b, 714c); (7 U.S.C. 1441, 1445).

Signed at Washington, DC on October 2, 1992.

Keith D. Bjerke,

Executive Vice President, Commodity Credit Corporation.

BILLING CODE 3410–05–M

DEPARTMENT OF COMMERCE

International Trade Administration

[A–588–028]

Roller Chain, Other Than Bicycle, From Japan; Final Results of Antidumping Duty Administrative Reviews

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative reviews.

SUMMARY: In response to requests from interested parties, the Department of Commerce (the Department) has conducted administrative reviews of the antidumping finding on roller chain, other than bicycle, from Japan. The reviews cover nine manufacturers/exporters which exported the subject merchandise to the United States, and the periods April 1, 1983 through March 31, 1984 and April 1, 1984 through March 31, 1985. We determine dumping margins to range from 0.02 percent to 43.29 percent for the period April 1, 1983 through March 31, 1984 and 0.00 percent to 43.29 percent for the period April 1, 1984 through March 31, 1985.

EFFECTIVE DATE: October 9, 1992.

FOR FURTHER INFORMATION CONTACT: Kelly Parkhill, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 482–2786.

SUPPLEMENTARY INFORMATION:

Background

On July 26, 1991, the Department published in the **Federal Register**, its preliminary results of the administrative review of the antidumping finding on roller chain, other than bicycle, from Japan (56 FR 34174). The Department has now completed the administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act). We have reviewed the following companies for the periods April 1, 1983 through March 31, 1984 and April 1, 1984 though March 31, 1985: Caddy Corporation of America (Caddy); Hitachi Metals Techno, Ltd. and Hitachi Maxco, Ltd. (Hitachi); Izumi Chain Manufacturing Co., Ltd. (Izumi); Kaga Kogyo K.K. (Kaga); Kaga/APC; Pulton Chain Co., Inc. (Pulton); Pulton/HIC; Pulton/I&OC; and Takasago RK Excel Co., Ltd. (Takasago).

Scope of Review

Imports covered by these reviews are shipments of roller chain, other than bicycle, from Japan. The term "roller chain, other than bicycle" as used in these reviews includes chain, with or without attachments, whether or not plated or coated, and whether or not manufactured to American or British standards, which is used for power transmission and/or conveyance. Such chain consists of a series of alternately assembled roller links and pin links in which the pins articulate inside the bushings and the rollers are free to turn on the bushings. Pins and bushings are press fit in their respective link plates. Chain may be single strand, having one row of roller links, or multiple strand, having more than one row of roller links. The center plates are located between the strands of roller links. Such chain may be either single or double pitch and may be used as power transmission or conveyor chain.

The reviews also cover leaf chain, which consists of a series of link plates alternately assembled with pins in such a way that the joint is free to articulate between adjoining pitchers. The reviews further cover chain model numbers 25 and 35. From 1983 through 1985, roller chain, other than bicycle, was classified under item numbers ranging from 652.1300 through 652.3800 of the Tariff Schedules of the United States Annotated (TSUSA). This product is currently classified under item numbers 7315.11.00 through 7315.12.00 of the Harmonized Tariff Schedule (HTS). The TSUSA and HTS categories are provided for convenience and customs purpose only. The written description remains dispositive.

These reviews cover the above nine manufacturers/exporters of roller chain, other than bicycle, from Japan to the United States for the periods April 1, 1983 through March 31, 1984 and April 1, 1984 through March 31, 1985.

Analysis of Comments Received

We invited interested parties to comment on the preliminary results. We received comments and/or rebuttal comments from the American Chain Association (ACA), the petitioner in these proceedings, Hitachi, Kaga Kogyo, Pulton and Takasago.

A. General Comments

Comment 1: Takasago argues that the age of these reviews and the long delay between the initial questionnaire response and the supplemental questionnaires should be taken into consideration when the Department calculates the dumping margins or makes any determination with regard to the use of best information available (BIA).

Department's Position: The Department considered both the age of these reviews and the delay in sending out supplemental questionnaires in conducting several aspects of these reviews. As stated in our preliminary results, the age of these reviews was one of the factors we considered in deciding to calculate annual foreign market values (FMVs). Each response was carefully reviewed before sending out any supplemental request for information, and the Department, for the convenience of the responding companies, increased the number of sales that could be submitted on diskette rather than computer tape.

Nonetheless, the Department must properly and consistently administer the antidumping law, and the failure of certain respondents to provide questionnaire responses, or to otherwise participate in these reviews, cannot be dismissed because of the delay in completing the reviews. The failure of certain respondents to supply the relevant prices and any information necessary for the proper calculation of a possible margin cannot be ignored. In such cases, the Department must resort to the use of BIA in accordance with section 776(c) of the Tariff Act.

Comment 2: Hitachi argues that companies that cooperated with the Department should not be subject to the same punitive BIA rate as those which failed to participate in the proceeding or respond to Departmental requests. Petitioner argues that, even for firms that do participate in the proceedings, certain glaring deficiencies or the omissions of large amounts of data should only be dealt with by using a punitive BIA.

Department's Position: We agree that, in general, companies that cooperate with the Department during the proceeding need not always be subject to the same BIA rate as those that do not. However, we disagree with any inference that BIA need not be adverse. The courts have consistently recognized that the Department may use the BIA rule as a necessary tool in order to complete its administrative reviews and encourage cooperation by respondents. (See *Atlantic Sugar, Ltd.* v. *United States*, 744 F.2d 1556 (Fed. Cir. 1984)). As a result, the best information rule is basically a rule of reasonable adverse inference, and by definition, requires the use of adverse assumptions. (See *Rhone Poulenc, Inc.* v. *United States*, 899 F.2d 1185 (Fed. Cir. 1990)).

Section 776(c) of the Act requires the Department to use the best information available "whenever a party or any other person refuses or is unable to produce information requested in a timely manner and in the form required, or otherwise significantly impedes an investigation." In deciding what to use as best information available, the Department may take into account whether a party refuses to provide requested information (19 CFR 353.37(b)). Thus, the Department may determine on a case-by-case basis what best information available is.

The Department generally applies the following two tier approach to BIA:

1. When a company substantially cooperates with the Department's requests for information, but fails to provide all of the information necessary to perform the required calculations, or fails to provide all of the information in a timely manner or in the form requested, as BIA we generally assign to that company the higher of: (a) The highest rate calculated for a responding firm with shipments during that period, or (b) the highest rate for that company for any previous review or the original investigation.

2. When a company refuses to cooperate with the Department or otherwise significantly impedes the proceedings, as BIA we generally assign the higher of: (a) The highest rate for any firm in any previous review or the original LTFV investigation, or (b) the

highest rate for any firm in this review. See, *e.g.*, Final Results of Antidumping Duty Administrative Review and Partial Termination: Roller Chain, Other Than Bicycle, From Japan (57 FR 6808, February 28, 1992), and Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof from the Federal Republic of Germany; Final Results of Antidumping Duty Administrative Review (56 FR 31692, July 11, 1991).

When a company initially cooperates with the Department, but later will not supply the information needed for the Department to perform the necessary calculations, we consider the company to be uncooperative and apply the second tier of the BIA hierarchy. In this review, although Izumi initially cooperated with the Department by responding to the original questionnaire, their response was so deficient as to render it unusable. Izumi subsequently refused to respond to the supplemental questionnaire and our request for data on computer tape, citing the Department's delay in sending out the supplemental questionnaire, and the company's belief that its earlier submission was usable. Accordingly, the Department had no choice but to treat Izumi as an uncooperative firm.

As BIA for Izumi we have used the 43.29 percent rate calculated by the Department in the first completed roller chain review. (See, Roller Chain, Other Than Bicycle, From Japan, Final Results of Administrative Review of Antidumping Finding (46 FR 44488, September 4, 1981)).

When a company substantially cooperated with our requests for information, and only failed to provide certain requested information, the Department may find it necessary to use some form of partial BIA to ensure that a company does not benefit from its failure to supply requested information. In this review, for companies with missing data that prevented the Department from calculating margins or making product comparisons, we used the companies' weighted-average rate for sales with dumping margins during the review period as BIA for those sales for which we were unable to make proper comparisons. For those companies with missing data but no sales with dumping margins, we used the highest rate for that company from any previous review as BIA for those sales for which we were unable to make proper comparisons.

B. Hitachi Metals Techno, Ltd. and Hitachi Maxco, Ltd.

Comment 3: Hitachi claims that the Department improperly used BIA to calculate margins on seven of Hitachi's sales. Hitachi argues that two of these sales were returns and should not have been included in the margin calculation. Two other sales did not match because of typographical input errors made by Hitachi. The remaining three sales could not be matched because supplier price information was unavailable and there were no sales of similar products in the home market. Hitachi contends that should the Department decide to use a BIA rate for these sales, the rate applied should be Hitachi's total weighted average margin for the period.

Department's Position: We agree with Hitachi that the two returns listed in their supplemental response should not be included in the margin calculation and have made the appropriate adjustments. However, we disagree with Hitachi that the five remaining sales should not be subject to BIA rates, because the missing or incorrectly reported information prevented the Department from calculating margins, and an adverse inference must be drawn. We also disagree with Hitachi's contention that should the Department use BIA, the proper rate for these sales would be the final weighted average margin for the period. As discussed above in the general comments, we have applied the weighted average rate for Hitachi's sales with dumping margins.

Comment 4: Hitachi claims that the Department improperly applied the 20 percent difference-in-merchandise (DIFMER) test to its similar matches. Hitachi argues that the use of this test is purely discretionary and should not apply to products such as roller chain. Hitachi claims that roller chain is "a fairly simple product which involves straightforward manufacturing operations," and should not be subjected to the DIFMER test, citing as support the Department's position in the Korean cookware case. (Certain Stainless Steel Cooking Ware from the Republic of Korea: Final Results of Antidumping Duty Administrative Review (56 FR 38114, August 12, 1991)). Hitachi also argues that because these reviews predate the use of the DIFMER test, the Department is unfairly applying a standard which Hitachi could not have considered when making its submission of similar matches.

Petitioner argues that the Department properly applied the 20 percent DIFMER test in this case. In fact, because the test reflects the Department's standard practice, only its non-use in this case would require Departmental justification. Petitioner contends that the Korean cookware case did not provide a general exception to the DIFMER test for basic commodity products. The Department has, and continues to apply this test to other basic commodity products such as tapered roller bearings. Rather, the exception in the Korean cookware case addressed a very specific set of facts which included a product inspection that allowed the Department to verify that the products were similar even though their costs differed by more than 20 percent. The facts in this case do not justify an exception to the DIFMER test standard.

Petitioner argues further that although Hitachi did submit similar products in its questionnaire response, it never submitted any factual argument as to its selection of these products. In fact, Hitachi's assertions of similarity were raised for the first time after the preliminary determination, and based on information submitted after that determination. As such, the information is untimely and cannot be taken into account in this review. Petitioner notes, furthermore, that the disparity in the cost differences being measured in this case (*i.e.*; the differences in Hitachi's cost of acquiring roller chain from its suppliers), is one of types of distortions that the Department was trying to avoid when it established this test.

Department's Position: We agree with petitioner. The Department has developed its practice of applying a 20 percent cost differential cap in order to ensure that the home market model chosen is "similar" within the meaning of subparagraphs (B) and (C) of section 771(16) of the Act. The Department believes that if the costs of two products are greatly different due to physical differences in the merchandise, then the products can neither be deemed to be of approximately equal value, within the meaning of subparagraph (B), nor can they reasonably be compared, within the meaning of subparagraph (C). The application of the 20 percent cap as a benchmark serves to provide needed guidance and certainty to parties who are or may be involved in antidumping proceedings. In this regard, we agree with petitioner that Stainless Steel Cooking Ware from Korea did not provide a general exemption for so-called "basic commodity products," and that the fact pattern in that case is not present here.

We do not agree that the Department's application of its 20 percent DIFMER practice is discretionary in the sense that the Department may apply it or not apply it as it chooses. This practice represents the Department's current interpretation of section 771(16) of the Act, and the Department must apply this interpretation consistently from case to

case. The Department has followed this practice in cases involving similar industrial commodity products, and has applied it in proceedings much older than the instant proceeding. See, *e.g.*, Tapered Roller Bearings Four Inches or Less in Outside Diameter from Japan: Final Results of Antidumping Duty Administrative Review (55 FR 22369, June 1, 1990).

Comment 5: Hitachi claims that if the Department decides to apply the test, we should use the U.S. acquisition price rather than the net home market price as the denominator when calculating the 20 percent DIFMER test. Petitioner contends that the use of net home market prices is well within the Department's discretion and has been used in prior proceedings.

Department's Position: Although we agree with petitioner's contention that it is within the Department's discretion to use net home market prices in the DIFMER test, we agree with Hitachi that the U.S. acquisition price more accurately reflects the Department's standard practice with regard to the calculation of the 20 percent DIFMER cap and is the most reasonable choice for a denominator in this case. We have, therefore made the appropriate corrections.

Comment 6: Hitachi contends that the Department incorrectly deducted an imputed credit expense from the U.S. price. In addition, Hitachi argues that the Department double-counted the credit expense by also deducting the interest expense provided by Hitachi in its SG&A and interest expense calculations. Hitachi requests that the Department recalculate the SG&A and omit itemized interest expense data from the SG&A ratios if it continues to deduct an imputed credit expense.

Department's Position: We disagree with Hitachi that our use of an imputed credit expense is incorrect. However, we do agree that the itemized interest expense listed by Hitachi in its submission should be deducted from its SG&A ratios and have made the appropriate adjustments. See, Final Results of Antidumping Duty Administrative Review: Roller Chain, Other than Bicycle, from Japan (55 FR 42608, October 22, 1990).

Comment 7: Hitachi claims that the Department incorrectly used the average home market credit days when calculating U.S. credit expense.

Department's Position: We agree and have made the appropriate adjustment.

Comment 8: Petitioner argues that the Department must make an inventory carrying cost adjustment to Hitachi's exporter's selling price (ESP) sales. Since Hitachi did not supply inventory carrying costs, the Department should make a BIA adjustment for both reviews.

Department's Position: We agree that inventory carrying costs should be deducted from Hitachi's ESP sales. We have imputed this cost for both reviews using the inventory turnover rate supplied by Hitachi in its 1983/84 submission.

Comment 9: Hitachi claims that the Department incorrectly applied certain 1984/85 home market expense ratios in the 1983/84 review. Hitachi claims that the home market expenses listed in its response were based on the home market unit price less discounts, and should be used by the Department in its calculation of the FMV without further recalculation.

Department's Position: We agree and have made the appropriate adjustments.

Comment 10: Hitachi argues that the Department incorrectly deducted as an expense the bad debt reserve allowance for the U.S. selling expense. Hitachi claims that this allowance is not an actual expense, but merely a reserve account used for covering future default payments by customers, and that this fund was not drawn upon during either review period. Hitachi maintains that this should preclude the deduction of the allowance as an expense.

Department's Position: We agree with respondent. The Department considers bad debt that is actually incurred on the sale of subject merchandise during the period of review to be either a direct or indirect selling expense depending on the relationship between the bad debt expense and the sale. See, Final Results of Antidumping Duty Administrative Review: Color Television Receivers from the Republic of Korea 56 FR 12705 (March 27, 1991). The figure for bad debt in Hitachi's submission is not an actual expense; rather it is a reserve account set aside by Hitachi in case an actual expense for bad debt is incurred in the future. Since no actual bad debt expense was incurred by Hitachi during the period of review, we are not deducting this expense from Hitachi's indirect selling expenses. See, Final Results of Antidumping Duty Administrative Reviews; Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts From France, et. al. (57 FR 28412 June 24, 1992).

Comment 11: Hitachi claims that the Department incorrectly recalculated advertising and inland insurance expenses by applying the expense ratios to dollar-denominated unit prices, rather than accepting Hitachi's yen-denominated expenses which were based on F.O.B. values.

Department's Position: We disagree. Hitachi stated in its response to the Department's supplemental questionnaire that "the F.O.B. price for each type of roller chain product is not available." Therefore, although the Department may agree that the ratios presented in the submission were calculated on an F.O.B. basis, we are forced to apply them to the dollar-denominated gross unit price as the best information available since Hitachi did not supply the yen-denominated F.O.B. prices necessary to calculate these expenses.

Comment 12: Hitachi contends that the Department incorrectly used ESP ratios when calculating purchase price (PP) movement and commission ratios.

Department's Position: We disagree. Hitachi did not submit any explanation regarding the calculation of their PP movement or commission ratios. Unlike other variables listed in appendix C of the supplemental questionnaire response, such as the gross unit price (GRSUPRIP) or foreign brokerage (FBROKP), there is no indication in the definition column that these are actual expenses. Furthermore, Hitachi states in its response to the supplemental questionnaire that an average rate for each movement expense was calculated based on all entries of roller chain during the review period. Hitachi has not provided sufficient information to separately break out and calculate PP and ESP movement and commission expenses. The Department believes that because these ratios, which Hitachi contends should only apply to ESP sales, were based on all U.S. sales of roller chain during the period, they provide the best information available for calculating both ESP and PP movement and commission expenses.

Comment 13: Hitachi claims that the Department made incorrect adjustments for U.S. commissions and credit expenses in the preliminary margin calculation.

Department's Position: We agree and have made the appropriate adjustments.

Comment 14: Hitachi claims that the Department failed to properly adjust for differences in circumstances of sale when using constructed value in the preliminary margin calculation.

Department's Position: We agree and have made the appropriate adjustments.

C. Kaga Kogyo K.K. and Kaga/APC

Comment 15: Kaga Kogyo claims that the Department incorrectly applied BIA rates to certain U.S. sales with identical matches in the home market. The rejection of most of these identical matches came about from the slight

difference in product nomenclature for riveted roller chain in the U.S. and Japanese markets. In markets where both riveted and cottered versions of a chain model are commonly sold (e.g., the United States), the model number is always followed by a "C" or an "R". In markets where only the riveted version is commonly sold (e.g., Japan), the model number stands alone for sales of riveted chain and is followed by a "C" for cottered chain. The lack of an "R" on home market models caused the computer to reject certain U.S. sales even though there was an identical match in the home market. Additional non-matches also occurred because of data entry errors made by Kaga Kogyo in its tape submission. Petitioner contends that since Kaga Kogyo is addressing errors and deficiencies in its own submission, its clarification and list of corrections amount to an untimely submission of new data and should therefore be rejected.

Department's Position: The Department agrees with petitioner that any untimely submission of new data must be rejected. Therefore, we have only considered Kaga Kogyo's comments regarding matches to the extent that such information can be confirmed by information already on the record. We have been able to deduce from previously submitted information already on the record that Japanese models of riveted chain without an "R" in their product nomenclature are identical to U.S. models of riveted chain with an "R" (e.g. Japanese model 100H is identical to U.S. model 100HR).

Corrections and clarifications that could not be confirmed by information submitted prior to the issuance of the preliminary results were not taken into account in our margin calculation. Such new factual information is untimely under section 353.31 of the Department's regulations.

D. Pulton Chain Co., Inc., Pulton/HIC, and Pulton/I&OC of Japan Co., Ltd.

Comment 16: Petitioner states that based on Pulton's response, packing costs for roller chain sold to a customer in the United States should exceed the packing costs for the same roller chain sold to a customer in Japan. Petitioner suggests that if discrepancies in Pulton's response exist, that BIA be used for these costs.

Department's Position: We disagree. We have examined Pulton's response and found no reason to believe that Pulton's packing costs are not accurately reported.

Comment 17: Petitioner asks that the Department review Pulton's purchase price calculations to ensure that Department properly adjusted for commissions in both periods.

Department's Position: We have examined Pulton's response and our calculations and have determined that the proper adjustments were made in both periods.

Final Results of the Review

As a result of our review, we determine the margins to be:

Manufacturer/exporter	Margin percent	
	04/01/83–03/31/84	04/01/84–03/31/85
Caddy Corporation of America	NA	[1] 0.000
Hitachi Metals Techno, Ltd. and Hitachi Maxco, Ltd.	0.33	5.60
Izumi Chain Manufacturing Co.	43.29	43.29
Kaga Kogyo K.K.	5.89	0.41
Kaga/APC	5.89	0.41
Pulton Chain Co., Inc.	0.02	0.29
Pulton/HIC	0.02	NA
Pulton/I&OC	0.02	0.29
Takasago RK Excel Co., Ltd.	1.46	8.91

[1] Caddy's one-time sale is actually a sale by Tsubakimoto, a company for which the effective date of revocation of the antidumping finding was prior to these review periods.

The Department will instruct the Customs Service to assess antidumping duties at the above rates on all appropriate entries. The Department will issue appraisement instructions directly to the U.S. Customs Service. Because the Department has already completed and published the final results of reviews for subsequent, intervening review periods, the dumping margins determined in these reviews will have no impact on cash deposit rates.

As provided by section 751(a)(1) of the Tariff Act, the Customs Service shall continue to require a cash deposit based on each firm's rate calculated in the most recent administrative review period. For any future entries of this merchandise from a new producer and/or exporter, not covered in these or prior administrative reviews, and who is unrelated to any previously reviewed firms, a cash deposit of estimated antidumping duties, equal to the highest non-BIA rate for any firm with shipments during the most recently completed review period, shall be required.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: October 1, 1992.

Rolf Th. Lundberg,

Acting Assistant Secretary for Import Administration.

Certain Refrigeration Compressors from the Republic of Singapore; Final Results of Countervailing Duty Administrative Review

AGENCY: International Trade Administration, Import Administration, Department of Commerce.

ACTION: Notice of final results of Countervailing Duty Administrative Review.

SUMMARY: On July 14, 1992, the Department of Commerce published the preliminary results of its administrative review of the agreement suspending the countervailing duty investigation on certain refrigeration compressors from the Republic of Singapore. We gave interested parties an opportunity to comment on the preliminary results. We received no comments, therefore we have not changed the final results from those presented in our preliminary results of review.

We have now completed this review and determine that the Government of Singapore, Matsushita Refrigeration Industries (Singapore) Pte. Ltd. and Asia Matsushita Electric (Singapore) Pte. Ltd., the signatories to the suspension agreement, have complied with the terms of the suspension agreement during the period April 1, 1990 through March 31, 1992.

EFFECTIVE DATE: October 9, 1992.

FOR FURTHER INFORMATION CONTACT: Megan Pilaroscia or Jean Kemp, Office of Agreements Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–3793.

SUPPLEMENTARY INFORMATION:

Background

On July 14, 1992, the Department of Commerce (the Department) published in the **Federal Register** (57 FR 31174) the preliminary results of its administrative review of the agreement suspending the countervailing duty investigation on certain refrigeration compressors from the Republic of Singapore (48 FR 51167; November 7, 1983). We have now completed this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

Scope of the Review

Imports covered by this review are shipments of hermetic refrigeration compressors rated not over one-quarter horsepower from Singapore. During the period of review, such merchandise was classifiable under item number 8414.30.40 of the Harmonized Tariff Schedule (HTS). The HTS item number is provided for convenience and Customs purposes. The written description remains dispositive.

The review covers one producer and one exporter of the subject merchandise. These two companies, along with the Government of Singapore, are the signatories to the suspension agreement. The review covers the period April 1, 1990 through March 31, 1991 and three programs.

Final Results of Review

In our preliminary results of review, we preliminarily determined that the signatories to the suspension agreement complied with the terms of the suspension agreement during the period of review. We gave interested parties an opportunity to comment on the preliminary results of review. We received no comments, and have made no changes to the findings of our preliminary results of review. Therefore, for these final results of review, we determine that the signatories to the suspension agreement have complied with the terms of the suspension agreement, including the payment of the provision export charges, for the April 1, 1990 through March 31, 1991 review period. A provisional export charge rate of 4.95 percent was in effect from April 1, 1990 through December 25, 1990, and a provisional export charge rate of 2.23 percent was in effect from December 26, 1990 through March 31, 1991.

We determine the total bounty or grant to be 5.52 percent of the f.o.b. value of the merchandise for the April 1, 1990 through March 31, 1991 review period. The suspension agreement states that the Government of Singapore will offset completely the net bounty or grant determined by the Department to exist with respect to the subject merchandise by the collection of an export charge applicable to exports of the subject product.

Following the methodology outlined in section B.4 of the agreement, the Department determines that, for the April 1, 1990 through December 25, 1990 portion of the review period, a positive adjustment of 0.57 percent must be made to the provisional export charge rate in effect, and for the December 26, 1990 through March 31, 1991 portion of the review period, a positive adjustment of 3.29 percent must be made to the provisional export charge rate in effect. These rates, established in the notices of the final results of the third and fifth administrative reviews of the suspension agreement (53 FR 25647, July 8, 1988; 55 FR 53028, December 26, 1990) are 4.95 percent and 2.23 percent, respectively. The Government of Singapore shall collect, in accordance with section B.4.c of the agreement, the difference, plus interest, calculated in accordance with section 778(b) of the Tariff Act, within 30 days of notification by the Department.

The Department intends to notify the Government of Singapore that the provisional export charge rate on all exports of the subject merchandise to the United States with Outward Declarations filed on or after the date of publication of the final results of this administrative review shall be 5.52 percent of the f.o.b. value of the merchandise.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 355.22 of the Department's regulations (19 CFR 355.22 (1992)).

Dated: October 2, 1992.

Rolf Th. Lundberg, Jr.,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

Export Trade Certificate of Review

ACTION: Notice of application.

SUMMARY: The Office of Export Trading Company Affairs, International Trade Administration, Department of Commerce, has received an application for an Export Trade Certificate of Review. This notice summarizes the conduct for which certification is sought and requests comments relevant to whether the Certificate should be issued.

FOR FURTHER INFORMATION CONTACT: George Muller, Director, Office of Export Trading Company Affairs, International Trade Administration, 202/482-5131. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. A Certificate of Review protects the holder and the members identified in the Certificate from state and federal government antitrust actions and from private, treble damage antitrust actions for the export conduct specified in the Certificate and carried out in compliance with its terms and conditions. Section 302(b)(1) of the Act and 15 CFR 325.6(a) require the Secretary to publish a notice in the Federal Register identifying the applicant and summarizing its proposed export conduct.

Request for Public Comments

Interested parties may submit written comments relevant to the determination whether a Certificate should be issued. An original and five (5) copies should be submitted no later than 20 days after the date of this notice to: Office of Export Trading Company Affairs, International Trade Administration, Department of Commerce, Room 1800H, Washington, DC 20230. Information submitted by any person is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552). Comments should refer to this application as "Export Trade Certificate of Review, application number 92-00012." A summary of the application follows.

Summary of the Application

Applicant: Balmac International, Inc., suite 2700, 61 Broadway, New York, NY 10006-2802.

Application No: 92-00012.

Date Deemed Submitted: October 2, 1992.

Members (in addition to applicant): None.

Export trade:

Products

Cold storage warehouses, ice flakers, ice machines, block ice machines, commercial and industrial mechanical refrigeration equipment and accessories.

Services

Design and modification of the above listed Products pursuant to foreign buyers' specification.

Export markets:

The Export Markets include all parts of the world except the United States (the fifty states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands).

Export trade activities and methods of operation:

Balmac International, Inc. intends:

(a) To enter into and terminate exclusive independent agreements with Bally Engineered Structures, Inc. and any other Supplier separately wherein:

(1) Balmac International, Inc. agrees not to represent any competitors of such

Supplier as an Export Intermediary unless authorized by the Supplier;

(2) The Supplier agrees not to sell, directly or indirectly, through any other intermediary, into the Export Markets in which Balmac International, Inc. represents the Supplier as an Export Intermediary and, if such sales do occur to pay a commission to Balmac International, Inc.; or

(3) Both (1) and (2) above.

(b) To enter into and terminate exclusive agreements with Export Intermediaries wherein:

(1) Balmac International, Inc. agrees to deal in Products in the Export Markets only through that Export Intermediary;

(2) That Export Intermediary agrees not to represent Balmac International, Inc.'s competitors in the Export Markets or not to buy from Balmac International Inc.'s competitors for resale in the Export Markets; or

(3) Both (1) and (2) above.

(c) To enter into exclusive or nonexclusive agreements with an individual buyer in the Export Markets to act as a Purchasing Agent with respect to a particular transaction.

(d) For Balmac International, Inc. itself, or while acting as an Export Intermediary for separate Suppliers, to:

(1) Establish prices and quantities at which Products will be acquired, sold or resold for, or in the Export Markets;

(2) Establish the price and other terms of sale at which Services will be acquired, sold or resold for, or in the Export Markets;

(3) Allocate foreign territories or customers among Balmac International Inc.'s Export Intermediaries or to a Supplier and that Supplier's Export Intermediaries, or

(4) Any combination of (1), and (2), and (3) above. Balmac International, Inc. may engage in the activities in (d) above by agreement with Balmac International, Inc.'s Export Intermediaries, by independent agreement with separate Suppliers, by agreement with that Supplier's Export Intermediaries, or on the basis of its own determination.

(e) To disclose to an individual buyer in the Export Market prices and other terms of export marketing or sale.

Definitions

For purpose of this certificate application,the following terms are defined:

(a) "Export Intermediary" means:

(1) "Broker"—a person that locates buyers in the Export Markets for the Supplier or that locates Suppliers for buyers in the Export Markets on a straight commission or cost-plus commission basis and that, in so acting, offers, provides or engages in some or all Services.

(2) "Distributor"—a person that purchases Products for its own account from a Supplier, that may establish the resale price or maintain an inventory of Products for prospective, unidentified sale and that, in so acting, offers, provides or engages in some or all Services; or

(3) "Sales Representative or Agent"—a person that identifies and locates Products for sale; gives advice on, or chooses among prospective buyers in the Export Markets, advises on or negotiates prices, quantities, and other sale terms and conditions, sells Products for its own account or for the account of others; and that, in so acting, offers,provides or engages in some or all Services.

(b) "Purchasing Agent"—an intermediary who identifies and locates Products for purchase; gives advice on, or chooses among prospective Suppliers; advises on or negotiates prices, quantities, and other purchase terms and conditions; and purchases Products for its own account or for the account of others; and who, in so acting, offers, provides or engages in some or all Services.

(c) "Supplier"—a person that produces or sells Products to be exported from the United States or Services.

Dated: October 5, 1992.

George Muller,

Director, Office of Export Trading Company Affairs.

BILLING CODE 3510-DR-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Establishment of an Import Restraint Limit for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in Myanmar

October 2, 1992.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing a limit.

EFFECTIVE DATE: October 13, 1992.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of this limit, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927-5850. For information on embargoes and quota re-openings, call (202) 482-3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

Under the terms of section 204 of the Agricultural Act of 1956, as amended, the Government of the United States has decided to establish a restraint limit for men's and boys' cotton and man-made fiber woven shirts in Categories 340/640, produced or manufactured in Myanmar and exported during the twelve-month period which began on October 1, 1992 and extends through September 30, 1993 at a level of 93,975 dozen.

A summary market statement concerning Categories 340/640 follows this notice.

Anyone wishing to comment or provide data or information regarding the treatment of Categories 340/640 or to comment on domestic production or availability of products included in Categories 340/640, is invited to submit 10 copies of such comments or information to Auggie D. Tantillo, Chairman, Committee for the Implementation of Textile Agreements, U.S. Department of Commerce, Washington, DC 20230; ATTN: Helen L. LeGrande.

Further comments may be invited regarding particular comments or information received from the public which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments is not a waiver in any respect of the exemption contained in 5 U.S.C. 553(a)(1) relating to matters which constitute "a foreign affairs function of the United States."

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 56 FR 60101, published on November 27, 1991). Information regarding the 1993

CORRELATION will be published in the Federal Register at a later date.

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Market Statement—Myanmar

Category 340/640—Men's and Boys' Cotton and Man-Made Fiber Woven Shirts

September 1992

Import Situation and Conclusion

U.S. imports of men's and boys' cotton and man-made fiber woven shirts, Category 340/640, from Myanmar reached 110,571 dozen during the year ending July 1992, 52 percent above the 72,512 dozen imported during the year ending in July 1991. During the first seven months of 1992, imports of Category 340/640 from Myanmar reached 74,271 dozen, more than double the 32,603 dozen imported during the same period a year earlier and 8 percent above Myanmar's total calendar year 1991 Category 340/640 imports.

The sharp and substantial increase in Category 340/640 imports from Myanmar is causing disruption in the U.S. market for men's and boys' cotton and man-made fiber woven shirts.

U.S. Production, Import Penetration, and Market Share

U.S. production of men's and boys' cotton and man-made fiber woven shirts, Category 340/640, declined 28 percent falling from 16,401,000 dozen in 1988 to 11,729,000 dozen in 1991. U.S. production during the year ending March 1992 remained relatively even with the year ending March 1991 level. U.S. imports of men's and boys' cotton and man-made fiber woven shirts, Category 340/640, declined in 1990 and 1991. However, Category 340/640 imports surged in 1992, increasing 30 percent in the first seven months over the January-July 1991 level and reaching 28,035,769 dozen in the year ending in July 1992, 21 percent above the 23,136,808 dozen imported during the year ending July 1991 and the highest 12 month level on record.

The ratio of imports to domestic production increased from 157 percent in 1988 to 205 percent in 1991. This trend continued in 1992, with the ratio of imports to production reaching 208 percent during the year ending March 1992. The domestic manufacturers' share of the market for men's and boys' cotton and man-made fiber woven shirts fell from 39 percent in 1988 to 33 percent in 1991. This decline continued in 1992, with the domestic manufacturer's share of the market falling to 32 percent during the year ending March 1992.

Duty-Paid Value and U.S. Producers' Price

Approximately 79 percent of Category 340/640 imports from Myanmar during the year ending July 1992 entered the U.S. under HTSUSA numbers 6205.20.2046—men's and boys' cotton napped yarn dyed shirts, 6205.20.2050—men's cotton yarn dyed shirts, other than napped, 6205.20.2065—men's cotton shirts, other than yarn dyed, 6205.30.2050—men's man-made fiber yarn dyed shirts and 6205.30.2070—men's man-made fiber shirts, other than yarn dyed. These shirts entered the U.S. at landed duty-paid values below U.S. producers' prices for comparable shirts.

Committee for the Implementation of Textile Agreements

October 2, 1992.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on October 13, 1992, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton and man-made fiber textile products in Categories 340/640, produced or manufactured in Myanmar and exported during the period beginning on October 1, 1992 and extending through September 30, 1993, in excess of 93,975 dozen. [1]

Textile products in Categories 340/640 which have been exported to the United States prior to October 1, 1992 shall not be subject to the limit established in this directive.

Textile products in Categories 340/640 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Ronald I. Levin,

Acting Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 92-24622 Filed 10-8-92; 8:45 am]

BILLING CODE 3510-DR-F

[1] The limit has not been adjusted to account for any imports exported after September 30, 1992.

Request for Public Comments on Bilateral Textile Consultations with the Government of Oman on Certain Cotton and Man-Made Fiber Textile Products

October 5, 1992.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Notice.

FOR FURTHER INFORMATION CONTACT: Jennifer Tallarico, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on categories for which consultations have been requested, call (202) 482-3740.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

On September 21, 1992, under the terms of Section 204 of the Agricultural Act of 1956, as amended, the Government of the United States requested consultations with the Government of Oman with respect to men's and boys' cotton and man-made fiber woven shirts in Categories 340/640, produced or manufactured in Oman.

The purpose of this notice is to advise the public that, if no solution is agreed upon in consultations with the Government of Oman, the Committee for the Implementation of Textile Agreements may later establish a limit for the entry and withdrawal from warehouse for consumption of cotton and man-made fiber textile products in Categories 340/640, produced or manufactured in Oman and exported during the twelve-month period which began on September 21, 1992 and extends through September 20, 1993, at a level of not less than 104,553 dozen.

A summary market statement concerning Categories 340/640 follows this notice.

Anyone wishing to comment or provide data or information regarding the treatment of Categories 340/640, or to comment on domestic production or availability of products included in Categories 340/640, is invited to submit 10 copies of such comments or information to Auggie D. Tantillo, Chairman, Committee for the Implementation of Textile Agreements, U.S. Department of Commerce, Washington, DC 20230; ATTN: Helen L. LeGrande. The comments received will be considered in the context of the consultations with the Government of Oman.

Because the exact timing of the consultations is not yet certain, comments should be submitted promptly. Comments or information submitted in response to this notice will be available for public inspection in the Office of Textiles and Apparel, room H3100, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC.

Further comments may be invited regarding particular comments or information received from the public which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments regarding any aspect of the agreement or the implementation thereof is not a waiver in any respect of the exemption contained in 5 U.S.C. 553(a)(1) relating to matters which constitute "a foreign affairs function of the United States."

The United States remains committed to finding a solution concerning Categories 340/640. Should such a solution be reached in consultations with the Government of Oman, further notice will be published in the Federal Register.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see Federal Register notice 56 FR 60101, published on November 27, 1991).

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Market Statement—Oman

Category 340/640—Men's and Boys' Woven Shirts

September 1992

Import Situation and Conclusion

U.S. imports of men's and boys' cotton and man-made woven shirts, Category 340/640, from Oman reached 104,553 dozen during the year ending June 1992, 39 percent above the 75,462 dozen imported during the year ending in June 1991. During the first six months of 1992, imports of Category 340/640 from Oman reached 63,124 dozen, 65 percent above the 38,287 dozen imported during the same period a year earlier and 79 percent of Oman's total calendar year 1991 Category 340/640 imports.

The sharp and substantial increase in Category 340/640 imports from Oman is causing disruption in the U.S. market for men's and boys' cotton and man-made fiber woven shirts.

U.S. Production, Import Penetration, and Market Share

U.S. production of men's and boys' cotton and man-made fiber woven shirts, Category 340/640, declined 28 percent falling from 16,401,000 dozen in 1988 to 11,729,000 dozen in 1991. U.S. production during the year ending March 1992 remained relatively even with the year ending March 1991 level. U.S. imports of men's and boys' cotton and man-made fiber woven shirts, Category 340/640, declined in 1990 and 1991. However, Category 340/640 imports surged in 1992, increasing 30 percent in the first half over the January-June 1991 level and reaching 27,298,374 dozen in the year ending in June 1992, 18 percent above the 23,196,116 dozen imported during the year ending June 1991 and the highest 12 month level since the year ending in July 1987.

The ratio of imports to domestic production increased from 157 percent in 1988 to 205 percent in 1991. This trend continued in 1992, with the ratio of imports to production reaching 208 percent during the year ending March 1992. The domestic manufacturers' share of the market for men's and boys' cotton and man-made fiber woven shirts fell from 39 percent in 1988 to 33 percent in 1991. This decline continued in 1992, with the domestic manfacturers' share of the market falling to 32 percent during the year ending March 1992.

Duty-Paid Value and U.S. Producers' Price

Approximately 84 percent of Category 340/640 imports from Oman during the year ending June 1992 entered the U.S. under HTSUSA numbers 6205.20.2065—men's cotton shirts, other than yarn dyed, 6205.20.2075—boys' cotton shirts, other than yarn dyed, and other than those imported as parts of playsuits, and 6205.30.2070—men's man-made fiber shirts, other than yarn dyed. These shirts entered the U.S. at landed duty-paid values below U.S. producers' prices for comparable shirts.

BILLING CODE 3510-DR-F

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List; Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Additions to Procurement List.

SUMMARY: The Committee has received proposals to add to the Procurement List commodities and services to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

COMMENTS MUST BE RECEIVED ON OR BEFORE: November 9, 1992.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 3, suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202-3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51-2.3. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

If the Committee approves the proposed additions, all entities of the Federal Government (except as otherwise indicated) will be required to procure the commodities and services listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodities and services to the Government.

2. The action does not appear to have a severe economic impact on current contractors for the commodities and services.

3. The action will result in authorizing small entities to furnish the commodities and services to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodities and services proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

It is proposed to add the following commodities and services to the Procurement List:

Commodities

Handle, Step
5340-01-114-7387

Nonprofit Agency: NOC Industries, Inc., Cadillac, Michigan

Trousers, Men's, Medical Assistant

Procurement List; Proposed Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Addition to Procurement List.

SUMMARY: The Committee has received a proposal to add to the Procurement List a commodity to be furnished by a nonprofit agency employing persons who are blind or have other severe disabilities.

COMMENTS MUST BE RECEIVED ON OR BEFORE: November 9, 1992.

ADDRESSES: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 3, suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202-3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51-2.3. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed action. If the Committee approves the proposed addition, all entities of the Federal Government (except as otherwise indicated) will be required to procure the commodity listed below from a nonprofit agency employing individuals who are blind or have other severe disabilities.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organization that will furnish the commodity to the Government.

2. The action will result in authorizing a small entity to furnish the commodity to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodity proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

It is proposed to add the following commodity to the Procurement List:

Paper, Toilet Tissue
8540-00-530-3770
(Requirements for Zone 6 only)
Nonprofit agency: Duluth Lighthouse for the Blind, Duluth, Minnesota

COMMODITY FUTURES TRADING COMMISSION

Board of Trade Clearing Corporation and Chicago Mercantile Exchange Proposed Common Banking and Settlement Rule Amendments

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of proposed rules and rule amendments of the Board of Trade Clearing Corporation and the Chicago Mercantile Exchange to establish a common banking and settlement system.

SUMMARY: The Board of Trade Clearing Corporation ("BOTCC") and the Chicago Mercantile Exchange ("CME") have submitted proposed new rules, rule amendments, and other materials which would establish a common banking and settlement system at the BOTCC and CME.[1] Acting pursuant to the authority delegated by Commission Regulation 140.96, the Director of the Division of Trading and Markets has determined to publish the BOTCC and CME proposals for public comment. The Division believes that publication of the BOTCC and CME proposals is in the public interest and will assist the Commission in considering the views of interested persons.

DATES: Comments must be received on or before November 9, 1992.

ADDRESSES: Interested persons should submit their views and comments to Jean A. Webb, Secretary Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581. References should be made to the proposed amendments to establish common banking and settlement system

FOR FURTHER INFORMATION CONTACT: John C. Lawton, Associate Director, or

[1] The BOTCC proposal includes proposed new Bylaws 118, 119, and 517, and proposed amendments to existing Bylaws 503, 508, 604, and 804. The CME proposal includes proposed new Rule 832 and proposed amendments to existing Rule 802.

Clarence Sanders, Attorney, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581. Telephone: (202) 254–8955.

SUPPLEMENTARY INFORMATION:

I. Description of Proposed Rules and Rule Amendments

By letters dated August 27, 1992, and September 1, 1992, the CME and the BOTCC respectively submitted proposed new rules and rule amendments pursuant to section 5a(12) of the Commodity Exchange Act ("Act") and Commission Regulation 1.41(b) which would establish a common banking and settlement system at the BOTCC and CME.[2] In connection with these rule changes, the BOTCC and CME also submitted the BOTCC–CME common banking and settlement procedures agreement.

Under the proposals, a firm that is member of both the BOTCC and the CME clearing organization—a joint clearing member—would be required to elect either the BOTCC or the CME clearing organization as its designated clearing organization ("DCO"). The DCO then would carry out both custodial and payment functions with respect to the joint clearing member's proprietary and customer accounts on behalf of both clearing organizations. Although a joint clearing member would deposit all performance bond at its DCO, the joint clearing member also would be required to make an accounting allocation of performance bond between the two clearing organizations, subject to any requirements on form or valuation of collateral imposed by either clearing organization.

Each joint clearing member would be required to execute a common banking and settlement agreement giving to both clearing organizations jointly a first lien and security interest in property, or proceeds thereof, deposited as performance bond. Each joint clearing member also would be required to establish at a settlement bank separate proprietary and customer accounts for purposes of daily settlement at both clearing organizations. All daily settlement instructions would have to be approved by both clearing organizations, except under specifically identified conditions when a clearing organization would be permitted to withhold its approval. Settlements would be made among the clearing organizations' joint bank account and the joint clearing members' bank accounts.

The proposal includes provisions that provide for the suspension or expulsion of a joint clearing member. Similarly, the proposal contains terms governing the liquidation of a suspended or expelled joint clearing member's positions.

The proposal also would require that the two clearing organizations share information with one another regarding the condition and activities of joint clearing members. Such sharing of information would be required in several different areas, including changes in financial information reporting, changes in capital and collateral requirements, the institution of disciplinary action, the occurrence of processing or operational errors, and failure to meet timely any settlement obligations. Information sharing would not only be required upon the occurrence of any adverse condition but also upon the termination of such adverse condition.

II. Request for Comments

The Commission requests comments on any aspect of the BOTCC's and CME's proposed new rules and rule amendments that members of the public believe may raise issues under the Act or Commission regulations.

Copies of the proposed rules and related materials are available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581. Copies also may be obtained through the Office of the Secretariat at the above address or by telephoning (202) 254–6314. Some materials may be subject to confidential treatment pursuant to 17 CFR 145.5 or 145.9.

Any person interested in submitting written data, views, or arguments on the proposed rule should send such comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581, by the specified date.

Issued in Washington, DC, on October 5, 1992.

Alan L. Seifert,

Deputy Director.

[FR Doc. 92–24602 Filed 10–8–92; 8:45 am]

BILLING CODE 6351–01–M

[2] The BOTCC originally submitted its proposal pursuant to Commission Regulation 1.41(c) but subsequently requested that its proposal be treated as if it had been submitted pursuant to Commission Regulation 1.41(b).

DEPARTMENT OF DEFENSE

Office of the Secretary

Nuclear Failsafe and Risk Reduction Advisory Committee; Meeting

AGENCY: Nuclear Failsafe and Risk Reduction Advisory Committee.

ACTION: Notice of meeting.

SUMMARY: Pursuant to Public Law 92–463, notice is hereby given of a forthcoming meeting of the Nuclear Failsafe and Risk Reduction Review Advisory Committee. The purpose of the meeting is to discuss and approve the Committee's Final Report to the Secretary of Defense on its comprehensive and independent review of U.S. positive measures for the prevention of unauthorized or inadvertent use of nuclear weapons with recommendations for enhancement of fail-safe policies, procedures and mechanisms and opportunities to reduce the risk of the outbreak of nuclear war. This meeting will be closed to the public.

DATES: October 30, 1992. 1000–1100.

ADDRESS: Pentagon, Crisis Coordination Center, room 3C912

FOR FURTHER INFORMATION CONTACT: Colonel Bill Jones, U.S. Army, U.S. Nuclear Command and Control System Support Staff (NSS), Skyline #3, 5201 Leesburg Pike, suite 500, Falls Church, Virginia 22041, (703) 756–8680.

Dated: October 5, 1992.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 92–24591 Filed 10–8–92; 8:45 am]

BILLING CODE 3810–01–M

Department of Defense Wage Committee; Closed Meetings

Pursuant to the provisions of section 10 of Public Law 92–463, the Federal Advisory Committee Act, notice is hereby given that a meeting of the Department of Defense Wage Committee will be held on Tuesday, November 3, 1992; Tuesday, November 10, 1992; Tuesday, November 17, 1992 and Tuesday, November 24, 1992, at 2 p.m. in room 800, Hoffman Building #1, Alexandria, Virginia.

The Committee's primary responsibility is to consider and submit recommendations to the Assistant Secretary of Defense (Force Management and Personnel) concerning all matters involved in the development and authorization of wage schedules for federal prevailing rate employees

pursuant to Public Law 92–392. At this meeting, the Committee will consider wage survey specifications, wage survey data, local wage survey committee reports and recommendations, and wage schedules derived therefrom.

Under the provisions of section 10(d) of Public Law 92–463, meetings may be closed to the public when they are "concerned with matters listed in 5 U.S.C. 552b." Two of the matters so listed are those "related solely to the internal personnel rules and practices of an agency," (5 U.S.C. 552b. (c)(2)), and those involving "trade secrets and commercial or financial information obtained from a person and privileged or confidential" (5 U.S.C. 552b. (c)(4)).

Accordingly, the Deputy Assistant Secretary of Defense (Civilian Personnel Policy/Equal Opportunity) hereby determines that all portions of the meeting will be closed to the public because the matters considered are related to the internal rules and practices of the Department of Defense (5 U.S.C. 552b. (c)(2)), and the detailed wage data considered were obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552b. (c)(4)).

However, members of the public who may wish to do so are invited to submit material in writing to the chairman concerning matters believed to be deserving of the Committee's attention.

Additional information concerning this meeting may be obtained by writing the Chairman, Department of Defense Wage Committee, room 3D264, the Pentagon, Washington, DC 20310.

Dated: October 5, 1992.

L.M. Bynum,

OSD Federal Register Liaison Officer, Department of Defense.

Office of The Secretary

DoD Government-Industry Technical Data Committee

AGENCY: Office of the Under Secretary of Defense (Acquisition).

ACTION: Notice.

SUMMARY: Pursuant to section 807 of Public Law 102–120, the National Defense Authorization Act for Fiscal Years 1992 and 1993, a Government-Industry Technical Data Committee has been formed. The committee will make recommendations to the Secretary of Defense for the final regulations required by subsection (a) of 10 U.S.C. 2320, "Rights in Technical Data."

The committee's November meetings are for November 17–18, 1992 from 9:30 a.m. to 4 p.m. at The Herman Lay Room, the U.S. Chamber of Commerce, 1615 "H" Street, NW., Washington, DC 20062–2000. These meetings will be open to the public. For more information, please contact the Committee Executive Secretary, Angelena Moy at (703) 693–5639.

Dated: October 5, 1992.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

DEPARTMENT OF EDUCATION

[CFDA Nos.: 84.197A–D, 84.036B, and 84.091A]

Office of Educational Research and Improvement; Higher Education Act Library Programs; Titles II–A, II–B, and II–C

AGENCY: Department of Education.

ACTION: Notice supplementing previous notice inviting applications for new awards for fiscal year 1993.

SUMMARY: On July 28, 1992, the Secretary published in the **Federal Register** a notice inviting applications for new awards for fiscal year 1993 under the Higher Education Act (HEA) title II library programs administered by the Office of Educational Research and Improvement. This supplemental notice advises potential applicants of the changes made to the title II library programs referenced in the July 28, 1992 notice by Public Law 102–325, "the Higher Education Amendments of 1992," which was enacted on July 23, 1992 and takes effect on October 1, 1992.

SUPPLEMENTARY INFORMATION: This supplemental notice summarizes the changes to HEA title II made by the Higher Education Amendments of 1992, which will govern the HEA title II library program applications for fiscal year 1993 and which applicants should consider in developing their applications. The July 28, 1992, **Federal Register** notice (57 FR 33411) remains in effect except as indicated in this supplemental notice. Copies of the HEA, as amended, are available from the program officers designated in the July 28 notice.

The title II library programs referenced in the July 28 notice have been redesignated or retitled under these new amendments as follows: (1) The College Library Technology and Cooperation Grants program (formerly designated as title II, part D) is now title II, part A; (2) HEA title II–B has been retitled "Library Education, Research, and Development;" and (3) HEA title II C has been retitled "Improving Access to Research Library Resources."

Application Notices Affected

CFDA No. 84.197A-D—College Library Technology and Cooperation Grants Program (Higher Education Act, Title II, Part A) Summary of Statutory Changes

(a) Networking Grants may now be awarded to institutions of higher education which demonstrate a need for special assistance for the planning, development, acquisition, maintenance, or upgrading of technological equipment necessary to organize, access, or utilize material in electronic formats and to participate in networks for the accessing and sharing of library and information resources.

(b) Combination Grants may now be awarded to combinations of institutions of higher education only for the purpose of accessing and sharing of library and information resources.

(c) The authority for Research and Demonstration Grants has been amended to provide participation in the National Research and Education Network as an example of an authorized activity.

(d) The minimum amount of a grant for the College Library Technology and Cooperation Grants program has been increased to $25,000.

(e) A Networking Grant may not exceed $50,000 for each institution of higher education

(f) For Networking Grants, the HEA directs the Secretary to give priority to certain applicants. That priority, and the manner in which it is implemented for fiscal year 1993, is listed under the heading "Implementation of New Priority."

Implementation of New Priority

The HEA directs the Secretary to give priority to institutions of higher education seeking assistance for projects that assist developing institutions of higher education in linking one or more institutions of higher education to resource sharing networks. In accordance with the HEA, and with the Education Department General Administrative Regulations (EDGAR), 34 CFR 75.105(c)(3), the Secretary reserves up to forty percent of all program funds solely for applications that meet this priority in a particularly effective way.

CFDA No. 84.036—Library Education and Human Resource Development Program Summary of Statutory Changes

(a) The Secretary is authorized to make awards "particularly in areas of critical needs, such as recruitment and retention of minorities." This provision will not affect the previously announced priorities governing fiscal year 1993 grants because those priorities are considered to address critical needs.

(b) Stipends are now available only to fellows who demonstrate need and are working toward a graduate degree. Stipends are not available to trainees or to undergraduate fellows.

FOR FURTHER INFORMATION CONTACT: Louise Sutherland, U.S. Department of Education, 555 New Jersey Avenue NW., room 404, Washington, DC 20208–5571. Telephone: (202) 219–1315. Individuals who are hearing impaired may call the Federal Dual Party Relay Service at 1–800–877–8339 (in the Washington, DC 202 area code, telephone 708–9300) between 8 a.m. and 7 p.m. Eastern time.

Program Authority: Public Law 102–325.

Dated: October 2, 1992.

Diane Ravitch,

Assistant Secretary for Educational Research and Improvement.

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Floodplain Involvement Notification for Proposed Interim Remedial Action at the Jefferson Tennis Court Site Oak Ridge, TN

AGENCY: U.S. Department of Energy (DOE).

ACTION: Notice of floodplain involvement and opportunity to comment.

SUMMARY: DOE has assessed and proposes to remediate a 1.5-acre field near the Jefferson Tennis Court, owned by the City of Oak Ridge, Tennessee. The City of Oak Ridge intends to sell the property to Girls' Inc., who intends to use the acreage for a softball field. The proposed action to be taken by DOE involves covering the field with 0.5 to 1.0 feet of clean soil so that the field can be made available for unrestricted use. The acreage to be covered is within the 100-year floodplain of East Fork Poplar Creek (EFPC). A portion of the property that is within the floodplain would not be disturbed. DOE understands that Girls' Inc., will erect a fence to restrict human access to the undisturbed portion.

In accordance with the DOE regulations for Compliance with Floodplain/Wetlands Environmental Review Requirements (10 CFR part 1022), DOE will prepare a floodplain assessment and issue a Statement of Findings before conducting environmental restoration activities. Maps and further information are available from the Information Resource Center, 105 Broadway Avenue, Oak Ridge, Tennessee 37830, (615) 481–0695.

DATES: Comments are due no later than October 26, 1992.

ADDRESSES: Send comments to Mr. Robert C. Sleeman, Director, Environmental Restoration Division (EW–91), U.S. Department of Energy, Post Office Box 2001, Oak Ridge, Tennessee 37831–8541, or fax comments to (615) 576–6074.

FOR FURTHER INFORMATION ON THE DOE FLOODPLAIN/WETLAND REVIEW PROCESS CONTACT: Carol Borgstrom, Director, Office of NEPA Oversight, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586–4600 or (800) 472–2756.

SUPPLEMENTARY INFORMATION: The proposed action, if implemented, would be conducted with the concurrence of the U.S. Environmental Protection Agency and the Tennessee Department of Conservation. The proposed action would be performed at the site in such a manner as to avoid or minimize impacts on the floodplain.

Paul D. Grim,

Principal Deputy Assistant Secretary for Environmental Restoration and Waste Management.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket Nos. ER92–852–000, et al.]

Arizona Public Service Company, et al.; Electric Rate, Small Power Production, and Interlocking Directorate Filings

October 1, 1992.

Take notice that the following filings have been made with the Commission:

1. Arizona Public Service Co.

[Docket No. ER92–852–000]

October 1, 1992.

Take notice that on September 24, 1992, Arizona Public Service Company (APS) tendered for filing revised Exhibit B (Exhibit) to the Wholesale Power Agreement (Agreement) between APS and Southern California Edison Company (SCE) (APS–FERC Rate Schedule No. 120). The Exhibit lists Maximum Demands applicable under the Agreement.

No change to the rate and revenue levels currently on file with the Commission for the 12 months immediately after the proposed effective as a result of this herein.

No new facilities or modifications to existing facilities are required as a result of this revision.

A copy of this filing has been served on SCE, the Arizona Corporation Commission and the California Public Utilities Commission.

Comment date: October 15, 1992, in accordance with Standard Paragraph E at the end of this notice.

2. West Texas Utilities Co.

[Docket No. ER92–772–000]

October 1, 1992.

Take notice that on September 23, 1992, West Texas Utilities Company (WTU) tendered for filing two letter agreements amending the agreements between WTU and the Cities of Brady and Coleman, Texas, filed in the above referenced proceeding on August 10, 1992. The letter agreements limit the amounts that WTU may collect for service under the agreements.

Copies of the filing have been served on the Cities and the Public Utility Commission of Texas.

Comment date: October 15, 1992, in accordance with Standard Paragraph E at the end of this notice.

3. Alabama Power Co.

[Docket No. ER92–832–000]

October 1, 1992.

Take notice that on September 9, 1992, Alabama Power Company (APCo) tendered for filing a Transmission Service Delivery Point Agreement dated as of September 18, 1992, which reflects an increase in the maximum capacity of certain existing delivery points of Central Alabama Electric Cooperative, Inc. All of these delivery points are served under the terms and conditions of the Agreement for Transmission Service to Distribution Cooperative Members of Alabama Electric Cooperative, Inc., dated August 28, 1980 (designated FERC Rate Schedule No. 147). The parties request an effective date for this Transmission Service Delivery Point Agreement of September 18, 1992.

Comment date: October 15, 1992, in accordance with Standard Paragraph E at the end of this notice.

4. Minnesota Power & Light Co.

[Docket No. ER92-860-000]

October 1, 1992.

Take notice that Minnesota Power & Light Company (Minnesota Power) on September 25, 1992, tendered for filing an Electric Service Agreement between Minnesota Power and the City of Proctor, Minnesota, by and through the Proctor Public Utilities Commission (Proctor). The Agreement adds Proctor as a full requirements customer of Minnesota for a 20 year term beginning January 1, 1995.

Minnesota Power requests an effective date of January 1, 1995, and requests waiver of the notice requirements of Section 35.3 of the Commission's regulations.

Copies of the filing have been served on Proctor, the Minnesota Public Utilities Commission and the Minnesota Department of Public Service.

Comment date: October 15, 1992, in accordance with Standard Paragraph E at the end of this notice.

5. Consolidated Edison Co. of New York, Inc.

[Docket No. ER92-861-000]

October 1, 1992.

Take notice that on September 28, 1992, Consolidated Edison Company of New York, Inc. (Con Edison) tendered for filing two Supplements to its Rate Schedule FERC No. 62, which provides for interruptible transmission service to Orange and Rockland Utilities, Inc. (O&R).

Supplement No. 10 provides for a decrease in rate from 2.6 mills to 215 mills per Kwh of interruptible transmission of power and energy over Con Edison's transmission facilities, thus decreasing annual revenues under the Rate Schedule by a total of $213.50. Supplement No. 11 provides for the addition of Philadelphia Electric as a source of energy to be transmitted under the Rate Schedule. Con Edison has requested waiver of notice requirements so that Supplement No. 10 can be made effective as of September 1, 1992 and Supplement No. 11 as of September 28, 1992.

Con Edison states that a copy of this filing has been served by mail upon O&R.

Comment date: October 15, 1992, in accordance with Standard Paragraph E at the end of this notice.

6. PacifiCorp

[Docket No. ER92-862-000]

October 1, 1992.

Take notice that PacifiCorp, on September 28, 1992, tendered for filing in accordance with 18 CFR 35.13 of the Commission's Rules and Regulations, a Long-Term Power Sales Agreement (Agreement) between PacificCorp and Western Area Power Administration (Western) dated September 17, 1992.

Under terms of the Agreement, PacifiCorp will sell to Western firm capacity and energy for the period of December 1, 1993 through December 31, 2012.

PacifiCorp requests that the effective date of the Agreement be sixty (60) days after the Commission's receipt of this filing.

Copies of this filing were supplied to Western, the Public Utility Commission of Oregon and the Public Utilities Commission of the State of California.

Comment date: October 15, 1992, in accordance with Standard Paragraph E at the end of this notice.

7. PacifiCorp

[Docket No. ER92-859-000]

October 1, 1992.

Take notice that PacifiCorp on September 25, 1992, tendered for filing in accordance with 18 CFR 35 of the Commission's Rules and Regulations, the Interconnection Agreement (Agreement) between PacifiCorp and Cowlitz County Public Utility District (Cowlitz) dated January 31, 1992.

The Agreement provides for the construction, ownership, operation and maintenance of the facilities required to connect Cowlitz's new Ariel Substation to PacifiCorp's existing 115 kV Kalama transmission line.

Copies of this filing were supplied to Cowlitz and Public Utility Commission of Oregon.

Comment date: October 15, 1992, in accordance with Standard Paragraph E at the end of this notice.

8. Northern States Power Co. (Minnesota) and Northern States Power Co. (Wisconsin)

[Docket No. ER92-343-003]

October 1, 1992.

Take notice that on September 23, 1992, Northern States Power Company (Minnesota) and Northern States Power (Wisconsin) jointly tendered for filing a Revised Transmission Loss Study dated September 1992.

The transmission system loss filing will reduce the NSP system average loss factors applicable to transmission service provided under various long term transmission service agreements and NSP's Transmission Service Tariff from 3.5% to 2.4%. The Revised Loss Study filing is being submitted in compliance with the Commission's initial Order dated April 29, 1992 and Order on Rehearing dated June 24, 1992, in this proceeding.

Copies of the filing have been served upon the wholesale and transmission wheeling customers of NSP-M and NSP-W, and upon the state commissions of Michigan, Minnesota, North Dakota, South Dakota and Wisconsin.

Comment date: October 15, 1992, in accordance with Standard paragraph E at the end of this notice.

9. Century Power Corp.

[Docket No. ER92-851-000]

October 1, 1992.

Take notice that on September 23, 1992, Century Power Corporation (Century) tendered for filing a December 31, 1985 contract with the Western Area Power Administration (WAPA) and a Notice of Cancellation of the contract. Because the contract has never been used and is not expected to be needed, Century requests that the cancellation become effective on September 20, 1992, to coincide with the date on which the contract terminated pursuant to contractual notice given by Century to WAPA.

Century also tendered for filing a Notice of Cancellation of its Rate Schedule FERC No. 7 for the sale of surplus energy to WAPA. The agreement terminated by its terms on September 30, 1989. Century requests that the cancellation become effective on November 23, 1992.

Comment date: October 15, 1992, in accordance with Standard Paragraph E at the end of this notice.

10. Louis Dreyfus Electric Power, Inc.

[Docket No. ER92-850-000]

October 1, 1992.

Take notice that Louis Dreyfus Electric Power Inc. (LDEP) on September 22, 1992, tendered for filing pursuant to Rule 207 of the Commission's Rules of Practice and Procedure, 18 CFR 385.207, a petition of waivers and blanket approvals under various regulations of the Commission, and an order accepting its Rate Schedule No. 1, to be effective on December 1, 1992.

LDEP intends to engage in electric power and energy transactions as a marketer and a broker. In transactions where LDEP purchases power, including capacity and related services from electric utilities, qualifying facilities and independent power producers, and resells such power to other purchasers, LDEP will be functioning as a marketer. In LDEP's marketing transactions, LDEP proposes to charge rates mutually agreed upon by the parties. All sales will be at arms-length, and no sales will

be made to affiliated entities. In transactions where LDEP does not take title to the electric power and/or energy, LDEP will be limited to the role of a broker and charge a fee for its services. LDEP is not in the business of transmitting electric power. LDEP does not currently have or contemplate acquiring title to any electric power transmission or generation facilities.

Rate Schedule No. 1 provides for the sale of energy and capacity at agreed prices. Rate Schedule No. 1 also provides that no sales my be made to affiliates.

Comment date: October 15, 1992, in accordance with Standard Paragraph E at the end of this notice.

11. New England Power Co.

[Docket No. ER92-600-001]

October 1, 1992.

Take notice that on September 24, 1992, New England Power Company (NEP) tendered for filing its compliance refund report in the above referenced docket.

Comment date: October 15, 1992, in accordance with Standard paragraph E at the end of this notice.

12. New England Power Service

[Docket No. ER92-335-000]

October 1, 1992.

Take notice that on September 8, 1992, New England Power Service tendered for filing an amendment in the above referenced docket.

Comment date: October 15, 1992, in accordance with Standard Paragraph E at the end of this notice.

13. EEA III, L.P.

[Docket No. QF91-24-001]

October 2, 1992.

On September 25, 1992, EEA III, L.P. (Applicant) tendered for filing an amendment to its filing in this docket.

The amendment provides additional information pertaining to the ownership structure and clarifies certain technical information. No determination has been made that the submittal constitutes a complete filing.

Comment date: October 21, 1992, in accordance with Standard Paragraph E at the end of this notice.

14. Wisconsin Electric Power Co.

[Docket No. ER92-812-000]

October 2, 1992.

Take notice that on October 2, 1992, Wisconsin Electric Power Company supplemented its earlier filing in this docket by providing corrected Original Sheet No. 10.

Comment date: October 14, 1992, in accordance with Standard Paragraph E at the end of this notice.

15. Scrubgrass Generating Co., L.P.

[Docket No. QF88-406-002]

October 2, 1992.

On September 24, 1992, Scrubgrass Generating Company, L.P., c/o U.S. Generating Company, 7475 Wisconsin Avenue, Bethesda, Maryland 20814, submitted for filing an application for recertification of a facility as a qualifying small power production facility pursuant to Section 292.207 of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Kennerdall, Scrubgrass Township, Venango County, Pennsylvania. The Commission previously certified the facility as a qualifying small power production facility, Scrubgrass Power Corp., 45 FERC ¶ 62,075 (1988), and recertified the facility as a qualifying small power production facility by order dated July 26, 1991, Scrubgrass Generating Company, L.P., 56 FERC ¶ 62,062 (1991). The instant request for recertification is due to the increase in electric power production capacity and a change in the facility's ownership structure.

Comment date: November 9, 1992, in accordance with Standard Paragraph E at the end of this notice.

16. Wheelabrator Falls Inc.

[Docket No. QF86-135-002]

October 2, 1992.

On September 22, 1992, Wheelabrator Falls Inc. (Applicant), c/o Wheelabrator Environmental Systems Inc., Liberty Lane, Hampton, New Hampshire 03842, submitted for filing an application for recertification of a facility as a qualifying small power production facility pursuant to Section 292.207(b) of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in Falls Township, Bucks County, Pennsylvania. The Commission previously certified the facility as a qualifying small power production facility, Waste Management, Inc., 34 FERC ¶ 62,236 (1986). On August 16, 1989, a notice of self recertification was filed to reflect a change in ownership from Waste Management, Inc. to applicant and a change in the electrical output of the facility. The instant request for recertification is due to the addition of an electric transmission line to the facility and a decrease in the maximum net power production capacity of the facility from 60 MW to 48.1 MW.

Comment date: November 9, 1992, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24641 Filed 10-8-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. CP92-736-000, et al.]

Texas Eastern Transmission Corp., et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. Texas Eastern Transmission Corp.

[Docket No. CP92-736-000]

September 30, 1992.

Take notice that on September 28, 1992, Texas Eastern Transmission Corporation (Texas Eastern), 5400 Westheimer Court, Houston, Texas 77056-5310, filed in Docket No. CP92-736-000, a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to add a new delivery point to an existing service agreement with EnMark Gas Corporation (EnMark) at the proposed interconnection facilities with La-Nevada Transit Company (La-Nevada) under Texas Eastern's blanket certificates issued in Docket No. CP82-535-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Texas Eastern states that it proposes to install a delivery point to the service agreement covering service for EnMark under Rate Schedule IT-1. Texas

Eastern further states that the peak and average day deliveries at the point would be 5,000 DTH per day.

Texas Eastern says that the addition of the delivery point would have no effect on Texas Eastern's peak day or annual deliveries. Texas Eastern submits that its proposal would be accomplished without detriment or disadvantage to Texas Eastern's other customers.

Further, Texas Eastern states that the service it renders for EnMark would be performed pursuant to its Rate Schedule IT–1 and that Texas Eastern's existing tariff does not prohibit the additional volumes. It is indicated that the delivery point to be added would be located on Texas Eastern's 24-inch Line No. 1 at M.P.106.90 in Nevada County, Arkansas.

Comment date: November 16, 1992, in accordance with Standard Paragraph G at the end of this notice.

2. Natural Gas Pipeline Co. of America

[Docket No. CP92–740–000]

September 30, 1992.

Take notice that on September 28, 1992, Natural Gas Pipeline Company of America (Natural), 701 East 22nd Street, Lombard, Illinois 60148, filed in Docket No. CP92–740–000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to add an existing delivery point to Midwest Gas, a division of Midwest Power Systems Inc. (Midwest), an existing customer, and to reassign volumes of gas sales to that point, under Natural's blanket certificate issued in Docket No. CP82–402–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Specifically, Natural requests authorization to add a tap, presently used to deliver transportation natural gas to the City of Montezuma (Montezuma), Mahaska County, Iowa, as a sales tap to Midwest. Montezuma would receive the natural gas from Natural for Midwest's account and, pursuant to an agreement with Midwest, deliver the gas to Midwest through an existing interconnection of their facilities, it is stated. Natural states that it would deliver up to 100 Mcf of natural gas per day to Montezuma for Midwestern's account, which volume would be reassigned from Natural's certificated Oskaloosa delivery point to Midwest in Mahaska County, Iowa. Natural's delivery obligation to Montezuma would remain unchanged, it is stated. Natural asserts that no new facilities would be constructed by any party.

Natural further states that it has sufficient capacity to deliver the additional volumes of natural gas at the Montezuma delivery point.

Comment date: November 16, 1992, in accordance with Standard Paragraph G at the end of this notice.

3. Texas Eastern Transmission Corp.

[Docket No. CP92–737–000]

September 30, 1992.

Take notice that on September 28, 1992, Texas Eastern Transmission Corporation (Texas Eastern), 5400 Westheimer Court, Houston, Texas 77056–5310, filed in Docket No. CP92–737–000, a request pursuant to § § 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act to, under its blanket certificate issued in Docket No. CP82–535–000 and two new delivery points to an existing interconnection with Libra Marketing Company (Libra), all as more fully set forth in the request which is on file with the Commission and open to public inspection.

As stated by Texas Eastern, the two delivery points will be added to Libra's service covered under Texas Eastern's Rate Schedule IT–1, and the peak and average day deliveries at the points will be 40,000 DTH/d at the Hidalgo County, Texas delivery point and 100,000 DTH/d at the Nueces County, Texas delivery point.

Specifically, the delivery points would be installed on Texas Eastern's 8-inch Line No. 16–A in Hidalgo County, Texas and on Texas Eastern's 12-inch Line No. 16–I in Nueces County, Texas at an estimated cost of $119,800.

Comment date: November 16, 1992, in accordance with Standard Paragraph G at the end of this notice.

4. Northern Natural Gas Co.

[Docket No. CP92–722–000]

October 1, 1992

Take notice that on September 21, 1992, Northern Natural Gas Company (Northern), 1111 South 103rd Street, Omaha, Nebraska 68124–1000, filed in Docket No. CP92–722–000 a request pursuant to § 157.205 of the Commission's Regulations to construct and operate a new delivery point for Peoples Natural Gas Company, a Division of UtiliCorp United Inc. (Peoples) to serve Eldon Grover, an end-user in Carlton County, Minnesota under Northern's blanket certificate issued in Do. CP82–401–000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Northern proposes to construct and operate one small measuring station and appurtent facilities to provide natural gas deliveries to Peoples under Northern's CD–1 Rate Schedule to serve Eldon Grover a residential end-user located in Carlton County, Minnesota. Northern states that the estimated volumes to be delivered to Peoples is 1.5 Mcf of natural gas per day and 200 Mcf of natural gas per year. Northern states that the estimated cost to install these facilities is $1,340. The volumes to be delivered to Peoples at this delivery point would be within the currently effective entitlements for Peoples and the volumes for Eldon Gorver would be served from the total firm entitlement currently assigned to Minnesota small volume taps, it is indicated. Northern states that the establishment of this delivery point is not prohibited by Northern's existing tariff and Northern has sufficient capacity to accomplish deliveries at this new delivery point without detriment or disadvantage to Northern's other customers, it is stated.

Comment date: November 16, 1992, in accordance with Standard Paragraph G at the end of this notice.

5. Arkla Energy Resources, a Division of Arkla, Inc.

[Docket No. CP92–733–000]

Take notice that on September 25, 1992, Arkla Energy Resources (AER) a division of Arkla, Inc. P.O. Box 21734, Shreveport, Louisiana 71151, filed in Docket No. CP 92–733–000, a request pursuant to §§ 157.205, 157.211 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to construct and operate certain facilities in Arkansas under the blanket certificate issued in Docket Nos. CP82–384–000 and CP82–384–001 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

AER states that it proposes to construct and operate a new sales and to operate one existing tap for delivery of gas for resale to consumer other than the right-of-way grantor for whom the tap was originally installed, all for the delivery of gas to Arkansas Louisiana Gas Company ("ALG") for resale to domestic & commercial consumers in Arkansas. AER further states that the gas will be delivered from its general system supply, which it states is adequate to provide the service.

Comment date: November 16, 1992, in accordance with Standard Paragraph G at the end of this notice.

8. Tennessee Gas Pipeline Co.

[Docket No. CP92-738-000]

October 1, 1992.

Take notice that on September 25, 1992, Tennessee Gas Pipeline Company (Tennessee), P.O. Box 2511, Houston, Texas 77252-2511, filed in Docket No. CP92-738-000, a request pursuant to § 157.205 of the Commissions's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to construct and install a hot tap assembly to effectuate the delivery of natural gas for Chevron USA, Inc. (Chevron), a producer, under the authorization issued in Docket No. CP82-413-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Tennessee states that it was authorized on July 17, 1989, in Docket No. CP89-1511-000, Tennessee was authorized to transport on an interruptible basis up to 2,000 Dt/d equivalent of natural gas for Chevron. It is stated that the gas is transported for Chevron for gas lift purposes from receipt points located Offshore Louisiana to a platform located at Eugene Island Block 215C.

On November 14, 1989, in Docket No. CP89-1511-001, Tennessee states that it was further authorized to construct six additional Offshore Louisiana delivery points for gas lift and emergency start-up purposes and to increase the transportation quantity to 21,500 Dt/d.

Tennessee states that it was further authorized on July 7, 1990, in Docket No. CP89-1511-002, to construct 10 additional Offshore Louisiana delivery points for gas lift and emergency start-up purposes and to increase the transportation quantity from 21,500 Dt/d for Chevron to 50,000 Dt/d.

It is stated that construction of one of the 10 authorized delivery points, Ship Shoal 168D, was delayed at Chevron's request and authorization to construct that point expired on July 7, 1991. By this filing, Tennessee states that it again seeks authorization to construct and install a 2-inch hot tap at Tennessee M.P. 523M-6501+0.86 on Chevron's Ship Shoal 168D Platform, Offshore Louisiana. Tennessee estimates that the cost of this facility is $10,000, which is 100 percent reimbursable to Tennessee.

Tennessee states that the addition of the requested delivery point will have no impact on its peak day and annual deliveries.

Comment date: November 16, 1992, in accordance with Standard Paragraph G at the end of this notice.

7. Texas Eastern Transmission Corporation

[Docket No. CP92-745-000]

October 2, 1992.

Take notice that on September 30, 1992, Texas Eastern Transmission Corporation (Texas Eastern), 5400 Westheimer Court, P.O. Box 1642, Houston, Texas 77251-1642, filed in Docket No. CP92-745-000 a request pursuant to §§ 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.211) for authorization to construct and operate a new delivery point under Texas Eastern's blanket certificate issued in Docket No. CP82-535-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Texas Eastern proposes to install a new delivery point for delivery of natural gas to Libra Marketing Company (Libra) under an existing service agreement covering service under Texas Eastern's Rate Schedule IT-1. Texas Eastern states that it would install a 16-inch hot tap at M.P. 140.17 on its 30-inch Line No. 16 in San Patricio County, Texas. It is stated that a single 6-inch and a dual 8-inch meter station would also be installed. It is further stated that the peak and average day deliveries would be 100,000 dekatherms equivalent per day, corresponding to the Maximum Daily Delivery Obligation. Texas Eastern advises that Libra would resell the gas to Central Power & Light Company. Texas Eastern states that Libra would reimburse it for the cost of the facilities, estimated to be $49,500.

Comment date: November 16, 1992, in accordance with Standard Paragraph G at the end of this notice.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24642 Filed 10-8-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TQ93-1-63-000, TM93-1-63-000]

Carnegie Natural Gas Company; Proposed Changes in FERC Gas Tariff

October 5, 1992.

Take notice that on September 30, 1992, Carnegie Natural Gas Company ("Carnegie") tendered for filing the following revised tariff sheets to its FERC Gas Tariff, Second Revised Volume No. 1:

Thirty-Fifth Revised Sheet No. 8
Thirty-Fifth Revised Sheet No. 9
Fifth Revised Sheet No. 10
Third Revised Sheet No. 23

Carnegie states that pursuant to sections 23, 24 and 26 of the General Terms and Conditions of its FERC Gas Tariff, it is filing a combined Out-of-Cycle Purchased Gas Adjustment ("PGA"), Annual Charge Adjustment ("ACA"), and Transportation Cost Adjustment ("TCA") to reflect updated projections affecting the average commodity cost of purchased gas to be incurred by Carnegie on and after October 1, 1992. Carnegie states that the primary purpose of its filing is to accurately state the average commodity cost of gas on Carnegie's tariff sheets so that the negotiated sales rates agreed upon between Carnegie and its customers for interruptible sales service on and after October 1, 1992, will be in compliance with the rate conditions imposed by the Commission in issuing the SEGSS certificate and footnote 2 of Revised Tariff Sheet No. 9.

The revised rates are proposed to become effective October 1, 1992, and reflect the following changes from Carnegie's last regular PGA filing in Docket No. TA92-1-63-000, *et al.*: a $0.9575 per dth decrease in the demand rate, a $0.9464 per dth increase in the commodity rate, and a 0.0315 per dth decrease in the DCA rate of its CDS and LVWS rate schedules; a $0.9150 per dth increase in the maximum commodity rate and a $0.9464 per dth in the minimum commodity rate under Rate Schedule SEGSS. The revised tariff sheets also reflect a decrease in the TCA charge of $0.0196 per dth, from $0.0929 per dth to $0.0731 per dth. The above tariff sheets also reflect a decrease in the ACA charge from $0.0023 per dth to $0.0022 per dth.

Carnegie states that copies of its filing were served on all jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TM93-5-21-000]

Columbia Gas Transmission Corp.; Proposed Changes in FERC Gas Tariff

October 5, 1992.

Take notice that Columbia Gas Transmission Corporation (Columbia) on September 30, 1992 tendered for filing proposed changes to its FERC Gas Tariff, First Revised Volume No. 1.

To Be Effective November 1, 1992

Ninth Revised Sheet Nos. 30A01-30A05
Fifth Revised Sheet Nos. 30A06
Fourth Revised Sheet No. 30A07
Third Revised Sheet No. 30A08
Third Revised Sheet No. 30A09

By this filing, Columbia proposes to revise the allocation to its customers of the fixed monthly demand surcharges applicable to Transcontinental Gas Pipe Line Corporation's Docket Nos. RP88-68 and RP91-147 to be flowed through from November 1, 1992 to November 1, 1993. The revised allocation is being filed pursuant to Section 25, of the General Terms and Conditions of Columbia's FERC Gas Tariff, First Revised Volume No. 1, which states, in part, that periodic adjustments will be made annually at November 1 of each year reflecting the then current daily Total Firm Entitlements. The allocation proposed herein reflects the Total Firm Entitlements under Rate Schedules CDS, SGS, WS, FSS, FTS and OPT in effect for each customer at November 1, 1992. No change in the total level of Transco costs to be flowed through is proposed.

On August 20, 1992, Columbia advised the Commission that in light of the July 6, 1992 decision of the United States District Court for the District of Delaware precluding Columbia from flowing through refunds relating to prepetition periods and making payments to pipeline suppliers for charges relating to prepetition periods, it was suspending all prepetition Order No. 528 payments and all Order No. 528 billing adjustments to its customers. Accordingly, while Columbia is making this filing in compliance with its tariff, it is not seeking to collect any amounts reflected in this filing, pending the outcome of the appeals of the July 6, 1992 Court order.

Columbia states that copies of the filing were mailed to jurisdictional customers, interested state commissions, and upon each person designated on the official service list compiled by the Commission's Secretary in Docket Nos. RP88-187, *et al.*, and RP91-41, *et al.*

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, Union Center Plaza Building, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24643 Filed 10-8-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TM93-4-21-000]

Columbia Gas Transmission Corp.; Proposed Changes in FERC Gas Tariff

October 5, 1992.

Take notice that on September 30, 1992, Columbia Gas Transmission Corporation (Columbia) tendered for filing the following proposed changes to its FERC Gas Tariff, First Revised Volume No. 1:

Seventeenth Revised Sheet No. 26.1
Seventeenth Revised Sheet No. 26A.1
Twenty-second Revised Sheet No. 26C
Fourteenth Revised Sheet No. 26D

The foregoing revised tariff sheets bear an issue date of September 30, 1992, and a proposed effective date of November 1, 1992.

Columbia states that § 26.3 of the General Terms and Conditions of Columbia's FERC Gas Tariff, First Revised Volume No. 1, requires Columbia at the end of each 12 month billing period commencing August 1, 1988, to recalculate the volumetric surcharge to reflect revisions for the actual FERC published interest rates during such 12 month period. This instant filing is said to be made to reconcile the period August 1, 1991 through July 31, 1992. The adjusted volumetric surcharge is 4.00¢ per Dth, which is a 0.14¢ reduction to the current surcharge.

Columbia states that copies of the filing were served on wholesale customers, interested state commissions and to each of the parties set forth on the Official Service List in the consolidated proceedings.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, Union Center Plaza Building, 825 North Capitol Street, NW., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of Columbia Transmission's filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. OR92-8-000]

El Paso Refinery, L.P. v. SFPP, L.P.; Complaint

October 5, 1992.

Take notice that on September 4, 1992, pursuant to section 13(l) of the Interstate Commerce Act (ICA) (49 App. U.S.C. 13(l) (1988)), El Paso Refinery, L.P. (El Paso) filed a complaint alleging that SFPP, L.P. has engaged in unduly discriminatory and unreasonably preferential practices affecting the transportation service provided by SFPP, L.P. to El Paso. El Paso seeks relief from the Commission under section 15(l) of the ICA (49 App. U.S.C. 15(l) (1988)).

directing SFPP, L.P. to cease and desist the reversal of the direction of flow of all lines in SFPP, L.P.'s "East Line" system from Phoenix to Tucson.

Further, El Paso alleges that SFPP, L.P.'s rates do not reflect the increased throughput that will result from the East Line facility expansion. Accordingly, El Paso requests that the Commission exercise its authority under ICA section 15(l) to implement rates for product deliveries on the East Line that will accurately reflect the present realities of the system.

Any person desiring to be heard or to protest said complaint should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211). All such motions or protests should be filed on or before November 4, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. Answers to this complaint shall be due on or before November 4, 1992.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. FA91-23-001]

Pipeline Rates: Hearing, Accounting and Florida Gas Transmission Co.; Order Establishing Hearing Procedures

Issued October 5, 1992.

On July 4, 1992, the Chief Accountant issued a contested audit report [1] under delegated authority noting Florida Gas Transmission Company's (Florida Gas) disagreement with the recommendation of the Division of Audits with respect to Exception No. 1, in Part I of the report. Florida Gas was requested to advise whether it would agree to the disposition of the contested matters under the shortened procedures provided for by Part 158 of the Commission's Regulations. 18 CFR 158.1, *et seq.*

On August 13, 1992, Florida Gas responded that it did not consent to the shortened procedures. Section 158.7 of the Commission's Regulations provides that in case consent to the shortened procedures is not given, the proceeding will be assigned for hearing. Accordingly, the Secretary, under authority delegated by the Commission, will set these matters for hearing.

Any interested person seeking to participate in this docket shall file a protest or a motion to intervene pursuant to Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) no later than 15 days after the date of publication of this order in the **Federal Register.**

It is ordered:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the Department of Energy Organization Act, the provisions of the Natural Gas Act, particularly sections 4, 5 and 8 thereof, and pursuant to the Commission's Rules of Practice and Procedure (18 CFR, Chapter I), a public hearing shall be held concerning the appropriateness of Florida Gas' accounting practices as discussed in the audit report.

(B) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge, shall convene a prehearing conference in this proceeding, to be held within 45 days of the date of this order, in a hearing room of the Federal Energy Regulatory Commission, 810 First Street NE., Washington, DC 20426. The Presiding Judge is authorized to establish procedural dates and to rule on all motions (except motions to dismiss) as provided in the Commission's Rules of Practice and Procedure.

(C) This order shall be promptly published in the **Federal Register.**

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TQ93-2-46-000]

Kentucky West Virginia Gas Co., Proposed Change in FERC Gas Tariff

October 5, 1992.

Take notice that Kentucky West Virginia Gas Company (Kentucky West) on October 1, 1992, tendered for filing with the Federal Energy Regulatory Commission (Commission) a Quarterly PGA filing, which includes Forty-First Revised Sheet No. 41 to its FERC Gas Tariff, Second Revised Volume No. 1, to become effective November 1, 1992. The revised tariff sheet reflects a current increase of $0.0012 per Dth in the average cost of purchased gas resulting in a Weighted Average Cost of Gas of $2.1601 per Dth.

Kentucky West states that effective November 1, 1992, pursuant to its obligations under various gas purchase contracts, it has specified a total price of $2.1700 per Dth, inclusive of all taxes and any other production-related cost add-ons, that it would pay under these contracts.

Kentucky West states that, by its filing, or any request or statement made therein, it does not waive any rights to collect amounts, nor the right to collect carrying charges applicable thereto, to which it is entitled pursuant to the mandate of the United States Court of Appeals for the Fifth Circuit issued on March 6, 1986, in *Kentucky West Virginia Gas Co.* v. *FERC*, 780 F.2d 1231 (5th Cir. 1986), or to which it is or becomes entitled pursuant to any other judicial and/or administrative decisions.

Kentucky West states that a copy of its filing has been served upon each of its jurisdictional customers and interested state commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with §§ 385.211 and 385.214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP93-4-000]

Mississippi River Transmission Corporation; Proposed Changes in FERC Gas Tariff

October 5, 1992.

Take notice that on October 1, 1992, Mississippi River Transmission Corporation (MRT) filed pursuant to section 4 of the Natural Gas Act (NGA) and the Regulations of the Federal Energy Regulatory Commission

---

[1] 60 FERC ¶ 62,013 (1992).

(Commission) thereunder changes in its FERC Gas Tariff which are proposed to become effective November 1, 1992, all as more fully described in its rate increase application which is on file and available for public inspection.

MRT states that the rates proposed by its filing reflect a relative modest increase in its jurisdictional sales and transportation revenues of approximately $6.9 million annually. MRT states that principal reasons for this increase include recent increases in the costs of transportation of gas by others, increased depreciation expense associated with additional capital expenditures, increased levels of various operating and maintenance and general and administrative costs, and an increased rate of return commensurate with the increased risk of operating in increasingly competitive and volatile natural gas markets. The filing further reflects updated system throughput and utilization of the straight fixed variable method of cost classification in allocating costs and designing the proposed rates.

MRT notes that the rates proposed in its filing may be in effect for only a short period before being superseded by rates filed in compliance with restructuring obligations under Commission Order Nos. 636 and 636–A (in this regard, MRT notes that it has proposed a May 1, 1993 effective date for its restructured rates and services in its restructuring proceeding at Docket No. RS92–43–000). Thus, MRT states that this filing should serve, in part, as a transitional vehicle in its movement toward implementation of the system restructuring required by Order No. 636.

MRT states that copies of the rate filing were served upon interested state agencies, MRT sales customers, firm shippers, and interruptible shippers intervening in either MRT's last general rate proceeding at Docket No. RP89–248–000 or in its current restructuring proceeding at Docket No. RS92–43–000. Copies of a summary form of the filing were served upon remaining interruptible shippers.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with §§ 385.211 and 385.214 of the Commission's Rules of Practice and Procedure: 18 CFR 385.211 and 385.214. All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of MRT's filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[Docket No. RP92–73–000]

National Fuel Gas Supply Corp.; Informal Settlement Conference

October 2, 1992.

Take notice that an informal settlement conference will be convened in this proceeding at 11 a.m. on Thursday, October 15, 1992. The conference will be held at the offices of the Federal Energy Regulatory Commission, 810 First Street NE., Washington, DC, for the purpose of exploring the possible settlement of the above-captioned proceeding.

Any party, as defined by 18 CFR 385.102(c), or any participant as defined in 18 CFR 385.102(b), is invited to attend. Persons wishing to become a party must move to intervene and receive intervenor status pursuant to the Commission's regulations (18 CFR 385.214).

For additional information, contact Joanne Leveque at (202) 208–5705 or Warren Wood at (202) 208–2091.

BILLING CODE 6717–01–M

[Docket No. ER92–286–001]

New England Power Co.; Order Granting Rehearing and Announcing Additional 30-Day Amnesty Period for the Filing of Service Agreements

Issued October 5, 1992.

On July 2, 1992, New England Power Company (New England Power) filed a request for rehearing of the Commission's order issued in this proceeding on June 2 1992. New England Power Company, 59 FERC ¶ 61,253 (1992) (June 2 Order). New England Power seeks rehearing of the Commisson's decision in the June 2 Order to accept four of six proposed service agreements filed by New England Power on the condition that the company revise the rates charged under the agreements and refund excess amounts to its customers.

As explained below, we grant New England Power's request for rehearing and, accordingly, remove the refund obligation ordered in the June 2 Order. We take this opportunity to announce to the industry the adoption of an additional 30-day amnesty period in which to file service agreements governing jurisdictional service under tariffs of general applicability that have been approved or accepted under existing Commission regulations. We adopt this additional amnesty period in this limited context in an effort to clarify uncertainty created by the issuance and subsequent implementation of our policy concerning the timing of electric rate filings articulated in Central Maine Power Company [1] with respect to this limited category of rate filings.

Background

On January 27, 1992, as completed on April 3, 1992, New England Power filed with the Commission six service agreements under its short-term power sales tariff. That tariff, designated FERC Electric Tariff, Original Volume No. 5, was accepted for filing in 1988. By filing the service agreements, New England Power sought Commission authorization to serve new customers under the tariff.

New England Power requested waiver of the 60-day prior notice requirement, see 16 U.S.C. 824d(c) (1988); 18 CFR 35.3(a) (1992), for all six of the service agreements. The June 2 order noted that service under four of the filed agreements [2] was either on-going or had terminated at the time of New England Power's original filing. New England's request for rehearing concerns these four agreements.

In June 2 Order, the Commission accepted the rates in the four agreements for filing without suspension or hearing. However, the Commission found that with respect to the four agreements, New England Power had not demonstrated good cause for waiver of the prior notice requirement or for waiver of the Commission 's policy regarding late-filed agreements articulated in Central Maine.

In Central Maine, the Commission issued a policy statement governing its implementation of the 60-day prior notice requirement. The Commission stated that utilities providing jurisdictional service without agreements on file must submit rate for such pre-existing service within a certain period of time (amnesty window). The amnesty window ended

---

[1] 56 FERC ¶ 61,200, *reh'g denied*, 57 FERC ¶ 61,083 (1991) (*Central Maine*).

[2] The agreements are with Niagara Mohawk Power Corporation, UNITIL Power Corporation, Hudson Light & Power Department (Hudson), and Long Island Lighting Company (LILCO).

on October 7, 1991, 60 days after publication of the Central Maine order in the **Federal Register**. The Commission stated that utilities filing rates outside of the amnesty window for pre-existing unauthorized service would be limited by the Commission to rates which would recover only contributions to such utilities' variable operation and maintenance (O&M) costs.[3]

Therefore, consistent with Central Maine, the Commission directed New England Power to revise its rates under the four late-filed service agreements for service provided prior to the date of issuance of the June 2 Order to a level reflecting New England Power's variable O&M costs. The Commission also directed New England Power to make refunds to reflect the revised rates.

On rehearing, New England Power argues that the Commission should open an additional amnesty window. New England Power argues that this additional amnesty window should be applciable to each of the four late-filed service agreements, *i.e.*, to filings of new service agreements under an existing tariff. In support, New England Power argues that, prior to clarification by the Commission, the Commission's policy was unclear as to whether the Central Maine policy applied to the filing of service agreements for new customers negotiated under the terms of an existing tariff. New England Power states that it reasonably interpreted the initial Central Maine order as not applying to service agreements for new customers negotiated pursuant to an existing tariff. New England Power argue (Request for Rehearing at 3) that the Commission's policy regarding the need to file such service agreements was not clarified until the Commission issued its decision in Mississippi Power Company, 58 FERC ¶ 61,286 (1992) (Mississippi Power). In this regard, New England Power argues that the Commission did not issue Mississippi Power until after service commenced under the four agreements, as well as after New England Power tendered its January 27, 1992 filing. Under these circumstances, New England Power argues that the Commission should create a brief amnesty period during which the Central Maine policy would not apply to utilities filing service agreements for new customers which are negotiated pursuant to an existing tariff.

In addition, New England Power argues that the Commission's actions in the June 2 Order were improper because the refunds ordered by the Commission constitute retroactive ratemaking and violate the file rate doctrine. New England Power also argues that the refunds ordered are unduly harsh and constitute an improper penalty outside the scope of the Commission's remedial authority under the Federal Power Act (FPA). Finally, New England Power argues that the Commission erred in calculating the length of the refund period and the amount of its refund obligation.

[3] See 58 FERC at 61,619.

Discussion

This is the fourth time since issuance of our Central Maine policy that we have addressed the filing of service agreements implementing jurisdictional service to particular customers under existing tariffs.[4] In our earlier rulings on this issue, we have explained that we consistently have required that utilities file service agreements for new customers which are negotiated pursuant to an existing tariff.[5] Our consistent policy for electric utilities has been that the filing of service agreements under previously-filed tariffs must be made in advance of the commencement of tariff service under the agreements.[6]

We further have explained in our earlier orders that the requirement of prior filing of service agreements is not a new requirement that originated at the time of issuance of our Central Maine policy. Nevertheless, we conclude from New England Power's filings and related filings that the Commission's initial order in Central Maine was not clear as to the applicability of the 60-day amnesty period announced in Central Maine (and which ended on October 7, 1991) to the filing of service agreements under general tariffs. According to New England Power, the Central Maine language that created the ambiguity is as follows:

> We are aware of the argument that, due to the need to respond quickly to market changes and opportunities for coordination, in some cases transactions must begin before the utility has a chance to file the rate reflecting the transaction with the Commission. While this argument has some merit, we note that many utilities have managed to avoid this problem by having tariffs on file that permit transactions to be negotiated subject to a cap of 100-percent contribution to fixed costs. * * * Such tariffs give the selling utility the flexibility to respond to market opportunities while satisfying its obligation to have its rates on file.[7]

Because the above language did not explicitly refer to service agreements and may have created uncertainty for the industry, we will accept New England Power's recommendation to offer public utilities one final chance in which to file for our consideration service agreements under general tariffs without risking Central Maine-type refunds for late filing.

Specifically, we will afford utilities 30 additional days, calculated from the date of publication of this order in the **Federal Register**, to file with the Commission any now-unfiled service agreements under which jurisdictional service already has commenced under generally-applicable tariffs. Utilities filing such service agreements after the close of this additional amnesty window will be limited by the Commission to rates which would recover (at most) only contributions to such utilities' variable operation and maintenance (O&M) costs.

Because New England Power already has filed service agreements governing service to Niagara Mohawk, UNITIL, Hudson, and LILCO under its short-term power sales tariff, and because the Commission has accepted those agreements for filing without suspension or hearing, there is no need to revise the rates for service provided under those four agreements. In other words, we no longer direct New England Power to revise its rates for service to the four wholesale customers prior to the date of issuance of the June 2 Order to a level reflecting its variable O&M costs. Accordingly, we no longer direct New England Power to refund (with interest) that portion of its rates that exceeds variable O&M costs incurred from the date of commencement of service under the four service agreements at issue until June 2, 1992.

In granting New England Power's request for rehearing, we wish to make clear that the 30-day extension of the Central Maine amnesty period announced herein applies only to the filing of service agreements pursuant to

[4] The first and second times we addressed this issue was in Mississippi Power and in the June 2 Order. The third time we addressed this issue was in our recent order in Central Power & Light Company, *et al.*, 60 FERC ¶_____ (Aug. 28, 1992). In a separate order issued today in Mississippi Power (Docket No. ER92-122-002), we grant rehearing for the same reasons we grant rehearing in the instant order. See 61 FERC ¶_____ (1992). We expect to issue a supplemental order in Central Power & Light in the near future that is consistent with this order.

[5] See Mississippi Power, 58 FERC at 61,897 (citing Boston Edison Company 25 FERC ¶ 61,157 (1983), *reh'g denied*, 26 FERC ¶ 61,124 (1984); Municipal Electric Utilities Association of Alabama v. FPC, 485 F.2d 987 (D.C. Cir. 1973)).

[6] See Central Hudson Gas & Electric Corp., *et al.*, 60 FERC ¶ 61,106 (1992) (articulating grounds for good cause waiver in the event of filing less than 60 days in advance of service), *reh'g pending*.

[7] 58 FERC at 61,818-19.

the tariffs of general applicability that have been approved or accepted under existing Commission regulations. As explained above, we base this decision on the ambiguous language in the initial Central Maine order concerning these types of tariffs.

Because we grant rehearing on the first of New England Power's arguments in favor of rehearing, we have no need to address any of its remaining arguments.

The Commission Orders:

(A) New England Power's request for rehearing is hereby granted.

(B) The Secretary shall promptly publish a copy of this order in the Federal Register.

By the Commission.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24640 Filed 10-8-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. IN90-1-001, CP89-304-000, and CP89-305-000]

Northwest Pipeline Corp., et al.; Order Setting Matter for Expedited Hearing

Issued October 5, 1992.

I

On October 6, 1989, the Commission issued an "Order to Show Cause and Institution of Formal Investigation." [1] The order directed the Enforcement Section, Office of the General Counsel (Enforcement), to investigate certain activities of Northwest Pipeline Corporation (Northwest) in connection with its assignment of gas purchase contracts to its marketing affiliate, Williams Gas Supply Company (WGS). WGS subsequently sold gas produced under the assigned contracts to Williams Gas Marketing Company (WGM), another marketing affiliate of Northwest, for resale in the interstate market. The order also directed Northwest to show cause (1) why its activities had not violated the Natural Gas Act (NGA), 15 U.S.C. 717 et seq. (1988), the Natural Gas Policy Act of 1978 (NGPA), 15 U.S.C. 3301 et seq. (1988), and the Commission's regulations thereunder, and (2) why the Commission should not impose appropriate remedies and assess a civil penalty. In addition, the order consolidated the investigative docket, IN90-1-000, with the proceedings in Docket Nos. CP89-304-000 and CP89-305-000. In these proceedings, Fina Oil and Chemical Company had protested Northwest's transportation under Northwest's open-access blanket certificate of some gas WGS purchased under the assigned contracts.[2]

Enforcement has completed its investigation under the Commission's Rules Relating to Investigations, 18 CFR part 1b (1992), and has reported to the Commission that Northwest, WGS and WGM may have engaged in and may be engaging in practices that violate the NGA, the NGPA, and the Commission's regulations thereunder. The facts alleged in Section II of this order describe the acts and practices that are the subject of this proceeding.

II

As a result of the investigation, the following information has been alleged to the Commission:

Corporate Affiliations

1. The Williams Companies, Inc. (Williams) is a parent company for corporations that engage in the marketing and transportation of natural gas.

2. Williams is the parent of and controls, among others, Williams Western Group (previously Northwest Energy Company, both hereinafter referred to as "WWG") and Williams Energy Company (previously Williams Gas Marketing Group, Inc. and Williams Gas Marketing Group, all of which are hereinafter referred to as "WGM Group").

3. WWG is the parent of and controls Northwest.

4. Since July 1, 1988, WGM Group has controlled several corporations engaging in the marketing (i.e., the purchase and sale) of natural gas, including WGM.

5. Prior to September 23, 1988, WWG was the parent of Northwest Marketing Company (Northwest Marketing), a marketing affiliate of Northwest.

6. On September 23, 1988, control of Northwest Marketing was transferred from WWG and WGM Group and Northwest Marketing was renamed Williams Gas Supply Company (WGS).

7. After that date, WGM Group controlled WGS and WGS engaged in the marketing (i.e., the purchase and sale) of gas.

Operations

8. Northwest operates a 7,000-mile gas gathering and interstate transmission facility that extends from the gas-producing areas of the San Juan Basin in northwestern New Mexico and southwestern Colorado through the states of Colorado, Utah, Wyoming, Idaho, Oregon and Washington, where Northwest interconnects with the facilities of Westcoast Energy, Inc., at the border of the United States and Canada. Effective July 1, 1991, Williams Field Services Company, an affiliate of Northwest, has operated Northwest's gathering and processing facilities for Northwest pursuant to an operating agreement.

9. Since September 30, 1987, WGS (or its predecessor-in-interest Northwest Marketing) and WGM have held blanket sales certificates issued by the Commission in Docket Nos. CI87-734 and CI87-738, respectively. These sales certificates allow WGS and WGM to sell gas (a) that is "committed or dedicated to interstate commerce," as defined in section 2(19) of the NGPA, 15 U.S.C. 3301(18) (1988), and therefore subject to the Commission's jurisdiction under the NGA, 15 U.S.C. 717f (1988) (such gas is referred to herein as "NGA gas"), and (b) that is not dedicated to any particular purchaser.

10. During May 1988, WGM and the WGM Group began marketing gas within the area served by Northwest's system.

11. Effective July 1, 1988, Northwest began providing "open-access" transportation under its blanket transportation certificate and part 284 of the Commission's regulations, 18 CFR part 284 (1992) (part 284 transportation).

12. As permitted by Northwest's blanket certificate, Northwest's sales customers converted approximately 62 percent and 78 percent of their firm sales entitlements to firm transportation entitlements as of July 1, 1988, and October 1, 1988, respectively.

Transfer of the Gas

13. As a result of the conversions described in ¶ 12 above, Northwest no longer needed all of its gas reserves for sale to its customers.

14. During a period including July 17, 1988, through September 30, 1988, representatives of Williams and Northwest discussed assigning Northwest's rights and obligations under some of Northwest's gas purchase contracts to a Northwest affiliate. Representatives of WGM Group and WGM participated in some of these discussions.

15. During a period including September 12, 1988 through November 8, 1988, representatives of Northwest, WGM Group and WGM discussed assigning many of Northwest's gas

---

[1] 49 FERC ¶ 61,023 (1989).

[2] On September 30, 1992, Fina filed a withdrawal of its protests in Docket Nos. CP89-304-000 and CP89-305-000. Pursuant to Rule 216(b) of the Commission's Rules of Practice and Procedure, 18 CFR 385.216(b) (1992), the Commission will allow the withdrawal of Fina's protests unless a motion in opposition to the withdrawal is filed by October 15, 1992.

purchase contracts to a company under the control of WGM Group and/or discussed administering those contracts.

16. During the discussions described in ¶¶ 14 and 15, Northwest provided Williams, WGM Group and/or WGM substantial information regarding the contracts being considered for assignment and the wells subject to those contracts.

17. During the discussions described in ¶¶ 14 and 15, Northwest's representatives discussed with representatives of WGM Group and/or WGM (a) the criteria for selecting the gas purchase contracts that would be assigned, (b) obligations under the contracts, and (c) the respective obligations, following the assignment, of WGM, Northwest, and the assignee.

18. During a period including July 17, 1988 through October 15, 1988, Northwest did not provide the information described in ¶¶ 14 and 17 to any other shipper or potential shipper on its system.

19. On September 30, 1988, Northwest and WGS executed an agreement purporting to assign from Northwest to WGS the gas purchase contracts to which ¶¶ 14–17 above refer.

20. On September 30, 1988, Northwest sent out two types of form letters to producers with which Northwest had gas purchase contracts. One form letter (Letter A) notified producers that Northwest had assigned its contracts with them to WGS. Letter A indicated that if the producer preferred to terminate the contract rather than to sell to WGS, the producer should notify Northwest by October 14, 1988. Northwest sent Letter A to approximately 200 producers that were parties to 564 gas purchase contracts (Letter A contracts).

21. Northwest sent another September 30, 1988 form letter (Letter B) to approximately 50 producers that were parties to 73 gas purchase contracts that Northwest had not assigned (Letter B contracts). Letter B stated that Northwest would terminate each such contract by November 1, 1988 unless the producer agreed to (a) modify the contract to provide that Northwest would be responsible for taking gas only on a "best efforts" basis, or (b) permit Northwest to assign the contract to WGS. Letter B stated that WGS would contact each producer within several days about Letter B contracts Northwest proposed to terminate.

22. On or about September 30, 1988, Northwest provided WGS copies of Letters A and B and a list of all Letter A and Letter B contracts. Northwest did not provide these documents to any other shipper or potential shipper on Northwest's system at the time it provided them to WGS.

23. In order to introduce the WGM Group, answer questions about how WGS would purchase the assigned gas, and persuade any undecided producers to agree to the assignment prior to the October 14, 1988 deadline described in ¶ 20, WGS and WGM corresponded and met during the first half of October 1988 with producers which had received Letter A. During this period, no other shipper or potential shipper on Northwest's system gained access to the list of assigned contracts or was present during meetings or communications among WGS, WGM and producers with respect to the assigned contracts.

24. During and after the communications described in ¶ 23, Northwest and certain producers agreed to terminate approximately 60 Letter A contracts.

25. Northwest did not enter into a termination agreement with respect to a Letter A contract unless the producer surrendered all contractual rights under the contract, including any claims under take-or-pay provisions of the contract.

26. Discussions between producer parties to Letter B contracts and Northwest led to the assignment, at the producers' request, of 13 Letter B contracts from Northwest to WGS.

Gathering and Transportation of the Assigned Gas

27. Until July 1, 1991, Northwest owned and operated a gathering system that connects the wells producing gas subject to the assigned contracts to Northwest's main transportation line or to the transportation lines of other interstate pipelines. Effective July 1, 1991, Williams Field Services Company has operated the gathering system as contract operator for Northwest.

28. Gas produced from the vast majority of wells subject to the assigned contracts cannot be transported to market on mainline facilities unless Northwest provides gathering from the wellhead to interconnections with main transportation pipelines.

29. On September 22, 1988, WGS sent Northwest a request for gathering service. Attached to the request was a computer printout that Northwest had provided WGM Group on or about September 15, 1988 and that listed proposed receipt points. This printout listed the wells subject to contracts that Northwest proposed to assign.

30. On or about October 27, 1988, Northwest and WGM executed four contracts, numbered J–35 through J–38, to provide gathering service on Northwest's gathering system from the wells subject to assigned contracts to interconnections on the mainlines of Northwest and other pipelines. Each contract had an effective date of September 26, 1988.

31. Northwest began gathering the assigned gas for WGM under the J–36, J–37 and J–38 contracts on the following dates, all in 1988:

J–36—October 1
J–37—October 1
J–38—October 14

32. Northwest began gathering the assigned gas for WGM under the J–35 contract on December 2, 1988.

33. On September 30, 1988, Northwest's agreements to provide gathering services to shippers other than WGM applied to only a few wells subject to the assigned contracts.

34. After September 30, 1988, it was Northwest's policy not to provide gathering service for gas produced by wells subject to an assigned contract for a shipper other than WGM unless: (a) The producer agreed to terminate the assigned contract by giving up all contractual rights, including rights under take-or-pay provisions; or (b) WGS unilaterally released gas produced under the assigned contract.

35. As a result of Northwest's implementation of its gathering service after September 30, 1988, prospective shippers of assigned gas could not obtain access to the mainline systems of Northwest or any other interstate pipeline unless: (a) WGM was the shipper of the gas under the J–35 through J–38 gathering contracts; (b) the producer agreed to terminate the assigned contract by giving up all contractual rights, including rights under take-or-pay provisions: or (c) WGS in its unilateral discretion released gas produced under the assigned contract.

Marketing the Assigned Gas

36. Effective October 1, 1988, WGS and WGM executed a contract under which WGM agreed to purchase from WGS gas subject to the assigned contracts.

37. On or about November 1, 1988, WGS and WGM executed a contract under which WGM became the exclusive agent for marketing the assigned gas.

38. Since October 1, 1988:

(a) WGS has purchased assigned gas, at prices determined by WGS, and resold the gas to WGM; and

(b) WGM has primarily sold the gas to marketers or to customers located on gas transmission systems of Northwest and of El Paso Natural Gas Company (El Paso), an interstate pipeline transporting and selling gas in the State of California.

39. During the period between October 1 and December 28, 1988, WGM and WGM Group contacted potential customers on Northwest's and El Paso's transmission systems to advise them of the advantages of purchasing the augmented gas supply made available to WGM as a result of the assignments.

Administration of the Assigned Contracts

40. From or before November 1, 1988, through or on about March 26, 1990, Northwest detailed up to 31 employees to WGS for the purpose of assisting WGS in administration of the assigned contracts.

III

The Commission neither makes findings of fact nor reaches conclusions of law with regard to Northwest's alleged acts and practices. However, the allegations set forth in Section II of this order, if true, indicate that Northwest, WGS, and WGM may have committed the following violations:

A. By taking actions that served to transfer the assigned gas from Northwest to WGS and WGM, as described in ¶¶ 14–23, 25–26, 29–31, 34–35 and 40, Northwest may have violated and/or may be violating:

1. Section 4(b) of the NGA, 15 U.S.C. 717c(b) (1988), in that Northwest may have provided and may be providing WGS and WGM undue preferences with respect to jurisdictional sales by WGS and WGM and jurisdictional transportation;

2. Section 5(b) of the NGA in that Northwest may have subjected and may be subjecting its jurisdictional sales customers to an undue prejudice or disadvantage by assigning the gas at issue to WGS rather than selling such gas to them;

3. Standard C of the Commission's Standards of Conduct, 18 CFR 161.3(c), in that Northwest may have provided and may be providing WGS and WGM undue preferences in and relating to transportation;

4. Standard F of the Standards of Conduct, 18 CFR 161.3(f), in that Northwest may have provided to its marketing affiliates information related to transportation of natural gas without contemporaneously providing that information to other potential shippers on Northwest's pipeline;[3]

5. Sections 284.8 and 284.9 of the Commission's regulations, 18 CFR 284.8 and 284.9 (1992), in that (a) Northwest's unduly discriminatory gathering of assigned gas for transportation on its mainline may have been and may be equivalent to failing to offer and provide part 284 transportation on that mainline without undue discrimination and (b) that Northwest's unduly discriminatory transfer of the assigned gas may have otherwise rendered Northwest's mainline transportation of that gas unduly discriminatory;

6. Section 7(c) of the NGA, 15 U.S.C. 717f(c) (1988), in that Northwest's violations of §§ 284.8 and 284.9 of the Commission's regulations may have violated and may be violating Northwest's blanket certificate;

7. Section 311(a)(1) and 504(a)(2) of the NGPA, 15 U.S.C. 3371(a)(1), 3414(a)(2) (1988), to the extent that Northwest violated §§ 284.8 or 284.9 as described in ¶ A.5 above with respect to transportation Northwest provided under purported authority of section 311(a)(1); and

8. Standard G of the Commission's Standards, 18 CFR 161.3(g), in that Northwest may have failed to separate its operating employees from those of its marketing affiliate, WGS, to the maximum extent practicable.

B. Northwest, WGS and WGM may be properly treated as a single entity with respect to WGS's and WGM's sales of the assigned gas. If they are so treated, the sales of the assigned gas by WGS and WGM may be properly imputed to Northwest and, therefore, may have violated and may be violating:

1. Section 4(d) of the NGA, 15 U.S.C. 717c(d) (1988), in that Northwest has sold and is selling the gas at rates below its filed rates; and

2. Section 7(c) of the NGA in that Northwest has sold and is selling the gas to customers other than those on the Northwest system without certificate authority.

The issues to be addressed in the hearing and briefs in this proceeding are whether Northwest, WGS and WGM violated and are violating the foregoing provisions, or any other laws and regulations under the Commission's jurisdiction, as a result of the acts and practices described in Section II of this order and if so, what remedies should be imposed.

The Commission Finds

Good cause exists for the Commission to determine whether Northwest, WGS, and WGM violated and are violating the foregoing provisions or any other laws or regulations that the Commission administers, as a result of the acts and practices which are described in this order. Good cause also exists for the Commission to determine whether appropriate remedies should be imposed for any violations that the Commission determines have occurred or are occurring.

The Commission Orders

(A) Pursuant to Rule 501 of the Commission's Rules of Practice and Procedure (Commission's Rules), 18 CFR 385.501 (1992), this matter is hereby set for hearing.

(B) Northwest, WGS, and WGM shall file answers to this order pursuant to Rule 213 of the Commission's Rules, 18 CFR 385.213 (1992), within 30 days from the date of this order. In their answers, the respondents shall admit or deny, specifically and in detail, each allegation set forth in Section II of this order, and shall set forth every defense relied on. If an allegation is only partially accurate, each respondent shall specify that part of the allegation it admits and that part of the allegation it denies.

(C) Pursuant to sections 14, 15 and 16 of the NGA, 15 U.S.C. 717m, 717n, 717o (1988), sections 501 and 502 of the NGPA, 15 U.S.C. 3411, 3412 (1988), and Rule 601 of the Commission's Rules, 18 CFR 385.601 (1992), a prehearing conference shall be convened in this proceeding in a hearing room of the Federal Energy Regulatory Commission, 810 First Street NW., Washington, DC 20426, within 15 days after the filing of the answers pursuant to paragraph (B) of this order. Participants shall be fully prepared, as set forth in Rule 601(b), to discuss any and all matters to be considered at the conference.

(D) A Presiding Administrative Law Judge (Presiding Judge), to be designated by the Chief Administrative Law Judge, shall preside at the prehearing conference in this proceeding, with authority to establish and change procedural dates and to rule on motions, all as provided for in the Commission's Rules, 18 CFR part 385 (1992).

(E) The Presiding Judge shall conduct all hearings, pursuant to subpart E of the Commission's Rules, 18 CFR 385.501–385.510 (1992), and shall have all authority delegated by Rule 504 of the

[3] In *Tenneco Gas* v. *FERC*, No. 89–1766 (July 21, 1992), the U.S. Court of Appeals for the District of Columbia Circuit upheld Standard F insofar as it requires contemporaneous disclosure of transportation information, but set aside the portion of the standard that requires contemporaneous disclosure of gas marketing and gas sales information. The court remanded this portion of the standard for further explanation on how the requirement for contemporaneous disclosure of marketing and gas sales and supplies information relates to the pipelines' market power over transportation. In Order No. 636–A, the Commission stated that it will consider the remand of the Tenneco Gas decision in the near future. We expect that to occur soon enough to allow the parties to consider the remand order at an early stage of this hearing.

Commission's Rules, 18 CFR 385.504 (1992).

(F) This proceeding shall be phased. In the first phase, the Presiding Judge shall determine, based on the evidence introduced into the record, whether respondents have violated the provisions cited in Section III, or any other laws or regulations that the Commission administers, as a result of the acts and practices alleged in Section II of this order or as a result of any other related acts or practices. The Presiding Judge shall issue an initial decision in the first phase, which shall be subject to review by the Commision pursuant to Rule 711. The Presiding Judge shall issue the initial decision within 180 days from the date of this order.

(G) If the Commission finds violations in the first phase, the Presiding Judge will conduct a second phase. In the second phase, the Presiding Judge shall determine whether the Commission should order any or all appropriate remedies, including, but not limited to: (1) An order that Northwest, WGS, and WGM cease and desist from all future violations; (2) disgorgement by Northwest of all revenues (minus appropriate costs) obtained from transporting the assigned gas; (3) disgorgement by WGS and WGM of all sales revenues (minus appropriate costs) that they obtained by selling the assigned gas; (4) a refund by Northwest of the difference between what it actually collected through its PGA rates and what it would have collected through those rates had it retained the gas that it assigned to WGS; (5) rescission by Northwest of the assignment of Letter A and Letter B contracts and/or WGS's reassigment of the contracts back to Northwest; and (6) any other retrospective or prospective remedies that the Presiding Judge deems appropriate.

(H) Petitions for intervention shall be filed no later than 7 days after the date of this order.

By the Commission. Commissioner Moler dissented in part with a separate statement attached. Commissioner Terzic dissented.

Lois D. Cahsell,

Secretary.

Moler, Commissioner, *dissenting in part:*

I support the Commission's order setting for hearing the issue of whether Northwest violated Standard G of the Commission's marketing affiliate rule § 161.3(g) of our regulations). I also support setting for hearing the issue of whether Northwest denied access to the interstate market in an unduly discriminatory manner. The factual issue to be addressed is whether Northwest denied access to those who refused to use the services of Williams Gas Supply or Williams Gas Marketing.

However, based on the present record, I do not believe there is a sufficient basis for taking further action against Northwest by setting the remaining issues for hearing. It is clear to me as a matter of law that the assignment of a gas sales contract is not a jurisdictional activity. The order does not allege that Northwest violated the abandonment provisions of section 7(b) of the NGA by the assignment of contracts to its affiliates. Thus, because our authority to deal with discriminatory practices is limited to jurisdictional acts,[1] I do not believe that assignment of those contracts is a violation under section 4 of the NGA, and therefore subject to the Commission's enforcement action. The hearing order fails to clearly specify what type of section 4 violations may have occurred. It combines the denial of access issue with the assignment of contract issue. I support pursuing the denial of access issue, but do not believe we should pursue the assignment of contract issue.

And, I am troubled by how the Commission may handle the question of lack of access to nonjurisdictional facilities. While the Commission may, arguably, have rate jurisdiction over gathering facilities,[2] I am uncertain as to whether we have the authority to order access to nonjurisdictional facilities, or what remedies could be imposed if we find that access has been stymied in the past. I do believe that access to interstate markets is a critical element of the Commission's commitment to a competitive natural gas market, which is one reason why I have dissented from recent decisions finding pipeline facilities to be nonjurisdictional.

For these reasons, I must dissent in part from the Commission's hearing order in this proceeding.

Elizabeth Anne Moler,

Commissioner.

First Revised Sheet No. 1559
First Revised Sheet No. 1560
First Revised Sheet No. 1561

Alternate Tariff Sheet

First Revised Volume No. 1–A:
Alternate Sixteenth Revised Sheet No. 201

Northwest states that the changes reflect an overall change in its jurisdictional rates for the twelve months ended June 30, 1992, adjusted for known and measurable changes through March 30, 1993, to provide additional revenues of $74,421,850. Northwest further states that the increase in jurisdictional rates reflected in its filing is necessary to permit Northwest the opportunity to recover its revenue requirements due to (1) construction of significant mainline expansion facilities, and (2) changes in cost allocation and rate design from its prior rate proceeding.

Northwest's filing includes various other changes to its rates, tariffs, and terms and conditions to (1) respond to rate design initiatives set forth by the Commission in Order Nos. 636 and 636–A, (2) remove gathering and processing costs and services from its FERC Tariff, (3) include its mainline expansion facilities authorized in Docket No. CP91–780, (4) provide for use of rolled-in rate treatment to recover the cost of the mainline expansion facilities, and (5) provide for the aggregation of costs associated with Rate Schedules T–1 and X–87.

Northwest states that this filing was served on each of its customers and affected state commissions pursuant to § 154.16(b) of the Commissions Regulations.

Any person desiring to be heard or protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with § 385.214 and 385.211 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before October 13, 1992.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

[FR Doc. 92–24657 Filed 10–8–92; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. TQ93–1–86–000]

Change in Sales Rates Pursuant to Purchased Gas Adjustment

October 5, 1992.

Take notice that on September 30, 1992, Pacific Gas Transmission Company (PGT) submitted for filing pursuant to part 154 of the Federal Energy Regulatory Commission's (Commission) regulations a proposed change in rates applicable to service rendered under Rate Schedule PL–1, affected by and subject to Paragraph 21, "Purchased Gas Cost Adjustment" (PGA) of the General Terms and Conditions of its FERC Gas Tariff, Second Revised Volume No. 1. Such rates are proposed to become effective November 1, 1992.

PGT states that copies of the filing have been served upon all affected jurisdictional sales customers and interested state commissions.

Any person desiring to be heard or protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

[FR Doc. 92–24658 Filed 10–8–92; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. RP93–6–000]

Paiute Pipeline Co.; Change in Rates

October 5, 1992.

Take notice that on October 1, 1992, Paiute Pipeline Company (Paiute), pursuant to section 4 of the Natural Gas Act and part 154 of the Commission's regulations thereunder, submitted for filing a notice of change in rates for natural gas service rendered to jurisdictional customers served under all rate schedules contained in First Revised Volume No. 1–A of Paiute's FERC Gas Tariff. In order to implement the notice of change in rates, as well as certain other tariff changes, Paiute tendered for filing and acceptance the following tariff sheets to be a part of First Revised Volume No. 1–A:

Title Page
First Revised Sheet No. 2
Third Revised Sheet No. 10
First Revised Sheet Nos. 20–24
First Revised Sheet Nos. 27–28
First Revised Sheet No. 59
First Revised Sheet No. 65
First Revised Sheet Nos. 68–77
First Revised Sheet No. 110
Second Revised Sheet No. 130
Original Sheet No. 131

Paiute proposes to make the tendered tariff sheets and the change in rates effective on November 1, 1992.

Paiute states that based upon the test period cost of service and the projected throughput quantities employed in its filing, Paiute projects a deficiency of approximately $6,842,736 in annual revenues from jurisdictional transportation and storage services at current rates. Paiute is therefore proposing to increase rates for its jurisdictional transportation and storage services in an amount that is sufficient to eliminate the revenue deficiency and recover the full cost of service reflected in its filing.

Paiute states that its proposed tariff sheets are submitted to revise its Statement of Rates and other tariff sheets as necessary to reflect the proposed changes to rates, and to revise certain other tariff sheets to reflect new monthly billing determinants used for rate design and billing purposes, the elimination of annual entitlements and associated overrun penalty payments, and certain minor housekeeping changes.

Paiute indicates that its proposed rates reflect costs and anticipated revenues applicable to a system-wide capacity expansion construction project for which a certificate of public convenience and necessity was issued in Docket No. CP91–2322–000. Paiute also states that in designing its proposed transportation rates, it has utilized a straight fixed variable rate design methodology, using a one-part, seasonally adjusted demand charge, which Paiute states is consistent with the discussion in Order No. 636–A, issued on August 3, 1992.

Paiute states that it has served copies of its filing on all affected customers and all interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of

Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. RP93–1–000]

Southern Natural Gas Co.; Limited Section 4 Filing

October 5, 1992.

Take Notice that on October 1, 1992, Southern Natural Gas Company (Southern), filed in accordance with Commission's Order Nos. 636 and 636–A its limited filing under section 4 of the Natural Gas Act to recover $92.6 million annually in Gas Supply Realignment (GSR) costs in accordance with the mechanism set forth in Southern's compliance filing in docket No. RS92–10–000. Southern proposes to commence recovery of the GSR costs on April 1, 1993 contemporaneously with the proposed effective date of its compliance filing Docket Nos. RS92–10–000.

Southern states it is filing to recover GSR costs which will immediately result from Southern's implementation of Order Nos. 636 and 636–A commencing on April 1, 1993. Specifically, Southern is filing to recover those costs which directly result from the restructuring required by the Commission and which are known and measurable as a result of the restructuring. Southern also requests authority to direct bill, in accordance with Order Nos. 636 and 636–A, any unrecovered balances that may exist in PGA Account No. 191 as of the effective date of service restructuring under Southern's compliance filing in Docket No. RS92–10–000.

Southern states that copies of the filing were served upon Southern's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. RP93–2–000]

Tennessee Gas Pipeline Co.; Filing

October 5, 1992.

Take notice on October 1, 1992, Tennessee Gas Pipeline Company (Tennessee) tendered for filing the following revised tariff sheets in Fourth Revised Volume No. 1 of its FERC Gas Tariff to be effective on November 1, 1992:

First Revised Sheet No. 179
First Revised Sheet No. 268
First Revised Sheet No. 269

Tennessee states that this filing is being made to provide Rate Schedule FT–B shippers additional flexibility in sourcing gas in the supply area in accordance with the terms of its Cosmic Settlement, Docket Nos. RP88–119 *et al.* Tennessee states that the filing will permit FT–B shippers to nominate gas from primary and secondary receipt points on any of Tennessee's supply legs in excess of the shippers' firm entitlements on those supply legs. In addition, Tennessee has requested continued authorization from the Commission to waive the minimum rate requirements of § 284.7(d)(5) of the Commission's regulations for any Rate Schedule IT arrangements that "feed" a Rate Schedule FT–B contract at the pooling points under Tennessee's tariff, to the extent the parties mutually agree to discount such rate below the minimum rate.

Tennessee states that copies of its filing are available for inspection at its principal place of business in the Tenneco Building, Houston, Texas, and have been mailed to all affected customers.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TQ93–2–17–000]

Texas Eastern Transmission Corp., Proposed Changes in FERC Gas Tariff

October 5, 1992.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern) on October 1, 1992 tendered for filing as part of its FERC Gas Tariff, Fifth Revised Volume No. 1, six copies of the tariff sheets listed on appendix A and appendix B to the filing.

The proposed effective date of these revised tariff sheets is November 1, 1992.

Texas Eastern states that these tariff sheets are being filed pursuant to section 23, Purchased Gas Cost Adjustment contained in the General Terms and Conditions of Texas Eastern's FERC Gas Tariff. Texas Eastern states that in compliance with §154.308 (b)(2) of the Commission's Regulations, a report containing detailed computations for the derivation of the current adjustment to be applied to Texas Eastern's effective rates is enclosed in the format as prescribed by FERC Form No. 542–PGA (Revised) and FERC's Notice of Criteria for Accepting Electronic PGA Filings dated April 12, 1991.

Texas Eastern states that the changes proposed in this PGA filing consist of Demand current adjustment of $0.024/dth and a Commodity current adjustment of $0.0515/dth based upon the change in Texas Eastern's projected cost of purchased gas from Texas Eastern's October 1, 1992 Out-of-cycle PGA in Docket No. TQ92–8–17 filed on September 30, 1992.

Texas Eastern states that on September 15, 1992 Texas Eastern filed substitute tariff sheets to be effective for the period beginning December 1, 1990 to-date reflecting the rates provided for in the Stipulation and Agreement in Docket No. RP88–67, *et al.* (Phase II/

PCBs) filed by Texas Eastern on December 17, 1991 (PCB Settlement). The substitute tariff sheets filed herewith listed on appendix B reflect Texas Eastern's PCB settlement rates adjusted for the PGA change proposed herein.

Texas Eastern respectfully requests the Commission to accept the tariff sheets on appendix A hereto to be effective for purposes of rendering billings beginning November 1, 1992 and accept the substitute tariff sheets on appendix B as a supplement to Texas Eastern's September 15, 1992 filing in Docket No. RP88-67 *et al.* (Phase II/PCBs) for the period beginning November 1, 1992.

Texas Eastern states that copies of its filing have been served on all authorized Purchasers of Natural Gas from Texas Eastern, applicable state regulatory agencies and all parties on the service list in Docket Nos. RP88-67, *et al.* (Phase II/PCBs).

Any person desiring to be heard or to protest said filing should filed a motion to intervene or protest with the Federal Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of the filing are on a file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

[Docket Nos. ER92-284-000, ER92-284-001 and EL92-40-000]

Vermont Electric Power Co., Inc.; Initiation of Proceeding and Refund Effective Date

October 5, 1992.

Take notice that on September 25, 1992, the Commission issued an order in the above-indicated dockets initiating an investigation in Docket No. EL92-40-000 under section 206 of the Federal Power Act.

The refund effective date in Docket No. EL92-40-000 will be 60 days after publication of this notice in the Federal Register.

Lois D. Cashell,

Secretary.

[FR Doc. 92-24615 Filed 10-8-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TQ93-1-52-000,001 TM93-1-52-000]

Western Gas Interstate Company; Proposed Changes in FERC Gas Tariff

October 5, 1992.

Take notice that on October 1, 1992, Western Gas Interstate Company ("Western"), pursuant to section 4 of the Natural Gas Act, the Commission's regulations thereunder and Western's FERC Gas Tariff, tendered for filing proposed changes to its FERC Gas Tariff, Second Revised Volume No. 1. The proposed effective date for the tariff sheets are October 1, 1992 and November 1, 1992.

Western states that, its filing proposes changes to its rates in accordance with the terms of the Purchased Gas Adjustment Clause of its FERC Gas Tariff.

Western states that the Tariff sheet proposed to become effective October 1, 1992 is to account for the decrease in Western's Annual Charge Adjustment (ACA). The adjustment of the ACA surcharge is determined each fiscal year, and reflects a decrease of $0.0001/Mcf from the currently effective ACA Surcharge.

Western further states that the Tariff sheet proposed to become effective November 1, 1992 is to provide for: (1) A increase in purchased gas cost under Western's Rate Schedule CD-N of $0.7572 per MMBTU; and (2) a increase in purchased gas cost under Western's Rate Schedule CD-S of $0.6735 per MMBTU.

Finally, Western states that copies of the filing were served upon Western's transmission system customers and interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Sections 385.211 and 385.214 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TQ93-1-43-000]

Williams Natural Gas Co.; Proposed Changes in FERC Gas Tariff

October 5, 1992.

Take notice that Williams Natural Gas Company (WNG) on September 30, 1992, tendered the following tariff sheets to its FERC Gas Tariff, First Revised Volume No. 1, to become effective November 1, 1992:

Thirteenth Revised Sheet No. 6,
Fourteenth Revised Sheet No. 6A,
Thirteenth Revised Sheet No. 9

WNG states that the tariff sheets are being filed in accordance with Article 18, Purchased Gas Adjustment of the General Terms and Conditions WNG's FERC Gas Tariff, First Revised Volume No. 1.

(1) A $0.1920 per Dth increase in Cumulative Adjustment due to an increase in WNG's projected gas purchase costs.

(2) A special Surcharge Adjustment of $0.0911 per Dth to amortize over the six-month period November 1992 through April 1993 $8.4 million which was the unrecovered Deferred Purchased Gas Cost Amortized Subaccount balance on April 30, 1992.

WNG states that copies of its filing were served on all jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 13, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public

Inspection in the Public Reference Room.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared September 21, 1992 through September 25, 1992 pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 260-5076.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 10, 1992 (57 FR 12499).

DRAFT EISs

ERP No. D-FHW-E40744-NC Rating EC2, US 421 Highway Improvements, East of Secondary Road 2433 to West of I-77, Funding and Possible COE 404 Permit, Wilkes and Yadkin Counties, NC.

Summary: EPA had concerns over wetland losses and habitat fragmentation and therefore recommends using an alternative that uses the existing highway corridor.

ERP No. D-FHW-E40746-NC Rating EC2, US 421 Transportation Improvement just west of the South Fork New River to NC-1361 east of the Town of Deep Gap, Funding, Land Transfer and COE Section 404 Permit(s), Watauga County, NC.

Summary: EPA expressed concern for the potential for adverse water quality impacts related to construction activities in the mountainous region. Non-point source contributions and loss of upland habitat was also a concern.

ERP No. D-FHW-G40133-OK Rating LO, OK-99/OK-3E/US 377 North of Ada Transportation Corridor Reconstruction, Funding, Section 404 and NPDES Permits, Pontotoc and Seminole Counties, OK.

Summary: EPA had no objections to selection of the New Alignment

Alternative with New Alignment in the Byng Area as the proposed alternative.

ERP No. D-FHW-G40134-OK Rating LO, OK-82 Highway Construction, Red Oka to Lequire, Funding and Possible National Pollutant Discharge Elimination System Permit, Latimore and Haskell Counties, OK.

Summary: EPA had no objections to the selection of the West Alignment as the preferred alternative. The EIS was closely coordinated with other agencies to lessen the adverse impacts, for a project that will have a positive effect on the area.

ERP No. D-FHW-J40126-MT Rating E02, US 2 Reconstruction, Columbia Heights to Hungry Horse, Funding, Land Transfer and COE Section 404 Permit, Flathead County, MT.

Summary: EPA expressed objections to the placement of large amounts of fill material in the South Fork of the Flathead River ad the destruction of valuable wetlands and riparian areas. Water quality data and analysis were completely lacking

ERP No. D-ICC-J53004-MT Rating LO, Tongue River Railroad Additional Rail Line Construction and Operation, Ashland to Decker, Approval, Rosebud and Big Horn Counties, MT.

Summary: EPA had no objections to the ICC's Four Mile Creek Alternative. EPA did provide comments on cultural statements concerning Native American issues.

FINAL EISs

ERP No. F-AFS-J65184-UT, Uinta National Forest Plan Amendment, Rangeland Ecosystem Management Plan, Implementation, Sanpete, Wasatch, Utah, Toole and Juab Counties, UT.

Summary: EPA continued to find no significant concerns with the proposed action. EPA can support the Agency preferred alternative, Alternative B, with caveats raised in preceding paragraphs.

ERP No. F-AFS-K65134-CA, South Fork of the Trinity Wild and Scenic River Management Plan, National Wild and Scenic Rivers, Implementation, Trinity River, Six Rivers and Shasta-Trinity National Forests, Trinity and Humboldt Counties, CA.

Summary: EPA continued to express concerns with the extent of the Forest Service's proposed corridor of protection. EPA requested that the Record of Decision contain additional clarifying language.

ERP No. F-AFS-L65161-WA, Withrow Timber Sale, Implementation, Wenatchee National Forest, Naches Ranger District, Yakima County, WA.

Summary: EPA expressed environmental objections with the preferred alternative. EPA environmental objections are based on: potential violations of State water quality standards and exceeding the Forest Plan standard for stream temperature, decreased visibility and degradation of air quality in the Class I airsheds adjacent to the planning area, potential impacts to threatened species, the need for complete monitoring and mitigation discussions and the need for a broader cumulative effects analysis.

ERP No. FA-NOA-K90007-00, Pacific Coast Groundfish Fishery Management Plan (FMP), Updated Information to the License Limitation Program, Approval and Implementation of Amendment No. 6., OR, WA and CA.

Summary: Review of the Final EIS was not deemed necessary. No formal comment letter was sent to the preparing agency.

Regulations

ERP No. R-NSF-A22124-00, 45 CFR parts 670, 671, & 672; Conservation of Antarctic Animals and Plants; Waste Regulation; Enforcement & Hearing Procedures; (57 FR 33918).

Summary: EPA expressed concerns regarding the vagueness of the proposed permit issuance criteria, and the permit application and review process. EPA also, recommended that NSF revise the proposed definitions to reflect consistency with Annex III to the Protocol, and that the regulations accurately reflect the provisions of Annex III regarding disposal of sewage and domestic liquid wastes.

Dated: October 5, 1992.

FEDERAL MARITIME COMMISSION

Crowley American Transport, Inc., et al.; Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 800 North Capitol Street NW., 9th Floor. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the Federal Register in which this notice appears. The requirements for comments are found in § 572.603 of title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 203-011063-012.

Title: United States/Jamaica Discussion Agreement.

Parties:

Crowley American Transport, Inc.
Kirk Lines Ltd.
Sea-Land Service, Inc.
Blue Caribe Line

Synopsis: The proposed amendment modifies the Agreement Authority to provide for space chartering and rationalization of service. The parties have requested a shortened review period.

Dated: October 5, 1992.

By Order of the Federal Maritime Commission.

Joseph C. Polking,

Secretary.

Blue Star Line, Ltd., and Hamburg-Seudamerikansche Dampfschiffahrts-Gesellschaft Eggert & Amsinck DBA Columbus Line v. Lauritzen Reefers, A/S and J. Lauritzen (U.S.A.), Inc. Filing of Complaint and Assignment

October 5, 1992.

Notice is given that a complaint filed by Blue Star Lines, Ltd. and Hamburg-Seudamerikansche Dampfschiffahrts-Gesellschaft Eggert & Amsinck dba Columbus Line ("Complainant") against Lauritzen Reefers, A/S and J. Lauritzen (U.S.A.), Inc. ("Respondent") was served October 5, 1992. Complainants allege that Respondents engaged in violations of sections 10(a)(1) and (b)(1)–(4), (6), and (9)–(12) of the Shipping Act of 1984, 46 U.S.C. 1709(a)(1) and (b)(1)–(4), (6), and (9)–(12), by operating an ocean common carrier service in the California/New Zealand trade without filing a tariff while offering secret rates and commercial terms which vary at will.

This proceeding has been assigned to Administrative Law Judge Charles E. Morgan ("Presiding Officer"). Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61. The hearing shall include oral testimony and cross-examination in the discretion of the Presiding Officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record. Pursuant to the further terms of 46 CFR 502.61, the initial decision of the Presiding Officer in this proceeding shall be issued by October 5, 1993, and the final decision of the Commission shall be issued by February 2, 1994.

Imperial Chemical Industries, PLC v. Empresa Naviera Santa S.A. Filing of Complaint and Assignment

Served October 5, 1992.

Notice is given that a complaint filed by Imperial Chemical Industries, PLC ("Complainant") against Empresa Naviera Santa S.A. ("Respondent") was served October 5, 1992. Complainant alleges that Respondent engaged in violations of section 10(b)(10) of the Shipping Act of 1984, 46 U.S.C. 1709(b)(10), by misrating two shipments from New York to Chile and declining to honor Complainant's overcharge claim.

This proceeding has been assigned to Administrative Law Judge Charles E. Morgan ("Presiding Officer"). Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61. The hearing shall include oral testimony and cross-examination in the discretion of the Presiding Officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record. Pursuant to the further terms of 46 CFR 502.61, the initial decision of the Presiding Officer in this proceeding shall be issued by October 5, 1993, and the final decision of the Commission shall be issued by February 2, 1994.

BILLING CODE 4150-04-M

Food and Drug Administration

[Docket No. 92D-0296]

Draft Guidance Manual for Submitting Computer-Assisted New Drug Applications; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of a draft guidance manual for submitting computer-assisted new drug applications (CANDA's). The draft guidance manual, entitled "CANDA Guidance Manual," is intended to facilitate the use of computers in the drug approval process by giving applicants and other interested parties guidance on the factors FDA considers in accepting CANDA's. Computerized submissions will enable FDA to expedite its new drug approval process.

DATES: Written comments by January 7, 1993.

ADDRESSES: Submit written requests for single copies of the draft guidance manual to the CDER Executive Secretariat Staff (HFD–8), Center for Drug Evaluation and Research, Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855. Send two self-addressed adhesive labels to assist that

office in processing your requests. Submit written comments on the draft guidance manual to the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857. Requests and comments should be identified with the docket number found in brackets in the heading of this document. A copy of the draft guidance manual and received comments are available for public examination in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

The draft guidance manual is available via Internet and Bitnet by sending an electronic mail message to DOC0003@FDACD.BITNET. The sole purpose of this address is to automatically distribute the notice and report by return electronic mail. Therefore, no other correspondence should be sent to this address, and there is no need to include text in the body or subject of the request message.

FOR FURTHER INFORMATION CONTACT: Robert A. Bell, Center for Drug Evaluation and Research (HFD–10), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–0845.

SUPPLEMENTARY INFORMATION: One of FDA's continuing objectives is to improve the speed and quality of its drug review and approval program. The Federal Food, Drug, and Cosmetic Act requires persons who wish to market new drug products to demonstrate that those drug products are both safe and effective before introducing them into interstate commerce. This is achieved through the submission of a new drug application to FDA. These applications ordinarily contain thousands of pages of reports, analyses, tabulations, and case reports, which must be reviewed by agency officials. FDA believes the increased use of CANDA's and computers will enhance the timeliness, effectiveness, and efficiency of the drug review process and reduce burdensome, nonessential, hard-copy handling and storage. For example, data from case report forms and tabular listings can be more effectively retrieved and reviewed using computer technology, and several reviewers can simultaneously review an application and search or analyze selected sections.

FDA has been accepting CANDA's for the past 6 years. During that time, the agency has issued computer-related guidances and information that have addressed the needs of several FDA review disciplines. The most comprehensive guidance was a notice published in the **Federal Register** of September 15, 1988 (53 FR 35912).

In an attempt to consolidate these guidances, FDA, the Pharmaceutical Manufacturers Association, and the Health Protection Branch of the Canadian Department of National Health and Welfare have worked over the past few years to develop the draft guidance manual.

The draft guidance manual includes the following information.

1. Policies and procedures for CANDA submissions to indicate:

(a) How, where, and when to submit a CANDA;

(b) Applicant and FDA interaction, agency contacts and appropriate offices, agency and division hardware and software; and

(c) Potential problem areas and their resolution.

2. CANDA definitions and terminology.

3. Guidelines for CANDA system security and integrity.

4. CANDA guidelines specific to the following FDA reviewing divisions and application sections: Biopharmaceutics; pharmacology and toxicology; chemistry, manufacturing, and controls; and statistics.

5. Survey results on CANDA's submitted from 1985 through 1988.

6. Administrative and technical requirements of the Canadian Drugs Directorate's Computer-Assisted New Drug Submissions.

CANDA's may be transmitted in several ways: (1) Direct access by agency reviewers to the applicant's mainframe; (2) direct access to a third party mainframe; (3) review of the application on a microcomputer in the reviewer's office; (4) review of the application on an agency mainframe; or (5) review of the application from an optical disk. CANDA's may also include the use of an electronic mail component to speed the transmission.

FDA is making this draft guidance manual available for public comment before issuing a final guidance. If, following the receipt of comments, the agency concludes that the draft guidance manual reflects acceptable criteria for use in submitting CANDA's, FDA will prepare a final guidance manual and announce its availability in the **Federal Register**.

This guidance may be useful to applicants in submitting CANDA's. Applicants may follow the guidance or may choose to use alternate procedures even though they are not provided for in the guidance. If an applicant chooses to use alternate procedures, the applicant may wish to discuss the matter further with the agency to prevent expenditure of money and effort on activities that may later be determined to be unacceptable by FDA. This guidance does not bind the agency and does not create or confer any rights, privileges, or benefits for or on any person.

Interested persons may, on or before January 7, 1993, submit written comments on the draft guidance manual to the Dockets Management Branch (address above). FDA is requesting comments pertaining to the development of an overall CANDA policy, rather than comments that propose adoption of specific equipment, systems, computer programs, and services. FDA will consider these comments in determining whether further amendments to, or revisions of, the draft guidance manual are warranted. Two copies of any comments should be submitted, except that individuals may submit one copy.

Dated: September 17, 1992.

Michael R. Taylor,

Deputy Commissioner for Policy.

BILLING CODE 4160–01–F

[Docket No. 92M–0241]

Les Laboratories Blanchard; Premarket Approval of Blanchard™ Soft (Polymacon) Contact Lens

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application by Les Laboratories Blanchard, Sherbrooke, Quebec Canada, for premarket approval, under section 515 of the Federal Food, Drug, and Cosmetic Act (the act), of the BLANCHARD™ Soft (polymacon) Contact Lens. The device is to be manufactured under an agreement with Allergan Optical, Irvine, CA, which has authorized Les Laboratories Blanchard to incorporate information contained it its approved premarket approval application (PMA) and related supplements for the Hydron® (polymacon) Hydrophilic Contact Lens. FDA's Center for Devices and Radiological Health (CDRH) notified the applicant, by letter of May 22, 1992, of the approval of the application.

DATES: Petitions for administrative review by November 9, 1992.

ADDRESSES: Written requests for copies of the summary of safety and effectiveness data and petitions for administrative review to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 1–23,

12420 Parklawn Dr., Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: James F. Saviola, Center for Devices and Radiological Health (HFZ–460), Food and Drug Administration, 1390 Piccard Dr., Rockville, MD 20850, 301–427–1080.

SUPPLEMENTARY INFORMATION: On June 4, 1991, Les Laboratories Blanchard, Sherbrooke, Quebec Canada, submitted to CDRH an application for premarket approval of the BLANCHARD™ Soft (polymacon) Contact Lens. The BLANCHARD™ Soft (polymacon) Contact Lens is indicated for daily wear for the correction of visual acuity in aphakic and not-aphakic persons with nondiseased eyes that are myopic or hyperopic. The lens may be worn by persons who may exhibit astigmatism of 1.50 diopters (D) or less that does not interfere with visual acuity. In addition, the lens is to be disinfected using either a heat or chemical lens care system. The application includes authorization from Allergan Optical, Irvine, CA 92713–9534, to incorporate information contained in its approved PMA and related supplements for Hydron® (polymacon) Hydrophilic Contact Lens.

In accordance with the provisions of section 515(c)(2) of the act as amended by the Safe Medical Devices Act of 1990, this PMA was not referred to the Ophthalmic Devices Panel, an FDA advisory panel, for review and recommendation because the information in the PMA substantially duplicates information previously reviewed by this panel. On May 22, 1992, CDRH approved the application by a letter to the applicant from the Deputy Director of the Office of Device Evaluation, CDRH.

A summary of the safety and effectiveness data on which CDRH based its approval is on file in the Dockets Management Branch (address above) and is available from that office upon written request. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

Opportunity for Administrative Review

Section 515(d)(3) of the act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)), for administrative review of CDRH's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and CDRH's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before November 9, 1992, file with the Dockets Management Branch (address above) two copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 515(d), 520(h) (21 U.S.C. 360e(d), 360j(h))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Director, Center for Devices and Radiological Health (21 CFR 5.53).

Dated: September 25, 1992.

Elizabeth D. Jacobson,

Deputy Director, Center for Devices and Radiological Health.

[FR Doc. 92–24566 Filed 10–8–92; 8:45 am]

BILLING CODE 4160–01–F

Health Resources and Services Administration

Advisory Council; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following National Advisory bodies scheduled to meet during the month of November 1992.

Name: Predoctoral Training Review Committee.

Date and Time: November 12–13, 1992, 8:30 a.m.

Place: Ramada Inn Rockville, Georgetown & Montrose Rooms, 1775 Rockville Pike, Rockville, Maryland 20852.

Open on November 12, 8:30 a.m.–9:30 a.m.—Closed for Remainder of Meeting.

Purpose: The Predoctoral Training Review Committee shall review applications that either assist in meeting the cost of planning, developing, and operating; or participating in approved predoctoral training programs in the field of family medicine.

Agenda: The open portion of the meeting will cover welcome and opening remarks, financial management and legislative implementation updates, and overview of the review process. The meeting will be closed to the public on November 12, at 9:30 a.m. for the remainder of the meeting for the review of grant applications. The closing is in accordance with the provisions set forth in section 552b(c)(6), title 5 U.S.C., and the Determination by the Administrator, Health Resources and Services Administration, pursuant to Public Law 92–463.

Anyone requiring information regarding the subject Council should contact Mrs. Sherry Whipple, Executive Secretary, Predoctoral Training Review Committee, room 4C–18, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, Telephone (301) 443–6874.

Name: Faculty Development Review Committee.

Date and Time: November 17–20, 1992, 8:30 a.m.

Place: Conference Rooms I and J, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

Open on November 17, 8:30 a.m.–10:30 a.m.—Closed for Remainder of Meeting.

Purpose: The Faculty Development Review Committee shall review applications that (1) plan, develop and operate programs for the training of physicians who plan to teach in family medicine training programs; and support physicians who are trainees in such programs and who plan to teach in family medicine training programs; and (2) plan, develop and operate programs for the training of physicians who plan to teach in general internal medicine or general pediatrics training programs and support traineeships and fellowships to physicians in training.

Agenda: The open portion of the meeting will cover welcome and opening remarks, financial management and legislative implementation updates, and overview of the review process. The meeting will be closed to the public on November 17, at 10:30 a.m. for the remainder of the meeting for the review of grant applications. The closing is in accordance with the provisions set forth in section 552b(c)(6), title 5 U.S.C., and the Determination by the Administrator, Health Resources and Services Administration, pursuant to Public Law 92–463.

Anyone requiring information regarding the subject Council should contact Mrs. Sherry Whipple, Executive Secretary, Faculty Development Review Committee, room 4C–18, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, Telephone (301) 443–6874.

Agenda Items are subject to change as priorities dictate.

Dated: October 5, 1992.

Jackie E. Baum,

Advisory Committee Management Officer, HRSA.

BILLING CODE 4160–15–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. D-92-1007; FR-3272-D-01]

Delegation of Authority or the HOPE for Homeownership of Single Family Homes Program (HOPE 3)

AGENCY: Office of the Secretary, HUD.

ACTION: Notice of delegation of authority.

SUMMARY: This notice delegates to the Assistant Secretary for Community Planning and Development and the Deputy Assistant Secretary for Grant Programs the Secretary's power and authority with respect to the HOPE for Homeownership of Single Family Homes Program (HOPE 3), subject to certain specified exceptions.

EFFECTIVE DATE: September 30, 1992.

FOR FURTHER INFORMATION CONTACT: John Garrity, Office of Affordable Housing Programs, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, telephone (202) 708-0324, TDD (202) 708-2565. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION: This notice delegates all power and authority of the Secretary of Housing and Urban Development concurrently to the Assistant Secretary for Community Planning and Development and the Deputy Assistant Secretary for Grant Programs for the HOPE for Homeownership of Single Family Homes Programs (HOPE 3), except for the power to sue and be sued. The Secretary also does not delegate to the Deputy Assistant Secretary for Grant Programs the authority to issue or waive rules and regulations. The authority delegated to the Assistant Secretary only may be redelegated to employees of the Department, except for the authority to issue or waive rules and regulations.

The HOPE 3 Program is a new program authorized by title IV, subtitle C, of the National Affordable Housing Act ("NAHA") (Pub. L. 101-625, 104 Stat. 4079, 4172-4180 (November 28, 1990), codified at 42 U.S.C. 12891-12898). HOPE is an acronym which stands for Homeownership and Opportunity for People Everywhere. Among the HOPE grant programs, HOPE 3 provides homeownership opportunities for eligible, low-income families and individuals to purchase certain Federal, State and local government-owned single family properties, and units in scattered site, single family public and Indian housing developments. In general, under the HOPE 3 Program HUD awards grants on a competitive basis to eligible applicants (public bodies, Indian tribes, private nonprofit organizations, and cooperative associations) for the planning or implementation of eligible HOPE 3 homeownership programs.

Section A. Authority Delegated

The Secretary of Housing and Urban Development delegates to the Assistant Secretary for Community Planning and Development and to the Assistant Secretary for Grant Programs all power and authority of the Secretary with respect to the HOPE for Homeownership of Single Family Homes Program (HOPE 3) authorized by title IV, subtitle C of the National Affordable Housing Act ("NAHA") (42 U.S.C. 21891-12898).

Section B. Authority Excepted

The authority delegated to the Assistant Secretary for Community Planning and Development does not include the power and authority to sue and be sued. The authority delegated to the Deputy Assistant Secretary for Grant Programs does not include the power to sue and be sued or the power to issue or waive rules and regulations.

Section C. Authority to Redelegate

The Assistant Secretary for Community Planning and Development may redelegate to employees of the Department any of the power and authority delegated under this delegation, except the authority to issue or waive rules and regulations. The Deputy Assistant Secretary for Grant Programs is not authorized to redelegate the power and authority delegated under this delegation.

Authority: Title IV, subtitle C, of the National Affordable Housing Act (42 U.S.C. 12891-12898); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Dated: September 30, 1992.

Jack Kemp,

Secretary of Housing and Urban Development.

[FR Doc. 92-24637 Filed 10-8-92; 8:45 am]

BILLING CODE 4210-32-M

[Docket No. N-92-3038; FR-2736-N-08]

Regulatory Waiver Requests Granted by the Department of Housing and Urban Development

AGENCY: Office of the Secretary, HUD.

ACTION: Public notice of the granting of regulatory waiver requests: June 1, 1992 through August 31, 1992.

SUMMARY: Under the Department of Housing and Urban Development Reform Act of 1989 (Reform Act), the Department (HUD) is required to make public all approval actions taken on waivers of regulations. This Notice is the sixth in a series, being published on a quarterly basis, providing notification of waivers granted during the preceding reporting period. The purpose of this Notice is to comply with the requirements of section 106 of the Reform Act.

FOR FURTHER INFORMATION CONTACT: For general information about this Notice, contact Grady J. Norris, Assistant General Counsel for Regulations, room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, DC 20410. (Telephone 202-708-3055. TDD: (202) 708-3259. These are not toll-free numbers.) For information concerning a particular waiver action about which public notice is provided in this document, contact the person whose name and address is set out, for the particular item, in the accompanying list of waiver-grant actions.

SUPPLEMENTARY INFORMATION: As part of the Housing and Urban Development Reform Act of 1989, the Congress adopted, at HUD's request, legislation to limit and control the granting of regulatory waivers by the Department. Section 106 of the Act (section 7(q)(3) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(q)(3)), provides that:

1. Any waiver of a regulation must be in writing and must specify the grounds for approving the waiver;

2. Authority to approve a waiver of a regulation may be delegated by the Secretary only to an individual of Assistant Secretary rank or equivalent rank, and the person to whom authority to waive is delegated must also have authority to issue the particular regulation to be waived;

3. Not less than quarterly, the Secretary must notify the public of all waivers of regulations that the Department has approved, by publishing a Notice in the Federal Register. These Notices (each covering the period since the most recent previous notification) shall:

a. Identify the project, activity, or undertaking involved;

b. Describe the nature of the provision waived, and the designation of the provision;

c. Indicate the name and title of the person who granted the waiver request;

d. Describe briefly the grounds for approval of the request;

e. State how additional informations about a particular waiver grant action may be obtained.

Section 106 also contains requirements applicable to waivers of HUD handbook provisions that are not relevant to the purposes of today's document.

Today's document follows publication of HUD's Statement of Policy on waiver of Regulations and Directives Issued by HUD (56 FR 16337, April 22, 1991). This is the sixth Notice of its kind to be published under section 106. The first Notice, published on August 26, 1991, updated waiver-grant activity by the Department from the period immediately following passage of the Reform Act through the end of May 1991. Thereafter, notices updating waiver-grant activity for the ensuring three-month periods were published on October 28, 1991, January 13, 1992, April 8, 1992, and July 20, 1992.

Today's document updates HUD's waiver-grant activity through the end of August, 1992. In approximately three months, the Department will publish a similar Notice, providing information about waiver-grant activity for the period from September 1, 1992 through November, 1992.

Today's document also includes a large number of waiver-grant summaries representing activity associated with bond financing transactions under 24 CFR part 811 between July 1991 and the end of June 1992. Through error, these waiver-grant actions were not reported in earlier quarterly summaries.

For ease of reference, waiver requests granted by departmental officials authorized to grant waivers are listed in a sequence keyed to the section number of the HUD regulation involved in the waiver action. For example, a waiver-grant action involving exercise of authority under 24 CFR 24.200 (involving the waiver of a provision in part 24) would come early in the sequence, while waivers in the section 8 and section 202 programs (24 CFR chapter VIII) would be among the last matters listed. Where more than one regulatory provision is involved in the grant of a particular waiver request, the action is listed under the section number of the first regulatory requirement in title 24 that is being waived as part of the waiver-grant action. (For example, a waiver of both § 811.105(b) and § 811.107(a) would appear sequentially in the listing under § 811.105(b).) Waiver-grant actions involving the same initial regulatory citation are in time sequence beginning with the earliest-dated waiver grant action.

Should the Department receive additional reports of waiver actions taken during the period covered by this report before the next report is published, the next updated report will include these earlier actions, as well as those that occur between September and November 1992.

Accordingly, information about approved waiver requests pertaining to regulations of the Department is provided in the appendix that follows this Notice.

Dated: September 30, 1992.

Jack Kemp,

Secretary.

Appendix— Listing of Waivers of Regulatory Requirements Granted by Officers of the Department of Housing and Urban Development June 1, 1991 through August 31, 1992 [and Listing of Pre-June 1, 1991 Regulatory Waivers Not Previously Reported]

Note to Reader: The person to be contacted for additional information about the waiver-grant items numbered 1 through 4 in this listing is:

Mr. Jan C. Opper, Field Coordination Officer, U.S. Department of Housing and Urban Development, Office of Community Planning and Development, 451 Seventh Street, SW., room 7270, Washington, DC 20410–7000. Phone: (202) 708–2565. TDD: (202) 708–2565.

1. *Regulation:* 24 CFR 91.40(b).

Project/Activity: Norwalk, CA; Middletown, CT; Port St. Lucie, FL; Muskegon, MI; Roseville, MI; Newburgh, NY; and Parma, OH. Waiver of the 60-day comment period for the Comprehensive Housing Affordability Strategy (CHAS).

Nature of Requirement: 24 CFR 91.40(b) requires that a jurisdiction make its proposed comprehensive housing affordability strategy (CHAS) available to the public for a reasonable length of time (at least sixty days) for an examination and comment period.

Granted By: Jack Kemp, Secretary.

Date Granted: June 17, 1992 (Norwalk CA); June 30, 1992 (Middletown CT); August 4, 1992 (Port St. Lucie FL); August 6, 1992 (Muskegon, MI, Roseville MI, Newburgh NY, Parma OH).

Reasons Waived: 24 CFR 570.302(b), in implementing statute, requires that a grantee in the Community Development Block Grant (CDBG) program submit a final statement of community development objectives and projected use of funds to HUD no later than the first working day in September. Section 104(c) of the Housing and Community Development Act of 1974, as amended, (24 U.S.C. 5304(c)) requires that before HUD makes a grant under the CDBG program to a metropolitan city or an urban county, the unit of general local government must certify that it is following a current CHAS approved by HUD. Because the above jurisdictions could not meet these requirements, they requested that the requirement at 24 CFR 91.40(b) be waived and the required length of time for comments be shortened to thirty days, thus allowing time for a CHAS to be submitted to HUD and approved and a final statement to be submitted before the deadline. Because of the potential detrimental impact to each of the jurisdiction's low-income population, the Secretary determine that good cause existed for which to waive 24 CFR 91.40(b).

2. *Regulation:* 24 CFR 92.101(a).

Project/Activity: City of Tucson/Pima County, AZ. Waiver of the March 31, 1992 submission deadline regarding HOME consortia to August 14, 1992.

Nature of Requirement: 24 CFR 92.101(a), in part, requires a consortium of geographically contiguous units of general local government, for purposes of carrying out the HOME investment program, to notify HUD, submit written certifications, and have executed a legally binding cooperation agreement by March 31 prior to the beginning of the fiscal year the consortium will be effective.

Granted By: Randall H. Erben, Acting Assistant Secretary for Community Planning and Development.

Date Granted: August 11, 1992.

Reasons Waived: The consortium agreement document was delayed in receiving approval from both the Mayor and Council of the City of Tucson and the Board of Supervisors of Pima County. Failure to grant this waiver in the first year of the HOME program would prevent the City of Tucson/Pima County from receiving its FY 1993 HOME allocation which would be detrimental to the consortium's low-income population.

3. *Regulation:* 24 CFR 92.150(a).

Project/Activity: Stamford, CT and Lynwood, CA. Waiver of HOME Investment Partnerships program description submission requirements.

Nature of Requirement: 24 CFR 92.150(a) requires that a jurisdiction that has not yet been designated a participating jurisdiction for the HOME program must submit a program description within 45 days of designation as a participating jurisdiction under 24 CFR 92.105.

Granted By: Randall H. Erben Acting Assistant Secretary for Community Planning and Development.

Date Granted: July 27, 1992 and August 18, 1992.

Reasons Waived: Waivers of 24 CFR 92.150(a) were granted to the above

participating jurisdictions for good cause. In going through the HOME application process for the first time, in this new program, Stamford encountered difficulties in synchronizing local legislative hearing and meeting requirements with the 45-day deadline. Lynwood experienced delays due to the death of its CD Director/HOME Coordinator and the resignation of its City Manager.

4. *Regulation:* 24 CFR 92.250.

Project/Activity: Los Angeles, CA. Waiver of the HOME Investment Program maximum per-unit subsidy amount to 100 percent of the section 221(d)(3) limits.

Nature of Requirement: 24 CFR 92.250 limits the amount of HOME funds that may be invested on a per-unit basis in affordable housing to 67 percent of the per-unit dollar limits established by HUD for elevator-type projects, involving nonprofit mortgagors, insured under section 221(d)(3) of the National Housing Act, as amended.

Granted By: Randall H. Erben, Acting Assistant Secretary for Community Planning and Development.

Date Granted: June 19, 1992.

Reasons Waived: To permit the City of Los Angeles to more quickly rebuild in areas affected by the recent civil unrest, the waiver was granted, raising the subsidy limits from 67 percent to 100 percent for a period of twelve months ending July 1, 1993.

Note to Reader: The person to be contacted for additional information about the waiver-grant items numbered 5 through 16 in this listing is:

Morris E. Carter, Director, Single Family Development Division, Office of Insured Single Family Housing, U.S. Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410. Phone: (202) 708–2700. TDD: (202) 708–4594.

5. *Regulation:* 24 CFR 203.49(c).

Project/Activity: Independence One Mortgage Corporation and Adjustable Rate Mortgages.

Nature Of Requirement: The regulations, cited above, requires that interest rate adjustments must occur on an annual basis, except that the first adjustment may occur no sooner than 12 months and no later than 18 months from the due date of the mortgagor's first monthly payment.

Granted By: Arthur J. Hill, Acting Assistant Secretary for Housing—Federal Housing Commissioner.

Date Granted: July 27, 1992.

Reasons Waived: Independence One Mortgage Corporation requested a waiver in order to extend the initial adjustment date on one loan in order to make it eligible for placement in a GNMA pool. Ineligibility for the pool would result in a financial hardship to the mortgagee. Extension of the date would not have an adverse effect on the mortgagor. Therefore, to facilitate the continuing participation of this mortgagee in the FHA Adjustable Rate Mortgage Program, a waiver was granted conditioned on the mortgagee obtaining written consent from the mortgagors to the modification of the initial adjustment date.

6. *Regulation:* 24 CFR 203.49(c).

Project/Activity: Statewide Funding Corporation and Adjustable Rate Mortgages.

Nature Of Requirement: The regulation, cited above, requires that interest rate adjustments must occur on an annual basis, except that the first adjustment may occur no sooner than 12 months and no later than 18 months from the due date of the mortgagor's first monthly payment.

Granted By: Arthur J. Hill, Acting Assistant Secretary for Housing—Federal Housing Commissioner.

Date Granted: August 4, 1992.

Reasons Waived: Statewide Funding Corporation requested a waiver in order to extend the initial adjustment date on one loan in order to make it eligible for placement in a GNMA pool. Ineligibility for the pool would result in a financial hardship to the mortgagee. Extension of the date would not have an adverse effect on the mortgagor. Therefore, to facilitate the continuing participation of this mortgagee in the FHA Adjustable Rate Mortgage Program, a waiver was granted conditioned on the mortgagee obtaining written consent from the mortgagors to the modification of the initial adjustment date.

7. *Regulation:* 24 CFR 203.49(c).

Project/Activity: Independence One Mortgage Corporation and Adjustable Rate Mortgages.

Nature Of Requirement: The regulations, cited above, requires that interest rate adjustments must occur on an annual basis, except that the first adjustment may occur no sooner than 12 months and no later than 18 months from the due date of the mortgagor's first monthly payment.

Granted By: Arthur J. Hill, Acting Assistant Secretary for Housing—Federal Housing Commissioner.

Date Granted: August 5, 1992.

Reasons Waived: Independence One Mortgage Corporation requested a waiver in order to extend the initial adjustment date on one loan in order to make it eligible for placement in a GNMA pool. Ineligibility for the pool would result in a financial hardship to the mortgagee. Extension of the date would not have an adverse effect on the mortgagor. Therefore, to facilitate the continuing participation of this mortgagee in the FHA Adjustable Rate Mortgage Program, a waiver was granted conditioned on the mortgagee obtaining written consent from the mortgagors to the modification of the initial date.

8. *Regulation:* 24 CFR 203.49(c).

Project/Activity: Source One Mortgage Service Corporation and Adjustable Rate Mortgages.

Nature of Requirement: The regulation, cited above, requires that interest rate adjustments must occur on an annual basis, except that the first adjustment may occur no sooner than 12 months and no later than 18 months from the due date of the mortgagor's first monthly payment.

Granted By: Arthur J. Hill, Acting Assistant Secretary for Housing—Federal Housing Commissioner.

Date Granted: August 5, 1992.

Reason Waived: Source One Mortgage Service Corporation requested a waiver in order to extend the initial adjustment date on one loan in order to make it eligible for placement in a GNMA pool. Ineligibility for the mortgagee. Extension of the date would not have an adverse effect on the mortgagor. Therefore, to facilitate the continuing participation of this mortgagee in the FHA Adjustable Rate Mortgage Program, a waiver was granted conditioned on the mortgagee obtaining written consent from the mortgagors to the modification of the initial adjustment date.

9. *Regulation:* 24 CFR 203.49(c).

Project/Activity: Liberty Mortgage Corporation and Adjustable Rate Mortgages.

Nature of Requirement: The regulation, cited above, requires that interest rate adjustments must occur on an annual basis, except that the first adjustment may occur no sooner than 12 months and no later than 18 months from the due date of the mortgagor's first monthly payment.

Granted By: Arthur J. Hill, Acting Assistant Secretary for Housing—Federal Housing Commissioner.

Date Granted: August 20, 1992.

Reason Waived: Liberty Mortgage Corporation requested a waiver in order to extend the initial adjustment date on one loan in order to make it eligible for placement in a GNMA pool. Ineligibility for the pool would result in a financial hardship to the mortgagee. Extension of the date would not have an adverse effect on the mortgagor. Therefore, to facilitate the continuing participation of this mortgagee in the FHA Adjustable Rate Mortgage Program, a waiver was granted conditioned on the mortgagee

obtaining written consent from the mortgagors to the modification of the initial adjustment date.

10. *Regulation:* 24 CFR 203.50(g).

Project/Activity: Hilltop area, Tacoma, WA, 203(k) Rehabilitation Loans.

Nature of Requirement: The regulation allows for the utilization of higher market values for properties where the unit of local government demonstrates that the properties are located in an area of concentrated redevelopment or revitalization and the prescribed loan limitation prevents utilization of the program to accomplish rehabilitation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing—Federal Housing Commissioner.

Date Granted: May 28, 1992.

Reason Waived: If the appraised value of the existing properties in this area were based on the value of other properties in the same area, rehabilitation under the 203(k) program could not take place because the maximum loan to value ratios would be exceeded. Since the city of Tacoma is involved in redeveloping and revitalizing this area of their city and they will help low and moderate income families by offering affordable housing opportunities, a waiver of the market values in equivalent neighborhoods in other parts of the community that had already been rehabilitated. This waiver will help the city of Tacoma expand affordable housing opportunities in the Hilltop area.

11. *Regulation:* 24 CFR 280.305.

Project/Activity: Dudley Street Neighborhood Initiative, Roxbury, MA, Nehemiah Housing Opportunity Grant Program.

Nature of Requirement: Regulations require that a grantee presell 25 percent of the total number of homes in a Nehemiah project prior to construction or substantial rehabilitation of any homes (with the exception of model homes).

Granted By: Arthur J. Hill, Assistant Secretary for Housing—Federal Housing Commissioner.

Date Granted: June 25, 1992.

Reason Waived: The grantee requested approval to establish phases for the project. The waiver was granted in order to permit the grantee to pre-sell 25 percent of the homes in each phase before beginning construction or rehabilitation of any homes in the phase. Without the waiver, the grantee would have to pre-sell 25 percent of the units in the entire project before beginning construction or rehabilitation of any of the homes. Granting the waiver would facilitate the affordable housing opportunities for low- and moderate income families provided under the Nehemiah program by reducing the amount of time any family would have to wait in order to have work begin on their home.

12. *Regulation:* 24 CFR 280.305.

Project/Activity: Horace-Mann—Ambridge Neighborhood Improvement Organization, Inc., Gary, IN, Nehemiah Housing Opportunity Grant Program.

Nature of Requirement: Regulations require that a grantee presell 25 percent of the total number of homes in a Nehemiah project prior to construction or substantial rehabilitation of any homes (with the exception of model homes).

Granted By: Arthur J. Hill, Assistant Secretary for Housing—Federal Housing Commissioner.

Date Granted: June 25, 1992.

Reason Waived: The grantee requested approval to establish phases for the project. The waiver was granted in order to permit the grantee to pre-sell 25 percent of the homes in each phase before beginning construction or rehabilitation of any homes in the phase. Without the waiver, the grantee would have to pre-sell 25 percent of the units in the entire project before beginning construction or rehabilitation of any of the homes. Granting the waiver would facilitate the affordable housing opportunities of low- and moderate income families provided under the Nehemiah program by reducing the amount of time any family would have to wait in order to have work begin on their home.

13. *Regulation:* 24 CFR 280.305.

Project/Activity: Woonsocket Housing Development Corporation, Woonsocket, RI, Nehemiah Housing Opportunity Grant Program.

Nature of Requirement: Regulations require that a grantee presell 25 percent of the total number of homes in a Nehemiah project prior to construction or substantial rehabilitation of any homes (with the exception of model homes).

Granted By: Arthur J. Hill, Assistant Secretary for Housing-Federal Housing Commissioner.

Date Granted: July 17, 1992.

Reason Waived: The grantee requested approval to establish three phases for the project. The waiver was granted in order to permit the grantee to presell 25 percent of the homes in each phase before beginning construction or rehabilitation of any homes in the phase. Without the waiver, the grantee would have to presell 25 percent of the units in the entire project before beginning construction or rehabilitation of any of the homes. Granting the waiver would facilitate the affordable housing opportunities for low- and moderate income families provided under the Nehemiah program by reducing the amount of time any family would have to wait in order to have work begin on their home.

14. *Regulation:* 24 CFR 280.305.

Project/Activity: Wilson Community Improvement Association, Inc., Wilson, NC, Nehemiah Housing Opportunity Grant Program.

Nature of Requirement: Regulations require that a grantee presell 25 percent of the total number of homes in a Nehemiah project prior to construction or substantial rehabilitation of any homes (with the exception of model homes).

Granted By: Arthur J. Hill, Assistant Secretary for Housing-Federal Housing Commissioner.

Date Granted: August 27, 1992.

Reason Waived: The grantee requested approval to establish phases for the project. The waiver was granted in order to permit the grantee to presell 25 percent of the homes in each phase before beginning construction or rehabilitation of any homes in the phase. Without the waiver, the grantee would have to presell 25 percent of the units in the entire project before beginning construction or rehabilitation of any of the homes. Granting the waiver would facilitate the affordable housing opportunities for low- and moderate income families provided under the Nehemiah program by reducing the amount of time any family would have to wait in order to have work begin on their home.

15. *Regulation:* 24 CFR 234.1(k).

Project/Activity: Tony Cruz Condominium, Colorado Springs, CO.

Nature of Requirement: The regulation requires that a condominium project must consist of four or more units to be eligible for FHA-insured financing.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-Federal Housing Commissioner.

Date Granted: July 27, 1992.

Reason Waived: This duplex was originally built to be sold conventionally as a duplex. When the market did not respond, the builder, based upon advice from his counsel, decided to form a condominium project. Recognizing that this is an unusual situation that has occurred due to lack of familiarity with HUD's program requirements and that all HUD requirements, except the four-unit requirement, have been met; HUD determined that the units should not present a marketing problem should we acquire them in a claim. Without the waiver, the condominium would not be able to offer expanded affordable

housing opportunities for moderate income, first-time homebuyers.

16. *Regulation:* 24 CFR 234.28(e)(3).
Project/Activity: Colchester Town Condominium, Fairfax County, VA.
Nature of Requirement: The regulation requires that in order for a condominium project to be eligible for FHA-insured financing, at least 51 percent of the units must be occupied by owners of the units.
Granted By: Arthur J. Hill, Assistant Secretary for Housing-Federal Housing Commissioner.
Date Granted: July 28, 1992.
Reason Waived: Colchester Town Condominium is somewhat unique in that a governmental entity, the Fairfax County Redevelopment and Housing Authority (FCRHA) owns 32 of the 200 units in this project as part of the county's affordable rental program. Combined with a number of other investor-owned units, the ratio is currently 47 percent owner-occupied. Without the waiver, the condominium would not be able to offer expanded affordable housing opportunities for moderate income, first-time homebuyers as well as encouraging Fairfax County's initiative in providing affordable rental units.

Note to Reader: The person to be contacted for additional information about the waiver-grant items numbered 17 through 19 in this listing is:

Mr. Jan C. Opper, Field Coordination Officer, U.S. Department of Housing and Urban Development, Office of Community Planning and Development, 541 Seventh Street, SW., room 7270, Washington, DC 20410–7000. Phone: (202) 708–2565. TDD: (202) 708–2565.

17. *Regulation:* 24 CFR 570.200(a)(5) and 24 CFR 570.200(h).
Project/Activity: Petersburg, VA—rehabilitation program operations; Macomb County, MI—construction of a senior center; Jacksonville, NC—construction of sewer collector lines; Arlington, TX—Phase III-Arlington Human Services Center, a new gymnasium and renovation of a smaller existing gymnasium, and a senior recreation/nutrition center. Waiver of reimbursement of pre-agreement costs under the community Development Block Grant program.
Nature of Requirement: 24 CFR 570.200(h) permits reimbursement of certain eligible costs incurred prior to the date of the grant agreements. 24 CFR 570.200(a)(5) limits pre-agreement costs to those described in subparagraph 570.200(h).
Granted By: Randall H. Erben, Acting Assistant Secretary for Community Planning and Development.
Date Granted: June 16, 1992 (Petersburg, VA); June 26, 1992 (Macomb, MI); July 9, 1992 (Jacksonville, MI); July 14, 1992 (Arlington, TX).
Reasons Waived: In each of the jurisdictions above, the Acting Assistant Secretary determined that not granting a wavier would cause undue hardship on low and moderate income persons that would otherwise benefit from the facility or operations and adversely affect the purposes of the Housing and Community Development Act of 1974, as amended.

18. *Regulation:* 24 CFR 576.51(a).
Project/Activity: Yonkers, NY. Under the Emergency Shelter Grants program, waiver of the application submission deadline requirements to permit submission at a later date.
Nature of Requirement: 24 CFR 576.51(a) requires that any State, or formula city or county, or Territory, that elects to receive an Emergency Shelter Grant, submit an application no later than 45 days after the date of notification of the grant allocation amount.
Granted By: Randall H. Erben, Acting Assistant Secretary for Community Planning and Development.
Date Granted: July 9, 1992.
Reasons Waived: A waiver was granted for the above applicant because issues that arose in HUD review of the City of Yonker's Comprehensive Housing Affordability Strategy (CHAS) could have delayed approval of the CHAS beyond the date of the deadline for submission of the FY 1992 Emergency Shelter Grant (ESG) application. The CHAS must be approved before the ESG application. The CHAS was being submitted by applicant for the first time, as required by the National Affordable Housing Act. Not to grant a waiver of the application deadline and to extend the deadline would have caused undo hardship and would adversely affect the purposes of title IV of the Stewart B. McKinney Homeless Assistance Act, as amended.

19. *Regulation:* 24 CFR 577.400(b).
Project/Activity: Women's Housing Connection of Silicon Valley. Correction in a grant amount in the Transitional Housing for the Homeless program.
Nature of Requirement: 24 CFR 577.400(b) states that "After the initial obligation of funds, HUD will not make any upward revisions to the amount obligated for any approved assistance."
Granted By: Randall H. Erben, Acting Assistant Secretary for Community Planning and Development.
Date Granted: June 9, 1992.
Reasons Waived: Because of HUD's miscalculation of a disallowed expense, the initial grant award was less than it should have been. To avoid adversely affecting the purposes of the program, the waiver was granted.

Note to Reader: The person to be contacted for additional information about the waiver-grant items numbered 20 through 82 in this listing is:

James B. Mitchell, Financial Policy Division, Office of Housing, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410. Phone: (202) 708–4325, TDD: (202) 708–4594.

20. *Regulation:* 24 CFR 811.104(b), 811.107(a)(2), 811.108(a), 811.108(a)(1), 811.108(a)(2)(i), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).
Project/Activity: The Housing Authority of St. Marys current refunding of bonds which financed two Section 8 assisted projects in St. Marys Georgia: Cumberland Oaks (FHA No. 061–35340–PM–L8–M1) and Pines Apartments (FHA No. 061–35316–PM–L8–M1).
Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.
Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.
Date Granted: August 14, 1991.
Reasons Waived: The Part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by FHA mortgage amounts, HUD also agrees not to exercise its option under § 207.259(e) to call debentures prior to maturity. These refunding proposals were approved by HUD on July 9, and July 2, 1991, respectively. Refunding bonds have been priced to average yields of 7.71% and 7.76%. The tax-exempt refunding bond issues of $4,245,000 and $1,790,000 at current low-interest rates will save Section 8 subsidy and in the case of Cumberland Oaks, forced the cure of deficiencies cited by HUD's Atlanta Office. The Treasury also gains long-term tax revenue benefits through immediate replacement of outstanding tax-exempt coupons of 10.04% and 10.43% with tax-exempt bonds yielding 7.71% and 7.76%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contracts, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit).

curing project deficiencies, and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

21. *Regulation:* 24 CFR 811.104, 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a), 811.108(a)(1), 811.108(a)(3), 811.109(a)(2), 811.114(b)(3), 811.114(d), and 811.115(b).

Project/Activity: Douglas Housing Finance Corporation refunding of bonds which financed two Section 8 assisted projects: Casas de Esperanza and Pioneer Village (FHA Project Numbers 123–35132 and 123–35129).

Nature of Requirement: The Regulations set conditions under which HUD may grant a section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-Federal Housing Commissioner.

Date Granted: December 19, 1991.

Reasons Waived: Certain 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on November 27, 1991. Refunding bonds have been priced to an average yield of 7.00%. The tax-exempt refunding bond issue of $2,975,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons ranging between 10.125 and 11.75% at the call date in 1992 with tax-exempt bonds yielding 7.00%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage risk plus the 221(g)(4) put feature. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury Tax revenues (helping to reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for low-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

22. *Regulation:* 24 CFR 811.104, 811.105, 811.105(b)(1), 811.107(a)(2), 811.107(b), 811.108(a), 811.108(a)(1), 811.108(a)(3), 811.108(a)(4), 811.108(b)(1), 811.109(a)(2), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Maumelle Housing Development Corporation refunding of bonds which financed a Section 8 assisted project: Maumelle (Project No. AR–37–8023–014).

Nature of Requirement: The Regulations set conditions under which HUD may grant a section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: December 24, 1991.

Reasons Waived: Certain 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on December 24, 1991. Convertible refunding bonds have been priced to an average yield of 7.875 percent. The 1992A tax-exempt refunding bond issue of $9,390,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons ranging between 12.90 and 13.00 percent at the call date in 1992 with tax-exempt bonds yielding 7.875 percent. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

23. *Regulation:* 24 CFR 811.104, 811.105, 811.105(b)(1), 811.106, 811.107(a)(2), 811.107(b), 811.108(a), 811.108(a)(1), 811.1108(a)(3), 811.109(a)(2), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Brockton Housing Development Corporation refunding of bonds which financed a Section 8 assisted project: Douglas House (FHA No. 023–35266).

Nature of Requirement: The Regulations set conditions under which HUD may grant a section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted by: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: December 26, 1991.

Reasons Waived: Certain 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on November 18, 1991. Refunding bonds have been priced to an average yield of 7.375 percent. The tax-exempt refunding bond issue of $8,390,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 12 percent at the call date in 1992 with tax-exempt bonds yielding 7.375 percent. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

24. *Regulation:* 24 CFR 811.104, 811.105(b), 811.107(a)(2), 811.108(a), 811.108(a)(1), 811.108(a)(3), 811.109(a)(2), 811.114(b)(3), 811.114(d), and 811.115(b).

Project/Activity: Charter Mound Bayou Housing Corporation refunding of bonds which financed a Section 8 assisted project: Herdy Micou Homes Project (FHA Project Number 065–35315).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-Federal Housing Commissioner.

Date Granted: December 30, 1991.

Reasons Waived: Certain 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on November 27, 1991. Refunding bonds have been priced to an average yield of 7.50%. The tax-exempt refunding bond issue of $940,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of high coupon outstanding tax-exempt bonds at the call date in 1992 with tax-exempt bonds yielding 7.50%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of

the HAP contract, thus reducing FHA mortgage risk plus the 221(g)(4) put feature. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury Tax revenues (helping to reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for low-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

25. *Regulation:* 24 CFR 811.104, 811.105(b), 811.107(a)(2), 811.108(a), 811.108(a)(1), 811.108(a)(3), 811.109(a)(2), 811.114(b)(3), 811.114(d), and 811.115(b).

Project/Activity: Rehab Housing Development Corporation of Natchez refunding of bonds which financed a Section 8 assisted project: Natchez Rehabilitation Apartments Project (FHA Project Number 065–35309).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-Federal Housing Commissioner.

Date Granted: December 30, 1991.

Reasons Waived: Certain 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on November 18, 1991. Refunding bonds have been priced to an average yield of 7.50%. The tax-exempt refunding bond issue of $1,420,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons ranging between 10.50 and 12.50% at the call date in 1992 with tax-exempt bonds yielding 7.50%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage risk plus the 221(g)(4) put feature. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury Tax revenues (helping to reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for low-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

26. *Regulation:* 24 CFR 811.104, 811.105(b), 811.107(a)(2), 811.108(a), 811.108(a)(1), 811.108(a)(3), 811.109(a)(2), 811.114(b)(3), 811.114(d), and 811.115(b).

Project/Activity: Yazoo City Housing Development Corporation refunding of bonds which financed a Section 8 assisted project: Willow Wood Apartment Project (FHA Project Number 065–35267).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-Federal Housing Commissioner.

Date Granted: December 30, 1991.

Reasons Waived: Certain 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on October 9, 1991. Refunding bonds have been priced to an average yield of 7.50%. The tax-exempt refunding bond issue of $1,420,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of high coupon outstanding tax-exempt bonds at the call date in 1992 with tax-exempt bonds yielding 7.50%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage risk plus the 221(g)(4) put feature. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury Tax revenues (helping to reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for low-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

27. *Regulation:* 24 CFR 811.104(d), 811.105(b)(1), and 811.117.

Project Activity: Jefferson County (Alabama) current refunding of bonds which financed a Section 8 assisted project in Alabama: Spring Gardens Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant Section 11(b) exemption of multifamily housing revenue bonds from Federal income taxation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Dated Granted: January 15, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of this refunding transaction in which the project is owned by the Housing Authority, which will issue bonds as a non-profit entity under section 501(c)(3) of the Tax Code. This refunding proposal was approved by HUD on January 2, 1992. If permitted by future amendment of Section 8 appropriations statutes, the Authority has HUD approval to use the savings to provide housing for very low-income persons and families, a priority HUD objective established by Secretary Kemp.

28. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: The Beacon Heights HDC current refunding of bonds which financed a Section 8 assisted project in South Bend, Indiana: Beacon Heights Apartments (FHA No. 073–35371).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 3, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under § 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on May 8, 1991. Refunding bonds have been priced to an average yield of 7.625%. The tax-exempt refunding bond issue of $5,635,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 9.25% at the call date in 1991 with tax-exempt bonds yielding 7.625%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues,

(helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

29. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: The Michigan City HDC current refunding of bonds which financed a Section 8 assisted project in Elkhart, Indiana: Woodlands East Phase II Apartments (FHA No. 073–35337).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 3, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on June 20, 1991. Refunding bonds have been priced to an average yield of 7.625%. The tax-exempt refunding bond issue of $1,200,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 9.0% at the call date in 1991 with tax-exempt bonds yielding 7.625%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

30. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: The Beckley HDC advance refunding of bonds which financed a Section 8 assisted project in Beckley, West Virginia: Manor House Apartments (FHA No. 045–35154).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 23, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions, to credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under § 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on May 9, 1991. Refunding bonds have been priced to an average yield of 8.0%. The tax-exempt refunding bond issue of $4,145,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 12% at the call date in 1992 with tax-exempt bonds yielding 8.0%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

31. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: The Bay Shore HDC refunding of bonds which financed a Section 8 assisted project in Islip, New York: Bay Towne Village Apartments (FHA No. 012–35538).

Nature of requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing/FHA Commissioner.

Date Granted: July 25, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its options under § 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on June 20, 1991. Refunding bonds have been priced to an average yield of 7.75%. The tax-exempt refunding bond issue of $7,175,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-germ tax revenue benefits through replacement of outstanding tax-exempt coupons of 13% at the call date in 1992 with tax-exempt bonds yielding 7.75%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

32. *Regulation:* 24 CFR § 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: The Lillian Cooper HDC current refunding of bonds which financed a Section 8 assisted project in Utica, NY: Faxton-Scott Apartments (FHA No. 013–35095).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: August 15, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under § 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on August 8, 1991. Refunding bonds have been priced to an average yield of 7.236%. The tax-exempt refunding bond issue of $3,090,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 12.0% at the call date in 1991 with tax-exempt bonds yielding 7.236%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of

reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

33. *Regulation:* 24 CFR § 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: The Lillian Cooper HDC current refunding of bonds which financed a Section 8 assisted project in Utica, NY: Margaret Apartments (FHA No. 013–35105).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: August 15, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under § 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on August 8, 1991. Refunding bonds have been priced to an average yield of 7.27%. The tax-exempt refunding bond issue of $2,065,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10.6% at the call date in 1991 with tax-exempt bonds yielding 7.27%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

34. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: The Biltmore HDC current refunding of bonds which financed a Section 8 assisted project in Ohio: Biltmore Apartments (FHA No. 046–35532).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted by: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: September 12, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on September 10, 1991. Refunding bonds have been priced to an average yield of 7.5%. The tax-exempt refunding bond issue of $10,555,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 9⅝%–12¼% at the call date in 1992 with tax-exempt bonds yielding 7.5%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit, and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

35. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: The Lillian Cooper HDC current refunding of bonds which financed a Section 8 assisted project in Utica, New York: Genesee Towers Apartments (FHA No. 013–35108).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted by: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: September 12, 1991.

Reasons waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on September 4, 1991. Refunding bonds have been priced to an average yield of 7.5%. The tax-exempt refunding bond issue of $2,000,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt bonds of 10.3% at the call date in 1991 with tax-exempt bonds yielding 7.5%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

36. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a), 811.108(a)(3), 811.114(d), and 811.115(b).

Project/Activity: The Penfield-Crown Oak HDC refunding of bonds which financed a Section 8 assisted project in Rochester, NY: Crown Oak Estates (FHA No. 014–35048–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(B) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: September 23, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its options under § 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on September 9, 1991. Refunding bonds have been priced to an average yield of 7.35%. The tax-exempt refunding bond issue of $3,895,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11–7/8% at the call date in 1991 with tax-exempt bonds yielding 7.35%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and

increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

Project Activity: Greater Tennessee HAC refunding of bonds which financed Section 8 assisted projects in Tennessee: Forest Creek, Dunlap Gardens, Sneedville, and Savannah Apartments.

Nature of Requirement: The regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: November 22, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on October 31, 1991. Refunding bonds have been priced to an average yield of 7.5%. The tax-exempt refunding bond issue of $6,520,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coup ns of 12%

at the call date in 1991 with tax-exempt bonds yielding 7.5%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purpose of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

41. *Regulation:* 24 CFR § 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: Russel Erskine HDC refunding of bonds which financed a Section 8 assisted project in Montgomery, Alabama: Russel Erskine Memorial Apartments (FHA No. 062–35318–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: December 3, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on September 18, 1991. Refunding bonds have been priced to an average yield of 7.75%. The tax-exempt refunding bond issue of $2,460,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11.5–11.75% at the call date in 1992 with tax-exempt bonds yielding 7.75%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 progfam costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire a priority HUD objective established by Secretary Kemp.

42. *Regulation:* 24 CFR § 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: City of Little Rock refunding of bonds which financed a Section 8 assisted project in Arkansas: Kanis Place Apartments (FHA No. 082–35222–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: December 19, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on December 11, 1991. Refunding bonds have been priced to an average yield of 7.15%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The tax-exempt refunding bond issue of $3,000,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 12% at the call date in 1991 with tax-exempt bonds yielding 7.15%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

43. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Montgomery HDC refunding of bonds which financed a Section 8 assisted project in Montgomery, Alabama: Jefferson Davis Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: December 19, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on November 18, 1991. Refunding bonds have been priced to an average yield of 7.40%. The tax-exempt refunding bond issue of $3,710,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 12% at the call date in 1992 with tax-exempt bonds yielding 7.40%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

44. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: Greater Ohio HAC refunding of bonds which financed four Section 8 assisted projects in Ohio: Laurel Estates, Beasley Mills, Douglas Square, and Smiley Gardens.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: December 19, 1991.

Reason Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance

refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on December 18, 1991. Refunding bonds have been priced to an average yield of 7.45%. The tax-exempt refunding bond issue of $5,700,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11.5% at the call date in 1991 with tax-exempt bonds yielding 7.45%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit, and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire a priority HUD objective established by Secretary Kemp.

45. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 81.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: Tri-City village HDC refunding of bonds which financed a Section 8 assisted projects in Dowagie, Michigan: Tri-City Village Apartments (FHA No. 047–35163–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: December 19, 1991.

Reason Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on September 30, 1991. Refunding bonds have been priced to an average yield of 8.15%. The tax-exempt refunding bond issue of $1,755,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 12% at the call date in 1991 with tax-exempt bonds yielding 8.15%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

46. *Regulation*: 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Gadsden HDC refunding of bonds which financed a Section 8 assisted project in Gadsden, Alabama: College Manor Apartments (FHA No. 062–35334–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing—FHA Commissioner.

Date Granted: December 23, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on October 30, 1991. Refunding bonds have priced to an average yield of 7.0%. The tax-exempt refunding bond issue of $1,565,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10.4% at the call date in 1991 with tax-exempt bonds yielding 7.0%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

47. *Regulation*: 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Port Chester CDC refunding of bonds which financed a Section 8 assisted project in Port Chester, NY: Southport Mews, FHA No. 36–0017–014.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing—FHA Commissioner.

Date Granted: December 23, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on October 25, 1991. Refunding bonds have been priced to an average yield of 7.5%. The tax-exempt refunding bond issue of $3,900,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 12% at the call date in 1991 with tax-exempt bonds yielding 7.5%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

48. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: Macon (Georgia) HDC refunding of bonds which financed a Section 8 assisted project in Macon, Georgia: Riverside Gardens Apartments (FHA No. 061–35332–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted by: Arthur J. Hill, Assistant Secretary for Housing—FHA Commissioner.

Date Granted: January 15, 1992.

Reasons waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on December 11, 1991. Refunding bonds have been priced to an average yield of 7.30%. The tax-exempt refunding bond issue of $2,410,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11.5% at the call date in 1992 with tax-exempt bonds yielding 7.30%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract when the mortgage interest rate drops from 12% to 7.6%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

49. *Regulation:* 24 CFR 811.105(b), 811.105(b)(c)(3), 811.107(a)(2), 811.107(b), 811.108(a), 811.108(a)(1), 811.108(a)(3), 811.109(a)(2), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: City of Fort Worth HC refunding of bonds which financed a Section 8 assisted project in Fort Worth, Texas: Peppertree Acres Apartments (FHA No. 113-35075-PM-L8), FAF & Ethics No. 213.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing—FHA Commissioner.

Date Granted: February 4, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on January 6, 1992. Refunding bonds have been priced to an average yield of 7.36%. The tax-exempt refunding bond issue of $4,935,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of out-standing tax-exempt coupons of 11.95% at the call date in 1992 with tax-exempt bonds yielding 7.36%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

50. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Pinellas County HA refunding of bonds which financed to Section 8 assisted projects in Florida: Cypress Courts (FHA No. 066-35173-TN-L8) and Oceanside Estates Apartments (FHA No. 067-35235-TN-L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Houseing—FHA Commissioner.

Date Granted: February 5, 1992.

Reasons Waived: The part 811 regulations cited above were intend for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on January 30, 1992. Refunding bonds have been priced to an average yield of 6.85%. The tax-exempt refunding bond issues of $2,035,000 and $3,295,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10.5% at the call date in 1991 with tax-exempt bonds yielding 6.85%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

51. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Lucas County HA refunding of bonds which financed a Section 8 assisted project in Toledo, Ohio: Lucas-Plaza Apartments (FHA No. 042-35364).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted by: Arthur J. Hill, Assistant Secretary for Housing—FHA Commissioner.

Date Granted: February 1, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding does not use a HUD debenture lock or provide credit enhancement and, as an experiment, the bonds will be sold unrated. This refunding proposal was approved by HUD on February 1, 1991. Refunding bonds have been priced to an average yield of 8.5%. The tax-exempt refunding bond issue of $7,054,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exemt coupons of 12% at the call date in 1992 with tax-exempt bonds yielding 8.5%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to prove housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

52. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: Chester Redevelopment Authority refunding of bonds which financed a Section 8 assisted projects in Pennsylvania:

Chester Apartments (FHA No. 034–35214–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: February 19, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on October 25, 1991. Refunding bonds have been priced to an average yield of 6.88%. The tax-exempt refunding bond issue of $5,165,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11.75% at the call date in 1991 with tax-exempt bonds yielding 6.88%. The refunding will also substantially reduce FHA project exempt mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

53. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: Devon Trace HDC refunding of bonds which financed a Section 8 assisted project in Ferndale, Michigan: Devon Trace Apartments (FHA No. 044–35527–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: February 24, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on January 30, 1992. Refunding bonds have been priced to an average yield of 7.55%. The tax-exempt refunding bond issue of $2,340,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11.25% at the call date in 1992 with tax-exempt bonds yielding 7.55%. The refunding will also substantially reduce the FHA mortgage interest rate from 11.5% to 8.25% at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

54. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Jackson HA refunding of bonds which financed a Section 8 assisted project in Mississippi: Delhaven Manor Apartments (FHA No. 065–35350–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: March 3, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on January 27, 1992. Refunding bonds have been priced to an average yield of 7⅜%. The tax-exempt refunding bond issue of $3,050,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11¾% at the call date in 1992 with tax-exempt bonds yielding 7⅜%. The refunding will also substantially reduce the FHA mortgage interest rate at expiration of the HAP contract, from 12% to 7.6%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

55. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: El Paso HC refunding of bonds which financed three Section 8 assisted projects in Texas: Sierra Vista, Cove Village, and River Park East Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: March 30, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on February 19, 1992. Refunding bonds have been priced to an average yield of 7⅜%. The tax-exempt refunding bond issue of $6,895,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11¾% at the call date in 1992 with tax-exempt bonds yielding 7⅜%. The refunding will also substantially reduce the FHA mortgage interest rate at expiration of the HAP contract, from 12% to 7.5%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues,

(helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

56. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: Niagara Falls Housing Agency refunding of bonds which financed a Section 8 assisted project in New York: Colt Block Apartments (FHA No. 014–35051–PM–SR–L8).

Nature of Requirement: The regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: March 31, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its options under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on February 24, 1992. Refunding bonds have been priced to an average yield of 7⅜%. The tax-exempt refunding bond issue of $2,270,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11% at the call date in 1992 with tax-exempt bonds yielding 7⅜%. The refunding will also substantially reduce the FHA mortgage interest rate at expiration of the HAP contract, from 10.5% to 8.0%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

57. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.198(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Cleveland (Texas) HC refunding of bonds which financed four Section 8 assisted projects in Texas: Park Place, Heritage Square, Fox Run, and Colonial Park Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: April 23, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on Janaury 30, 1992. Refunding bonds have been priced to an average yield of 7.45%. The tax-exempt refunding bond issue of $7,190,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11¾% at the call date in 1992 with tax-exempt bonds yielding 7.48%. The refunding will also substantially reduce the FHA mortgage interest rate at expiration of the HAP contract, from 12% to 7.6%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

58. *Regulation*: 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Ohio HFA refunding of bonds which financed seven Section 8 assisted projects in Ohio: Loveland Pines, West Park Senior, Brookside Village, Park Place, Rosaline, Orchard Terrace, and Crossgate Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted by: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: April 27, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on March 30, 1992. Refunding bonds have been priced to an average yield of 7.54%. The tax-exempt refunding bond issue of $11,325,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10–12.25% at the call date in 1992 with tax-exempt bonds yielding 7.54%. The refunding will also substantially reduce the FHA mortgage interest rates at expiration of the HAP contract, from 11.16% to 12.0% down to 7.625%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

59. *Regulation*: 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Hinesville Housing Authority refunding of bonds which financed a Section 8 assisted project in Georgia: Baytree Apartments (FHA No. GA06–0012–012).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted by: Authur J. Hill, Assistant Secretary for Housing-HFA Commissioner.

Date Granted: April 29, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on April 7, 1992. Refunding bonds have been priced to an average yield of 6.99%. The tax-exempt refunding bond issue of $1,700,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-

exempt coupons of 10.5% at the call date in 1992 with tax-exempt bonds yielding 6.99%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

60. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Bristol Housing Authority refunding of bonds which financed a Section 8 assisted project in Virginia: Springdale Village Apartments (FHA No. 051–35322–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: May 14, 1992.

Reasons Waived: The part 811 regulations cited bove were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on April 21, 1992. Refunding bonds have been priced to an average yield of 7¼%. The tax-exempt refunding bond issue of $3,785,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10.5% at the call date in 1992 with tax-exempt bonds yielding 7¼%. The refunding will also substantially reduce the FHA mortgage interest rate at expiration of the HAP contract, from 10.55% to 7.8%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

61. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a) (1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Philadelphia Redevelopment Authority refunding of bonds which financed a Section 8 assisted project: West Philadelphia Townhouses (FHA No. 034–35208–LM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill Assistant Secretary for Housing-FHA Commissioner.

Date Granted: May 14, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on February 20, 1992. Refunding bonds have been priced to an average yield of 7⅜%. The tax-exempt refunding bond issue of $6,880,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11.5% at the call date in 1992 with tax-exempt bonds yielding 7⅜%. The refunding will also substantially reduce the FHA mortgage interest rate at expiration of the HAP contract from 11.78% to 7.6%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

62. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Lehigh HA refunding of bonds which financed three Section 8 assisted projects in Pennsylvania: Coplay, Hokendauqua, and Whitehall Township Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: May 28, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on February 19, 1992. Refunding bonds have been priced to an average yield of 7⅛%. The tax-exempt refunding bond issue of $3,795,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11½% at the call date in 1992 with tax-exempt bonds yielding 7⅛%. The refunding will also substantially reduce the FHA mortgage interest rates at expiration of the HAP contract, from 11¾% down to 7½%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

63. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: North Tampa HDC refunding of bonds which financed a Section 8 assisted project in Florida: Country Oaks Apartments (FHA No. 063–35263–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: June 3, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding

transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on January 15, 1992. Refunding bonds have been priced to an average yield of 7.085%. The tax-exempt refunding bond issue of $4,280,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11.5% at the call date in 1992 with tax-exempt bonds yielding 7.085%. The refunding will also substantially reduce the FHA mortgage interest rates at expiration of the HAP contract, from 12% to 7.15%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

64. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Fifth Avenue HDC refunding of bonds which financed two Section 8 assisted projects in Gary, Indiana: NSA III and NSA V Apartments (FHA No. 073-33416-LM-L8 and 073-35459-PM-L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: June 23, 1992.

Reasons Waived: The part 811 regulation cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. Project refunding proposals were approved by HUD on October 25, 1991, and May 21, 1992. Refunding bonds have been priced to an average yield of 7.31%. The tax-exempt refunding bond issues of $5,635,000 and $9,780,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11¼% at the call date in 1993 with tax-exempt bonds yielding 7.31%. The refunding will also substantially reduce the FHA mortgage interest rate at expiration of the HAP contract, from 11.57% to 7¼%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

65. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Chicago HA refunding of bonds which financed 16 Section 8 assisted projects in Chicago (list attached to Notification of Tax Exemption).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: June 30, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on June 29, 1992. Refunding bonds have been priced to an average yield of 6.82%. The tax-exempt refunding bond issues of $59,240,000 and $23,030,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11½% at the call dates in 1992 with tax-exempt bonds yielding 6.82%. The refunding will also substantially reduce the FHA mortgage interest rates of expiration of the HAP contracts, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

66. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Mount Pleasant HDC refunding of bonds which financed a Section 8 assisted project in Boston: Mount Pleasant Apartments (FHA No. 023-35221-LDP-L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: June 30, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on June 29, 1992. Refunding bonds have been priced to an average yield of 6.85%. The tax-exempt refunding bond issue of $4,400,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 9-12% at the call date in 1992 with tax-exempt bonds yielding 6.85%. The refunding will also substantially reduce the FHA mortgage interest rate at expiration of the HAP contract, from 12% to 6%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

67. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Rome HDC refunding of bonds which financed a Section 8 assisted project in Rome, New York: Park Drive Apartments (FHA No. 013-35127-PM-L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income

taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 1, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on January 15, 1992. Refunding bonds have been priced to an average yield of 7.23%. The tax-exempt refunding bond issue of %6,725,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10⅜% at the call date in 1993 with tax-exempt bonds yielding 7.35%. The refunding will also substantially reduce the FHA mortgage interest rate at expiration of the HAP contract, from 10¼% to 7.35%, thus reducing FHA mortgage insurance risk. The refunding serves the important pubic purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

68. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Bucks County RA refunding of bonds which financed a Section 8 assisted project in Pennsylvania: Warminster Apartments, FHA No. 034–34184–PM–L8.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissionet.

Date Granted: July 10, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on December 11, 1991. Refunding bonds have been priced to an average yield of 6.81%. The tax-exempt refunding bond issue of $3,800,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 9.5–11.5% at the call date in 1992 with tax-exempt bonds yielding 6.81%. The refunding will also substantially reduce the FHA mortgage interest rates at expiration of the HAP contract, from 11.64% down to 7.125%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

69. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Ohio HFA refunding of bonds which financed three Section 8 assisted projects in Ohio: Plaza, Chadwick Place, and Western Glen Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 14, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on July 9, 1992. Refunding bonds have been priced to an average yield of 6.86%. The tax-exempt refunding bond issue of $5,090,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11–12.25% at the call date in 1992 with tax-exempt bonds yielding 7.25%. The refunding will also substantially reduce the FHA mortgage interest rates at expiration of the HAP contract, from 12.0% down to 7.25%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

Regulation: 24 CFR 811.105(b), 811.107(a)(2), 811.108(a), 811.108(a)(1), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Winter Haven HA refunding of bonds which financed a Section 8 assisted project in Winter Haven, Florida: Abbey Lane Apartments (FHA No. 067–35251—HUD Ethics No. 235).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing—FHA Commissioner.

Date Granted: July 15, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on April 27, 1992. Refunding bonds have been priced to an average yield of 7.17%. The tax-exempt refunding bond issue of $4,075,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons ranging between 10.25% and 20.00% at the call date in 1992 with tax-exempt bonds yielding 7.17%. The refunding will also substantially reduce the FHA mortgage interest rate from 11.23% to 7.37% at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

Regulation: 24 CFR 811.105(b), 811.107(a)(2), 811.108(b)(1), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Augusta Housing Agency Inc., an instrumentality of the Augusta (Georgia) Housing Authority refunding of bonds which financed a non-FHA Insured, 30-year Section 8 assisted project in Augusta, Georgia: Bon Air Apartments (GA–0013–002/GA–0015–003), FAF & Ethics No. 192.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing—FHA Commissioner.

Date Granted: July 21, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on March 20, 1992. Refunding bonds have been priced at 7.36%. The 1992 Series C tax-exempt refunding bond issue of $8,025,000 at current low-interest rates will yield 7.36%. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 12.00% at the call date in 1992 with tax-exempt bonds yielding 7.36%. While the refunding will not reduce the non-FHA project mortgage debt service, savings from the refunding (upon request of HUD's Atlanta Office) will by March 1995 contribute $702,700, to correct all deficiencies cited by said HUD Office and bring the project back into compliance. The refunding serves the important public purposes of also reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

72. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.0108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: Clearwater (Florida) HDC refunding of bonds which financed a Section 8 assisted project in Clearwater, Florida: Clearwater Apartments, FAF and Ethics No. 1.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted by: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 29, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on July 29, 1992. Refunding bonds have been priced to an average yield of 7.09%. The tax-exempt refunding bond issue of $3,380,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons ranging between 13.15% and 19.15% at the call date in 1992 with tax-exempt bonds yielding 7.09%. The refunding will also substantially reduce the FHA mortgage interest rates at expiration of the HAP contract from 12.0% down to 6.10%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of also reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

73. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b, 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project Activity: Lewiston HA refunding of bonds which financed three Section 8 assisted projects in Lewiston, Maine: Bartlett Court, Bates Street, and Pierce Place Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted by: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 29, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on July 16, 1992. Refunding bonds have been priced to an average yield of 6.61%. The tax-exempt refunding bond issue of $5,005,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10–11.5% at the call date in 1992 with tax-exempt bonds yielding 6.61%. The refunding will also substantially reduce the FHA mortgage interest rates at expiration of the HAP contract, from 11.77% to 7.0% down to 7.625%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of also reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

74. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.107(b), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Third Columbus (Georgia) HDC refunding of bonds which financed a Section 8 assisted project in Georgia: Renaissance Villa Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 29, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on July 16, 1992. Refunding bonds have been priced to an average yield of 7.06%. The tax-exempt refunding bond issue of $1,790,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11¼–12⅛% at the call date in 1992 with tax-exempt bonds yielding 7.06%. The refunding will also substantially reduce the FHA mortgage interest rates at

expiration of the HAP contract, from 12.0% down to 6.0%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

75. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: Dayton (Kentucky) HA refunding of bonds which financed a Section 8 assisted project in Ohio: Cambridge Arms I Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 31, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on April 14, 1992. Refunding bonds have been priced to an average yield of 7.47%. The tax-exempt refunding bond issue of $4,345,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10% at the call date in 1992 with tax-exempt bonds yielding 7.47%. The refunding will also substantially reduce the FHA mortgage interest rates at expiration of the HAP contract, from 10¼% to 7.75%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

76. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: The Hinesville (Georgia) HA refunding of bonds which financed a Section 8 assisted project in Georgia: Northgate Apartments.

Nature of Requirement: The regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 31, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise this option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on July 17, 1992. Refunding bonds have been priced to an average yield of 6.72%. The tax-exempt refunding bond issue of $2,655,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10.5 to 11% at the call date in 1992 with tax-exempt bonds yielding 6.72%. The refunding will also substantially reduce the FHA mortgage interest rates at expiration of the HAP contract, from 12.0% to a rate close to the bond rate, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

77. *Regulation:* 24 CFR 811.105(b), 811.107(a)(2), 811.108(a)(1), 811.108(a)(2), 811.108(a)(3), 811.114(b)(3), 811.114(d), 811.115(b).

Project/Activity: The Spring Creek HDC refunding of bonds which financed a Section 8 assisted project in Illinois: Spring Creek Towers Apartments (FHA No. 072–35079–PM–L8).

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted by: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: August 27, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refundings bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal as approved by HUD on August 4, 1992. Refunding bonds have been priced to an average yield of 6.6%. The tax-exempt refunding bond issue of $5,145,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10.2–12.3% at the call date in 1992 with tax-exempt bonds yielding 6.6%. The refunding will also substantially reduce the FHA mortgage interest rates at expiration of the HAP contract, from 10.23% to 6.87%, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

78. *Regulations:* 24 CFR 811.114(d), 811.115(b), 811.117.

Project/Activity: The City and County of Honolulu advance refunding of bonds which financed a Section 8 assisted project in the State of Hawaii, Smith-Beretania Apartments, FHA No. 140–35092.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: July 15, 1991.

Reasons Waived: The part 811 relations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under § 207.259(e) to call debentures prior to maturity. This refunding proposal was

approved by HUD on July 9, 1991. Refunding bonds have been priced to an average yield of 7.75%. The tax-exempt refunding bond issue of $10,680,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 11.75% at the call date in 1992 with tax-exempt bonds yielding 7.75%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood the projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

79. *Regulation:* 24 CFR 811.114(d), 811.115(b), 811.117.

Project/Activity: The Pryor Creek (Oklahoma) Development Authority funding of bonds which financed a Section 8 assisted project in the State of Oklahoma: Twin Villa Apartments, FHA No. OK56–0013–003.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: November 29, 1991.

Reasons Waived: The part 811 relations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under § 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on November 18, 1991. Refunding bonds have been priced to an average yield of 7.25%. The tax-exempt refunding bond issue of $2,385,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10.3% at the call date with tax-exempt bonds yielding 7.25%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood the projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

80. *Regulation:* 24 CFR 811.114(d), 811.115(b), and 811.117.

Project/Activity: McKinney Act State Agency Refunding of bonds which financed four Section 8 assisted projects in the Sate of Delaware: (1) Woodlea Apartments, (2) Silver Lake Estates, (3) Little Creek Apartments, and (4) Spencer Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity. The refunding is accomplished via section 103 of the Internal Revenue Code of 1986, and FAF Agreements are in place.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: December 10, 1991.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. This refunding proposal was approved by HUD on October 25, 1991, and is refunded under FAF/McKinney; it will not only reduce FHA project mortgage debt service but due to the 50–50 percent savings split derived from the refunding, Delaware is able to provide housing for very low-income persons and families (Homeless) as required by the McKinney Act and is a priority HUD objective established by Secretary Kemp.

81. *Regulation:* 24 CFR 811.114(d), 811.115(b), 811.117.

Project/Activity: The Craig County refunding of bonds which financed a Section 8 assisted project in Craig County, Oklahoma: "Hornet Apartments," FHA No. 118–35106–PM–L8.

Nature of Requirement: The Regulations set conditions under which HUD may grant a section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity.

Granted By: Arthur J. Hill, Acting Assistant Secretary for Housing-FHA Commissioner.

Date Granted: February 20, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage amount, HUD also agrees not to exercise its option under § 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on January 30, 1992. Refunding bonds have been priced to an average yield of 6.9%. The tax-exempt refunding bond issue of $1,770,000 at current low-interest rates will save Section 8 subsidy. The Treasury also gains long-term tax revenue benefits through replacement of outstanding tax-exempt coupons of 10.4% at the call date in 1992 with tax-exempt bonds yielding 6.9%. The refunding will also substantially reduce FHA project mortgage debt service at expiration of the HAP contract, thus reducing FHA mortgage insurance risk. The refunding serves the important public purposes of reducing HUD's Section 8 program costs, improving Treasury tax revenues, (helping reduce the budget deficit), and increasing the likelihood that projects will continue to provide housing for lower-income families after subsidies expire, a priority HUD objective established by Secretary Kemp.

82. *Regulation:* 24 CFR 811.114(d), 811.115(b), and 811.117, and 207.259(e).

Project/Activity: McKinney Act State Agency Refunding of bonds which financed a Section 8 assisted project in the District of Columbia: Cavalier Apartments.

Nature of Requirement: The Regulations set conditions under which HUD may grant a Section 11(b) letter of exemption of multifamily housing revenue bonds from Federal income taxation and authorize call of debentures prior to maturity. The refunding is accomplished via section 103 of the Internal Revenue Code of 1986, and no HUD Notification of 11(b) Tax Exemption is needed.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-FHA Commissioner.

Date Granted: May 28, 1992.

Reasons Waived: The part 811 regulations cited above were intended for original bond financing transactions and do not fit the terms of refunding transactions. To credit enhance refunding bonds not fully secured by the FHA mortgage, HUD agrees not to exercise its option under 24 CFR 207.259(e) to call debentures prior to maturity. This refunding proposal was approved by HUD on April 2, 1992. It will not only reduce FHA project mortgage debt service but due to the 50–50 percent savings split derived from the refunding, the D.C. HFA will gain $1.1

million to provide housing for very low-income households, as required by the McKinney Act, a priority HUD objective established by Secretary Kemp.

Note to Reader: The person to be contacted for additional information about waiver-grant item number 83 in this listing is: Michael Levine, Acting Director, Development Grant Division, Office of Elderly and Assisted Housing, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410. Phone: (202) 708–0558. TDD: (202) 708–4594.

83. *Regulation:* 24 CFR 850.31(f).
Project/Activity:

Project name	Project No.	Field office
Washington Square Phase II.	PA009HG701	Philadelphia.

Nature of Requirement: The regulatory provision cited above prohibits certain modifications of Housing Development Grant (HDG) Projects after an application is funded. "Changes of site, total number of units, unit size (number of bedrooms), building type, or number of lower income units are not permitted."

Granted By: Arthur J. Hill, Assistant Secretary for Housing-Federal Housing Commissioner.

Date Granted: July 17, 1992.

Reason Granted: The waiver permitted an increase in the number of low income units from 20 to 48, increase in number of units from 100 to 101, and reconfiguration of project buildings.

Since the waiver request was related to the introduction of Lower Income Housing Tax Credits to the project, the waiver was conditioned on a possible HDG reduction as determined appropriate by HUD subsidy layering analysis. Analysis is now in process.

Standard criteria for waiving § 850.31(f) and how the project met each criterion are as follows:

1. The revised project should be as competitive as the approved application.

Response: The revised project is more competitive than the original because of the increase in lower income units and the decrease in HDG funds per unit.

2. Unforeseeablity of change at time of project application.

Response: Since project approval, the housing market softened while the need for lower income housing units increased. Difficulties in leasing Phase I, provided evidence that the market had changed.

3. "Good cause" for revising the approved HDG application.

Response: The revision provides more lower income units while maintaining project feasibility.

4. The change is in the public interest.

Response: The increase in the number of lower income units is in the public interest.

5. Change meets at least one of the Secretary's goals for HUD.

Response: The goal of expanding housing opportunities is met by more low income units at no extra cost to HUD.

6. Change does not alter the basic character of the project.

Response: Project site, number of income-generating units, and bedroom distributions have not changed. The new design maintains open space. the change from stacked townhouses over garages to three-story garden apartments would have been required under new Handicapped Accessibility Standards.

Note to Reader: The person to be contacted for additional information about the waiver-grant item numbered 84 in this listing is: Kathryn Greenspan, Housing Program Specialist, Department of Housing and Urban Development, 451 Seventh Street, SW., room 4116, Washington, DC 20410. Phone: (202) 708–3887. TDD: (202) 708–4594.

84. *Regulation:* 24 CFR 882.712(c)(1)(iii).

Project/Activity: Project-Based Certificate Program.

Nature of Requirement: (1) Temporary relocation policies apply only to lawful residential tenants who are temporarily relocated from a property (building or complex) following submission of the Owner's application to the PHA for project-based certificate (PBC) assistance. (2) The temporary location period for such tenants will not exceed 12 months.

Granted By: Joseph G. Schiff, Assistant Secretary for Public and Indian Housing.

Date Granted: July 21, 1992.

Reason Waived: Families were temporarily relocated prior to submission of the PBC application to the PHA because of extensive code violations which made continued occupancy hazardous. The waiver will make it possible for the former tenants to return to the rehabilitated units.

Note to Reader. The person to be contacted for additional information about waiver-grant item number 85 in this listing is: Linda Cheatham, Director, Office of Insured Multifamily Housing Development, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410. Phone: (202) 708–3000. TDD: (202) 708–4594.

85. *Regulation:* 24 CFR 888.103a.
Project/Activity:

Project name	Project No.	Field office
Elmwood Park Senior Complex.	071–EH451	Chicago.

Nature of Requirement: On April 24, 1991, HUD published "Final Fair Market Rents" pursuant to its duties to establish FMRs under the above cited regulation. In the preamble to the actual schedule of applicable FMRs, it is stated that for certain projects, subject to FY 1987 FMRs and earlier, the 1988 FMRs are the highest and most recent which they may use, and "* * * shall be applicable to all subsequent processing in reviewing contract rents and utilities." Therefore, if HUD wishes not to impose a restriction that appears in the published preamble, it must waive the regulation.

Granted By: Arthur J. Hill, Assistant Secretary for Housing-Housing Commissioner.

Date Granted: August 26, 1992.

Reason Waived: The subject was selected for funding in 1988, and initially closed on May 22, 1989. Excavation of the site began in June 1989, and unforeseen soil contamination was discovered. The Illinois Environmental Protection Agency halted construction. A mortgage increase request to fund the estimated $483,472 cost of clean-up was submitted to Headquarters. If HUD strictly imposed the above referenced preamble requirement, which appears in the section on "applicability" to the FY 1989 schedule of new construction FMRs, and processed the subject FMRs applying the 1.20 prerogative of 1988 FMRs, an additional cash requirement of $78,663 was necessary. The subject's non-profit sponsor could not meet this necessary cash requirement, so it was likely that HUD would ultimately end up owning a contaminated site which it must then clean up anyway pursuant to its CERCLA liability. But if HUD waived the regulation, in recognition of the fact that the preamble requirement was not published until April 24, 1991, and previous established procedure would have permitted the use of 1989 FMRs, with a lesser prerogative of only 1.12 of 1989 FMRs, an additional cash requirement of only $83 would be necessary, since the sponsor's minimum capital investment of $10,000 has already been met. HUD and the sponsor share a common goal to provide this much needed housing and not waste the time, effort, and money already expended on this project.

Note to Reader: The person to be contacted for additional information about the waiver-grant items numbered 86 through 88 in this listing is: Roger Braner, Acting Director.

Office of Assisted Housing, Department of Housing and Urban Development, 451 Seventh Street, SW., room 4116, Washington, DC 20410. Phone: (202) 708–1380. TDD: (202) 708–4594.

86. *Regulation:* 24 CFR 901.120(b)(2).
Project/Activity: Cleveland and Chicago Field Offices, Chicago Regional Office.
Nature of Requirement: The Regulation cites specific time frames for Field Office completion of the Public Housing Management Assessment Program (PHMAP) assessment.
Granted By: Joseph G. Schiff, Assistant Secretary.
Date Granted: April 21, 1992.
Reason Waived: The Cleveland Field Office was granted a waiver for the completion of the PHMAP assessment for the Cuyahoga Metropolitan Housing Authority (CMHA) due to the necessity to merge performance data from the Lakeview Terrace Resident Management Firm with that of CMHA; and the completion by the Field Office of a confirmatory review after the merge has been completed. The Chicago Field Office was granted a waiver for the completion of the PHMAP assessment for all of the public housing agencies in its jurisdiction due to the flooding by the Chicago River and various computer problems.

87. *Regulation:* 24 CFR 901.120(b)(2).
Project/Activity: The Denver Regional Office.
Nature of Requirement: The Regulation cites specific time frames for Field Office completion of the Public Housing Management Assessment Program (PHMAP) assessment.
Granted By: Joseph G. Schiff, Assistant Secretary.
Date Granted: April 22, 1992.
Reason Waived: The Denver Regional Office was granted a waiver for the completion of the PHMAP assessment for the Salt Lake Housing Authority (SLHA) due to the fact that the SLHA used incorrect date for its PHMAP Certification and it required additional time to resubmit its first phase PHMAP certification, thereby necessitating additional time for the Denver Regional Office to complete the PHMAP assessment.

88. *Regulation:* 24 CFR 901.120(b)(2).
Project/Activity: The Little Rock Field Office, Ft. Worth Regional Office.
Nature of Requirement: The Regulation cites specific time frames for Field Office completion of the Public Housing Management Assessment Program (PHMAP) assessment.
Granted By: Joseph G. Schiff, Assistant Secretary.
Date Granted: July 13, 1992.
Reason Waived: The Little Rock Field Office was granted a waiver for the completion of the PHMAP assessment for the Marianna Housing Authority (MHA) due to the fact that the MHA used incorrect data for its PHMAP Certification and it required additional time to resubmit its first phase PHMAP certification, thereby necessitating additional time for the Little Rock Field Office to complete the PHMAP assessment.

Note to Reader: The person to be contacted for additional information about waiver-grant items numbered 89 through 93 in this listing is: Dom Nessi, Director, Office of Indian Housing, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410. Phone: (202) 708–1015. TDD: (202) 708–0850.

89. *Regulation:* 24 CFR 905.325.
Project/Activity: Establishment of ceiling rents for Lac Courte Oreilles Housing Authority Rental Program.
Nature of the Requirement: Waiver of the Regulation cited above is required to allow establishment of ceiling rents for their Rental Program.
Granted By: Joseph Schiff, Assistant Secretary for Public and Indian Housing.
Date Granted: May 20, 1992.
Reason Waived: This waiver was requested and granted to allow the Lac Courte Orielles Housing Authority to establish ceiling rents for their rental program in accordance with PIH Notice 89–21, which provides for the establishment of ceiling rents in a rental Indian housing program.

90. *Regulation:* 24 CFR 905.325.
Project/Activity: Establishment of ceiling rents for Ute Mountain Ute Housing Authority.
Nature of the Requirement: Waiver of the Regulation cited above is required to allow establishment of ceiling rents for their Rental Program.
Granted By: Joseph Schiff, Assistant Secretary for Public and Indian Housing.
Date Granted: May 20, 1992.
Reason Waived: This waiver was requested and granted to allow the Ute Mountain Ute Housing Authority to establish ceiling rents for their rental program in accordance with PIH Notice 89–21, which provides for the establishment of ceiling rents in a rental Indian housing program.

91. *Regulation:* 24 CFR 905.404 (a); 24 CFR 905.407 (b) (1) (3); 24 CFR 905.407 (c); 24 CFR 905.410; 24 CFR 905.413 (a), (b) and (d); 24 CFR 905.416 (c) and (d); 24 CFR 905.419 (b) and (c); 24 CFR 905.422; 24 CFR 905.440 (b) (1) and (2).
Project/Activity : Conversion of 355 Turnkey III (TKY III) units to the Mutual Help (MH) Homeownership Opportunity Program by the Tlingit-Haida Regional Housing Authority in Juneau, Alaska.
Nature of Requirement: The Regulations cited above apply to the construction, development, funding and occupancy of new construction developments. Therefore, waivers are required to convert an existing unit funded and built under one program to operation under a different program.
Granted By: Joseph Schiff, Assistant Secretary for Public and Indian Housing.
Date Granted: May 22, 1992.
Reason Waived: This action was requested, and granted, in order to fulfill the Department's obligation in the case entitled *Samato* v. *Wilson, et al,* in which, based on meeting their obligations under the Settlement Agreement, eligible members of the class were to be transferred from the TKY III Program to the MH Program.
Also, many of these homebuyers have been in their TKY III units since they were built and transferring to the MH Program will enable participants to realize homeownership in a shorter period of time.

92. *Regulation:* 24 CFR 905.440(c).
Project Activity: Establishment of Purchase Price for a Subsequent Homebuyer in the Mutual Help Homeownership Opportunity (MH) Program at the Northern Circle Indian Housing Authority in Ukiah, California.
Nature of Requirement: The Regulation cited above applies to how to establish a purchase price for a subsequent homebuyer. Therefore, a waiver is required to use only the current replacement cost, instead of the lower of the current replacement cost or the appraised value of the home.
Granted By: Joseph Schiff, Assistant Secretary for Public and Indian Housing.
Date Granted: May 21, 1992.
Reason Waived: This action was requested, and granted, because Northern Circle Indian Housing Authority has been unable to obtain a current appraisal due to a lack of cooperation by the Bureau of Indian Affairs to complete timely appraisals, a lack of understanding of trust land by private firms, and the unavailability of comparable properties.

93. *Regulation:* 24 CFR 905.705.
Project Activity: Providing Performance Funding System subsidy for one unit unit from the Modoc-Lassen Indian Housing Authority's inventory which is used as a space for community members to make Native American crafts, which will be sold locally and in surrounding communities.
Nature of Requirement: The regulation cited above discusses how to determine the amount of operating subsidy for which an IHA is eligible under the Performance Funding System.

Granted By: Joseph Schiff, Assistant Secretary for Public and Indian Housing.

Date Granted: March 25, 1992.

Reason Waived: This waiver was requested, and granted, to provide Performance Funding System operating subsidy for one unit removed from the Modoc-Lassen Indian Housing Authority's rental inventory. The rental units is being used as a crafts center which promotes economic self sufficient services to the community.

Note to Reader: The person to be contacted for additional information about the waiver-grant items numbered 94 through 100 in this listing is: Edward C. Whipple, Occupancy Division, Office of Management Operations, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, Phone: (202) 708-0744, TDD: (202) 708-0850.

94. *Regulation:* 24 CFR 913.107.

Project/Activity: Public housing projects owned and operated by the Edgar Housing Authority of Edgar, Nebraska.

Nature of Requirement: 24 CFR 913.107 requires that the Total Tenant Payment required to be paid by public housing tenants be the greater of 30 percent of Monthly Adjusted Income, 10 percent of Monthly Income or, where welfare benefits are determined on the basis of the family's actual housing costs, an amount equal to the portion of the grant designated for shelter and utilities.

Granted By: Joseph G. Schiff, Assistant Secretary for Public and Indian Housing.

Date Granted: August 27, 1992.

Reason Waived: To allow the Edgar Housing Authority to establish ceiling rents for all one-bedroom units on the basis of the 1987 amendments to the United States Housing Act of 1937 which permits public housing agencies (PHAs), with the approval of the Secretary, to establish ceiling rents.

95. *Regulation:* 24 CFR 913.107.

Project/Activity: Public housing projects owned and operated by the Housing Authority of Excelsior Springs, Missouri.

Nature of Requirement: 24 CFR 913.107 requires that the Total Tenant Payment required to be paid by public housing tenants be the greater of 30 percent of Monthly Adjusted Income, 10 percent of Monthly Income or, where welfare benefits are determined on the basis of the family's actual housing costs, an amount equal to the portion of the grant designated for shelter and utilities.

Granted By: Joseph G. Schiff, Assistant Secretary for Public and Indian Housing.

Date Granted: August 27, 1992.

Reason Waived: To allow the Housing Authority of Excelsior Springs to establish ceiling rents on the basis of the 1987 amendments to the United States Housing Act of 1937 which permits public housing agencies (PHAs), with the approval of the Secretary, to establish ceiling rents.

96. *Regulation:* 24 CFR 913.107

Project/Activity: Public housing projects owned and operated by the Ely Housing Authority of LaSalle County, in LaSalle County, Illinois.

Nature of Requirement: 24 CFR 913.107 requires that the Total Tenant Payment required to be paid by public housing tenants be the greater of 30 percent of Monthly Adjusted Income, 10 percent of Monthly Income or, where welfare benefits are determined on the basis of the family's actual housing costs, an amount equal to the portion of the grant designated for shelter and utilities.

Granted By: Joseph G. Schiff, Assistant Secretary for Public and Indian Housing.

Date Granted: August 27, 1992.

Reason Waived: To allow the Ely Housing and Redevelopment Authority to establish ceiling rents on the basis of the 1987 amendments to the United States Housing Act of 1937 which permits public housing agencies (PHAs), with the approval of the Secretary, to establish ceiling rents.

97. *Regulation:* 24 CFR 913.107.

Project/Activity: Public housing projects owned and operated by the Lucas Metropolitan Housing Authority of Lucas, Ohio.

Nature of Requirement: 24 CFR 913.107 requires that the Total Tenant Payment required to be paid by public housing tenants be the greater of 30 percent of Monthly Adjusted Income, 10 percent of Monthly Income or, where welfare benefits are determined on the basis of the family's actual housing costs, an amount equal to the portion of the grant designated for shelter and utilities.

Granted By: Joseph G. Schiff, Assistant Secretary for Public and Indian Housing.

Date Granted: August 27, 1992.

Reason Waived: To allow the Lucas Metropolitan Housing Authority to establish ceiling rents on the basis of the 1987 amendments to the United States Housing Act of 1937 which permits public housing agencies (PHAs), with the approval of the Secretary, to establish ceiling rents.

98. *Regulation:* 24 CFR 913.107.

Project/Activity: Public housing projects owned and operated by the Lynch Housing Authority

Nature of Requirement: 24 CFR 913.107 requires that the Total Tenant Payment required to be paid by public housing tenants be the greater of 30 percent of Monthly Adjusted Income, 10 percent of Monthly Income or, where welfare benefits are determined on the basis of the family's actual housing costs, an amount equal to the portion of the grant designated for shelter and utilities.

Granted By: Joseph G. Schiff, Assistant Secretary for Public and Indian Housing.

Date Granted: August 27, 1992.

Reason Waived: To allow the Lynch Housing Authority to establish ceiling rents for one-bedroom units on the basis of the 1987 amendments to the United States Housing Act of 1937 which permits public housing agencies (PHAs), with the approval of the Secretary, to establish ceiling rents.

99. *Regulation:* 24 CFR 913.107.

Project/Activity: Public housing projects owned and operated by the Housing Authority of the City of Marion, Indiana.

Nature of Requirement: 24 CFR 913.107 requires that the Total Tenant Payment required to be paid by public housing tenants be the greater of 30 percent of Monthly Adjusted Income, 10 percent of Monthly Income or, where welfare benefits are determined on the basis of the family's actual housing costs, an amount equal to the portion of the grant designated for shelter and utilities.

Granted By: Joseph G. Schiff, Assistant Secretary for Public and Indian Housing.

Date Granted: August 27, 1992.

Reason Waived: To allow the Housing Authority of the City of Marion to establish ceiling rents on the basis of the 1987 amendments to the United States Housing Act of 1937 which permits public housing agencies (PHAs), with the approval of the Secretary, to establish ceiling rents.

100. *Regulation:* 24 CFR 913.107.

Project/Activity: Public housing projects owned and operated by the Stromsburg Housing Authority of Stromsburg, Nebraska.

Nature of Requirement: 24 CFR 913.107 requires that the Total Tenant Payment required to be paid by public housing tenants be the greater of 30 percent of Monthly Adjusted Income, 10 percent of Monthly Income or, where welfare benefits are determined on the basis of the family's actual housing costs, an amount equal to the portion of the grant designated for shelter and utilities.

Granted By: Joseph G. Schiff, Assistant Secretary for Public and Indian Housing.

Date Granted: August 27, 1992.

Reason Waived: To allow the Stromsburg Housing Authority to establish ceiling rents for one-bedroom units on the basis of the 1987 amendments to the United States Housing Act of 1937 which permits public housing agencies (PHAs), with the approval of the Secretary, to establish ceiling rents.

Note to Reader: The person to be contacted for additional information about the waiver-grant items numbered 101 through 105 in this listing is: John Comerford, Director, Financial Management Division, Office of Public and Indian Housing, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410. Phone: (202) 708-1872. TDD: (202) 708-0850.

101. *Regulation:* 24 CFR 990.109(b)(3)(iv).

Project/Activity: Detroit Housing Department, Detroit, MI.

Nature of Requirement: The regulation requires a Low Occupancy PHA without an approved Comprehensive Occupancy Plan (COP) to use a projected occupancy percentage of 97%.

Granted by: Joseph G. Schiff, Assistant Secretary.

Date Granted: April 10, 1992.

Reason Waived: The initial request for a waiver came shortly after HUD had published a proposed rule in the **Federal Register** that would have established new conditions under which a PHA could include vacant units in the determination of operating subsidy eligibility. Congressional action on the Department's 1992 Appropriations Bill, however, included language in the Conference report that barred appropriated funds from being used to implement the proposed rule.

The proposed rule would have corrected inefficiencies and removed inequities contained in the current Vacancy Rule. The Congressional abrogation of the rule-making process meant a continuation of these problems. It was thus felt necessary to develop general policy describing the circumstances under which Vacancy Rule waivers would be considered and approved so that these problems could be minimized without being in conflict with the Congressional action. Waiver requests received during and after this period were reviewed but not generally not acted upon.

In response to this situation, HUD approved an obligation of $28.9 million of operating subsidy funds by issuing a letter-of-intent (LOI) in September 1991. In determining this amount, 62% was used as the assumed occupancy percentage. It was hoped, however, that a policy on Vacancy Rule waiver requests would be in place before payments of the LOI began so that appropriate conditions could be placed on the released funds, if warranted.

In November 1991, the Detroit Field Office was authorized to pay $14.4 million to the DHD and payment of an additional $4 million was authorized in March 1992. No conditions were placed on these payments. HUD is now asking Congress to reverse its earlier action on the proposed vacancy rule and allow HUD to proceed with publication of a final rule. Since only three months remained in the DHD's fiscal year and because there was an approvable budget in the Field Office, Good cause was found to exist to permit the DHD to use 62% as its projected Occupancy percentage.

102. *Regulation:* 24 CFR 990.109(e)(2).

Project/Activity: Denver Housing Authority, Denver, CO.

Nature of Requirement: The regulation requires a PHA to include locally-generated income in its calculation of operating subsidy eligibility.

Granted By: Joseph G. Schiff, Assistant Secretary.

Date Granted: April 24, 1992.

Reason Waived: The waiver allows the exclusion from the subsidy calculation of surcharge income from a cable TV service being offered to residents at the Denver Housing Authority. The provision of this cable service is seen as a desirable resident initiative project. The Central Resident Council (CRC) is expected to become responsible for the cable service contract within a year. Residents choosing cable service will pay a mandatory $2 surcharge as part of their monthly bill and this income, less reasonable administrative expenses, would be used by the CRC for resident initiatives such as the scholarship fund. This project will be operated with the full consultation and involvement of the CRC. This waiver is for a period not to exceed 12 months from the time the cable service is implemented. During this period the housing authority shall train and prepare CRC to assume complete responsibility for the cable service contract.

103. *Regulation:* 24 CFR 990.118(h)(1).

Project/Activity: Bromley-Heath Resident Management Corporation, Boston Housing Authority, Boston, MA.

Nature of Requirement: The regulation cites limited conditions under which Comprehensive Occupancy Plan goals can be adjusted.

Granted By: Joseph G. Schiff, Assistant Secretary.

Date Granted: June 30, 1992.

Reason Waived: The Resident Management Corporation (RMC) was not in place when the COP was developed and it does not have control over such resources as CIAP funding. The RMC was granted a waiver in order to permit the use of 89% as the projected occupancy goal for its 1992 fiscal year in recognition of these factors and as an encouragement to its financial stability.

104. *Regulation:* 24 CFR 990.118(h)(1).

Project/Activity: Carr Square RMC, St. Louis Housing Authority, St. Louis, MO.

Nature of Requirement: The regulation cites limited conditions under which Comprehensive Occupancy Plan goals can be adjusted.

Granted By: Joseph G. Schiff, Assistant Secretary.

Date Granted: June 30, 1992.

Reason Waived: The Resident Management Corporation (RMC) was not in place when the COP was developed and it does not have control over such resources as CIAP funding. The RMC was granted a waiver in order to permit the use of 72% as the projected occupancy goal for its 1992 fiscal year in recognition of these factors and as an encouragement to its financial stability. The RMC was encouraged to use the relief provided to develop a homeownership occupancy plan, marketing program and waiting list.

105. *Regulation:* 24 CFR 990.118(h)(1).

Project/Activity: Cochran Gardens—Cochran Plaza RMC, St. Louis Housing Authority, St. Louis, MO.

Nature of Requirement: The regulation cites limited conditions under which Comprehensive Occupancy Plan goals can be adjusted.

Granted By: Joseph G. Schiff, Assistant Secretary.

Date Granted: June 30, 1992.

Reason Waived: The Resident Management Corporation (RMC) was not in place when the COP was developed and it does not have control over such resources as CIAP funding. The RMC was granted a waiver in order to permit the use of 88% as the projected occupancy goal for its 1992 fiscal year in recognition of these factors and as an encouragement to its financial stability.

BILLING CODE 4210-32-M

Office of the Assistant Secretary for Community Planning and Development

[Docket No. N-92-1917; FR-2934-N-99]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

EFFECTIVE DATE: October 9, 1992.

ADDRESSES: For further information, contact James Forsberg, Department of Housing and Urban Development, room 7262, 451 Seventh Street SW., Washington, DC 20410; telephone (202) 708–4300; TDD number for the hearing- and speech-impaired (202) 708–2565, (these telephone numbers are not toll-free), or call the toll-free title V information line at 1–800–927–7588.

SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1988 court order in *National Coalition for the Homeless* v. *Veterans Administration*, No. 88–2503–OG (D.D.C.), HUD publishes a notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's notice is for the purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: October 2, 1992.

Denise R. Alexander,

Deputy Assistant Secretary for Operations.

BILLING CODE 4210–29–M

[Docket No. D–92–1008; FR–3273–D–01]

Redelegation of Authority for the HOPE for Homeownership of Single Family Homes Program (HOPE 3)

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice of redelegation of authority.

SUMMARY: The Assistant Secretary for Community Planning and Development is redelegating all power and authority with respect to the HOPE for Homeownership of Single Family Homes Program (HOPE 3) to Regional Administrators, Field Office Managers, and Field Directors of Offices or Divisions of Community Planning and Development, and their Deputies, subject to certain specified exceptions.

EFFECTIVE DATE: September 30, 1992.

FOR FURTHER INFORMATION CONTACT: John Garrity, Office of Affordable Housing Programs, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, telephone (202) 708–0324, TDD (202) 708–2565. (These are not toll-free numbers.).

SUPPLEMENTARY INFORMATION: The Secretary has delegated all power and authority with respect to the HOPE 3 Program to the Assistant Secretary for Community Planning and Development and the Deputy Assistant Secretary for Grant Programs, subject to certain exceptions, published elsewhere in today's issue. In this redelegation, the Assistant Secretary for Community Planning and Development is redelegating to specified officials of HUD Regional and Field Offices power and authority with respect to the HOPE 3 Program, subject to additional exceptions. In particular, the authority to approve and to terminate or to deobligate grants is limited to Regional Administrators, Field Office Managers, and their Deputies.

Accordingly, the Assistant Secretary for Community Planning and Development redelegates as follows:

Section A. Authority Redelegated

Each Regional Administrator, Field Office Manager, and Director of an Office or Division of Community Planning and Development, and the Deputy of each such official, is authorized by the Assistant Secretary for Community Planning and Development to exercise the power and authority of the Assistant Secretary with respect to the HOPE for Homeownership of Single Family Homes Program (HOPE 3) authorized by title IV, subtitle C, of the National Affordable Housing Act (42 U.S.C. 12891–17898).

Section B. Authority Excepted

The authority redelegated above does not include: (1) The authority to issue or waive rules and regulations, or (2) the authority to redelegate further the power and authority delegated herein. In addition, there is excepted from the authority delegated to Directors of Offices or Divisions of Community Planning and Development, and their Deputies, the power and authority to approve grants and to terminate or deobligate grants.

Authority: Title IV, subtitle C, of the National Affordable Housing Act (42 U.S.C. 12891–12898); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535 (d)).

Dated: September 30, 1992.

Randall H. Erben,

Acting Assistant Secretary for Community Planning and Development.

These lands are segregated from entry under the mining laws, except the mineral leasing laws, effective upon publication of this notice in the **Federal Register**. The segregative effect will terminate upon issuance of patent, upon publication in the **Federal Register** of termination of the segregation, or five years from the date of this publication, whichever comes first.

Final determination on disposal will await completion of an environmental assessment. Upon completion of the environmental assessment and land use decision, a Notice of Realty Action shall be published specifying the lands to be exchanged and the lands to be acquired.

DATES: On or before November 23, 1992, interested parties may submit comments to the Butte District Manager, P.O. Box 3388, Butte, MT 59702.

SUPPLEMENTARY INFORMATION: Detailed information concerning the exchange is available at the Garnet Resource Area Office, 3255 Fort Missoula Road, Missoula, Montana 59801.

Dated: September 30, 1992.

Michele D. Good,

Acting District Manager.

[NM-018-03-4333-10]

Intent To Prepare a Resource Management Plan Amendment/ Environmental Assessment (RMPA/ EA); New Mexico

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent to prepare an amendment to the Taos Resource Management Plan (RMP) incorporating Orilla Verde Recreation Area (the former Rio Grande State Park) into the RMP and directing future management of the area.

SUMMARY: The Taos Resource Area (TRA), Bureau of Land Management (BLM), proposes an amendment to the Taos RMP which was completed in 1988. The amendment would incorporate a 1349 acre reconveyance of the former Rio Grande State Park to BLM which took place in 1990. The Park was constructed with Land and Water Conservation Fund (LWCF) monies. LWCF requires perpetual dedication of the lands for park purposes. The amendment would also provide the framework for management of the recreation area within this criteria.

DATES: Interested parties may submit comments regarding concerns, issues, and criteria to be addressed in the plan amendment by October 30, 1992. This will constitute public scoping for the plan amendment.

ADDRESSES: Comments should be sent to Area Manager, Bureau of Land Management, Taos Resource Area Office, 224 Cruz Alta Road, Taos, New Mexico 87571.

FOR FURTHER INFORMATION CONTACT: Terry Humphrey, BLM, Taos Resource Area Office, 224 Cruz Alta Road, Taos, New Mexico 87571, 505-758-8851.

SUPPLEMENTARY INFORMATION: Several meetings concerning management of the area were held in Taos, Embudo, Santa Fe, and Questa, New Mexico during January and February, 1992. Several informal meetings were held with community leaders and interested citizens from March through August, 1992.

Following the public scoping comment period, the BLM will prepare a draft

RMPA/EA. A team of interdisciplinary specialists with backgrounds in outdoor recreation planning, wildlife biology, range management, hydrology, cultural resources, and geology will be involved in the preparation of the Plan Amendment/EA. Upon completion of the draft Plan Amendment/EA, a 30 day public review will follow. The Proposed Plan Amendment/EA and Decision Record will then be completed and a 30 day protest period will follow. A notice of availability will announce the Proposed Plan Amendment/EA and Decision Record in a subsequent **Federal Register**.

Dated: October 1, 1992.

Larry L. Woodard,

State Director.

Proposed Modification, Continuation, and Termination of Bureau of Reclamation Withdrawals, Riverton Reclamation Project; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: Approximately 261,269.43 acres of lands withdrawn for the Riverton Reclamation Project, including the Muddy Ridge Area, were reviewed under Section 204(l) of the Federal Land Policy and Management Act of 1976. Included in this total were 3,126.29 acres of lands in overlapping withdrawals within the Riverton Reclamation Project. The review resulted in the following Bureau of Reclamation recommendations:

1. Continue withdrawals on 45,059.53 acres which includes 390 acres of lands in overlapping withdrawals.

2. Terminate withdrawals on 59,472.39 acres which includes 476.33 acres of lands in overlapping withdrawals. Lands proposed for termination will return to the Bureau of Land Management. Future use and disposition of these lands will be based on land use planning, environmental analysis, and public participation.

3. Terminate withdrawals on approximately 66,332.30 acres which includes 1,120.34 acres of lands in overlapping withdrawals. The lands are privately owned surface having only ditches and canal reservations to the United States.

4. Terminate withdrawals on 90,405.21 acres, which includes 1,139.62 acres of lands in overlapping withdrawals. The lands are privately owned, having a reserved mineral or other interest to the United States.

The actions for termination in paragraphs 3 and 4 are record clearing actions. The termination would not open any lands to mineral location or leasing since all of the Federal mineral estate is currently available for development.

DATES: Comments need to be received by January 7, 1992 and should be limited to whether or not the lands proposed for continuation are being used for the purpose for which they were withdrawn. A map showing the lands proposed for retention and termination is available for viewing at the Lander Resource Area Office, Rawlins District Office, or the Wyoming State Office.

Public comment concerning future land uses, management, etc., for those lands proposed for termination (paragraph 2) and possible return to multiple use management by BLM, will be taken later when land use planning occurs.

ADDRESSES: Comments should be sent to the Ray Brubaker, State Director, Wyoming State Office, Bureau of Land Management, P.O. Box 1828, Cheyenne, Wyoming 82003, 307-775-6001.

FOR FURTHER INFORMATION CONTACT: Duane Feick, Wyoming State Office, P.O. Box 1828, Cheyenne, Wyoming 82003, 307-775-6127.

SUPPLEMENTARY INFORMATION: The Bureau of Reclamation proposes that 45,059.53 acres of lands withdrawn by Secretarial Orders of September 27, 1918, and January 3, 1920, the Act of Congress of August 15, 1953, and the Bureau of Land Management Order of April 5, 1956, be continued for a period of 50 years pursuant to section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751, 43 U.S.C. 1714 (1988). The lands are described as follows:

Wind River Meridian, Wyoming

T. 3 N., R. 1 E.,
- Sec. 1, lots 1-2, NE¼SE¼, W½SE¼SE¼;
- Sec. 12, NW¼NE¼NE¼, N½SW¼NE¼NE¼, SW¼SW¼NE¼NE¼, NW¼NE¼, NE¼NW¼;
- Sec. 16, S½N½SE¼NW¼, SW¼SW¼NW¼, W½W½NW¼SW¼;
- Sec. 17, N½SE¼NW¼NE¼, NW¼SW¼NE¼, SW¼SW¼NE¼, E½NW¼SE¼NE¼, SE¼SE¼NE¼, E½W½NW¼SE¼;
- Sec. 20, E½NE¼NW¼, N½S½NW¼, NE¼SE¼NW¼, N½SW¼SE¼NW¼, SE¼SW¼SE¼NW¼, SE¼SE¼NW¼;
- Sec. 21, SW¼SW¼;
- Sec. 28, SW¼NE¼, W½NE¼, NW¼, N½SW¼, SE¼SW¼, SE¼;
- Sec. 29, NE¼, NE¼SE¼;
- Sec. 33, NE¼;
- Sec. 34, E½SE¼NE¼, E½W½SE¼NE¼, W½NW¼, S½S½SE¼NW¼.

T. 4 N., R. 1 E.,
- Sec. 22, SE¼SE;
- Sec. 23, S½S½;
- Sec. 24, S½S½;
- Sec. 25, N½NE¼, SW¼NE¼, W½SE¼NE¼, NW¼NE¼SE¼NE¼, N½NE¼NE¼SE¼NE¼, W½, NW¼SE¼, W½SW¼SE¼, W½E½SW¼SE¼;
- Sec. 26, all;
- Sec. 27, E½E½;
- Sec. 34, NE¼NE¼;
- Sec. 35, NE¼, N½NW¼, SE¼NW¼;
- Sec. 36, W½NE¼, W½SE¼NE¼, NW¼, N½SW¼, NW¼NE¼SE¼, N½SW¼NE¼SE¼, W½SE¼, S½SE¼SE¼.

T. 2 N., R. 2 E.,
- Sec. 1, lots 1-4, S½N½, S½;
- Sec. 2, lots 1-4, S½N½, S½;
- Sec. 3, S½;
- Sec. 10, N½;
- Sec. 11, N½, SE¼;
- Sec. 12, N½;
- Sec. 19, lots 3-4, SE¼SW¼, SW¼SE¼, W½SE¼SE¼;
- Sec. 25, NW¼NE¼NW¼, S½NE¼NW¼.

T. 3 N., R. 2 E.,
- Sec. 1, lots 2-4, N½SW¼NW¼, Trs. 1-2;
- Sec. 2, Trs. 1 and 11;
- Sec. 3, Trs. 6, 11, 12, 16, 17, 19, and 21;
- Sec. 4, Trs. 4-5;
- Sec. 6, lots 4-5, Trs. 7-8;
- Sec. 7, NE¼ of lot 4, N½SE¼ of lot 4;
- Sec. 8, S½SE¼;
- Sec. 12, N½S½NE¼, SE¼SE¼NE¼;
- Sec. 15, W½E½NW¼;
- Sec. 23, NW¼SE¼NE¼;
- Sec. 25, W½NE¼SW¼, SE¼NE¼SW¼, W½SW¼, SE¼SW¼, S½S½N W¼SE¼, SW¼SE¼, E½SE¼;
- Sec. 26, SE¼NW¼, E½SW¼, SW¼SW¼ SE¼;
- Sec. 27, S½SE¼;
- Sec. 34, E½, NE¼NW¼, E½E½N W¼NW¼, NE¼SE¼NW¼, S½SE¼N W¼, N½NE¼SW¼;
- Sec. 35, all;
- Sec. 36, all.

T.4 N., R. 2 E.,
- Sec. 1, lots 1-3, S½NE¼, NE¼SE¼NW¼, S½NE¼SW¼, W½SW¼, N½SE¼S W¼, N½SW¼SE¼SW¼, SE¼SE¼S W¼;
- Sec. 2, NE¼SE¼, Tr. 10;
- Sec. 3, Trs. 1, 2, 5, and 6;
- Sec. 10, E½NE¼;
- Sec. 11, SW¼NW¼, SE¼SW¼, Trs. 3, 4, 9, and 10;
- Sec. 12, NE¼NE¼, NE¼NE¼NE¼NW¼;
- Sec. 13, Trs. 6-9;
- Sec. 14, NW¼SE¼, SE¼SE¼, Trs. 4-6;
- Sec. 19, lots 3-4, NE¼SW¼, N½SE¼S W¼, N½SE¼, N½SW¼SE¼, SE¼SE¼;
- Sec. 20, S½;
- Sec. 21, SW¼, S½SE¼;
- Sec. 22, S½S½;
- Sec. 23, S½S½;
- Sec. 25, S½S½;
- Sec. 26, N½, NE¼SW¼, N½NW¼SW¼, N½SE¼, NE¼SW¼SE¼, E½SE¼S W¼SE¼, SE¼SE¼;
- Sec. 27, Trs. 1, 3, 4, and 6;
- Sec. 28, Trs. 1-3;

Sec. 29, Trs. 1, 2, and 11–14;
Sec. 30, Trs. 1, 7, 9, 12–14, 16, 19, and 21;
Sec. 32, Trs. 2, 12, 14, 16, 18, 20, and 21;
Sec. 33, S½SW¼SE¼, Trs. 4, 6, 8, 11, 12, and 14;
Sec. 35, Tr. 9;
Sec. 36, NE¼NE¼, W½SW¼, Trs. 1, 2, and 7.

T. 5 N., R. 2 E.,
Sec. 14, SE¼SE¼;
Sec. 36, W½SW¼, SE¼SW¼, S½SE¼.

T. 1 N., R. 3 E.,
Sec. 11, SW¼SE¼;
Sec. 13, SW¼NW¼, W½W½W½SE¼N W¼;
Sec. 14, S½NE¼NE¼, NW¼NE¼, N½N½SW¼NE¼, N½N½SE¼NE¼, S½NE¼SE¼NE¼, SE¼SE¼NE¼, N½NE¼NE¼SE¼.

T. 2 N., R. 3 E.,
Sec. 3, N½SW¼NE¼SW¼, S½N½SE¼NE¼SW¼, S½NE¼NW¼SW¼;
Sec. 4, lots 3–4, N½S½NW¼;
Sec. 5, lots 1–4, E½NE¼SW¼NE¼, N½SE¼NE¼, SW¼NW¼, W½NE¼SE¼NW¼, NW¼SE¼NW¼, NW¼SW¼;
Sec. 6, lots 1–7, S½NE¼, SE¼NW¼, E½SW¼, N½SE¼, SW¼SE¼, N½SE¼SE¼, N½S½SE¼SE¼;
Sec. 7, lots 1–2, W½NW¼NE¼, W½E½NW¼NE¼, NE¼NW¼, E½SE¼SE¼;
Sec. 16, W½SW¼;
Sec. 17, S½S½NW¼NE¼, SW¼NE¼, NW¼NW¼NW¼, S½N½NW¼, S½NW¼, SW¼, S½N½NE¼SE¼, S½NE¼SE¼, W½SE¼, SE¼SE¼;
Sec. 18, lots 2–3, NE¼NE¼NE¼, S½NE¼, SE¼NW¼, E½SW¼, SE¼;
Sec. 19, N½NW¼NE¼, N½NE¼SE¼SW¼, E½SW¼, E½SW¼SE¼SE¼;
Sec. 20, N½N½NE¼NE¼NE¼, W½NE¼NE¼, S½N½SE¼NE¼NE¼, S½SE¼NE¼NE¼;
Sec. 22, SW¼NE¼SE¼;
Sec. 26, SW¼SW¼NW¼, S½SW¼NE¼SW¼, SE¼NE¼SW¼, N½NW¼NW¼SW¼, S½SE¼NW¼SW¼, N½NE¼SW¼SW¼, N½NW¼SE¼SW¼, N½NE¼SE¼SW¼, S½NW¼SE¼, N½NE¼SW¼SE¼, S½SE¼SE¼SE¼, N½SW¼SE¼SE¼, S½SE¼SE¼SE¼;
Sec. 35, S½N½N½NE¼NE¼.

T. 3 N., R. 3 E.,
Sec. 1, lots 1–4, S½N½, S½;
Sec. 6, Trs. 3–5;
Sec. 7, Trs. 8, 11, 18, 22–25, 27, and 29;
Sec. 8, SE¼NE¼NE¼SW¼, S½N½NW¼SW¼, S½N½SW¼, SW¼NE¼SE¼, SW¼NE¼NW¼SE¼, S½NW¼SE¼, N½SE¼SE¼;
Sec. 9, NW¼SW¼SW¼, SE¼SW¼SW¼, SW¼SE¼SW¼, SW¼SE¼SE¼SW¼;
Sec. 13, N½NE¼;
Sec. 14, N¼SW¼SW¼, N½SW¼SW¼, N½S½SW¼SW¼SW¼, N½S½S½SW¼SW¼SW¼, SE¼SW¼SW¼, S½SE¼SW¼;
Sec. 15, NE¼SW¼NW¼, S½SW¼NW¼, SW¼SE¼NW¼, SW¼SE¼NE¼SE¼, NW¼SE¼, N½SE¼SE¼;
Sec. 16, NW¼NE¼, NE¼SW¼NE¼, SE¼NE¼, N½NE¼NW¼, NE¼NW¼N W¼;
Sec. 23, N½SE¼NE¼, SE¼SE¼NE¼, NE¼NE¼SE¼;
Sec. 24, NW¼, N½SW¼, N½SE¼SW¼, W½SE¼, NW¼SE¼SE¼, S½SE¼SE¼;
Sec. 25, N½NE¼NE¼;
Sec. 27, SW¼SW¼, N½SE¼SW¼, SW¼SE¼SW¼, SW¼NE¼NW¼SE¼, N½SW¼NW¼SE¼;
Sec. 29, S½SW¼SW¼, SE¼SW¼, N½N½SW¼SE¼;
Sec. 30, lot 4, SE¼SE¼SE¼;
Sec. 31, Trs. 1–9;
Sec. 32, S½NE¼, NW¼, S½;
Sec. 33, SW¼NE¼, N½NE¼SE¼NE¼, W½SE¼NE¼, S½NW¼, SW¼.

T. 4 N., R. 3 E.,
Sec. 4, SE¼SW¼, Tr. 1;
Sec. 5, Trs. 2, 3, and 9;
Sec. 6, lots 3–5, SW¼NE¼, N½SE¼NW¼, N½SE¼SE¼NW¼, N½NE¼SE¼, N½SE¼NE¼SE¼, N½NE¼NW¼SE¼;
Sec. 7, lot 3, NE¼SW¼;
Sec. 8, SW¼, W½SE¼;

Sec. 28, SE¼SE¼;
Sec. 32, lots 1–3;
Sec. 33, lots 1–5, NE¼NE¼, S½NW¼;
Sec. 34, lots 1–7, S½NE¼, SE¼SW¼;
Sec. 35, N½N½;
Sec. 36, N½N½.
T. 2 N., R. 4 W.,
Sec. 1, lots 10–12, NW¼SW¼, N½SE¼;
Sec. 12, lots 1–7.

The areas described aggregate 45,059.53 acres in Fremont County.

The purpose of the withdrawals is to protect capital improvements associated with the Riverton Reclamation Project and, additionally, to protect important recreation and wildlife areas associated with the project. The withdrawals continued will be modified to extend the term for 50 years.

The Bureau of Reclamation proposes termination of withdrawals on 59,472.39 acres of lands withdrawn by the Act of Congress of August 15, 1953, and Bureau of Land Management Order of April 5, 1956. These lands are no longer needed for project purposes and can be managed as public land by the Bureau of Land Management. Future use and disposition of these lands would be based on land use planning, environmental analysis, and public participation. These lands are described as follows:

Wind River Meridian, Wyoming

T. 2 N., R. 1 E.,

The areas described aggregate 59,472.39 acres in Fremont County.

The Bureau of Reclamation proposes to terminate withdrawals withdrawn by Secretarial Orders of September 27, 1918, and December 31, 1925, the Act of Congress of August 15, 1953, and Bureau of Land Management Orders of April 5, 1956, and May 15, 1956, on 66,332.30 acres of private surface where the only Federal interests are ditches and canals reservations to the United States. The termination is a record clearing action having no effect.

A legal description of the lands are available at the Lander Resource Area Office, Rawlins District Office, or the Wyoming State Office.

The Bureau of Reclamation proposes to terminate withdrawals on 90,405.21 acres of private lands withdrawn by Act of Congress of August 15, 1953, and Bureau of Land Management Order of April 5, 1956, where the United States has a reserved mineral or right-of-way interest. The mineral estate is currently available for development. The termination would be a record clearing action having no effect.

A legal description of the lands is available at the Lander Resource Area Office, Rawlins District Office, or the Wyoming State Office.

The four categories of withdrawn lands may include small, scattered tracts of lands acquired by the Bureau of Reclamation for the project, which are not subject to any withdrawal. Some of these tracts have been identified and legal descriptions adjusted. Additional lands will be identified prior to the actual termination action and the acreages adjusted accordingly.

For a period of 90 days from the date of publication of this notice in the **Federal Register**, all persons who wish to submit comments in connection with this notice of proposed withdrawal continuation may present their views in writing to Ray Brubaker, State Director, Wyoming State Office, Bureau of Land Management, P.O. Box 1828, Cheyenne, Wyoming 82003.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and resources associated with the withdrawn areas proposed for continuation. A report will also be prepared for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawals will be continued and, if continued, for how long. The final determination on the continuation of the withdrawals will be published in the **Federal Register**. The existing withdrawals will continue until such final determination is made.

Dated: September 24, 1992.

F. William Eikenberry,

Associate State Director, Wyoming.

National Park Service

General Management Plan, Kaloko-Honokohau National Historical Park; Availability; Draft General Management Plan/Environmental Impact Statement

SUMMARY: In accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91-190, the National Park Service has prepared a draft General Management Plan/Environmental Impact Statement (GMP/EIS) for Kaloko-Honokohau National Historical Park, Hawaii County, Hawaii.

The draft GMP/EIS presents a proposal and three alternatives for the future management, development and use of the park. The proposed action calls for full facility development of the park including a facility for interpretation of traditional Hawaiian ways and the carrying out of resource management strategies to preserve and protect the nationally significant cultural and natural values through an increase in park staffing. The other alternatives include no action, limited facility development, and maximization of vehicle access with more emphasis on recreation use. Impact topics evaluated include cultural resources, plant and animal communities, geology, freshwater and marine resources, visitor services, air quality, local economy and management and operations.

Comments on the draft GMP/EIS should be received no later than December 11, 1992, and should be addressed to Gary Barbano, Park Planner, National Park Service, Pacific Area Office, 300 Ala Moana Blvd., Box 50165, Honolulu, Hawaii 96850. Requests for additional information or copies of the document should be directed to this address or telephone number (808) 541-2693.

Copies of the draft GMP/EIS are available for inspection at the Pacific Area Office, the park and libraries in the vicinity of the park and in Honolulu. Copies are also available for inspection at the following address: Western Regional Office, National Park Service, Division of Planning, Grants and Environmental Quality, 600 Harrison St., Suite 600, San Francisco, CA 94107-1372.

Dated: September 9, 1992.

Lewis Albert,

Acting Regional Director, Western Region.

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

[Ex Parte Nos. 339 and 431 (Sub 2)]

Cost Recovery Percentage; Review of the General Purpose Costing System

AGENCY: Interstate Commerce Commission.

ACTION: Request for comments.

SUMMARY: The Commission is requesting comments on a revised make whole adjustment procedure. A make whole procedure reallocates the cost savings of volume shipments to other traffic to ensure that all costs generated are accounted for. The proposed procedure allocates cost savings on an individual railroad basis. The current procedure allocates cost savings on a regional basis. The proposed methodology will produce more accurate costs.

DATES: Comments are due November 9, 1992.

ADDRESSES: Send comments referring to Ex Parte No. 399 to: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: William T. Bono, (202) 927–5720 Robert C. Hasek, (202) 927–6239 [TDD for hearing impaired (202) 927–5721].

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision in Ex Parte No. 399, *supra* served May 6, 1992. To purchase a copy of the full decision write to, call, or pick up in person from: Dynamic Concepts, Inc., room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or telephone (202) 289–4357/4359. [Assistance for the hearing impaired is available through TDD services: (202) 275–1721.]

This action will not significantly affect either the quality of the human environment or energy conservation.

Decided: October 2, 1992.

By the Commission, Chairman Philbin, Vice Chairman McDonald, Commissioners Simmons, Phillips, and Emmett.

Sidney L. Strickland, Jr.,

Secretary.

[FR Doc. 92–24632 Filed 10–8–92; 8:45 am]

BILLING CODE 7035–01–M

[Docket NO. AB–374 (Sub-No. 1X)]

Eastern Alabama Railway, Inc.—Abandonment and Discontinuance Exemption—In Calhoun County, AL

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: The Commission exempts from the prior approval requirements of 49 U.S.C. 10903–10904 the discontinuance and abandonment by Eastern Alabama Railway, Inc (EARY) as follows: (1) Discontinuance of service over 2.4 miles of track in Anniston, AL from a point formerly known as GP Junction (NS milepost 737.3) to a point 500 feet north of the north switch to Donoho Clay (approximately 11,417 feet north of GP Junction), including switches needed to access shipper Huron Valley Steel, FMC Sand, and Donoho Clay, and crossover tracks now in place between EARY and Norfolk Southern Railway Company; and (2) abandonment of the remaining 12.66 miles of EARY's 15.06-mile rail line extending between Anniston (milepost LAM 507.73) and Wellington, AL (milepost LAM 522.79), in Calhoun County, AL. The discontinuance and the abandonment are subject to standard labor protective conditions.

DATES: Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective on November 8, 1992. Formal expressions of intent to file an offer of financial assistance [1] under 49 CFR 1152.27(c)(2) must be filed by October 19, 1992, petitions to stay must be filed by October 26, 1992, and petitions for reconsideration must be filed by November 3, 1992. Requests for public use conditions must be filed by October 29, 1992.

ADDRESSES: Send pleadings referring to Docket No. AB–374 (Sub-No. 1X) to: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423, and to petitioner's representative: Pritz R. Kahn, suit 700, The McPherson Building, 901 15th Street, NW., Washington, DC 20005–2301.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder, (202) 927–5610 (TDD for Hearing Impaired: (202) 927–5721).

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to, call, or pick up in person from: Dynamic Concepts, Inc., room 2229, Interstate Commerce Commission Building, Washington, DC 20423. Telephone: (202) 289–4357/4359. [Assistance for the hearing impaired is available through TDD services: (202) 927–5712]

Decided: October 1, 1992.

By the Commission, Chairman Philbin, Vice Chairman McDonald, Commissioners Simmons, Phillips, and Emmett.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035–01–M

[Finance Docket No. 32155]

La Belle Point Railroad Co.; Lease and Operation Exemption; Missouri Pacific Railroad Co.

La Belle Point Railroad Company (La Belle), a noncarrier subsidiary of the Arkansas Shortline Railroad, Inc., has filed a notice of exemption to lease and operate 49.34 miles of rail line (the Paris Branch) owned by Missouri Pacific Railroad Company (MP), extending from milepost 504.03, at Fort Smith, AR to milepost 553.42, at Paris, AR (excluding MP's connecting track to the Arkansas & Missouri Railroad between milepost 504.29 and milepost 504.34 at Forth Smith, AR). The exemption became effective on September 17, 1992.

Any comments must be filed with the Commission and served on: Jay Moody, 2200 Worthen Bank Building, 200 West Capital Ave., Little Rock, AR, 72201–3699.

This notice is filed under 49 CFR 1150.31. If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time.[2] The filing of a petition to revoke will not automatically stay the transaction.

Decided: October 1, 1992.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035–01–M

[Finance Docket No. 32159]

Peninsula Corridor Joint Powers Board; Trackage Rights Exemption; Southern Pacific Transportation Co.

Southern Pacific Transportation Company (SPT) has agreed to extend for an additional 60 days, its 90-day grant of 4.7 miles of overhead trackage rights to Peninsula Corridor Joint Powers Board (JPB) between Santa Clara Junction (milepost 44.0), and Tamien, CA (milepost 48.70).[3] The extension was to

---

[1] See Exempt. of Rail Abandonment—Offers of Finan. Assist., 4 I.C.C.2d 164 (1987).

[2] Pioneer Railcorp and Fort Smith Railroad Company have jointly filed a petition to reject or revoke this notice of exemption. The Commission will address that petition in a separate decision. If, as alleged in the petition to reject or revoke, La Belle upon consummation of the lease transaction will become a carrier affiliated with two other rail carriers, then the entity in control must obtain approval from the Commission to continue in control of these carriers pursuant to 49 U.S.C. 11343 and 49 CFR part 1180. Also, MP has advised that it will soon file a petition seeking Commission approval for an adverse discontinuance of service by the current operator, Fort Smith Railroad Company.

[3] SPT and JPB own parallel lines between these points. They recently agreed to grant limited term trackage rights to each other while they studied the feasibility of entering into a coordinated use agreement to achieve more efficient freight, intercity passenger, and commuter train operations in this area. See Finance Docket No. 32094, Penin. Corr. Jt. Powers Bd.—Tr. Rts. Exemp.—Sou. Pac. Transp. Co. (not printed), served July 13, 1992, and Finance Docket No. 32091, Sou. Pac. Transp. Co.—Tr. Rts. Exemp.—Penin. Corr. Jt. Powers Bd. (not printed), served July 13, 1992. This extension is necessary because the parties were unable to complete their negotiations within the original 90-day term. JPB has agreed to grant SPT a similar trackage rights extension in Finance Docket No. 32161.

become effective on or after October 1, 1992.

This notice is filed under 49 CFR 1180.2(d)(7). Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not stay the transaction. Pleadings must be filed with the Commission and served on: David J. Miller, Hanson, Bridgett, Marcus, Vlahos & Rudy, 333 Market St., Suite 2300, San Francisco, CA 94105.

As a condition to the use of this exemption, any employees adversely affected by the trackage rights will be protected under *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

Dated: October 5, 1992.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

[FR Doc. 92-24633 Filed 10-8-92; 8:45 am]

BILLING CODE 7035-01-M

[Finance Docket No. 32161]

Southern Pacific Transportation Co.—Trackage Rights Exemption—Peninsula Corridor Joint Powers Board

Peninsula Corridor Joint Powers Board (JPB) has agreed to extend for an additional 60 days the grant of trackage rights to Southern Pacific Transportation Company (SP), between Santa Clara Junction (milepost 44.0) and Tamien, CA (milepost 48.70), a distance of approximately 4.7 miles.[1] The extension of the trackage rights will be effective on or after October 1, 1992, for a period of 60 days.

This notice is filed under 49 CFR 1180.2(d)(7). Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not stay the transaction. Pleadings must be filed with the Commission and served on: Gary A. Laakso, Southern Pacific Transportation Company, Southern Pacific Building, One Market Plaza, room 846, San Francisco, CA 94105.

[1] In Finance Docket No. 32091, Southern Pacific Transportation Company—Trackage Rights Exemption—Peninsula Corridor Joint Power Board (not printed), served July 13, 1992, the Commission exempted the grant of trackage rights by JPB to SP over JPB's Santa Clara Junction-Tamien line for a period of 90 days. During this time, the parties have been negotiating to coordinate use of their parallel lines in order to achieve more efficient freight, intercity passenger, and commuter train operations. Additional time is need to complete their negotiations.

As a condition to the use of this exemption, any employees adversely affected by the trackage rights will be protected under *Norfolk and Western Ry. Co—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

Decided: October 1, 1992.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

BILLING CODE 7035-01-M

DEPARTMENT OF JUSTICE

Lodging of Stipulation and Settlement Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act

Notice is hereby given that a proposed stipulation and settlement will be lodged with the United States Bankruptcy Court for the District of Utah, Central Division in *In re CF&I Fabricators of Utah, Inc., et al.*, Case No. 90B-6721. The proposed stipulation and settlement resolves the claims of the United States under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA") in the consolidated bankruptcy proceedings of CF&I Steel Corporation and its subsidiaries, with respect to the Roebling Steel Superfund Site, located in the Village of Roebling, Florence Township, New Jersey.

The proposed stipulation and settlement between the United States, CF&I Steel Corporation and the Committee representing the unsecured creditors of CF&I Steel Corporation gives the United States an allowed claim of $27,098,870 for its claim for pre-petition and post-petition response costs incurred or to be incurred at the Roebling Steel Superfund Site.

The Department of Justice will receive comments relating to the proposed stipulation and settlement from the date of this publication until October 23, 1992. Comments on the stipulation and settlement should be addressed to the Assistant Attorney General, Environment & Natural Resources Division, U.S. Department of Justice, P.O. Box 7611, Ben Franklin Station, Washington DC 20044, and should refer to In re CF&I Fabricators of Utah, Inc., et. al., DOJ Ref. No. 90-7-1-618.

A copy of the proposed stipulation and settlement may be examined at the Office of the United States Attorney, District of Utah, U.S. Courthouse, room 478, 350 South Main Street, Salt Lake City, Utah 84101. A copy of the proposed stipulation and settlement may also be examined or obtained by mail at the Consent Decree Library, 601 Pennsylvania Avenue, NW., Box 1097, Washington, DC 20004 (202-347-2072). When requesting a copy of the proposed stipulation and settlement, please enclose a check in the amount of $2.00 (twenty-five cents per page reproduction costs) payable to the "Consent Decree Library."

John C. Cruden,

Chief, Environmental Enforcement Section, Environment & Natural Resources Division.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Employment Standards Administration

Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing or the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., room S–3014, Washington, DC 20210.

General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country. Subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 2402, (202) 783–3238.

When ordering subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the three separate volumes, arranged by State. Subscriptions include an annual edition (issued on or about January 1) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC this 2d day of October 1992.

Alan L. Moss,

Director, Division of Wage Determinations.

BILLING CODE 4510–27–M

Occupational Safety and Health Administration

Advisory Committee on Construction Safety and Health; Full Committee Meeting

Notice is hereby given that the Advisory Committee on Construction Safety and Health, established under section 107(e)(1) of the Contract Work Hours and Safety Standard Act (40 U.S.C. 333) and section 7(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will meet on October 27, 1992, at the Frances Perkins Building, U.S. Department of Labor, 200 Constitution Avenue, NW., room S–4215 A and B, Washington, DC. The meeting is open to the public and will begin at 9 a.m.

The agenda for this meeting includes reports regarding Office of Construction and Engineering activities, Office of Occupational Medicine activities, the OSHA/EPA incinerator inspection protocol, evaluation of state plan state OSHA programs, non-rulemaking changes in OSHA safety standards, OSHA's response to the March 13, 1990 Advisory Committee recommendations, and construction industry participation in the Voluntary Protection Program. The Advisory Committee will also

receive the report of the Lead Work Group. In addition, members of the public will make presentations regarding crane operator certification and the indemnification of general contractors by subcontractors.

Written data, views or comments may be submitted, preferably with 20 copies, to the Division of Consumer Affairs. Any such submissions received prior to the meeting will be provided to the members of the Committee and will be included in the record of the meeting. Anyone wishing to make an oral presentation should notify the Division of Consumer Affairs before the meeting. The request should state the amount of time desired, the capacity in which the person will appear and a brief outline of the content of the presentation. Persons who request the opportunity to address the Advisory Committee may be allowed to speak, as time permits, at the discretion of the Chairman of the Advisory Committee.

For additional information contact: Tom Hall, Division of Consumer Affairs, Occupational Safety and Health Administration, room N-3647, 200 Constitution Avenue, NW., Washington, DC 20210, Telephone 202-219-8615. An official record of the meeting will be available for public inspection at the Division of Consumer Affairs.

Signed at Washington, DC this 7th day of October, 1992.

Dorothy L. Strunk,

Acting Assistant Secretary of Labor.

BILLING CODE 4510-26-M

Office of Federal Contract Compliance Programs

Disposable Safety Wear, Inc., and Puerto Rico Safety Equipment Corp.

AGENCY: Office of Federal Contract Compliance Programs, Labor.

ACTION: Notice of Debarment, Disposable Safety Wear, Inc., and Puerto Rico Safety Equipment Corporation.

SUMMARY: This notice advises of the Debarment of Disposable Safety Wear, Inc., and Puerto Rico Safety Equipment Corporation as eligible bidders on Government contracts and subcontracts. The debarment is effective immediately.

FOR FURTHER INFORMATION CONTACT: Jaime Ramon, Director, Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., room C-3325, Washington, DC 20210 (202-219-9475).

SUPPLEMENTARY INFORMATION: On September 29, 1992, pursuant to 41 CFR 60-30.30 and 60-30.37, the Secretary of Labor issued a Decision and Final Administrative Order: (1) Finding Disposable Safety Wear, Inc., and Puerto Rico Safety Equipment Corporation in violation of Executive Order 11246, as amended (30 FR 12319, September 28, 1965; 32 FR 14303, October 13, 1967; 43 FR 46501, October 5, 1978), section 504 of the Rehabilitation Act, as amended, 29 U.S.C. 793, the affirmative action provisions of the Vietnam Era Veterans' Readjustment Assistance Act, as amended, 38 U.S.C. 4212, and their respective implementing regulations; (2) cancelling all Federal contracts and subcontracts of Disposable Safety Wear, Inc., and Puerto Rico Safety Equipment Corporation which were awarded after June 5, 1992; and (3) declaring Disposable Safety Wear, Inc., and Puerto Rico Safety Equipment Corporation, and their successors, officers, or subsidiaries ineligible for the award of any Government contracts or subcontracts and ineligible for extensions or other modifications of any existing Government contracts or subcontracts until such time as Disposable Safety Wear, Inc., and Puerto Rico Safety Equipment Corporation satisfy the Director of OFCCP that they are in compliance with the laws found to have been violated. The Decision and Order is set forth below.

The debarment from future Government contracts and subcontracts and the ineligibility for extensions or other modifications of any existing Government contracts or subcontracts is effective immediately. The contract cancellation part of the Order will not become effective until the relevant contracting agencies have been consulted in accordance in section 209(a)(5) of Executive Order 11246, as amended by Executive Order 12086.

Signed October 5, 1992, Washington, DC.

Jaime Ramon,

Director, OFCCP.

Date: September 29, 1992.

Case No. 92-OFC-11.

In the matter of United States Department of Labor, office of Federal Contract Compliance Programs, Plaintiff, v. Disposable Safety Wear, Inc., and Puerto Rico Safety Equipment Corporation, Defendants. Before: the Secretary of Labor.

Decision and Final Administrative Order

Plaintiff filed a complaint under the expedited hearing procedures, 41 CFR 60-30.31 to 37 (1990), on June 5, 1992, in this case arising under Executive Order No. 11,246, 3 CFR 339 (1964-1965), reprinted as amended in 42 U.S.C. 2000e note (1988), section 503 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 793 (1988), and section 402 of the Vietnam Era Veterans Readjustment Assistance Act, 38 U.S.C.A. 4211-4212 (West 1991) [1] (the Acts), alleging that Defendants violated a conciliation agreement entered into on December 19, 1988. The conciliation agreement resolved findings of noncompliance made by Plaintiff in a May 1988 compliance review of Defendants' plant in Aguadilla, Puerto Rico, where Defendants manufacture a wide variety of industrial protective clothing and protective products. 41 CFR part 60-2; 41 CFR 60-1.33; 41 CFR 60-741.25; 41 CFR 60-250.25. After a hearing on August 6 and 7, 1992, the Administrative Law Judge (ALJ) found that Defendants repeatedly violated the conciliation agreement, describing many of the violations in considerable detail. Recommended Decision and Order (R. D. and O.) at 4-7.

Plaintiff repeatedly notified Defendants of their failure to comply with specific requirements of the conciliation agreement in the agreed time limits. For example, Defendants failed to submit progress reports on time, and after repeated notification by Plaintiff, Defendants often submitted inadequate or incomplete reports, or reports containing significant errors. Defendants also failed to carry out actions to which they had committed themselves in their progress reports, such as a review of all physical and mental job qualification requirements for compliance with section 503, 41 CFR 60-741.6(c), or conducting outreach and positive recruitment for Vietnam Era veterans or handicapped workers. The ALJ found that

> Defendants' failure to comply with the specific requirements of the December 1988 Conciliation Agreement was not merely a failure to comply with "paperwork" rules, nor merely a failure to file routine reports on time, but rather a deliberate, complete violation of that agreement and of substantive equal employment opportunity law.

Id. at 13.

Defendants' vice-president and manager of the Aguadilla plant from the time of the compliance review and conciliation agreement until May 1991 was generally hostile toward and uncooperative with Plaintiff's investigators, R. D. and O. at 7-8, and Defendants' coordinator of equal

[1] The authority delegated to the Assistant Secretary for Employment Standards to issue final decisions under sections 504 and 402, 41 CFR 60-741.28(b)(3) and 60-250.29(b)(3) (1990), is withdrawn for purposes of this case.

employment opportunity had no training or background in the field and was given no training or support by Defendants after assuming those duties in 1989. *Id.* at 8–9. Even after the vice-president left the company, his successors as plant manager did little to bring Defendant into compliance. Francisco Martinez, the current plant manager, could offer only his assurance at the hearing that Defendants recognized their obligation to comply with the Acts and would do so after the hearing. T. (transcript of hearing) 230–33.

Defendants conceded they had violated the conciliation agreement, and I adopt the ALJ's findings in this regard. Defendants also had agreed to additional requirements and progress reports by acknowledging the terms of a letter sent by the Office of Federal Contract Compliance Programs (OFCCP) Caribbean District Director on April 17, 1990, P (Plaintiff's Exhibit)–22, characterized by Plaintiff as a Letter of Commitment, 41 CFR 60–1.33(b), but Defendants did not comply with the terms of that letter.

Plaintiff sought debarment of Defendants from the award of future contracts, but requested cancellation only of contracts awarded to Defendants after the date of filing of the administrative complaint. Thus Defendants' contract with the Department of Defense, Defense Personnel Support Center, P–27, for over $500,000 entered into on October 30, 1991, would not be canceled.

Finding "special factors" present here, however, the ALJ did not recommend that Defendants be declared ineligible for future contracts or that any of their current contracts be canceled. R.D. and O. at 13. The ALJ found that "there is persuasive evidence of clear resolve [by Defendants] to achieve compliance," because the uncooperative vice-president had been dismissed and the current plant manager promised to comply in the future. *Id.* at 14. He opined that "the jobs of 168 minority group workers should not be placed at risk [by debarment]." *Id.* The ALJ recommended entry of an order imposing detailed requirements with specific time limits to bring Defendants into compliance, including periodic progress reports, and permitting Plaintiff to seek debarment and contract cancellation through a subsequent expedited proceeding if Defendants failed to comply by the time of the due date for the second progress report, 90 days after entry of the order in this case. *Id.* at 14–16.

I.

The Secretary's authority to order debarment under the Acts is clear and Defendants do not contest it. See, e.g., *First Alabama Bank of Montgomery, N.A.* v. *Donovan*, 692 F.2d 714, 722 (11th Cir. 1982); *Uniroyal, Inc.* v. *Marshall*, 482 F. Supp. 364, 375 (D.D.C. 1979). Under Executive Order No. 11,246, for example, the Secretary has authority, after finding noncompliance, to order any of the sanctions listed in section 209(a) of the Order, including debarment and cancellation of contracts. See 29 U.S.C. 793(a) and 41 CFR 60–741.28 (1990); 38 U.S.C.A. 4212(a) and 41 CFR 60–250.28. I recently noted that

> [t]he usual practice in cases under the Executive Order where a violation has been found, has been to give the defendant a reasonable period of time to come into compliance on the specific violation(s), and to order cancellation of contracts and debarment if the defendant has not demonstrated compliance within that time * * *. When so framed, the final administrative order encourages compliance and is not punitive or draconian.

OFCCP v. *Lasko Metal Products, Inc.*, Case No. 87–OFC–00009, Sec. Dec., Aug. 31, 1992, slip op. at 11–12 (citations omitted).

However, where the facts are not in dispute and the law is settled, the Secretary has ordered debarment and contract cancellation without providing an additional period of time to demonstrate compliance. *Compare OFCCP* v. *Bruce Church, Inc.*, Case No. 87–OFC–7, Sec. Dec., June 30, 1987, slip op. at 5 (rejecting claimed lack of coverage as reason for failure to submit affirmative action program and imposing immediate sanctions), *with OFCCP* v. *Star Machinery Co.*, Case No. 83–OFCCP–4, Sec. Dec., Sept. 21, 1983 slip op. at 7 (resolving undecided question of coverage and giving defendant 120 days to prepare and submit AAP). See also *OFCCP* v. *The Prudential Insurance Company of America*, Case No. 80–OFCCP–19, Sec. Dec., July 27, 1980 (imposing sanctions for failure to provide copies of personnel computer tapes in compliance review); *U.S. Dep't of Housing and Urban Development* v. *S.T.C. Construction Co.*, Case No. 77–OFCCP–5, Sec. Dec., June 24, 1980, slip op. at 10–11 (imposing sanctions for failure to provide required reports and access to books and records); *OFCCP* v. *Uniroyal, Inc.*, Case No. OFCCP 1977–1, Sec. Dec., June 28, 1979, slip op. at 68 (imposing sanctions for failure to comply with discovery in enforcement proceeding), *aff'd as modified sub nom Uniroyal, Inc.* v. *Marshall*, 482 F. Supp. 364 (D.D.C. 1979).

Here, by entering the conciliation agreement, Defendant had an opportunity to demonstrate compliance for almost four years without being subjected to sanctions, but did almost nothing and concedes as much. On this record, which has been fully reviewed, I cannot accept the ALJ's conclusion that "there is persuasive evidence of clear resolve [by Defendants] to achieve compliance," R. D. and O. at 14, because they fired the uncooperative manager and hired a new one who "promises * * * to put things right, and to do so promptly." *Id.* at 13. The Secretary rejected a similar recommended finding in S.T.C. Construction, where the contractor also admitted failing to comply, repeatedly ignoring the requirements of the Executive Order, and blamed its failures on one of its managers but had given assurances of future compliance. The Secretary held those assurances could not be relied on and concluded that "[i]t is appropriate to impose sanctions where a clear violation of the Executive Order has occurred and impairment of the Government's monitoring and enforcement of the Order has resulted." *U.S. Dep't of Housing and Urban Devel.* v. *S.T.C. Construction Co.*, slip op at 10.

Here Defendants took no action to require their uncooperative vice-president to meet the compliance responsibilities, nor did they remove him until long after they were put on notice, repeatedly, of the plant's violations. The President of the parent company in New York received a copy of the August 1990 notice of violations, P–25, following the second compliance review, but did not order the vice-president to bring the plant into compliance and did not dismiss him until May 1991. Since May 1991, two new plant managers have also done virtually nothing to achieve compliance beyond assuring the ALJ that, right after the hearing, significant changes will be made.[2]

It appears that the ALJ was substantially influenced by the potential impact of debarment on the jobs of current employees. There have been no cases under the Acts addressing the question whether the Secretary should refrain from exercising her discretion to impose sanctions, after an unequivocal finding of violations, because of the possible impact on a contractor's business and on the jobs of the workers

[2] The hearing was held August 6 and 7, and Defendants' response before me is dated September 9, 1992. This three page response and two page cover letter continues to blame Defendants' former vice-president for the non-compliance with "paperwork procedures." There is no hint in either document that any effort to "put things right, and to do so promptly" has begun.

covered by these laws.[3] Useful analogies may be found, however, in cases under the Fair Labor Standards Act (FLSA) where district courts exercise similar discretion in fashioning remedies and imposing sanctions.

In *Donovan* v. *Sovereign Sec., Ltd.*, 726 F.2d 55 (2d Cir. 1984), the court of appeals reversed a district court order eliminating pre- and post-judgment interest on back pay due under the FLSA from earlier orders enjoining continued withholding of unpaid overtime compensation. The court said the defendant should have been found in contempt for violating the earlier orders and that "[t]he employer's financial difficulty * * * did not outweigh the strong policies favoring award of interest on back pay." 726 F.2d at 58. The court recognized that "it would be a Pyrrhic victory to force the company out of business, so that it could not pay even the back wages and current employees would lose their jobs. But the proper way to avoid this calamity is to formulate a manageable payment schedule, not to extinguish part of the debt." *Id.* The court deemed the district court's investigation of the company's ability to pay inadequate because based only on a conclusory affidavit by the company treasurer and the company tax returns. To avoid a contempt order, Defendants must carry a heavy burden of showing inability to comply. *Id.* at 59–60.

Similarly, in *Hodgson* v. *A–1 Ambulance Serv., Inc.*, 455 F.2d 372 (8th Cir. 1972), when an employer violated an injunction ordering it to comply with FLSA minimum wage and record keeping provisions, the Department of Labor sought contempt. The district court found the company in contempt, but imposed a fine of only $1,000 and refused to order payment of the wage deficiencies, based on balancing the equities of the impact of a back wage order on the company and the individual Defendants and their ability to remain in business, the impact on the city of cessation of ambulance service, and the impact on the employees who might get nothing and might lose their jobs. The court of appeals reversed, holding that in light of the "national policy involved in the Fair Labor Standards Act" the district court should have entered an order for payment of back wages. 455 F.2d at 374. "The financial ability or inability of the employer at the time of the contempt hearing to make payment * * * has nothing to do with the court's duty, in furtherance of the policy involved in the Act, to make an order for payment * * *." *Id.* Entry of such an order itself might "prompt the Company and its officers to extra endeavors [to make the payments and comply with the Act] * * *." *Id.* Quoting from *Hodgson* v. *Taylor*, 439 F.2d 288, 290 (8th Cir. 1971), the court said "'[t]he Act does not exempt employers who are in financial difficulties * * *.' [F]inancial hardship caused by the order is not a valid basis on which to deny the employees their remedy or to allow a wrong against the public to go uncorrected." 455 F.2d at 375. The court also noted that the district court did not have before it Defendant's financial records or income tax statements, and that the company was an "operating business [that] apparently desired to remain so." *Id.* at 374. The court of appeals noted, however, that after entering a "contempt-purging wage-payment order," *Id.*, the district court had the discretion to provide for "reasonable terms of time and manner of payment." *Id.* at 375.

Here, the ALJ did not have Defendants' financial statement or tax returns before him, and he noted the plant manager's concession that he was not familiar with Defendants' net sales or what portion of the sales were federal contracts.[4] *Id.* at 11. Indeed, the ALJ found that "there is no documented, objective evidence of record to support Defendants' assertion that debarment could cause closing the Aguadilla plant * * *." *Id.* at 13. Defendants' parent company, Eastco Industrial Safety Corporation, reported on its 10–K report to the Securities and Exchange Commission that "this [Defendants'] segment of the Company is not dependent upon any single customer or any few customers, the loss of any one or more of whom would have an adverse effect on the business of the Company. No one company or customer accounts for more than 10% of this segment's sales." P–28, pages 6–7.

It is not clear on this record, therefore, that debarment would have any significant impact on Defendants business, and it is entirely speculative whether Defendants would be awarded the large contract for gloves or other federal contracts mentioned by the plant manager. R.D. and O. at 11 and n.3 above. Loss of the opportunity to bid on federal contracts should sting enough to gain Defendants' attention, to "prompt" [them] to extra endeavors, "*Hodgson* v. *A–1 Ambulance Service, Inc.*, 455 F.2d at 374, but is unlikely to drive them out of business. As suggested by the FLSA cases, Defendants should bear the burden of showing that sanctions would so adversely affect their business as to threaten their existence, particularly after entering into a conciliation agreement which forestalled enforcement action in 1988.

"The purpose of debarment is * * * to encourag[e] compliance," *First Alabama Bank of Montgomery, N.A.* v. *Donovan*, 692, F.2d at 722, and I find the record here shows immediate imposition of sanctions is the appropriate next step to achieve that purpose. Defendants ignored their obligations under the Acts both before 1988 and after signing the conciliation agreement. Plaintiff could have filed an expedited proceeding in 1988 and, had the Secretary issued an order then giving them time to comply before being debarred and had they treated it as cavalierly as they have the conciliation agreement, Defendants likely would have been debarred several years ago. Defendants' latest filing before me shows they still view their noncompliance as technical in nature, no more than "solely * * * processing paperwork." Defendants' Response to Plaintiff's Exceptions at 1. Defendants attribute their problems to a "personal feud" with Plaintiff's compliance officer, still blame the uncooperative vice president, who has been gone for over a year, for their noncompliance, *id.* at 3, and seek to deflect the focus from their own failures by the *ad hominem* argument that Plaintiff's counsel is "conducting a vendetta" against them. Covering letter to Responses to Exceptions at 2. To paraphrase the court in Uniroyal, "the policy and program [of the Acts] would be nothing more than an empty shell, an abstract statement of principles, unless it is backed by adequate means of enforcement," 482 F. Supp. at 375, and the will to employ those means when a violator has had

[3] Plaintiff cited a number of cases arising under the Service Contract Act of 1965, as amended (SCA), 41 U.S.C. 351–58 (1988), which have addressed considerations similar to those relied on by the ALJ here for recommending against debarment. However, I find analogies to cases under the SCA of limited utility in Executive Order cases because of significant differences in the scope of the Secretary's discretion after a violation has been found. Under the SCA, a contractor *must* be debarred for a period of three years where the act has been violated, unless the Secretary "recommends otherwise because of unusual circumstances." 41 U.S.C. 354(a); 29 CFR § 4.188 (1991). The SCA debarment provision has been described as "particularly unforgiving", requiring violators who would avoid its impact to "run a narrow gauntlet." *A to Z Maintenance* v. *Dole*, 710 F. Supp. 858, 858 (D.D.C. 1989). By contrast the Secretary has broad discretion under the Executive Order to take any of the actions enumerated in section 209, and has similar discretion under sections 503 and 402 to "take such action * * * as the facts and circumstances warrant." 29 U.S.C. 793(b).

[4] The manager also expressed concern that debarment would deprive Defendants of an opportunity to bid on a large contract for gloves as well as other contracts.

more than adequate opportunity to comply. "Effective enforcement * * * depends" on voluntary compliance and "meaningful sanctions" when voluntary compliance repeatedly is not forthcoming. *Id.*

Plaintiff's request for debarment was tempered by restraint in not seeking cancellation of all current contracts. If Defendants can demonstrate compliance in 90 days, the period recommended by the ALJ, their names can be removed from the ineligibility list at that time and debarment should have little impact on their viability. If they do not comply, however, under the ALJ's recommended order. Plaintiff would be required to initiate new enforcement proceedings and, even under the expedited procedures, it could be well into next year before the matter is resolved. Under the order entered below, the burden is on Defendants to demonstrate that they are responsible contractors.

II.

Accordingly, I *adopt* paragraphs 1 and 2 of the Recommended Order of the ALJ. R.D. and O. at 14–16.

In addition, it is *ordered* that all Federal Government contacts, and subcontracts of Defendant Disposable Safety Wear, Inc., and Defendant Puerto Rico Safety Equipment Corporation awarded after June 5, 1992, shall be canceled, and Defendants, their officers, subsidiaries and successors shall be ineligible for the award of any Federal Government contracts or subcontracts and shall be ineligible for any extensions or other modifications of any existing Federal Government contracts or subcontracts until Defendants have satisfied the Secretary of Labor, in the manner provided in paragraphs 1 and 2 of the ALJ's Recommended Order, that they are in compliance with the provisions of Executive Order No. 11,246, section 503, section 402, the rules, regulations and orders issued thereunder, and the Conciliation Agreement of December 19, 1988, which have been found to have been violated in this case. After submission of the second progress report required in paragraph 2(g)(2) of the ALJ's Recommended Order, Defendants may petition for reinstatement as an eligible bidder for government contracts in accordance with 41 CFR § 60–1.31.

So ordered.

Washington, D.C.

Lynn Martin,

Secretary of Labor.

BILLING CODE 4510–27–M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (92–62)]

NASA Advisory Council (NAC), Aerospace Medicine Advisory Committee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92–463, the National Aeronautics and Space Administration announces a meeting of the NASA Advisory Council, Aerospace Medicine Advisory Committee.

DATES: October 19, 1992, 8:30 a.m. to 5 p.m.; October 20, 1992, 8:30 a.m. to 5 p.m.; and October 21, 1992, 8:30 a.m. to 2 p.m.

ADDRESSES: National Aeronautics and Space Administration, room MIC–5, 300 E Street, SW., Washington, DC 20546–0001.

FOR FURTHER INFORMATION CONTACT: Dr. J. Richard Keefe, Code SB, National Aeronautics and Space Administration, Washington, DC 20546 (202/453–1530).

SUPPLEMENTARY INFORMATION: The meeting will be closed to the public on Tuesday, October 20, 1992, from 8:30 a.m. to 10 a.m. to allow for a discussion on qualifications of individuals being considered for membership to the Committee. Such a discussion would invade the privacy of the individuals involved. Since this session will be concerned with matters listed in 5 U.S.C. 552b(c)(6), it has been determined that the meeting will be closed to the public for this period of time. The remainder of the meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

—Status of Life Sciences in NASA
—Status of the Biomedical Monitoring and Countermeasures Program
—Status of the Aerospace Medicine Advisory Committee Strategy Study

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

Dated: October 2, 1992.

Philip D. Waller,

Deputy Director, Management Operations Division.

BILLING CODE 7510–01–M

[Notice (92–61)]

NASA Advisory Council (NAC), Space Science and Applications Advisory Committee (SSAAC), Astrophysics Subcommittee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92–463, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Space Science and Applications Advisory Committee, Astrophysics Subcommittee.

DATES: October 21, 1992, 8:30 a.m. to 4:30 p.m.

ADDRESSES: National Aeronautics and Space Administration, room MIC–3, 300 E Street SW., Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Ms. Lia LaPiana, Code SZ, National Aeronautics and Space Administration, Washington, DC 20546, 202/358–0346.

SUPPLEMENTARY INFORMATION: The meeting will be closed to the public from 3:15 p.m to 4:30 p.m. for a discussion of the qualifications of additional candidates for membership. Such a discussion would invade the privacy of the candidates and other individuals involved. Since this discussion will be concerned with matters listed in 5 U.S.C. 552b(c)(6), it has been determined that the meeting will be closed to the public for this period of time. The remainder of the meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

—Developments since June 1992 Meeting
—Current Status of High Energy Astrophysics Missions
—Pluto Flyby/Neptune Orbiter Program
—Potential Measures of the Scientific Productivity of Astrophysics Missions
—Reexamination of the Final Report of the Astronomy and Astrophysics Survey Committee (Bahcall Report) Recommendations
—Discussion of Subcommittee Membership (Closed Session)

It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

Dated: October 2, 1992.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Expansion Arts Advisory Panel; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Expansion Arts Advisory Panel (Multidisciplinary Arts Section) to the National Council on the Arts will be held on October 27, 1992 from 9:15 a.m.–6 p.m., October 28–29 from 9 a.m.–6 p.m. and October 30 from 9 a.m.–5:30 p.m. in Room 716 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

Portions of this meeting will be open to the public on October 27 from 9:15 a.m.–10:30 a.m. and October 30 from 3 p.m.–5:30 p.m. for opening remarks, general program overview, and policy discussion.

The remaining portions of this meeting on October 27 from 10:30 a.m.–6 p.m., October 28–29 from 9 a.m.–6 p.m., and October 30 from 9 a.m.–3 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman of November 20, 1991, these questions will be closed to the public pursuant to subsection (c)(4), (6) and (9)(B) of section 552b of title 5, United States Code.

Any person may observe meetings, or portions thereof, of advisory panels which are open to the public, and may be permitted to participate in the panel's discussions at the discretion of the panel chairman and with the approval of the full-time Federal employee in attendance.

If you need special accommodations due to a disability, please contact the Office of Special Constituencies, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, 202/682–5532, TTY 202/682–5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Yvonne M. Sabine, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682–5439.

Dated: October 6, 1992.

Yvonne M. Sabine,

Director, Panel Operations, National Endowment for the Arts.

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Astronomical Sciences; Meeting Notice Amendment

The Advisory Committee for Astronomical Sciences is meeting in Washington, DC, on October 22 and 23, 1992. This notice serves to amend the announcement by providing for a closed session on October 22 from 2:30 to 5:30 p.m. in which the roles of the National Astronomy Centers and University Facilities will be discussed. It is necessary to close this session because discussions will cover topics which, if disclosed prematurely, would significantly frustrate the Foundation's implementation of proposed agency action. These matters are exempt under 5 U.S.C. 552b(c)(9)(B) of the Government in the Sunshine Act. There are no other changes to the agenda. For further information, please contact Dr. M. Kent Wilson, Director, Division of Astronomical Sciences, 202–357–9488.

This meeting was originally announced in the **Federal Register** on page 45407, October 1, 1992, (57 FR 45407).

Dated: October 5, 1992.

M. Rebecca Winkler,

Committee Management Officer.

BILLING CODE 7555–01–M

Advisory Committee for Chemistry; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announced the following meeting.

Date and Time: October 29, 1992, 9 a.m.–5 p.m. October 30, 1992, 9 a.m.–3 p.m.

Place: October 29, 1992, room 540, October 30, 1992 room 543, 1800 G Street, NW., Washington, DC 20550.

Type of Meeting: Open.

Contact Person: Kenneth G. Hancock, Director, Division of Chemistry, room 340, National Science Foundation, 1800 G Street, NW., Washington, DC 20550. Telephone: (202) 357–7947.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: To provide advice and recommendations concerning support for research and education in chemistry.

Agenda: Long range planning for the Division of Chemistry, review of current activities, and discussion of new programs and procedures.

Dated: October 5, 1992.

M. Rebecca Winkler,

Committee Management Officer.

[FR Doc. 92–24580 Filed 10–8–92; 8:45 am]

BILLING CODE 7555–01–M

Advisory Committee for Electrical and Communications Systems; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting.

Date and Time: October 28, 1992; 8:30 a.m.–5:30 p.m. October 27, 1992; 8:30 a.m.–3 p.m.

Place: Diplomat Room, State Plaza Hotel, 2117 E Street, NW., Washington, DC.

Type of Meeting: Open.

Contact Person: Dr. Irene C. Peden, Division Director, Electrical and Communications Systems, room 1151, National Science Foundation, 1800 G St. NW., Washington, DC 20550. Telephone: (202) 357–7925.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: To provide oversight review of the ECS Programs.

Agenda: To hear reports from subgroups of the Committee, which will provide oversight on the management of program activities of the Division, and to provide input to future directions that the Division should take. The Committee will provide advice on personnel and funding priorities, and on other interactions between the Division and the engineering community.

Dated: October 5, 1992.

M. Rebecca Winkler,

Committee Management Officer.

BILLING CODE 7555–01–M

Committee on Equal Opportunity in Science and Engineering; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Committee on Equal Opportunities in Science and Engineering (CEOSE)

Date and Time: October 28, 1992; 1 p.m.–1:30 p.m. (Open), 1:30 p.m.–3:30 p.m. (Closed), 3:30 p.m.–5:30 p.m. (Open). October 29, 1992; 8:30 a.m.–3:30 p.m. (Open), 3:30 p.m.–5 p.m. (Closed). October 30, 1992; 8:30 a.m.–12 p.m. (Open).

Place: Rooms 540 and 543, National Science Foundation, 1800 G Street, NW., Washington, DC 20550.

Type of Meeting: Part-Open.

Contact Person: Wanda E. Ward, Executive Secretary, CEOSE, National Science Foundation, 1800 G Street, NW., Rm. 1225, Washington, DC 20550. Telephone: (202) 357–7461.

Minutes: May be obtained from the Executive Secretary at the above address.

Purpose of Meeting: To review programs designed to attract the participation of women, minorities, and persons with disabilities in science and engineering; to review assessments of participation rates of all segments of society in science and engineering, and to prepare the Report to Congress.

Agenda: Open Sessions, October 28: 1 p.m. to 1:30 p.m.—Opening of the Meeting and report of the NSF National Conference on Diversity in the Scientific and Technological Workforce. 4 p.m. to 5:30 p.m.—Meeting with the Education and Human Resource Policy Committee to discuss the status of NSF programs to attract women, minorities, and persons with disabilities to science and engineering and to discuss the CEOSE strategic plan. October 29; 8:30 a.m. to 3:30 p.m.—Review of programs to attract woman, minorities, and persons with disabilities to science and engineering; assessments of outcomes; and review of the CEOSE strategic plan. 5:30 p.m., Reception. October 30: 8:30 a.m. to 12 p.m.—Plans for future programs and future NSF directions, and planning of Report to Congress. *Closed Sessions,* October 28, 1:30 p.m.–3:30 p.m. and October 29, 3:30 p.m.–5:00 p.m. Working sessions to review program performance and draft Report to Congress.

Reason for Closing: The Committee will discuss individual performances of NSF employees in the context of the report; therefore, these portions are closed to the public. These matters are exempt under 5 U.S.C. 552b(c)(6) of the Government in the Sunshine Act.

Dated: October 2, 1992.

M. Rebecca Winkler,

Committee Management Officer.

BILLING CODE 7555–01–M

Advisory Panel for Genetics and Nucleic Acids; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting.

Date and Time: October 29–31, 1992; 8:30 a.m. to 5 p.m.

Place: Room 1242, 1800 G Street NW., Washington, DC.

Type of Meeting: Closed.

Contact Person: Philip Harriman, Program Director, Molecular and Cellular Biosciences, National Science Foundation, room 325I, 1800 G St. NW., Washington, DC 20550. Telephone: (202) 357–9687.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate genetic biology research proposals (Panel A) as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

Dated: October 5, 1992.

Advisory Panel for Physiology and Behavior; Meetings

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation (NSF) announces the following meetings.

Date & Time: October 26–28, 1992, 8:30 a.m. to 5 p.m.

Place: Room 1243, National Science Foundation, 1800 G Street, NW., Washington, DC.

Contact Person: Dr. Vincent P. Gutschick, Program Director, IBN, room 321, National Science Foundation, 1800

G St. NW., Washington, DC 20550. Telephone: (202) 357–7975.

Agenda: Open session: October 27, 4 p.m. to 5:30 p.m. at which time both the Division Director for IBN and the Assistant Director of the BIO Directorate will give a brief talk on new research in Foundation and Physiological Ecology.

Closed session: October 26 & 28, 8:30 a.m. to 5 p.m. and October 27, 8:30 a.m. to 4 p.m. To review and evaluate Functional and Physiological Ecology proposals as part of the selected process for awards.

Date & Time: October 26–27, 1992, 8:30 a.m. to 5 p.m.

Place: Room 1242, National Science Foundation, 1800 G Street, NW., Washington, DC.

Contact Person: Barbara Zain, Program Director, IBN, room 321, National Science Foundation, 1800 G St. NW., Washington, DC 20550. Telephone: (202) 357–7975.

Agenda: Open session: October 27, 4 p.m. to 5:30 p.m. at which time both Division Director for IBN and the Assistant Director for the BIO Directorate will give a brief talk on new research trend in Animal Systems Physiology.

Closed session: October 26, 8:30 a.m. to 5 p.m. and October 27, 8:30 a.m. to 4 p.m. To review and evaluate Animal Systems Physiology proposals as part of the selection process for awards.

Date & Time: October 26–27, 1992.

Place: Room 1242, National Science Foundation, 1800 G Street, NW., Washington, DC. 20550.

Contact Person: Elvira Doman, Program Director, IBN, room 321, National Science Foundation, 1800 G Street NW., 20550. Telephone: (202) 357–7975.

Minutes: May be obtained from the contact person listed above.

Agenda: Open session: October 27, 4 p.m. to 5 p.m. at which time both the Division Director for IBN and the Assistant Director for the BIO Directorate will give a brief talk on new research trends in Endocrinology.

Closed session: October 26, 8:30 a.m. to 5 p.m. and October 27, 8:30 a.m. to 4 p.m. To review and evaluate Endocrinology proposals as part of the selection process for awards.

Date & Time: November 4–6, 1992. 8:30 a.m. to 5 p.m.

Place: Room 1243, National Science Foundation, 1800 G Street, NW., Washington, DC.

Contact Person: Dr. Fred Stollnitz, Program Director, IBN, room 321, 1800 G Street NW., Washington, DC.

Minutes: May be obtained from the contact person listed above.

Agenda: Open session: November 6, 9:30 a.m. to 11 a.m. at which time both the Division Director for IBN and the Assistant Director of the BIO Directorate will give a brief talk on new research trends in Animal Learning Behavior.

Closed session: November 4–5, 8:30 a.m. to 5 p.m. and November 6, 8:30 a.m. to 9:30 a.m. & 11 a.m. to 5 p.m. To review and evaluate Animal learning Behavior proposals as part of the selection process for awards.

Type of meeting: Part—Open.

Purpose of meetings: To provide advice and recommendations concerning support for research proposals submitted to the NSF for financial support.

Reason for closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempted under 5 U.S.C. 522b(c) (4) and (6) of the Government in the Sunshine Act.

Dated: October 5, 1992.

Workshop

The National Science Foundation (NSF) will hold a two day workshop on the Role of Professional Societies in Two-Year College Science, Mathematics, and Engineering Education. The meeting will begin at 8:30 a.m. October 29, 1992, and end at 5 p.m. on October 30, 1992, and will be held at the Washington Hotel, 515 15th Street, NW., Washington, DC 20550.

The primary focus of the meeting will be professional society activities to strengthen the role of two-year colleges in improving the mathematical, scientific, and technological levels of students at all levels. The types of items to address at the workshop include:

(1) Professional society actions to support the integrated teacher/scholar role of lower division science, engineering and mathematics faculty.

(2) Formation of networks among two-year college leaders from varied scientific, engineering and mathematics organizations.

(3) Promotion of two-year faculty leadership in professional organizations.

(4) Professional society services to enhance lower division education, particularly those directed to two-year faculty.

(5) Professional society roles in developing initiatives to increase the number and quality of proposals to NSF, and other funding agencies, from two-year college faculty.

Although the workshop will not operate as an advisory committee, the public is invited to attend. Participants will include two-year college faculty, four-year and university faculty, and members and staff from approximately 25 professional societies. A report of the workshop will be published.

For additional information, contact John Clevenger, NSF/AACJC Fellow, Division of Undergraduate Education, NSF, 1800 G Street, NW., Washington, DC 20550 (202) 357–7051.

Dated: October 5, 1992.

BILLING CODE 7555-01-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

[Docket No. 301–90]

Initiation of Section 302 Investigation Concerning Indonesian Pencil Slats and Request for Public Comment

AGENCY: Office of the United States Trade Representative.

ACTION: Notice of initiation of an investigation pursuant to section 302(a) of the Trade Act of 1974, as amended (Trade Act); request for public comment.

SUMMARY: Pursuant to section 302(a) of the Trade Act, 19 U.S.C. 2412(a), the United States Trade Representative (USTR) has determined to initiate an investigation of Indonesia's policies and practices with respect to the exportation of pencil slats. USTR invites public comment concerning the matter under investigation.

DATES: Written comments from the public are due on or before November 2, 1992.

ADDRESS: Office of the United States Trade Representative, 600 17th Street NW., Washington, DC 20506.

FOR FURTHER INFORMATION CONTACT: Peter Collins, Director, Southeast Asian Affairs (202) 395–6813; Joseph Papovich, Deputy Assistant United States Trade Representative for Industry and Labor (202) 395–6160; or Tim Reif, Associate General Counsel (202) 395–6800. For information concerning filing procedures, contact Dorothy Balaban, Special Assistant to the Section 301 Committee (202) 395–3432.

SUPPLEMENTARY INFORMATION: On August 18, 1992, P&M Cedar Products, Inc. and Hudson ICS filed a petition pursuant to section 302(a) of the Trade Act alleging that various Indonesian practices concerning pencil slats are unreasonable and burden or restrict United States commerce. The petition alleges that the following practices by Indonesia have the effect of enhancing exports of Indonesian pencil slats to third-country markets and are actionable under section 301: (1) The imposition of differential export taxes, with an extremely high tax on logs and no tax on finished products such as pencil slats; (2) underpricing of government-owned timber stock; and (3) failure to enforce the terms of timber concession arrangements.

According to petitioners, the combined effect of these practices has resulted in a substantial decline in their sales to third-country markets. Petitioners contend that these actions are part of Indonesia's plan to target exports of wood products, including pencil slats, a practice which is actionable under section 301(d)(3)(E) of the Trade Act, 19 U.S.C. 2411(d)(3)(E).

Copies of the public version of the petition are available for public inspection in the USTR Reading Room: Room 101, Office of the United States Trade Representative, 600 17th Street, NW, Washington, DC 20506. An appointment to review the docket (Docket No. 301–90) may be made by calling Brenda Webb (202) 395–6186. The USTR Reading Room is open to the public from 10 a.m. to 12 noon and 1 p.m. to 4 p.m., Monday through Friday.

Investigation and Consultations

Section 302(a)(1) of the Trade Act provides that "[a]ny interested person may file a petition with the Trade Representative requesting that action be taken under section 301 and setting forth the allegations in support of the request." On October 2, 1992, after reviewing the allegations set forth in the petition filed by P&M Cedar Products, Inc. and Hudson ICS, the Trade Representative determined to initiate an investigation of Indonesia's acts, policies, and practices concerning pencil slat exports. USTR also requested consultations with the Government of Indonesia, as required by section 303(a) of the Trade Act. USTR will seek information and advice from the petitioners and the appropriate representatives provided for under section 135 of the Trade Act in preparing the U.S. presentations for the consultations.

Public Comment

Interested persons are invited to submit written comments concerning the issues raised in the petition and any other submissions to USTR in this investigation. Comments must be filed in accordance with the requirements set forth in 15 CFR 2006.8(b) (55 FR 20593) and must be filed by November 2, 1992. Comments must be in English and provided in 20 copies to: Chairman, Section 301 Committee, room 223, USTR

600 17th Street, NW., Washington, DC 20506.

Comments will be placed in a file (Docket 301-80) open to public inspection pursuant to 15 CFR 2006.13, except confidential business information exempt from public inspection in accordance with 15 CFR 2006.15. Confidential business information submitted in accordance with 15 CFR 2006.15 must be clearly marked "Business Confidential" in a contrasting color ink at the top of each page on each of 20 copies, and must be accompanied by a nonconfidential summary of the confidential information. The nonconfidential summary shall be placed in the file that is open to public inspection.

Jeanne E. Davidson,

Chairman, Section 301 Committee.

BILLING CODE 3190-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-31284; File No. SR-NASD-92-33]

Self-Regulatory Organizations; Filing of Proposed Rule Change by National Association of Securities Dealers, Inc. Relating to Enforcement of Arbitrators' Orders Under the NASD Code of Arbitration Procedure

October 2, 1992.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on August 1, 1992, the National Association of Securities Dealers, Inc. ("NASD" or "Association") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the NASD. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The NASD is herewith filing a proposed rule change to Part III, Section 35 of the NASD Code of Arbitration Procedure ("Code"). Below is the text of the proposed rule change. Proposed new language is in italics, proposed deletions are in brackets.

CODE OF ARBITRATION PROCEDURE

PART III—UNIFORM CODE OF ARBITRATION

Interpretation of Provisions of Code and Enforcement of Arbitrator Rulings

Sec. 35. The arbitrators shall be empowered to interpret and determine the applicability of all provisions under this Code *and to take appropriate action to obtain compliance with any ruling by the arbitrator(s). Such* [which] interpretations *and actions to obtain compliance* shall be final and binding upon the parties.

II. Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NASD has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for, the Proposed Rule Change

The NASD is proposing to amend section 35 of Part III of the Code to emphasize the authority of arbitrators to enforce orders they issue in the course of an arbitration proceeding. The proposed rule change states that arbitrators may take appropriate action to obtain compliance with their rulings, and that such action is final and binding on the parties. The proposed rule change was prompted by reports of situations in which parties have not complied with orders issued by arbitrators, and in which no specific provision of the Code could be cited to encourage compliance. The proposed rule change highlights existing arbitral authority to issue sanctions, and is to be accompanied by an addition to the Arbitrator's Manual, which lists the types of sanctions that may be applied by arbitrators.

The proposed rule change and additions to the Arbitrator's Manual were adopted by the Securities Industry Conference on Arbitration ("SICA") at its meeting on January 7, 1992. In adopting the change to the Code, SICA acknowledged that, although arbitrators have inherent authority to frame sanctions for non-compliance with their orders, they may not always exercise this authority because they are unaware of the extent of their authority. In addition, since no Code provision referred specifically to the enforcement of orders, SICA felt that parties might also be unaware that they can request arbitrators to issue sanctions for non-compliance with their orders. SICA determined that the proposed change to the Code and related addition to the Arbitrator's Manual would remedy these problems, and recommended that the self-regulatory organizations make similar changes to their arbitration rules.

The NASD believes that the proposed rule change is consistent with the provisions of section 15A(b)(6) of the Act.[1] In pertinent part, section 15A(b)(6) requires that the rules of a national securities association be designed to "promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing and settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest." The NASD believes that the proposed rule change will facilitate the arbitration process, and therefore, is in the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

A. By order approve such proposed rule change, or

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

[1] 15 U.S.C. 78o-3 (1988).

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section. Copies of such filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to the file number in the caption above and should be submitted by October 30, 1992.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority, 17 CFR 200.30-3(a)(12).

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Release No. 34-31285; File No. SR-NYSE-92-21]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by New York Stock Exchange, Inc. Relating to Amendments to Rule 421 (Periodic Reports)

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on September 12, 1992, the New York Stock Exchange, Inc. ("NYSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change consists of amendments to Rule 421 (Periodic Reports) concerning the submission of monthly short position reports.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Section A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to require the electronic transmission of monthly short position reports by members and member organizations.

Rule 421 requires members and member organizations to report total "short" positions (*i.e.*, positions resulting from short sales, as that term is defined in Securities Exchange Act Rule 3b-3)[1] in listed securities on a monthly basis. Currently, reports are made on Form MF-2 or MF-2 Summary Form and submitted in "paper" form to the Exchange. The Exchange utilizes such data, in general, for surveillance of market activity. In addition, the Exchange publishes a monthly release of short interest information as a service to listed companies, the investing public, market professionals and other interested parties.

The proposed amendments to Rule 421 will eliminate the use of the paper forms currently used to report short position information and, instead, will require the electronic transmission of such information through the Securities Industry Automation Corporation ("SIAC").

Requiring electronic transmission of monthly short interest data will improve the Exchange's efficiency in the processing and compilation of such data and facilitate the Exchange's continuing efforts to reduce key-punching. The information required to be submitted to the Exchange will not be changed under the proposed rule amendment. There will be alternative methods of electronically reporting the short position information (*e.g.*, by P.C. or by CPU (Central Processing Unit) to CPU), through SIAC.

2. Statutory Basis

The proposed rule change is consistent with the requirements of section 6(b)(5) of the Act. By providing for enhanced automation, the proposed rule change will help ensure that the Exchange's regulatory and surveillance capabilities keep pace with today's market environment and thereby protect investors and the public interest in accordance with section 6(b)(5) of the Act. The proposed rule change is also consistent with section 6(b)(5) of the Act in that it will assist in preventing fraudulent an manipulative acts and practices and thereby promote just and equitable principles of trade.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that the proposal does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the publication of this notice in the **Federal Register** or within such other period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve the proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written

[1] 17 CFR 240.3b-3 (1992).

communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the NYSE. All submissions should refer to File No. SR-NYSE-92-21 and should be submitted by October 30, 1992.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Rel. No. IC-18995; 812-7994]

IBM Mutual Funds et al.; Application

October 2, 1992

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of application for Order under the Investment Company Act of 1940 (the "Act").

APPLICANTS: IBM Mutual Funds that consist of three series, IBM Large Company Index Fund, IBM Small Company Index Fund, and IBM U.S. Treasury Index Fund (collectively, the "Funds"), and IBM Credit Investment Management Corporation, the investment adviser to the Funds (the "Manager"), and future funds for which the Manager or any person or entity in the future controlling, controlled by, or under common control with the Manager, acts as adviser, sub-adviser, or distributor (the "Future Funds," and, together with the existing Funds, the "Funds".

RELEVANT ACT SECTIONS: Order requested under section 17(d) of the Act and rule 17d-1 thereunder.

SUMMARY OF APPLICATION: Applicants seek an order to permit the operation of a joint trading account to be used to enter into repurchase agreements.

FILING DATE: The application was filed on July 21, 1992.[1]

[1] In a letter dated September 29, 1992 from applicants' counsel, such counsel represented that applicants will submit an amendment during the notice period clarifying certain statements made in the application, the substance of which are incorporated herein.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on October 27, 1992, and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicants, c/o IBM Credit Corporation, 290 Harbor Drive, Stamford, Connecticut 06904-2399.

FOR FURTHER INFORMATION CONTACT: Fran M. Pollack-Matz, Senior Attorney at (202) 504-2801 or Nancy M. Rappa, Branch Chief at (202) 272-3030 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee from the SEC's Public Reference Branch.

Applicants' Representations

1. The existing Funds are registered open-end management investment companies, authorized by their investment policies and limitations to invest in repurchase agreements. The Manager serves as investment adviser to each of the existing Funds.

2. Currently, the daily uninvested cash balances of the existing Funds are separately invested in individual repurchase agreements. Each morning the Funds' custodian, State Street Bank and Trust Company (the "Custodian"), determines each Fund's short-term cash availability balance. Once this amount is established, it is relayed to the Manager who, on behalf of the Funds, negotiates or approves the proposed interest rate for repurchase agreements for that day. The Custodian determines the securities required for collateral in connection with the repurchase agreements and such collateral is approved by the Manager. The estimated amount of collateral required is based on the amount of the current day's available cash. This projection may be adjusted during the day to reflect additional cash that becomes available.

3. Each of the existing funds has established similar standards, including quality standards for issuers of repurchase agreements, and requirements that the repurchase agreements be at least 102% collateralized at all times.

4. Currently, the Manager must separately pursue, secure, and implement the repurchase agreement investments. This has resulted in certain inefficiencies, and may limit the result that some or all Funds achieve. Therefore, the Funds seek permission to deposit the uninvested cash balances remaining at the end of each trading day into a joint account, the daily balance of which would be used to enter into one or more short-term repurchase agreements in a total amount equal to the aggregate daily balance in the account. Each Fund would participate in the joint account on the same basis as every other Fund in conformity with its fundamental investment objectives and policies.

5. Cash in the joint account will be invested only in repurchase agreements collateralized by suitable U.S. Government obligations that satisfy the policies and guidelines of the Funds concerning repurchase agreements. Particular types of obligations permitted as collateral by the Funds would be identified and the Funds' custodian bank would be notified. The securities would be either wired to the account of the custodian bank at the proper Federal Reserve Bank, transferred to a subcustodian account of the Funds at another qualified bank, or redesignated and segregated on the records of the custodian bank if the custodian bank is already the recorded holder of the collateral for the repurchase agreement.

6. The obligations of the Funds to counterparties in any particular repurchase transaction will be several in proportion to their respective participation in the account and not joint. Applicants believe that a Fund's investment in the joint account will not be subject to the claims of creditors (whether brought in bankruptcy, insolvency, or other legal proceeding) of any other participant Fund in the joint account.

7. The custodial account will not be distinguishable from any other accounts maintained by a Fund with its custodian bank except that monies from the Fund may be deposited on a commingled basis. The custodial account will not have any separate existence that would have indicia of a separate legal entity. Each Fund will transfer cash it wishes to invest in a joint account after the conclusion of its daily trading activity

into such account. The sole function of the custodial account will be to provide a convenient way of aggregating individual transactions that would otherwise require daily management by each Fund of its uninvested cash balances. In addition, there will be no opportunity for one Fund to use any part of a balance in the account credited to another Fund, since no Fund will be allowed to create a negative balance in the account for any reason.

Applicants' Legal Analysis

1. The Manager and each Fund could be deemed to be a "joint participant" in a transaction within the meaning of section 17(d) of the Act. In addition, the proposed joint account could be deemed to be a "joint enterprise or other joint arrangement" within the meaning of rule 17d-1 under the Act.

2. The Funds will benefit by participating in the joint account for the following reasons: (a) It is possible to negotiate a higher rate of return on large short-term repurchase agreements that is greater than the rate of return that can be negotiated for smaller repurchase agreements, and (b) by reducing the number of trade tickets that each non-bank government securities dealer or major brokerage house will have to write, transactions should be simplified for those organizations, with a related reduction in the opportunities for errors.

3. Applicants believe that the proposed method of operating the account will not result in any conflicts of interest among the joint participants.

4. Although the Manager can gain some benefit through administrative convenience and some possible reduction in its clerical costs, the primary beneficiaries will be the participating Funds and their shareholders because the joint account may earn higher returns for the Funds.

5. For the reasons set forth in the application as summarized above, applicants submit that the criteria of rule 17d–1 for issuance of an order under Section 17(d) are met by the joint account.

Applicant's Conditions

As express conditions to obtaining an order granting the relief requested, applicants agree that the proposed joint account will operate as follows:

1. A separate cash account will be established at one or more custodian banks into which each participating Fund would deposit some or all of its daily uninvested net cash balances. Each Fund that has a custodian bank other than the bank at which the proposed joint account is maintained and that wishes to participate in the joint account will appoint the latter bank as a sub-custodian for the limited purpose of receiving cash for deposit into the proposed joint account.

2. Cash in the joint account will be invested only in repurchase agreements collateralized by suitable U.S. Government obligations which satisfy the policies and guidelines of the Funds concerning repurchase agreements.

3. Each repurchase agreement will have, with rare exceptions, an overnight or over-the-weekend duration and in no event will it have a duration of more than seven days.[2]

4. All investments held by the joint account will be valued on an amortized cost basis.

5. Each participating Fund relying upon rule 2a–7 under the Act permitting valuation on the basis of amortized cost will use the weighted average maturity of the repurchase agreements purchased by the Funds participating in the joint account for the purpose of computing that Fund's average portfolio maturity with respect to the portion of its assets held in such account on that day.

6. In order to assure that there would be no opportunity for one Fund to use any part of a balance of the joint account credited to another Fund, no Fund will be allowed to create a negative balance for any reason, although it will be permitted to draw down its entire balance at any time. Each Fund's decision to invest in the joint account will be solely at its option; a Fund will not be required either to invest a minimum amount or to maintain a minimum balance. Each Fund will retain the sole rights of ownership to all of its assets invested in the joint account, including any interest payable on the assets invested in the joint account. Each Fund's investment in the joint account will be documented daily on the books of the Fund as well as on the books of the custodian bank.

7. Each Fund will participate in the net income earned or accrued in the account and all instruments held in the joint account (i.e., cash and U.S. Government securities subject to repurchase agreements) on the basis of the percentage of the total amount in the account on any day represented by its share of the account or of such particular instruments.

8. Under the general terms of each Fund's Investment Advisory Contract, ("Contract"), the Manager will administer the investment of the cash balances in and operation of the joint account and will not collect any separate fees for the management of the joint account. The Manager will collect its fees based upon the assets of each separate Fund as provided in each respective Contract.

9. The administration of the joint account will be within the fidelity bond coverage required by section 17(g) of the Act and rule 17g–1 thereunder.

10. The Board of Trustees of the Funds and any Future Funds participating in the joint account will evaluate annually the joint account arrangement, and will continue participation in the account only if they determine that there was a reasonable likelihood that the participating Fund and its shareholders would benefit from continued participation and that no participant will be treated on a less advantageous basis than another participant.

For the SEC, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 92–24614 Filed 10–8–92; 8:45 am]

BILLING CODE 8010–01–M

[2] For example, repurchase agreements may be of a longer duration than overnight or over-the-weekend in cases of a three-day holiday weekend, or instances where a better return would be obtained on a repurchase agreement extended longer than overnight or over-the-weekend but not longer than seven days.

[Release No. 35–25646]

Filings Under the Public Utility Holding Company Act of 1935 ("Act")

October 2, 1992.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rule promulgated thereunder. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendments thereto is/are available for public inspection through the Commission's Office of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by October 26, 1992 to the Secretary, Securities and Exchange Commission, Washington, DC 20549, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing,

if ordered, and will receive a copy of any notice or order issued in the matter. After said date, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

EUA Cogenex Corporation

[70–8003]

EUA Cogenex Corporation ("Cogenex"), P.O. Box 2333, Boston, Massachusetts 02107, a wholly-owned subsidiary of Eastern Utilities Associates ("EUA"), a registered holding company, has filed an application pursuant to sections 9(a) and 10 of the Act and rule 51 thereunder.

Cogenex proposes to acquire all of the outstanding shares of capital stock of New England Sun Control, Inc. ("NESC"), a Rhode Island corporation, consisting of 100 shares of no par common stock ("Shares"), from the sole stockholder of NESC ("Seller"). The purchase price will be $5.1 million, subject to certain adjustments, plus an amount not exceeding $3.5 million to be paid out over a four year period if certain objectives are achieved during that period.

NESC currently provides integrated lighting efficiency services designed to achieve an efficiency gain through integration of lamps, ballasts, and light reflectors. After performing a lighting survey, NESC manufactures light reflectors from aluminum sheets which are coated with a special material to maximize lighting efficiency and quality for its customers using computer controlled metal stamping presses which are fully integrated with a computer-aided design process. In addition, NESC sells and installs other energy-efficient equipment, including: (1) Lamps, ballasts, sensor switches and exit sign retrofit kits, (2) energy saving air conditioning equipment, (3) energy-efficient electric motors, (4) building automation systems, and (5) window film which reduces heat transfer through glass and screens sunlight.

Prior to the acquisition, NESC will transfer its wholesale window film distribution business to the Seller or his designee. After the acquisition, NESC will be merged into and operated as a division of Cogenex.

In the alternative, the manufacturing business of NESC will be transferred to a new company of the Seller or his nominee ("Newco") prior to the Acquisition. Cogenex would then enter into a supply contract with Newco for the supply of the reflectors. However, Newco would not be the exclusive source of reflectors for Cogenex. In addition, Cogenex would enter into an option agreement with Newco for the purchase of the assets and attendant liabilities of Newco at the then fair market value as of the date of the exercise of the option, but in no event, less than $60,000 nor more than $150,000.

In connection with the acquisition, Cogenex will enter into an employment agreement with the Seller, whereby the Seller will be retained as a divisional president of Cogenex. In addition, Cogenex, as tenant, will enter into a lease agreement with the Seller, as landlord, for office and manufacturing space which NESC now occupies and which is owned by the Seller.

Cogenex will purchase the Shares with funds obtained from: (1) Short-term borrowings through existing lines of credit; (2) internally generated funds; (3) capital contributions from EUA; and/or (4) purchases of Cogenex common stock by EUA. The application states that Cogenex has authorization to obtain such funds under prior Commission order dated October 24, 1991 (HCAR No. 25396).

The Official Bondholders' Committee of EUA Power Corporation

[70–8034]

The Official Bondholders' Committee of EUA Power Corporation ("Committee"), c/o State Street Bank and Trust Company, Corporate Trust Department, 5th Floor, One Heritage Drive, North Quincy, MA 02171–2128, has filed an application-declaration, as amended, including a modified second amended plan of reorganization ("Plan") and a modified first amended disclosure statement, under sections 11(f), 11(g), 12(c) and 12(d) of the Act and rules 42, 44, 62, 63 and 64 thereunder.[1] The Committee requests the Commission to issue (1) a report on the Plan pursuant to section 11(g) that may be included in a solicitation of creditors for approval of the Plan in bankruptcy court proceedings,[2] and (2) an order approving the Plan and related transactions under section 11(f).[3] In addition, the Committee states that it will file a declaration on Form U–R–1 pursuant to rule 62 prior to the solicitation.

EUA Power Corporation ("EUA Power"), a wholly-owned electric public-utility subsidiary company of Eastern Utilities Associates ("EUA"), a registered holding company, filed a voluntary petition for protection under Chapter 11 of the United States Bankruptcy Code, as amended ("Bankruptcy Code") on February 28,1991 in the United States Bankruptcy Court, District of New Hampshire ("Bankruptcy Court").[4] EUA Power's principal assets are an undivided 12.1324% interest in the Seabrook Nuclear Power Project ("Seabrook") and the electricity associated therewith and certain causes of action.[5] Since filing for bankruptcy, EUA Power has remained in operation as a debtor in possession pursuant to section 1107 of the Bankruptcy Code.

On March 14, 1991, the United States Trustee appointed the Committee as the duly authorized representative of the bondholders holding the Series B Notes and Series C Notes in the aggregate principal amount of approximately $280 million issued by EUA Power (collectively, "Notes"). EUA Power is in default under the indenture pursuant to which the Notes were issued.

Under the proposed Plan, all existing equity securities of EUA Power and certain contingent interest certificates issued by EUA Power in connection with the Series A and Series B Notes would be extinguished.[6] Reorganized

---

[1] An original notice of the filing of the application-declaration was issued by the Commission on August 28, 1992 (HCAR No. 25614).

[2] Section 11(g) requires that any solicitation for consent or authorization with respect to any reorganization plan of a registered holding company or any subsidiary company thereof be "accompanied or preceded by a copy of a report on the plan which shall be made by the Commission after an opportunity for a hearing on the plan and other plans submitted to it, or by an abstract of such report made or approved by the Commission."

[3] Section 11(f) provides, in pertinent part, that "a reorganization plan for a registered holding company or any subsidiary company thereof shall not become effective unless such plan shall have been approved by the Commission after opportunity for hearing prior to its submission to the court."

[4] On July 2, 1991, the Bankruptcy Court refused to extend EUA Power's exclusive right to file a plan. on August 12, 1992, the Committee submitted a plan of reorganization and a disclosure statement to the Bankruptcy Court. No other party (including EUA Power), other than the Committee, has filed a plan of reorganization to date. The application-declaration states that the Bankruptcy Court held a hearing on the disclosure statement of September 8, 1992 and decided to continue the hearing until October 5, 1992 on all issues except those arising under the Act until December 8, 1992 on all the issues arising under the Act.

[5] EUA Power financed its acquisition of its interest in Seabrook through the issuance and sale of $180 million of 17.5% secured notes ("Series A Notes") due November 15, 1991 pursuant to an indenture (HCAR Nos. 24244 and 24245; both dated November 21, 1988). As a result of its inability to pay the interest due on these notes, EUA Power exchanged and retired the Series A Notes for a new series of secured notes ("Series B Notes") (HCAR Nos. 24641; May 12, 1988). The Series B Notes provide for the payment of interest thereunder through issuance of up to $100 million in additional secured notes ("Series C Notes") instead of cash. EUA Power has issued to date approximately $100 million of the Series C Notes (HCAR No. 24879; May 5, 1989).

[6] Rule 64 states that "[a]ny application for approval of a plan of reorganization under section

Continued

EUA Power would then issue a single class of common stock [7] in exchange for the secured debt held by the bondholders ("Class One Claims") equal to each bondholder's proportionate share of 95% of the new securities; [8] all unsecured claims, including deficiency claims of the bondholders, in an amount in excess of $25,000 ("Class Three Claims") would be converted into the remaining 5% of the new securities.[9] The Plan incorporates a provision to permit the Bankruptcy Court to allocate the new securities between Class One Claims and Class Three Claims differently than the 95%/5% allocation depending upon the Bankruptcy Court's determination of the scope and value of the lien of Class Three Claims.[10] Each holder of a Class Three Claim will also receive a *pro rata* share of 100% of the beneficial interests of the Litigation Trust. The sole asset of the Litigation Trust will be the right to receive a certain number of additional shares of the new securities reflecting the value received by reorganized EUA Power from the causes of action, if any, which are currently being litigated or may be litigated in the future.

The taxing authorities with claims for unpaid real property taxes would receive payment in three equal annual installments of principal and interest, having a present value, as of the date the Plan becomes effective ("Effective Date"),[11] of not less than the value of the taxing authority's lien on EUA Power's interest in the property which secures such claims. The holders of unsecured claims of $25,000 or less would be paid 50% of the allowed amount of their claims in cash. The Plan contemplates that reorganized EUA Power would enter into the Plan Facility prior to the Effective Date. In addition, the Plan provides that reorganized EUA Power will retain a preference claim against EUA, as well as any other claims, including claims for breach of fiduciary duty, fraudulent conveyances, conversion and other causes of action and claims under a tax allocation agreement,[12] which EUA Power or its creditors may have against EUA or others for the benefit of reorganized EUA Power.[13] Upon consummation of the Plan, reorganized EUA Power will replace EUA Power as owner of the Seabrook interest.

After the confirmation of the Plan by the Bankruptcy Court, the Committee expects to enter into a commitment letter for the syndication of a secured revolving credit facility to finance the Plan.[14] The Plan Facility would be in a principal amount of not less than $45 million and not more than $60 million.[15] It is anticipated that reorganized EUA Power would issue warrants to the participants in the Plan Facility in the amount of the economic value of up to 15% of the equity interests in reorganized EUA Power on a fully diluted basis, excluding, however, any value attributable to recoveries that may be received as a result of any litigations. The Plan Facility is likely to bear interest at a floating rate of prime plus 5% to 7% *per annum*, with a minimum rate of 13% to 14%. Taking into account the various anticipated fees, the effective interest rate, with the base rate of 13%, is expected to be approximately 15.82% per annum.[16] It is expected that the Plan Facility will have a final maturity of no later than December 1997 and will be secured by a first priority lien and mortgage on all assets of reorganized EUA Power. In addition, EUA Power may be required to indemnify the lender and certain other indemnitees against any liabilities arising out of a commitment letter to provide the Plan Facility.

The Committee states that it will use its best efforts to obtain a Plan Facility on substantially the terms stated above. The Plan will not become effective unless such Plan Facility is obtained. In the event the Committee is unable to enter into a Plan Facility on above terms and the Committee deems it necessary to enter into a facility on terms materially less favorable than above terms, the Plan authorizes the Committee to enter into such other facility, subject to the approval of the Bankruptcy Court and any regulatory bodies with jurisdiction under applicable law, including this Commission.

In the meantime, EUA Power will continue to be funded by two of the joint owners of Seabrook, namely Connecticut Light and Power Company (CL&P) and United Illuminating Company ("UI"). By order dated August 21, 1992 (HCAR No. 25609), the Commission authorized CL&P, UI and EUA Power to extend the borrowing period to February 28, 1994 and to

---

11, or otherwise, shall be deemed to include all applications and declarations under the Act which would otherwise be required as to any action necessary to consummate such plan." The Plan contemplates the cancellation of existing equity securities currently held by EUA under section 12(c) and the sale of utility assets by EUA to the bondholders under section 12(d). The Committee requests that the Commission address these transactions under rule 64 notwithstanding that EUA has not requested approval under sections 12(c) and 12(d).

[7] It is contemplated that a total of 12 million shares of common stock, at $0.01 par value, will be issued by reorganized EUA Power and that such securities, when issued, will be fully paid and non-assessable. Reorganized EUA Power will use its good faith efforts to have the new securities listed for trading on a national stock exchange.

[8] As a condition to participation under the Plan a holder of the Note that desires to receive its proportionate share of the new securities must surrender such Note.

[9] In each instance, these equity percentages would be calculated prior to any dilution resulting from the issuance of any securities such as the warrants that may be issued as part of a financing facility ("Plan Facility") under the Plan, but would be subject to dilution by the issuance of the new securities that may be issued pursuant to a certain litigation trust to be established ("Litigation Trust").

[10] There is a dispute between the holders of Class One Claims and EUA with respect to whether the lien of Class One Claims includes the entitlement to the electricity associated with EUA Power's interest in Seabrook. EUA and EUA Power argue that the lien is confined to the real estate and equipment comprising Seabrook and not to the electricity and that virtually all of the new securities should be allocated to the holders of Class Three Claims. This valuation issue may not be resolved by the Bankruptcy Court until after the Plan is confirmed.

[11] The Plan, by its terms, will not become effective until certain conditions are satisfied or waived. The Effective Date will not be later than August 28, 1993 unless further extended by the Committee.

[12] EUA Power is a party to certain federal income tax allocation agreements between EUA and its subsidiary companies pursuant to rule 45(c). The Committee states that it believes that EUA Power is entitled to receive certain tax benefit payments, although the amount cannot be determined presently, under the tax allocation agreements. However, three of EUA's subsidiaries have filed proofs of claim in the amount of $8,176,789 against EUA Power claiming that they overpaid EUA Power for tax benefits due to EUA Power for the years 1988 and 1989.

[13] The preference suit against EUA in the amount of approximately $38 million was filed on May 30, 1991, contending that one of the factors leading to EUA Power's bankruptcy was its preferential transfers to EUA. In addition, the Committee sought leave of the Bankruptcy Court to file an adversary complaint on behalf of EUA Power and its creditors against EUA and others for a variety of tort, contract and bankruptcy law claims. The proceeds of such claims, if successful and depending on when such proceeds are received, will be used to pay down the Plan Facility or the DIP Financing (defined hereinafter) or for working capital or for general corporate purposes of reorganized EUA Power.

[14] The Committee obtained a commitment letter ("Shearson Commitment") from Shearson Lehman Brothers Inc. ("Shearson") to provide the Plan Facility. However, at a hearing on July 21, 1992, the Bankruptcy Court declined to approve entry into the Shearson Commitment apart from the confirmation process so that it will not be possible to obtain a committed Plan Facility prior to the confirmation of the Plan. The Shearson Commitment expired on July 22, 1992. The Committee states that, in order to ensure impartial, arms-length negotiations, it established a special subcommittee to negotiate with Shearson because Shearson is a member of the Committee.

[15] The Plan permits the Plan Facility to be in an amount less than $45 million in the event there are net proceeds from the litigations. In such event, the sum of the net proceeds from the litigations and the amount of the Plan Facility will be at least $45 million.

[16] This figure does not include the economic value of any warrants.

increase the borrowing amount from $15 million to $22 million ("DIP Financing").

In addition, the Plan provides that, during the period between confirmation of the Plan and the Effective Date, EUA Power must employ agents designated by the Committee to act as (1) a marketing agent to maximize the value of reorganized EUA Power's assets, and (2) a managing agent to manage and maintain EUA Power's business, pursuant to written agreements to be approved by the Bankruptcy Court and any regulatory body with jurisdiction under applicable law, including this Commission.[17] On the Effective Date, all directors of EUA Power shall be deemed to have resigned without any further action on the part of any person and the Committee shall appoint the new board of directors or reorganized EUA Power.

Upon consummation of the Plan, any bondholder that receives 10% or more of the new securities would become a "holding company" within the meaning of section 2(a)(7). The application-declaration states that any such bondholder will file a separate application prior to the Effective Date for an order under section 3(a)(4) exempting such bondholder from all provisions of the Act, except section 9(a)(2). The Plan will not become effective if such exemption is not granted by the Commission.

Indiana Michigan Power Company

[70-8044]

Indiana Michigan Power Company ("I&M"), One Summit Square, Ft. Wayne, Indiana 46801, an electric public-utility subsidiary company of American Electric Power Company, Inc., a registered holding company, has filed a declaration under Section 12(c) of the Act and rule 42 thereunder.

I&M intends to issue and sell, in one or more transactions from time-to-time through June 30, 1993, up to $30 million aggregate par value of one or more new series of its cumulative preferred stock, par value $25 per share and/or par value $100 per share ("Preferred"), in connection with its 1992 long-term financing program under rule 52 of the Act. If market conditions require the Preferred to include a sinking fund and/or an optional redemption provision, I&M requests authorization to acquire or redeem through the operation of such sinking fund or optional redemption provision up to the entire amount of the Preferred to be issued and sold.

It is expected that the Preferred will be subject to optional redemption at a price per share equal initially to the par value plus the annual dividend per share declining on an annual basis to par value not later than the year in which the Preferred would be retired pursuant to the provisions of the mandatory sinking fund, provided that, the Preferred could only be redeemed during the first five years at a price equal to par value plus the annual dividend. Also, if market conditions require, the Preferred may be issued for the same period subject to a provision prohibiting any redemption if accomplished through a borrowing or stock issuance at an effective cost less than the effective dividend cost of the Preferred.

The terms of the Preferred may also include a sinking fund provision pursuant to which I&M would be required to retire annually at par value, commencing not earlier than two years after the first day of the month in which shares of any particular series are first sold, a number of shares of such series equal to between 5% and 20% of the number of shares of such series initially issued. Such sinking fund provision may give I&M the option to retire annually an additional number of shares of such series equal to the number of shares of such series required to be retired annually pursuant to such sinking fund provision. Such provision would also give I&M the option to credit against any sinking fund requirement Preferred of that series previously purchased or otherwise acquired by I&M and not previously credited against any sinking fund requirement. It is proposed that I&M will decide on the necessity for a sinking fund provision and its pricing terms, and the precise redemption terms, if any, for each series of Preferred at a subsequent date, depending on market conditions at the time of issuance.

Entergy Corporation

[70-8055]

Entergy Corporation ("Entergy"), 225 Baronne Street, New Orleans, Louisiana 70112, a registered holding company, and its operating public-utility subsidiary companies, Arkansas Power & Light Company ("AP&L"), 425 West Capitol, 40th Floor, Little Rock, Arkansas 72201, Louisiana Power & Light Company ("LP&L") New Orleans Public Service Inc. ("NOPSI"), both located at 317 Baronne Street, New Orleans, Louisiana 70112, Mississippi Power & Light Company ("MP&L"), 308 East Pearl Street, Jackson, Mississippi 39201, (AP&L, LP&L, NOPSI and MP&L, collectively, "Operating Companies"), System Energy Resources, Inc., a nuclear generating public-utility subsidiary of Entergy ("SERI"), Entergy Operations, Inc., a nuclear management operating public-utility subsidiary of Entergy ("EOI"), both located at 1349 Echelon Parkway, Jackson, Mississippi 39213, System Fuels, Inc., a fuel supply subsidiary of the Operating Companies ("SFI") and Entergy Services, Inc., a service company subsidiary of Entergy ("Services"), both located at 639 Loyola Avenue, New Orleans, Louisiana 70113 have filed an application-declaration under sections 6(a), 7, 9(a), 10 and 12(b) of the Act and rules 40, 43 and 50(a)(5) thereunder.

Each of the applicants-declarants proposes, through November 30, 1994, to lend money to the Entergy system money pool ("Money Pool") through November 30, 1994. The Operating Companies, SERI, SFI, EOI and Services further propose, through November 30, 1994, to borrow from the Money Pool. Entergy may lend to the Money Pool, but may not borrow therefrom.

The Operating Companies and SERI propose to borrow from the Money Pool and/or issue and sell unsecured promissory notes to banks ("Notes") and commercial paper to commercial paper dealers ("Commercial Paper") (collectively, "Short-Term Borrowings") up to an aggregate principal amount of: (1) $255 million for AP&L; (2) $259 million for LP&L; (3) $113 million for MP&L; (4) $43 million for NOPSI; and (5) $238 million for SERI, in any combination thereof. The record is complete with respect to the Short-Term Borrowings of the Operating Companies and SERI up to an aggregate principal amount of: (1) $125 million for AP&L; (2) $125 million for LP&L; (3) $100 million for MP&L; (4) $43 million for NOPSI; and (5) $125 million for SERI. The Operating Companies and SERI request that the Commission reserve jurisdiction, pending completion of the record, over Short-Term Borrowings, up to an aggregate principal amount of: (1) $130 million for AP&L; (2) $134 million for LP&L; (3) $13 million for MP&L; and (4) $113 million for SERI, in any combination thereof.

The Notes will mature in less than one year from the date of issuance, and bear interest at a rate per annum no greater than 1.5 percentage points over the prime commercial bank rate in effect on the date of issuance or renewal or from time to time, depending upon the arrangements with the lending bank; provided that the rate of interest on the Notes may be based upon other market rates or indices such that, as a result of

[17] Such services are currently performed by EUA Service Corp., an affiliate of EUA Power, pursuant to a written service agreement. The Plan contemplates that such service agreement with EUA Service Corp. will be terminated as of the date the Plan is confirmed by the Bankruptcy Court.

fluctuations in such rates or indices, the rate may exceed, for certain brief periods, the above-described maximum rate of interest. However, the effective interest rate for any 30-day period, on an annualized basis, may not exceed the above-described maximum rate of interest.

The Commercial Paper will be in the form of unsecured promissory notes having varying maturities not to exceed 270 days. No commission or fee will be payable by the Operating Companies or SERI in connection with the issuance and sale of the Commercial Paper. The Operating Companies and SERI have requested authorization to issue the Commercial Paper under an exception from the competitive bidding requirements of Rule 50 under subsection (a)(5). The proceeds to be received by the Operating Companies and SERI from borrowings through Short-Term Borrowings will be used to provide interim financing for construction expenditures, to meet long-term debt maturities and satisfy sinking fund requirements, as well as for possible refunding, redemption purchase or other acquisition of all or a portion of certain outstanding series of high-cost debt and preferred stock.

SFI proposes to borrow from the Money Pool up to an aggregate principal amount of $65 million. The proceeds from the borrowings of SFI through the Money Pool or lines of credit available to SFI pursuant to other borrowing arrangements with one or more commercial banks will be used for the repayment of other borrowings and for the expenditures associated with the acquisition, ownership and financing of nuclear materials and related services and acquisition and ownership of fuel oil inventory.

EOI and Services propose to borrow up to $15 million and $90 million respectively, in any combination, from: (1) The Money Pool; (2) Entergy under loan agreements; and/or (3) banks pursuant to loan agreements.

By orders dated June 6, 1990 (HCAR No. 25100) and April 29, 1992 (HCAR No. 25526), EOI and Entergy were authorized, among other things, to enter into a loan agreement ("Loan Agreement") whereby EOI would borrow up to $15 million, at any one time outstanding through November 30, 1992. Borrowings by EOI from Entergy under the Loan Agreement were evidenced by a note. EOI and Entergy now propose to extend such authorization, through November 30, 1994, and provide for the issuance of a new note ("New Note") stated to mature on November 30, 1994. The New Note shall represent the borrowings of EOI from Entergy under the amended Loan Agreement ("New Loan Agreement") and replace and supersede the existing note and shall bear interest at a rate of the prime rate of interest publicly announced, from time to time, by Chemical Banking Corporation.

EOI further proposed to borrow up to an aggregate principal amount of up to $15 million from one or more banks pursuant a loan agreement(s) ("Bank Loan Agreements") by issuing unsecured promissory notes that bear interest at a rate per annum no greater than 1.5 percentage points over the prime commercial bank rate in effect on the date of issuance or renewal or from time to time, depending upon the arrangements with the lending bank; provided, that the rate of interest on the notes may be based upon other market rates or indices such that, as a result of fluctuations in such rates or indices, the rate may exceed, for certain brief periods, the above-described maximum rate of interest. The aggregate principal amount of borrowings by EOI outstanding at any one time pursuant to the Money Pool, the New Loan Agreement, the Bank Loan Agreements, and through such other borrowing arrangements as may hereafter be entered into by EOI pursuant to Commission authorization shall not exceed $15 million. The proceeds from borrowings by EOI through the Money Pool, the Loan Agreement, and the Bank Loan Agreement will be used to finance its interim capital needs.

By orders dated September 17, 1991 (HCAR No. 25376) and October 23, 1991 (HCAR No. 25395), the Commission authorized Services, among other things, through December 31, 1993, to borrow up to $90 million pursuant to: (1) A loan agreement entered into with Entergy ("Services Loan Agreement"); and/or (2) loan agreements with one or more banks which would correspondingly reduce the amount of Entergy's commitment to Services under the Services Loan Agreement. Borrowings by Services from Entergy under the Services Loan Agreement were evidenced by a note.

Services now proposed to extend such authorization, through November 30, 1994 pursuant to an amendment to the Services Loan Agreement ("New Services Loan Agreement") and a new loan agreement with one or more banks ("New Bank Loan Agreements"). Services' borrowings under the New Bank Loan Agreements would correspondingly reduce the amount of Entergy's commitment to Services under the New Services Loan Agreement.

Borrowings under the New Services Loan Agreement will be evidenced by the issuance and sale of a new note ("New Services Note") stated to mature on November 30, 1994. The New Services Note shall replace and supersede the existing note and shall bear interest at a rate of the prime rate of interest publicly announced, from time to time, by Chemical Banking Corporation. Borrowings under the New Bank Loan Agreements will be evidenced by the issuance and sale of unsecured bank notes by Services to one or more banks and would be at the same terms as those of EOI's Bank Loan Agreements discussed above. The aggregate principal amount of borrowings by Services outstanding at any one time pursuant to the Money Pool, the New Services Loan Agreement, the New Bank Loan Agreements and through such other borrowing arrangements as may hereafter be entered into by Services pursuant to Commission authorization shall not exceed $90 million. The proceeds from the borrowings by Services through the Money Pool, the New Services Loan Agreement and the New Bank Loan Agreements will be used for repayment of other borrowings, ongoing expenditures incurred in connection with the purchase of the Bulk Power Management system, the purchase of micro-computers and other computer equipment and furnishings, the implementation leasehold improvements to office space, the purchase and acquisition of aircraft to replace older aircraft, and the ongoing construction of an Entergy System management training and conference center.

Entergy proposes to guarantee: (1) EOI's obligations under the Bank Loan Agreements; and (2) Services' obligations under the New Bank Loan Agreements.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Rel. No. IC-18996; 811-5733]

Woodstock Collective Investment Trust; Deregistration

October 2, 1992.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of application for deregistration under the Investment Company Act of 1940 (the "Act").

APPLICANT: Woodstock Collective Investment Trust.

RELEVANT ACT SECTIONS: Section 8(f).

SUMMARY OF APPLICATION: Applicant seeks an order declaring that it has ceased to be an investment company.

FILING DATE: The application was filed on July 17, 1992, and amended on September 8, 1992 and September 29, 1992.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on October 27, 1992, and should be accompanied by proof of service on the applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicant, 181 Second Street South, Wisconsin Rapids, Wisconsin 54494.

FOR FURTHER INFORMATION CONTACT: John V. O'Hanlon, Staff Attorney, at (202) 272-3922, or Elizabeth G. Osterman, Branch Chief, at (202) 272-3016 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicant's Representations

1. Applicant was an open-end, diversified investment company organized as a collective investment trust under Wisconsin law. Applicant filed a Notification of Registration pursuant to section 8(a) of the Act on May 25, 1989. Applicant filed a registration statement pursuant to the Securities Act of 1933 and section 8(b) of the Act on June 20, 1989, which was declared effective on May 30, 1991.

2. Applicant offered five portfolios for the collective investment and reinvestment of monies held in accounts for which the Wood County Trust Company (the "Trustee") serves as trustee and possesses investment discretion. Accounts included individual retirement trust accounts, simplified employee pension plans, and single or commingled tax qualified pension or profit sharing trusts. The Trustee is empowered with managing the funds of an account in its trustee capacity.

3. Applicant determined that it was not beneficial to continue the use of the portfolios offered by it, primarily as a result of the Wisconsin Commissioner of Banking's requirement that applicant comply with regulations of the Office of the Comptroller of the Currency which conflicted with certain provisions of the Act. Applicant's Supervisory Committee approved the termination and liquidation of one of the portfolios on September 9, 1991, and the remaining four portfolios on October 22, 1991. At such time, the Supervisory Committee directed the Trustee to liquidate the portfolios and distribute all proceeds to security holders. As a result, applicant sold all securities held by it at market prices through brokers transactions. Applicant distributed the proceeds of such sales to security holders *pro rata* based upon their ownership of units of benefical interest. Such distribution was completed as of November 1, 1991.

4. Expenses incurred in connection with the liquidation consisted of accounting expenses and brokerage commissions. Such expenses were allocated to accounts *pro rata* based upon their ownership of units of beneficial interest. Applicant's legal and organizational expenses were paid by the Trustee.

5. As of the date of the application, applicant had no security holders, assets, or liabilities, and was not a party to any current or pending litigation or administrative proceeding.

6. Applicant is not engaged, and does not propose to engage, in any business activities other than those necessary for the winding-up of its affairs.

7. Applicant's existence as a collective investment trust was terminated upon applicant's liquidation on October 31, 1991. Applicant filed appropriate documents with the Wisconsin Office of the Commissioner of Securities to effect applicant's liquidation under state law.

For the SEC, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area #2589]

North Carolina Declaration of Disaster Loan Area

Pender County and the contiguous counties of Bladen, Brunswick, Columbus, Duplin, New Hanover, Onslow, and Sampson in the State of North Carolina constitute a disaster area as a result of damages caused by flooding which occurred on August 17-19, 1992. Applications for loans for physical damage may be filed until the close of business on November 9, 1992 and for economic injury until the close of business on June 8, 1993 at the address listed below: U.S. Small Business Administration, Disaster Area 2 Office, One Baltimore Place, Suite 300, Atlanta, GA 30308 or other locally announced locations.

The interest rates are:

	Percent
For physical damage:	
Homeowners with credit available elsewhere	8.0
Homeowners without credit available elsewhere	4.0
Businesses with credit available elsewhere	8.0
Businesses and non-profit organizations without credit available elsewhere	4.0
Others (including non-profit organizations) with credit available elsewhere	8.50
For economic injury:	
Businesses and small agricultural cooperatives without credit available elsewhere	4.00

The number assigned to this disaster for physical damage is 258906 and for economic injury the number is 769700.

(Catalog of Federal Domestic Assistance Program Nos. 59002 and 59008)

Dated: September 8, 1992.

Patricia Saiki,

Administrator.

BILLING CODE 8025-01-M

DEPARTMENT OF TRANSPORTATION

Order Adjusting International Cargo Rate Flexibility Level

Policy Statement PS-109, implemented by Regulation ER-1322 of the Civil Aeronautics Board and adopted by the Department, established geographic zones of cargo pricing flexibility within which certain cargo rate tariffs filed by carriers would be subject to suspension only in extraordinary circumstances.

The Standard Foreign Rate Level (SFRL) for a particular market is the rate in effect on April 1, 1982, adjusted for the cost experience of the carriers in the applicable ratemaking entity. The first adjustment was effective April 1, 1983. By Order 92-8-38, the Department established the currently effective SFRL adjustments.

In establishing the SFRL for the two-month period beginning October 1, 1992, we have projected non-fuel costs based

on the year ended June 30, 1992 data, and have determined fuel prices on the basis of the latest available experienced monthly fuel cost levels as reported to the Department.

By Order 92–10–7 cargo rates may be adjusted by the following adjustment factors over the April 1, 1982 level:

Atlantic—1.2688

Western Hemisphere—1.1938

Pacific—1.6383

For further information contact: Keith A. Shangraw (202) 366–2439.

By the Department of Transportation: October 5, 1992.

Patrick V. Murphy,

Deputy Assistant Secretary for Policy and International Affairs.

[FR Doc. 92–24569 Filed 10–8–92; 8:45 am]

BILLING CODE 4910–62–M

[Docket No. 37554]

Order Adjusting the Standard Foreign Fare Level Index

The International Air Transportation Competition Act (IATCA), Public Law 96–192, requires that the Department, as successor to the Civil Aeronautics Board, establish a Standard Foreign Fare Level (SFFL) by adjusting the SFFL base periodically by percentage changes in actual operating costs per available seat-mile (ASM). Order 80–2–69 established the first interm SFFL, and Order 92–8–40 established the currently effective two-month SFFL applicable through September 30, 1992.

In establishing the SFFL for the two-month period beginning October 1, 1992, we have projected non-fuel costs based on the year ended June 30, 1992 data, and have determined fuel prices on the basis of the latest available experienced monthly fuel cost levels as reported to the Department.

By Order 92–10–4 fares may be increased by the following adjustment factors over the October 1979 level:

Aflantic—1.5414

Latin America—1.4438

Pacific—2.1028

Canada—1.4624

For further information contact: Keith A. Shangraw (202) 366–2439.

By the Department of Transportation: October 1, 1992.

Patrick V. Murphy,

Deputy Assistant Secretary for Policy and International Affairs.

BILLING CODE 4910–62–M

Office of the Secretary

U.S.-Brazil Service; Notice Inviting Applications

By this Notice we invite U.S. air carriers interested in providing scheduled combination service as the third designated carrier for service between the United States and Brazil to file certificate applications to provide such service.

In August 1991 the Department instituted the *U.S.-Brazil Combination Service Case* to select one primary and one backup carrier/gateway for scheduled combination service between the United States and Brazil (Orders 91–8–4 and 91–8–25). Subsequent to the hearing in this proceeding, but prior to the issuance of the Administrative Law Judge's decision, Pan American World Airways, Inc., one of the two designated carriers serving Brazil, ceased all air services and applications were filed with the Department for transfer of Pan American's Latin America authority to United Air Lines, including its U.S.-Brazil route authority. In light of these circumstances, the Department terminated the *U.S.-Brazil Combination Service Case*, Stating that the issues were best considered after completion of the pending route transfer application (Orders 92–3–44 and 92–8–19).

By order 92–7–9, the Department approved the transfer of Pan American's U.S.-Brazil as well as other Latin and South American authorities to United Air Lines. As that case is completed, we are now prepared to consider the issue of new U.S. carrier combination service in the Brazil market and applications by carriers interested in providing that service beginning in calendar year 1993 as the third designated carrier.[1] Nine weekly frequencies are currently available for these services.[2] Effective January 1, 1993, an additional five frequencies, for a total of fourteen weekly frequencies, will be available for combination services.

Certificate applications to provide combination service in the U.S.-Brazil market should be filed no later than October 19, 1992. Answers (including competing applications) shall be due no later than October 26, 1992, and further responsive pleadings no later than November 2, 1992. Applications should be filed pursuant to part 302, subpart Q.[3] Docket numbers will be assigned individually by the Department for each application received.[4] Applications should be filed with the Department's Docket Section, room 4107, 400 Seventh Street, SW., Washington, DC 20590. Procedures for acting on the applications filed will be established by future Department order.

Should no combination carriers be interested in serving Brazil in 1993, we might consider using that designation for all-cargo operations. Under the U.S.-Brazil bilateral aviation agreement, the United States may designate a total of five U.S. carriers provided that no more than three designations are used for combination services. Therefore, carriers that are interested in using the designation as the third U.S. carrier for all-cargo services should notify the Director, Office of International Aviation, by letter of their interest no later than October 26, 1992.[5]

This notice will be served on all certificated U.S. air carriers and will be published in the **Federal Register.**

Dated: October 5, 1992.

Jeffrey N. Shane,

Assistant Secretary for Policy and International Affairs.

[FR Doc. 24628 Filed 10–8–92; 8:45 am]

BILLING CODE 4910–62–M

[1] American Airlines and United Air Lines are the two other designated combination carriers serving the market.

[2] American and United have been allocated these frequencies temporarily (seven to American, two to United) pending a final decision on use of the frequencies on a long-term basis. See Order 92–8–57.

[3] We expect applications to include all of the information required by subpart Q.

[4] Interested carriers should not file their applications in the former *U.S.-Brazil Combination Service Case*, Docket 47678, since that case has been terminated.

[5] Federal Express and Challenge Air Cargo are the two air carriers already designated for all-cargo service.

[Order 92–10–8; Docket 48199]

Application of Executive Flight Management d/b/a Trans American Charter, Ltd. for a Domestic Charter Certificate

AGENCY: Department of Transportation.

ACTION: Notice of Order to Show Cause.

SUMMARY: The Department of Transportation directing all interested persons to show cause why it should not issue an order finding Executive Flight Management d/b/a Trans American Charter, Ltd., fit and awarding it a certificate of public convenience and necessity to engage in interstate and overseas charter air transportation of persons, property, and mail.

DATES: Persons wishing to file objections should do so no later than October 19, 1992.

ADDRESSES: Objections and answers to objections should be filed in Docket 48199 and addressed to the

Documentary Services Division (C–55, room 4107), U.S. Department of Transportation 400 Seventh Street, SW., Washington, DC 20590 and should be served upon the parties listed in Attachment A to the order.

FOR FURTHER INFORMATION CONTACT: Mrs. Kathy Lusby Cooperstein, Air Carrier Fitness Division (P–56, room 6401), U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590, (202) 366–2337.

Dated: October 2, 1992.

Patrick V. Murphy, Jr.,

Deputy Assistant Secretary for Policy and International Affairs.

BILLING CODE 4910–62–M

Federal Highway Administration

Environmental Impact Statement; Kauai, Hawaii

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement (EIS) will be prepared for a proposed highway project in the County of Kauai, State of Hawaii.

FOR FURTHER INFORMATION CONTACT: William B. Lake, Division Administrator, Federal Highway Administration, P.O. Box 50206, Honolulu, Hawaii 96850, Telephone: (808) 541–2700.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the State of Hawaii, Department of Transportation, Highways Division, will prepare an Environmental Impact Statement for proposed improvements to Kuhio Highway (FAP 56) on the island of Kauai. This proposed project would involve either the widening, bypassing, or some combination of the two along Kuhio Highway between Hanamaulu and Kapaa.

The purpose of the proposed project is to provide a ground transportation system within the study corridor that will provide for the safe, convenient, and economical movement of people and goods. There is a need to improve Kuhio Highway within this study corridor to alleviate current traffic congestion and provide sufficient highway capacity to meet the expected increase in traffic volumes over the next 20 years.

There are a total of ten alternatives under consideration which includes taking no action (No Action Alternative). The nine remaining build alternatives involve the widening, bypassing or some combination of the two along Kuhio Highway. Design variations of grade and alignments are planned to be incorporated into and studied with the various build alternatives.

Letters along with copies of the State EIS Preparation Notice describing the proposed project and soliciting comments will be sent to appropriate Federal, State, and County agencies, and to private organizations and individuals. Two public informational meetings are planned to be held on Kauai to receive comments and concerns from the public on alternatives being considered. In addition, a formal public hearing will be held after publication of the Draft EIS for the proposed project. Public notices will be appropriately given of the time and place these meetings and hearing will be held. The Draft EIS will be available for public and agency review and comment.

The ensure that all pertinent and significant issues related to this proposed project are addressed, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed project and the EIS to be prepared should be directed to the FHWA at the address provided above.

Issued on: October 1, 1992.

Abraham Wong,

Assistant Division Administrator, Honolulu, Hawaii.

BILLING CODE 4910–22–M

Research and Special Programs Administration

[Docket No. 48383; Notice No. 92–16]

Air Carrier Groupings for Publications

AGENCY: Research and Special Programs Administration, DOT.

ACTION: Notice.

SUMMARY: This notice requests comments on the criteria the Department uses to group large certificated air carriers for the purpose of publishing financial, traffic, and other statistical information on the air transportation industry.

DATES: Comments submitted in response to this notice must be received on or before December 8, 1992.

FOR FURTHER INFORMATION CONTACT: M. Clay Moritz, Jr. or Jack M. Calloway, Office of Airline Statistics, DAI–10, Research and Special Program Administration, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590–0001, (202) 366–4385 and 366–4383, respectively.

SUPPLEMENTARY INFORMATION:

Background

Prior to 1981, air carriers were grouped, for publication purposes, based on the type of operation being performed by the carrier, as designated by the carrier's certificate. For example, two of the groups were "trunk" and "local service" air carriers.

A "trunk" air carrier was defined as a class of certificated rout air carriers receiving original certification under the "grandfather clause" of the Civil Aeronautics Act (August 22, 1938) and whose primary operations were in domestic scheduled passenger service between medium and large air traffic hubs. In addition, these carriers may have had authority for scheduled all-cargo, scheduled international passenger and/or cargo, and nonscheduled service.

By comparison, a "local service" carrier was defined as a group of air carriers originally established in the late 1940's to foster and provide scheduled air service to small and medium communities on relatively low density routes and to feed that traffic to trunk air carriers. Over time, these carriers evolved from their "feeder" operations into "regional" operations with their own distinct route networks.

With the passage of the Airline Deregulation Act of 1978 (Pub. L. 95–504), the air transportation industry began a dynamic period of transition to a deregulated operating environment. One of the cornerstones of deregulation was the elimination, as of December 31, 1981, of the authority of the Civil Aeronautics Board (CAB) to regulate the domestic routes that a carrier could serve. Thus, carrier managements were given the freedom to make major changes to their domestic route networks by exercising the right to enter and exit markets as they saw fit.

During 1981, the CAB renamed the air carrier groups because the certificate designations had become meaningless. It also revised the methodology used to group large certificated air carriers for comparative purposes in its recurrent air transportation statistical publications, such as the Air Carrier Financial Statistics Quarterly and the Air Carrier Traffic Statistics Monthly. A "large certificated air carrier" is an air carrier operating under a certificate of public convenience and necessity issued under section 401 of the Federal Aviation Act of 1958, as amended, using aircraft with over 60 seats or over 18,000 pounds of

payload capacity, or operating internationally (14 CFR 241.03).

As a result, the criterion for grouping carriers was changed from the type of certificate operation conducted to the level of total annual operating revenues. The 1981 initial grouping of carriers was based on the total annual operating revenue boundaries shown below:

Carrier groups	Carriers with annual operating revenues of
Majors	$1,000,000,000+
Nationals	$75,000,000–$1,000,000,000
Large Regionals	$10,000,000–$74,999,999
Medium Regionals	$0–$9,999,999

In early 1991, the revenue boundaries were re-evaluated in light of the increase in airline operating revenues. As a result, the air carrier groupings for financial and statistical aggregation and analysis were restructured based on the revised operating revenue levels shown below.

Carrier groups	Carriers with annual operating revenues of
Majors	$1,000,000,000+
Nationals	$100,000,000–$1,000,000,000
Large Regionals	$20,000,000–$99,999,999
Medium Regionals	$0–$19,999,999

Request for Comments

The Department is currently reviewing the grouping of large certificated air carriers in various statistical publications to determine if further adjustment of the operating revenue criteria is needed. The aggregation of air carriers into the various group classifications is intended to facilitate data analysis and carrier comparisons. Carrier groupings are reflected in publications that are issued by the Research and Special Programs Administration (RSPA). They also affect consumer publications, issued by the Department's Office of the Secretary, that contain tables based upon airline economic data collected by RSPA.

RSPA is requesting comments from the airline data user community as to whether there is a need to change the carrier group criteria. Comments supporting change should describe what groupings are recommended.

The Department further requests that comments submitted in support of changing the criteria for grouping carriers include, in detail, the reasons for supporting a particular change as well as an explanation how the change would improve the overall value of the data used to measure and analyze trends within the air transportation industry.

Issued in Washington, DC on October 5, 1992.

Richard R. John,

Acting Associate Administrator for Research, Technology and Analysis, Research and Special Programs Administration.

BILLING CODE 4910–62–M

DEPARTMENT OF VETERANS AFFAIRS

Advisory Committee on Former Prisoners of War; Meeting

The Department of Veterans Affairs gives notice under Public Law 92–463 that a meeting of the Advisory Committee on Former Prisoners of War will be held at The Department of Veterans Affairs Medical Center, 1000 Bay Pines Blvd. N., St. Petersburg, FL 33504, from October 21, 1992, through October 23, 1992. The meeting will convene at 9 a.m. each day and will be open to the public. Seating is limited and will be available on a first-come, first-served basis.

The purpose of the Committee is to advise the Secretary of Veterans Affairs on the administration of benefits under Title 38, United States Code, for Veterans who are former prisoners of war, and to make recommendations on the need of such veterans for compensation, health care and rehabilitation.

The Committee will receive briefings and hold discussions on various issues affecting health care and benefits delivery, including, but not limited to, the following: education and training of VA personnel involved with former prisoners of war; the status of privately and publicly funded research affecting former prisoners of war; past and current legislative issues affecting former prisoners of war; the various disabilities and sequelae of long-term captivity; and the procedures involved in processing claims for service-connected disabilities submitted by former prisoners of war.

Members of the public may direct questions or submit prepared statements for review by the Committee in advance of the meeting, in writing only, to Mr. J. Gary Hickman, Director, Compensation and Pension Service (21), room 275, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC, 20420. Submitted material must be received at least five business days prior to the meeting. Members of the public may be asked to clarify submitted material prior to consideration by the Committee.

A report of the meeting and a roster of Committee members may be obtained from Mr. Hickman.

Dated: September 28, 1992.

By Direction of the Secretary.

Diane H. Landis,

Committee Management Officer.

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors will meet in open session at 10:00 a.m. on Tuesday, October 13, 1992, to consider the following matters:

Summary Agenda:

No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of minutes of previous meetings.

Reports of actions approved by the standing committees of the Corporation and by officers of the Corporation pursuant to authority delegated by the Board of Directors.

Memorandum re: Delegation of authority to issue rulings on procedural matters in enforcement proceedings.

Memorandum re: Review of the Corporation's 1991/1992 Business Plan.

Memorandum of Understanding relating to the Inter-Agency Clearinghouse Pilot Program for affordable Housing.

Discussion Agenda

Memorandum and resolution re: Proposed amendments to Part 330 of the Corporation's rules and regulations, entitled "Deposit Insurance Coverage."

Memorandum and Resolution re: Proposed statement of policy for FDIC-supervised banks regarding notices of branch closing.

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550—17th Street, NW., Washington, DC.

The FDIC will provide attendees with auxiliary aids (e.g., sign language interpretation) required for this meeting. Those attendees needing such assistance should contact Llauger Valentin, Equal Employment Opportunity Manager, at (202) 898-6745 (Voice); (202) 898-3509(TTY), to make necessary arrangements.

Requests for further information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 898-6757.

Dated: October 6, 1992.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,
Executive Secretary.

BILLING CODE 6714-0-M

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 10:30 a.m. on Tuesday, October 13, 1992, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors, pursuant to sections 552b(c)(2), (c)(4), (c)(6), (c)(8), (c)(9)(A)(ii), (c)(9)(B), and (c)(10) of Title 5, United States Code, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Reports of the office of Inspector General.

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, termination-of-insurance proceedings, suspension or removal proceedings, or assessment of civil money penalties) against certain insured depository institutions or officers, directors, employees, agents or other persons participating in the conduct of the affairs thereof:

Names of persons and names and locations of depository institutions authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" [5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)].

Note.—Some matters falling within this category may be placed on the discussion agenda without further public notice if it becomes likely that substantive discussion of those matters will occur at the meeting.

Discussion Agenda:

Matters relating to the liquidation of a depository institution's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 47,818 (Amendment)
Silverado Banking, Savings and Loan Association, Denver, Colorado
Case No. 47,829 (Amendment)
Various Failed Depository Institutions, Nationwide

Matters relating to the possible closing of certain insured depository institutions:

Names and locations of depository institutions authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" [5 U.S.C. 552b(c)(8), (c)(9)(A)(ii), and (c)(9)(B)].

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" [5 U.S.C. 552b(c)(2) and (c)(6)].

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550—17th Street, NW., Washington, DC.

Requests for further information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 898–8757.

Dated: October 6, 1992.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

BILLING CODE 6714-0-M

LEGAL SERVICES CORPORATION BOARD OF DIRECTORS COMMITTEE MEETING

Notice

TIME AND DATE: Meetings of the Legal Services Corporation Board of Directors Provision for the Delivery of Legal Services, Office of the Inspector General Oversight, and Audit and Appropriations Committees will be held on October 18, 1992. The meetings will commence at 12:00 p.m. and will be held in the following order, with each meeting continuing until all business has been concluded:

1. Provision for the Delivery of Legal Services Committee;
2. Office of the Inspector General Oversight Committee; and
3. Audit and Appropriations Committee.

PLACE: The Legal Services Corporation, 750 1st Street, NE., The Board Room, Washington, DC 20002, (202) 336–8896.

Provision for the Delivery of Legal Services Committee Meeting

STATUS OF MEETING: Open.

MATTERS TO BE CONSIDERED:

1. Approval of Agenda.
2. Approval of August 8, 1992 Meeting Minutes.
3. Consideration of Status Report on the Staff Analysis of Law School Clinical Programs.
4. Consideration of Status Report on Development of Options for a Loan Repayment Program for the Recruitment and Retention of Staff Attorneys of LSC-Funded Grantees.
5. Consideration of Status Report on the Alternative Dispute Resolution Project.

Office of the Inspector General Oversight Committee Meeting

STATUS OF MEETING: Open, except that a portion of the meeting may be closed if a majority of the Board of Directors votes to hold an executive session. At the closed session, pursuant to receipt of the aforementioned vote, the Committee will consider and vote on approval of the draft minutes of the executive session held on August 10, 1992. In addition, the Committee will hear and consider the report of the Inspector General on several investigations. The closing will be authorized by the relevant sections of the Government in the Sunshine Act [5 U.S.C. Sections 552b(c)(7) (C) and (D)], and the corresponding regulation of the Legal Services Corporation [45 CFR Sections 1622.5(f)(3)].[1] The closing will be certified by the Corporation's General Counsel as authorized by the above-cited provisions of law. A copy of the General Counsel's certification will be posted for public inspection at the Corporation's headquarters, located at 750 First Street, NE., Washington, DC, 20002, in its two reception areas, and will otherwise be available upon request.

MATTERS TO BE CONSIDERED:

Open Session:

1. Approval of Agenda.
2. Approval of Minutes of August 10, 1992 Meeting.
3. Consideration of Inspector General's Report on the General Activities of the Office of the Inspector General.
4. Consideration of Inspector General's Report on the Fiscal Year 1993 Budget Request for the Office of the Inspector General.

Closed Session:

5. Approval of Minutes of August 10, 1992 Executive Session.

Open Session: (Resumed)
